How To Use The Blue Book

*Fundamental points to understand
in order to use the Blue Book
conveniently and effectively*

First:

Turn to the folded *General Index Map* facing next page. Locate your starting point and destination on this map.

Second:

If unfamiliar with the location of your starting point or destination, see *General Index of Towns* following Sectional Index Maps which begin on page 16. First page of *General Index of Towns* explains how to locate the desired town by key number and letter.

Third:

Now note the *Route Number* on the black line of the map with arrow pointing in the direction of your travel.

Fourth:

Turn to the corresponding *Route Number* (not page number) in the book for complete running directions.

Fifth:

Where there is an option of routes, select the one desired by referring to *Route Chart*, page 4. (*Preferable routes are indicated by heavy lines.*) This chart, which gives mileages, can also be used for quick reference in selecting long tours.

(For further detailed information see pages 12-13.)

Table of Contents, page 11, gives location of the various maps and subjects included in this volume.

General Index Map of Automobile Routes in Volume 6

*Showing Main Highways
in Southeastern States with
correct geographical loca-
tion of cities and towns.*

For convenience this folded General Index Map has been subdivided into sections and reproduced on pages 16-25.

General Index Map shows all routes in this volume with correct geographical location of towns and cities.

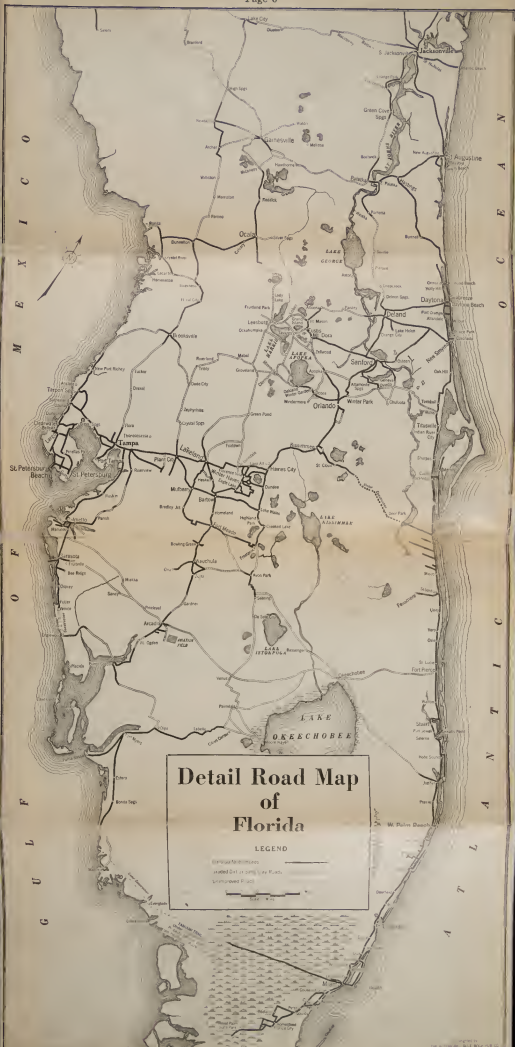

Route Chart of main routes (page 4) shows route numbers, mileages and terminals only. A ready reference to main routes between cities and large towns.

Street Maps For maps of cities and towns refer to General Index of cities and towns, pages 26-70, and for list of National Advertisers, page 71.

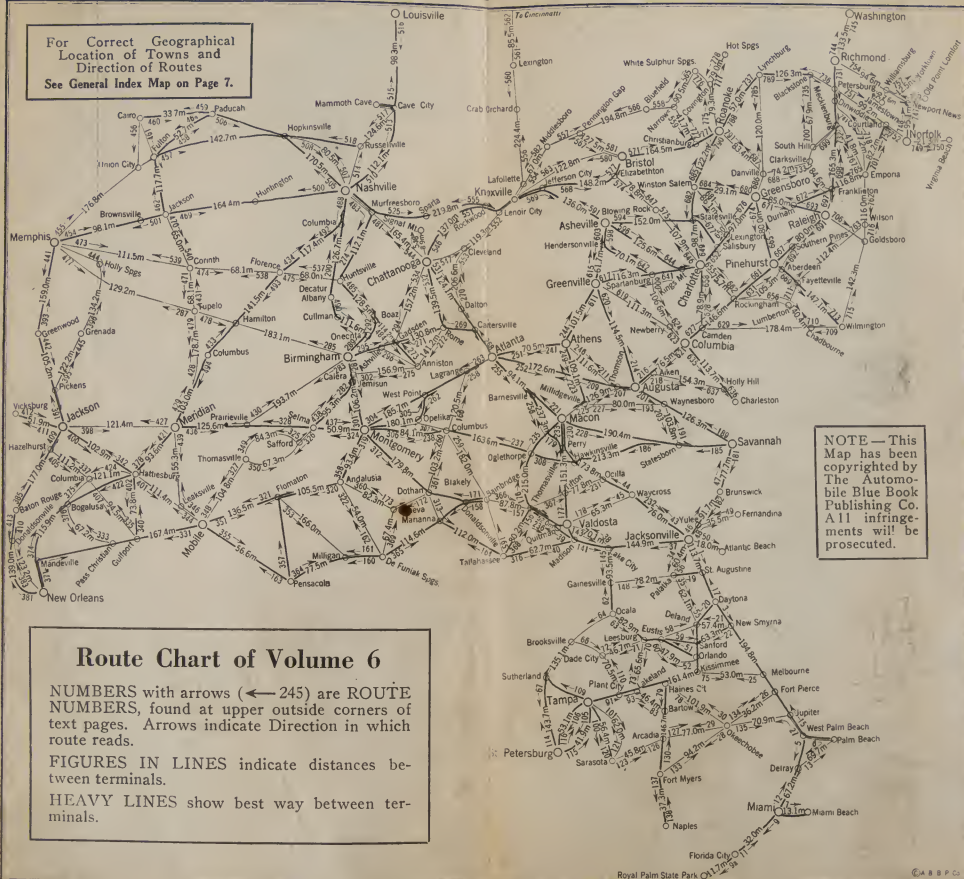

The Table of Contents page 11, shows where to find all of the features in this volume.

Character of Roads given in text immediately preceding running directions for each route, will materially aid in the selection of tours.

Points of Interest are noted on the pages where the route matter pertains to their locality.

For Correct Geographical
Location of Towns and
Direction of Routes
See General Index Map on Page 7.

Intentionally Blank Page

Every - where

No matter where you tour you are not far from one of the thousands of garages displaying the famous Michelin Sign—the hallmark of quality in the tire world.

Every one of these dealers will supply you with Michelin Cord or Fabric casings, and the famous ring-shaped Michelin Tubes, the best you can buy, at prices you can rely upon as fair.

*Remember the Michelin
Sign and what it stands for*

Michelin Tire Co., Milltown, N. J.

Automobile Blue Book 1 9 2 0

"Standard Road Guide of America"

Established 1901

Volume Six

Alabama, Florida, Georgia,
Louisiana, Mississippi, North
and South Carolina and Ten-
nessee, with extension routes
into Illinois, Kentucky and
Virginia.

THE Blue Books cover the entire United States and Southern Canada in thirteen volumes (see insert between pages 328 and 329). They tell you where to go and how to get there, giving complete maps of every motor road, running directions at every fork and turn, with mileages, all points of local or historical interest, state motor laws, hotel and garage accommodations, ferry and steamship schedules and rates. A veritable motorist's encyclopedia.

DU PONT AMERICAN INDUSTRIES

GET TOP VALUE

There is superlative protection—enduring service—in Rayntite Top material. Under its beautiful exterior are all the essential qualities—the inbuilt strength and stamina that give top value.

DU PONT
FABRIKOID
RAYNTITE

must be satisfactory. Its ample guarantee—a Du Pont guarantee—insures this. A trim Rayntite Top will give your car the distinctive elegance that compels admiration. Its extra cost is more than repaid by its final economy.

If your local auto trimmer does not carry Rayntite, he can get it from us promptly. Insist upon its use—it is worth while.

Motor Quality Fabrikoid

is a durable, beautiful, sanitary and economical material for re-covering torn or shabby auto upholstery.

A new top and new cushions
may save you buying a new car

Write for samples and literature, giving us the name of your nearest auto trimmer.

DU PONT FABRIKOID CO.

HOW TO USE

The Trip:—This route and number corresponds to the route and number you have picked from the General Index Map or the Route Chart.

The Return Trip:—The same complete directions are given reversed.

Description of Trip:—Tells you via what principal towns you travel, the condition of the roads, etc.

Total Mileage:—This column shows how far you have gone. Keep your odometer set to check with these mileages.

Mileages Between Points:—This column shows the distance between points enroute.

Running Directions:—Direct you at every prominent fork or turn in the road. So clear you can't go wrong.

Danger Points:—Warn you in advance of bad hills, sharp turns or rail road grade crossings.

Hotels and Garages:—Tells you where good, reliable accommodations can be found enroute.

City Map:—When you reach a town the City Map shows you the general layout of the town, the street names and the best and quickest way through town. There are hundreds of these maps in every volume.

Points of Interest:—Tell you what is interesting to see enroute. Like a personal guide it adds to the pleasure of the trip.

1st—Know what is in your book

2nd—To find your destination

Table of Contents

All indexes are combined into one index so that you will find everything pertaining to any town under that town, on pages 26-72.

Table of Contents:

Found on page 11. A complete indexed outline of everything in the book. For instance, the description, and page number of every map in the book is clearly outlined; also how to find the Index of Towns, Hotels, Garages, Ferries, Motor Laws, Points of Interest, etc.

General Index of Towns:

	Location	Detail Map
	General	Bank of Book
	Index Map	Pages 835-873
	Page Seven	Plate Key
		P-7
ATLANTA, GA.
City Map, page 308; Points of Interest, page 308		
HOTELS—Hotel Ansley, N. Forsyth, near Peachtree (Page 309).		
Hotel Aragon, Peachtree & Ellis (Page 567).		
The Cecil Hotel, Luckie St., near Peachtree (Page 567).		
The Georgian Terrace Hotel, Peachtree St. at Ponce de Leon Ave. (Page 567).		
GARAGES—Cain Street Garage, 12-14 E. Cain St. (Page 567).		
Detroit Electric Garage, 33-35 E. North Ave. (Page 567).		
Folsom Garage, Cone & James Sts (Page 565)		

General Index of Towns:

Found on pages 26 to 72. Always turn to this index to locate a town. The key to the right for Atlanta (271) is the location on the folded map, pages 3 to 8. This index tells you where good Hotels, Inns, Garages, Service Stations, etc., are located and on what page to find the Points of Interest on City Map of each town.

3rd—To find how to get there

4th—To find main traveled roads

General Index Map:

Found on page 7. Having found the location of your destination on this map, pick out the route number or numbers leading there from your starting point. (For full information about numbers and arrows see directions on the map itself.) Having found your route numbers, then turn to the route chart—see explanation following.

Route Chart:

Found on page 4. Shows you the main traveled highways indicated by the heaviest lines. This map is for laying out longer trips and shows only towns that are route centers or that have converging or intersecting routes passing through them.

THE BLUE BOOK

Athens Section

Route 241

Route 241—Athens to Atlanta, Ga.—70.5 m.

Reverse Route 251.

—MILEAGE— Distance Total Between Mileage Points		Via Statham, Winder, Lawrenceville and Decatur. Sand-clay road to within 6½ miles of Atlanta, then asphalt and macadam. Thru rolling farming country, devoted mostly to cotton raising.
0.0	0.0	ATHENS , College Ave. & Washington St., large brick church on right. Go north with trolley on College Ave.
0.1	0.1	Hancock Ave., city hall on left; turn left.
0.3	0.2	Pulaski St.; turn right with trolley.
0.4	0.1	Prince Ave.; meeting cross trolley, turn left. Avoid left-hand diagonal road where branch trolley leaves.
1.6	1.2	4-corners, store on left; turn left away from trolley, passing State Normal School beyond on right.
3.2	1.6	Fork; bear left across small iron bridge. Caution for RR. 5.4
7.9	4.7	Bear right with trolley

70.2, keeping ahead with trolley on Peachtree St. Avoid right-hand diagonal street 70.2.

70.5 0.6 **ATLANTA**, Peachtree & Marietta Sts., bank on right.

HOTELS—Hotel Ansley, No. Forsyth near Peachtree St.

Hotel Aragon, Peachtree & Ellis.

The Cecil Hotel, Luckie St. near Peachtree.

The Georgian Terrace Hotel, Peachtree St. at Ponce de Leon Ave.

Imperial Hotel, Peachtree & Ivy Sts.

Piedmont Hotel, Peachtree, Forsyth & Luckie Sts.

Hotel Winecoff, Cor. Peachtree & Ellis.

GARAGES—Cain Street Garage, 12-14 E. Cain St.

Detroit Electric Garage, 33-35 E. North Ave.

Folsom Garage, Cone & James Sts.

POINTS OF INTEREST, ATLANTA, GA.

Atlanta (pop. 180,000—alt. 1032 ft.), called the Gate City, is the capital of Georgia. It is situated on the Chattahoochee ridge, which divides the watershed of the Atlantic from that of the

Gulf of Mexico. This ridge is at the base of the Blue Ridge and the Chattahoochee river flows 7 miles southeast of the town.

Atlanta is one of the important railroad centers of the south; in fact, it is

When Planning an Extensive Trip

VOLUME T

1920 Edition

Volume T is the new Transcontinental Edition of the Blue Book, covering in **ONE** volume all of the main trunk-line highways of the entire United States.

Volume T is prepared specially for Transcontinental and Long-Distance Tourists. No local or side routes whatever are given. For these, secure the regular numbered volumes shown on the map below.

On sale wherever Blue Books are sold

SAFEGUARD YOUR MONEY

On Your Motor Trip

The Travelers Cheque system was originated, in 1891, by the American Express Company, to protect the money of travelers at home and abroad. The success of the plan to provide a safe, convenient, and universally-accepted form in which to carry travel funds, is attested by the fact that Travelers Cheques are now known and used the world around. Travelers by railroad, steamship or motor have come to regard them as indispensable.

Banks, tourists' agencies and express offices sell these sky-blue Travelers Cheques, bound in neat leather folders, at a charge of fifty cents for each \$100. The Cheques are in denominations of \$10, \$20, \$50, \$100, \$200.

You sign them when you buy them. Then, wherever you are, at any time of day or night, on banking days or Sundays, whenever you wish to pay a bill or make a purchase, you tear out a Cheque and sign it again in the presence of the person accepting it. The two signatures identify you, immediately, without question and without the embarrassment sometimes incidental to cashing a personal check.

American Express Travelers Cheques protect you against loss. Thieves do not seek them, for the Cheques can be cashed only by your signature, and the penalty for forgery is a heavy one.

Should the Cheques be lost or destroyed, the filing of certain protective papers with the American Express Company restores you the amount of the uncountersigned Cheques.

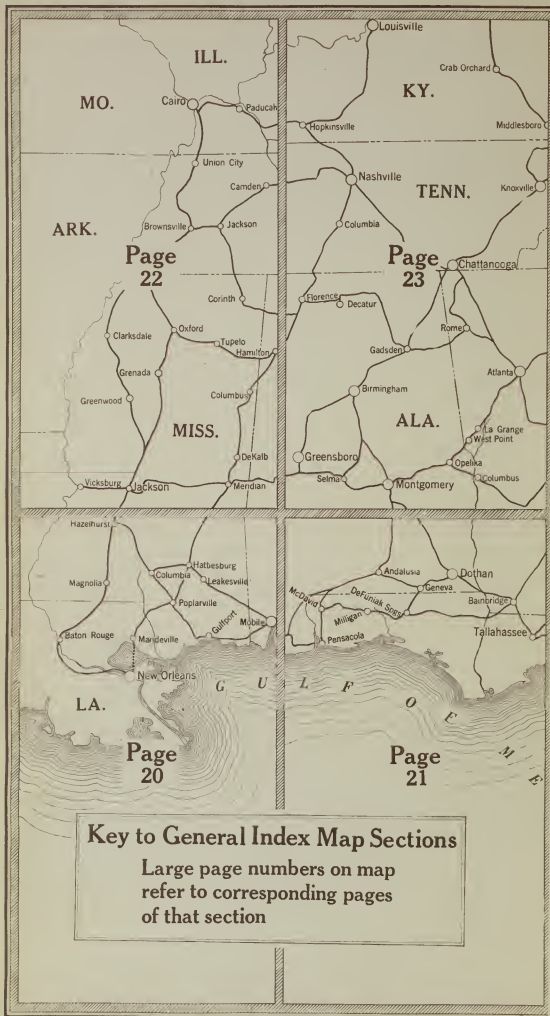

They are negotiable at express offices and banks throughout the United States, Canada and abroad. Hotels prefer them, good garages, service stations, stores, shops, and restaurants readily accept them in payment.

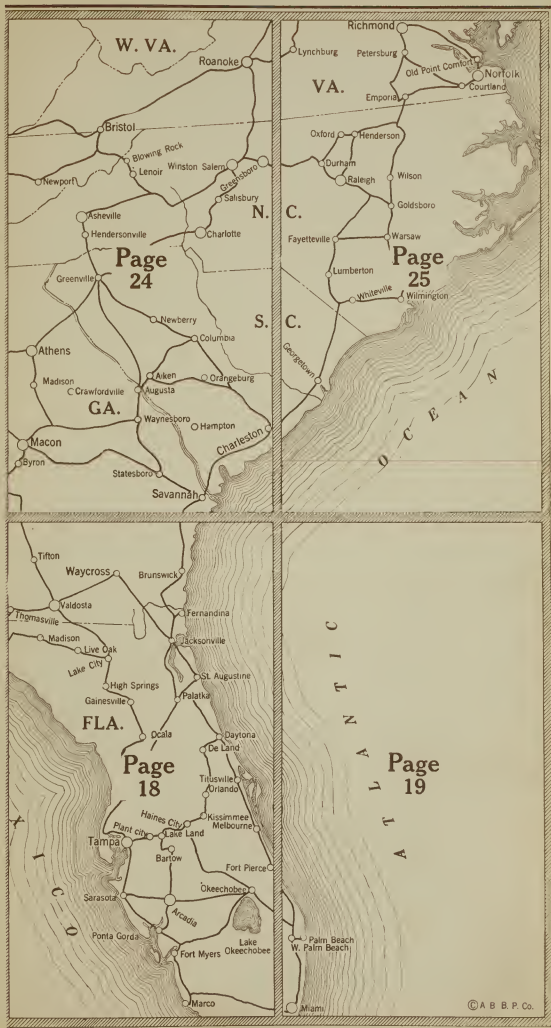

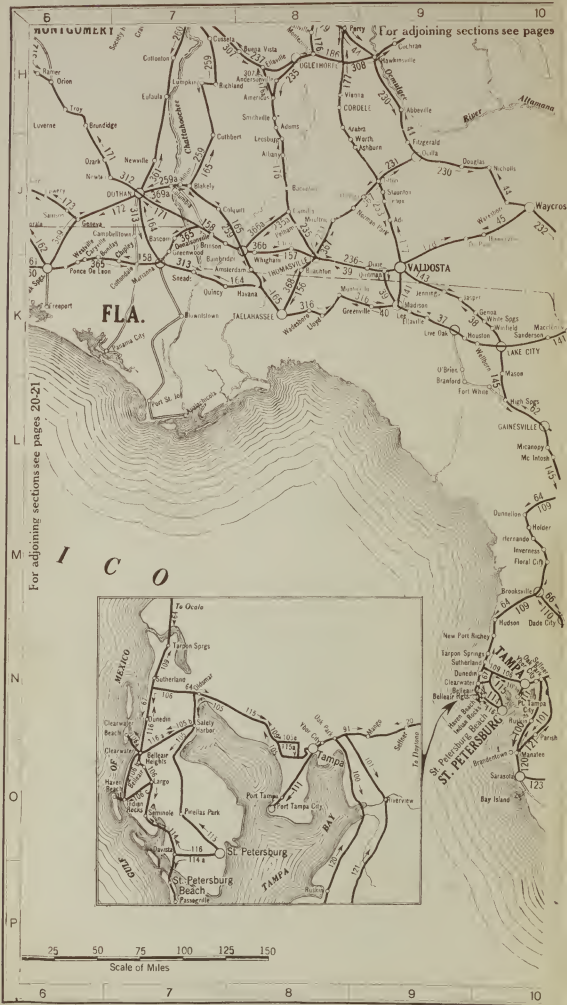

Obtainable at
Express Offices
and Banks

"Spendable Everywhere"

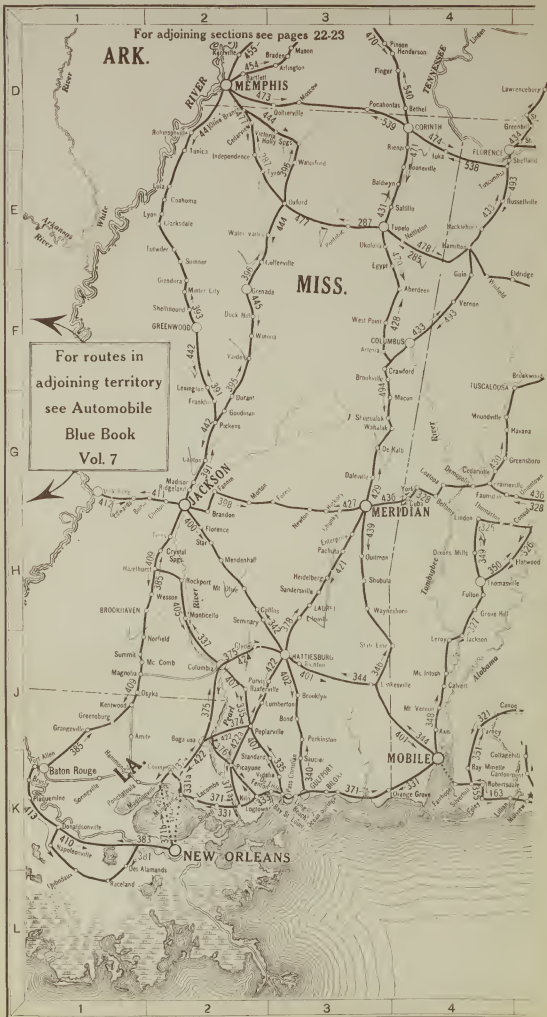

AMERICAN EXPRESS TRAVELERS CHEQUES

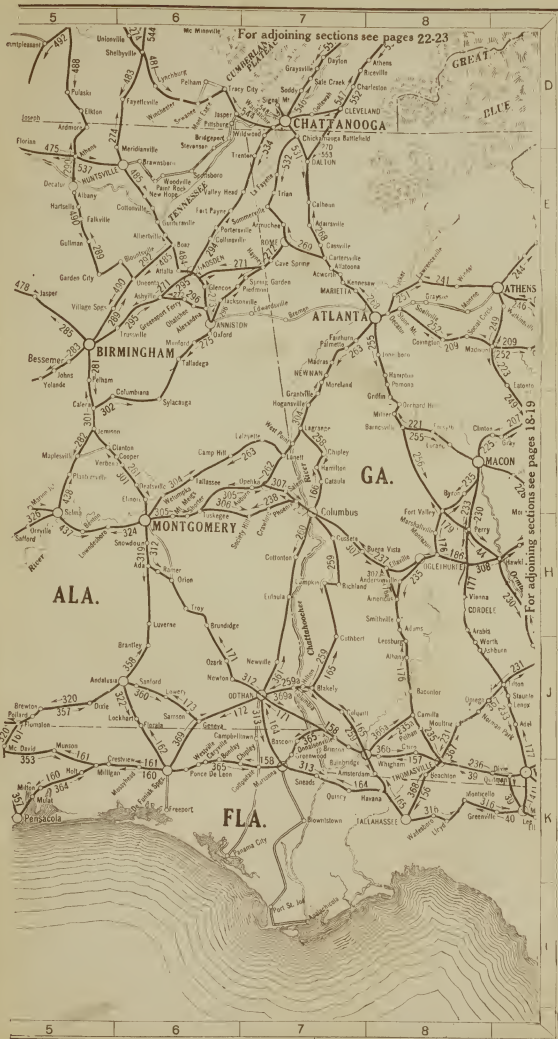

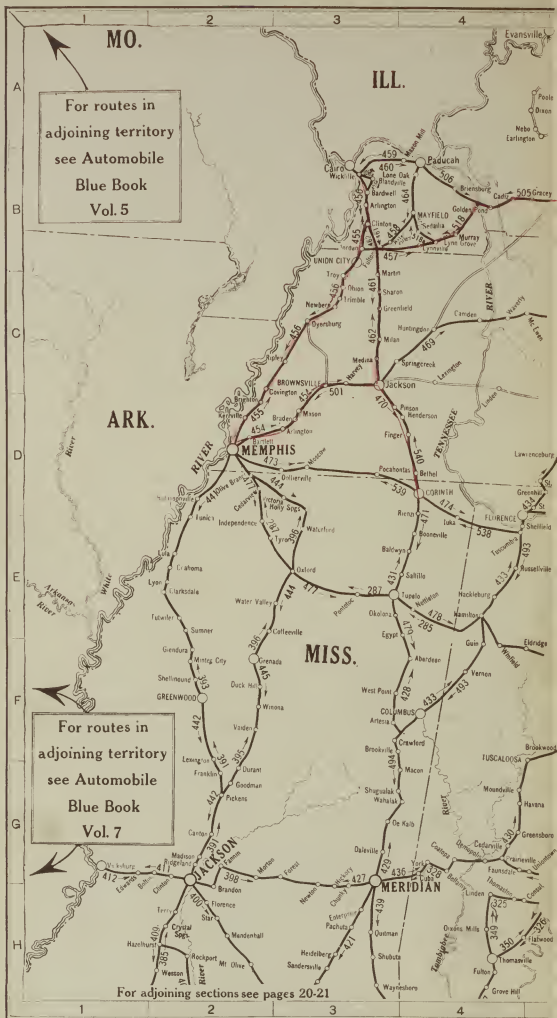

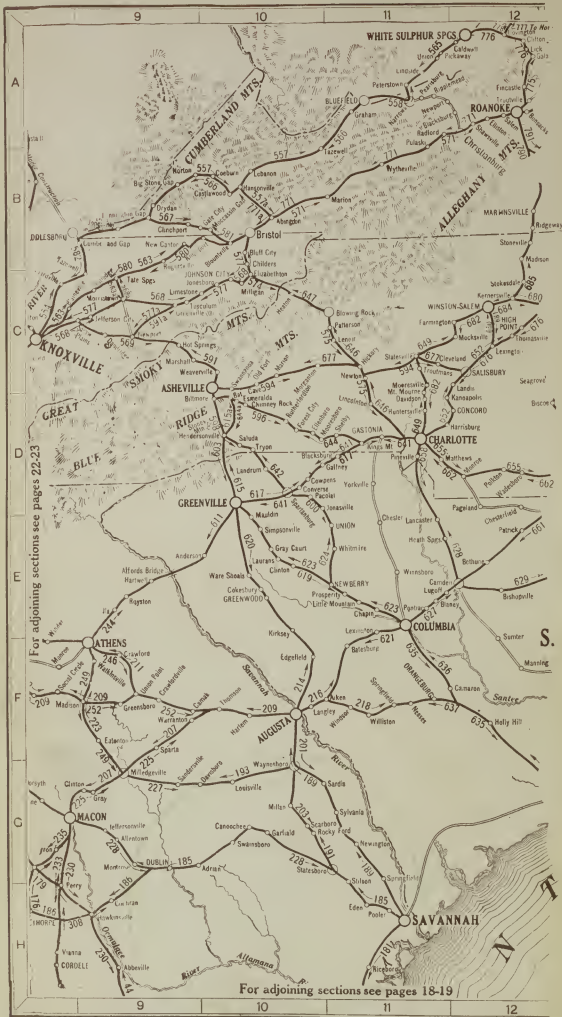

For adjoining sections see pages 22-23

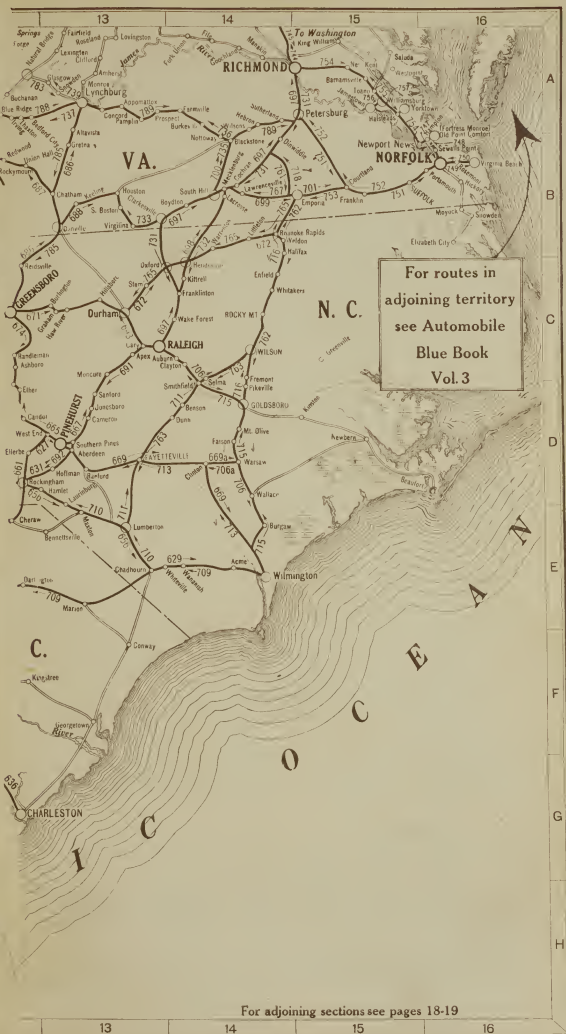

For adjoining sections see pages 18-19

General Index

The following 44 pages make up the complete index for this Volume, containing a list of:

Cities and Towns

Under important towns a list of—

Hotels
Restaurants
Garages
Ferries
Service Stations
and

Under towns *not* located on map, a list of route numbers on which they will be found.

The **key** (i. e. A-3, K-5, etc.) given under heading of General Index Map, indicates the location of each town on the folded **general index map** in the front of the book, which, for convenience, is reproduced in sections on pages 16-25.

To locate a town on the map by the key—

Find the corresponding key letter and number on the margin of the map.

Now draw an imaginary straight line from both letter and number.

The town will be found at or near the intersection of these lines. (*See Illustration.*)

Where **City Maps** are given in this volume, page numbers indicating their location will be noted under the name of town.

Where **Points of Interest** are given, a line to this effect, showing page number, will be noted under name of town.

Page numbers listed after **Hotels, Restaurants, Garages, Service Stations, etc.**, indicate location of their advertisement in this Volume. National Advertisers are listed on page 71.

See **Table of Contents (Page 11)** for location of various other subjects covered by this book not listed above.

GENERAL INDEX of towns with key to location on General Index Map (page 7) and on Detail Road Maps (pages 835 to 873). Where towns are not shown on General Index Map the route numbers on which they appear are given. List of national advertisers, page 71.

WHEN IN DOUBT

Ask Mr. Foster He Probably Knows

Ask him at any of his offices or write him about your travel problems. He maintains a thoroughly systematized organization of trained specialists for supplying, without charge, advice and information concerning travel by all known methods, and concerning schools, camps and educational tours. All of these offices are especially equipped with maps, tour books and printed data of many sorts for giving reliable information to automobile tourists. No fees are asked or ever accepted.

Ask Mr. Foster Offices at

The POINTS OF INTEREST

In the Automobile Blue Book

have been most carefully compiled for the benefit of the touring public. There are thousands of scenic, historic and commercial features which the motorist should see and know about as he covers the ground. Our country is teeming with past legend, present day achievements and future hopes and aspirations; the cities offer much in the way of sight-seeing and pleasure, while each rural section has its own peculiar attraction. Learn of these things, see them and enjoy them to the fullest extent by reading the *Points of Interest* in the Blue Book.

These *Points of Interest* are given in foot-notes thruout the book except in cases where we publish a city map, in which event they will be found with the map. Wherever possible in the larger cities we have outlined a way that will be quickest and best to see these cities, given a schedule of the important buildings with their open hours and a list of the most popular short trips in and about the vicinity. This, we believe, will be of particular advantage to the tourist who has but limited time in which to see much.

We have devoted much time and effort toward making this data complete, accurate and strictly up-to-date and if you will but take advantage of the *Points of Interest* we feel confident they will add materially to the pleasure of your tour.

Should you find anything interesting on your trip that we have not recorded in the *Points of Interest*, we will appreciate your informing us, so that we may tell others about it in next year's Automobile Blue Book.

The NATION'S PLAYGROUND

Reached by the St. Petersburg and Gulf Highway from Georgia connections, and by the Jacksonville and St. Petersburg Highway from ocean connections at Jacksonville.

Florida East Coast Section

POINTS OF INTEREST, JACKSONVILLE, FLA.

Jacksonville (pop. 112,000, alt. 43 ft.) is situated on the west bank of the St. John's river, about 14 miles from its mouth. It is the largest city of the state and its commercial center. Jacksonville has a good harbor and the river is navigable for 200 miles above the city, whence Jacksonville is commonly

known as the northern gateway to Florida. Its mild and equable climate, which during the winter averages 53 deg. F., has made it a much frequented resort. It is one of the largest orange markets in the world and also has some of the largest naval stores in the U. S. It is the site of a marine hospital and

(Jacksonville Points of Interest, Concluded from Page 74.)
of a confederate soldiers' home. At Black Point is located camp Joseph E. Johnston, a training cantonment for officers and enlisted men of the quartermasters corps, mobilized and field artillery, and the headquarters of the correspondence school for officers training, together with the government's present largest remount station.

The chief business streets of Jacksonville are Bay St. and Forsyth St., parallel with the river, and Laura St. and Main St., at right angles with it. Good views of the city and river may be obtained from the viaduct which leads from Bay St. to Riverside Ave., and from the ferry which runs from the foot of Newman St. to South Jacksonville. The

city was founded in 1822 and named after Gen. Andrew Jackson. It was occupied three times by the federal army during the civil war. In 1901 about 2,600 buildings were destroyed by fire, so that the greater part of the city is practically new.

A pleasant excursion may be taken by boat on the St. John's river to Mandarin, which was the winter home of Harriet Beecher Stowe; Prince Talleyrand of France lived there also. A side trip may be taken to Atlantic Beach and Pablo Beach, over splendid brick roads. Atlantic Beach is used by many motion-picture manufacturers to represent desert scenes.

Tampa Florida

A map of Florida is not complete without a visit to the West Coast and TAMPA — the second largest city of Florida. Tampa is easy of access, with good motor roads and is the center of social — as well as industrial life on the West Coast. Write the Tampa Board of Trade for full details.

Tampa Florida

Tampa is the Garden Spot of the West Coast

Everything the motor tourist desires in comfort, convenience or luxury is at your disposal—the best and most modern accommodations in Florida—excellent golf courses open to the public—perfect bathing beaches and golf fishing that is unexcelled.

In 20 years Tampa has grown from a small village to a city known the world over for its industry and social life. It is the commercial jobbing center of Southern Florida. A city without a chimney—yet it makes the whole world smoke, for here, more than a million cigars are made a day.

Come to Tampa—enjoy its natural beauties—its bracing salt air—its varied sports and its charming social life.

Everything for the Automobile

De Soto
Hotel

Route 1—Jacksonville to Daytona, Fla.—113.7 m.

Reverse Route 17.

Via St. Augustine, Hastings, Ormond, Daytona Beach and Seabreeze. Brick, shell- and asphalt all the way. This is the main shore route south from Jacksonville. Great caution should be exercised when passing cars, as the deep sand at the sides of these nine-foot roads is very dangerous.

At Ormond an optional road via Holly Hill and Kingston may be used. This is a very pretty drive over asphalt road and along the west bank of the Halifax river.

*St. Augustine, Fla. (pop. 5,500, alt. 7 ft.), is the most ancient town in the United States and one of the most picturesque and interesting. It is situated on a narrow peninsula between Mantanzas sound and the St. Sebastian river. The city is a fashionable winter resort with many palatial hotels which though modern have been built in harmony with the old Spanish architecture of the early city, many of whose characteristic features happily still remain. All the older streets are very narrow. The ancient Spanish houses are built of coquina, or shell-limestone, and have overhanging balconies and gardens. The squares of the city as well as the gardens are delightful with their growth of palmetto, Spanish bayonet, orange and citron trees and date palms.

The history of St. Augustine begins in 1512 when the Spaniard, Ponce de Leon, in search of the Fountain of Youth, landed near the Indian village of Seloy, on or near the present site of the city. The town, however, was not founded till 1565. In 1564 a colony of French Huguenots under Rene Laudonnaire had settled at the mouth of the St. John's river. Philip II of Spain, an ardent Catholic, wanted no Protestant colony in his trans-oceanic domains and sent an expedition under Don Pedro Menendez to exterminate the invaders. To accomplish his object he landed at Seloy Sept. 8, 1565, and built the Fort of St. Augustine. During the century following St. Augustine passed through many vicissitudes. In 1811 the United States, being about to engage in war with Great Britain, seized St. Augustine together with the rest

of Florida to prevent its being taken by the British. In 1819 the United States by its purchase of Florida from Spain made St. Augustine a city of the United States but did not take possession until July 10, 1821. From this time St. Augustine began to be known as a winter resort, though there was no great influx of northerners until after the termination of the troubles with the Seminole Indians in 1842.

The ancient Spanish city extended north from the Franciscan convent, whose site is now occupied by the St. Francis barracks, to the Castle of San Marco, now Fort Marion, a distance of nearly a mile. From the castle westward to the San Sebastian river extended a moat and wall to defend the city against encroachments from the mainland. The moat may still be traced along Orange street. The only remaining evidence of the wall is the old city gate, a most picturesque ruin, consisting of two pillars 20 feet high with 30 feet of the original wall on each side and two stone sentry boxes. Outside the city gate is the old Huguenot graveyard.

Fort Marion is the most interesting and best preserved relic of the Spanish city, and is a fine specimen of the military engineering according to the system of defense of Vauban, Marshal of France, who served for a time with the Spaniards under Conde. The fort, built of coquina, was in process of construction for 100 years and except for a water battery added by the United States government in 1842, it is as when completed in 1756. It is surrounded by a moat and glacis and has bastions at the four chief angles, each

(St. Augustine Points of Interest, Concluded from Page 78.)

protected by a watch tower. Entrance is over a drawbridge over each end of which are the Spanish coat of arms and a Spanish inscription. Among the interesting features pointed out by the guard are the chapel, the dungeon, and the casemate from which the Seminole Chief Coacoochee, who was confined here with Osceola during the Seminole war, 1835-42, made his escape. The Seminole Chief Osceola died here of fever. The Spaniards named the fort San Marco; it received its present name of Fort Marion in 1821.

At an early period a sea wall of coquina was built against the encroachments of the tide from the Castle of San Marco to the Franciscan convent, a distance of $\frac{3}{4}$ of a mile. This wall was rebuilt by the United States government, 1835-1842, and capped with a coping of granite 3 feet in width. St. Francis barracks at the end of the sea wall includes some of the walls of the old convent of St. Francis. Guard mount and dress parade with military music are an attraction to visitors.

Half way between the fort and the barracks and commanding a view of Mantanzas sound and the island of Anastasia is the Plaza de la Constitución, a small public park. In the center of the square is a shaft of marble erected 1812-13 in commemoration of the adoption of the Spanish Liberal Constitution in 1812. From this monument the park takes its name. On the north side of the plaza is a confederate war monument and the Roman Catholic cathedral begun in 1793 and rebuilt on an enlarged scale after the fire of 1887. In this fire the front wall of the cathedral was left almost intact and was incorporated in the present structure. The old bell bearing the date 1682 was also preserved. On the west side of the Plaza is the post office and customhouse, which was formerly the residence of the Spanish governors. On the east side of the Plaza is the old market, sometimes erroneously called the "slave market." Along the south side of the plaza runs the Alameda, a continuation of King street.

On the right of the Alameda and just west of the postoffice is the huge Ponce de Leon hotel designed by Carrere & Hastings in the style of the Spanish Renaissance. It is one of the most magnificent buildings on the continent, costing with its furnishings over \$2,000,000. Built of concrete with red-tiled roofs and brick and terra cotta details, the color scheme in the ancient and tropical set-

ting is wonderfully beautiful. The rotunda is surrounded by four galleries elaborately ornamented with marble, carved oak and mural paintings, which with those of the loggia and dining room form a complete pictorial history of Florida. From the towers 165 feet high there is a fine view.

On the opposite side of the Alameda are the Cordova hotel, the Alcazar, and the Villa Zorayda; all, like the Ponce de Leon, surrounded by beautiful gardens. The Alcazar, facing the Ponce de Leon, is also by Carrere & Hastings and in the Spanish style. The other two hotels are the first two examples of the adaptation of monolithic concrete architecture to modern buildings. Franklin W. Smith was the architect. The Villa Zorayda is in Moorish style with suggestions from the Alhambra.

From the northwest corner of the Plaza to the old city gate runs St. George street, only 17 feet wide and one of the quaintest and most picturesque streets in the city. It is the main thoroughfare and traverses the very center of the town. Treasury street, which crosses St. George street one block north of the Plaza, is only 7 feet wide at its eastern extremity. In St. Francis street, opposite the barracks, stands the old Huguenot house now used as an historical museum of Florida. It is considered the oldest house in the United States. It was built by the Huguenots in 1564, occupied by Franciscan monks from 1565-80 and from 1590 until 1882 was in the possession of the same family. Among other noteworthy buildings are Grace church designed by Carrere & Hastings and situated at the corner of Cordova and Carrere streets and the Memorial Presbyterian church by the same architects. It is in the Venetian Renaissance style and was erected by Mr. Flagler in memory of his daughter.

Anastasia island may be reached by bridge from the foot of King street. Among things of interest there are the old Coquina quarries, from which was obtained the material for the sea wall and the ancient Spanish buildings of St. Augustine, the lighthouse, the South Beach and a collection of alligators, sea turtles and marine curiosities. There is also a burning spring, the water of which may be ignited with a flame and will burn like alcohol, but it is possible to pass through the flames a handkerchief or piece of cotton without its being ignited.

HOTELS—Hotel Ormond.

GOLF CLUBS—Ormond Beach Club.

Right across long wooden bridge is optional road to Daytona, via Ormond, Holly Hill and Kingston. A very pretty drive over asphalt road and along the west bank of the Halifax river.

Straight thru across RR on Halifax Ave.

*Hastings, Fla. (pop. 400, alt. 11 ft.), on the brick road from St. Augustine, is one of the greatest Irish potato sections in the south. This international vegetable is here produced early enough to compete with the Bermuda potato. In the early spring, when the negro potato diggers gather in large numbers for work in the fields, the town presents a most animated scene. Negro men and women come from all parts of the state to attend what they term "Murphy's Carnival," and they make merry while they work, and in the

evenings there mingle with them a horde of camp followers, fakirs, banjo players and singers in motley garb.

*Ormond, Fla. (pop. 800, alt. 4 ft.), in Volusia county, is situated on the Halifax river, which is separated from the ocean and famous 30 mile beach, on which many motor records have been established, by a peninsular one-half mile wide. The new roads of asphalt and brick construction are of the best and form a link in the Dixie highway.

*Seabreeze, Fla. (pop. 600, alt. 18 ft.) situated across the river at the north end of Daytona, was founded in 1892 by C. C. Post and wife, Helen Wilmans Post, both of whom had at that time quite some reputation as writers. It is located on a peninsula between the Halifax river and the Atlantic ocean and the residential portion of the town is largely made up of handsome winter homes of wealthy and distinguished people from the east, west, north and south. Splendid golf grounds are near the sea, extending across the peninsula to the river. The river front

all along this part of the peninsula has a more or less continuous ridge and in many places may be seen shell mounds, evidence of the one time presence of a great population of Indians. S. A. Man's story of the Huguenots gives a vivid description of the Indians, their hospitality to the stranded Huguenots, their untiring efforts with the latter in a victory over the Spaniards sent out from St. Augustine and the romance and marriage of Princess Issena to a young French officer.

POINTS OF INTEREST, DAYTONA, FLA.

Daytona (pop. 7,000, alt. 9 ft.) is situated on the Halifax river near the Atlantic, nearly midway on the east coast, and is the railroad station for Seabreeze and Daytona Beach, into which it merges by indistinguishable gradations and with which it is connected by four bridges and automobile lines. Daytona combined with these adjacent village forms the largest town on the east coast between St. Augustine and Miami, and is one of the most important tourist centers of Florida. It is in no sense a fashionable resort like Palm Beach or St. Augustine, but has the special charm that comes from a great number of private residences. The town is attractive and trim and, with the great natural

beauties of its situation and of the surrounding country, offers the tourist an unusual number of excursions and a great variety of outdoor sports.

Pre-eminent among these are the pleasures of the beach, over 30 miles long and the very best part of which begins at Daytona. From there stretching in a long curve to Mosquito Inlet are 12 miles of the "broadest, hardest, smoothest beach, the most perfect automobile course in the world." At high tide the beach is too soft for motoring, but at all other times it is alive with vehicles of every description, and with horseback riders, bicycles, pedestrians and bathers, for finer surf bathing cannot be found. At low tide the beach boulevard

is 500 feet wide. In the early days of motor racing many of the world's records were established on the Ormond-Daytona beaches.

The Halifax river, on which Daytona has a frontage of two miles, is fringed with oaks and palmettos interspersed with huge oleanders, rose and orange trees and tropical vegetation. It abounds in fish, and good hunting may be found within a radius of a few miles.

Beach street, on which are the post office and the principal shops, follows the river, being separated from it by a park of varying width. The street affords fine water views and is the chief promenade of the town. The river is here crossed by three bridges. Near the south bridge is the house of the Halifax river yacht club. The "City Island" north of the south bridge has been improved as a park and contains the free library and reading room.

Ridgewood avenue, which runs parallel to Beach street along the crest of a ridge from which the town slopes to the river, is the most beautiful street of Daytona. Here are situated the handsomest private residences and hotels. Giant oaks from whose branches

the gray Spanish moss hangs heavily, form a tunnel of verdure over the roadway and create a singular but beautiful vista.

Daytona originally formed a part of the Williams land grant which was developed as a sugar plantation but abandoned during the Seminole war in 1835. On Ridgewood avenue at the corner of Loomis stands some wrecked machinery supposed to be the ruins of an old sugar mill in use on this early plantation. It is a curiously interesting fact that in this as in other Florida ruins the metal is untouched by rust.

The present Daytona was founded in 1870 by Mathias Day of Mansfield, Ohio, who named it Tomoka, from the name of the noblest tribe of Floridian Indians. The following year Thomas Saunders, a well known landscape gardener of Washington, undertook the æsthetic development of the place and changed the name to the more commonplace Daytona in honor of its founder.

The Triple Cities Chamber of Commerce, which is the booster organization of Daytona, Daytona Beach and Seabreeze, will send information, booklets, etc., to inquirers upon request.

POINTS OF INTEREST, DAYTONA BEACH, FLA.

Daytona Beach (pop. 3,000, alt. 9 ft.), which is continuous with the Seabreeze and Ormond beaches, is situated on the Halifax peninsula. In the neighborhood are the remains of many old Spanish houses and canals. There is a golf course near by and the woods are interlaced with attractive walks. The population is largely drawn from the north,

but the residents remain in their cottages during the winter and return to the northern resorts in the summer. There are many hotels, restaurants and boarding houses. In the early days of motor racing many of the world's records were established on the Ormond-Daytona beaches.

Route 3—Daytona to West Palm Beach and Palm Beach, Fla.—194.8 m.

Reverse Route 15.

Via New Smyrna, Titusville, Cocoa, Rockledge, Eau Gallie, Melbourne, Vero, Ft. Pierce and Stuart. Hard road all the way. First 8 miles asphalt, next 120 miles shell, last 67 miles oiled rock. The asphalt and oiled rock are much better than the shell. The shell wears out very easily and its condition depends entirely upon the maintenance given it.

This is the second link of the East coast boulevard between Jacksonville and Miami and one of the most important routes in the state. The entire route is along the Indian river, which is separated from the Atlantic ocean by a narrow strip of land. It goes through numerous winter resorts, passing groves, citrus fruit and pineapple fields. It is interesting to note the more tropical stages of foliage and plants as one traverses southward and the last few miles finds the tourist among cocoanut and royal palms, hibiscus, oleanders and other tropical flowers. A good part of the surrounding territory is undeveloped wooded country. There is excellent fishing all along the way.

The route can be terminated at either West Palm Beach or Palm Beach, the latter being across Lake Worth from West Palm Beach.

HOTELS—Allanwood Inn, on Ridgewood Ave.

*Port Orange, Fla. (pop. 300, alt. sea-level), is situated on the Halifax river 5 miles south-east of Daytona. It prides itself on being a quiet and inexpensive resort. A new bridge one mile long across the Halifax river connects with the ocean beach. There is a fine

beach for driving and an asphalt road leads to Daytona. An interesting side trip may be taken to the ruins of an old sugar mill probably built during the time of the British occupation.

34.6 5.1 End of road; turn right.

42.3 7.7 End of road; turn right.

42.4 0.1 Mims, 4-corners at RR. Turn left along same. Curve right across RR 42.9.

44.6 2.2 Irregular 4-corners; turn left with shell.

44.7 0.1 Right-hand road; turn right past stucco school.

46.7 2.0 End of road; turn left. Cross RRs 46.9-47.2—now on Main St.

47.3 0.6 Titusville,* Main St. & Washington Ave. at flagpole.

HOTELS—Dixie Hotel, on the Indian river.

SERVICE STA.—United States Tire Sales & Service Depots located here.

*New Smyrna, Fla. (pop. 2,500, alt. 13 ft.), in Volusia county, is on the North Indian river, near the ocean. It was established 1765 for a Greek and Minorcan colony and was named for Smyrna, Asia. It is said to be the first settlement in the United States (antedating St. Augustine by about six months). In the city of Madrid, Spain, there are records regarding colonies at New Smyrna nearly 500 years old. There are good roads around the city, which is built on the site of old Indian shell mounds. A drive may be taken to a point west of New Smyrna where are traces of Fort Columbus, believed by some to have been built by Christopher Columbus in 1512. There are also some ancient canals and the ruins of a pretentious Spanish mission. The beach is used for motor driving.

The town is at the apex of the newly completed triangular road connecting Daytona, Deland and New Smyrna.

*Titusville, Fla. (pop. 1,000, alt. 8 ft.), is situated on the Indian river, about half way between Jacksonville and Miami. The Dixie highway passes through this city as well as the Orlando Indian river highway, which is the only road having a bridge over the St. John's river and giving access to the interior of the state. The famous Indian river oranges come from this immediate section, which is also noted for its hunting and fishing. Also located on the Florida east coast canal, which furnishes water transportation from Jacksonville to Miami with three boats each way weekly.

HOTELS—Cocoa House, Willard St. & De Lannoy Ave.

Turn left onto Willard St.

66.2 0.1 Turn right with street along river onto De Lannoy Ave.

66.4 0.2 4-corners; turn left, turning right just beyond. Avoid right-hand road 67.7.

67.8 1.4 Rockledge,* P. O. on left. Keep ahead along river.

HOTELS—The Oaks.

72.7 4.9 Left-hand road, just before RR; turn sharp left. Cross RR 82.9.

83.0 10.4 Eau Gallie,* 4-corners.

HOTELS—Military Inn, on Eau Gallie river, 2 blocks S. from Flagpole.
GARAGES—The Dixie Garage, on Dixie highway.

Turn right, going thru 4-corners at flagpole just beyond. Turn left with travel 83.3. Cross long bridge 83.5.

Right at 83.6 leads to winter quarters of Kentucky Military Infantry.

87.1 4.1 End of road; turn left and take first right-hand road just beyond.

*Cocoa, Fla. (pop. 2,000, alt. 3 ft.), in Brevard county, is situated on the Indian river. It is a thriving little place with many good roads leading to the open country. The drive to Rockledge is particularly attractive. Good fishing and shooting are to be had in the vicinity. Oleander Point, on the road to Rockledge, is an excellent fishing beach. There is a bridge across the Indian river at Cocoa, which connects with Merritt's Island, from which point many of the largest groves in the state may be visited. The ocean beach is also easily reached by auto and boat.

*Rockledge, Fla. (pop. 200, alt. 9 ft.), a winter resort of Brevard county, is delightfully situated in a famous orange region on the banks of the Indian river, which is here a mile and a quarter wide. Along the high, coral-diked river bank is a seven-mile walk

entirely thru orange groves. Yachts of all kinds cruise on the river during the season. There are good tennis courts and an excellent golf course. The river affords good fishing. The Coquina rock on which the town rests shows a curious water wear. Excursions may be made to the Banana river and Merritt's Island.

*Eau Gallie, Fla. (pop. 600, alt. 27 ft.), the "Harbor City" of the east coast, is situated on the beautiful Indian river, 3 miles from the Atlantic ocean. It lies on high land opposite the mouth of the Banana river and is the winter home of the Kentucky military institute. The surrounding country is sandy with some of the best muck soil in the state adjacent thereto. Good fishing can be had here, and the town has numerous fisheries.

*Melbourne, Fla. (pop. 1,500, alt. 7 ft.), the terminus of the Melbourne-Kissimmee road, over which autoists come from west coast points, is located on a high bluff overlooking the famous Indian river and affording broad views of the Atlantic from various points. The Melbourne-Kissimmee road leads thru Deer Park, headquarters of the great cypress tracts owned by the Union Cypress Co., whose mills are just south of Melbourne on a branch

of the Dixie highway.

Among the attractions of this city are the many private sulphur pools and baths, the natural temperature of the water being 77 degrees. There is good boating on the Indian river and as fine fishing and hunting in this vicinity as can be found in the state. Interesting side trips can be made to Melbourne Beach and Indialantic, both on the ocean, and to Kissimmee on lake Tohopekaliga.

- Cross RR 157.1.
- 158.9 2.9 Port Sewall, diagonal 4-corners. Straight thru.
HOTELS—Sunrise Inn, East on Indian Ave., at 158.9.
- Thru Salerno 161.0. Curve right and left across RR 163.1.

*Fort Pierce, Fla. (pop. 3,000, alt. 12-60 ft.), is located on the west bank of the Indian river on the Dixie highway. Riverside drive, part of the Dixie, extends south 20 miles, crossing St. Lucie river over a new concrete bridge, replacing the old ferry, and is one of the most charming drives in the state, overlooking the river and passing through the pineapple fields fringed with palm trees, flowering shrubs and tropical growth of all kinds. West of the city is the far-famed Indian river orange and grapefruit groves. Nearby are Indian mounds, from which skeletons and Indian relics of great antiquity have been exhumed. The town takes its name from a fort that was located here during the

first Seminole war. An interesting side trip from Fort Pierce is to the Okeechobee, Florida's largest lake; also to Jupiter Inlet, which was the termination of the cruise of the battleship Oregon when she came around the Horn in 1898 and after repairs joined the fleet in Cuban waters. A new inlet is being built this summer, which will make this a great deep sea fishing center.

*Stuart, Fla. (pop. 800, alt. 10 ft.), a popular station for sportsmen. George W. Perkins and Lieut. Willoughby have cottages in the neighborhood. Grover Cleveland was one of the most distinguished hunters who have visited this locality.

*Palm Beach, Fla. (pop. 400, alt. 8 ft.), is one of America's best known and most fashionable resorts. It is situated on a narrow strip of land between Lake Worth, the Atlantic ocean and a salt lagoon 20 miles long and one mile wide. Palm Beach, though consisting of little more than two or three magnificent hotels and their accessory buildings, has come to rival the resorts of the Mediterranean. Vast sums of money expended upon the grounds have transformed them into a tropical paradise. The season, which lasts from Christmas until the middle of April, is at its height in February. A wide avenue of palms ½ mile long connects the two leading hotels, the Breakers, which faces the ocean, and the Royal Poinciana, which faces Lake Worth and is named for a tree native to this region, which puts forth gorgeous flowers in summer. Bearing cocoanut trees and palms of many varieties tower over gardens in which flowering plants and shrubs are interspersed with bananas, guavas, grapefruit, avocado pears, custard apples, maumee apples, mangoes and

pawpaws. From the roof of the Poinciana there is a beautiful view, particularly lovely at sunset, including the entire length of Lake Worth, dotted with graceful yachts, "the narrow peninsula clad in tropical verdure between the lake and the ocean, the Atlantic stretching away to the eastern horizon and the mysterious Everglades on the west." Palm Beach is a favorite rendezvous for yachtsmen. A pier extending into the ocean affords opportunities for fishing and there is a pavilion with a swimming pool.

*Delray, Fla. (pop. 2,500, alt. 17 ft.), was in its early days a life saving station known as Zion P. O. It was later settled and developed by people from the state of Michigan. The Old House of Refuge or U. S. life saving station on the ocean beach is a point of interest. Delray is connected with the ocean by free bridge and has a pavilion and bath house free to the public. The Gulf Stream boulevard from Palm Beach terminates here, passing in front of the Old House of Refuge.

*Ft. Lauderdale, Fla. (pop. 4,000, alt. 7 ft.), was in the early days a trading post for Indians, and an ancient Seminole fort was located here. One public conveyance arrived each week from Biscayne bay, and when the visitor spread his meal on the ground (there

being no hotel or inn), he was soon surrounded by hungry savages. The Seminole descendants still visit the place to sell their wares. There are many picturesque trips in this vicinity on the river and canal into the Everglades.

MIAMI CHAMBER OF COMMERCE, Miami, Fla.

POINTS OF INTEREST, MIAMI, FLA.

Miami, (pop. 35,000, alt. 15 ft.) Dade county, 366 miles south of Jacksonville on the Florida East Coast railway and 388 miles on the famous Dixie highway, is the most southern city on the mainland of the United States. This means that it is in the sub-tropical zone and therefore comes under the benign influence of the soft air, gorgeous foliage and rich vegetation of the tropics, while escaping entirely the too severe heat and enervating lassitude of the realms to the south. The city has grown from a small town of 7,240 inhabitants in 1910 to its present population and is still growing at a rapid rate.

Located on Biscayne bay and the Atlantic ocean, Miami is the mecca for thousands of tourists who find the attractive hotel and cottage life greatly to their liking. Equability of climate, ocean and pool bathing, tennis, boating, baseball, hunting, golf on the Miami Beach course—one of the finest in the south—(and several new courses under construction) fishing for deep sea monsters and for the smaller varieties in the bay and motoring over 600 miles of oiled rock roads in Dade county radiating in every direction are some of the diversions to be found here. Biscayne bay is one of the most beautiful bays in the world; it is in reality a lagoon protected from the ocean by numerous keys and coral islands. A two and one-half mile bridge across the bay connects Miami Beach with the mainland.

The Tamiami highway, now being built across the state thru the famous Everglades, will be completed in 1920 and will connect Miami with Fort Meyers and Tampa on the west coast. The Ingraham highway, under

construction, will terminate at Cape Sable, the southwest tip of the mainland of Florida. The highways are lined with coconut, royal and date palms. Flowering trees and shrubs are everywhere, and a drive thru the citrus groves, winter vegetable gardens, and along the boulevards that skirt the Atlantic coast is one not to be forgotten.

Three training schools, viz.: the U. S. naval air station; the U. S. marine corps flying schools, and the U. S. aerial gunnery and bombing school were located near the city during the world war and thousands of men received their training here.

A wonderful oversea railroad, spanning the ocean from key to key, a distance of over 125 miles, connects Miami with Key West. This is the only method of access between these cities, unless possibly by boat.

Key West, with a population of about 20,000, is the most southern city in the U. S. It is world famed for the cigars which are made here. Locally it is famed for its importance as a fishing point. At the fish wharves green turtles weighing from 250 to 1,000 pounds may be seen. These are shipped to all parts of the country. The U. S. flag was raised over Key West in 1822, it having formerly belonged to Spain. At one time it was known as Cayo Hueso, or Bone Island, owing to the great number of human bones found here. Whether it had once been inhabited by cannibals or whether pirates who infested the sea murdered those whose bones were found has not been determined. There are traditions of both. There is a naval station, a marine and army post and a school for enlisted men in Key West.

 Right is Note (a) to Royal Palm State Park.

Note (a) Route 9—Florida City to Royal Palm State Park, Fla.—11.7 m.

This may be used as a connection to Royal Palm state park, a hammock of dense tropical jungle foliage and huge royal palms; a sight well worth seeing. A shelter house and delightful picnic ground is located in the park.

- 0.0 0.0 FLORIDA CITY, at RR., P. O. on left. Go west on Palm Ave.
 3.9 3.9 End of road; turn left.
 6.9 3.0 End of road; turn right. Thru fill across saw grass flats 9.3.
 11.7 4.8 ROYAL PALM STATE PARK, at monument.

Straight ahead is proposed highway to Cape Sable.

*Perrine, Fla. (pop. 100), is named for its founder, Dr. Henry Perrine, who in 1885 obtained a grant of 24,000 acres in this locality for the establishment of an experimental station for the cultivation of tropical trees. He was killed by the Indians before his work was under way, but the Florida East Coast rail-

way later continued the experiment.

*Florida City, Fla., while a very small place, is one of the largest flower and vegetable producing settlements in this section. There are many miles of canals in this part of the state, used for transportation and drainage. Auto roads run along their banks.

Route 11—Florida City to Miami, Fla.—32.0 m.

Reverse Route 9.

Via Naranja, Princeton, Perrine and Cocoanut Grove. This is a section of the East Coast boulevard. This is a splendid trip over beautiful wide marl roads thru orange groves and pleasant developments.

Via Delray, The Bay Shore Blvd. and Palm Beach. Good oiled rock all the way. A pretty drive and preferable option to Route 12.

- 0.0 0.0 MIAMI, Ave. B & 12th St. at library. See Route 12 for directions to Delray, 50.0 miles, where reset odometer to 0.0.
- 0.0 0.0 Delray, bank on right. Straight thru.
Left is Route 12 to West Palm Beach.
- 0.7 0.7 End of road, pavilion on right; turn left along ocean.
Left at 5.2 leads to Boynton $\frac{1}{2}$ mile.

*Lemon City, Fla. (pop. 400), is a post village of Dade county. It was the terminus of the old stage route before the railroad was built. It is a residential locality and filled with many fine villas.

*Ft. Lauderdale, Fla. (pop. 4,000, alt. 7 ft.), was in the early days a trading post for Indians, and an ancient Seminole fort was located here. One public conveyance arrived each week from Biscayne bay, and when the visitor spread his meal on the ground (there being no hotel or inn), he was soon surrounded by hungry savages. The Seminole descendants still visit the place to sell their

wares. There are many picturesque trips in this vicinity on the river and canal into the Everglades.

*Delray, Fla. (pop. 2,500, alt. 17 ft.), was in its early days a life saving station known as Zion P. O. It was later settled and developed by people from the state of Michigan. The Old House of Refuge or U. S. life saving station on the ocean beach is a point of interest. Delray is connected with the ocean by free bridge and has a pavilion and bath house free to the public. The Gulf Stream boulevard from Palm Beach terminates here, passing in front of the Old House of Refuge.

14.5 13.8 Fork; bear left away from ocean downgrade. Avoid left-hand road 15.9. Avoid left-hand road 17.4.

Left at 17.4 leads to West Palm Beach via South Bridge.

17.7 3.2 Left-hand drive; turn left with oiled rock.

18.0 0.3 4-corners; turn right onto County Road, passing baseball grounds on left.

18.5 0.5 **PALM BEACH,*** County Road & Main St., just beyond RR.

Triple A Garage, 418 Banyan St.

Right on Poinsettia St. is Route 15 to Daytona.

Route 15—Palm Beach and West Palm Beach to Daytona, Fla.—194.8 m.

Reverse Route 3.

Via Stuart, Fort Pierce, Melbourne, Eau Gallie, Rockledge, Cocoa, Titusville and New Smyrna. Hard road all the way. First 67 miles oiled rock, next 120 miles shell, last 8 asphalt. The asphalt and oiled rock are much better than the shell. The shell wears out very easily and its condition depends entirely upon the maintenance given it.

This is the second link of the East coast boulevard between Miami and Jacksonville and one of the most important routes in the state, going from America's most fashionable winter resort to the noted Daytona Beach. The entire route is along the Indian river, which is separated from the ocean by a narrow strip of land. It goes thru numerous resorts and groves of citrus fruits, passing many pineapple fields. Hibiscus, oleander and other tropical flowers and palms abound. Much of the surrounding territory is undeveloped wooded country. There is excellent fishing along the Indian river.

—MILEAGE— Distance This route is reset at 0.0 at West Palm Beach for the convenience of those wishing to start from that point.

Total Between Mileage Points

0.0 0.0 **PALM BEACH**, east end of bridge across Lake Worth. Go west across long wooden bridge over Lake Worth.

0.0 0.0 **WEST PALM BEACH**, Clematis & Poinsettia Aves.

Turn right onto Poinsettia Ave. Cross RR 0.2. Thru North Palm Beach 2.9.

*Palm Beach, Fla. (pop. 400, alt. 8 ft.), is one of America's best known and most fashionable resorts. It is situated on a narrow strip of land between Lake Worth, the Atlantic ocean and a salt lagoon 20 miles long and one mile wide. Palm Beach, though consisting of little more than two or three magnificent hotels and their accessory buildings, has come to rival the resorts of the Mediterranean. Vast sums of money expended upon the grounds have transformed them into a tropical paradise. The season, which lasts from Christmas until the middle of April, is at its height in February. A wide avenue of palms $\frac{1}{2}$ mile long connects the two leading hotels, the Breakers, which faces the ocean, and the Royal Poinciana, which faces Lake Worth and is named for a tree native to this region,

which puts forth gorgeous flowers in summer. Bearing cocoanut trees and palms of many varieties tower over gardens in which flowering plants and shrubs are interspersed with bananas, guavas, grapefruit, avocado pears, custard apples, maumee apples, mangoes and pawpaws. From the roof of the Poinciana there is a beautiful view, particularly lovely at sunset, including the entire length of Lake Worth, dotted with graceful yachts, "the narrow peninsula clad in tropical verdure between the lake and the ocean, the Atlantic stretching away to the eastern horizon and the mysterious Everglades on the west." Palm Beach is a favorite rendezvous for yachtsmen. A pier extending into the ocean affords opportunities for fishing and there is a pavilion with a swimming pool.

- 4.2 4.2 4-corners; turn left with travel onto Flagler Ave.
- 4.8 0.6 End of road just beyond RR; turn right along same. Avoid right-hand diagonal road 7.5. Recross RR 9.1-14.1.

- 34.9 1.9 Port Sewall, diagonal 4-corners. Straight thru.
HOTELS—Right leads to Sunrise Inn.
- 37.8 3.1 Stuart,* sta. on right. Keep ahead along RR.
HOTELS—Hotel Stuart.
GARAGES—The Babcock Garage.
- Thru several corners at bandstand 37.9. Cross long concrete bridge over St. Lucia river 38.1. Cross RR 40.0. Turn sharp right with travel 42.2 and sharp left 42.4.
Near this turn on the river at 42.2 is the site of an old observation post and fort. This was the favorite fishing pond of Joseph Jefferson and Grover Cleveland.
Sharp right at 42.6 leads to Sewalls Point.
- 43.3 5.5 Jensen, store on right. Straight thru along Indian river. Thru Eden 45.8, Walton 47.8 and White City 53.6. Turn left onto the main street 58.4.
- 58.5 15.2 Fort Pierce,* 4-corners at flag pole. Keep ahead across RR.
HOTELS—Fort Pierce Hotel, on Dixie highway.
GARAGES—Overland Garage, Pine St., near court house.
- 58.6 0.1 4-corners, church on near left; turn right.
Straight ahead at these 4-corners is Route 26 to Okeechobee.
- Follow direct road along RR for several miles. Pass St. Lucie P. O. on left 61.1. Pass Oslo Sta. on right 68.7. Thru 4-corners, sta. and P. O. 72.1.
- 72.3 13.7 End of road at bank; jog left and immediately right one block.
- 72.4 0.1 Vero, 4-corners; bank on right.
HOTELS—Hotel Edgewood, on Dixie highway.
TEA ROOMS—White Poodle Tea Room.
At the time Blue Book representatives covered this route a new cut-off was contemplated which would go straight ahead at this point crossing the RR. and joining the following route at about 72.0.
- Turn right across RR.
- 72.5 0.1 4-corners just beyond RR; turn sharp left along same. Thru Gifford 74.5.
- 78.0 5.5 Quay. Straight thru along RR.
- 80.6 2.4 Wabasso, end of road. Jog left and immediately right. Jog left and right across RR 83.9. Thru large brick arch 84.9. Cross RR 85.0.
- 85.5 4.9 Sebastian, end of road at store. Jog left and immediately right, continuing along river. Caution for sharp left turn 89.1. Thru Micco 90.6. Cross RR 92.8.
- 94.5 9.0 Grant. Straight thru.

*Stuart, Fla. (pop. 800, alt. 10 ft.), a popular station for sportsmen. George W. Perkins and Lieut. Willoughby have cottages in the neighborhood. Grover Cleveland was one of the most distinguished hunters who have visited this locality.

*Fort Pierce, Fla. (pop. 3,000, alt. 12-60 ft.), is located on the west bank of the Indian river on the Dixie highway. Riverside drive, part of the Dixie, extends south 20 miles, crossing St. Lucie river over a new concrete bridge, replacing the old ferry, and is one of the most charming drives in the state, overlooking the river and passing through the pineapple fields fringed with palm trees, flowering shrubs and tropical growth of all

kinds. West of the city is the far-famed Indian river orange and grapefruit groves. Nearby are Indian mounds, from which skeletons and Indian relics of great antiquity have been exhumed. The town takes its name from a fort that was located here during the first Seminole war. An interesting side trip from Fort Pierce is to the Okeechobee, Florida's largest lake; also to Jupiter Inlet, which was the termination of the cruise of the battleship Oregon when she came around the Horn in 1898 and after repairs joined the fleet in Cuban waters. A new inlet is being built this summer, which will make this a great deep sea fishing center.

- 96.7 2.2 Valkaria. Straight thru. Cross RR 97.6.
- 100.1 3.4 Malabar, pavilion on left. Straight thru along river. Caution for sharp left curve across long, narrow wooden bridge over Turkey creek 102.2.
- 104.9 4.8 Caution, left-hand road; turn left.
- 105.1 0.2 End of road, turpentine still over to left; turn right. Pass Hopkins Sta. on left 105.5.
- 105.9 0.8 Irregular 4-corners; turn left.
- 106.0 0.1 Right-hand road; turn right. Cross concrete bridge at causeway ascending grade 106.2.
- 106.3 0.3 Melbourne.* Keep ahead.
Left at Melbourne is Route 25 to Kissimmee.
- 106.7 0.4 End of road; turn left and take first right-hand road just beyond.
Left just before bridge at 110.2 leads to winter quarters of Kentucky Military Institute.
Turn right with travel 110.5.
- 110.8 4.1 Eau Gallie,* 4-corners at flag pole.
HOTELS—Military Inn, on Eau Gallie river, 2 blocks S. from Flagpole.
GARAGES—The Dixie Garage, on Dixie highway.
Keep ahead one block and at first 4-corners, turn left. Cross RR 110.9.
- 121.1 10.3 End of road; turn sharp right, running onto very winding road along river.
- 126.0 4.9 Rockledge.* Keep ahead along river.
HOTELS—The Oaks.
Avoid left-hand road 126.1.
- 127.4 1.4 Turn left with road and at 4-corners just beyond turn right onto De Lannoy Ave.
- 127.6 0.2 Turn left with street onto Willard St.
- 127.7 0.1 Cocoa,* Willard St. & Palmetto Ave.
HOTELS—Cocoa House, Willard St. & De Lannoy Ave.
Turn right onto Palmetto Ave. on winding road along river. Thru City Point 130.4. Thru Sharpes 133.3.
- 143.0 15.3 Indian River City, business center on left. Keep ahead.

*Melbourne, Fla. (pop. 1,500, alt. 7 ft.), the terminus of the Melbourne-Kissimmee road, over which autoists come from west coast points, is located on a high bluff overlooking the famous Indian river and affording broad views of the Atlantic from various points. The Melbourne-Kissimmee road leads thru Deer Park, headquarters of the great cypress tracts owned by the Union Cypress Co., whose mills are just south of Melbourne on a branch of the Dixie highway.

Among the attractions of this city are the many private sulphur pools and baths, the natural temperature of the water being 77 degrees. There is good boating on the Indian river and as fine fishing and hunting in this vicinity as can be found in the state. Interesting side trips can be made to Melbourne Beach and Indialantic, both on the ocean, and to Kissimmee on Lake Tohopekaliga.

*Eau Gallie, Fla. (pop. 600, alt. 27 ft.), the "Harbor City" of the east coast, is situated on the beautiful Indian river, 3 miles from the Atlantic ocean. It lies on high land opposite the mouth of the Banana river and is the winter home of the Kentucky military institute. The surrounding country is sandy with some of the best muck soil in the state adjacent thereto. Good fishing can be had

here, and the town has numerous fisheries.

*Rockledge, Fla. (pop. 200, alt. 9 ft.), a winter resort of Brevard county, is delightfully situated in a famous orange region on the banks of the Indian river, which is here a mile and a quarter wide. Along the high, coral-diked river bank is a seven-mile walk entirely thru orange groves. Yachts of all kinds cruise on the river during the season. There are good tennis courts and an excellent golf course. The river affords good fishing, the Coquina rock on which the town rests shows a curious water wear. Excursions may be made to the Banana river and Merritt's Island.

*Cocoa, Fla. (pop. 2,000, alt. 3 ft.), in Brevard county, is situated on the Indian river. It is a thriving little place with many good roads leading to the open country. The drive to Rockledge is particularly attractive. Good fishing and shooting are to be had in the vicinity. Oleander Point, on the road to Rockledge, is an excellent fishing beach. There is a bridge across the Indian river at Cocoa, which connects with Merritt's Island, from which point many of the largest groves in the state may be visited. The ocean beach is also easily reached by auto and boat.

Conserve your energy. Let the Blue Book Touring Club do the work. It will gladly direct and advise you on any tour.

 The Williams, Beach St. & Magnolia Ave.
 GARAGES—Renner & Williams Garage, 15 Magnolia Ave.

*Titusville, Fla. (pop. 1,000, alt. 8 ft.), is situated on the Indian river, about half way between Jacksonville and Miami. The Dixie highway passes through this city as well as the Orlando Indian river highway, which is the only road having a bridge over the St. John's river and giving access to the interior of the state. The famous Indian river oranges come from this immediate section, which is also noted for its hunting and fishing. Also located on the Florida east coast canal, which furnishes water transportation from Jacksonville to Miami with three boats each way weekly.

*New Smyrna, Fla. (pop. 2,500, alt. 13 ft.), in Volusia county, is on the North Indian river, near the ocean. It was established 1765 for a Greek and Minorcan colony and was named for Smyrna, Asia. It is said to be the first settlement in the United States (antedating St. Augustine by about six months). In the city of Madrid, Spain, there are records regarding colonies at New Smyrna

nearly 500 years old. There are good roads around the city, which is built on the site of old Indian shell mounds. A drive may be taken to a point west of New Smyrna, where are traces of Fort Columbus, believed by some to have been built by Christopher Columbus in 1512. There are also some ancient canals, and the ruins of a pretentious Spanish mission. The beach is used for motor driving. The town is at the apex of the newly completed triangular road connecting Daytona, Deland and New Smyrna.

*Port Orange, Fla. (pop. 300, alt. sea-level), is situated on the Halifax river, 5 miles southeast of Daytona. It prides itself on being a quiet and inexpensive resort. A new bridge one mile long across the Halifax river connects with the ocean beach. There is a fine beach for driving and an asphalt road leads to Daytona. An interesting side trip may be taken to the ruins of an old sugar mill probably built during the time of the British occupation.

Are you using the BLUE BOOK intelligently? It is simple.
 Read how on pages 12 and 13.

Route 17—Daytona to Jacksonville, Fla.—113.7 m.

Reverse Route 1.

Via Seabreeze, Ortona, Ormond, Hastings and St. Augustine. Brick, shell and asphalt all the way. This is the main shore route north from Daytona. Great caution should be exercised when passing cars, as the deep sand at the sides of these nine-foot roads is very treacherous.

An optional road from Daytona to Ormond via Kingston and Holly Hill may be used connecting with the following data at mileage 6.1. This is a very pretty drive over asphalt road and along the west bank of the Halifax river.

*Seabreeze, Fla. (pop. 600, alt., 18 ft.), was founded in 1892 by C. C. Post and wife, Helen Wilmans Post, both of whom had at that time quite some reputation as writers. It is located on a peninsula between the Halifax river and the Atlantic ocean and the residential portion of the town is largely made up of handsome winter homes of wealthy and distinguished people from the east, west, north and south. The river front all along this part of the peninsula has a more or less continuous ridge and in many places may be seen shell mounds, evidence of the one time presence of a great popula-

tion of Indians. The Ormond Daytona beach, of auto racing fame, is also listed among the local points of interest, and there are splendid golf grounds near the sea extending across the peninsula to the Halifax river.

*Ormond, Fla. (pop. 800, alt. 4 ft.), in Volusia county, is situated on the Halifax river, which is separated from the ocean and famous 30-mile beach, on which many motor records have been established, by a peninsula one-half mile wide. The new roads of asphalt and brick construction are of the best and form a link in the Dixie highway.

American Express Travelers' Cheques

*Hastings, Fla. (pop. 400, alt. 11 ft.), on the brick road from St. Augustine, is one of the greatest Irish potato sections in the south. This international vegetable is here produced early enough to compete with the Bermuda potato. In the early spring, when the negro potato diggers gather in large numbers for work in the fields, the town presents a most animated scene. Negro men and women come from all parts of the state to attend what they term "Murphy's Carnival," and they make merry while they work, and in the evenings there mingle with them a horde of camp followers, fakirs, banjo players and singers in motley garb.

*St. Augustine, Fla. (pop. 5,500, alt. 7 ft.), is the most ancient town in the United States and one of the most picturesque and interesting. It is situated on a narrow peninsula between Mantanzas sound and the St. Sebastian river. The city is a fashionable winter resort with many palatial hotels which though modern have been built in harmony with the old Spanish architecture of the early city, many of whose characteristic features happily still remain. All the older streets are very narrow. The ancient Spanish houses are built of coquina, or shell-limestone, and have overhanging balconies and gardens. The squares of the city as well as the gardens are delightful with their growth of palmetto,

Spanish bayonet, orange and citron trees and date palms.

The history of St. Augustine begins in 1512 when the Spaniard, Ponce de Leon, in search of the Fountain of Youth, landed near the Indian village of Seloy, on or near the present site of the city. The town, however, was not founded till 1565. In 1564 a colony of French Huguenots under Rene Laudonnaiere had settled at the mouth of the St. John's river. Philip II of Spain, an ardent Catholic, wanted no Protestant colony in his trans-oceanic domains and sent an expedition under Don Pedro Menendez to exterminate the invaders. To accomplish his object he landed at Seloy Sept. 8, 1565, and built the Fort of St. Augustine. During the century following St. Augustine passed through many vicissitudes. In 1811 the United States, being about to engage in war with Great Britain, seized St. Augustine together with the rest of Florida to prevent its being taken by the British. In 1819 the United States by its purchase of Florida from Spain made St. Augustine a city of the United States but did not take possession until July 10, 1821. From this time St. Augustine began to be known as a winter resort, though there was no great influx of northerners until after the termination of the troubles with the Seminole Indians in 1842.

(St. Augustine Points of Interest Continued from Page 109.)

The ancient Spanish city extended north from the Franciscan convent, whose site is now occupied by the St. Francis barracks, to the Castle of San Marco, now Fort Marion, a distance of nearly a mile. From the castle westward to the San Sebastian river extended a moat and wall to defend the city against encroachments from the mainland. The moat may still be traced along Orange street. The only remaining evidence of the wall is the old city gate, a most picturesque ruin, consisting of two pillars 20 feet high with 30 feet of the original wall on each side and two stone sentry boxes. Outside the city gate is the old Huguenot graveyard.

Fort Marion is the most interesting and best preserved relic of the Spanish city, and is a fine specimen of the military engineering according to the system of defense of Vauban, Marshal of France, who served for a time with the Spaniards under Conde. The fort, built of coquina, was in process of construction for 100 years and except for a water battery added by the United States government in 1842, it is as when completed in 1756. It is surrounded by a moat and glacis and has bastions at the four chief angles, each protected by a watch tower. Entrance is over a drawbridge over each end of which are the Spanish coat of arms and a Spanish inscription. Among the interesting features pointed out by the guard are the chapel, the dungeon, and the casemate from which the Seminole Chief Coacoochee, who was confined here with Osceola during the Seminole war, 1835-42, made his escape. The Seminole Chief Osceola died here of fever. The Spaniards named the fort San Marco; it received its present name of Fort Marion in 1821.

At an early period a sea wall of coquina was built against the encroachments of the tide from the Castle of San Marco to the Franciscan convent, a distance of $\frac{3}{4}$ of a mile. This wall was rebuilt by the United States government, 1835-1842, and capped with a coping of granite 3 feet in width. St. Francis barracks at the end of the sea wall includes some of the walls of the old con-

vent of St. Francis. Guard mount and dress parade with military music are an attraction to visitors.

Half way between the fort and the barracks and commanding a view of Mantanzas sound and the island of Anastasia is the Plaza de la Constitucion, a small public park. In the center of the square is a shaft of marble erected 1812-13 in commemoration of the adoption of the Spanish Liberal Constitution in 1812. From this monument the park takes its name. On the north side of the plaza is a confederate war monument and the Roman Catholic cathedral begun in 1793 and rebuilt on an enlarged scale after the fire of 1837. In this fire the front wall of the cathedral was left almost intact and was incorporated in the present structure. The old bell bearing the date 1682 was also preserved. On the west side of the Plaza is the post office and customhouse, which was formerly the residence of the Spanish governors. On the east side of the Plaza is the old market, sometimes erroneously called the "slave market." Along the south side of the plaza runs the Alameda, a continuation of King street.

On the right of the Alameda and just west of the postoffice is the huge Ponce de Leon hotel designed by Carrere & Hastings in the style of the Spanish Renaissance. It is one of the most magnificent buildings on the continent, costing with its furnishings over \$2,000,000. Built of concrete with red-tiled roofs and brick and terra cotta details, the color scheme in the ancient and tropical setting is wonderfully beautiful. The rotunda is surrounded by four galleries elaborately ornamented with marble, carved oak and mural paintings, which with those of the loggia and dining room form a complete pictorial history of Florida. From the towers 165 feet high there is a fine view.

On the opposite side of the Alameda are the Cordova hotel, the Alcazar, and the Villa Zorayda, all, like the Ponce de Leon, surrounded by beautiful gardens. The Alcazar, facing the Ponce de Leon, is also by Carrere & Hastings and in the Spanish style. The

(St. Augustine Points of Interest concluded from opposite page.)

Other two hotels are the first two examples of the adaptation of monolithic concrete architecture to modern buildings. Franklin W. Smith was the architect. The Villa Zorayda is in Moorish style with suggestions from the Alhambra.

From the northwest corner of the Plaza to the old city gate runs St. George street, only 17 feet wide and one of the quaintest and most picturesque streets in the city. It is the main thoroughfare and traverses the very center of the town. Treasury street, which crosses St. George street one block north of the Plaza, is only 7 feet wide at its eastern extremity. In St. Francis street, opposite the barracks, stands the old Huguenot house now used as an historical museum of Florida. It is considered the oldest house in the United States. It was built by the Huguenots in 1564, occupied by Franciscan monks from 1565-80 and from 1590 until 1882

was in the possession of the same family. Among other noteworthy buildings are Grace church designed by Carrere & Hastings and situated at the corner of Cordova and Carrere streets and the Memorial Presbyterian church by the same architects. It is in the Venetian Renaissance style and was erected by Mr. Flagler in memory of his daughter.

Anastasia island may be reached by bridge from the foot of King street. Among things of interest there are the old Coquina quarries, from which was obtained the material for the sea wall and the ancient Spanish buildings of St. Augustine, the lighthouse, the South Beach and a collection of alligators, sea turtles and marine curiosities. There is also a burning spring, the water of which may be ignited with a flame and will burn like alcohol, but it is possible to pass through the flames a handkerchief or piece of cotton without its being ignited.

- 53.7 4.0 Johnson, sta. on right. Straight thru across RR at sawmill. Jog right and left across RR 55.9.

SERVICE STA.—United States Tire Sales & Service Depots located here.

Route 20—Daytona to Tampa, Fla.—161.4 m.

Reverse Route 91.

Via De Land, Orange City, Sanford, Altamonte Springs, Winter Park, Orlando, Kissimmee, Haines City, Lake Alfred, Lakeland, Plant City and Ybor City.

First 7 miles, after leaving Daytona under construction when covered by Blue Book Scout car—scheduled to be fine rock road by early autumn; next 17 miles brick, then 11 miles of shell to St. Johns river bridge; next 56 miles, to Polk Co. line, all good brick, except 3 miles of poor sand just after leaving Kissimmee (which may be brick). From county line 42 miles of good sheet asphalt across Polk Co., then 4 miles of rather worn rock (which may be brick) to Plant City; balance good wide brick.

Summary: 92 miles brick; 42 miles asphalt; 11 miles shell; 4 miles rock; 12 miles poor sandy dirt. The 12 miles of poor sandy dirt will, in all probability, be hard road by fall.

This is the main trunk line from the east coast to the metropolis of the west coast and one of the most important routes in Florida. Traverses uninhabited wooded and swamp country to De Land. The balance is practically all thru wooded pine country, with some beautiful groves and lakes adjacent to De Land, Sanford, Winter Park, Orlando, Haines City, Lake Alfred and Lakeland. There is good fishing in most of the lakes; good hunting may also be enjoyed in this region.

An excellent option to Sanford may be had by going via New Smyrna, following Route 3 to New Smyrna and then Route 22 to Sanford.

- 0.9 0.2 S. Ridgewood Ave.; turn left with asphalt.

*Gainesville, Fla. (pop. 11,000, alt. 180 ft.), is one of the oldest and most important inland towns in the state. It is well parked and paved, and live oak and Spanish moss overhang the streets. It has long been a health and pleasure resort, and boasts of many good hotels. Of particular interest and importance, however, is the University of Florida, one of the best colleges in the south, and the Florida agricultural experiment station, which are located here. A visit to the buildings and grounds of these institutions is well worth while. A confederate monument on the public square marks the site of the battle of

Gainesville, fought here during the civil war. There are many natural attractions in close proximity to the city, among which are the great Alachua Sink, which was once teeming with alligators; Paint's Prairie, the Devil's Millhopper, which lies six miles to the north and whose level never changes though twenty streams are continually emptying into it, Warrens Cave and Lake Newman. The Spring Park stock farm, the largest and finest of its kind in the state, is a few miles west of the city, reached by a good hard road. A free rest room for tourists and citizens is maintained in the Hill Block at Gainesville.

*De Land, Fla. (pop. 5,000, alt. 54 ft.), is situated on the highest elevation between the St. Johns river and Atlantic ocean. It is in the midst of a very productive section, all citrus fruits, pears, grapes, peaches, and other fruits being produced here in abundance. Live stock production has also become a great industry in this locality during the past few years. A visit to the Stetson properties gives an interesting view of the methods of fruit growing, especially the methods for preventing frost from injuring the fruit.

The Stetson university, located here, with a student body of 700, was founded by John B. Stetson of Philadelphia, owner of the estate above mentioned.

All outdoor sports, including golf, hunting, fishing, motoring and tennis are indulged in at De Land.

The College Arms golf course, open to the public, is one of the best in the south. Among the points of interest nearby are the DeLeon springs and the ruins of an old Spanish sugar mill.

*Sanford, Fla. (pop. 6,000, alt. 20 ft.), is a thriving little city on the south side of Lake Monroe, at the head of navigation on the St. Johns river. Lake Munroe is noted for its black bass. There are water sports and many interesting side trips, particularly to the large celery farms. The place is sometimes called the "Celery City." It was named after General Sanford, once Minister to Belgium, and who acquired a grant which was made by Lincoln to his secretary.

*Altamonte Springs, Fla. (pop. 150, alt. 101 ft.), in Seminole county, is 140 miles south of

Jacksonville and 10 miles north of Orlando. In its vicinity are numerous pretty lakes and the town is well surrounded by tall pines and orange groves. It is a popular tourist resort, offering purest spring water, fine shooting and fishing.

*Winter Park, Fla. (pop. 600), is a charming resort surrounded by lakes, with good boating and fishing. It is the seat of Rollins college. Winter Park is noted for its winter songbirds and for the profusion of magnolias and flowers.

POINTS OF INTEREST, ORLANDO, FLA.

Orlando (pop. 10,000, alt. 98 ft.), called the "city beautiful" on account of its many lakes and avenues of beautiful homes, shaded by magnificent oak trees, which line the streets. It is an active business center and head of the citrus industry of the state. Around the town are extensive plantations of tropical fruits and many vegetable farms. One of the curiosities of the place is a banana tree 20 feet high. Many good roads have been built

in Orlando during the past few years, offering attractive circuits of from 10 to 100 miles. One of the most notable of these drives is Lucerne boulevard, a beautiful lake road. All principal country roads are brick paved. Orlando is less than five miles from Winter Park, and in the neighborhood are Lakes Lucerne, Lue, Winnie and Eola—all places of winter residence. The town has an 18-hole golf course and offers splendid lake fishing.

Lakeland

POLK COUNTY
FLORIDA

The largest inland city in Florida. Nature named this beautiful spot "Lakeland" because of her many Highland Lakes.

300 miles of asphalt roads connect Lakeland with every town in the County and SEVERAL HUNDRED FRESH WATER LAKES.

In the center of the GRAPEFRUIT AND ORANGE GROVE INDUSTRY, WINTER STRAWBERRIES, TRUCKING and FARMING. Only 32 miles from the city of Tampa, on the Gulf of Mexico.

Climate and health conditions unequalled.

YOU WILL LIKE LAKELAND. For further particulars write Chamber of Commerce, Lakeland, Fla.

LAKELAND HIGHLANDS, 6 miles south-east of Lakeland.

A rare combination of CLIMATE, BEAUTIFUL SCENERY and COMMERCIAL ADVANTAGES.

300 feet above Jacksonville, St. Petersburg, Palm Beach, Miami, or Tampa. 3000 acres of GRAPEFRUIT GROVES, cared for scientifically by the GROVE OWNERS' CO-OPERATIVE ASSOCIATION.

Estimated profits \$5 per tree on a ten acre grove, 484 trees, means \$2420 or better annually. This is only ONE-FOURTH of the MAXIMUM PROFITS FROM GOOD GROVES.

Many groves earn as high as \$1000 PER ACRE from a SINGLE CROP.

Fishing; boating; bathing; FINE GOLF COURSE.

For further particulars, write W. F. HALLAM, Sec'y, Lakeland, Fla.

POINTS OF INTEREST, LAKELAND, FLA.

Lakeland (pop. 10,000, alt. 227 ft.), a health resort of Polk county, is the largest inland town and the sixth city in size in the state of Florida. It is the heart of what is known as the "Thousand Lakes Country," and there are nine lakes within its corporate limits. The climate is healthy and delightful, average temperature in the warmest months being 88 degrees and in the coldest months 42 degrees. It is also a live industrial center and is particularly noted for its large production and

immense shipments of strawberries and citrus fruits. Upwards of 600,000 quarts of berries and 250,000 boxes of citrus fruits leave Lakeland annually. Polk county has completed a county-wide system of hard surfaced roads, and from Lakeland one can travel many miles in every direction over a sheet asphalt highway. There is a pretty little park in the heart of the city, and a fine golf course near by.

Don't neglect the points of interest—read them and make your trip more enjoyable.

Reverse Route 59.

Via Osteen, St. Johns river ferry, Sanford and Mt. Dora. An important connection from the East coast to one of the lake regions of Central Florida. First 30 miles (to St. Johns river ferry) fair shell, then brick to Wekiva river, 9 miles west of Sanford; balance good sheet asphalt. Summary: 30 miles shell; 13 miles brick; 20 miles asphalt.

Thru level undeveloped wooded and swamp country to St. Johns river ferry, then rich truck garden land thru one of the greatest celery districts in Florida; to a point 3 miles west of Sanford. Wooded and farm country with some very pretty wild scenery along Wekiva river to Mt. Dora. From Mt. Dora, the route traverses a beautiful lake and grove country to Eustis. The lakes at Mt. Dora and Eustis are very pretty and worth a visit. It is possible to go by boat from these lakes to any port in the country. The bass fishing is very good here.

An excellent option via De Land, 6 miles shorter but with not quite as good road conditions, is furnished in Route 21.

0.0 0.0 NEW SMYRNA, Canal & Faulkner Sts., bank on right and left. Go west on Canal St. Cross RRs 0.3.

Right at 0.2 is Route 15 to Daytona.

9.0 7.9 Left-hand diagonal road, just before bridge; bear left.

Straight ahead before this turn is Route 21 to Eustis via De Land.

Cross RR at Briggeville Sta. 10.6.

*De Land, Fla. (pop. 5,000, alt. 54 ft.), is situated on the highest elevation between the St. Johns river and Atlantic ocean. It is in the midst of a very productive section, all citrus fruits, pears, grapes, peaches, and other fruits being produced here in abundance. Live stock production has also become a great industry in this locality during the past few years. A visit to the Stetson properties gives an interesting view of the methods of fruit growing, especially the methods for preventing frost from injuring the fruit.

The Stetson university, located here, with a student body of 700, was founded by John B. Stetson of Philadelphia, owner of the estate above mentioned.

All outdoor sports, including golf, hunt-

ing, fishing, motoring and tennis are indulged in at De Land.

The College Arms golf course, open to the public, is one of the best in the south. Among the points of interest nearby are the DeLeon springs and the ruins of an old Spanish sugar mill.

*Eustis, Fla. (pop. 1,200, alt. 61 ft.), is a prosperous and growing young city in Lake county. It is situated on the shore of Lake Eustis, which connects with a chain of lakes, making a shore line of 350 miles and forming the source of the Oklawaha river. Considerable citrus fruit is raised in this locality and stock raising and general farming is being developed rapidly. Boating, fishing and golf are the chief amusements.

- 11.0 2.0 Right-hand road at ditch; turn right with shell. Caution for sharp left curve across wooden bridge 11.5. Road is thru undeveloped woods and swamps. Turn right with road at lake 17.7. Cross RR 25.8, curving left with travel just beyond.

*Sanford, Fla. (pop. 6,000, alt. 20 ft.), is a thriving little city on the south side of Lake Monroe, at the head of navigation on the St. Johns river. Lake Munroe is noted for its black bass. There are water sports and many interesting side trips, particularly to the large celery farms. The place is sometimes called the "Celery City." It was named after General Sanford, once Minister to Belgium, and who acquired a grant which was made by Lincoln to his secretary.

*Mt. Dora, Fla. (pop. 400), is one of the prettiest little towns in the state, located in the heart of the lakes and hills. It has a splendid yacht club, from the dock of which one can travel via boat thru seven lakes, connected by navigable canals, and thence thru two rivers to the Atlantic coast. Some of the finest tropical scenery in North America lines the shore of these lakes and rivers. Splendid hunting and fishing are other attractions in this vicinity.

Via Jupiter and Utopia. Good oiled rock to Jupiter, then narrow rock road for 6 miles, then 17 miles of graded clay and sand road; balance merely a sand trail thru edge of everglades to the shore of Lake Okeechobee. From here road is a continuation of the winding sand trail up the shore to Okeechobee City. Summary: 22 miles rock; 17 miles graded sand and clay; 32 miles sand trail.

This has always been regarded as a pioneer route, but may be safely taken by the tourist, except after prolonged rains, when numerous ponds form in the road. These usually have good solid sand bottoms and, unless the water is deep, can be safely negotiated. The sand is rather deep adjacent to Utopia and Okeechobee, but when bad can usually be avoided by taking the detours. These detours usually avoid the bad spots and are easily followed. If the motorist takes these detours, due allowance must be made for discrepancies in checking the Blue Book mileage.

After leaving the main traveled road at Jupiter, a few houses are passed at Rood, 6 miles farther on. From there to the canal ferry (16 miles), there are no signs of habitation and after crossing the ferry there is another 16 or 17 mile stretch of uninhabited country. This being the case, the tourist should arrange to reach Okeechobee before nightfall. It is a half day drive under normal conditions and it is possible to reach Ft. Myers (assuming a much better night stop) in one day.

—MILEAGE—
Distance
Total Between
Mileage Points

This is better than the Ft. Pierce-Okeechobee road. There are two ferries on the route—one across the canal and the other across Taylor creek. Both are free in the daytime.

- 0.0 0.0 **WEST PALM BEACH**, Poinsettia & Clematis Aves. Go north on Poinsettia Ave. Cross RRs 0.1-0.3. Turn left onto First Ave. 2.4, avoiding right-hand street just beyond. Turn right onto Broadway 2.7. Thru N. Palm Beach 2.9.
- 4.3 4.3 Left-hand street; turn left with asphalt onto Flagler Ave.
- 4.8 0.5 End of street, just beyond RR; turn right. Cross RR 9.1-14.1.
- 16.1 11.3 **Jupiter**, caution—left-hand road at edge of town.
- Straight ahead leads to center of town and is Route 15 to Daytona.
- Turn left away from RR onto narrow rock road, going thru undeveloped pine, palmetto and swamp country. Pass Rood P. O. and numerous buildings on right 22.6. Follow graded road thru everglades for several miles.
- 38.4 22.3 Ferry across canal (free). Leaving ferry, keep ahead.
- 39.2 0.8 Fork; keep left, following along telephone wires on trees. Pass house on left 39.8. Avoid left-hand road 40.4. Thru irregular 4-corners 40.7. Pass house on left 41.0 and follow main travel thru woods. Pass houses over to left 42.5.
- 43.6 4.2 Fork; keep right. Road is winding across prairie and thru woods for several miles. Thru gate 56.4. Cross small logging bridge over ditch 57.4.
- 57.7 14.1 **Utopia** at small settlement. Keep ahead.
- 57.9 0.2 Right-hand diagonal road, Lake Okeechobee ahead; bear right along ditch. Curve right along lake 58.1 and follow same, avoiding numerous diverging roads.

65.5 7.6 Ferry across Taylor's Creek.

Charges: Free in daytime, 25c until 10 p. m.; 50c after that hour.

Leaving ferry, keep ahead.

67.5 2.0 4-corners, pavilion over to left; turn right, coming onto Parrot Ave. Cross RR 70.4.

70.6 3.1 Second 4-corners, just beyond brick building; turn left.

Right at this turn is Route 134 to Ft. Pierce.

Left is Route 28 to Ft. Myers and Route 29 to Arcadia.

70.9 0.3 OKEECHOBEE, 4-corners, bank on right.

Straight ahead is Route 30 to Haines City via Sebring.

Route 28—Okeechobee to Ft. Myers, Fla.—94.2 m.

Reverse Route 133.

Via Cabbage Bluff Ferry, Palmdale, Hall City, Labelle and Buckingham. First 3 miles graded deep sand; poor winding sand-trail to Palmdale; next 7 miles poorly graded, deep sand road; balance graded marl road. Summary: 39 miles sand-trail; 10 miles graded sand; 45 miles graded marl.

The first 3 miles out of Okeechobee is a graded sand road, but the sand is very loose and deep and the detours along the side are better; the next 39 miles is a poor winding sand-trail across the prairie and thru hammocks with little habitation, then a stretch of 29 miles just beyond Cabbage Bluff ferry with no sign of habitation. The Kissimmee river is crossed on a frail scow hauled by a small motor row boat. The ferry distance varies with the height of the water. Ferry man lives on east side of river and can easily be called. From Palmdale the road is poor graded sand for 7 miles, then graded marl rock into Ft. Myers.

The route as far as Palmdale has always been regarded as a pioneer trip only, but can be safely negotiated with normal weather conditions. During rainy weather ponds form in the road, but these usually have a hard sand bottom and if not too deep will cause no trouble. The first part to Hall City is thru undeveloped country the balance thru farming and grove country. Ft. Myers claims to be the best tarpon fishing point in Florida.

0.0 0.0 OKEECHOBEE, 4-corners at bank. Go south on the main st. Cross RR 0.5, avoiding left-hand diagonal road immediately beyond. Avoid right-hand diagonal road 0.6. Pass houses 0.7, curving right immediately beyond across palmetto plain. Thru diagonal 4-corners 0.9.

1.0 1.0 Fork; bear right. Curve right along fence 1.1, passing small settlement just beyond. Avoid left-hand diagonal road just beyond small wooden bridge 1.4, and left-hand road just beyond hammock 1.8. Keep to grade or along side of same, avoiding diverging trails. Pass farm house on left 2.7.

3.4 2.4 Left-hand road; turn left with travel across prairie and thru hammocks. Avoid right-hand diagonal road 4.6, going thru gate immediately beyond. Thru gates 4.8-5.4. Thru fence 8.0.

10.2 6.8 Fork, post in center; bear left.

10.6 0.4 Fork, ferryman's house over to right; bear left along Kissimmee River.

10.8 0.2 Cabbage Bluff Ferry across Kissimmee River (charges \$1.00).

In dry weather ferry is much shorter, so adjust mileage accordingly.

Leaving ferry, keep ahead on winding trail across prairie thru hammocks.

The diverging trails are usually circuits around dry ponds.

15.3 4.5 Fork, clump of cabbage palmettos on right; bear left with travel.

18.0 2.7 Fork, in middle of prairie; bear right. Road is level across prairie for about 5 miles and is then a sand trail across prairie and thru dense hammocks.

34.1 16.1 Fork; bear left, curving right just beyond.

34.5 0.4 Fork, just beyond slew; bear left thru woods. Pass ruins of old sawmill on right 35.3. Thru gate 36.2, curving left immediately beyond. Curve left across small wooden bridge 37.9. Avoid left-hand road 39.1, passing house on left just beyond.

40.3 5.8 Fork; bear left. Thru ditch 41.3-41.6. Cross small wooden bridge over ditch 41.8.

42.0 1.7 Irregular 4-corners, small wooden school on left; jog left and immediately right, keeping ahead.

- 42.1 0.1 Palmdale, 4-corners, store on left. Turn left.
 A direct route to Moore Haven about 25 miles connects at Palmdale. Those desiring to go there are advised to make inquiry at Palmdale.
- 42.3 0.2 Right-hand road, store on right; turn right. Turn left with road at barn 42.8. Turn right with road across RR 43.0. Cross wooden bridge over Fisheating Creek 43.2.
 Many detours parallel the grade, avoiding deep sand. Tourist should take them.
- 47.3 5.0 End of road; turn right.
- 47.5 0.2 Hall City, store on left. Keep ahead (south). Turn right with road 47.9 and follow poles. Cross wooden bridge 48.2.
- 48.4 0.9 Left-hand road; turn left with poles.
- 49.1 0.7 Fork; bear right away from grade. Curve left onto grade again 49.3.
- 52.4 3.3 End of road; turn right across small wooden bridge.
 Left at this turn leads to Citrus Center and Moore Haven.
- 57.3 4.9 4-corners; turn left with travel.
- 59.9 2.6 Left-hand road; turn left. Curve left across iron bridge over Colahatchee River 60.8.
- 61.0 1.1 Labelle. Keep ahead (south).
- 61.4 0.4 Prominent 4-corners; turn right.
- 62.2 0.8 Left-hand road; turn left.
- 63.2 1.0 4-corners, ruins of old sawmill ahead on left; turn right.
- 67.0 3.8 Ft. Denaud, end of road at store. Turn left. Pass Alva over to right $\frac{1}{4}$ mile 75.3. Avoid right-hand road 81.6.
 Right at 81.6 is Route 130 to Arcadia and Haines City.
- 82.0 15.0 4-corners; turn left with grade.
- 85.1 3.1 Buckingham, 4-corners, stores on left. Turn right with grade. Cross RR 92.6, avoiding right-hand road immediately beyond—now on First St.
- 94.2 9.1 FT. MYERS,* First St. & Hendry Ave., bank on left.

HOTELS—Hotel Bradford, 1st & Henry Sts.

Hotel Franklin Arms, cor. First & Lee Sts.

GARAGES—Hill & Co.'s Garage, Bay St., opposite the Arcade.

Left on Hendry Ave. is Route 137 to Naples, connecting there with Note (a) to Marco.

*Fort Myers, Fla. (pop. 6,000, alt. 65 ft.), is located on the Caloosahatchie river and bay, which is about two miles wide here, and is the southernmost city of its size on the west coast of Florida. It is the southern terminus of the A. C. L. railroad, of the Central Florida route of the Dixie highway, and the western terminus of the Cross State highway from Palm Beach and is on the Tamiami trail from Tampa to Miami. This city may also be reached by water from Tampa and Key West and through Lake Okeechobee and the Caloosahatchie river from the east coast of Florida. A fine seawall has been built along the river front. The town and vicinity is noted for the tropical fruits and foliage, a greater variety of palms being found here than at any other place in the U. S. The royal poinciana, hibiscus, bougainvillea, alamanda, poinsettia, avocado, guava, mango, tamarind, sapodilla

and other rare tropical fruits and flowers abound in profusion. Citrus groves and truck farms are unsurpassed in the state.

Thomas A. Edison, Henry J. Ford and a number of other celebrities have their winter homes in Fort Myers. Eight well conducted hotels provide for the winter guests of the city. A yacht club, country club with golf course, hunting, fishing, boating and automobiling over smooth, asphalt roads are among the attractions. The climate is ideal at all seasons of the year. Bathing in the gulf is one of the year-round attractions. The Caloosahatchie, lined with citrus groves and impenetrable tropical jungles, provides one of the most charming river trips in America. Tarpon fishing is the premier sport and specimens weighing 220 pounds have been taken from the river at Fort Myers.

 St. Louis, Mo. Minneapolis, Minn. Atlanta, Ga.

Route 29—Okeechobee to Arcadia, Fla.—77.0 m.

Reverse Route 127.

Via Cabbage Bluff Ferry. First 3 miles graded sand road (the sand is very loose and heavy and the detours along the side are better); next 37 miles winding prairie road thru hammocks and piney woods; then 15 miles rather rough prairie road; 6 miles of sand; balance (7 miles) graded dirt and sand-clay. Summary: 7 miles dirt and sand-clay; 8 miles sand; 52 miles prairie road.

This route is to be used in dry weather only. During the winter the roads are usually passable. Tourists should make local inquiry as to condition after rain. The Kissimmee river is crossed on a frail scow hauled by a small motor row boat. The ferry distance varies with the height of water. Ferry man lives on east side of river and can easily be called.

Tourists should ascertain whether the new Dixie highway has been completed, and if so, follow same to Arcadia.

MILEAGE		
Total Mileage	Distance Between Points	
0.0	0.0	OKEECHOBEE , 4-corners at bank. Go south on the main st. Cross RR 0.5, avoiding left-hand diagonal road immediately beyond. Avoid right-hand diagonal road 0.6. Pass houses 0.7, curving right immediately beyond across palmetto plain. Thru diagonal 4-corners 0.9.
1.0	1.0	Fork; bear right. Curve right along fence 1.1, passing small settlement just beyond. Avoid left-hand diagonal road just beyond small wooden bridge 1.4, and left-hand road just beyond hammock 1.8. Keep to grade or along side of same, avoiding diverging trails. Pass farm-house on left 2.7.
3.4	2.4	Left-hand road; turn left with travel across prairie and thru hammocks. Avoid right-hand diagonal road 4.6, going thru gate immediately beyond. Thru gates 4.8-5.4. Thru fence 8.0.
10.2	6.8	Fork, post in center; bear left.
10.6	0.4	Fork, ferryman's house over to right; bear left along Kissimmee River.
10.8	0.2	Cabbage Bluff Ferry across Kissimmee River (charges \$1.00). In dry weather ferry is much shorter, so adjust mileage accordingly. Leaving ferry, keep ahead on winding trail across prairie thru hammocks. The diverging trails are usually circuits around dry ponds.
15.3	4.5	Fork, clump of cabbage palmettos on right; bear left with travel. Right fork is Dixie highway to Arcadia. Make inquiry and if completed follow same.

68.0	23.6	Fork; bear left.
70.1	2.1	4-corners; turn left. Bear right onto Oak St. 75.7. Pass courthouse on right 76.8. Cross RR 76.9. Sharp left at 75.7 is Route 79 to Ft. Myers.
77.0	6.9	ARCADIA ,* Oak St. & Polk Ave. HOTELS—Arcadia House, Magnolia St. & Brevard Ave. Hotel Gordon, Oak & Monroe Sts. GARAGES—Boring's Garage, 215 Oak St., half block west of highway. COMM. ORGAN.—Arcadia Commercial Club. Right is Route 126 to Sarasota.

*Arcadia, Fla. (pop. 5,000, alt. 66 ft.), known as "The Aviation City of Florida," is the county seat of De Soto county, situated on Peace river, 20 miles from the gulf tidewater, in the heart of the citrus, trucking and cattle

section of the state. Two large government aviation schools, holding world records for flying hours, and one gunnery school are located here.

"What to Take on the Tour"

You will find helpful suggestions in the *Orange* insert, center of Book. The equipment and accessories listed in this section have all been carefully investigated. We recommend them as reliable.

Route 30—Okeechobee to Haines City, Fla.—101.9 m.

Reverse Route 78.

Via Bassenger, Sebring, Avon Park, Frost Proof, Crooked Lake and Lake Wales. Deep sand and prairie trail to Sebring, asphalt and sand-clay from there to Frost Proof; balance asphalt.

The route as far as Sebring is over a winding sand trail across the prairie and thru hammocks. After heavy rains, ponds form in the road, but these usually have good sand bottoms and, unless the water is deep, can safely be crossed. The distance from Sebring to Haines City forms one of the most beautiful trips in Florida, covering the hilliest section in the state and passing many fine lakes and groves. The stretch around Frost Proof, Crooked Lake and Lake Wales represents one of Florida's newest developments.

Cross RR at sta. 20.3.
- 20.7 5.8 WAUCHULA, Main St. & Florida Ave.
Right is Route 130 to Bartow and Haines City.
Left is Route 79 to Arcadia and Ft. Myers.

*Lake Wales, Fla., is one of the many new developments which seem almost to spring up over night in this state. Five or six years ago map makers knew nothing of Lake Wales; there was no semblance of a town then, but today it has all the appurtenances of a modern city, and offers many attractions to the

tourist as well as the home-seeker. Iron mountain, said to be the highest elevation in Florida (alt. 385 ft.), is but a few miles away. This mountain is being rapidly developed into a playground and resort, with splendid drive-ways, club house, golf course, etc.

To Insure Satisfactory Accommodations

patronize those places listed under the respective towns in the route matter, or turn to the Index of Cities and Towns, front of book. Officially endorsed Blue Book Hotels and Garages are listed alphabetically under each town.

Note (b) Route 30—Frost Proof to Ft. Meade, Fla.—19.2 m.

Reverse Note (a) on Route 79.

Good asphalt all the way. Thru pretty groves and woodland.

This note forms an important connection for those bound for points on the west coast.

- 0.0 0.0 **FROST PROOF**, 4-corners at flagpole, store on left. Go south.
 0.8 0.8 End of road; jog right and immediately left, following asphalt.
 Left at 0.8 is Route 78 to Okeechobee.
 1.1 0.3 4-corners; turn right.
 1.9 0.8 Left-hand road; turn left.
 2.1 0.2 Right-hand road; turn right.
 14.3 12.2 4-corners; turn left with asphalt.
 16.5 2.2 4-corners; turn right. Cross long iron bridge over Peace river 17.7. Thru irregular 4-corners 19.0.
 Right at 19.0 is Route 130 to Haines City via Bartow.
 19.2 2.7 **FT. MEADE**, irregular 4-corners, just beyond RR.
 Straight ahead is Route 79 to Ft. Myers via Arcadia.

Note (c) Route 30—Lake Wales to Bartow, Fla.—18.2 m.

Reverse Note (a) on Route 93.

Asphalt roads. Note combined with Route 83 to Lakeland and then Route 20 forms a good connection to Tampa.

A beautiful drive thru pine forests over hilly country and past numerous pretty lakes, groves and new residential developments.

- 0.0 0.0 **LAKE WALES**, 4-corners, bank on left. Go west.
 0.1 0.1 4-corners; turn left. Cross RR 1.8-7.8. Turn left 9.7. Cross RR 10.3-11.6.
 12.6 12.5 Right-hand diagonal road just beyond RR.; bear right with travel.

 16.7 1.7 Left-hand road, just beyond RR; turn left.
 16.9 0.2 Main St.; turn right. Cross RR 17.3.
 17.8 0.9 Irregular 4-corners at RR; jog left and immediately right across RR, keeping ahead on Main St.
 18.2 0.4 **BARTOW**, Main St. & Central Ave.

HOTELS—Hotel Stewart, Central Ave. & Summerline St.**GARAGES**—Burdette's Garage, Broadway, opposite court house.

G. C. Metcalf's Central Garage, 65 Central Ave.

COMM. ORGAN.—Bartow Board of Trade.

Left is Route 79 to Ft. Myers via Arcadia.

Straight ahead is Route 130 to Haines City and also Route 83 to Lakeland.

Route 34—Jacksonville to Palatka, Fla.—60.4 m.

Reverse Route 56.

Via Orange Park and Green Springs. Alternating stretches of brick, asphalt and gravel with the exception of about 20 miles on last half of route, which is alternating sand-clay and dirt. Summary: 25.1 miles asphalt; 8.9 miles brick; 5.7 miles sand-clay; 5.8 miles gravel; 14.9 miles dirt.

Route 1 to St. Augustine combined with Route 19 to Palatka, which is all brick or shell road, is a longer but better option.

This route (34) is 9½ miles shorter than the option via St. Augustine and Hastings, and is a beautiful drive along the St. John's river thru flat, wooded country.

- 59.6 0.9 11th St.; turn right with travel. Cross RR at sta. 59.7.
- 59.8 0.2 Lemon St., store on left; turn left.

Right at this turn is Route 19 to Gainesville.

- 60.4 0.6 PALATKA, Lemon & 2nd Sts., at bank and drug store.

SERVICE STA.—United States Tire Sales & Service Depots located here.
Straight ahead is Route 148 to St. Augustine.

POINTS OF INTEREST, PALATKA, FLA.

Palatka (pop. 7,000, alt. 28 ft.), the county seat of Putnam county, is located on the west bank of the St. John's river about 30 miles southwest of St. Augustine. It is a modern commercial town with machine and iron works. Cotton, sugar, oranges and small

fruits are extensively cultivated in the vicinity and shipped north. A highway bridge spans the St. John's river and hard surfaced roads extend to St. Augustine, Jacksonville, Daytona, Gainesville and Ocala.

Route 35—Palatka to De Land, Fla.—62.1 m.

Reverse Route 55.

Via San Mateo, Crescent City, and De Leon Springs. Brick for a short distance out of Palatka. Thru good grove land and past several pretty lakes.

This is the St. John's River Scenic highway, and has recently been designated a State road. It is being hard-surfaced, and when completed will be used extensively by tourists from Jacksonville and St. Augustine bound for central Florida points.

HOTELS—Hotel College Arms, New York Ave., East.
 The Lexington, New York Ave.
 Putnam Inn, New York Ave.

GARAGES—Nahm & Nahm Garage, 112 South Blvd.
 Headquarters, corner New York and Florida Aves.
 Straight ahead is Route 20 to Orlando and Tampa.

*San Mateo, Fla. (pop. 125), is a pretty vil-
 lage on the St. John's river and the highest
 point in Florida east of this stream. Many
 northern people have their winter homes
 here. Citrus fruit and potatoes are grown in
 abundance in this vicinity.

*Crescent City, Fla. (pop. 1,000, alt. 56 ft.),
 was founded in 1875 by Charles R. Griffin.
 The town is unusually located on a ridge be-
 tween Lakes Stella and Crescent, two beau-
 tiful bodies of fresh water. Altho these lakes
 are scarcely a quarter mile apart there is a

difference in their levels of 40 feet. In win-
 ter the population is almost doubled by the
 tourists. Crescent City is the center of one
 of the finest citrus growing districts in the
 state. The average season's shipment
 amounts to about 300,000 boxes of oranges,
 grapefruit and tangerines. Visitors are al-
 ways courteously welcomed at any of the
 groves, and every opportunity is afforded
 for inspecting both the groves and packing
 houses.

Route 37—Jacksonville, Fla., to Valdosta, Ga.—144.9 m.

Reverse Route 141.

Via Maccelenny, Lake City, Live Oak and Madison. First 10 miles brick and concrete, followed by an old sand road in various stages of improvement to Lake City. From here, the road is alternating stretches of sand-clay and dirt to a point 7 miles north of Madison, then 8 miles unimproved sand road; balance to Valdosta sand-clay. Tourist is advised to make local inquiry before leaving Jacksonville as to best way to Lake City.

Thru level wooded country following RR nearly all the way.

Route 38 offers an inferior tho shorter option between Lake City and Valdosta.

		Keep ahead (west) on Base St.

*Lake City, Fla. (pop. 7,000, alt. 201 ft.), is a winter health resort and the seat of Columbus college. It is prettily located in a section containing several beautiful lakes. When the town was first settled, in 1825, it was called "Alligator," which name still survives in Alligator lake (or pond) which is nearby. There are several lakes in the surrounding country offering excellent fishing.

*Live Oak, Fla. (pop. 3,450, alt. 104 ft.), is an

old town, 82 miles west of Jacksonville on the Live Oak and Gulf and the Seaboard Air Line railroads. Lumber, sea island cotton, naval stores and early vegetables for the northern market are the principal products. Surrounding the town are thick pine forests.

Madison, Fla. (pop. 1,575, alt. 30 ft.), the county seat of Madison county, is the seat of a State normal school and has important cotton factories.

*Thomasville, Ga. (pop. 6,750, alt. 250 ft.), picturesquely situated on high ground overlooking the Ochlocknee river, is well known as a winter health resort. It has three large hotels, many private estates and Paradise, Magnolia and McIntyre public parks. The private estates are owned by northern multi-millionaires and are marvels of beauty. They compare favorably with those on the Hudson. Thomasville has an extensive trade in

lumber and is the largest wholesale brokerage center for yellow pine in the state. Its chief manufacturing interests are connected with the lumber industry. The Vashti home for girls and a normal school for negroes are located here.

*Monticello, Fla. (pop. 1,850, alt. 250 ft.), the county seat of Jefferson county, is on the shore of Lake Miccosukee. It is a winter resort with good dirt roads in the neighborhood.

- HOTELS—Hilliard Inn, 4 blocks west.
Left leads to business center 0.4 mile.

*Tallahassee, Fla. (pop. 5,025, alt. 280 ft.), the capital of Florida, is beautifully situated among trees on a hill 280 feet above the sea. It is 26 miles north of the Gulf of Mexico, on the site of an old Indian settlement, the name of which meant "old field." It is laid out in rectangular blocks with fine shaded streets and is the seat of the Florida state college for women, the Florida agricultural and mechanical college for colored students, the Leon high school and several libraries. The chief buildings are the capitol, supreme court building and the court house. The Episcopal cemetery contains the graves of Prince Charles Louis Napoleon, Achilles Murat, son of the King of Naples, and his wife, who was a Virginia girl, a grandniece of George Washington. Murat relinquished his right to the throne of Naples and became a citizen of the United States. He was mayor of the city and did a great deal for its development. The Murat home is about two miles beyond Tallahassee.

Around Tallahassee are numerous other interesting and picturesque colonial plantation homes. Their gardens and those of Tallahassee are very beautiful, especially in the time of roses. Pleasant drives may be taken to Lake Jackson, a fishing place six

miles distant that has an Indian legend, and to lakes Iamonia and Bradford. Old Fort San Luis is picturesque and interesting. At New-
port, with its famous sulphur springs, Harriet Beecher Stowe wrote part of "Uncle Tom's Cabin." Natural Bridge is the place where the students of West Florida military academy (now the Florida state college for women) gallantly defended the state capital during the civil war. The freak stream of Lost river, Wakulla spring, the miraculous source of the Wakulla river, St. Mark's lighthouse, Panacea Mineral springs, Lake Lafayette, a part of the grant to General Lafayette by the U. S. government, the "Home of the Tallahassee Girl," the governor's mansion and the capitol, from which there is a magnificent view, are all interesting to tourists. The Hill City golf course is one of the most beautiful in the country.

Three famous transcontinental highways meet at Tallahassee—the Dixie highway, Old Spanish trail highway, connecting the Atlantic coast of Florida and the Pacific coast of California, and the North-and-South National Bee Line highway "Duluth to the Gulf," Tallahassee being the southeastern terminus of the latter highway and New Orleans the southwestern terminus.

- 35.5 0.2 FERNANDINA,* 4-corners, P. O. on right.

*Fernandina, Fla. (pop. 5,000, alt. 10 ft.), is situated on Amelia Island, which is in the Atlantic ocean 33 miles northeast of Jacksonville. It has a fine harbor and a large export trade in naval stores, lumber and phosphate. On the east side of the island is Amelia beach, a fine expanse for bathing and driving. On the north side are Fort Clinch and Fernandina lighthouse. During the war of 1812, when the town experienced "Neutral-Port Boom"

after the Jefferson embargo act, there were 150 vessels in the harbor at one time. Cumberland Island, one of the Sea Islands north of Amelia Island, is noted for its beauty. The state of Georgia presented Col. Nathaniel Greene of the continental army with an estate on Cumberland Island, which is now owned by Mrs. T. M. Carnegie. "Light-Horse Harry" Lee's grave is on the island. Fernandina was settled by the Spaniards in 1632.

Right at 4-corners 17.5 leads to Pablo Beach—2 miles. Straight shell road.

Follow along ocean front.

18.0 0.5 ATLANTIC BEACH,* hotel ahead on right.

HOTELS—Atlantic Beach Hotel.

*Atlantic Beach, Fla., is claimed to be the finest in the entire world. Here is found an unbroken stretch of smoothly packed sand without a single danger spot. At low tide the beach is from 600 to 800 feet wide, affording an incomparable motor speedway. The development at Atlantic Beach is delightfully situated on a high bluff which is densely wooded. The mighty oaks, graceful palms

and magnolias extend to the very edge of the beach. Many of the desert and tropical scenes occurring in the moving pictures are obtained at or near Atlantic Beach. St. Johns river, which, together with the ocean, makes of the beach a forty-mile peninsula, offers adequate facilities for still-water bathing and sailing craft.

Central Florida Section

Route 51—Orlando to Ocala, Fla.—82.9 m.

Reverse Route 63.

Via Apopka, Mt. Dora, Eustis, Tavares, Leesburg, and Lake Weir and Belleview. Brick to Plymouth, good sand-clay to Mt. Dora; good sheet asphalt to Eustis; principally good sand-clay to Belleview; balance rock. Summary: 12 miles rock; 6 miles asphalt; 17 miles brick; 48 miles sand-clay.

A trunk line connection from central Florida to Ocala, connecting there for points north. One of the prettiest and most popular trips in the state, thru the pretty rolling, hilly, and lake district of central Florida, passing the beautiful and popular lakes Dora, Eustis, Harris, and Weir, as well as hundreds of other attractive bodies of water. Grove lands to Leesburg; balance practically all farming country.

An excellent scenic option to Tavares or Eustis is found in Route 52, which goes via Minneola.

- 34.9 0.2 Tavares,* 4-corners, sta. on left. Turn right.
COMM. ORGAN.—Tavares Board of Trade.
 Pass courthouse on left 35.2. Cross RR 35.3.
- 35.9 1.0 Fork, just beyond arch; bear right. Curve right along shore of Lake Harris 37.8. Cross bridge over Dead river 48.2. Cross RR 38.8, using caution. Pass Silver Lake Estates 39.6.
- 44.7 8.8 Prominent 3-corners; bear right. Cross RRs 45.4-45.7—now on Main St.
- 46.1 1.4 Leesburg,* Main & Fifth Sts., just beyond bank, park on left.
GARAGES—J. Y. Clark's Garage, next to water works.
 COMM. ORGAN.—Leesburg Board of Trade.
 SERVICE STA.—United States Tire Sales & Service Depots located here.
 Straight thru on Main St. Thru irregular 4-corners at church 46.3.
Left at church 46.3 are Routes 70 to Lakeland and 71 to Dade City.
- 46.6 0.5 Right-hand road, RR ahead; turn right. Cross RR 46.9. Avoid right-hand diagonal roads 48.4-49.0.
- 50.2 3.6 Fruitland Park. Straight thru. Thru Lady Lake 64.4. Thru 4-corners at Conant Sta. 55.9. Cross RR at sawmill 58.1.
- 59.1 8.9 Weirsdale, irregular 4-corners. Keep ahead along RR. Thru Stanton 60.0, following along shore of Lake Weir. Cross RR at Lake Weir 63.7.
- 65.0 5.9 Left-hand diagonal road just beyond cemetery; bear left.
- 65.2 0.2 Right-hand road at lake; turn right.
- 72.1 6.9 Belleview, fork. Bear left across RR and at irregular 4-corners immediately beyond; bear right.
- 72.2 0.1 4-corners; turn left away from RR.
- 72.3 0.1 End of road, at pond; turn right.
Left at this turn leads to "Sink," a peculiar formation.
- 72.5 0.2 Left-hand diagonal road; bear left.

*Mt. Dora, Fla. (pop. 400), is one of the prettiest little towns in the state, located in the heart of the lakes and hills. It has a splendid yacht club, from the dock of which one can travel via boat thru seven lakes, connected by navigable canals, and thence thru two rivers to the Atlantic coast. Some of the finest tropical scenery in North America lines the shore of these lakes and rivers. Splendid hunting and fishing are other attractions in this vicinity.

*Tavares, Fla. (pop. 300, alt. 70 ft.), the

capital of Lake county, is located on Lake Eustis, a very attractive body of water, and offers splendid fishing and hunting.

*Leesburg, Fla. (pop. 3,000, alt. 240 ft.) is located in the heart of the peninsular portion of the state, midway between the ocean and the gulf, surrounded by large fresh water lakes. It offers good hunting, boating and fishing and excellent automobile highways connecting with all surrounding counties. The orange and grapefruit are produced here in great abundance.

YOU DON'T NEED AN INVITATION

or a letter of introduction to SEE CINCINNATI.
 You're welcome! See page 584 for particulars.

- 72.6 0.1 Right-hand diagonal road; bear right.
 73.2 0.6 Diagonal 4-corners; bear right. Cross RRs 79.6-81.4-81.5.
 82.0 8.8 First 4-corners at edge of town; turn left onto Eighth St.
 82.5 0.5 Magnolia St., just beyond RR; turn right.
 82.9 0.4 OCALA,* Magnolia Ave. & Broadway, court house on far right.

HOTELS—Harrington Hall Hotel, Main St., foot of King Ave.

GARAGES—Gates Garage, 303 Magnolia Ave.

Straight ahead on Magnolia Ave. is Route 62 to Lake City via Gainesville.

Left on Broadway is Route 64 to Tampa via Brooksville.

Route 52—Orlando to Eustis, Fla.—47.9 m.

Reverse Route 60.

Via Ocoee, Oakland, Minneola and Tavares. Good brick to Oakland; balance good sand-clay with last 2 miles asphalt. Summary: 17 miles brick; 29 miles sand-clay; 2 miles asphalt.

The route as far as Oakland is thru level wooded farm and grove country, past numerous lakes, including Lake Apopka, one of the largest in Florida; then thru beautiful rolling and hilly wooded country (one of the hilliest sections of Florida) to Tavares; balance grove country.

A longer but more scenic option to Route 51. Connection can be made for Leesburg and Ocala with Route 51. For connection to Windermere, see Note (a), and for connection to Mascotte, see Note (b).

- 25.1 4.1 Minneola, end of road at Lake Minneola, store on right.
 Left is Note (b) to Mascotte.
 Turn right along shore of lake. Avoid right-hand diagonal road 28.6—now in hilliest section of Florida. Thru Astatula 35.1. Cross RR 40.6.
- 41.7 6.6 Fork; keep right, thru arch.
 Left fork is Route 51 to Ocala via Leesburg.
- 41.8 0.1 Fork, just beyond small wooden bridge; bear left. Cross RR 42.2. Pass court house on right 42.3.

*Ocala, Fla. (pop. 6,000, alt. 69 ft.), is the seat of Marion county. In this county along the Dixie highway near Orange lake and Lake Weir, are some unusually fine orange and grapefruit groves. The largest and most interesting are in the rich hammocks, offering attractive side trips for the motorist. There is excellent hunting and fishing within easy reach of the city. The golf course of the Ocala country club is very attractive. Silver Springs, about five miles from the court house in Ocala, are so large that their

basins are used as the head of navigation on the Silver river. The springs have a flow of 368,913 gallons a minute. The water is very clear—so clear, in fact, that objects as small as a 25 cent piece can be seen at the bottom of the pools, one of which is 80 feet deep. Thru the glass bottomed boats from which the springs are viewed may be seen turtles, alligators, submarine grasses, rocky caverns, etc. The temperature of the springs is about 70 degrees the year round.

- 42.5 0.7 TAVARES,* 4-corners, sta. on right. Turn left two blocks.

- 9.5 0.1 Gotha, right-hand road, store on right. Turn right.
- 9.7 0.2 Left-hand diagonal road at RR; bear left along same.
- 12.4 2.7 WINDERMERE, 4-corners, sta. on right.

Note (b) Route 52—Minneola to Mascotte, Fla.—10.8 m.

Reverse Note (a) on Route 72.

Via Clermont and Groveland. Good sand-clay all the way. Can be used as a connection to Dade City, Brooksville or Plant City. For travel bound for Plant City or Tampa, the longer road via Orlando and Kissimmee will be found preferable, following Route 60 from Minneola to Orlando, then Route 20 to Tampa.

- 0.0 0.0 MINNEOLA, 4-corners, P. O. on left. Go south downgrade along Lake
 Minneola (a left turn if coming from Orlando). Avoid left-hand diagonal
 road 0.7.
 Diagonally left at 0.7 leads to Lake Highland Club.
- 1.7 1.6 Cross RR 1.6.
- 1.7 1.7 Clermont,* 4-corners in middle of grade, just beyond RRs.
 Straight ahead leads to business center one block.
 Turn right. Turn right with road at top of grade 2.1. Cross long wooden
 bridge 2.6. Cross RR 4.1. Recross RR at Varnell Sta. 5.7.
- 8.2 6.5 Groveland, bank on left. Straight thru.
 Left is Route 70 to Lakeland.
 Cross switch 8.5. Thru 4-corners at wooden school 10.7.
 Right at school, edge of town, 10.7 is Route 72 to Leesburg.
- 10.8 2.6 MASCOTTE, at RR sta. on left.
 Straight ahead is Route 71 to Dade City.

Note (c) Route 52—Eustis to Leesburg, Fla.—17.6 m.

Reverse Note (a) on Route 63.

Via Lisbon. Sand-clay roads.

The following note offers a longer option to the regular route.

- 0.0 0.0 EUSTIS, Magnolia & Bay Sts., bank on left. Go north on Bay St. (a right
 turn if coming from Orlando). Curve left and right 0.3 along shore of Lake
 Eustis.
- 1.2 1.2 Fork; keep left. Cross RR 2.6.
- 4.1 2.9 Grand Island. Straight thru across RR at sta.
- 4.7 0.6 Left-hand road; turn left with travel—view of Lake Yale ahead.
- 8.0 3.3 Right-hand road; turn right.
- 8.1 0.1 Left-hand road; turn left.
- 8.5 0.4 Left-hand road; turn left.
- 9.2 0.7 Lisbon, station ahead on right, curve right along RR. Cross RR 9.6, and
 follow main traveled road across RRs 16.8-17.0.
 Left just beyond RR 17.0 is Route 51 to Ocala.
 Thru irregular 4-corners at Church 17.4.
- 17.6 8.4 LEESBURG, Main & Fifth Sts. at far side of park.
 GARAGES—J. Y. Clark's Garage, next to water works.
 COMM. ORGAN.—Leesburg Board of Trade.
 Straight ahead on Main St. is Route 63 to Orlando.

*Tavares, Fla. (pop. 300, alt. 70 ft.), the capital of Lake county, is located on Lake Eustis, a very attractive body of water, and offers splendid fishing and hunting.

*Eustis, Fla. (pop. 1,200, alt. 61 ft.), is a prosperous and growing young city in Lake county. It is situated on the shore of Lake Eustis, which connects with a chain of lakes, making a shore line of 350 miles and forming the source of the Ocklawaha river. Considerable citrus fruit is raised in this locality and

stock raising and general farming is being developed rapidly. Boating, fishing and golf are the chief amusements.

*Clermont, Fla. (pop. 1,000, alt. 105 ft.) is located in what is known as the Apopka mountains, and, according to the U. S. Geographical survey, is the highest point in the peninsula of Florida. It is surrounded by fresh water lakes ranging in size up to five miles across.

Route 55—De Land to Palatka, Fla.—62.1 m.

Reverse Route 35.

Via DeLeon Springs, Crescent City and San Mateo. Sand and shell with brick for a short distance entering Palatka.

This is the St. John's River Scenic highway and has recently been designated a State Road. It is being hard-surfaced, and when completed will be used by a great many tourists from central Florida bound for St. Augustine and Jacksonville.

- 49.6 5.6 Satsuma, right-hand road, sta. on left. Turn right.
- 52.2 2.6 Cross toll bridge over Dunn's creek. Cross RR 52.4.

Charges—Car and driver, 25c; passenger, 5c.

*Crescent City, Fla. (pop. 1,000, alt. 56 ft.), was founded in 1875 by Charles R. Griffin. The town is unusually located on a ridge between Lakes Stella and Crescent, two beautiful bodies of fresh water. Altho these lakes are scarcely a quarter mile apart there is a difference in their levels of 40 feet. In winter the population is almost doubled by the tourists. Crescent City is the center of one

of the finest citrus growing districts in the state. The average season's shipment amounts to about 300,000 boxes of oranges, grapefruit and tangerines. Visitors are always courteously welcomed at any of the groves, and every opportunity is afforded for inspecting both the groves and packing houses.

De Soto House

De Leon Springs, Florida

Mrs. M. J. Powers & Son, Proprietors

NEAR THE FAMOUS DELEON SPRINGS

Well ventilated, comfortable rooms,

*San Mateo, Fla. (pop. 125), is a pretty village on the St. John's river and the highest point in Florida east of this stream. Many

northern people have their winter homes here. Citrus fruit and potatoes are grown in abundance in this vicinity.

Route 58—Eustis to New Smyrna, Fla.—57.4 m.

Reverse Route 21.

Via Altoona and De Land. Asphalt to Altoona, except a sand-clay stretch thru Umatilla, then 16 miles of sand and sandy clay (not bad in wet weather), followed by 3 miles of narrow shell, then 9 miles of brick adjacent to De Land; balance shell. Summary: 7 miles asphalt; 9 miles brick; 24 miles shell; 17 miles sandy-clay and dirt. Thru undeveloped wooded country, except the territory adjacent to Eustis and De Land, which is very pretty farm and grove land. An important connection from one of the central Florida's lake regions to the east coast.

(MILEAGE—Distance
Total Between
Mileage Points)

An excellent tho longer option via Sanford, with better road conditions, is furnished in Route 59. For option to De Land via Sanford, with hard road all the way, combine Routes 59 and 91.

0.0 0.0 EUSTIS, Bay St. & Magnolia Ave., bank on left. Go north on Bay St. along Lake Eustis.

1.1 1.1 Right-hand diagonal road; bear right away from lake.

Straight ahead before this turn is Note (c) on Route 52 to Leesburg.

5.5 4.4 Umatilla, store on right. Keep ahead along RR.

5.8 0.3 End of road at sta.; jog left across RR and immediately right along same. Caution for right and left curve across RR 7.3.

8.4 2.6 Altoona—caution, right-hand road. Turn right onto sand-clay.

Straight ahead leads to business center, 0.1 mile.

Turn right with road 9.4. Follow graded road thru woods. Turn left with road past Paisley P. O. 16.6. Curve left and right across long iron toll bridge over St. Johns river 26.9 (charges 50c).

27.4 19.0 End of road, boat dock over to right; turn left. Cross RRs 29.1-29.6—now on New York Ave.

32.3 4.9 De Land,* New York Ave. & Woodland Blvd., at stores.

HOTELS—Hotel College Arms, New York Ave., E.

The Lexington, New York Ave.

Putnam Inn, New York Ave.

GARAGES—Nahm & Nahm Garage, 112 S. Blvd.

Left on Woodland Blvd. is Route 55 to Palatka and Route 91 to Daytona.

Right on Woodland Blvd. is Route 20 to Orlando.

Straight thru on New York Ave. Cross RR at golf course 32.5. Curve right along Lake Winnemessett 35.3.

36.0 3.7 Fork; keep left along lake. Cross logging RR 37.5 and RR 45.8. Avoid right-hand diagonal road 53.8.

55.4 19.4 Prominent fork; bear right along fence. Turn left with road 55.7 and left again with road 56.0. Cross RRs at sta. 57.1—now on Canal St.

Left at stores 57.2 on Orange St. is Route 15 to Daytona.

57.4 2.0 NEW SMYRNA,* Canal & Faulkner Sts., bank on right and left.

HOTELS—Rio Vista Hotel, on Dixie highway, $\frac{3}{4}$ mile south of town.

GARAGES—Dixie Garage, Canal St., center of town.

Right on Faulkner St. is Route 3 to Palm Beach.

*De Land, Fla. (pop. 5,000, alt. 54 ft.), is situated on the highest elevation between the St. Johns river and Atlantic ocean. It is in the midst of a very productive section, all citrus fruits, pears, grapes, peaches, and other fruits being produced here in abundance. Live stock production has also become a great industry in this locality during the past few years. A visit to the Stetson properties gives an interesting view of the methods of fruit growing, especially the methods for preventing frost from injuring the fruit.

The Stetson university, located here, with a student body of 700, was founded by John B. Stetson of Philadelphia, owner of the estate above mentioned.

All outdoor sports, including golf, hunting, fishing, motoring and tennis are indulged in at De Land.

The College Arms golf course, open to the public, is one of the best in the south. Among the points of interest nearby are the

DeLeon springs and the ruins of an old Spanish sugar mill.

*New Smyrna, Fla. (pop. 2,500, alt. 13 ft.), in Volusia county, is on the North Indian river, near the ocean. It was established 1765 for a Greek and Minorcan colony and was named for Smyrna, Asia. It is said to be the first settlement in the United States (antedating St. Augustine by about six months). In the city of Madrid, Spain, there are records regarding colonies at New Smyrna nearly 500 years old. There are good roads around the city, which is built on the site of old Indian shell mounds. A drive may be taken to a point west of New Smyrna where are traces of Fort Columbus, believed by some to have been built by Christopher Columbus in 1512. There are also some ancient canals and the ruins of a pretentious Spanish mission. The beach is used for motor driving. The town is at the apex of the newly completed triangular road connecting Daytona, Deland and New Smyrna.

Route 59—Eustis to New Smyrna, Fla.—63.3 m.

Reverse Route 22.

Via Mt. Dora, Sanford, St. Johns river ferry and Osteen. An important connection between one of central Florida's lake regions and the east coast. First 20 miles (to Wekiva river) good sheet asphalt; brick to St. Johns river ferry; balance fair shell. Summary: 30 miles shell; 13 miles brick; 20 miles asphalt.

Thru beautiful lake and grove country to Mt. Dora, thence wooded farm country to St. Johns river ferry, with some very pretty views from the Wekiva river bridge and thru the great truck garden district adjacent to Sanford, said to be one of the greatest celery centers in the country. From St. Johns river ferry to New Smyrna the road is thru level undeveloped wooded and swamp country. The lakes in this region are very pretty and worth a visit. Being connected by navigable rivers, it is possible to go by boat from these lakes to any port in the country. The bass fishing is exceptionally good.

- 6.1 0.2 Caution—left-hand road; turn left onto sand-clay.
Straight ahead before this turn is Route 63 to Orlando.
- Curve right with asphalt along swamp 7.2. Ascend steep grade 7.7.
- 10.3 4.2 End of road; turn left.
- 10.4 0.1 Right-hand road; turn right with asphalt. Cross RR 10.8.
- 10.9 0.5 Sorrento. Straight thru. Cross narrow gauge RR 11.8. Turn left 12.5.
- 12.7 1.8 End of road at RR; turn right along same. Curve left across RR 17.0. Cross long wooden bridge over Wekiva river 19.5. Thru irregular 4-corners 25.7—now on First St.
Left at 25.7 is Route 91 to Daytona.
- Cross RRs 27.2-28.3-28.8.
- 28.9 16.2 Sanford,* First St. & Park Ave., bank on right.
HOTELS—Hotel Carnes, 1st St., next to P. O.
- Turn right (south) onto Park Ave. Pass parks on right 29.1-29.4.
- 29.5 0.6 10th St.; turn left.
- 29.6 0.1 Sanford St., just beyond large brick school; turn right.
- 29.8 0.2 Celery Ave., wooden store on left; turn left.
Avoid right-hand road 32.3. Cross long wooden bridge 32.8.
- 33.0 3.2 Ferry across St. Johns river.
Charges—Holidays and nights, 26c; other days free.
- Leaving ferry, keep ahead across long fill over swamp. Turn right with road 37.0.
- 37.2 4.2 4-corners; turn left with travel, passing church on right.
- 37.4 0.2 Osteen, end of road, P. O. on right. Turn left.

*Mt. Dora, Fla. (pop. 400), is one of the prettiest little towns in the state, located in the heart of the lakes and hills. It has a splendid yacht club, from the dock of which one can travel via boat thru seven lakes, connected by navigable canals, and thence thru two rivers to the Atlantic coast. Some of the finest tropical scenery in North America lines the shore of these lakes and rivers. Splendid hunting and fishing are other attractions in this vicinity.

*Sanford, Fla. (pop. 6,000, alt. 20 ft.), is a thriving little city on the south side of Lake Monroe, at the head of navigation on the St. Johns river. Lake Monroe is noted for its black bass. There are water sports and many interesting side trips, particularly to the large celery farms. The place is sometimes called the "Celery City." It was named after General Sanford, once Minister to Belgium, and who acquired a grant which was made by Lincoln to his secretary.

- 37.5 0.1 Fork; bear right with travel across RR. Road is thru undeveloped woods and swamp. Caution for sharp right turn just beyond wooden bridge 51.8.
- 52.3 14.8 End of road; turn left. Cross RR at Biggsville Sta. 52.7. Avoid right-hand diagonal road 59.7.
- 61.3 9.0 Prominent fork; bear right. Turn left with road 61.6 and left again 61.8. Cross RR at sta. 63.0—now on Canal St.
Left at stores 63.1 on Orange St. is Route 15 to Daytona.
- 63.3 2.0 **NEW SMYRNA,*** Canal & Faulkner Sts., bank on right and left.

HOTELS—Rio Vista Hotel, on Dixie highway, $\frac{3}{4}$ mile south of town.
GARAGES—Dixie Garage, Canal St., center of town.
Right on Faulkner St. is Route 3 to Palm Beach.

Route 60—Eustis to Orlando, Fla.—47.9 m.

Reverse Route 52.

Via Tavares, Minneola, Oakland and Ocoee. First 2 miles asphalt, then good sand-clay to Oakland; balance brick. Summary: 17 miles brick; 29 miles sand-clay; 2 miles asphalt.

The route as far as Tavares is thru grove country, then thru beautiful rolling and hilly wooded country to Oakland, over one of the hilliest sections of Florida; balance level wooded grove and farming country, past numerous lakes, including Lake Apopka, one of the largest in the state.

A longer but more scenic option to Route 63. Connection can be made at Minneola with Note (b) on Route 52 for Mascotte.

- 0.0 0.0 **EUSTIS**, Magnolia Ave. & Bay St. Go east on Magnolia Ave. two blocks.
- 0.1 0.1 Grove St.; turn right. Thru 4-corners 1.8.
Right at 1.2 leads to Ocklawaha Golf Club.
Left at 1.8 is Route 63 at mileage 51.5 to Orlando.
- 4.7 4.6 End of road; turn right. Cross RR 4.9.
- 5.1 0.4 4-corners, church on right; turn left two blocks.
- 5.3 0.2 Tavares,* 4-corners, sta. on left. Turn right.
COMM. ORGAN.—Tavares Board of Trade.
Pass court house on left 5.6. Cross RR 5.9.
- 6.2 0.9 Fork, just beyond arch; keep left.
Right fork is Route 51 to Ocala via Leesburg.
Cross RR 7.3, avoiding right-hand diagonal road immediately beyond. Thru Astaula 12.8. Avoid left-hand road at foot of grade 19.3.
- 22.8 16.6 **Minneola**, left-hand road, store on left.
Straight ahead is Note (b) on Route 52 to Mascotte.
Turn left away from lake. Caution for RR 23.4.
- 26.9 4.1 Prominent 3-corners; bear right.
- 29.4 2.5 End of road; turn right across RR at Killarney Sta. and left across another RR. immediately beyond.
- 30.6 1.2 Right-hand diagonal road; bear right away from RR.

- 33.9 1.5 **Winter Garden**, bank on right. Straight thru along RR.
- 36.4 2.5 **Ocoee**. Curve left across RRs at sta.
- 36.5 0.1 End of road; turn right.

Orlando City Map and Points of Interest, page 117.

*New Smyrna, Fla. (pop. 2,500, alt. 13 ft.), in Volusia county, is on the North Indian river, near the ocean. It was established 1765 for a Greek and Minorcan colony and was named for Smyrna, Asia. It is said to be the first settlement in the United States (antedating St. Augustine by about six months). In the city of Madrid, Spain, there are records regarding colonies at New Smyrna nearly 500 years old. There are good roads around the city, which is built on the site of old Indian shell mounds. A drive may be taken to a point west of New Smyrna where

are traces of Fort Columbus, believed by some to have been built by Christopher Columbus in 1512. There are also some ancient canals and the ruins of a pretentious Spanish mission. The beach is used for motor driving. The town is at the apex of the newly completed triangular road connecting Daytona, Deland and New Smyrna.

*Tavares, Fla. (pop. 300, alt. 70 ft.), the capital of Lake county, is located on Lake Eustis, a very attractive body of water, and offers splendid fishing and hunting.

37.7 1.2 4-corners; turn right with brick.

Sharp right at 40.8 is Note (a) on Route 52 to Windermere.

Turn right with brick 46.6 and left with brick 46.7—now on Central Ave. Cross RR 0.1.

 RESTAURANTS—Molnar's Dining Room, 108 E. Main St.

Turn left (north) onto Main St. along RR.

*Gainesville, Fla. (pop. 11,000, alt. 180 ft.), is one of the oldest and most important inland towns in the state. It is well parked and paved, and live oak and Spanish moss overhang the streets. It has long been a health and pleasure resort, and boasts of many good hotels. Of particular interest and importance, however, is the University of Florida, one of the best colleges in the south, and the Florida agricultural experiment station, which are located here. A visit to the buildings and grounds of these institutions is well worth while. A confederate monument on the public square marks the site of the battle of

Gainesville, fought here during the civil war. There are many natural attractions in close proximity to the city, among which are the great Alachua Sink, which was once teeming with alligators; Paint's Prairie, the Devil's Millhopper, which lies six miles to the north and whose level never changes though twenty streams are continually emptying into it, Warrens Cave and Lake Newnan. The Spring Park stock farm, the largest and finest of its kind in the state, is a few miles west of the city, reached by a good hard road. A free rest room for tourists and citizens is maintained in the Hill Block at Gainesville.

- 44.1 0.5 End of road; turn left across RR. Thru irregular 4-corners 44.1.
- 44.3 0.2 End of road; turn right. Cross RR 44.4.

EUSTIS BOARD of TRADE

Eustis, Fla.

Eustis, Lake County, Fla.—Located in the center of Lake Co.; a county with more than a thousand lakes; one hundred and twenty-five miles south of Jacksonville, on what is known as the backbone of Florida, equidistant from the Atlantic Coast and the Gulf, on the shores of Lake Eustis, one of a chain of lakes that have approximately three hundred miles of shore line, a beautiful body of water, and the source of the famous Ocklawaha River.

Eustis can be reached by way of Jacksonville (the gateway of Florida) via the Atlantic Coast Line, either through Sanford or Leesburg, or as an alternate route we would suggest a sail up the beautiful St. Johns River on a Clyde Line boat to Astor, thence by rail thirty miles to Eustis.

Eustis is the center from which radiate in all directions the finest system of Highways in the country, connecting up with the brick roads of Orange, Seminole and Volusia Counties. Complete up-to-date sewerage system, beautiful streets, paved with asphalt and lined with fine residences and well kept lawns, and that greatest of all blessings—the finest and purest water in the State.

Eustis offers to the visitor many good hotels and boarding houses, with rates suitable to all.

Splendid Golf Links; hunting and fishing of the best. An ideal place for the lover of boating and all aquatic sports, for one can spend days upon our waters visiting new scenes and scenery unsurpassed in Florida.

No end to the good things to be said about Eustis. Our tourist friends, who know, will say the word. All we ask is a personal visitation; come and see and be convinced that you have found the place that is different and "that fills the bill." For road-map of this section, see pages 84-85. For information write Sec. Board of Trade.

*Apopka, Fla. (pop. 425, alt. 250 ft.), in Orange county, 4 miles east of Apopka lake, has been a health resort since the time of the Seminole Indians, who camped on the shores of the lake. Situated in an elevated

district, the climate is particularly good. There is such an expanse of water at Lake Apopka that the visitor gets the impression of being at the seashore. A splendid free camping ground is maintained for tourists.

Be Sure You're Fully Equipped

In the *Orange* insert, center of Book, is a careful analysis by the Editor of necessary—and unnecessary—equipment for touring. Glance down the list and check your equipment. Read his advice. We recommend the particular makes of accessories listed as reliable.

How's YOUR CITY? OURS is great!!! Let's meet and learn things about each other's City! We want to know you! We want YOU to know us! See page 584

Route 64—Ocala to Tampa, Fla.—135.1 m.

Reverse Route 109.

Via Dunnellon, Brooksville, Tarpon Springs, Sutherland and Oldsmar. All lime rock with a few sandy stretches to Floral City, then one mile of winding sand-trail thru woods; stone and sand-clay to a point 4 miles south of Brooksville, then 17 miles of fair to very poor dirt, especially bad between mileage 76.0 and 80.0. This 4-mile stretch is impassable in very dry or wet weather. At such times a sand-trail detour which parallels the grade may be used; rough stone from the end of this dirt to the Pinellas county line, which is two miles north of Tarpon Springs; balance narrow brick road. Caution should be used on this brick road in turning out for passing vehicles, the sand being quite loose in places on either side. The only place on the route that is likely to give trouble is the 4-mile stretch built up grade between mileage 76.0 and 80.0, which can be avoided by taking the sand-trail detour. Summary: 30 miles brick; 88 miles stone; 16 miles dirt and sand-clay; 1 mile sand-trail.

This is a section of the trunk line road of the west coast of Florida.

Most of the way to New Port Richey is thru undeveloped pine and palmetto wooded country, with farming sections adjacent to the larger towns; balance thru beautiful developments, past many fine groves and homes with some glimpses of tropical jungle. Among the many interesting side trips that can be made from this route are the Silver Springs, near Ocala and the Tarpon Springs sponge fisheries. There is excellent fishing at all of the shore points.

A much longer option, with hard road most of the way and sand-clay on the intermediate stretches, is furnished in Route 63 to Orlando and then Route 20 to Tampa.

(MILEAGE) An option with about the same road conditions as Route 64 may be had by following Routes 63 to Leesburg, 62 to Dade City and 66 to Tampa.

| 48.4 | 6.2 | 4-corners; turn right. |

*Dunnellon, Fla. (pop. 1,800, alt. 44 ft.). Hard rock phosphate mining is the leading industry here. In the locality are lakes and prairies and curious sink formations with traces of ancient plantations in the forest.

The bareness of some of the land is due to an ancient custom of the old cowmen, who each fall set fire to the underbrush to promote the growth of the grass for the following spring.

 101.0 2.5 End of road; turn right and take first left-hand road immediately beyond. Curve right and left across abandoned RR 102.3. Cross bridge over Anclote river 106.5. Same thoroughfare becomes Eagle St.
 Right at 106.9 is new road to Sponge fisheries and docks.

*Brooksville, Fla. (pop. 2,200, alt. 328 ft.), is situated in a beautiful country, and from one point the gulf of Mexico can be seen. It is the social and commercial center of the famous "high hammocks" section of Florida. There are various drives thru orange, grapefruit, lime and tangerine groves. About three miles distant is a curious sink, known as the "Devils' Punch Bowl." It is about 200 feet across the top, 100 feet deep, and immense trees grow upon the bottom.

*New Port Richey, Fla. (pop. 1,000), is a new community lying along the Dixie highway. A very pretty lake occupies the center of town, surrounding which is a ten acre park in which is located the community club house, boat house and public recreation grounds. The beautiful Cootee river flows on two sides of the town. The usual Florida sports are at their best here—boating, hunting, fishing, etc.

- 48.7 0.4 Plant City,* Collins & Reynolds Sts., at banks, P. O. on right.
- Left is Route 91 to Orlando and Daytona.
- Turn right (west) onto Reynolds St. and follow Route 20 (from mileage 139.6 to 161.4) balance of the way to
- 70.5 21.8 TAMPA, Franklin & Lafayette Sts., court house on left.

*Plant City, Fla. (pop. 4,500, alt. 125 ft.), is situated just 22 miles east of Tampa on a tributary of the Dixie highway. It is the strawberry center of the state, producing and selling upwards of \$300,000 worth of berries every season.

In addition, it also maintains numerous packing houses to accommodate the grapefruit, orange and vegetable production of the surrounding territory.

Tour the Rockies

Vol. 7

Everyone knows that mountain scenery is both beautiful and spectacular, but only a few motorists realize the awe-inspiring effect of a motor trip through The Rockies. The roads in most Rocky Mountain States are almost the equal of the best and far better than our dirt roads of the Central Sections.

Route 67—Ocala to St. Petersburg, Fla.—143.7 m.

Reverse Route 114.

Via Dunnellon, Brooksville, Tarpon Springs, Sutherland, Clearwater, Largo, and Davista. All lime rock with a few sandy stretches to Floral City, then 1 mile of winding sand-trail thru woods, then stone and sand-clay to a point 4 miles south of Brooksville, followed by 17 miles of fair to very poor dirt, especially bad between mileage 76.0 and 80.0. This four-mile stretch is impassable in very dry or wet weather. At such times a sand-trail detour which parallels the grade may be used. Rough stone from the end of this dirt to the Pinellas county line, two miles north of Tarpon Springs; balance narrow brick road. Caution should be used in turning out for passing vehicles on this brick road as the sand is quite loose in places on either side. The only place on the route likely to give trouble is the 4-mile stretch of built up grade between Brooksville and Aripeka, which can be avoided by taking the sand-trail detour. Summary: 39 miles brick; 88 miles stone; 16 miles dirt and sand-clay; 1 mile sand-trail. Most of the road to New Port Richey is thru undeveloped pine and palmetto wooded country with farming districts adjacent to the larger towns; balance is thru beautiful developments, passing many fine groves and homes with some glimpses of beautiful tropical jungle.

Among the many interesting side trips that can be made from this route are Silver Springs, near Ocala; Tarpon Springs sponge fisheries; Belleair, with its famous golf course and shore attractions; Clearwater Beach; Haven Beach and Indian Rocks; St. Petersburg Beach and Pass-a-grille, with their shore attractions, bathing, etc. There is excellent fishing at all of the shore points.

This is a section of the trunk line road to the west coast of Florida.

An option with about the same conditions may be had by going via Leesburg, Dade City, Plant City and Tampa, following Routes 63 to Leesburg, 71 to Dade City, 66 to Plant City and Tampa, and 115 or 116 to St. Petersburg. A much longer option, with hard road most of the way and sand-clay on the intermediate stretches, may be had by going via Leesburg, Eustis, Mt. Dora and Orlando, following Routes 63 to Orlando and 20 to Tampa, then 115 or 116 to St. Petersburg.

Left at this turn is Route 70 to Lakeland.
- 17.5 0.2 Mascotte. Straight thru across RR. Cross RR 19.5. Caution for RR 20.2.
- 21.6 4.1 Caution—fork; bear left onto winding sand trail thru woods. Avoid all diverging roads, keeping main travel.
- 23.0 1.4 Diagonal cross-trail in woods, house ahead on right; turn left. Curve left across RR at Mabel Sta. 23.2, passing house on left just beyond and going thru dense woods.
Road parallels along RR, but same is not visible.
Thru cross-trail 24.8. Pass sign on tree on right 25.1.

- 25.5 2.5 Fork; bear left, passing small negro settlement. Pass cemetery on left 26.3.
- 26.7 1.2 Linden, end of road. Turn right across RR and immediately left along same. Avoid right-hand road 27.4.
- 28.0 1.3 End of road in woods; turn left. Avoid right-hand road 28.1.
- 28.2 0.2 Right-hand road at RR; turn right.
- 28.3 0.1 Fork, in woods; bear left.
- 28.6 0.3 Fork; bear left and keep in general direction of RR. Cross RR 28.7. Thru cross-trail 28.9. Recross RR 30.2-30.7. Cross several wooden bridges on built-up road 30.8.
- 31.5 2.9 Fork; bear right across small wooden bridge.
- 32.0 0.5 End of road at Riverland Sta.; turn right across RR, curving left immediately beyond. Recross RR 32.7.
- 33.6 1.6 Riverland, end of road. Turn right across RR, past P. O. on right.
- 33.7 0.1 Fork of three roads; bear left along RR. Recross RR 34.3-35.0, following trail thru woods. Thru cross-trail 36.2, passing turpentine still over to left. Curve left across iron bridge 36.8. Cross RR 38.0, curving left immediately beyond.
- 38.1 4.4 Lacoochee, sta. on left. Keep ahead along RR.
- 39.5 1.4 Trilby, irregular 4-corners at edge of town. Turn left, avoiding right-hand road (which leads to business center) just beyond. Cross RR 39.8.
- 40.0 0.5 5-corners; turn right, following graded road.
- 40.1 0.1 Irregular 4-corners, just beyond RR; turn left. Curve left and right across RR 41.2.
- 43.8 3.7 Irregular 4-corners; bear left, following grade.
- 44.3 0.5 Fork; keep right. Cross RR 44.5. Pass church on left 46.2.
- 46.3 2.0 4-corners; turn left.
- Right at this turn is Route 110 to Brooksville.
- 46.7 0.4 **DADE CITY**, 4-corners, just beyond RR, courthouse on far right.

Straight ahead is Route 66 to Tampa via Plant City.

Route 72—Dade City to Leesburg, Fla.—46.7 m.

Reverse Route 71.

Via Trilby and Mascotte. Graded sand-clay for first 8 miles, then 15 miles of very poor winding sand-trail to the Lake county line; last 21 miles good sand-clay. Summary: 32 miles sand-clay; 15 miles poor sand-trail.

First few miles and last few miles thru wooded and farm country; balance poor undeveloped wooded section with 15-mile sand-trail thru the woods. The route parallels the RR nearly all the way to Mascotte and it is best to follow this RR on the 15-mile sand-trail stretch as new diverging sand-trails are constantly

<p>—MILEAGE— Total Distance Between Points Mileage</p>	<p>appearing. See Note (a) for connection to Minneola, connecting there with Route 60 to Orlando.</p>
--	---

- 0.0 0.0 **DADE CITY**, 4-corners, courthouse on left. Go west on double drive across RR at sta.
- 0.4 0.4 4-corners; turn right. Pass wooden church on right 0.5.
- 2.2 1.8 Fork; bear right across RR.
- 2.9 0.7 Irregular 4-corners; bear right, following grade.
- 5.5 2.6 Fork; bear left across RR and immediately right.
- 6.6 1.1 Irregular 4-corners; turn right across RR, following grade.
- 6.7 0.1 5-corners; turn left. Cross RR 6.9.
- 7.2 0.5 Trilby, irregular 4-corners at edge of town. Turn right.
- 8.6 1.4 Lacoochee, sta. on right. Keep ahead along RR.
- 8.7 0.1 Fork; bear right across RR.
- 9.9 1.2 Fork, just beyond iron bridge; bear right onto sand trail thru woods.
- 10.4 0.5 Fork; bear left, passing turpentine still over to right, and keeping ahead thru cross-trail just beyond. Avoid right-hand diagonal road 11.5. Cross RRs 11.7-12.4.
- 13.1 2.7 Riverland, left-hand road, just beyond RR and P. O. Turn left. Recross RR 14.0.
- 14.7 1.6 Turn right across RR and take left-hand road at Riverland

Sta. immediately beyond. Keep in general direction of RR. Cross several wooden bridges on built-up road 15.7. Recross RR 16.0-16.5. Thru cross-trail 17.8. Cross RR 18.0.

- 18.1 3.4 Fork; bear right.
 18.5 0.4 End of road; turn left.
 18.7 0.2 Right-hand road in woods; turn right. Avoid left-hand road 19.3.
 20.0 1.3 Linden, right-hand road, sta. on right. Turn right across RR and immediately left along same. Pass cemetery on right 20.4, passing small negro settlement beyond.
 Road parallels along RR, but same is not visible.
 21.6 1.6 Fork, in woods; bear right, passing sign on tree. Thru cross-trail 21.9.
 23.5 1.9 Caution—fork, just beyond RR at Mabel Sta.; thru lane for short distance, then bear left onto indistinct trail.
 23.7 0.2 Diagonal cross-trail in woods, house over to left; turn right. Avoid all diverging trails, keeping ahead with main travel thru woods. Caution for RR 26.5. Recross RR 27.2.
 29.2 5.5 Mascotte, sta. on right. Keep ahead across RR.
 29.4 0.2 4-corners, wooden school on left; turn left. Cross RR 29.5. Road is mostly thru undeveloped wooded country for several miles. Cross RR at Ockahumpka Sta. 40.7, passing business center to left.
 40.9 11.5 End of road, RR on left; turn sharp right.
 41.3 0.4 4-corners; turn left. Cross wooden bridge over Helena Run 42.6. Turn right with road 45.8.
 46.2 4.9 3-corners; bear left onto Euclid Ave. Cross RR 46.4.
 46.5 0.3 End of street; turn right onto Main St. upgrade.
 46.7 0.2 LEESBURG,* Main & 5th Sts. at far side of park.
 GARAGES—J. Y. Clark's Garage, next to water works.
 COMM. ORGAN.—Leesburg Board of Trade.

Note (a) Route 72—Mascotte to Minneola, Fla.—10.8 m.

Reverse Note (b) on Route 52.

Via Groveland and Clermont. Good sand-clay all the way. Can be used as a connection from Brooksville or Dade City to Minneola, connecting there with Routes 52 to Eustis and 60 to Orlando.

- 0.0 0.0 MASCOTTE, at RR station on right. Go east. Thru 4-corners at wooden school 0.1.
 Left at school 0.1 is Route 72 to Leesburg.
 Cross switch 2.3.
 2.6 2.6 Groveland, bank on right. Straight thru.
 Right is Route 70 to Lakeland.
 Cross RR at Varnell Sta. 5.1. Recross RR 6.7. Cross long wooden bridge over lake 8.0. Turn left with road downgrade 8.7.
 9.1 6.5 Clermont,* 4-corners. Turn left downgrade.
 Right leads to business center one block.
 Cross RRs 9.2, curving right along Lake Minneola just beyond.
 10.8 1.7 MINNEOLA, 4-corners, P. O. on right.
 Right is Route 60 to Orlando.
 Straight ahead is Route 52 to Eustis.

*Leesburg, Fla. (pop. 3,000, alt. 240 ft.), is located in the heart of the peninsula portion of the state, midway between the ocean and the gulf, surrounded by large fresh water lakes. It offers good hunting, boating and fishing and excellent automobile highways connecting with all surrounding counties. The orange and grapefruit are produced here

in great abundance.

*Clermont, Fla. (pop. 1,000, alt. 105 ft.), is located in what is known as the Apopka mountains, and, according to the U. S. Geographical survey, is the highest point in the peninsula of Florida. It is surrounded by fresh water lakes ranging in size up to five miles across.

The Blue Book Touring Club

Always At Your Service

Mail in the Application Post Card enclosed in this book, today, entitling you to full membership.

Route 73—Lakeland to Leesburg, Fla.—65.6 m.

Reverse Route 70.

Via Socrum, Green Pond, Groveland and Mascotte. Asphalt and rock to Socrum; thence sandy woodland trail thru cypress swamp for 20 miles; balance sand-clay.

This is the most direct route between the two points, but heavy cars should not attempt it except in the dry season. A new road is now under construction between Groveland and Auburndale which when completed will probably supplant the route described below.

A longer tho better option may be had by combining Route 91 to Orlando and Route 63 to Leesburg.

		Left is Route 15 to Daytona.
		Right is Route 3 to West Palm Beach.

*Melbourne, Fla. (pop. 1,500, alt. 7 ft.), the terminus of the Melbourne-Kissimmee road, over which autoists come from west coast points, is located on a high bluff overlooking the famous Indian river and affording broad views of the Atlantic from various points. The Melbourne-Kissimmee road leads thru Deer Park, headquarters of the great cypress tracts owned by the Union Cypress Co., whose mills are just south of Melbourne on a branch

of the Dixie highway.

Among the attractions of this city are the many private sulphur pools and baths, the natural temperature of the water being 77 degrees. There is good boating on the Indian river and as fine fishing and hunting in this vicinity as can be found in the state. Interesting side trips can be made to Melbourne Beach and Indialantic, both on the ocean, and to Kissimmee on Lake Tohopekaliga.

Is your motoring costing MORE or LESS?

Do you know if your motor is up to its former efficiency?

Are your tires giving you their guaranteed mileage?

Is your motor using too much lubricating oil, thus forming carbon?

These and a dozen other vital questions are readily answered by keeping a Motor Life Car Cost Record.

Hundreds of motorists have found this system a great saving of money and wear and tear on their car—because it leads them to an investigation and thus helps them to locate where the trouble exists.

Write us today for full details about this system—it is to your interest.

MOTOR LIFE, 243 West 39th Street, New York City

Route 78—Haines City to Okeechobee, Fla.—101.9 m.

Reverse Route 30.

Via Lake Wales, Crooked Lake, Frost Proof, Avon Park, Sebring and Bassenger. Good asphalt to Frost Proof, sand-clay and asphalt from there to Sebring; balance deep sand and prairie trail.

A very scenic trip to Sebring, covering one of the hilliest portions of Florida as well as the most recently developed sections of Florida, passing many beautiful lakes and fine groves. From Sebring to Okeechobee, the road is a sand and prairie trail across the prairie and thru hammocks. After heavy rains, ponds often form in the road, but these usually have good sand bottoms and, if water is not too deep, can be safely traversed.

*Lake Wales, Fla., is one of the many new developments which seem almost to spring up over night in this state. Five or six years ago map makers knew nothing of Lake Wales; there was no semblance of a town then, but today it has all the appurtenances of a modern city, and offers many attractions to the

tourist as well as the home-seeker. Iron mountain, said to be the highest elevation in Florida (alt. 385 ft.), is but a few miles away. This mountain is being rapidly developed into a playground and resort, with splendid drive-ways, club house, golf course, etc.

The Road to and through **Highland Park**

Highland Park embraces a magnificent body of ten thousand acres of the very choicest citrus land in all Florida.

It begins at the south boundary of the thriving little city of Lake Wales and extends Southward two and one-half miles to beautiful Lake Easy.

Here a Club House of charm and distinction will be found; also a nineteen hole golf course under way for the benefit of the colony now being developed.

It will only be necessary for you to drive through this exceptional property to realize that for location, quality of soil and beauty of environment, Highland Park is unsurpassed in the State.

You will find the Highland Park offices at the Club House, where full particulars concerning this splendid development may be obtained.

- 34.0 2.0 5-corners; turn right.

*Bartow, Fla. (pop. 5,000, alt. 116 ft.), is the most central point in Polk county, of which it is the seat, and the hub of the county's great new system of 289 miles of asphalt-surfaced roads. It is located at the western edge of a comparatively narrow stretch of land known as the "ridge" or "backbone" of the state, where are some of the highest points in Florida. This ridge, running about

north and south, is almost in the center of the state. Kissingen spring, about five miles from Bartow, is a magnificent mineral pool and Kissingen itself is a popular picnic and camping place. Two of the largest lakes in this section are within two and one-half miles of the city—Lake Hancock on the north and Polk lake on the east.

There are numerous sand trail detours which can be taken if desired.

*Arcadia, Fla. (pop. 5,000, alt. 66 ft.), known as "The Aviation City of Florida," is the county seat of De Soto county, situated on Peace river, 20 miles from the gulf tidewater, in the heart of the citrus, trucking and cattle section of the state. Two large government aviation schools, holding world records for flying hours, and one gunnery school are

located here.

*Punta Gorda, Fla. (pop. 2,100, alt. 3 ft.), in De Soto county, is situated at the mouth of the Peace river, with a fine view of Charlotte Harbor. It is a favorite rendezvous for yachtsmen and offers good hunting and fishing. There is no claim to fashion and most of the visitors go there for the tarpon fishing.

- 121.9 20.4 Right-hand road, gate ahead; turn right. Road is thru undeveloped pine wooded country. Cross wooden bridge 129.5.

- 137.6 3.1 Buckingham, 4-corners, P. O. on left. Turn right. Cross RR 145.0, coming onto First St. Cross iron bridge over Caloosahatchee River again 145.7.
- 146.7 9.1 FT. MYERS,* First & Hendry Sts., bank on left.
- HOTELS—Hotel Bradford, 1st & Hendry Sts.
Hotel Franklin Arms corner 1st & Lee Sts.
GARAGES—Hill & Co.'s Garage, Bay St., opposite the Arcade.
Left on Hendry St. is Route 137 to Naples, connecting there with Note (a) to Marco.

*Fort Myers, Fla. (pop. 6,000, alt. 65 ft.), is located on the Caloosahatchie river and bay, which is about two miles wide here, and is the southernmost city of its size on the west coast of Florida. It is the southern terminus of the A. C. L. railroad, of the Central Florida route of the Dixie highway, and the western terminus of the Cross State highway from Palm Beach and is on the Tamiami trail from Tampa to Miami. This city may also be

reached by water from Tampa and Key West and through Lake Okeechobee and the Caloosahatchie river from the east coast of Florida. A fine seawall has been built along the river front. The town and vicinity is noted for the tropical fruits and foliage, a greater variety of palms being found here than at any other place in the U. S. The royal poinciana, hibiscus, bougainvillea, alamanda, poinsettia, (Concluded on opposite page.)

Over an excellent oiled rock road known as the "MacGregor Blvd.," following the east bank of the Caloosahatchee river to its entrance into the Gulf of Mexico at Punta Rassa. An interesting drive thru beautiful citrus groves and tropical foliage.

0.0 0.0 FT. MYERS, 1st St. & Hendry Ave. Go south on 1st St., curving left along RR and at 4-corners beyond, turn right along Caloosahatchee river.
 6.0 6.0 Keep right.

16.5 10.5 Iona (over to right). Straight thru.

20.0 3.5 Punta Rassa, proceed to ferry wharf, there taking passage on ferry across San Carlos Bay.

Note: This ferry does not carry automobiles, transportation being limited to passengers. Fare, 50c each. Boat leaves twice daily, 9 A. M. and 3 P. M.

20.5 0.5 SANIBEL ISLAND.*
 HOTELS—Hotel Casa Ybel.

*Sanibel Island, Fla. (pop. 100, alt. 10 ft.), is one of a chain of four islands (Captiva, LaCosta and Gasparilla being the other three) lying off the mouth of the Caloosahatchie river. The four combined enclose the waters of Pine Island sound, Charlotte harbor and Carlos bay. There are channels or passes between the islands furnishing an exit to the gulf of Mexico. The roads on Sanibel are good and a projected boulevard (the bonds for which are now on sale) over all of the four islands will, when completed, make an excellent and picturesque drive.

This year that portion on Sanibel and Captiva will be ready for the motorist, a ferry connecting with the boulevard from Ft. Myers forming the connecting link with Sanibel and a bridge over Blind Pass giving entrance to Captiva Island. The beach along Sanibel is hard for a stretch of about 7 miles, affording a splendid speedway. This beach is also noted for the variety and beauty of shells which are found on it. Splendid fishing and fine bathing are to be had in this vicinity.

(Fort Myers Points of Interest, concluded from opposite page.)

avocado, guava, mango, tamarind, sapodilla and other rare tropical fruits and flowers abound in profusion. Citrus groves and truck farms are unsurpassed in the state.

Thomas A. Edison, Henry J. Ford, and a number of other celebrities have their winter homes in Fort Myers. Eight well conducted hotels provide for the winter guests of the city. A yacht club, country club with golf course, hunting, fishing, boating and automob-

biling over smooth, asphalt roads are among the attractions. The climate is ideal at all seasons of the year. Bathing in the gulf is one of the year-round attractions. The Caloosahatchie, lined with citrus groves and impenetrable tropical jungles, provides one of the most charming river trips in America. Tarpon fishing is the premier sport and specimens weighing 220 pounds have been taken from the river at Fort Myers.

W. C. BARNEIS**PRESENTS FOR THE PATRONAGE OF THE TRAVELING PUBLIC****HOTEL CASA YBEL**
SANIBEL, FLORIDA

An island resort, immediately on the shore of the Gulf of Mexico, offering unrivaled opportunities for fishing, sea bathing, shell gathering and motoring on the hard beach; catering only to the highest class of patrons. Rates on application.

ARCADE CAFETERIA
FT. MYERS, FLORIDA

A place to eat. The best the market affords and strictly American service. Take your meals here while in FORT MYERS.

PUNTA RASSA
SANIBEL FERRY

Operating between Sanibel Island and the mainland at Punta Rassa. The boulevard from Ft. Myers and the miles of hard roads of Sanibel and Captiva Islands are linked by this automobile ferry. An automobile bus will operate between Ft. Myers and Hotel Casa Ybel during the winter season: for timetables apply at office of W. C. Barnes, 11-13 Arcade, Ft. Myers, Florida.

Route 83—Bartow to Tampa, Fla.—46.4 m.

Reverse Route 93.

Via Lakeland and Plant City. Good asphalt thru Polk Co. to within 4 miles of Plant City; then 4 miles rock (which may be bricked this summer); balance good, wide brick. Summary: 22 miles brick; 4 miles rock; 20 miles asphalt.

(MILEAGE)
Distance

Cabbage Ready for the February Market, Bartow, Fla.

Florida West Coast Section

POINTS OF INTEREST, TAMPA, FLA.

Tampa (pop. 60,000, alt. 34 ft.), county seat of the first county in the U. S. voting \$1,000,000 in bonds for brick road construction, increased in 1918 by another bond issue of \$875,000, is situated at the head of Old Tampa bay, in a section producing more naval stores and phosphate than any other section in the world. More clear Havana cigars are manufactured here than in any other city, more than a million cigars for every working day in the year. Situated in Tampa is the finest municipally-owned hotel in the world, located in a beautiful tropical park. The town also boasts of many splendid public and semi-public buildings. The surrounding waters are teeming with fish of all kinds, and good hunting may be had in the adjoining coun-

try. A new industry has recently been started, that of shipbuilding, and both steel and wooden vessels are being constructed successfully. The Spanish town, Ybor City, known as "Little Havana," is well worth seeing, because of its old-world quaintness. Tampa is the seventh port in the U. S. from the standpoint of customs collections. During the Spanish-American war it was the largest mobilization camp and point of embarkation for the American troops. Various interesting side trips may be made from Tampa, by train, boat, or over a system of hard roads radiating in all directions. About 20 miles to the southeast, at Indian Hill, are some curious shell mounds in which human skeletons have been found.

QUICKEST AND BEST WAY TO SEE THE CITY

CLIMATE UNEXCELLED.

W. F. ADAMS, Manager.

H. A. HASKELL, Ass't. Manager

Route 91—Tampa to Daytona, Fla.—161.4 m.

Reverse Route 20.

Via Ybor City, Plant City, Lakeland, Lake Alfred, Haines City, Kissimmee, Orlando, Winter Park, Altamonte Springs, Sanford, Orange City and De Land.

Good, wide brick to Plant City, then 4 miles of rather worn rock to Polk Co. line (this road may be brick next year), then 42 miles of good sheet asphalt across Polk Co.; next 56 miles to St. Johns river bridge all good brick, except 3 miles of very poor sand road entering Kissimmee, which may be brick; from St. Johns bridge 11 miles of fair shell, then 17 miles of brick adjacent to De Land; balance very poor sand, which is now under construction and will be all good rock in the very near future.

Summary: 92 miles brick; 42 miles asphalt; 11 miles shell; 4 miles rock; 12 miles poor sandy dirt. This 12 miles of poor sandy dirt may, in all probability, be hard road by fall.

This is the main trunk line from the metropolis of the west coast to the popular east coast beach and one of the most important routes in Florida. Traverses wooded pine country most of the way to De Land, with some beautiful groves and lakes adjacent to Lakeland, Lake Alfred, Haines City, Orlando, Winter Park, Sanford and De Land. From De Land to Daytona the road is thru uninhabited wooded and swamp country. There is good fishing in most of the lakes; also good hunting.

An excellent option from Sanford to Daytona may be had via New Smyrna, following Route 59 to New Smyrna and then Route 15 to Daytona.

For this and other exits see City Map, page —

Straight thru (north) on Orange Ave.

Left on Concord Ave. 96.5 leads to the Country Club.

Left on Marks St. 96.9 is Route 51 to Eustis.

*Kissimmee, Fla. (pop. 4,000, alt. 72 ft.), lying on the north shore of Lake Tohopekaliga, has long been a starting point for hunters and explorers. One of the popular trips for tourists is by boat down Lake Tohopekaliga and the Kissimmee river to Lake Okeechobee, then thru the winding Caloosahatchee past Forts

Thompson and Denoud of Seminole fame, to Fort Myers. Large fisheries are located here and upward of \$500,000 worth of fish was shipped from this point last year (1918). It is also the center of a cattle raising industry and has some important orange groves.

- Curve right along lake 97.1. Curve right with brick across RR 100.1.
- 100.3 4.4 Park Ave., baseball grounds on right; turn left with brick. Pass town hall on left 100.4.

Turn left (west) onto First St. Cross RRs 119.7-120.1-121.2.
- 122.8 3.2 Irregular 4-corners; turn right thru dense woods.
Straight ahead before this turn is Route 22 to Mt. Dora and Eustis.
- 124.0 1.2 Monroe. Straight thru across RRs at sta. Cross long wooden toll bridge over St. Johns River (charges 50c) 124.3. Cross RR 126.5.
- 133.1 9.1 Orange City,* just beyond RR, sta. on left. Straight thru, coming onto Woodland Blvd.

*Winter Park, Fla. (pop. 600), is a charming resort surrounded by lakes, with good boating and fishing. It is the seat of Rollins college. Winter Park is noted for its winter songbirds and for the profusion of magnolias and flowers.

*Altamonte Springs, Fla. (pop. 150, alt. 101 ft.), in Seminole county, is 140 miles south of Jacksonville and 10 miles north of Orlando. In its vicinity are numerous pretty lakes and the town is well surrounded by tall pines and orange groves. It is a popular tourist resort, offering purest spring water, fine shooting and fishing.

*Sanford, Fla. (pop. 6,000, alt. 20 ft.), is a

thriving little city on the south side of Lake Monroe, at the head of navigation on the St. Johns river. Lake Monroe is noted for its black bass. There are water sports and many interesting side trips, particularly to the large celery farms. The place is sometimes called the "Celery City." It was named after General Sanford, once Minister to Belgium, and who acquired a grant which was made by Lincoln to his secretary.

*Orange City, Fla. (pop. 600, alt. 50 ft.), is a popular winter resort; many Northern people have winter homes here. It is noted for its pure water and beautiful environments.

Route 93—Tampa to Bartow, Fla.—46.4 m.

Reverse Route 83.

Via Plant City and Lakeland. Good brick to Plant City, then 4 miles of rock (which may be bricked this summer); balance good asphalt. Summary: 22 miles brick; 4 miles rock; 20 miles asphalt.

Thru wooded farm country to Lakeland; balance principally grove country. An important connection from the west coast to central Florida, connecting at Bartow with Route 79 to Arcadia and Ft. Myers and with Note (a) to Lake Wales, there connecting with routes to Okeechobee and Palm Beach.

There are two ways from Tampa to Palm Beach and Miami—one via Lakeland, Orlando, Sanford and New Smyrna, then down the east coast. This gives hard road all the way and the much longer than the straight route, should be taken by those who do not wish to travel the Okeechobee country.

For the short route use the following route to Bartow, then go via Ft. Meade or Lake Wales to Frost Proof, Sebring, Okeechobee and Jupiter. This route can be traversed under normal conditions.

(MILEAGE — Distance between points)
Total Mileage Points
Motorists are advised to read the headings on the routes outlined before starting, so as to familiarize themselves with conditions.

0.0 0.0 TAMPA, Franklin & Lafayette Sts., courthouse on right. See Route 91 for directions to Lakeland, 32.3 miles, where reset odometer to 0.0.

0.0 0.0 Lakeland, Lemon St. & Kentucky Ave., at edge of town, business center one block to left. Turn right (south) onto Kentucky Ave. one block.

0.1 0.1 E. Orange St.; turn left.

Left on S. Lake Ave. at 0.4 is Route 91 to Daytona.

0.7 0.6 S. Ingram Ave.; turn right away from RR.

*De Land, Fla. (pop. 5,000, alt. 54 ft.), is situated on the highest elevation between the St. Johns river and Atlantic ocean. It is in the midst of a very productive section, all citrus fruits, pears, grapes, peaches, and other fruits being produced here in abundance. Live stock production has also become a great industry in this locality during the past few years. A visit to the Stetson properties gives an interesting view of the methods of fruit growing, especially the methods for preventing frost from injuring the fruit.

The Stetson university, located here, with a student body of 700, was founded by John B. Stetson of Philadelphia, owner of the estate above mentioned.

All outdoor sports, including golf, hunting, fishing, motoring and tennis are indulged in at De Land.

The College Arms golf course, open to the public, is one of the best in the south. Among the points of interest nearby are the DeLeon springs and the ruins of an old Spanish sugar mill.

- 9.3 4.8 3-corners; bear left. Cross bridge over Alafia River 12.0.

*Bartow, Fla. (pop. 5,000, alt. 116 ft.), is the most central point in Polk county, of which it is the seat, and the hub of the county's great new system of 289 miles of asphalt-surfaced roads. It is located at the western edge of a comparatively narrow stretch of land known as the "ridge" or "backbone" of the state, where are some of the highest points in Florida. This ridge, running about

north and south, is almost in the center of the state. Kissingen spring, about five miles from Bartow, is a magnificent mineral pool and Kissingen itself is a popular picnic and camping place. Two of the largest lakes in this section are within two and one-half miles of the city—Lake Hancock on the north and Polk lake on the east.

REAL ESTATE—Harbor Oaks.
Straight ahead is Route 67 to St. Petersburg.

Note (c) Route 105—St. Petersburg to St. Petersburg Beach and Pass-a-Grille, Fla.—8.9 m.

Via Davista and bridge over Boca Ceiga bay. Brick to bridge and then shell (may be brick next year, 1920).

An interesting side trip to the new St. Petersburg beach casino; at low tide trip may be continued down the beach to Pass-a-Grille. The road goes to Davista and then down the shore of beautiful Boca Ceiga bay, crossing same on a long wooden bridge and running onto the island and along gulf of Mexico. At low tide, take drive down beach to Pass-a-Grille.

- 0.0 0.0 ST. PETERSBURG, Central Ave. & Fourth St., bank on left. Go west with trolley on Central Ave. Cross RR 0.9, coming onto double drive. Cross RR 5.8.
Left at 3.7 is straight road to Gulfport.
Right at 3.7 leads to Pinellas Park.
6.1 6.1 Davista, 3-corners (double drives) at Boca Ceiga bay.
Right on Park St. is Route 114 to Ocala.
Turn left away from trolley onto Park St. along bay. Cross long wooden toll bridge over bay 6.8, coming onto island.
Charges—50c round trip, car and 5 passengers; 5c each additional passenger.
Avoid left-hand road just beyond bridge 7.9. Turn left 8.1.
8.6 2.5 End of road; turn right with poles.
8.9 0.3 ST. PETERSBURG BEACH at Casino and Gulf of Mexico.
Left along gulf leads to Pass-a-Grille and can be driven at low tide.

RETURN

- 0.0 0.0 ST. PETERSBURG BEACH at Casino. Go east on island.
0.3 0.3 Left-hand road; turn left with poles. Turn right 0.8. Cross long wooden toll bridge over Boca Ceiga bay 1.0.
Charges—50c round-trip car and 5 passengers; 5c each additional passenger.
Turn left 2.3, coming onto double drive.
2.8 2.5 Davista, 3-corners (double drives).
Left is Route 114 to Ocala.
Turn right onto Central Ave., joining trolley. Cross RR 3.1.
Right at 5.2 is straight road to Gulfport.
Left at 5.2 leads to Pinellas Park.
Cross RR at end of double drive 8.0.
8.9 6.1 ST. PETERSBURG, Central Ave. & Fourth St., bank on right.

Route-106—Tampa to St. Petersburg, Fla.—53.1 m.

Reverse Route 116.

Via Oldsmar, Dunedin, Clearwater and Largo. Hard surfaced roads all the way. This is a charming trip around Old Tampa Bay and down the Pinellas peninsula to St. Petersburg.

Route 105 is a popular and shorter option.

Note (a) offers connection from Clearwater to Clearwater Beach; Note (b) from Clearwater to Indian Rocks and Haven Beach, and Note (c) from Largo to Indian Rocks and Haven Beach.

COMPLETELY FURNISHED HOUSES, SALE OR RENT

CLEARWATER

Pinellas County
FLORIDA

CLEARWATER is built on a high bluff overlooking the beautiful waters of the Gulf of Mexico. The bay abounds in game fish and offers excellent opportunities for boating, while on the island beach opposite, which is connected with the city by a two-mile bridge at a cost of \$75,000, the bathing facilities are equal to any in the United States.

Clearwater is in the center of one of the most productive citrus fruit sections in the country, and some of the finest groves in the state are nearby. Pinellas County is covered with a network of excellent brick roads and Clearwater itself is on the Dixie Highway and the Tamiami Trail. With its many natural attractions, the growing importance of Clearwater as a year-round resort appeals strongly to the far-sighted home-dweller as well as to the casual visitor.

- 4.5 4.5 Right-hand diagonal road at store; bear right with poles. Cross numerous small wooden bridges and culverts.
- 7.4 2.9 3-corners at shore of bay; bear right with poles.
- 7.9 0.5 End of road; turn left. Avoid right-hand road 9.7 (which leads to Jackson Springs). Cross RR at Oldsmar 15.7. Avoid left-hand roads 16.6-17.7.
- 22.6 14.7 Prominent 4-corners; turn left.
 Right at this turn is Route 114 to Ocala.
 Straight ahead before this turn leads to Ocala, $\frac{1}{2}$ mile.

 REAL ESTATE—Harbor Oaks.
- Straight thru on Ft. Harrison St. Pass courthouse on right 31.5.

*Dunedin, Fla., adjacent to Clearwater, has rock roads leading to many places on the Pinellas peninsula. A yacht club is located here, and it is a popular resort for boating, shooting and fishing.

*Clearwater, Fla. (pop. 3,500, alt. 29 ft.), is situated on the summit of the highest bluffs

on the Pinellas peninsula. In 1528 Pamphilode Narvaez with five vessels and 400 men landed at Clearwater harbor on the west coast. The fleet continued along the coast, but the 400 men marching inland all perished with the exception of four, who escaped after eight years of captivity.

St. Petersburg Fla.

POINTS OF INTEREST, ST. PETERSBURG, FLA.

St. Petersburg (pop. 20,000, alt. 20 ft.) is the most completely given up to winter visitors of any town on the west coast. It is ideally located on the east side of the Pineallas Peninsula on Tampa bay, and is equipped with very requisite for luxurious life indoors and or outdoor sports. Hunting and fishing preserves are at the very gates. The town is famous for its angling grounds and particularly for its tarpon fishing. An excursion of interest to anglers, bird lovers and shell hunt-

ers is that past Egmont Key lighthouse into the gulf and along Mullet, Arenosa and Pine Keys, behind Long Key to Boca Ceiga bay. A pretty boat trip may be taken to Pass-a-Grilles. In the vicinity of St. Petersburg are many Indian mounds, relics of the first known inhabitants of this region. Very scenic is the view of the town rising away from the water, surrounded by high pine woods, citrus and orange groves, and its houses set in semi-tropical gardens.

6.4 0.1 LARGO, irregular 4-corners, sta. on left.
Left and immediately right is Route 106 to St. Petersburg.

Route 109—Tampa to Ocala, Fla.—135.1 m.

Reverse Route 64.

Via Oldsmar, Sutherland, Tarpon Springs, Brooksville and Dunnellon. Brick to county line two miles north of Tarpon Springs; rough stone from there to Hudson, then 17 miles of fair to very poor dirt, especially bad between mileage 55.0 and 59.0. This 4 mile stretch is impassable in very wet or dry weather. At such times use the sand trail detour which practically parallels the main road. From 59.0 the road improves, running onto good stone and sand-clay for 14 miles, north of Brooksville, then onto a winding sand trail for 1 mile to Floral City; balance nearly all lime rock, some of it a little sandy. The only place on the route that is likely to give trouble is the 4 mile built up grade between mileage 55.0 and 59.0, which can be avoided by taking the sand-trail detour. Summary: 30 miles brick; 88 miles stone; 16 miles dirt and sand-clay; 1 mile sand-trail.

This is a section of the trunk line road from the west coast of Florida to northern points. The route as far as New Port Richey goes thru beautiful developments, passing many fine groves and homes with some glimpses of tropical jungles; balance principally thru undeveloped pine and palmetto wooded country, with farming districts adjacent to the larger towns. Some of the interesting side trips that can be made from this route are the sponge fisheries at Tarpon Springs and the Silver Spring resort near Ocala. There is excellent fishing at all of the shore points.

An option with about the same road conditions is furnished in Route 110 to Dade City, 72 to Leesburg and 51 to Ocala. A much longer option, which however gives hard road most of the way and sand-clay on the intermediate stretches, may be had by following Route 91 to Orlando and then Route 51 to Ocala.

- 86.0 0.1 Diagonal 4-corners, large white house over to left; bear right. Turn left with road 86.2.

- 86.4 0.4 Right-hand road; turn right.

- 86.6 0.2 Floral City. Keep ahead across RR at sta.

*Tarpon Springs, Fla. (pop. 4,000, alt. 20 ft.), a resort of Pinellas county, is situated near the mouth of the Anclote river. The former Duke of Sutherland's manor lies two miles northeast. On the Anclote river one-half mile to the west is Sponge Harbor, where at the proper season the tourists may see sponge gathering and the curious life connected with this industry. The largest sponge markets in the world are said to exist here.

*New Port Richey, Fla. (pop. 1,000), is a new community lying along the Dixie highway. A very pretty lake occupies the center of town, surrounding which is a ten acre park in which is located the community club

house, boat house and public recreation grounds. The beautiful Cotee river flows on two sides of the town. The usual Florida sports are at their best here—boating, hunting, fishing, etc.

*Brooksville, Fla. (pop. 2,200, alt. 328 ft.), is situated in a beautiful country, and from one point the gulf of Mexico can be seen. It is the social and commercial center of the famous "high hammocks" section of Florida. There are various drives thru orange, grapefruit, lime and tangerine groves. About three miles distant is a curious sink, known as the "Devils' Punch Bowl." It is about 200 feet across the top, 100 feet deep, and immense trees grow upon the bottom.

- 86.7 0.1 4-corners; turn left, following RR thru woods.
 92.9 6.2 End of road; turn left across RR and immediately right.

 111.0-111.1.
 111.3 6.2 Turn left with road and at irregular 4-corners just beyond
 bear right. Cross iron bridge over Withlacotchie river 111.4.
 111.7 0.4 Dunnellon,* fork.
 SERVICE STA.—United States Tire Sales & Service Depots located here.
 Keep right, curving right across RR at public market just
 beyond. Cross iron bridge over lake (very blue and deep)
 112.4.
 112.6 0.9 Irregular 4-corners, just beyond RR; bear left upgrade.
 Road is thru desolate wooded country for ten miles.
 122.3 9.7 End of road at pump; turn left. Keep ahead thru all inter-
 sections for eleven miles. Cross RR 132.3.
 133.7 1.4 3-corners; bear right across RR. Cross RR 134.2.
 134.5 0.8 Left-hand road; turn left onto Pine St. Avoid right-hand
 street 134.6.
 135.0 0.5 Broadway; turn right upgrade two blocks.
 135.1 0.1 OCALA,* Broadway & Magnolia Ave., bank on right, court
 house ahead on left.
 HOTELS—Harrington Hall Hotel, Main St. Ft. of King Ave.
 GARAGES—Gates Garage, 303 Magnolia Ave.
 Right on Magnolia Ave. is Route 63 to Leesburg and Orlando.
 Left on Magnolia Ave. is Route 62 to Gainesville and Lake City.

*Dunnellon, Fla. (pop. 1,800, alt. 44 ft.). Hard rock phosphate mining is the leading industry here. In the locality are lakes and prairies and curious sink formations with traces of ancient plantations in the forest. The bareness of some of the land is due to an ancient custom of the old cowmen, who each fall set fire to the underbrush to promote the growth of the grass for the following spring.

*Ocala, Fla. (pop. 6,000, alt. 69 ft.), is the seat of Marion county. In this county along the Dixie highway near Orange lake and Lake Weir, are some unusually fine orange and grapefruit groves. The largest and most interesting are in the rich hammocks, offering attractive side trips for the motorist.

There is excellent hunting and fishing within easy reach of the city. The golf course of the Ocala country club is very attractive. Silver Springs, about five miles from the court house in Ocala, are so large that their basins are used as the head of navigation on the Silver river. The spring have a flow of 368,913 gallons a minute. The water is very clear—so clear, in fact, that objects as small as a 25 cent piece can be seen at the bottom of the pools, one of which is 80 feet deep. Thru the glass bottomed boats from which the springs are viewed may be seen turtles, alligators, submarine grasses, rocky caverns, etc. The temperature of the springs is about 70 degrees the year round.

Conserve your energy. Let the Blue Book Touring Club do the work. It will gladly direct and advise you on any tour.

When your spring breaks buy a

Route 110

Note (a) Route 109—Ocala to Silver Spring, Fla.—6.0 m.
 Lime road all the way.
 This note offers a connection to one of the famous resorts of Florida.

0.0	0.0	Ocala, Ocklawaha Ave. (one block north of Broadway) & Magnolia St. Go east on Ocklawaha Ave. Cross RR 0.1.
0.8	0.8	Left-hand road; turn left with travel, leaving poles.
1.0	0.2	End of road; turn left.
2.8	1.8	Fork, sign in center; bear left with poles. Cross RR 5.6.
5.7	2.9	4-corners; turn right with travel. Cross RR 6.8, turning left with road beyond and immediately right in front of sta.
6.0	0.3	SILVER SPRING.*

From Silver Spring steamers ply regularly up the Ocklawaha River to Palatka. The trip is very beautiful.

Route 110—Tampa to Brooksville, Fla.—70.5 m.

Reverse Route 66.

Via Plant City, Zephyrhills, Dade City, and Blanton Sta. Good brick to Knights Sta., then 5 miles of poor rough unimproved dirt, followed by graded sand-clay to Blanton Sta.; next 4 miles winding sand-trail thru woods, followed by 4 miles of fair graded sand-clay; last 8 miles stone road. Summary 26.1 miles brick; 5 miles worn dirt, poor and rough; 23.1 miles graded sandy dirt; 4 miles winding sand trail; 4 miles graded sand clay; 8 miles stone.

Thru level wooded farming country to Zephyrhills, then thru pretty rolling wooded and farming country. Part of the route thru rather sparsely settled country.

— MILEAGE —
 Distance
 Total Between
 Mileage Points

This is an option to Route 109 and tho it has 10 miles of bad road, it is just as good, if not better, than the route via Tarpon Springs, Both of these routes are very bad in places in wet weather.

0.0	0.0	TAMPA, Franklin & Lafayette Sts., court house on right. See Route 91 for directions to Plant City, 21.8 miles, where reset odometer to 0.0.
0.0	0.0	Plant City, Reynolds & Collins Sts., P. O. on left, banks on right. Turn left (north) onto Collins St.
		Straight ahead on Reynolds St. is Route 91 to Daytona.
0.4	0.4	Calhoun St.; turn left.
0.5	0.1	End of street; turn right onto Wheeler St. Pass Knights Sta. on left 4.3. Pass section house on left 5.6, coming onto very rough sandy dirt road. Thru woods 8.4.
11.3	10.8	Left-hand road; turn left with travel.
11.6	0.3	Crystal Spring, store on right. Straight thru.
12.9	1.3	4-corners; turn right with poles.
		Diagonally left at 13.0 leads to Hillsboro Villa.
		Cross bridge over Woods river 13.1.
15.1	2.2	Right-hand road; turn right.
16.8	1.7	Zephyrhills, 4-corners. Turn right across RR.
17.1	0.3	Left-hand road; turn left. Cross RR 20.6.
21.0	3.9	Herndon, fork, just beyond switch and sawmill. Bear left.
21.2	0.2	4-corners at top of slight grade; turn right, ascending steep grade.
26.0	4.8	Meridian St. (double drive); turn left two blocks.
26.1	0.1	Dade City, court house on left, banks on right. Straight thru across RR on Meridian St.
26.8	0.7	End of road; turn right onto dirt and immediately left.
27.0	0.2	4-corners; turn right, passing house on right and left.
27.8	0.8	4-corners; turn left with poles and travel.
28.7	0.9	Right-hand road; turn right. Turn left with road 29.2.
29.3	0.6	Right-hand road; turn right.
31.1	1.8	Irregular 4-corners; turn right. Curve left around pond 32.1.
32.4	1.3	Blanton, Caution—fork just beyond RR. Bear left onto winding road thru woods.
32.8	0.4	Fork, at top of grade; bear right.
33.1	0.3	Fork; keep left, following poles. Pass house and orange grove on right 34.2.

*Silver Spring, Fla. (pop. 100, alt. 39 ft.), the largest and most beautiful of the springs of Florida, claims to be the Fountain of Youth for which Ponce De Leon was seeking. The water is supposed to come from an underground river which flows into the Ocklawaha. There are five limestone basins of water covering three acres and so clear that a coin may be seen lying on the bottom at a depth of fifty feet. The estimated volume of the springs is 300,000,000 gallons daily. The visitor may row around the pool in glass bottomed boats. Two lines of river boats run between Silver Spring and Palatka following the Ocklawaha, or "Crooked river." This excursion is taken by nearly all tourists who visit Silver Springs or Palatka.

- 34.5 1.4 Right-hand diagonal road; bear right. Curve right 34.7 and follow main travel thru woods.
- 36.5 2.0 Caution—cross trail in woods; turn right on sandy trail thru woods. Pass schools on left 39.8, coming onto stone.
- 46.8 10.3 Left-hand road; turn left. Pass cemetery on right 46.9. Cross RRs 47.9.
- 48.0 1.2 End of road; turn right downgrade. Cross RRs at foot of grade 48.3.
- 48.7 0.7 **BROOKSVILLE**,* court house and bank on right.

Straight ahead is Route 109 to Ocala.
Left is Route 64 to Tampa.

Route 111—Tampa to Port Tampa City, Fla.—9.6 m.

An interesting drive on brick boulevard along Hillsboro Bay to the seaport proper of Tampa. The docks and phosphate loading plants are one-half mile beyond the end of the route.

- 9.1 0.1 4-corners; turn right with trolley.
- 9.6 0.5 **PORT TAMPA CITY**, at end of trolley.

Route 114—St. Petersburg to Ocala, Fla.—143.7 m.

Reverse Route 67.

Via Davista, Largo, Clearwater, Tarpon Springs, Brooksville and Dunnellon. Brick to county line, 2 miles north of Tarpon Springs; rough stone from there to Hudson, then 17 miles of fair to very poor dirt, especially poor between mileage 55.0 and 59.0. This 4 mile stretch is impassable in very dry or wet weather. At such times use the sand-trail detour which practically parallels the main road. From 59.0 the road improves, running onto good stone 4 miles out of Brooksville; fair stone and sand clay for 14 miles north of Brooksville, then a winding sand trail thru woods for 1 mile to Floral City; balance nearly all lime rock, some of it a little sandy. The only place on the route likely to give trouble is the 4-mile built up grade between Aripeka and Brooksville, which can be avoided in wet weather by taking the sand-trail detour which parallels the grade. Summary: 39 miles brick; 88 miles stone; 16 miles dirt; 1 mile sand-trail.

The first part of the route to New Port Richey goes thru beautiful developments, passing many fine groves and homes with some glimpses of tropical jungle; balance mostly thru undeveloped pine and palmetto wooded country, with farming districts adjacent to the larger towns.

Among the many interesting side trips that can be made from this route are St. Petersburg Beach and Pass-a-Grille; Indian Rocks; Haven Beach, and Clearwater Beach, with their shore attractions, bathing facilities, etc.; Belleair, with its famous golf course and shore attraction; Tarpon Springs sponge fisheries and Silver Springs, near Ocala. There is excellent fishing at all of the shore points. This is a section of the trunk line road from the west coast of Florida to northern points.

A much longer option which gives hard road most of the way and sand-clay on the intermediate stretches is obtained by going via Tampa, Olando, Mt. Dora, Eustis, and Leesburg—Routes 105 or 106 to Tampa, 91 to Orlando, and 51 to Ocala. Another option with road conditions about equal to the following route is via Tampa, Plant City, Dade City and Leesburg—Routes 105 or 106 to Tampa, 110 to Dade City, 72 to Leesburg, and 51 to Ocala.

- 0.0 0.0 **ST. PETERSBURG**, Central Ave. & Fourth St., bank on left. Go west with trolley on Central Ave. Cross RR 0.9, coming onto double drive. Cross RR 5.8.
- Left at 3.7 is straight road to Gulfport.
Right at 3.7 leads to Pinellas Park.

- 6.1 6.1 **Davista**, 3-corners (double drives) at Bosca Ceiga Bay.

Left is Note (c) on Route 105 to St. Petersburg Beach and return.

Brooksville, Fla. (pop. 2,200, alt. 328 ft.), is situated in a beautiful country, and from one point the gulf of Mexico can be seen. It is the social and commercial center of the famous "high hammocks" section of Florida. There are various drives thru orange, grape-

fruit, lime and tangerine groves. About three miles distant is a curious sink, known as the "Devils' Punch Bowl." It is about 200 feet across the top, 100 feet deep, and immense trees grow upon the bottom.

Left at 30.5 leads to Orona $\frac{1}{2}$ mile.

Right at 30.5 is Routes 64 and 116 to Tampa.

31.2 3.6 Sutherland, left-hand road, Southern college on right. Turn left and follow Route 109 (from mileage 22.6 to 135.1) balance of the way to

143.7 112.5 OCALA, Broadway & Magnolia Ave., bank on right, court house ahead on left.

*Belleair Heights, Fla. (pop. 125, alt. 46 ft.), in Pinellas county, on the St. Mark river, is an aristocratic resort. It overlooks the gulf of Mexico, is surrounded by forests and is said to be entirely free from fogs. Good roads radiate to various sections of the Pinellas peninsula. The locality is called the "golfer's southern paradise," some of the finest golf links in Florida being found here.

*Clearwater, Fla. (pop. 3,500, alt. 29 ft.), is situated on the summit of the highest bluffs on the Pinellas peninsula. In 1528 Pamphilo

de Narvaez with five vessels and 400 men landed at Clearwater harbor on the west coast. The fleet continued along the coast, but the 400 men marching inland all perished with the exception of four, who escaped after eight years of captivity.

*Dunedin, Fla., adjacent to Clearwater, has rock roads leading to many places on the Pinellas peninsula. A yacht club is located here, and it is a popular resort for boating, shooting and fishing.

Don't Hesitate

Linger! See CINCINNATI and be glad you did!

See page 584 for details

Route 115—St. Petersburg to Tampa, Fla.—41.9 m.

Reverse Route 105.

Via Pinellas Park, Safety Harbor and Oldsmar. Brick, shell and asphalt roads—principally brick. Summary: 35 miles brick; 7 miles shell and asphalt. As the brick is narrow and sand deep in places on each side, caution should be used in turning out for vehicles and on the sharp turns.

The route follows Tampa bay part of the way and goes thru a few grove and truck developments; balance thru undeveloped pine and palmetto country.

As the last 8 miles of this route may be closed for construction in 1920, Note (a) is recommended until regular route is completed.

This is the shortest route to Tampa. Options may be had by using Route 116 via Clearwater and Dunedin or Route 116 to Clearwater, then Note (a) to Safety Harbor and Route 116 to Tampa.

Coast Section

Page 213

Routes 123-126

Route 123—Sarasota to Arcadia, Fla.—45.8 m.

Reverse Route 126.

Via Fruitville, Miakka and Pinelevel, connecting at Arcadia with Route 130 for Punta Gorda and Fort Myers, and at Fort Myers with Note (a) on Route 130 to Punta Rassa and Sanibel Island. This route crosses numerous fords and generally flooded places. The sand bottom, however, holds up well, and there is not much danger of getting stuck. The tourist should inquire about this road and also ascertain if there have been any recent rains. In wet weather it is not very advisable.

—MILEAGE—
Distance

- GARAGES—Main Street Garage, 6th St. & the Railroad.
COMM. ORGAN.—City of Sarasota.
GOLF CLUB—Sarasota Golf Holding Co., Main St.

Route 127—Arcadia to Okeechobee, Fla.—77.0 m.

Reverse Route 29.

Via Cabbage Bluff Ferry. First 7 miles graded dirt and sand-clay; 5 miles of sand; 15 miles of rather rough prairie road; 37 miles winding prairie road thru hammocks and piney woods; balance (3 miles) is a graded sand road, but the sand is very loose and poor and the detours along the side are better. Summary: 7 miles dirt and sand-clay; 8 miles sand; 52 miles prairie road.

This route is to be used in dry weather only. During winter, the roads are usually passable. Tourists should make local inquiry as to condition of roads after rain. At Cabbage Bluff Ferry, the Kissimmee river is crossed on a frail scow hauled by a motor-driven row boat. The ferry distance varies, depending on the height of the water. As the ferryman lives on the opposite side of the river, and his attention is called by raising a flag signal, it is advisable to reach there before nightfall.

Tourists should ascertain before leaving Arcadia whether or not the new Dixie highway has been completed. If completed, follow same, joining this route (No. 127) at mileage 61.7.

- | - MILEAGE - | | |
|-------------|-------------------------|---|
| Total | Distance Between Points | |
| 0.0 | 0.0 | ARCADIA, Oak St. & Polk Ave. Go east on Oak St. Cross RR at sta. 0.1. Pass court house on left 0.2. Avoid left-hand diagonal road 0.6. |
| 1.3 | 1.3 | Left-hand diagonal road; bear left. |
| 6.9 | 5.6 | 4-corners; turn right. Follow road over prairie thru woods. |
| 30.5 | 23.6 | Fork; keep left. |
| 31.2 | 0.7 | Fork; bear left. Thru gates 31.5-32.1. Thru 4-corners 32.2-32.5. Thru gates 33.8-34.0. Avoid left-hand diagonal road 34.1. Cross RR 34.8. Pass spring on left 37.2. Thru gate 39.1. |
| 39.8 | 8.6 | Fork; keep left. Thru gate 44.1. Road is across prairie and thru dense hammocks. |
| | | The diverging trails are usually circuits around dry ponds. Dixie Highway comes in from left at mileage 61.7. |
| 63.5 | 23.7 | Fork, sign in center; bear right.
Left fork leads to Bassenger. |
| 66.2 | 2.7 | Cabbage Bluff Ferry across Kissimmee river (charges \$1.00).
Raise flag on pole to attract ferryman's attention, who lives on the opposite side of the river. In dry weather ferry is much shorter, so adjust mileage accordingly. |
| | | Leaving ferry, keep ahead along shore of river. |
| 66.4 | 0.2 | Fork, ferry house ahead; bear right. Thru fence 69.0. Thru gates 71.6-72.2-72.4. |

Route 130

- 73.6 7.2 End of road; turn right, avoiding left-hand road immediately beyond. Avoid left-hand diagonal road at farm house 74.3. Keep to grade or alongside of same, avoiding diverging trails.
- 75.9 2.3 Fork, just beyond small settlement; bear left. Thru diagonal 4-corners 76.3, keeping ahead across palmetto plain.
- 76.3 0.4 Fork; bear left, passing houses just beyond. Thru 4-corners 76.4. Cross RR 76.5.
- 77.0 0.7 OKEECHOBEE, 4-corners, bank on left.

Right is Route 134 to Ft. Pierce and Route 135 to W. Palm Beach.

Route 130—Ft. Myers to Haines City, Fla.—146.7 m.

Reverse Route 79.

Via Punta Gorda, Arcadia, Zolfo, Wauchula, Ft. Meade, Bartow, Winter Haven and Florence Villa. First 13 miles to Olga good marl rock, next 27 miles to Punta Gorda fair to poor graded sand road. Next 15 miles good marl rock; 8 miles good sand-clay; 11 miles good asphalt; 9 miles fair sandy dirt; balance all brick or asphalt. Summary: 33 miles marl rock; 27 miles poor graded sand; 8 miles sand-clay; 9 miles dirt; 5 miles brick; 65 miles asphalt (103 miles hard road and 44 miles dirt construction).

This is one of the trunk lines from the southwest coast to central Florida lake region. As far as Punta Gorda it traverses principally pine wood country; balance thru some of the finest grove land in Florida, passing many splendid lakes.

A very scenic option over hilly country on asphalt roads may be had by using Note (b) between Ft. Meade and Frost Proof and then Route 30. See Note (a) for connection between Wauchula and Avon Park.

*Arcadia, Fla. (pop. 5,000, alt. 66 ft.), known as "The Aviation City of Florida," is the county seat of De Soto county, situated on Peace river, 20 miles from the gulf tidewater, in the heart of the citrus, trucking and cattle section of the state. Two large government aviation schools holding world records for flying hours, and one gunnery school are located here.

*Bartow, Fla. (pop. 5,000, alt. 116 ft.), is the most central point in Polk county, of which it is the seat, and the hub of the county's great new system of 289 miles of asphalt-

surfaced roads. It is located at the western edge of a comparatively narrow stretch of land known as the "ridge" or "backbone" of the state, where are some of the highest points in Florida. This ridge, running about north and south, is almost in the center of the state. Kissingen spring, about five miles from Bartow, is a magnificent mineral pool and Kissingen itself is a popular picnic and camping place. Two of the largest lakes in this section are within two and one-half miles of the city—Lake Hancock on the north and Polk lake on the east.

- 5.8 5.8 Irregular 4-corners; bear left.
Sharp right leads to Zolfo Springs.
Cross long wooden bridge 11.8. Follow winding road thru all intersections.
Cross RR at sta. 20.6.
- 20.7 14.9 AVON PARK, 4-corners at band stand and bank.
Right is Route 78 to Okeechobee.

Route 133—Ft. Myers to Okeechobee, Fla.—94.2 m.

Reverse Route 28.

Via Buckingham, Labelle, Hall City, Palmdale, and Cabbage Bluff Ferry. First 45 miles graded marl (rock), principally good, then 7 miles to Palmdale poor graded deep sand road, making the detours along the side preferable; from Palmdale to within 3 miles of Okeechobee the road is merely a sand trail winding across the prairie and thru hammocks, with little sign of habitation; last 2 miles poor deep graded sand road. Summary: 39 miles sand-trail; 10 miles poor graded sand road; 45 miles graded marl road.

This has always been considered a pioneer trip, but can be safely negotiated under normal weather conditions. After rainy periods, ponds often form in the road, but these usually have good sand bottoms and, unless deep, will not cause trouble. The first 45 miles is thru farming and grove country, followed by a 7-mile, sparsely settled farming district to Palmdale. Leaving Palmdale the road is a winding sand-trail with a stretch of 29 miles (to Cabbage Bluff ferry) without habitation. At Cabbage Bluff ferry, the Kissimmee river is crossed on a frail scow hauled by a motor-driven row boat. The ferry distance varies, according to the height of the water. As the ferryman lives on the opposite side of the river and his attention is called by raising a flag signal, it is advisable to reach there before nightfall. After leaving the ferry the sand-trail is again taken up and followed to within 2 miles of Okeechobee, where a poor graded sand road is encountered. The trip is usually made in about 7 hours and it is possible to drive to the east coast at Jupiter in one day. In order to secure better accommodations, it is advisable to make the entire trip across the state in one day.

Route 135—Okeechobee to West Palm Beach and Palm Beach, Fla.—71.9 m.

Reverse Route 27.

Via Utopia and Jupiter. First 32 miles to canal ferry merely a sand trail thru edge of everglades, going across prairie and thru hammocks; next 17 miles graded sand and clay and sand road; narrow rock road to Jupiter (6 miles); balance good oiled rock on the East coast boulevard. Summary: 22 miles rock; 17 miles graded sand and clay; 32 miles sandy trail.

Leaving Okeechobee the route goes thru some deep sand for about 2 miles and then follows along the shore of Lake Okeechobee on a fair sand trail to Utopia. Here another mile of fairly deep sand is encountered and the road leaves the shore and follows a winding trail across the prairie and thru the hammocks to the canal ferry. Here a graded sand and clay road is met and followed for 17 miles; the balance is rock.

This has always been regarded as a pioneer trip. It may be safely taken, however, and is traveled daily except after prolonged rains, when numerous ponds form in the road. These usually have good sand bottoms and, unless too deep, can be easily negotiated. Bad spots usually have detours which are plainly indicated and easily followed. If the tourist takes these detours allowance must be made for discrepancies, in checking the Blue Book mileage.

Most of the road to Jupiter is thru uninhabited country and there is a 16- or 17-mile stretch on either side of the ferry without any habitation whatever. This being the case, the tourist should arrange to reach the East coast boulevard by night. It is a half-day drive under normal conditions and it is possible to drive across the state from Fort Myers or Arcadia in one day.

This road is better than the Okeechobee-Ft. Pierce road. There are two ferries on it—one across the canal and the other across Taylor creek. Both are free in the daytime.

0.0 0.0 OKEECHOBEE, 4-corners at bank. Go east.

0.3 0.3 4-corners, small bungalow on left. Turn right onto Parrot Ave., keeping ahead thru 4-corners immediately beyond. Cross RR 0.5.

3.4 3.1 4-corners, pavilion ahead; turn left along shore of lake.

3.7 0.3 Fork; keep right along lake.

3.8 0.1 Fork; keep right along lake.

5.6 1.8 Ferry across Taylors creek.

Charges—Free in daytime; 25c until 10 p. m.; 50c after that hour.

Leaving ferry, keep ahead, avoiding left-hand road immediately beyond.

7.7 2.1 Fork; bear right and follow along lake for several miles, avoiding numerous diverging roads.

12.8 5.1 Fork; bear left away from lake along ditch.

13.2 0.4 Utopia, at small settlement. Keep ahead. Cross small logging bridge over ditch 13.5. Thru gate 14.5. Road is winding across prairie and thru woods for several miles. Pass houses over to right 28.4 and follow main travel along telephone wires thru woods. Pass house on right 29.9. Thru irregular 4-corners 30.2. Avoid right-hand road 30 5. Pass house over to right 31.1.
- *Fort Pierce, Fla. (pop. 3,000, alt. 12-60 ft.), is located on the west bank of the Indian river on the Dixie highway. Riverside drive, part of the Dixie, extends south 20 miles, crossing St. Lucie river over a new concrete bridge, replacing the old ferry, and is one of the most charming drives in the state, overlooking the river and passing through the pineapple fields fringed with palm trees, flowering shrubs and tropical growth of all kinds. West of the city is the far-famed Indian river orange and grapefruit groves. Nearby are Indian mounds, from which skeletons and Indian relics of great antiquity have been exhumed. The town takes its name from a fort that was located here during the first Seminole war. An interesting side trip from Fort Pierce is to the Okeechobee, Florida's largest lake; also to Jupiter Inlet, which was the termination of the cruise of the battleship Oregon when she came around the Horn in 1898 and after repairs joined the fleet in Cuban waters. A new inlet is being built this summer, which will make this a great deep sea fishing center.

- 32.5 19.3 Ferry across canal (free). Leaving ferry, keep ahead and follow graded road thru everglades for several miles. Pass Rood P. O. and numerous buildings on left 48.3, coming onto rock road.

*Fort Myers, Fla. (pop. 6,000, alt. 65 ft.), is located on the Caloosahatchie river and bay, which is about two miles wide here, and is the southernmost city of its size on the west coast of Florida. It is the southern terminus of the A. C. L. railroad, of the Central Florida route of the Dixie highway, and the western terminus of the Cross State highway from Palm Beach and is on the Tamiami trail from Tampa to Miami. This city may also be reached by water from Tampa and Key West and through Lake Okeechobee and the Caloosahatchie river from the east coast of Florida. A fine seawall has been built along the river front. The town and vicinity is noted for the tropical fruits and foliage, a greater variety of palms being found here than at any other place in the U. S. The royal poinciana, hibiscus, bougainvillea, alamanda, poinsettia, avocado, guava, mango, tamarind, sapodilla

and other rare tropical fruits and flowers abound in profusion. Citrus groves and truck farms are unsurpassed in the state.

Thomas A. Edison, Henry J. Ford and a number of other celebrities have their winter homes in Fort Myers. Eight well conducted hotels provide for the winter guests of the city. A yacht club, country club with golf course, hunting, fishing, boating and automobiling over smooth, asphalt roads are among the attractions. The climate is ideal at all seasons of the year. Bathing in the gulf is one of the year-round attractions. The Caloosahatchie, lined with citrus groves and impenetrable tropical jungles, provides one of the most charming river trips in America. Tarpon fishing is the premier sport and specimens weighing 220 pounds have been taken from the river at Fort Myers.

*Live Oak, Fla. (pop. 3,450, alt. 104 ft.), is an old town, 82 miles west of Jacksonville on the Live Oak and Gulf and the Seaboard Air Line railroads. Lumber, sea island cotton, naval stores and early vegetables for the northern market are the principal products. Surrounding the town are thick pine forests.

*Lake City, Fla. (pop. 7,000, alt. 301 ft.), is a

winter health resort and the seat of Columbus college. It is prettily located in a section containing several beautiful lakes. When the town was first settled, in 1825, it was called "Alligator," which name still survives in Alligator lake (or pond) which is nearby. There are several lakes in the surrounding country offering excellent fishing.

TOURISTS! Practically all towns of any size maintain a Commercial or Business Men's Club which will gladly and graciously dispense local information upon request.

Route 143—Valdosta, Ga., to Lake City, Fla.—70.1 m.

Reverse Route 38.

Via Jasper. Sand-clay, dirt and sand roads. Sand very heavy and tourists advised not to use this route except to get to White Springs.

Route 141 is a longer but preferable option via Madison.

| 70.1 | 1.3 | LAKE CITY,* Marion & Duval Sts. |

*Lake City, Fla. (pop. 7,000, alt. 201 ft.), is a winter health resort and the seat of Columbus college. It is prettily located in a section containing several beautiful lakes. When the town was first settled, in 1825, it was called

"Alligator," which name still survives in Alligator lake (or pond) which is nearby. There are several lakes in the surrounding country offering excellent fishing.

*Gainesville, Fla. (pop. 11,000, alt. 180 ft.), is one of the oldest and most important inland towns in the state. It is well parked and paved, and live oak and Spanish moss overhang the streets. It has long been a health and pleasure resort, and boasts of many good hotels. Of particular interest and importance, however, is the University of Florida, one of the best colleges in the south, and the Florida agricultural experiment station, which are located here. A visit to the buildings and grounds of these institutions is well worth while. A confederate monument on the public square marks the site of the battle of

Gainesville, fought here during the civil war. There are many natural attractions in close proximity to the city, among which are the great Alachua Sink, which was once teeming with alligators; Paint's Prairie, the Devil's Millhopper, which lies six miles to the north and whose level never changes though twenty streams are continually emptying into it, Warrens Cave and Lake Newnan. The Spring Park stock farm, the largest and finest of its kind in the state, is a few miles west of the city, reached by a good hard road. A free rest room for tourists and citizens is maintained in the Hill Block at Gainesville.

*Ocala, Fla. (pop. 6,000, alt. 69 ft.), is the seat of Marion county. In this county along the Orange highway near Orange lake and Lake Weir, are some unusually fine orange and grapefruit groves. The largest and most interesting are in the rich hammocks, offering attractive side trips for the motorist. There is excellent hunting and fishing within easy reach of the city. The golf course of the Ocala country club is very attractive. Silver Springs' about five miles from the court house in

Ocala, are so large that their basins are used as the head of navigation on the Silver river. The springs have a flow of 368,913 gallons a minute. The water is very clear—so clear, in fact, that objects as small as a 25-cent piece can be seen at the bottom of the pools, one of which is 80 feet deep. Thru the glass bottomed boats from which the springs are viewed may be seen turtles, alligators, submarine grasses, rocky caverns, etc. The temperature of the springs is about 70 degrees the year round.

Read the Editor's Advice on Touring Equipment in the Orange insert, center of Book

Palatka City Map and Points of Interest, page 132.

*Silver Spring, Fla. (pop. 100, alt. 39 ft.), the largest and most beautiful of the springs of Florida, claims to be the Fountain of Youth for which Ponce De Leon was seeking. The water is supposed to come from an underground river which flows into the Ocklawaha. There are five limestone basins of water covering three acres and so clear that a coin may be seen lying on the bottom at a depth of fifty

feet. The estimated volume of the springs is 300,000,000 gallons daily. The visitor may row around the pool in glass bottomed boats. Two lines of river boats run between Silver Springs and Palatka following the Ocklawaha, or "Crooked river." This excursion is taken by nearly all tourists who visit Silver Spring or Palatka.

*Hastings, Fla. (pop. 400, alt. 11 ft.), on the brick road from St. Augustine, is one of the greatest Irish potato sections in the south. This international vegetable is here produced early enough to compete with the Bermuda potato. In the early spring, when the negro potato diggers gather in large numbers for work in the fields, the town presents a most animated scene. Negro men and women come from all parts of the state to attend what they term "Murphy's Carnival," and they make merry while they work, and in the evenings there mingle with them a horde of camp followers, fakirs, banjo players and singers in motley garb.

*St. Augustine, Fla. (pop. 5,500, alt. 7 ft.), is the most ancient town in the United States and one of the most picturesque and interesting. It is situated on a narrow peninsula between Mantanzas sound and the St. Sebastian river. The city is a fashionable winter resort with many palatial hotels which though modern have been built in harmony with the old Spanish architecture of the early city, many of whose characteristic features happily still remain. All the older streets are very narrow. The ancient Spanish houses are built of coquina, or shell-limestone, and have overhanging balconies and gardens. The

squares of the city as well as the gardens are delightful with their growth of palmetto, Spanish bayonet, orange and citron trees and date palms.

The history of St. Augustine begins in 1512 when the Spaniard, Ponce de Leon, in search of the Fountain of Youth, landed near the Indian village of Seloy, on or near the present site of the city. The town, however, was not founded till 1565. In 1564 a colony of French Huguenots under Rene Laudonnaire had settled at the mouth of the St. John's river. Philip II of Spain, an ardent Catholic, wanted no Protestant colony in his trans-oceanic domains and sent an expedition under Don Pedro Menendez to exterminate the invaders. To accomplish this object he landed at Seloy Sept. 8, 1565, and built the Fort of St. Augustine. During the century following St. Augustine passed through many vicissitudes. In 1811 the United States, being about to engage in war with Great Britain, seized St. Augustine together with the rest of Florida to prevent its being taken by the British. In 1819 the United States by its purchase of Florida from Spain made St. Augustine a city of the United States, but did not take possession until July 10, 1821. From this time St. Augustine began to be known as a winter resort, though there was no great influx of northerners until after the termination of the troubles with the Seminole Indians in 1842.

The ancient Spanish city extended north from the Franciscan convent, whose site is now occupied by the St. Francis barracks, to the Castle of San Marco, now Fort Marion, a distance of nearly a mile. From the castle westward to the San Sebastian river extended a moat and wall to defend the city against encroachments from the mainland. The moat may still be traced along Orange street. The only remaining evidence of the wall is the old city gate, a most picturesque ruin, consisting of two pillars 20 feet high with 30 feet of the original wall on each side and two stone sentry boxes. Outside the city gate is the old Huguenot graveyard.

Fort Marion is the most interesting and best preserved relic of the Spanish city, and is a fine specimen of the military engineering according to the system of defense of Vauban, Marshal of France, who served for a time with the Spaniards under Conde. The fort, built of coquina, was in process of construction for 100 years and except for a water battery added by the United States government in 1842, it is as when completed in 1756. It is surrounded by a moat and glacis and has bastions at the four chief angles, each protected by a watch tower. Entrance is over a drawbridge over each end of which are the Spanish coat of arms and a Spanish inscription. Among the interesting features pointed out by the guard are the chapel, the dungeon, and the casemate from which the Seminole Chief Coacoochee, who was confined here with Osceola during the Seminole war, 1835-42, made his escape. The Seminole Chief Osceola died here of fever. The Spaniards named the fort San Marco; it received its present name of Fort Marion in 1821.

At an early period a sea wall of coquina was built against the encroachments of the tide from the Castle of San Marco to the Franciscan convent, a distance of $\frac{3}{4}$ of a mile.

This wall was rebuilt by the United States government, 1835-1842, and capped with a coping of granite 3 feet in width. St. Francis barracks at the end of the sea wall include some of the walls of the old convent of St. Francis. Guard mount and dress parade with military music are an attraction to visitors.

Half way between the fort and the barracks and commanding a view of Mantanzas sound and the island of Anastasia is the Plaza de la Constitucion, a small public park. The center of the square is a shaft of marble erected 1812-13 in commemoration of the adoption of the Spanish Liberal Constitution in 1812. From this monument the park takes its name. On the north side of the plaza is a confederate war monument and the Roman Catholic cathedral begun in 1793 and rebuilt on an enlarged scale after the fire of 1887. In this fire the front wall of the cathedral was left almost intact and was incorporated in the present structure. The old bell bearing the date 1682 was also preserved. On the west side of the Plaza is the post office and customhouse, which was formerly the residence of the Spanish governors. On the east side of the Plaza is the old market, sometimes erroneously called the "slave market." Along the south side of the plaza runs the Alameda, a continuation of King street.

On the right of the Alameda and just west of the postoffice is the huge Ponce de Leon hotel designed by Carrere & Hastings in the style of the Spanish Renaissance. It is one of the most magnificent buildings on the continent, costing with its furnishings over \$2,000,000. Built of concrete with red-tiled roofs and brick and terra cotta details, the color scheme in the ancient and tropical setting is wonderfully beautiful. The rotunda is surrounded by four galleries elaborately ornamented with marble, carved oak and mural paintings, which with those of the loggia and dining room form a complete pictorial history of Florida. From the towers 165 feet high there is a fine view.

On the opposite side of the Alameda are the Cordova hotel, the Alcazar, and the Villa Zorayda, all, like the Ponce de Leon, surrounded by beautiful gardens. The Alcazar facing the Ponce de Leon, is also by Carrere & Hastings and in the Spanish style. The other two hotels are the first two examples of the adaptation of monolithic concrete architecture to modern buildings. Franklin W. Smith was the architect. The Villa Zorayda is in Moorish style with suggestions from the Alhambra.

From the northwest corner of the Plaza to the old city gate runs St. George street, only 17 feet wide and one of the quaintest and most picturesque streets in the city. It is the main thoroughfare and traverses the very center of the town. Treasury street, which crosses St. George street one block north of the Plaza, is only 7 feet wide at its eastern extremity. In St. Francis street, opposite the barracks, stands the old Huguenot house now used as an historical museum of Florida. It is considered the oldest house in the United States. It was built by the Huguenots in 1564, occupied by Franciscan monks from 1565-80 and from 1590 until 1882 was in the possession of the same family. Among other

COMM. ORGAN.—Tallahassee Chamber of Commerce.

*Tallahassee, Fla. (pop. 5,025, alt. 280 ft.), the capital of Florida, is beautifully situated among trees on a hill 280 feet above the sea. It is 26 miles north of the Gulf of Mexico, on the site of an old Indian settlement, the name of which meant "old field." It is laid out in rectangular blocks with fine shaded streets and is the seat of the Florida state college for women, the Florida agricultural and mechanical college for colored students, the Leon high school and several libraries. The chief buildings are the capitol, supreme court building and the court house. The Episcopal cemetery contains the graves of Prince Charles Louis Napoleon, Achilles Murat, son of the King of Naples, and his wife, who was a Virginia girl, a grandniece of George Washington. Murat relinquished his right to the throne of Naples and became a citizen of the United States. He was mayor of the city and did a great deal for its development. The Murat home is about two miles beyond Tallahassee.

Around Tallahassee are numerous other interesting and picturesque colonial plantation homes. Their gardens and those of Tallahassee are very beautiful, especially in the time of roses. Pleasant drives may be taken to Lake Jackson, a fishing place six miles dis-

tant, that has an Indian legend, and to lakes Iamonia and Bradford. Old Fort San Luis is picturesque and interesting. At Newport, with its famous sulphur springs, Harriet Beecher Stowe wrote part of "Uncle Tom's Cabin." Natural Bridge is the place where the students of West Florida military academy (now the Florida state college for women) gallantly defended the state capital during the civil war. The freak stream of Lost river, Wakulla spring, the miraculous source of the Wakulla river, St. Mark's lighthouse, Panacea Mineral springs, Lake Lafayette, a part of the grant to General Lafayette by the U. S. government, the "Home of the Tallahassee Girl," the governor's mansion and the capitol, from which there is a magnificent view, are all interesting to tourists. The Hill City golf course is one of the most beautiful in the country.

Three famous transcontinental highways meet at Tallahassee—the Dixie highway, Old Spanish trail highway, connecting the Atlantic coast of Florida and the Pacific coast of California, and the North-and-South National Bee Line highway "Duluth to the Gulf." Tallahassee being the southeastern terminus of the latter highway and New Orleans the southwestern terminus.

(St. Augustine Points of Interest concluded from opposite page.)

noteworthy buildings are Grace church designed by Carrere & Hastings and situated at the corner of Cordova and Carrere streets and the Memorial Presbyterian church by the same architects. It is in the Venetian Renaissance style and was erected by Mr. Flagler in memory of his daughter.

Anastasia island may be reached by bridge from the foot of King street. Among things of interest there are the old Coquina quarries,

from which was obtained the material for the sea wall and the ancient Spanish buildings of St. Augustine, the lighthouse, the South Beach and a collection of alligators, sea turtles and marine curiosities. There is also a burning spring, the water of which may be ignited with a flame and will burn like alcohol, but it is possible to pass through the flames a handkerchief or piece of cotton without its being ignited.

WINTER GOLF

Asheville

The 18-Hole Golf Course of the ASHEVILLE COUNTRY CLUB

Is located on the lower slopes of Sunset Mountain, and affords marvelous views of the Asheville Plateau and the great rim of mountains to the west, with "Pisgah and the Rat," 5748 feet, in the Pisgah National Forest and Game Preserve, as the exquisite centerpiece of this mountain magnificence.

This course established in 1907. Has 18 holes 5912 yards in length. Beautiful grass greens smooth as velvet. Sunday play permitted. Caddies available. Good golf all the year.

Asheville is on the Dixie Highway, 29 miles across the county, paved all the way. Good motor roads everywhere. Unexcelled hotel and boarding house facilities. Motor and play Golf in the "Land of the Sky." Write for illustrated booklet "G."

At the left — Spacious Club House of the Asheville Country Club.

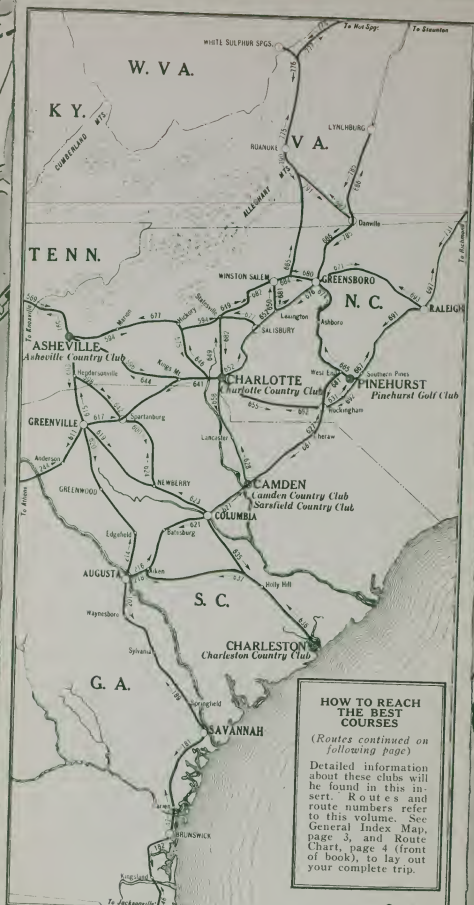

At right—One of the many beautiful highways in the vicinity of Asheville. Below—Teeing off on a difficult hole.

- 28.5 8.7 4-corners; turn right. Cross RR at sta. 28.6.
- 28.8 0.3 Crestview, fork, store on right. Bear left. Cross RR 32.3.

*Ponce de Leon, Fla. (pop. 250), in Holmes county, is about 80 miles northeast of Pensacola. It was named in honor of the Spanish explorer. There is a remarkable spring here, but it is not the "Fountain of Youth" for which he was searching.

*De Funiak Springs, Fla. (pop. 2,050, alt. 320 ft.), the county seat of Walton county, is 20 miles from the gulf of Mexico and 16 miles from Freeport, on Choctawhatchee bay, thus affording easy access to unexcelled fishing. It is on the main line of the Louisville & Nashville railroad, has a magnificent hotel and has been a winter resort for many years. The spring itself is 1 mile in circumference and 84 feet deep. It is very attractive for

bathing and boating and the park around it (208 acres) is very beautiful. The city now contemplates building in the park a Liberty building, including boat house facilities. The town is the seat of the Florida chautauqua, which holds its annual session in February and March. It is noted as an educational center, having Palmer college, Thomas industrial institute and a most excellent high school. It is located on the "Spanish trail" with good roads thruout the county, soon to be improved by an estimated expenditure by the joint county, state and federal funds of three-quarters of a million dollars. Valparaiso and Camp Walton can be reached from De Funiak Springs by good hard road.

THE WISCONSIN LAKES

are world renowned. They are the haunts of the sportsman, fisherman and vacationist. Volume 11 of the 1920 Automobile Blue Book will take you to them.

*Fairhope, Ala. (pop. 600, alt. 50 ft.), is a delightful home and resort town, which was established in 1895 by a unique organization, known as the "Fairhope Single Tax Colony." The land is not sold, but leased for 99 years.

The rents collected are then used to pay all taxes on the improvements made by lessees, and upon their personal property, as well as on the land itself. The remainder is then used for the benefit of the settlers.

Route 164—Tallahassee, Fla., to Dothan, Ala.—112.0 m.

Reverse Route 313.

Via Havana, Quincy, outskirts of Marianna and Cottonwood. Sand-clay and graded sandy dirt road all the way. Thru comparatively level country; some wooded stretches. Cross the Apalachicola river on ferry (charges \$1.03).

A bridge is now being built across the river at Chattanooga which should be completed in 1920 and will eliminate the ferry.

A combination of Route 165 to Bainbridge and Route 171 to Dothan offers an option.

*Dothan, Ala. (pop. 12,500, alt. 355 ft.), is an important commercial center for its section of the state. It is located in a most extraordinary strategic geographical position, being virtually in the corner of three states, Alabama, Georgia and Florida. Its compressed cotton and fertilizer interests are extensive. The town was settled about 1885. It has several fine public buildings and is also noted for its excellent free schools.

*Bainbridge, Ga. (pop. 5,000, alt. 110 ft.), the

county seat and largest city of Decatur county, lies on the eastern bank of the Flint river. It is a live industrial center, an important shipping point for tobacco, cotton and naval stores, and the site of the historic old Fort Hughes. Elevated upon a rugged knoll overlooking a wide sweep of the river stands a monument inscribed to the memory, the honor and valor of the pioneer citizens who garrisoned this fort in defense of the settlement against the hostile Indians.

- 120.5 70.2 ATLANTA, Peachtree, Marietta & Whitehall Sts.

*Lagrange, Ga. (pop. 17,000, alt. 729 ft.), is the seat of the Southern female college and Lagrange female college, both established more than seventy years ago. One mile west of Lagrange on the Atlanta-to-Montgomery highway are the beautiful old gardens developed by the late Mrs. Blount C. Ferrell. The estate is now the property of Mr. Fuller E. Callaway, who is continuing the gardens

along their original lines. They are remarkable for their wealth of old boxwood in attractive designs. Visitors are always welcome, the only conditions being that the flowers and shrubbery be not injured. At the north end of McLendon avenue is the home of Senator Benjamin Harvey Hill, who played such an important part in the history of the nation prior to and during the civil war.

Did you ever clean the muffler? MOTOR LIFE reminds you of such things every month. See Motor Life colored insert.

Route 171—Bainbridge, Ga., to Montgomery, Ala.—179.8 m.

Reverse Route 312.

Via Donalsonville, Dothan and Troy. All sand-clay or sand dirt, and clay road, except last 30 miles, which is gravel. Summary: 96.3 miles sand-clay; 25.8 miles sand-dirt; 25.4 miles clay and dirt; 30.1 miles gravel. Thru rolling farming country.

Note—A bridge will be built across the Chattahoochee river to replace the ferry mentioned below. Make inquiries about this at Bainbridge, and if bridge is not completed follow Route 165 to Blakely and then Note (a) on Route 259 to Dothan, crossing river on bridge at Columbia, Ala. In wet weather the following route is preferable even tho the ferry is still in use.

At Orion inquire for best road to Montgomery. A new one is said to be in use between these two points.

HOTELS—New Walton, opp. L. & N. Depot.

GARAGES—R. C. Walden Auto Co.

INF. BUREAU—R. E. L. McCaskill Co., McCaskill Bldg.

Straight ahead is Route 365 to Bainbridge.

*De Funiak Springs, Fla. (pop. 2,050, alt. 320 ft.), the county seat of Walton county, is 20 miles from the gulf of Mexico and 16 miles from Freeport, on Choctawhatchee bay, thus affording easy access to unexcelled fishing. It is on the main line of the Louisville & Nashville railroad, has a magnificent hotel and has been a winter resort for many years. The spring itself is 1 mile in circumference and 84 feet deep. It is very attractive for bathing and boating and the park around it (208 acres) is very beautiful. The city now contemplates building in the park a Liberty

building, including boat house facilities. The town is the seat of the Florida chautauqua, which holds its annual session in February and March. It is noted as an educational center, having Palmer college, Thomas industrial institute and a most excellent high school. It is located on the "Spanish trail" with good roads thruout the county, soon to be improved by an estimated expenditure by the joint county, state and federal funds of three-quarters of a million dollars. Valparaiso and Camp Walton can be reached from De Funiak Springs by good hard road.

When your spring breaks buy a

*Thomasville, Ga. (pop. 6,750, alt. 250 ft.), picturesquely situated on high ground overlooking the Ochlochnee river, is well known as a winter health resort. It has three large hotels, many private estates and Paradise, Magnolia and McIntyre public parks. The private estates are owned by northern multimillionaires and are marvels of beauty. They compare favorably with those on the Hudson. Thomasville has an extensive trade in lumber and is the largest wholesale brokerage center for yellow pine in the state. Its chief manufacturing interests are connected with

the lumber industry. The Vashti home for girls and a normal school for negroes are located here.

*Pelham, Ga. (pop. 3,000, alt. 355 ft.), on the Dixie highway, lies along the crest of a fertile ridge that traverses the state, with the land sloping away so gradually that it is hardly noticeable. It is said to be about the largest cantaloupe shipping point in the state. Watermelons, peanuts, corn, cotton and sugar cane are also raised here in very large quantities.

- 163.3 0.1 Left-hand road at RR, court house on left; turn left. Cross

*Americus, Ga. (pop. 12,000, alt. 36 ft.), is situated in a fertile agricultural region, whose important products are peaches, pecans, watermelons, cotton and corn. Whittle Peach orchard, just outside of the city, is said to be the largest orchard of the world, having 250,000 peach trees. Eleven miles north of Americus is Andersonville, where the famous civil war prison was located. (For full details regarding this prison see Andersonville points of interest.) Myrtle Springs, five miles northwest, is noted for its curative mineral waters. Among the city's educational institutes is the state agricultural college.

*Andersonville, Ga. (pop. 300, alt. 394 ft.), is a village in Sumter county, 62 miles south of Macon and noted as the site of the civil war confederate military prison, known for its horrors. Established in 1863, the prison was an unsheltered inclosure of 23 acres crossed by a small stream about 5 feet wide and a foot deep. In this area thousands of federal soldiers were crowded, and forced to live exposed to heat, cold and storm, with insufficient food and amid conditions of indescribable filth. The post was under the command of General W. S. Winder, while Henry Wirtz, a Swiss, was prison superintendent. In 1865 Wirtz was tried by a special military court and convicted of "maliciously, willfully, and traitorously conspiring to injure the health and destroy the lives of soldiers

confined at Andersonville and of murder in violation of the laws of war," and on November 10th was hanged.

The prison site and the tract of land where the bodies were interred has been converted into a national cemetery. It lies about half a mile northeast of the Georgia Central railway station of Andersonville. The cemetery proper contains five acres, is well kept and graced by many fine trees and beautiful shrubbery. Bodies of thousands of federal soldiers are buried here, the graves of the identified dead being marked with tablets. The majority died in the prison pen and, being too numerous for separate graves, were laid in long trenches, but singly, side by side. The main entrance is on the west side of the cemetery, from which a well kept road about 1,800 feet in length and 50 feet wide runs through the government reservation and meets the Dixie highway. There have been erected in the cemetery nine handsome state monuments, namely: New York, New Jersey, Connecticut, Iowa, Illinois, Indiana, Maine, Pennsylvania and Minnesota, the last named having been dedicated on September 26, 1916. Its cost was \$16,000. The cost of the New York monument was \$25,000.

Of special interest is the tunnel, which may still be seen, through which 15 of the prisoners escaped; also Providence spring, which spring it is said was made by a bolt of lightning to give the soldiers water to drink.

*Fort Valley, Ga. (pop. 4,000, alt. 524 ft.), is located on the main line of the Central Georgia and Southern railways, enjoying transportation and freight facilities afforded cities twice its size. As the center of the famous "Georgia peach" industry and the largest shipping point for this fruit in the

world, it attracts thousands of people from all parts of the country, especially fruit buyers and their associates. During the fruit season the town just about doubled in population. Houston county, of which it is the principal city, produces over three million dollars' worth of peaches annually.

Left leads to Elko; right leads to Montezuma.

*Tifton, Ga. (pop. 4,500, alt. 337 ft.), and Tift county are traversed by the National highway and lie on the short route from Macon to Valdosta. The chief feature of the county is its beauty, not so much of scenery as of production. It is one of the feature counties of south Georgia in this respect. The tourist along the National highway passes through a rolling country rich in cotton, corn, rice and peanuts. The county is noted in South Georgia as the home in this

section of Shorthorn cattle. Polled Angus is also a favorite breed, and some of the finest herds in the state are here. Its cattle and hog production have brought about the construction, now under way, of a packing house in Tifton. Besides this, Tifton has many up-to-date manufacturing enterprises. The Second District agricultural school is located just west of the National highway as it enters Tifton from the north.

*Fort Valley, Ga. (pop. 4,000, alt. 524 ft.), is located on the main line of the Central Georgia and Southern railways, enjoying transportation and freight facilities afforded cities twice its size. As the center of the famous "Georgia peach" industry and the largest shipping point for this fruit in the world, it attracts thousands of people from all parts of the country, especially fruit buyers and their associates. During the fruit season the

town just about doubled in population. Hous- ton county, of which it is the principal city, produces over three million dollars' worth of peaches annually.

*Barnesville, Ga. (pop. 5,000, alt. 859 ft.), is the home of the Gordon institute and of the Sixth district agricultural and mechanical school. In 1918 it completed a \$40,000 contract, showing what is being done way of good roads.

Don't neglect the points of interest—read them and make yo trip more enjoyable.

Savannah Section

POINTS OF INTEREST, SAVANNAH, GA.

Savannah (pop. 65,100, alt. 21 ft.), "Southern Key to Land and Sea," and the second largest city of Georgia, is situated on the south bank of the Savannah river 18 miles from the Atlantic ocean. It is one of the most important railroad centers of the south. It is the eastern terminus of the Central of Georgia and the northern terminus of the Savannah, Florida & Western. Savannah is also one of the larger and most prosperous of the Atlantic ports. Regular steamship lines operating the largest coastwise steamships give daily connection with Boston, Philadelphia, Baltimore and Jacksonville, Fla. Large ocean carriers sail to European ports.

The city stands on the plateau of a river bluff 50 feet above sea level. The plan is an extension of that originally projected by the founder, James Oglethorpe, first colonial governor of Georgia. The wide straight streets beautifully shaded with magnolias, palmettos, japonicas, magnificent oaks, crape myrtles and other semi-tropical trees, are laid out at right angles and intersected with parks or squares at regular intervals. The variety of the shade trees and the 50 parks squares has given Savannah the name of the "Forest City."

The largest of the public squares is Forsyth park, 10 acres in extent, adjoining the parade ground of 20 acres which is in reality but an extension of the park. In the parade ground stands a handsome monument to confederate

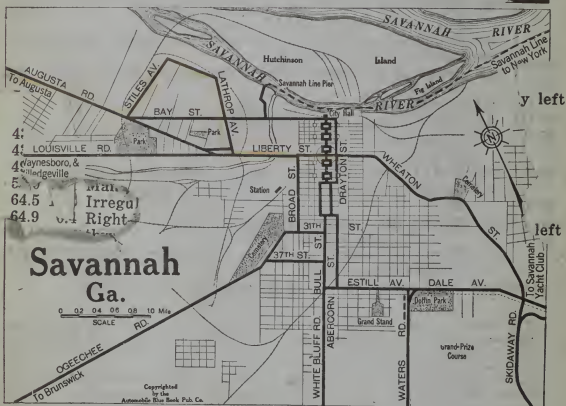

dead. In Johnson, Monterey and Madison squares are monuments to Gen. Nathaniel Greene, Count Casimir Pulaski, and Sergeant Jasper, heroes of the revolution. There are also monuments in honor of Gen. Oglethorpe, Tomochichi, the Indian chief, Gen. F. S. Fenton, Gen. Lafayette McLaws and William Washington Gordon, who was one of the leaders in the building of the Central Georgia railway.

Among the imposing public buildings the post office, the custom house, the court house, the city hall, the Telfair academy of arts and sciences, the public library, the municipal auditorium, and Hodgson hall containing the library and collections of the Georgia historical society.

Ten miles from the center of town is the Bethesda orphan house, founded 1740 by the famous English preacher, George Whitfield, who came to Georgia as a missionary.

Savannah was the first settlement in Georgia and was founded 1733 by James Edward Oglethorpe with a company of about 120 men. The colony was intended as a buffer outpost against the Spaniards of Florida to protect Charleston. German, English and Scottish immigrants in considerable numbers flowed in almost immediately. In 1735 came John Wesley, the founder of Methodism, and his brother Charles, and also the famous English evangelist, George Whitfield.

During the revolution Savannah was forti-

fied by the Americans, but the British fleet under Lord Howe captured it in 1778. In October, 1779, the combined French and American forces under d'Estaing and Lincoln besieged Savannah but were defeated in repeated assaults, with the loss of Count Pulaski, Sergeant Jasper and 800 men. The town remained in the possession of the British until 1782. In 1796 and again in 1820 it was almost destroyed by fire. The first steamship to cross the Atlantic was owned and projected in Savannah, was named after the city, and sailed from there to Liverpool, 1819.

In the civil war Savannah was the terminus of Gen. Sherman's "march to the sea." At that time the city had a population of 25,000 and was defended by Gen. Hardee with a force of 18,000, mostly old men and boys. Sherman captured Fort McAllister on Dec.

13, 1864, and began the investment of the city. On the 20th, however, Gen. Hardee with his troops escaped by means of a pontoon bridge. He left 150 heavy guns, large quantities of ammunition and 30,000 bales of cotton, but had destroyed the navy yard with the iron clad ram Savannah. On Dec. 21 the Union army took possession and held the town until the close of the war.

Since that war the development of the city was rapid. It has a water frontage of 6 miles; the channel of its fine landlocked harbor is 26 feet wide and has been deepened by the federal government to 33 feet. The largest sea-going vessels now load at the city wharves. The city ranks as the first port of the world for naval stores. Among the ports of the United States it ranks second in value of exports and it is the first among Atlantic ports

in the shipment of cotton and phosphate rock.

The city has numerous picturesque parks, the most interesting being Forsyth park, a veritable forest of stately pines through which attractive drives and walks may be taken.

Like Baltimore, Savannah is a veritable city of monuments. As one drives down Bull St., the main thoroughfare, an episode in Savannah's history may be recalled at every block, for Bull St. is a succession of alternate lanes of traffic and small parks or squares, each of the latter having a monument to commemorate some hero of the past. At the foot of Bull St., in the long park that extends along the river front, is a stone bench. Here, 184 years ago, James Oglethorpe gathered his band about him and took possession of the land in the name of the King of England. Several blocks down the street is a bronze statue of the founder of the city. In another square on Bull St., close to the Oglethorpe statue, is a huge boulder of granite, perpetuating the name of Chief Tomochichi and marking the spot where this nonagenarian leader of the Creeks pledged his friendship to the settlers. There are also two monuments in squares on Bull St., which had their cornerstones laid by Marquis Lafayette, who visited Savannah in 1825 to dedicate the memorials of Count Pulaski, the Polish general, and Sergeant William Jasper, one of the romantic heroes of the revolutionary war, both of whom were killed in an unsuccessful attempt to drive the British out of the city in 1779. The marble tribute to Pulaski is the tallest shaft in the city, while the statue to Sergeant Jasper is the only monument ever erected to a non-commissioned officer of the revolution.

Nathaniel Greene, the fighting Quaker, and one of the ablest generals on Washington's staff, is another of Savannah's heroes whose fame has been perpetuated by the erection of a monument on Bull St. The remains of this tenacious warrior lie in a vault under the shaft of marble. Although not a Georgian by birth, Greene spent his last days at Mulberry Grove, a plantation on the Savannah river about 14 miles above the city. The estate of Mulberry Grove was Georgia's gift of gratitude to Greene for his noble services. It was here that Eli Whitney, who invented the cotton-gin, was employed as a tutor for the children of the revolutionary general. Whitney's old home is still standing opposite St. John's church.

At the corner of Whittiker and Broughton Sts. is Tondee's old tavern, a landmark of the stirring days of the revolution. In the long room of this ancient public house the Sons of Liberty were wont to gather to drink their ale, protest against the stamp act and plan the defense of Savannah against the British fleet. The old table at which the patriots deliberated may still be seen.

The old Colonial cemetery, shaded by oaks, is the last resting place of many a revolutionary hero. Here are the graves of James Habersham, who came to America with Oglethorpe; Major J. Berrien, an officer in the revolution; Gen. McIntosh, who killed Button Gwinnett, one of the signers of the Declaration of Independence, in a duel in 1777; Lieutenant Cottineau, who served under John Paul Jones; and Archibald Bullock, the first

president of Georgia and an ancestor of Theodore Roosevelt. "Bonaventure," now called "Evergreen," another of Savannah's cemeteries, is famed for its scenic attractions and for its winding drives that are arched by the sturdy limbs and dense foliage of the stately oaks, centuries old, and pendant with Spanish moss. "Bonaventure" is the birthplace of Josiah Tattnall, who first declared that "blood is thicker than water" and who served in the U. S. navy before the civil war and then became a commander of the confederate fleet.

On the customs house at the corner of Bull and Bay Sts. is a bronze tablet marking the spot where John Wesley preached his first sermon. Here also the famous Protestant divine established the first Sunday school in the world.

Savannah has several old churches, of which the most interesting is the Independent Presbyterian. In 1864, as Sherman and his army approached, on his famous march to the sea, he was met by the feminine members of the congregation, clad in white robes, asking him to spare the bells, which they feared he would cast into bullets. The house where Sherman made his headquarters still stands on Bull St.

An interesting reminder of the civil war will be found at the golf course of the Savannah golf club, where the breastworks thrown up by the confederates on the approach of Sherman are now used as bunkers.

On West Broad St. is the Scarborough house. William Scarborough, the owner of the first steamboat to cross the Atlantic, lived there. It is now a home for colored children.

Thunderbolt, a resort five miles from Savannah, is a very popular resort. Here are located the Savannah yacht club and the motor boat club. At Jasper's Springs, a drive of two miles, is Sergeant Jasper's old tavern; Sherman passed it on his march to the sea, but spared it from the torch on account of its historic association.

A drive of three miles takes the tourist to "The Hermitage," a plantation of the antebellum days, where the old mansion and slave-dwellings may be inspected. Beaulieu, another estate 12 miles from Savannah, is beautifully located on a bluff above the Vernon river about 7 miles from the ocean. It is now composed of winter and summer residences, and is extremely attractive.

On Tybee Island, a beach resort of Savannah, is located the regular coast and artillery post known as Fort Screven.

About 12 miles south of Savannah, near the Ogeechee road, is a beautiful grove of Japanese bamboos—the largest in eastern North America—which tourists should make it a point to visit. The bamboo is the most picturesque landscape plant in the world and gives an idea of the Orient which no other plant can give. This grove covers three-quarters of an acre and rises to a height of over fifty-five feet. Its growth has come about by the planting years ago of a single small plant. The United States department of agriculture expects to distribute hundreds of thousands of bamboo plants for the purpose of establishing these groves thruout the south—and any one interested in planting a

grove of this remarkable giant grass, which is so indispensable to Orientals that over four hundred million of them can scarcely imagine an existence without them, should take the matter up with the proper federal depart-

ment. A station or branch of this department is maintained at Savannah, where information with regard to the bamboo and other plant life is gladly given.

The Oriental Timber Bamboo as It Grows in the United States.

Use the National Parks!

The National Park Service invites motorists to use and enjoy the great national playgrounds established by Congress. They include the broadest range of sublime scenery in the whole world, and, remember, they belong to you.

Route 181—Savannah to Brunswick, Ga.—77.7 m.

Reverse Route 47.

Via Eulonia, Darien and Altamaha Ferry. First 9 miles brick and macadam; next 10 miles shell, followed by 47 miles graded dirt; last 12 miles shell. Summary: 22 miles shell; 47 miles dirt; 9 miles macadam.

Thru level wooded and farming country.

This route crosses the Altamaha river on a train ferry. Charges, \$3.00 per car. South-bound motorists should purchase tickets at Darien. Ferry leaves Darien as follows: 6:30 a. m., 10:30 a. m., 2:00 p. m., and 5:30 p. m. Trip consumes one-half hour.

53.4 8.0 Fork, just beyond wooden bridge; bear left with travel.

POINTS OF INTEREST, BRUNSWICK, GA.

Brunswick⁹ (pop. 15,000, alt. 11 ft.), seat of Glynn county, is situated on a fine land-locked harbor which is made up of St. Simons sound, Turtle river and Brunswick river, and is 8 miles from the ocean and 68 miles southwest of Savannah. It is a popular summer and winter resort and is connected by steamers with New York. Brunswick was founded by General Oglethorpe, first Governor of Georgia, in 1735.

The U. S. census bureau shows a greater increase of manufacturing in Brunswick from 1910 to 1914 than in any other city in Georgia. It has become the leading shipbuilding port of the south. The largest rosin, turpentine and pine oil manufacturing plant in the world is located here.

One of the many historical points of interest in the vicinity of Brunswick is the old town of Frederica, on St. Simons Island, which was laid out in 1739 by General Oglethorpe, founder and first governor of Georgia, and named in honor of Frederick, Prince of Wales, the only son of George II. Frederica was the favorite residence of Governor Oglethorpe and figures prominently in the early history of the state. Here in 1742 the Spaniards landed a force of 3,000 men. To oppose them,

Oglethorpe had but 800, but he defeated the Spaniards in an encounter so sanguinary that the battlefield is known as Bloody Marsh.

On Cumberland Island is Dungeness, now known as Dungeness castle, the property of the Carnegies. On this island reposed for 95 years the remains of General "Light Horse Harry" Lee, the gallant commander of Greene's cavalry during the campaigns in the Carolinas, and the father of General Robert E. Lee, the illustrious confederate leader. The body of General "Light Horse Harry" Lee has been recently moved to Lexington, Va.

Jekyl Island, which is in sight of the Brunswick wharves, is owned by a private club of American millionaires, and on it are the beautiful winter residence of the Goulds, Rockefellers and others. "Wanderer," the last slave ship to cross the ocean, landed her 500 slaves here.

About a mile from the city of Brunswick is "Laniers' Oak," the favorite haunt of the poet, Sidney Lanier. It was under this oak that he wrote the famous "Marshes of Glynn."

Points of interest in the town itself are the U. S. government building, the city hall and the Glynn academy buildings.

*Waynesboro, Ga. (pop. 7,200, alt. 712 ft.), was named in honor of "Mad Anthony" Wayne. The present site of the city was at one time occupied by Burke Jail, scene of a noted battle in 1779, during which engagement Capt. Joshua Irwen slew three men with

one arm. The disastrous battle of Bear Creek was staged southeast of Waynesboro. It is stated that General Washington made a special effort to visit this town, going six miles out of his way, when journeying to Georgia in 1779.

*Louisville, Ga. (pop. 1,050, alt. 800 ft.). Very interesting here is a monument of the "South of Yesterday," consisting of the old slave mart and auction block, both erected in 1758. This is situated at the intersection of the main streets, and can scarcely escape the eye of the tourist.

*Milledgeville, Ga. (pop. 7,500, alt. 264 ft.), the geographical center of the state, is the principal city on the eastern branch of the Dixie highway between Atlanta and Savannah. In 1803 it was selected as the site for the permanent capital of Georgia, the streets were laid out and the state house begun. From 1807 to 1868 it served as the seat of the state government, but following the civil war, during the period known as the reconstruction days, a federal military governor moved

the capital to Atlanta. The old capitol building and the governor's house, so associated with the great political battles in which the secession of the state of Georgia was the issue, and so vitally connected with Sherman's famous march to the sea, are intact.

Milledgeville is now celebrated as the home of many of Georgia's state institutions. It is primarily an educational center and the site of the Georgia normal and industrial college, and the State college for women; also the Georgia military college, which has for its campus the beautiful grounds of the old state capitol. The state hospital for the insane, the largest institution of its kind under one management in the world, and the state prison farm, operated by 700 convicts, are other of its institutions.

Augusta Section

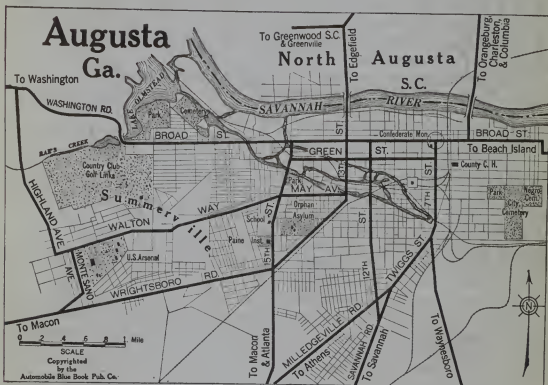

POINTS OF INTEREST, AUGUSTA, GA.

Augusta (pop. 60,000, alt. 100 ft.), third city in size in the state, is the greatest cotton manufacturing center of the south and the second largest cottonseed oil market in the world. Owing to its extensive cotton factories it has derived the sobriquet "Lowell of the South." Here is located headquarters of the ordnance department of the United States government for the department of the gulf and Camp Hancock, the training center for machine-gun men. The Augusta arsenal is the oldest established arsenal in the country.

Augusta was founded in 1735 by James Edward Oglethorpe, and from the very first days the town was notable as a market for colonists and Indians. It was an important military post, and during the revolution was the storm center of some of the most stubborn fighting. It was twice captured by the British forces and finally recaptured by the Americans in 1781 under Gen. Pickens and "Lighthorse Harry," or Lieut.-Col. Henry Lee, father of Robert E. Lee. Fort Cornwal-

lis, held by the main British force, occupied the site of the present St. Paul's church. Fort Grierson, garrisoned by the smaller British force, was near the present "Meadow Brooke" mansion, which was the home of George Walton, a signer of the Declaration of Independence. Augusta was the state capital from 1778 to 1798. It is well known today as a health and winter resort.

Greene street might well be called Monument street, since it contains numerous handsome memorials, and a visit to this street would prove very interesting. On Broad street is the monument to the Confederate soldiers. In Barret plaza stands a statue of Patrick Walsh, formerly mayor of the city and U. S. senator. Confederate powder works were located in Augusta, and their tall chimney may still be seen. Among its many splendid educational institutions, Richmond academy is unique in that it is the oldest existed chartered school in Georgia and one of the very oldest in the south. It dates from 1783.

*Milledgeville, Ga. (pop. 7,500, alt. 264 ft.), the geographical center of the state, is the principal city on the eastern branch of the Dixie highway between Atlanta and Savannah. In 1803 it was selected as the site for the permanent capital of Georgia, the streets were laid out and the state house begun. From 1807 to 1868 it served as the seat of the state government, but following the civil war, during the period known as the reconstruction days, a federal military governor moved the capital to Atlanta. The old capitol building and the governor's house, so associated with the great political battles in which the secession of the state of Georgia was the issue, and so vitally connected with Sherman's famous march to the sea, are intact

and are historic landmarks of our country's early days.

Milledgeville is now celebrated as the home of many of Georgia's state institutions. It is primarily an educational center and the site of the Georgia normal and industrial college, and the State college for women; also the Georgia military college, which has for its campus the beautiful grounds of the old state capitol. The state hospital for the insane, the largest institution of its kind under one management in the world, and the state prison farm, operated by 700 convicts, are other of its institutions. Good roads surround the city and lead to three of the largest military cantonments, which are located in close proximity.

Route 209—Augusta to Atlanta, Ga.—172.6 m.

Reverse Route 252.

Via Thomson, Union Point and Madison. Sand-clay roads all the way, except last 8 miles, which is gravel and macadam.

Thru rolling farming country, following and crossing RR numerous times.

A combination of Route 211 to Athens and Route 241 to Atlanta offers an option.

 148.1 0.8 Fork; bear left across switch. Cross RR 148.4.
 152.4 4.3 4-corners; turn right with travel. Cross RR 152.8.

*Union Point, Ga. (pop. 2,000, alt. 644 ft.), was given its name owing to the fact that when the Georgia railroad was being built here in 1830 the line from Augusta and the shorter one from Athens met here and for some time went no further. The first frame house erected in Greene county was built here by one of the Thorntons, whose descendants still own the land, granted by the crown. Here also was located the famous Wayside

home for confederate soldiers, where one and a quarter million meals were served free to the men of both armies passing thru the town during the civil war. A tiny hospital cared for the sick and wounded. Unfortunately this historic old inn was destroyed by fire a few years ago. Near Union Point is the famous Daniel spring, whose healing powers have been celebrated since the days of the Indians.

- 156.1 3.7 Stone Mountain,* RR on left. Keep ahead.

Via Union Point and Crawford. Sand-clay roads all the way. Thru rolling farming country.

0.0 0.0 AUGUSTA, Confederate Monument.

See Route 209 for directions to Union Point, 74.9 miles, where reset odometer to 0.0.

*Stone Mountain, Ga. (pop. 1,100, alt. 1,026 ft.). Here the Daughters of the Confederacy are preparing to memorialize the "Lost Cause" by a monument hewn on the sheer side of the mountain. The mountain is a unique geological structure in itself, a single enormous boulder with a perpendicular face a thousand feet in height. It is proposed to transform this solid stone into a hall with columns hewn from the face without any resort to the builder's method of placing stone on stone. The facade will have three colossal figures, the central one being Robert E. Lee, who will be flanked by "Stonewall" Jackson and Joseph E. Johnston. Two wings of an army in action will come from the east and west behind the two figures, making a wonderful array of horse and foot soldiers, depicting the actual struggle, anguish and death of battle. The property has been donated to the Daughters of the Confederacy, and Gutzon Borglum, the famous sculptor, has been chosen to execute this remarkable piece of work. The cost of this immense undertaking has been estimated at two million dollars. The United States government has been asked to donate a large sum to make a national park at the foot of

the mountain. The people of the south are enthusiastic over this idea, and when completed it will be a most fitting memorial to the great south of '64, built by the greater south of the present day.

*Decatur, Ga. (pop. 6,000, alt. 1,019 ft.), lies half way between Atlanta and Stone mountain. From out the side of Stone mountain, Gutzon Borglum, the world renowned sculptor, has just recently carved the great confederate memorial. Tourists from Atlanta will find splendid roads thru Decatur to this—one of the so-called "seven wonders of the world."

Decatur was settled and incorporated in 1823, being named in honor of Commodore Stephen Decatur, renowned for his victories in the war of 1812. Near here, on July 20, 1864, was fought the battle of Peachtree Creek, in which the confederates, under General Hood, unsuccessfully attacked a part of Sherman's army under Generals Thomas and Schofield.

The Agnes Scott college for women (Presbyterian) is located within the town limits and the Emory university for men (Methodist) and Oglethorpe college for men (Presbyterian) are just a few miles from Decatur.

Captain Hardy in MOTOR LIFE

The Monthly Magazine for Red-Blooded Motorists

"It doesn't do much good to true a wheel up if you don't apply the rim correctly. It may be necessary to put shims over the rim bolts in front or back so as to bring the rim into line and make it run true when you spin the wheel."

See Motor Life colored insert.

Page 584 will tell you some of the reasons why you should SEE CINCINNATI—but not all!

*Orangeburg, S. C. (pop. 5,925, alt. 252 ft.), situated on the North Edisto river, 51 miles south of Columbia, is the seat of Claflin university (Methodist Episcopal) and the Normal

industrial agricultural and mechanical college, both for negroes. It has a considerable trade in cotton and lumber, also has an important packing industry and a large creamery.

Be Cautious of Solicitations from the Curb

in choosing your garage accommodations. The expense of this practice to the garage is often costly to the Tourist. The publishers recommend your patronizing garages listed in the Blue Book.

Augusta Country Club, Augusta, Ga.

Macon Section

POINTS OF INTEREST, MACON, GA.

Macon (pop. 59,000, alt. 337 ft.), situated on both sides of the Ocmulgee river at the head of navigation, has steamboat connection with Savannah and Brunswick. The Central of Georgia R. R. has a three-million-dollar shop and roundhouse here. The new passenger terminal opened in December, 1916, cost one million dollars besides the cost of approaches, elevated tracks, subways, etc. This station has the reputation of being the finest south of Washington.

Macon is the converging point of the Dixie and National highways and the roads in a radius of one hundred miles are numbered among the best on these routes. The city is called the "Heart of Georgia" for the reason that it is located within six miles of the geographical center of the state. It has a hydro-electric power furnished by a three-million-dollar plant located 36 miles up the Ocmulgee river. This power is used to operate street cars, light streets and homes and for industrial plants, and as a precaution in case of accident the power company has two large auxiliary steam plants located in the city.

Macon's colleges are famous: Mercer university (Baptist) for young men; Wesleyan college (Methodist) for young women, the oldest chartered girls' college in the world and first to confer degrees on women, 1836. Mt. De Sales (Catholic) for girls, and St. Stanislaus college (training school for Jesuit priests), Georgia-Alabama business college, also Ballard normal school for colored women.

Macon is located in the famous peach growing district of Georgia, the largest peach

orchard in the world being nearby. A packing plant costing \$1,000,000 has just recently been constructed and a canning factory is in operation helping to take care of the fruits and truck which grow so bountifully in this section. Large deposits of kaolin and aluminum are mined here, and there are also important deposits of granite, brick, tile and vitreous clay.

Camp Wheeler is located seven miles from Macon. Inside the camp grounds is a splendid lake with boats and pavilion. This is largely patronized by local people during the summer months. Within a four-mile radius of the camp are two or three other attractive lakes. There is also a remount camp in connection with Camp Wheeler known as "Mogul."

Other interesting points in and near the city are: Home of Sidney Lanier, Georgia's famed poet; State academy for the blind, Central City park, home of the Georgia state fair, Idle Hour nurseries, largest greenhouses in the south, Idle Hour country club, with its beautiful club house and complete golf links, Indian mounds, among the most remarkable and interesting in North America, and its large cotton mills.

Macon was named for Nathaniel Macon, patriot and statesman. It was the capital of Georgia during "Sherman's March to the Sea," 1864-65. The first joint convention of American Indians and official representatives of the U. S. government was held here, and the famous 151st Machine Gun Battalion of the Rainbow Division (1918) claims Macon as its home.

Route 221—Macon to Atlanta, Ga.—94.1 m.

Reverse Route 255.

Via Barnesville and Forsyth. First 10 miles macadam and gravel; balance sand-clay except for 6 miles of concrete thru Griffin.
 This route follows the general line of Sherman's historic "March to the Sea," thru a fertile agricultural district.

*Barnesville, Ga. (pop. 5,000, alt. 859 ft.), is the home of the Gordon institute and of the Sixth district agricultural and mechanical school. In 1918 it completed a \$40,000 paving contract, showing what is being done in the way of good roads.

*Griffin, Ga. (pop. 12,300, alt. 1,100 ft.), seat of Spaulding county, is on the Dixie highway. It has seven big cotton mills, making every class of cotton goods and more Turkish

towels than any other city in the world, hence the sobriquet "Turkish Towel Town." It has other thriving manufactories also and is a modern and up-to-date little city in every respect.

*Forsyth, Ga. (pop. 2,500, alt. 735 ft.), on the Dixie and National highways, is the site of the Bessie Tift college. Indian Spring, 16 miles distant, is a noted health resort.

- 126.9 35.4 AUGUSTA, at Confederate Monument.

*Milledgeville, Ga. (pop. 7,500, alt. 264 ft.), the geographical center of the state, is the principal city on the eastern branch of the Dixie highway between Atlanta and Savannah. In 1803 it was selected as the site for the permanent capital of Georgia, the streets were laid out and the state house begun. From 1807 to 1868 it served as the seat of the state government, but following the civil war, during the period known as the reconstruction days, a federal military governor moved the capital to Atlanta. The old capitol building and the governor's house, so associated with the great political battles in which the secession of the state of Georgia was the issue, and so vitally connected with Sherman's famous march to the sea, are intact

and are historic landmarks of our country's early days.

Milledgeville is now celebrated as the home of many of Georgia's state institutions. It is primarily an educational center and the site of the Georgia normal and industrial college, and the State college for women; also the Georgia military college, which has for its campus the beautiful grounds of the old state capitol. The state hospital for the insane, the largest institution of its kind under one management in the world, and the state prison farm, operated by 700 convicts, are other of its institutions. Good roads surround the city and lead to three of the large military cantonments, which are located in close proximity.

3.9	1.2	Fork, store on right; bear left. Cross RR 9.2, turning left across wooden bridge just beyond.
9.6	5.7	Drybranch, sta. on left. Straight thru.

*Louisville, Ga. (pop. 1,050, alt. 800 ft.). Very interesting here is a monument of the "South of Yesterday," consisting of the old slave mart and auction block, both erected in 1758. This is situated at the intersection of the main streets, and can scarcely escape the eye of the tourist.

*Waynesboro, Ga. (pop. 7,200, alt. 712 ft.), was named in honor of "Mad Anthony" Wayne. The present site of the city was at

one time occupied by Burke Jail, scene of a noted battle in 1779, during which engagement Capt. Joshua Irwen slew three men with one arm. The disastrous battle of Bear Creek was staged southeast of Waynesboro. It is stated that General Washington made a special effort to visit the town, going six miles out of his way, when journeying to Georgia in 1779.

 54.7 2.7 Fork; keep right along RR. Cross tracks 55.0.
 58.9 4.2 Murphy. Straight thru along RR.

*Tifton, Ga. (pop. 4,500, alt. 337 ft.), and Tift county are traversed by the National highway and lie on the short route from Macon to Valdosta. The chief feature of the county is its beauty, not so much of scenery as of production. It is one of the feature counties of south Georgia in this respect. The tourist along the National highway passes through a rolling country rich in cotton, corn, rice and peanuts. The county is noted in South Georgia as the home in this section of Shorthorn

cattle. Polled Angus is also a favorite breed, and some of the finest herds in the state are here. Its cattle and hog production have brought about the construction, now under way, of a packing house in Tifton. Besides this, Tifton has many up-to-date manufacturing enterprises. The Second District agricultural school is located just west of the National highway as it enters Tifton from the north.

- 63.5 4.6 Coolidge, 4-corners, bank ahead on left. Straight thru. Cross long concrete bridge 66.5, and pass church and cemetery, on right beyond. Pass large brick school on right 77.1, and follow E. Jackson St.
- 77.8 14.3 THOMASVILLE,* E. Jackson St. & Broadway, bank ahead on left.

GARAGES—Dixie Highway Garage, Madison St., just south of Jefferson.
SERVICE STA.—United States Tire Sales & Service Depots located here.

Route 232—Waycross, Ga., to Jacksonville, Fla.—76.0 m.

Reverse Route 43.

Via Folkston and Callahan. Dirt and sand roads to Ft. Mudge; between Ft. Mudge and Racepond the road is very bad and likely to give trouble in wet weather. Construction work is in progress in this vicinity and when this road has been repaired it will form an important highway into Florida. From county line at bridge to Hilliard the road is being graded. This work is scheduled to be finished by fall and will eliminate a few turns across the RR; next 18 miles wide graded dirt and sand-clay; balance (13 miles) brick and shell. A section of the Dixie highway.

(MILEAGE) Distance Between Points. Note (a) on Route 43 offers a connection from Callahan for those desiring to go to Yulee and Fernandina.

- 0.0 0.0 WAYCROSS, Plant Ave. & Elizabeth St., sta. on right. Go northeast on Plant Ave. along RR.
- 0.1 0.1 5-corners; turn sharp right across RR and at irregular 4-corners immediately beyond, bear slightly left onto Williams St.
- 0.2 0.1 4-corners; turn right, passing brick church on left just beyond.
- 0.4 0.2 4-corners; turn left.
- 1.3 0.9 Irregular 4-corners; bear right with travel.
- 12.2 10.9 Fork; bear left.
- 13.0 0.8 Fork; keep right along RR. Thru Ft. Mudge 14.1. Cross long wooden bridges 16.8-18.0.
- 19.3 6.3 Racepond, 3-corners, P. O. on left. Bear left. Thru diagonal 4-corners 19.7. Cross RR at Uptonville 27.5.
- 27.6 8.3 Left-hand road; turn left. Pass Homeland Sta. over to left 31.4.
- 33.2 5.6 Irregular 4-corners; jog left and immediately right, keeping ahead.

- 36.2 1.6 Fork; bear right with travel. Cross long bridge over St. Mary's river 37.5—now in Florida. Avoid right-hand diagonal road at top of grade 37.7.
- 37.9 1.7 3-corners; bear left. Cross RR 38.7.
- 42.2 4.7 Andrews, fork, just beyond RR. Bear right.

*Thomasville, Ga. (pop. 6,750, alt. 250 ft.), picturesquely situated on high ground overlooking the Ochlocknee river, is well known as a winter health resort. It has three large hotels, many private estates and Paradise, Magnolia and McIntyre public parks. The private estates are owned by northern multimillionaires and are marvels of beauty. They

compare favorably with those on the Hudson. Thomasville has an extensive trade in lumber and is the largest wholesale brokerage center for yellow pine in the state. Its chief manufacturing interests are connected with the lumber industry. The Vashti home for girls and a normal school for negroes are located here.

Straight ahead leads to Quitman.

*Tifton, Ga. (pop. 4,500, alt. 337 ft.), and Tift county are traversed by the National highway and lie on the short route from Macon to Valdosta. The chief feature of the county is its beauty, not so much of scenery as of production. It is one of the feature counties of south Georgia in this respect. The tourist along the National highway passes through a rolling country rich in cotton, corn, rice and peanuts. The county is noted in South Georgia as the home in this section of Shorthorn

cattle. Polled Angus is also a favorite breed, and some of the finest herds in the state are here. Its cattle and hog production have brought about the construction, now under way, of a packing house in Tifton. Besides this, Tifton has many up-to-date manufacturing enterprises. The Second District agricultural school is located just west of the National highway as it enters Tifton from the north.

*Fort Valley, Ga. (pop. 4,000, alt. 524 ft.), is located on the main line of the Central Georgia and Southern railways, enjoying transportation and freight facilities afforded cities twice its size. As the center of the famous "Georgia peach" industry and the largest shipping point for this fruit in the world, it

attracts thousands of people from all parts of the country, especially fruit buyers and their associates. During the fruit season the town just about doubled in population. Houston county, of which it is the principal city, produces over three million dollars' worth of peaches annually.

Turn left away from trolley onto Broad St.

*Andersonville, Ga. (pop. 300, alt. 394 ft.), is a village in Sumter county, 62 miles south of Macon and noted as the site of the civil war confederate military prison, known for its horrors. Established in 1863, the prison was an unsheltered inclosure of 23 acres crossed by a small stream about 5 feet wide and a foot deep. In this area thousands of federal soldiers were crowded, and forced to live exposed to heat, cold and storm, with insufficient food and amid conditions of indescribable filth. The post was under the command of General W. S. Winder, while Henry Wirtz, a Swiss, was prison superintendent. In 1865 Wirtz was tried by a special military court and convicted of "maliciously, wilfully, and traitorously conspiring to injure the health and destroy the lives of soldiers confined at Andersonville and of murder in violation of the laws of war," and on November 10th was hanged.

The prison site and the tract of land where the bodies were interred has been converted into a national cemetery. It lies about half a mile northeast of the Georgia Central railway station of Andersonville. The cemetery proper contains five acres, is well kept and graced by many fine trees and beautiful shrubbery. Bodies of thousands of federal soldiers are buried here, the graves of the identified dead being marked with tablets. The majority died in the prison pen and, being too numerous for separate graves, were laid

in long trenches, but singly, side by side. The main entrance is on the west side of the cemetery, from which a well kept road about 1,800 feet in length and 50 feet wide runs through the government reservation and meets the Dixie highway. There have been erected in the cemetery nine handsome state monuments, namely: New York, New Jersey, Connecticut, Iowa, Illinois, Indiana, Maine, Pennsylvania and Minnesota, the last named having been dedicated on September 26, 1916. Its cost was \$16,000. The cost of the New York monument was \$25,000.

Of special interest is the tunnel, which may still be seen, through which 15 of the prisoners escaped; also Providence spring, which spring it is said was made by a bolt of lightning to give the soldiers water to drink.

*Americus, Ga. (pop. 12,000, alt. 36 ft.), is situated in a fertile agricultural region, whose important products are peaches, pecans, watermelons, cotton and corn. Whittle Peach orchard, just outside of the city, is said to be the largest orchard of the world, having 250,000 peach trees. Eleven miles north of Americus is Andersonville, where the famous civil war prison was located. (For full details regarding this prison see Andersonville points of interest.) Myrtle Springs, five miles northwest, is noted for its curative mineral waters. Among the city's educational institutes is the state agricultural college.

Follow the WEST BRANCH of the DIXIE HIGHWAY

Through Barnesville, Fort Valley, Americus, Albany, Camilla, Thomasville and Tallahassee. This is the most delightful and interesting route to Florida; thru the heart of Georgia's most fertile agricultural country. You will find excellent roads all the way over sand, clay, gravel and concrete highways.

This route also passes thru the center of the famous peach and pecan sections of Georgia. Some of the largest peach orchards in the world are found in Fort Valley directly on this route.

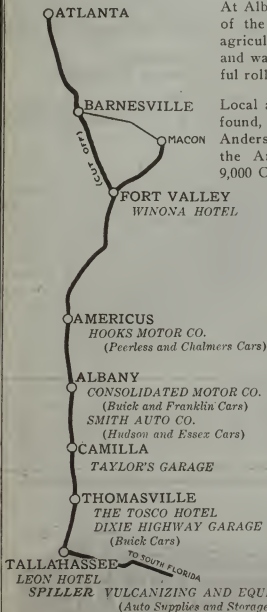

At Albany you will find the great center of the pecan growing industry. Other agricultural products such as cotton, corn and watermelons are found in the beautiful rolling hills of this section.

Local and historic points of interest are found, including the famous cemetery at Andersonville, where in Civil War days, the Andersonville prison was located. 9,000 Civil War veterans are buried here.

A few miles north of Americus is Souther Field Aviation Camp, designated by the Government recently, as a permanent aviation camp.

Excellent stopping points for the motor tourists can be found along the way at convenient points. The most desirable hotels and garages are listed on the map at the left. At all of these points you will find most modern accommodations and excellent food together with first class and reliable garage service for your car.

The entire distance from Atlanta to Tallahassee is only 279 miles. From here south into Florida you will find good highways and satisfactory accommodation. For further details on this trip write direct to any of the hotels or garages listed on this page.

 Right is Route 156 to Tallahassee.
 Left is Route 367 to Ocilla.
 Keep ahead on Broad St.

*Pelham, Ga. (pop. 3,000, alt. 355 ft.), on the Dixie highway, lies along the crest of a fertile ridge that traverses the state, with the land sloping away so gradually that it is hardly noticeable. It is said to be about the largest cantaloupe shipping point in the state. Watermelons, peanuts, corn, cotton and sugar cane are also raised here in very large quantities.

*Thomasville, Ga. (pop. 6,750, alt. 250 ft.), picturesquely situated on high ground overlooking the Ochlochnee river, is well known as a winter health resort. It has three large

hotels, many private estates and Paradise, Magnolia and McIntyre public parks. The private estates are owned by northern multi-millionaires and are marvels of beauty. They compare favorably with those on the Hudson. Thomasville has an extensive trade in lumber and is the largest wholesale brokerage center for yellow pine in the state. Its chief manufacturing interests are connected with the lumber industry. The Vashti home for girls and a normal school for negroes are located here.

*Opelika, Ala. (pop. 4,750, alt. 817 ft.), the county seat of Lee county, is 29 miles northwest of Columbus, Ga. It is chiefly a residential place and an important distributing center for the cotton of the very productive

cotton region in which it is located. Its industrial establishments include cotton mills, cotton gins, cotton compresses, cotton seed oil mills, fertilizer works, brick works and flour mills.

- 43.3 15.5 End of road at park, monument in center; jog left and half way around square, and keep ahead on Main St. (double drive).
43.6 0.3 Tuskegee,* Main & Montgomery Sts., RR ahead. Turn left onto Montgomery St. and follow Route 262 (from mileage 53.0 to 93.5) balance of way to
84.1 40.5 MONTGOMERY, court square. Court St., Dexter Ave. & Commerce St.

*Tuskegee, Ala. (pop. 3,000, alt. 310 ft.), is widely known as the seat of Tuskegee normal and industrial institute, founded and conducted by negroes. It was established 1881 by act of the legislature and with an appropriation of \$2,000 and opened with one teacher and 30 pupils. The endowment fund is \$1,945,326 and the total value of buildings and equipment is \$1,567,062, exclusive of 19,527 unsold acres of public land granted by act of congress in 1899 and valued at \$250,000. The object of the institute is "to give its students a thorough common school education, and at the same time to fit them by manual and industrial training to perform successfully some form of skilled labor." The courses of the institute are arranged in day and night institute are arranged in day and night schools. The day school is for those who can pay all or a part of their expenses; the night school for those who are unable to pay the small charges of the institution. The students in the day school have four school days per week, and are required to work 6 days per month. Those in the night school are allowed to work out all their board. The students in the day school are permitted to work out a maximum of \$3 per month on their

board, which is charged at \$8 a month. No student may be paid more than \$12 per month in excess of his board, and no part of his wages is paid in cash. The current annual expenses amount to \$200,000, or \$117 per capita. The mechanical departments provide instruction in 37 industries and the value of the products manufactured and sold exceeds \$100,000 annually.

The institute has graduated over 900 students, and more than 6,000 others have gone out from partial courses. The demand for the students as trained workers is such that not more than half the requests can be met. The institution maintains the Phelps Hall Bible training school for the benefit of those who desire to become ministers, missionaries or Sunday school teachers. Extensive work is carried on through the Tuskegee Negro conference, which has numerous branches, and through the short course in agriculture, farm demonstration work and traveling institutes for the benefit of farmers in the south. Booker T. Washington was principal of the institution from the time of its opening until his death in 1915, when he was succeeded by Major Robert R. Moton, commandant at Hampton institute.

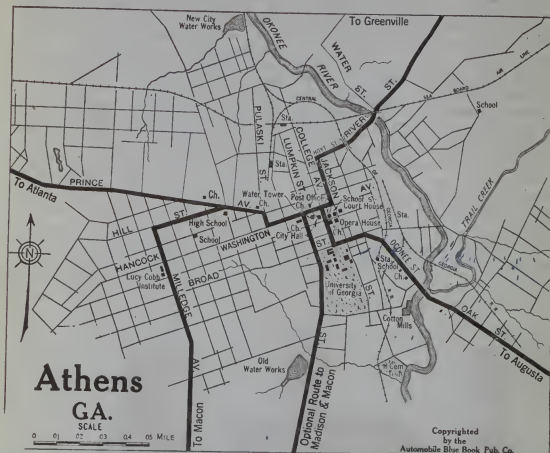

State Capitol, Baton Rouge, La.

Athens Section

POINTS OF INTEREST, ATHENS, GA.

Athens (pop. 20,000, alt. 694 ft.), one of the most beautiful cities in the south, is an important cotton market and contains several cotton mills, cottonseed oil and fertilizer plants, etc. The University of Georgia (the first state university) was opened here in 1801. The State college of agriculture, Lucy Cobb institute for girls and the State normal school are also located here. One of the

curiosities of the town is the "tree that owns itself." This celebrated tree is protected by a deed to it of 16 square feet of land by Col. William H. Jackson. The Oconee river, on which Athens is located, was the "frontier" under the treaty of 1760 between Governor Sir James Wright, Bart., and the Creeks and Cherokees.

Atlanta City Map and Points of Interest, page 308.

*Decatur, Ga. (pop. 6,000, alt. 1,019 ft.), lies half way between Atlanta and Stone mountain. From out the side of Stone mountain, Gutzon Borglun, the world renowned sculptor, has just recently carved the great confederate memorial. Tourists from Atlanta will find splendid roads thru Decatur to this—one of the so-called "seven wonders of the world."

Decatur was settled and incorporated in 1823, being named in honor of Commodore Stephen Decatur, renowned for his victories

in the war of 1812. Near here, on July 20, 1864, was fought the battle of Peachtree Creek, in which the confederates, under General Hood, unsuccessfully attacked a part of Sherman's army under Generals Thomas and Schofield.

The Agnes Scott college for women (Presbyterian) is located within the town limits and the Emory university for men (Methodist) and Oglethorpe college for men (Presbyterian) are just a few miles from Decatur.

*Anderson, S. C. (pop. 12,262, alt. 764 ft.), is the seat of Anderson college. It is the center of a cotton growing and agricultural district, and its industrial establishments include large cotton and cotton seed oil mills, employing thousands of persons. Anderson county, of which Anderson is the seat, ranks second in the U. S. in the production of cotton, and with the rapid development as a cotton market, Anderson has become one of the most rapidly growing cities in South Carolina.

James L. Orr, once governor of South Carolina, organizer of the Orr regiment of South

Carolina and ambassador to Russia under Grant, lived in Anderson. His old home still remains and his body lies buried in a local cemetery, tho he died in Russia.

A ladies' rest and writing room is maintained by the Anderson branch of the American Automobile Ass'n, in the Chamber of Commerce Bldg., 128 N. Main St., where tourists are welcome. J. J. Fretwell, owner of Sunset forest, a large country estate in the suburbs of Anderson, with a commodious lodge and one of the largest springs in the state also invites all tourists to visit his place.

*Union Point, Ga. (pop. 2,000, alt. 644 ft.), was given its name owing to the fact that when the Georgia railroad was being built here in 1830 the line from Augusta and the shorter one from Athens met here and for some time went no further. The first frame house erected in Greene county was built here by one of the Thorntons, whose descendants still own the land, granted by the crown. Here also was located the famous Wayside

home for confederate soldiers, where one and a quarter million meals were served free to the men of both armies passing thru the town during the civil war. A tiny hospital cared for the sick and wounded. Unfortunately this historic old inn was destroyed by fire a few years ago. Near Union Point is the famous Daniel spring, whose healing powers have been celebrated since the days of the Indians.

109.1 35.2 MACON, Mulberry, 2nd & Cotton Sts., court house on left.

*Milledgeville, Ga. (pop. 7,500, alt. 264 ft.), the geographical center of the state, is the principal city on the eastern branch of the Dixie highway between Atlanta and Savannah. In 1803 it was selected as the site for the permanent capital of Georgia, the streets were laid out and the state house begun. From 1807 to 1868 it served as the seat of the state government, but following the civil war, during the period known as the reconstruction days, a federal military governor moved the capital to Atlanta. The old capitol building and the governor's house, so associated with the great political battles in which the secession of the state of Georgia was the issue, and so vitally connected with Sherman's famous march to the sea, are intact

and are historic landmarks of our country's early days.

Milledgeville is now celebrated as the home of many of Georgia's state institutions. It is primarily an educational center and the site of the Georgia normal and industrial college, and the State college for women; also the Georgia military college, which has for its campus the beautiful grounds of the old state capitol. The state hospital for the insane, the largest institution of its kind under one management in the world, and the state prison farm, operated by 700 convicts, are other of its institutions. Good roads surround the city and lead to three of the large military cantonments, which are located in close proximity.

POINTS OF INTEREST, ATLANTA, GA.

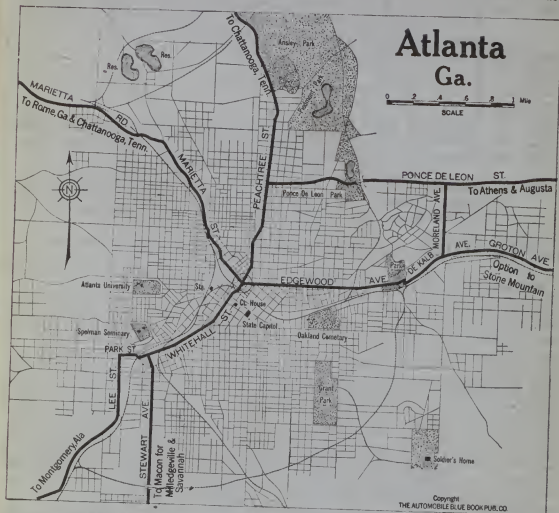

Atlanta (pop. 225,000, alt. 1,050 ft.), the capital of Georgia, lies near the foothills of the Blue Ridge mountains, on the Chattahoochee ridge, which divides the watershed of the Atlantic from that of the gulf of Mexico. It is on the National and Dixie highways and has 228 miles of paved roads covering an area of 26 square miles.

Atlanta is one of the important railroad centers of the south; in fact, it is the product of the railroads. The first settlement was made here in 1839 and called "Terminus," from its being the terminus of the Savannah-Macon line. In 1843 this settlement was incorporated as a village under the name of Marthasville. The coming of additional rail-

roads soon foreshadowed the business future of the place, and in 1847 it was incorporated as a city and its name was changed to Atlanta.

Today it is an important commercial center. Five hundred manufacturing plants in Atlanta make more than a thousand articles, which are carried to all parts of the world. Its mule market is the second in importance in the United States. The great cotton crop of this section, much of which goes to export, is largely financed thru Atlanta banks.

The capitol and public buildings are handsome and well adapted to requirements. The city possesses a fine public library, a fine geological collection and numerous educa-

tional institutions and churches. The Georgia school of technology, founded 1888, is located here, as are also the Atlanta university, founded 1869; Clark university (Methodist Episcopal), founded 1870, and Atlanta Baptist college, organized 1867.

The city has two large parks, Grant and Piedmont. In Grant park is located a cycloramic painting of the battle of Atlanta. Piedmont park was the site of the Atlanta exposition of 1895. The Peace monument stands in this park. Near the city is Fort McPherson, a government army post. Since America has entered the present war it has been used as a prison camp for German soldiers, a training camp for the officers' reserve corps and as the location of a great base hospital. Thirteen miles north of Atlanta at Chamblee is Camp Gordon, one of the sixteen permanent cantonments erected by the government. Other points of interest near the city are: Kennesaw mountain, the scene of a Civil war battle; Stone mountain, the largest solid rock in the world, on which a monument to the confederacy is to be carved; Camp Jessup, a mechanical repair unit; the federal penitentiary, and Lakewood, the site of the Southeastern fair association and of the Atlanta ostrich farm. The city has seven golf clubs, three of which rank with the best in the country. Climate permits playing all year around.

In the Civil war Atlanta was a confederate supply base, and an important strategic point, the objective of Sherman's march to the sea. General Sherman compared Atlanta to the

"wrist of a hand whose fingers reached the five principal ports of the gulf and South Atlantic coast." In 1864 the federal army came down from Chattanooga, and after fighting the battle of Peach Tree creek, July 20, closely surrounded the city. On July 22 the confederates under General Hood made a sanguinary but unsuccessful attack on Sherman's left under McPherson, who was killed in the battle. The federal loss was 20,000 and the confederate probably 1,500. This engagement, known as the battle of Atlanta, took place just southeast of the city.

On June 28 Hood again made an unsuccessful attack on Sherman at Ezra Church, west of the city, resulting in a loss of 600 to the federals and 4,500 to the confederates. Sherman, meantime, had from the beginning of the investment kept up a continual bombardment, and on September 1, after a siege of 42 days, he executed a flank movement that compelled Hood to evacuate.

The following day Sherman entered Atlanta and remained there till November 15, when he started for Savannah in continuance of his march to the sea. By Sherman's order, Atlanta was burned on the departure of the federal troops, but after the war it was quickly rebuilt and grew rapidly. In 1865 it became the seat of the military government of Georgia, and remained the capital during the reconstruction period. At the end of that time the capital was returned to Milledgeville, but by popular vote in 1877 Atlanta was again made the capital. The capitol building,

*Decatur, Ga. (pop. 6,000, alt. 1,019 ft.), lies half way between Atlanta and Stone mountain. From out the side of Stone mountain, Gutzon Borglum, the world renowned sculptor, has just recently carved the great confederate memorial. Tourists from Atlanta will find splendid roads thru Decatur to this—one of the so-called "seven wonders of the world."

Decatur was settled and incorporated in 1823, being named in honor of Commodore Stephen Decatur, renowned for his victories in the war of 1812. Near here, on July 20, 1864, was fought the battle of Peachtree Creek, in which the confederates, under General Hood, unsuccessfully attacked a part of Sherman's army under Generals Thomas and Schofield.

The Agnes Scott college for women (Presbyterian) is located within the town limits and the Emory university for men (Methodist) and Oglethorpe college for men (Presbyterian) are just a few miles from Decatur.

*Stone Mountain, Ga. (pop. 1,100, alt. 1,026 ft.). Here the Daughters of the Confederacy are preparing to memorialize the "Lost Cause" by a monument hewn on the sheer side of the mountain. The mountain is a unique geolog-

ical structure in itself, a single enormous boulder with a perpendicular face a thousand feet in height. It is proposed to transform this solid stone into a hall with columns hewn from the face without any resort to the builder's method of placing stone on stone. The facade will have three colossal figures, the central one being Robert E. Lee, who will be flanked by "Stonewall" Jackson and Joseph E. Johnston. Two wings of an army in action will come from the east and west behind the two figures, making a wonderful array of horse and foot soldiers, depicting the actual struggle, anguish and death of battle. The property has been donated to the Daughters of the Confederacy, and Gutzon Borglum, the famous sculptor, has been chosen to execute this remarkable piece of work. The cost of this immense undertaking has been estimated at two million dollars. The United States government has been asked to donate a large sum to make a national park at the foot of the mountain. The people of the south are enthusiastic over this idea, and when completed it will be a most fitting memorial to the great south of '64, built by the greater south of the present day.

 109.0 5.2 4-corners; turn right.

*Union Point, Ga. (pop. 2,000, alt. 644 ft.), was given its name owing to the fact that when the Georgia railroad was being built here in 1830 the line from Augusta and the shorter one from Athens met here and for some time went no further. The first frame house erected in Greene county was built here by one of the Thorntons, whose descendants still own the land, granted by the crown. Here also was located the famous Wayside

home for confederate soldiers, where one and a quarter million meals were served free to the men of both armies passing thru the town during the civil war. A tiny hospital cared for the sick and wounded. Unfortunately this historic old inn was destroyed by fire a few years ago. Near Union Point is the famous Daniel spring, whose healing powers have been celebrated since the days of the Indians,

*Fort Valley, Ga. (pop. 4,000, alt. 524 ft.), is located on the main line of the Central Georgia and Southern railways, enjoying transportation and freight facilities afforded cities twice its size. As the center of the famous "Georgia peach" industry and the largest shipping point for this fruit in the world, it

attracts thousands of people from all parts of the country, especially fruit buyers and their associates. During the fruit season the town just about doubled in population. Houston county, of which it is the principal city, produces over three million dollars' worth of peaches annually.

POINTS OF INTEREST, COLUMBUS, GA.

Columbus (pop. 50,000, alt. 260 ft.), the county seat of Muscogee county, is situated on the east bank of the Chattahoochee river at the head of navigation. There is steam-boat connection with Apalachicola, Fla. The river, which has here a fall of 120 feet in 3 miles, furnishes the city with a vast water power. Foundries, machine shops, cottonseed oil mills and some of the largest cotton and hosiery mills of the south are among the

city's industries.

As early as 1845 it possessed a cotton mill and was already an important cotton market. In 1846 it was nearly destroyed by fire. In 1853 the first iron foundry was built. During the civil war it was an important supply depot for the confederates. Its capture by the federal forces under Gen. Wilson, April 16, 1865, was the last battle of the civil war.

(Columbus Points of Interest concluded from page 317.)

Columbus has broad, handsome streets, which, in the original plan, were intended to be boulevards with parks down the center. Some of them partially carry out this idea. The Union passenger station is a fine building costing \$60,000. The Masonic Temple is one of the finest in the south, and the Y. M. C. A. building, faced with Georgia marble, is one of the most beautiful in the southern thorax and the first marble Y. M. C. A. building constructed.

It was the first of the southern Murat & adopted graded schools and manual laborers. Among its unique educational features.

It is a primary industrial school for children of the poorer wage-earners, with special provision for "little dinner carriers," i. e., children who carry dinner to parents at work. The cotton mill workers are all of the "poor white" class, and the mill villages, clubs and other elevating influences

provided for the improvement of their condition by the mill owners are interesting examples of social service work.

Practically all Columbus industries are operated by hydro-electric power, there being four dams across the Chattahoochee river at this point, developing nearly 50,000 horsepower.

Columbus is headquarters for the Dixie Overland highway association and Florida short route association. The Dixie Overland highway was conceived at Columbus during 1914, and it extends from Savannah, Ga., to San Diego, Cal., a distance of 2,600 miles.

Fort Benning, U. S. army infantry school for small arms, is located 8 miles south of Columbus.

Muscogee county is one of the leading counties in Georgia in the raising of hogs and cattle and diversified farming. It also boasts of splendid roads.

- 37.6 0.2 4-corners; turn left. Cross RR 37.7.

 CLUBS—Rotary Club.

*Tallahassee, Fla. (pop. 5,025, alt. 280 ft.), the capital of Florida, is beautifully situated among trees on a hill 280 feet above the sea. It is 26 miles north of the Gulf of Mexico, on the site of an old Indian settlement, the name of which meant "old field." It is laid out in rectangular blocks with fine shaded streets and is the seat of the Florida state college for women, the Florida agricultural and mechanical college for colored students, the Leon high school and several libraries. The chief buildings are the capitol, supreme court building and the court house. The Episcopal cemetery contains the graves of Prince Charles Louis Napoleon, Achilles Murat, son of the King of Naples, and his wife, who was a Virginia girl, a grandniece of George Washington. Murat relinquished his right to the throne of Naples and became a citizen of the United States. He was mayor of the city and did a great deal for its development. The Murat home is about two miles beyond Tallahassee.

Around Tallahassee are numerous other interesting and picturesque colonial plantation homes. Their gardens and those of Tallahassee are very beautiful, especially in the time of roses. Pleasant drives may be taken to Lake Jackson, a fishing place six miles dis-

tant that has an Indian legend, and to lakes Iamonia and Bradford. Old Fort San Luis is picturesque and interesting. At Newport, with its famous sulphur springs, Harriet Beecher Stowe wrote part of "Uncle Tom's Cabin." Natural Bridge is the place where the students of West Florida military academy (now the Florida state college for women) gallantly defended the state capital during the civil war. The freak stream of Lost river, Wakulla spring, the miraculous source of the Wakulla river, St. Mark's lighthouse, Panacea Mineral springs, Lake Lafayette, a part of the grant to General Lafayette by the U. S. government, the "Home of the Tallahassee Girl," the governor's mansion and the capitol, from which there is a magnificent view, are all interesting to tourists. The Hill City golf course is one of the most beautiful in the country.

Three famous transcontinental highways meet at Tallahassee—the Dixie highway, Old Spanish trail highway, connecting the Atlantic coast of Florida and the Pacific coast of California, and the North-and-South National Bee Line highway "Duluth to the Gulf," Tallahassee being the southeastern terminus of the latter highway and New Orleans the southwestern terminus.

Route 260—Columbus, Ga., to Dothan, Ala.—103.2 m.

Reverse Route 361.

Via Cottonton, Eufaula and Abbeville. Sand and sand-clay roads all the way, with a few short stretches of gravel. There are a number of long winding red-clay hills which will give trouble in heavy rains. Just after heavy rains the ford thru Three Mile Branch creek, just below Eufaula, is liable to be impassable. Tourists should make inquiry at Eufaula before crossing this ford.

*Dothan, Ala. (pop. 12,500, alt. 355 ft.), is an important commercial center for its section of the state. It is located in a most extraordinary strategic geographical position, being virtually in the corner of three states, Ala-

bama, Georgia and Florida. Its compressed cotton and fertilizer interests are extensive. The town was settled about 1885. It has several fine public buildings and is also noted for its excellent free schools.

- 53.0 0.4 Tuskegee,* Main & Montgomery Sts. (center of town at park ahead). Turn right onto Montgomery St. Pass Tuskegee

*Opelika, Ala. (pop. 4,750, alt. 817 ft.), the county seat of Lee county, is 29 miles northwest of Columbus, Ga. It is chiefly a residential place and an important distributing center for the cotton of the very productive cotton region in which it is located. Its industrial establishments include cotton mills, cotton gins, cotton compresses, cotton seed oil mills, fertilizer works, brick works and flour mills.

*Tuskegee, Ala. (pop. 3,000, alt. 310 ft.), is widely known as the seat of Tuskegee normal and industrial institute, founded and conducted by negroes. It was established 1881 by act of the legislature and with an appropriation of \$2,000 and opened with one teacher and 30 pupils. The endowment fund is \$1,945,326 and the total value of buildings and equipment is \$1,567,062, exclusive of 19,527 unsold acres of public land granted by act of congress in 1899 and valued at \$250,000. The object of the institute is "to give its students a thorough common school education, and at the same time to fit them by manual and industrial training to perform successfully some form of skilled labor." The courses of the institute are arranged in day and night schools. The day school is for those who can pay all or a part of their expenses; the night school for those who are unable to pay the small charges of the institution. The students in the day school have four school days per week, and are required to work 6

days per month. Those in the night school are allowed to work out all their board. The students in the day school are permitted to work out a maximum of \$3 per month on their board, which is charged at \$8 a month. No student may be paid more than \$12 per month in excess of his board, and no part of his wages is paid in cash. The current annual expenses amount to \$200,000, or \$117 per capita. The mechanical departments provide instruction in 37 industries and the value of the products manufactured and sold exceeds \$100,000 annually.

The institute has graduated over 900 students, and more than 6,000 others have gone out from partial courses. The demand for the students as trained workers is such that not more than half the requests can be met. The institution maintains the Phelps Hall Bible training school for the benefit of those who desire to become ministers, missionaries or Sunday school teachers. Extensive work is carried on through the Tuskegee Negro conference, which has numerous branches, and through the short course in agriculture, farm demonstration work and traveling institutes for the benefit of farmers in the south. Booker T. Washington was principal of the institution from the time of its opening until his death in 1915. He was succeeded by Major Robert R. Moton, commandant at Hampton institute.

Institute on right 53.6. Avoid right-hand diagonal road, brick store on left 54.0. Cross RRs 62.0-62.3. Keep ahead thru all intersections, crossing numerous small wooden bridges.

*Marietta, Ga. (pop. 7,000, alt. 1,118 ft.), occupies an elevated site $2\frac{1}{2}$ miles from Kennesaw mountain and is known as a winter resort for northerners and a summer resort for southerners. A National cemetery is located here containing 10,532 graves, of which 2,967 are of unknown dead. Two miles west of the city is Kennesaw mountain, where General Sherman was defeated by General Johnston, Sherman's only reverse in the Atlanta campaign. The federal loss was 2,500 and the confederate was placed at 808.

Marietta is the birthplace of Wm. G. McAdoo, ex-Secretary of the Treasury and son-in-law of President Wilson. The largest hosiery mill in the south is located here. Near Marietta occurred the hanging of Leo M. Frank at the hands of the mob on the morning of Aug. 17, 1915.

*Kennesaw, Ga. (pop. 600). Here was fought the great battle of Kennesaw Mountain, on June 27, 1864, in which the federals under Sherman were repulsed by the confederates under Johnston. It was the birthplace and early home of the well-known

Judge Kennesaw Mountain Landis of Chicago.

*Dalton, Ga. (pop. 7,000, alt. 774 ft.), was a point of strategic interest during the civil war. The Confederate General Joseph E. Johnston, who commanded the army for the defense of Atlanta, made his headquarters here during the winter of 1863-64, and the house in which he lived is still standing. A large monument of Johnston has been erected on one of the public squares. Several skirmishes occurred in and around Dalton, and the surrounding hills are covered with earth works and fortifications.

In 1541 De Soto and his cavaliers passed through Dalton, and an old fort built by them, still well preserved, may be seen on a high mountain just east of the city. John Howard Payne, author of "Home, Sweet Home," was brought to Dalton while a prisoner for having sympathized with the Indians while they were being removed by the U. S. government agents.

Dalton is at present the home of the Lesche club, one of the most distinguished clubs for women in Georgia.

- 92.5 11.6 Fork; bear left downgrade.

*Rome, Ga. (pop. 12,100, alt. 612 ft.), is picturesquely situated at the confluence of the Etowah and Oostanaula rivers, which here unite forming the Coosa. Both the Coosa and the Oostanaula rivers are navigable. Rome is the seat of Shorter college for women, a Baptist institution opened 1877. A boys' industrial school and three preparatory schools are also located here. It is the commercial center of the important agricultural district of its river valleys, and is a large peach and cotton market. It is also prominent as an industrial city. In 1863 General Forrest here defeated a federal force under General Streight. In May, 1864, when General Sherman was closing in on the confederates at Resaca, General Davis by his order attacked Rome. A severe contest ensued, resulting in

the withdrawal of the confederates and the Union occupation of the city, together with the capture of 10 guns, valuable iron works and machine shops and a large amount of public stores.

At Mount Berry on the Dixie highway, 2 miles northwest of Rome, is the Berry school, a Christian industrial school for country boys and girls of limited means. The boys' school is situated directly on the highway, while the girls' school stands back a mile in the foothills. In addition to this school there is the farm school, 5 miles back at the foot of the mountains. It occupies 200 acres, which the boys cultivate together until they earn enough to pay their tuition for one term in school.

- 93.6 1.1 Rossville, Ga., end of road. Turn right. Cross Georgia-Tennessee state line 93.7. Cross RRs 96.9-97.1.

 beyond same.

POINTS OF INTEREST, GADSDEN, ALA.

Gadsden (pop. 16,000, alt. 524 ft.) on the Forest, Alabama-Jackson and Florida Short route highways, is prettily situated at the foot of Mount Lookout along the Coosa river. It offers beautiful mountain and river scenery within a few minutes' drive from the city. Noccalula water falls, with a drop of 100 feet,

is but one mile distant and has an elevation of 1,100 feet. The Gadsden country club (now under construction) is two miles south of town. Steel mills, furnaces, cotton manufacturing, coal and iron mines, knitting mills and cast iron pipe shops are the principal industries.

78.6 8.1 Ohatchee, open square. Bear diagonally left thru square across RR, passing sta. on left.

*Piedmont, Ala. (pop. 3,500, alt. 704 ft.), is in a cotton growing district, situated at the intersection of Nausis Creek valley and Garken valley, both beautiful and fertile; it also lies at the base of a chain of low mountains, whence its name Piedmont, a contraction of the French words meaning "at the foot of the mountain." Around the town the old camping grounds of the Cherokee Indians are still discernible.

*Anniston, Ala. (pop. 20,000, alt. 1,000 ft.), is finely situated in the foothills of the Blue Ridge mountains, 63 miles northeast of Birmingham. The surrounding territory produces coal, iron, corn, grain and cotton in very large and important quantities, and Anniston is said to manufacture more cast iron pipe than any other city of the south. The town contains several beautiful churches, including St. Michael's and All Angels, and is the seat of the Alabama Presbyterian college for young men, Noble institute for young ladies, Barber memorial seminary, Anniston

female college and an industrial college for colored girls. In 1912 it was the scene of the field maneuvers of the national guard of eight southern states mobilized by the U. S. war department. About 5½ miles from Anniston on the Anniston-Jacksonville Alabama highway, is located Camp McClellan, one of the national guard cantonments, built to accommodate some 45,000 soldiers.

Oxford lake, about 3½ miles south of town, is an attractive place, offering boating, swimming and a fine place for picnicking. Coldwater Springs, 9 miles to the southwest, is a marvel in the way of a spring. It flows 33 million gallons of water every 24 hours, clear and sparkling. Anniston uses about 3 million gallons daily and Camp McClellan has been using about 5 million gallons.

There are several splendid runs out of Anniston on good roads thru picturesque country. Ample garage facilities and hotel accommodations will be found in and adjacent to this town.

 156.9 71.3 MONTGOMERY, court square, fountain on right.

Birmingham Section

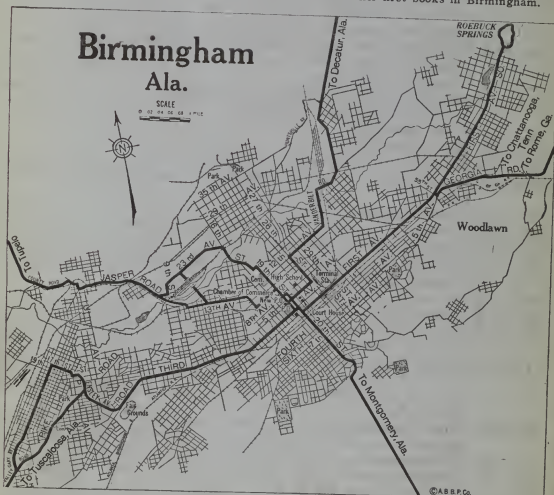

POINTS OF INTEREST, BIRMINGHAM, ALA.

Birmingham (pop. 231,000, alt. 606 ft.), the largest city in Alabama, is 97 miles north of Montgomery and near the geographical center of the state. It is situated in the very heart of a rich coal and iron mining district, which also produces heavy cotton crops, and to the industries arising from these natural products is due the wonderful prosperity of the city, whose vicinity and rapid growth are most remarkable. Upon the discovery of great deposits of coal, iron ore and limestone in Jefferson county, of which Birmingham is the seat, the Elyton land company laid off the city early in 1871 and named it after the iron and steel manufacturing city of England. By the end of the year the town had a population of 1,000. Its rapid growth was checked in 1873 by a terrible epidemic of cholera, but the city recovered speedily, and the period of maximum growth was from 1900 to 1910, when the gain in population was 245 per cent.

Red mountain, in close proximity to the city, contains almost inexhaustible deposits of hematite ore. Three-fourths of the entire iron output of Alabama is obtained from the Birmingham district. The city has numerous vast blast furnaces, rolling mills, steel works and other iron and steel working plants, including that of the U. S. Steel Corporation.

Its products and immense manufactures have made it an important rendezvous for manufacturers' agents.

Birmingham is very beautiful. Its public buildings are notable, particularly St. Vincent hospital and the Terminal railroad station, used by all roads except the Louisville & Nashville, and the Atlanta, Birmingham and Atlantic. The Louisville & Nashville also has a handsome station. Noteworthy among its office buildings are the First National bank, the Woodward, the Brown-Marx, the Empire, the Chamber of Commerce, the Title Guarantee, the Y. M. C. A., the Farley, the Jefferson county bank, from the top story of which a splendid panoramic view may be had, the American Trust & Savings bank and the Lyric building. The Hillman hospital, a county charitable institution, is also a prominent building. The city has beautiful parks and exceptionally good educational facilities. The Central high school is regarded as a model of its kind. Howard college, a Baptist co-educational institution, is situated at East Lake (a part of the city), and Birmingham college, under the auspices of the Methodist denomination, is on Owenton Heights. Miss Mary Johnston, author of "To Have and to Hold" and other well-known works, lived and wrote her first books in Birmingham.

*Bessemer, Ala. (pop. 25,000, alt 600 ft.), is the site of some of the largest coal and iron properties in this district and an important manufacturing center. It is located in a broad valley, on either side of which mountain ranges tower above it, on the east red ore mountains and on the west vast mountains of coal.

*Tuscaloosa, Ala. (pop. 12,000, alt. 230 ft.), at one time the capital of the state, is located on the Warrior river, recently made navigable by the U. S. government. It has many splendid old mansions, gardens and notable

buildings, including the old capitol building, courthouse and state insane asylum. It is also the seat of many institutions of learning, most prominent of which is the University of Alabama, situated about a mile north of the center of town. It was opened in 1831 and is considered one of the leading colleges of the south. Tuscaloosa is an important cotton shipping center and also owes much of its commercial supremacy to its coal and iron industries developed thru the Black Warrior region.

- 101.0 0.5 Fork of three roads; bear right on outer road. Avoid right-hand diagonal road 103.7.

Route 285—Birmingham, Ala., to Tupelo, Miss.—183.1 m.

Reverse Route 478.

Via Jasper, Carbon Hill, Eldridge, Winfield, Hamilton, Detroit and Amory. First 26 miles good gravel, some bumpy; 18 miles fair graded sand-clay to Jasper; 3 miles poor clay, some mud holes; 11 miles fair graded clay; 17 miles graded dirt and clay; 5 miles ungraded narrow sandy dirt; 9 miles fair to good graded clay and dirt to Winfield; 23 miles to Hamilton; 7 miles good gravel; 48 miles fair to good gravelly dirt and some sand-clay to Littleton, and 16 miles good stone road to Tupelo. Summary: 16 miles stone road; 56 miles gravel; 48 miles graded sand-clay and gravel; 5 miles sandy dirt; 55 miles graded clay and dirt (bad when wet); 3 miles poor clay, some bad holes.

The road is winding all the way, running thru a hilly wooded mining country to Carbon Hill, then thru wooded farming country to Hatley; balance over rolling farming country devoted principally to corn and cotton raising.

Connection can be made at Hamilton with Routes 493 to Columbus or 433 to Florence, and at Tupelo with routes to Memphis and Corinth.

 182.9.
 183.1 1.8 TUPELO, MISS., Main St. & Broadway, P. O. on right.
 Straight ahead is Route 287 to Oxford and Memphis.
 One block ahead and right on Green St. is Route 471 to Corinth.
 Left on Spring St. is Route 479 to Meridian.

*Jasper, Ala. (pop. 3,000, alt. 320 ft.), the county seat of Walker county, is 35 miles northwest of Birmingham, on the Alabama Central, the St. Louis & San Francisco, the Illinois Central and the Northern Alabama

railroads. It is in the center of a district possessing a rich coal field and a fertile soil adapted to cotton growing and general agriculture. It has large saw mills, coke ovens and some manufactures.

Route 287—Tupelo, Miss., to Memphis, Tenn.—129.2 m.

Reverse Route 477.

Via Pontotoc, Toccopola, Oxford, Independence and Olive Branch. Four and six tenths miles good gravel; 5.7 miles fair graded dirt and clay; 5 miles good sand-clay; 4 miles good gravel to Pontotoc; from Pontotoc there are 4 miles good gravel; 10.5 miles fair sand-clay to Toccopola; from Toccopola 12.7 miles fair graded dirt and 10 miles fair sand-clay to Oxford; from Oxford 53.5 miles winding fair sand-clay; 5.8 miles gravel, and 14.5 miles macadam to Memphis. Summary: 14.5 miles macadam; 17.3 miles gravel; 70 miles fair sand-clay, and 18.4 miles graded dirt.

The road winds thru hilly farming country, with some wooded section, to Olive Branch, then thru level and rolling farming country to Memphis. The land is badly washed and the road skirts ravines. Caution should be used in driving as curves are hidden by brush. The road, tho crossing two swamps, is good and the bridges are fair. Farms in this community are devoted principally to the raising of cotton and corn.

An option from Oxford to Memphis is via Route 396. This is a longer but much better road, except for 1.5 miles thru river bottom outside Oxford. It is better to use in dry weather as it is not so winding as Route 287. Inquire at Oxford about river bottom, as it may have been put in good shape by fall. (Impassable when wet.)

A new road is being built from Tupelo to Holly Springs via New Albany which will not be finished until 1920.

*Cullman, Ala. (pop. 4,500, alt. 802 ft.), the county seat of Cullman county, is situated on a plateau 1,000 feet above sea level, on the North and South Bee line highway. It was originally a German settlement, having been founded in 1873 by John G. Cullman; it still has about 600 German families. The town is remarkable for having no negroes. The Southern Cotton Oil company has one of its largest plants here. Among the noteworthy buildings are the new passenger station costing \$15,000; the high school, one of the handsomest buildings of its class in the

state; St. Bernard college, a noted institution for boys; Sacred Heart academy, a well known school for girls, and the Alabama Odd Fellows' home, which conducts a school for the children of the home. St. Bernard college has students from every state in the Union, and, with the Sacred Heart academy, represents an outlay of over half a million dollars. The first two units only are at present in operation. The completed institutions as planned will represent an investment of between four and five million dollars.

*Pulaski, Tenn. (pop. 5,000, alt. 643 ft.), the county seat of Giles county, is situated on Richland creek, 81 miles southwest of Nashville. The surrounding district is productive and devoted to agriculture and stock raising. The town is well built with a central square in which stands the handsome courthouse, and is the seat of Martin female college and the Massey school for boys.

*Columbia, Tenn. (pop. 5,775, alt. 656 ft.), is situated on Duck river, 49 miles southwest of Nashville. It is the seat of a United States Arsenal, a military academy, and the Columbia institute for young ladies. The courthouse, the Columbia Athenæum, public library and hospital are noteworthy buildings. The former home of President Jas. R. Polk, still standing, is of historic interest. The town is surrounded by a fertile agricultural region and is an important grain center and one of the largest individual mule markets in the world. It also possesses large

phosphate interests.

*Franklin, Tenn. (pop. 4,000, alt. 842 ft.), is on the Harpeth river, twenty miles southwest of Nashville. The Battle Grounds academy, opened 1902, is located here. The town was settled 1792. Its historical prominence begins with the civil war. Here, April 10, 1863, the confederates, under General Van Dorn, attacked the union forces under General Granger and were repulsed; and here, on November 30, 1864, occurred the sanguinary battle of Franklin between the union forces, 25,000 strong, under General Schofield, and the confederate army, numbering 40,000, under General Hood. The confederates attacked and were repulsed with a loss of over 6,000; the federal loss was 2,336. The battle is noted for the remarkable gallantry of the confederates and the stubborn resistance of the federals. There is a confederate monument and confederate cemetery at Franklin. Fort Granger is also located here.

 2.8 1.2 3-corners; bear left. Cross concrete bridge 2.9.

*Huntsville, Ala. (pop. 18,900, alt. 800 ft.), situated in the fertile Tennessee valley, is surrounded by a large cotton, fruit and stock-raising district. Madison county, of which it is the capital, produced nearly 13 million dollars in farm products last year. As a cotton manufacturing center the city is second only to Lowell, Mass., having ten mills with 203,000 spindles and 4,374 looms. In the vicinity are deposits of coal, iron and marble. Among the educational institutions are a state normal and industrial school and the Goodrich training school. Four miles north of the city is the Alabama agricultural and mechanical

college for negroes. In the center of the city is the famous Big Spring, which furnishes the water supply of the city. Its capacity is 24 million gallons daily. At Mussel Shoals, not far distant, is the great government hydroelectric development, where 640,000 electric power will be developed at a cost of about 4 mills per horse power.

The first constitutional convention of the state met in Huntsville in July, 1819, and framed the Alabama constitution, and here the first legislature assembled in August, 1820, Huntsville for a time being capital of the state.

***Rome, Ga.** (pop. 12,100, alt. 612 ft.), is picturesquely situated at the confluence of the Etowah and Oostanaula rivers, which here unite, forming the Coosa. Both the Coosa and the Oostanaula rivers are navigable. Rome is the seat of Shorter college for women, a Baptist institution opened 1877. A boys' industrial school and three preparatory schools are also located here. It is the commercial center of the important agricultural district of its river valleys, and is a large peach and cotton market. It is also prominent as an industrial city. In 1863 General Forrest here defeated a federal force under General Streight. In May, 1864, when General Sherman was closing in on the confederates at Resaca, General Davis by his order attacked Rome. A severe contest ensued, resulting in

the withdrawal of the confederates and the Union occupation of the city, together with the capture of 10 guns, valuable iron works and machine shops and a large amount of public stores.

At Mount Berry on the Dixie highway, 2 miles northwest of Rome, is the Berry school, a Christian industrial school for country boys and girls of limited means. The boys' school is situated directly on the highway, while the girls' school stands back a mile in the foothills. In addition to this school there is the farm school, 5 miles back at the foot of the mountains. It occupies 200 acres, which the boys cultivate together until they earn enough to pay their tuition for one term in school.

"What to Take on the Tour"

You will find helpful suggestions in the *Orange* insert, center of Book. The equipment and accessories listed in this section have all been carefully investigated. We recommend them as reliable.

- 12.3 0.1 Greenport Ferry across Coosa river.
Ferry runs from sunrise to sunset—charges, 75c.
Leaving ferry, keep ahead.
- 13.4 1.1 4-corners; turn right. Caution for low spot 15.2.
- 17.5 4.1 4-corners; turn square right.
- 18.9 1.4 Ohatchee, open square beyond RR. Bear left thru square, curving right at farther side of same. Cross iron bridge over Ohatchee creek 19.3.

- 27.1 1.1 Alexandria, 4-corners. Turn square right across concrete bridge. Cross RR 27.5-29.0.
- 29.5 2.4 Right-hand road, wooden house on left; turn square right. Cross iron bridge 30.0.
- 31.1 1.6 End of road, beyond RR; turn left.
- 34.6 3.5 4-corners, beyond RR; turn right with travel.
- 34.9 0.3 Left-hand road at RR; turn left across RR.
- 35.5 0.6 Anniston,* end of road at edge of town.
GARAGE—The Bosworth Garage, 11th & Wilmer Ave.
SERVICE STA.—United States Tire Sales & Service Depots located here.
Center of town to right one mile.
- Meeting trolley, turn left onto Noble St. Road is direct for several miles.
- 39.1 3.6 Fork, at Camp McClellan; keep left, passing barracks on right. Avoid left-hand road 41.0.
- 41.4 2.3 Fork; beyond small concrete bridge, bear left. Avoid left-hand road 45.4.
- 46.1 4.7 Jacksonville, monument in green. Curve right and left half way around green and continue ahead (east). Cross RR 46.4-47.9-48.2-48.9-49.8. Pass Merrellton Sta. on left 50.1. Recross RR 50.2. Cross RR at Maxwellborn 51.4. Cross RRs 52.4-58.5.
- 59.1 13.0 Piedmont.* Straight thru, passing P. O. on right.
GARAGES—Geo. E. Barlow's Ford Garage.
- 59.5 0.4 Fork, large factory on right; bear right. Cross switch 59.6, bearing right across wooden bridge just beyond.
- 59.8 0.3 Left-hand diagonal road, farm house on left; bear left.
- 61.8 2.0 Fork; bear left with travel across RR, and right at fork just beyond. Avoid left-hand diagonal road 62.7.
- 63.8 2.0 Fork; bear right with travel.
- 64.2 0.4 Spring Garden, sta. on right. Keep ahead along RR.

*Anniston, Ala. (pop. 20,000, alt. 1,000 ft.), is finely situated in the foothills of the Blue Ridge mountains, 63 miles northeast of Birmingham. The surrounding territory produces coal, iron, corn, grain and cotton in very large and important quantities, and Anniston is said to manufacture more cast iron pipe than any other city of the south. The town contains several beautiful churches, including St. Michael's and All Angels, and is the seat of the Alabama Presbyterian college for young men, Noble institute for young ladies, Barber memorial seminary, Anniston female college and an industrial college for colored girls. In 1912 it was the scene of the field maneuvers of the national guard of eight southern states mobilized by the U. S. war department. About 5 1/5 miles from Anniston on the Anniston-Jacksonville Alabama highway, is located Camp McClellan, one of the national guard cantonments, built to accommodate some 45,000 soldiers.

Oxford lake, about 3 3/4 miles south of town,

is an attractive place, offering boating, swimming and a fine place for picnicking. Cold-water Springs, 9 miles to the southwest, is a marvel in the way of a spring. It flows 33 million gallons of water every 24 hours, clear and sparkling. Anniston uses about 3 million gallons daily and Camp McClellan has been using about 5 million gallons.

There are several splendid runs out of Anniston on good roads thru picturesque country. Ample garage facilities and hotel accommodations will be found in and adjacent to this town.

*Piedmont, Ala. (pop. 3,500, alt. 704 ft.), is in a cotton growing district, situated at the intersection of Nausis Creek valley and Garken valley, both beautiful and fertile; it also lies at the base of a chain of low mountains, whence its name Piedmont, a contraction of the French words meaning "at the foot of the mountain." Around the town the old camping grounds of the Cherokee Indians are still discernible.

- 64.5 0.3 Fork; bear left. Cross RR 69.8.
 69.9 5.4 Rock Run, Ala., right-hand road, iron furnace on right. Turn right.
 70.2 0.3 End of road, church and school on left; bear left. Cross Alabama-Georgia state line 75.1.
 76.6 6.4 Hayney, Ga., end of road, store on right. Turn right. Cross RR 81.3.
 81.7 5.1 Cave Spring, at P. O. and store. Turn left.
 HOTELS—Cave Spring Hotel, opp. Park.
 84.3 2.6 End of road beyond iron bridge; bear right.
 89.3 5.0 Fork; bear right with travel. Cross RR 91.4.
 96.3 7.0 End of road, store on right; turn left with trolley. Avoid all left-hand streets, keeping ahead with trolley on Broad St. Cross RR 97.4.

It occupies 200 acres, which the boys cultivate together until they earn enough to pay their tuition for one term in school.

Stone Mountain, Near Atlanta, Ga.

limits of Montgomery for white and negro children. The Sidney Lanier high school is pronounced by educators to be one of the best equipped in every respect, and the people of the city are very proud of it.

Situated on a hill at the head of Dexter Ave. is the capitol building. Here the Secession Convention was held and on the portico of this building Jefferson Davis was inaugurated President of the Confederate States, the spot where he stood being marked with a brass tablet. The department of archives and history is in the north wing of the capitol. The museum and art gallery is most interesting. To the north of the capitol building is the confederate monument. In the Winter building, at the foot of Dexter avenue, is the room from which the order was issued to fire on Fort Sumter, the beginning of the civil war. On the corner of Bibb and Lee Sts., 3 blocks southwest of Court square, is the confederate "white house," the home of the presidents. On the corner of Commerce and Bibb Sts. stands the house in which the confederate cabinet held its meetings. There is scarcely a street in Montgomery that has not some historical point of interest.

Camp Sheridan, very active during the late world war, is located just outside the city limits. About 30,000 or more Ohio troops were encamped there.

Montgomery county has the distinction of

having built more hard surfaced roads than any other county south of the Ohio river, 652 miles in all. Numerous concrete bridges contribute to the excellence of the highways leading out from Montgomery in every direction.

A trip down the Alabama river from Montgomery to Mobile is most interesting and beautiful.

The "loop" is a popular trip out of Montgomery, traversing the richest section of the famous Black Belt of Alabama. Jackson's lake, 9 miles distant, and Whetstone lake, 8 miles from the city, furnish excellent fishing. Oak park, consisting of 36 acres, and Pickett springs, 3 miles north of Montgomery, are the local playgrounds. Two country clubs (the Montgomery and the Woodey) with excellent golf links are within three to four miles of the center of the city, near the Woman's college, on the edge of the fashionable residence district. Oakwood and Greenwood cemeteries, the resting place of many statesmen of the south; Fort Toulouse, 14 miles from Montgomery, and the battlefield of Horseshoe Bend, 40 miles distant, are other points of historic interest.

On Court square, the business center of the city, a bureau of information is maintained (open 7 a. m.-12 p. m. every day in the year) with polite attendants to answer all questions.

 34.0 9.1 3-corners; bear left.

*Anniston, Ala. (pop. 20,000, alt. 1,000 ft.), is finely situated in the foothills of the Blue Ridge mountains, 63 miles northeast of Birmingham. The surrounding territory produces coal, iron, corn, grain and cotton in very large and important quantities, and Anniston is said to manufacture more cast iron pipe than any other city of the south. The town contains several beautiful churches, including St. Michael's and All Angels, and is the seat of the Alabama Presbyterian college for young men, Noble institute for young ladies, Barber memorial seminary, Anniston female college and an industrial college for colored girls. In 1912 it was the scene of the field maneuvers of the national guard of eight southern states mobilized by the U. S. war department. About 5 1/5 miles from An-

niston on the Anniston-Jacksonville Alabama highway, is located Camp McClellan, one of the national guard cantonments, built to accommodate some 45,000 soldiers.

Oxford lake, about 3 1/4 miles south of town, is an attractive place, offering boating, swimming and a fine place for picnicking. Cold-water Springs, 9 miles to the southwest, is a marvel in the way of a spring. It flows 33 million gallons of water every 24 hours, clear and sparkling. Anniston uses about 3 million gallons daily and Camp McClellan has been using about 5 million gallons.

There are several splendid runs out of Anniston on good roads thru picturesque country. Ample garage facilities and hotel accommodations will be found in and adjacent to this town.

- 34.4 0.4 Tallassee. Straight thru downgrade. Cross long iron bridge 34.9. Thru East Tallassee, P. O. on left 35.3.

- 115.5 1.1 Lagrange,* Broad & Main Sts., court house on right. Keep ahead on Broad St.
- 115.6 0.1 Cross RR and at left-hand diagonal street just beyond; bear left onto Hill St. Over RR bridge 116.6.
- 116.7 1.1 Fork at sign "Atlanta"; bear right under high tension line 117.6. Thru covered wooden bridge 120.1.
- 122.0 5.3 Louise, sta. on right. Straight thru along RR.
- 125.9 3.9 Turn right across RR and left immediately beyond. Pass large water tower over to right 128.1.
- 128.3 2.4 Hogansville, end of road, bank on left. Turn left and immediately right, passing sta. on left.
- 128.6 0.3 Fork; bear right.
- 128.8 0.2 4-corners; turn left across RR and right along same. Cross iron bridge 129.1. Curve right and left, recrossing RR 129.7, and again 130.7. Avoid road to right, which crosses RR 132.2.

*Lagrange, Ga. (pop. 17,000, alt. 729 ft.), is the seat of the Southern female college and Lagrange female college, both established more than seventy years ago. One mile west of Lagrange on the Atlanta-to-Montgomery highway are the beautiful old gardens developed by the late Mrs. Blount C. Ferrell. The estate is now the property of Mr. Fuller F. Callaway, who is continuing the gardens along their original lines. They are remark-

able for the wealth of old boxwood in attractive designs. Visitors are always welcome, the only conditions being that the flowers and shrubbery be not injured. At the north end of McLendon avenue is the home of Senator Benjamin Harvey Hill, who played such an important part in the history of the nation prior to and during the civil war.

- 134.8 6.0 Grantville, right-hand road. Turn right.
 134.9 0.1 Cross RR and turn left just beyond. Pass between two cemeteries 135.3.

- 69.1 0.1 End of road at cotton mill; turn left onto First Ave. Cross RR 69.7.

*Tuskegee, Ala. (pop. 3,000, alt. 310 ft.), is widely known as the seat of Tuskegee normal and industrial institute, founded and conducted by negroes. It was established 1881 by act of the legislature and with an appropriation of \$2,000 and opened with one teacher and 30 pupils. The endowment fund is \$1,945,326 and the total value of buildings and equipment is \$1,567,062, exclusive of 19,527 unsold acres of public land granted by act of congress in 1899 and valued at \$250,000. The object of the institute is "to give its students a thorough common school education, and at the same time to fit them by manual and industrial training to perform successfully some form of skilled labor." The courses of the institute are arranged in day and night schools. The day school is for those who can pay all or a part of their expenses; the night school for those who are unable to pay the small charges of the institution. The students in the day school have four school days per week, and are required to work 6 days per month. Those in the night school are allowed to work out all their board. The students in the day school are permitted to work out a maximum of \$3 per month on their board, which is charged at \$8 a month. No

student may be paid more than \$12 per month in excess of his board, and no part of his wages is paid in cash. The current annual expense amounts to \$200,000 or \$117 per capita. The mechanical departments provide instruction in 37 industries and the value of the products manufactured and sold exceeds \$100,000 annually.

The institute has graduated over 900 students, and more than 6,000 others have gone out from partial courses. The demand for the students as trained workers is such that not more than half the requests can be met. The institution maintains the Phelps Hall Bible training school for the benefit of those who desire to become ministers, missionaries or Sunday school teachers. Extensive work is carried on through the Tuskegee Negro conference, which has numerous branches, and through the short course in agriculture, farm demonstration work and traveling institutes for the benefit of farmers in the south. Booker T. Washington was principal of the institution from the time of its opening until his death in 1915. He was succeeded by Major Robert R. Moton, commandant at Hampton institute.

 18.4 3.1 Edison. Straight thru.
 21.3 2.9 4-corners; turn left. Caution for RR 23.6. Cross RRs 34.5-
 37.9.
 Left on Progress St. at 38.4 is Route 44 to Macon.
 38.7 17.4 Hawkinsville, at soldiers' monument, court house on near
 right. Straight thru (south) on Commerce St.
 Right on Jackson St. at 38.8 is Route 230 to Waycross.
 Cross RR 38.9 and long iron bridge over Ocmulgee river just
 beyond.
 39.3 0.6 Fork, wooden store on right; bear left across switch.
 39.6 0.3 Fork, beyond RR; bear right. Avoid right-hand road 40.9.
 43.4 3.8 Fork, school in center; bear right. Cross RRs 47.8-48.8.
 48.9 5.5 Cochran, brick school on far right. Straight thru. Ignore

sign "Savannah" at brick church 49.0. Avoid left-hand diagonal road 54.9.

67.0 18.1 End of road, barn on left.

Sharp left is Route 185 at mileage 146.3 to Macon.

Turn right, passing farm house on left just beyond and follow Route 228 (from mileage 44.1 to 190.4) balance of the way to

213.3 146.3 SAVANNAH, Liberty & Bull Sts.

Route 312—Montgomery, Ala., to Bainbridge, Ga.—179.8 m.

Reverse Route 171.

Via Troy, Dothan and Donalsonville. First 30 miles gravel; balance clay and dirt, sand-clay and sand and dirt roads. Summary: 90.3 miles sand-clay; 25.8 miles of sand-dirt; 25.4 miles clay and dirt; 30.1 miles gravel. Thru rolling farming country.

Note—A bridge will be built across the Chattahoochee river to replace the ferry mentioned below. Make inquiries about this at Dothan, and if bridge is not completed follow Note (a) on Route 369 to Blakely, crossing river on bridge at Columbia, and then Route 259 to Bainbridge. In wet weather the following route is preferable even though the ferry is still in use.

At Montgomery make inquiry for best road to Orion. A new road is said to be in use between these two points.

For this and other exits see City Map, page 356.

- 151.9 0.9 Jakin, Ga., stores on right. Straight thru.

*Dothan, Ala. (pop. 12,500, alt. 355 ft.), is an important commercial center for its section of the state. It is located in a most extraordinary strategic geographical position, being virtually in the corner of three states, Ala-

bama, Georgia and Florida. Its compressed cotton and fertilizer interests are extensive. The town was settled about 1885. It has several fine public buildings and is also noted for its excellent free schools.

Dothan

Nashville Spend a Day in the Fifth City of ALABAMA

THE METROPOLIS OF THE CHATTAHOOCHEE RIVER VALLEY

DOTHAN is a logical stopping point and objective for the tourist. It is a thriving and progressive city of 12,000, the seat of Houston County and the wholesale center of southeastern Alabama, with four railroad centers. The immediate surrounding country produces practically everything grown in the Gulf States.

DOTHAN has markets for everything—agriculture, stock raising particularly. It possesses two canneries, a grain elevator, feed mills, peanut oil plants—a syrup refinery—a pickling station and other thriving industries. It holds the world's record in peanut production—216 bushels per acre.

30.0 0.3 6-corners; bear left across RR.

30.7 0.7 Left-hand road; turn left with travel.

*Tallahassee, Fla. (pop. 5,025, alt. 280 ft.), the capital of Florida, is beautifully situated among trees on a hill 280 feet above the sea. It is 26 miles north of the Gulf of Mexico, on the site of an old Indian settlement, the name of which meant "old field." It is laid out in rectangular blocks with fine shaded streets and is the seat of the Florida state college for women, the Florida agricultural and mechanical college for colored students, the Leon high school and several libraries. The chief buildings are the capitol, supreme court building and the court house. The Episcopal cemetery contains the graves of Prince Charles Louis Napoleon, Achilles Murat, son of the King of Naples, and his wife, who was a Virginia girl, a grandniece of George Washington. Murat relinquished his right to the throne of Naples and became a citizen of the United States. He was mayor of the city and did a great deal for its development. The Murat home is about two miles beyond Tallahassee.

Around Tallahassee are numerous other interesting and picturesque colonial plantation homes. Their gardens and those of Tallahassee are very beautiful, especially in the time of roses. Pleasant drives may be taken to Lake Jackson, a fishing place six miles distant that has an Indian legend, and to lakes Iamonia and Bradford. Old Fort San

Luis is picturesque and interesting. At Newport, with its famous sulphur springs, Harriet Beecher Stowe wrote part of "Uncle Tom's Cabin." Natural Bridge is the place where the students of West Florida military academy (now the Florida state college for women) gallantly defended the state capital during the civil war. The freak stream of Lost river, Wakulla spring, the miraculous source of the Wakulla river, St. Mark's lighthouse, Panacea Mineral springs, Lake Lafayette, a part of the grant to General Lafayette by the U. S. government, the "Home of the Tallahassee Girl," the governor's mansion and the capitol, from which there is a magnificent view, are all interesting to tourists. The Hill City golf course is one of the most beautiful in the country.

Three famous transcontinental highways meet at Tallahassee—the Dixie highway, Old Spanish trail highway, connecting the Atlantic coast of Florida and the Pacific coast of California, and the North-and-South National Bee Line highway "Duluth to the Gulf," Tallahassee being the southeastern terminus of the latter highway and New Orleans the southwestern terminus.

*Monticello, Fla. (pop. 1,850, alt. 250 ft.), the county seat of Jefferson county, is on the shore of Lake Miccosukee. It is a winter resort with good dirt roads in the neighborhood.

POINTS OF INTEREST, PENSACOLA, FLA.

Pensacola (pop. 31,000, alt. 12 ft.), is situated on the north shore of Pensacola bay about 6 miles from the gulf of Mexico and 50 miles southeast of Mobile. It has a large, deep, land-locked harbor, with 33 feet of water over the bar at low tide, and is an important port with steamer connection with many points in the eastern hemisphere. The entrance to the harbor is defended by Forts Pickens, McRae and Barrancas. The old Spanish Fort San Carlos built by the explorer Don Andres de Arriola in 1696, is still standing not far from Fort Barrancas. Near Fort San Carlos and connected with it by an underground passage are the ruins of Fort Redoubt constructed by the confederate

forces in the civil war. San Bernardino is another old Spanish fort still standing and the ruins of the English Fort St. George are also interesting. The United States navy yard is a feature of general interest. For improving the navy yard and the city docks the engineers of the Panama canal have recommended an expenditure of \$5,000,000.

Pensacola is the seat of a United States naval hospital and a United States tuberculosis camp. The United States naval aeronautic school is at Warrington, seven miles to seaward from the city. Pensacola bay is the winter rendezvous of the United States submarine flotilla and the reserve tor-

pedo fleet. Among the more notable buildings of the city are the handsome federal building, the city hall, the county court house, the state armory, the state arsenal and the public library.

Pensacola was first permanently settled by the Spaniard Luna and his compatriots from Vera Cruz. It was captured by the French in 1719, and restored to Spain in 1723. By the Treaty of Paris, which terminated the French and Indian war in 1763, Pensacola with West Florida was ceded to the British. Dan Bernardo Galvez, governor of Louisiana, captured it in his campaign against the English in 1781, and by the treaty the territory was restored to Spain in 1783. In the war of 1812 Spain consented to the occupation of

West Florida by the English and General Andrew Jackson captured the town to prevent its occupation by that nation. It was restored to Spain at the close of the war of 1812, but in 1818 General Jackson again seized it because of Spain's encouragement of the attacks of the Seminole Indians. In 1819 Pensacola passed to the United States with its purchase of West Florida, but the United States in pursuance of the terms of the treaty did not take formal possession until 1821. At the outbreak of the civil war in 1861 the confederates seized the navy yard at Pensacola, but being unable to capture Fort Pickens, were forced to evacuate the city. In 1864 the city suffered from a very destructive fire.

Route 321—Andalusia to Mobile, Ala.—136.5 m.

- 48.2 10.9 End of road at RR; turn left along same.

Right at this turn is Route 160 at mileage 5.8 to Pensacola.
Left on 9th St. is Route 369 to Dothan.

54.0 5.8 DE FUNIAK SPRINGS,* Baldwin Ave. & 8th St., bank on left.

HOTELS—New Walton.

GARAGES—R. C. Walden Auto Co.

INF. BUREAU—R. E. L. McCaskill Co., McCaskill Block.

Straight ahead is Route 365 to Bainbridge.

*Fairhope, Ala. (pop. 600, alt. 50 ft.), is a delightful home and resort town, which was established in 1895 by a unique organization, known as the "Fairhope Single Tax Colony." The land is not sold, but leased for 99 years. The rents collected are then used to pay all taxes on the improvements made by lessees, and upon their personal property, as well as on the land itself. The remainder is then used for the benefit of the settlers.

*De Funiak Springs, Fla. (pop. 2,050, alt. 320 ft.), the county seat of Walton county, is 20 miles from the Gulf of Mexico and 16 miles from Freeport, on Choctawhatchee bay, thus affording easy access to unexcelled fishing. It is on the main line of the Louisville & Nashville railroad, has a magnificent hotel and has been a winter resort for many years.

The spring itself is 1 mile in circumference and 84 feet deep. It is very attractive for bathing and boating and the park around it (208 acres) is very beautiful. The city now contemplates building in the park a Liberty building, including boat house facilities. The town is the seat of the Florida Chautauqua, which holds its annual session in February and March. It is noted as an educational center, having Palmer college, Thomas industrial institute and a most excellent high school. It is located on the "Spanish trail" with good roads thruout the county, soon to be improved by an estimated expenditure by the joint county, state and federal funds of three-quarters of a million dollars. Valparaiso and Camp Walton can be reached from De Funiak Springs by good hard road.

POINTS OF INTEREST, SELMA, ALA.

Selma (pop. 20,000, alt. 147 ft.) was one of the last strongholds of the confederacy to fall, the business district having been burned by the invading of federal army, led by General Wilson, on April 2, 1865. Here were located large arsenal and navy yards. The city was founded in 1815 by William Rufus King, afterwards vice president of the United States, whose remains are buried here. The first capital of the state of Alabama was at Cahaba, eight miles southeast of Selma.

The city is situated on the north bank of the Alabama river which is navigable at all

seasons. Many automobile tourists break their trip between the north and gulf coast by using the steamer between Selma and Mobile and thereby enjoy some splendid river scenery. The roads radiating from Selma are all highly improved and go thru the richest farming section of Alabama. The city is a jobbing center for a large and prosperous agricultural region and has a number of manufactories, which are peculiar to the agricultural sections. It is also a railroad center and has large railway shops.

SERVICE STA.—United States Tire Sales & Service Depots located here.

Route 325—Selma to Thomasville, Ala.—84.3 m.

Reverse Route 349.

Via Safford, Thomaston, Linden and Dixons Mills. First 30 miles gravel; next 24 miles sand, clay and graded dirt, followed by 5 miles of gravel; balance clay, sand-clay and sandy dirt. Thru hilly, wooded farming country. This route should not be attempted in extremely wet weather.
Route 326 offers a better and much shorter option.

- 0.0 0.0 SELMA, Broad & Selma Sts. See Route 326 for directions to Safford, 24.7 miles, where reset odometer to 0.0.
0.0 0.0 Safford, end of road, just beyond RR. Turn left. Curve right with road 0.3.
1.5 1.5 Right-hand diagonal road; bear right. Cross RR 3.7.
Straight ahead at 1.5 is Route 326 at mileage 26.2 to Thomasville.
4.7 3.2 Central Mills. Straight thru.
11.3 6.6 Consul, sta. on left. Straight thru along RR.
14.9 3.6 Left-hand diagonal road; bear left.
15.9 1.0 Thomaston. Straight thru. Follow winding but direct road.
28.0 12.1 End of road; turn left and take first right.
28.1 0.1 Linden, courthouse on right. Keep ahead, shortly turning left with road.
28.6 0.5 Fork at RR and sta.; bear left. Continue on winding but direct road.
36.3 17.7 Dixons Mills. Straight thru, passing church on left.
37.0 0.7 3-corners; bear left. Cross RR 47.7.
40.3 3.3 Right-hand road just after curving left; turn right. Pass wooden church on left 50.8. Pass church and cemetery on right 53.2.
39.6 9.3 THOMASVILLE, 4-corners at stores.

Route 326—Selma to Thomasville, Ala.—67.3 m.

Reverse Route 350.

Via Orrville, Safford, Flatwood and Lamison. First 25 miles gravel. From Lamison to Thomasville sand-clay and dirt, with a few short sandy stretches. The road around Flatwood gets bad in wet weather.

When this route was drafted numerous bridges and culverts were impassable and a detour was necessary by way of Central Mills, but the new proposed Jackson highway from Safford to Lamison should be finished by this time. (Make inquiry at Selma.) The mileage along the road between Safford and Lamison was scaled from the surveyor's profiles and may not tally exactly with the actual odometer readings.

This is the best way to Thomasville, but is a "dry-weather route" only. Route 325 offers a much longer option.

VISIT MOBILE ALABAMA

MOBILE, on Mobile Bay, seaport of Alabama, a city of old history, whose modern industrial achievements point certainly to a still greater future.

Mobile, first capital of old Louisiana in 1702.

Mobile, where Farragut cried "Damn the mines" and sailed in to victory, hoisting the fifth flag to which Mobile had given allegiance.

Mobile today, where the United States Steel Corporation has built a model city, Chickasaw, on a tract of 21 square miles of ground on the main state highway.

Mobile, where commerce and pleasure meet.

**"long the Line of the
Old Spanish Trail"**

GULF OF MEXICO

MOBILE

Alabama

MOBILE is an ideal objective for the tourist. The climate is delightful; the hotel and garage accommodations are excellent. Mobile's newest and largest hotel, The Battle House, is illustrated at the right.

Mobile is well known to golfers. An excellent 18-hole course is available; the spacious club house is illustrated above. Other outdoor sports abound—tennis, hunting, fishing, sailing and bathing.

One of Mobile's beautiful residential streets is pictured above; there are many similar beautiful drives in and about the city and especially through the famous SATSUMA Orange Groves.

For further particulars address any of the following:

Mobile Section

POINTS OF INTEREST, MOBILE, ALA.

Mobile (pop. 95,000, alt. 57 ft.), situated at the head of Mobile bay, Alabama's only seaport, is today a totally different city from what it was two years ago or even one year ago. A complete metamorphosis has been undergone and from a drowsy city living in the memories of her past glories, Mobile is now throbbing with a new life. The city's extensive waterfront is alive with thousands of workmen turning out ships for the United States government. Just to the north the United States steel corporation has purchased more than 21 square miles of land and have built a model city, Chickasaw, along the lines of Gary, Ind., in which to house the thousands of workmen and their families, employed at the steel shipyard of the Chickasaw ship-building plant. In addition there are eight other shipyards. *Included in the eight is a yard for the building of concrete ships which will be operated by the U. S. government.

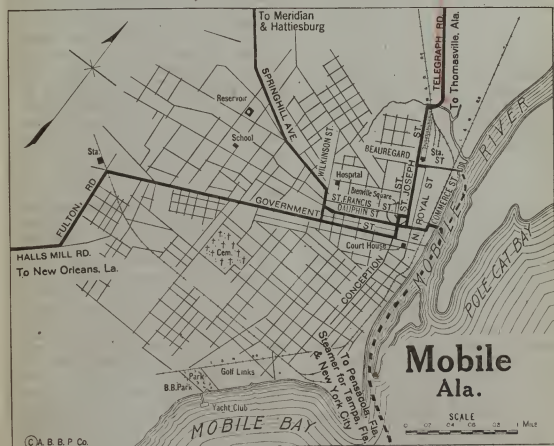

Mobile, tho on a level, sandy plain, is of pleasing appearance. Its broad, quiet streets, laid out at right angles, are shaded by magnolias and live oaks and the residences, mostly of the colonial type, are surrounded by attractive gardens fragrant with orange blossoms and jessamine, in March ablaze with azaleas in great profusion. Government street is the main fashionable residence street and is noteworthy for its handsome houses sur-

rounded by beautiful grounds. On Government street, at the corner of St. Emanuel, is the former home of Mme. Levert, famous social leader of ante-bellum days. Except for the addition of the tower, the building is the same as when she held her famous salons here. Mme. Levert traveled abroad, was presented to Queen Victoria, and was the first American who ever obtained access to the better circles of European society. She wrote an account of her experiences in "Souvenirs of Travel."

On Government street, between Lawrence and Cedar, is Barton academy, the first free school in the state, opened in 1836 and named for its founder, Mr. Willoughby Barton, member of the Alabama legislature. Another educational institution of interest is the Medical college of Alabama, which dates from 1859. There is a fine museum in connection with the Medical college.

On the southeast corner of Conception and Michael streets is the childhood home of the actor, Joseph Jefferson. Here his widowed mother kept a boarding house while Joseph and his little sister appeared as dancers in amateur theatricals.

The old Mansion House on Royal street, between Conti and Government streets, is an interesting relic of a once famous hotel. Ashland place was the home of Augusta

STEAMSHIP LINES and FERRIES
WITH RATES AND SAILING SCHEDULES - SEE BACK OF THIS VOLUME

Evans Wilson, author of "St. Elmo," and other novels. The original homestead occupied the whole of what is now Ashland place. The old house, now a private residence, still stands at the head of the fine live-oak avenue just opposite the convent of the Visitation.

Kobinita, on Spring hill car line, is the home of Mary McNeil Fenollosa, the sympathetic delineator of life in the far east. Her novels, "Truth Dexter" and "The Breath of the Gods," were published under the name of "Sidney McCall." Kobinita means "Little Sunshine Hill," so called from the author's dearly loved home in Japan. Kobinita is a simple one-story house in spacious grounds.

The Cathedral on Dauphin and Claiborne streets is a good example of Gothic, dating from the period of French occupation. The building was under construction for many years. The stately portico was added under Bishop Quinlan, who is buried here.

St. Mary's, or "Father Ryan's" church, is a simple frame building on Lafayette street. Father Ryan was Abraham Joseph Ryan, the poet priest of the confederacy. He accompanied the troops thruout the civil war and expressed in his best known poems, the "Conquered Banner" and the "Sword of Lee," the heartbreak of the conquered people. Father Ryan was resident and in charge of the parish from 1873 to 1883. Much of his writing was done here. He died in 1886 and a monument erected to his memory stands at the intersection of Spring Hill avenue and St. Francis street, in what is known as Ryan's park.

The Battle house on Royal street, at the intersection of St. Francis street stands on the site of the headquarters of General Andrew Jackson, who came to Mobile in 1814 to defend it against the British. A tablet in the lobby placed by the Daughters of 1812, on the hundredth anniversary of his stay, marks the site of his headquarters. There is a fine view of the city from the Battle house roof garden. Likewise from the roof garden of the Cawthon hotel at St. Francis and Conception Sts., overlooking Bienville square, there is a splendid view of the city and its water front.

Among the interesting monuments of Mobile is the Semmes monument in Duncan place, corner of Government and Royal streets. Admiral Raphael Semmes of the confederate navy (1809-1877), was commander of the Sumter and of the Alabama, commerce destroyers that, in turn, carried terror and destruction to federal shipping on the high seas. After the war Admiral Semmes practiced law in Mobile until his death. His grave is in the Catholic cemetery.

Another monument is the Bienville monument, a large stone cross, in Bienville square near the corner of Dauphin and St. Joseph streets. It was erected on February 24, 1906, by the Colonial Dames of Alabama in honor of the founder of Mobile. In the north-east corner of the square is an old cannon, the only piece surviving from French times. It came from Fort Charlotte when it was demolished in 1818. Also in the Bienville square is a British piece of ordnance having the broad arrow and the intertwined G. R. for Georgius Rex. This was in Fort Charlotte in British times, 1763-1780.

On Spring Hill avenue is the old home of the Confederate General Braxton Bragg, distinguished in the war with Mexico, and commander at the battles of Shiloh, Perryville, Murfreesboro, Chickamauga and Mission Ridge. He is buried in Magnolia cemetery.

The old cemetery on Wilkinson street is the second cemetery of the city. The first was on the site now occupied by the Cathedral, the Catholic asylum, and the Catholic stores on Dauphin street. In 1825 the remains were exhumed from the previous cemetery and interred here. There are many old tombs still standing, though interment has been forbidden for some years. The place is kept in order by the city. The western portion has been converted into the Bayou street playground.

On Government street, at the intersection of Royal, is a balcony with large columns. Here Lafayette stood while making his public address during his memorable visit.

Along the bay shore south of the city is Monroe park. Other recreation places are Washington square, Lyons park and Bienville square. Across the bay on the east shore are many beautiful homes and the Fairhope colony, composed of advocates of the Henry George single tax system. On the west shore are the summer resorts of Coden and Bayou le Batre.

Mobile enjoys the distinction of having been under five flags, the French, Spanish, English, United States and Confederate banners. The city was founded in 1702 by Jean Baptiste le Moyne Sieur de Bienville, second governor of the Territory of Louisiana.

During the civil war it was an important strategic point. On August 5, 1864, Admiral Farragut bombarded Forts Morgan and Gaines, which defended the mouth of the bay. The admiral sank the confederate ram Tennessee and then, after pronouncing his famous "The torpedoes be damned—go ahead," sailed past the forts over mines and torpedoes, and attacked and destroyed the main body of the confederate fleet commanded by Admiral Buchanan, and with the aid of General Granger's land forces captured Fort Morgan and Fort Gaines. The city, however, held out till April, 1865, when the Union General, Canby, defeated its forces under Gen. R. C. Gibson, and the federal troops took possession.

Among the pleasant drives about or near the city is that to Spring Hill college, where an hour or more may be agreeably spent in the beautiful grounds and where the fathers are always glad to describe the college. Just beyond is the Mobile country club, cards to which may be obtained at the Tourist Welcome Club without cost. Those desiring to play golf may do so for a nominal fee. The Bay Shell road was a famous drive of ante-bellum days, but has been superseded by the Cedar Point road to the City park purchase. Coden, the best known fishing resort in Alabama, is reached by a pleasant drive along the western shore of the bay.

The annual Mardi Gras celebration held in Mobile, featured by elaborate social affairs conducted by the several mystic orders, is renowned and brings many visitors to its gates.

Route 331—Mobile, Ala., to New Orleans, La.—167.4 m.

Reverse Route 371.

Via Pascagoula, Ocean Springs, Biloxi, Gulfport, Pass Christian, Logtown, Slidell, Mandeville, boat across Lake Pontchartrain and Milneburg. First 3 miles asphalt, 8.2 miles good gravel, 22.7 fair sandy dirt to Orange Grove; 3.6 miles fair gravel, 7.7 shell, 8.2 fair sandy dirt, 4.7 shell road to Ocean Springs; shell road, some asphalt thru Biloxi, Gulfport to Pass Christian; from Pass Christian 3.7 miles shell, 14.7 fair sandy dirt, 1.7 miles shell, balance fair sandy dirt to Mandeville; (some of this dirt is rough and bumpy.) Shell and pavement to New Orleans. Summary: 13 miles asphalt; 38 miles shell road; 12 miles gravel, and 103 miles sandy dirt (rough), graded.

The ferry charge at Pascagoula is 50c, and at Logtown, \$8.00. Boat charge across Lake Pontchartrain, \$10.50 to \$20.50.

Thru level farming country to Pascagoula; pine woods and cut over timber land to Ocean Springs, and swampy low land to Biloxi. The road now follows the shore of the Gulf of Mexico, passing summer homes all the way to Pass Christian; thru marshy land to Delisle, then timber land to Mandeville, passing a few farms.

There is a connection to Bay St. Louis at mileage 108.6. A longer option to New Orleans from Pass Christian is via Route 333 to Bogalusa and Route 422 to New Orleans,—not any better but avoids ferry at Logtown.

The tourist should phone Weston Lumber Co. at Logtown from Pascagoula so that ferry will be waiting; otherwise considerable delay may be encountered.

Ask at Mandeville if boat is running; if not, use Note (a) to Madisonville, where boat leaves at 2 p. m. each day; Saturdays at 12:30 and Sundays at 3:00 p. m. Time may be saved if tourists can catch this boat, as Mandeville boat will probably leave early in the morning, when it starts on the regular schedule. At present boat does not leave Mandeville as it was taken over by the government, but is to be turned back to the owners soon, probably this fall or spring of 1920 at latest.

Steamer "Victor" leaves Madisonville each day at 2 p. m., except Saturday, when it leaves at 12:30, and Sundays 3 p. m. Charges, \$10.50, \$15.50, \$20.50; \$1.76 each passenger; time, 3 hours. It is advisable to arrive at dock $\frac{1}{2}$ hour before leaving time.

Center of town straight ahead with trolley.

*Pascagoula, Miss. (pop. 10,000), located at the junction of the Pascagoula river and the Gulf of Mexico, is listed among the most famous cities of the south. Shipbuilding is at present and has been for many years its most important industry, and owing to this the town has recently acquired the appellation of "The Clyde of America." In 1850 Longfellow published his poem, "The Building of the Ship," in which he refers to this city in the lines:

"Brought from regions far away,
From Pascagoula's sunny bay."

The poet visited Pascagoula in 1847 upon his return from Europe, where he had learned the legend of Evangeline. In this same year Samuel Lover, poet and novelist of Ireland, also was a visitor to this city.

The first settlement was made at Pascagoula about 1717 by Colonel duPont of the French army. The old fort which he built on Kreb's lake still stands and is now occupied as a residence by his descendants. The old Farragut homestead, once the home of Admiral Farragut, a native of the gulf coast,

stood at what is now known as Martin's Bluff, on West Pascagoula river, only a few miles above the city. On the river front also stands a house, still occupied as a residence, where Admiral Farragut met his wife, a Miss Gurlic.

Much has been written concerning "The Mysterious Music of the Pascagoulas," having reference to the murmurings of the waters of the river and bay, generally heard about nightfall. There is no particular place at which it is heard, sometimes here and sometimes there, but it is truly mysterious, for though knowing it is near you, yet you are totally unable to locate from whence it comes. Many attempts have been made thru science to explain this phenomenon, but legend and tradition seem to be the only explanation, the most favorable of which has been preserved in the beautiful poem by William Baxter, written in 1848. It tells of the Pascagoula Indians, while in battle with the Biloxis, as marching into the river to avoid captivity, chanting their death song as they went, which since has echoed thru the years.

*Biloxi, Miss. (pop. 8,075, alt. 24 ft.), is on a peninsula formed by the Back bay of Biloxi and the Gulf of Mexico. It is connected with Gulfport by an electric traction line, and with Pass Christian by a fine shell road. The city has a six-mile beach, and this, with the excellent climate and the beautiful environment, have made it an all-year-around resort. The chief industries are the canning and shipping of oysters, crabs, shrimps, fruits and vegetables. There are also shipyards.

Biloxi was settled by the French. In 1699 Pierre Le Moyné d'Iberville, governor of the French province of Louisiana, established a settlement across the bay from the present city and named it Biloxi, from a small In-

dian tribe of the Sioux nation, which inhabited this region. For the defense of the town d'Iberville built Fort Maurepas, the first French post in this part of the country. In 1701 this original settlement, now known as Old Biloxi, was destroyed by fire, and about 1712 a permanent settlement, the first within the present limits of Mississippi, was made on the site of the present town of Biloxi. For several years Biloxi was the capital of the French Province of Louisiana. Six miles out of Biloxi stands "Beauvoir," the country home of Jefferson Davis, where he died in 1889. It is now a home for disabled confederate veterans.

 HOTELS—Hotel De Soto, Baronne, Poydras, Carroll & Perdido Sts.
 GARAGES—Motor Car Habitat, 418 Carondelet St.
 SERVICE STA.—United States Tire Sales & Service Depots located here.

An Automobile Ferry between

LOGTOWN, MISS., and INDIAN VILLAGE, LA.,

has been established for the convenience of Tourists. Arrange for ferriage by telephoning the H. WESTON LUMBER CO., Logtown, Miss.,—traveling East or West, should be made several hours in advance. Gasoline filling station at Garage at Logtown, Miss.

Note (a) on Route 331—Mandeville to New Orleans, La.—24.1 m.

Reverse Note (b) on Route 371.

Via Covington and Madisonville, boat across Lake Pontchartrain and West End. Fair dirt, rough, to Covington, shell to Madisonville and pavement to West End and New Orleans. Summary: 10 miles dirt, 8 miles shell and 6 miles pavement.

Boat leaves Madisonville 2 p. m. each day, 12:30 Saturdays and 3:00 p. m. Sundays. Be at dock ½ hour before leaving time. Charges \$10.50, \$15.50, \$20.50; \$1.75 each passenger.

To be used if boat is not running from Mandeville.

- 0.0 0.0 **MANDEVILLE**. Leaving boat landing, go east along lake.
 0.2 0.2 Left-hand road; turn left.
 1.0 0.8 4-corners; turn left. Cross RRs 1.4-2.2. Avoid left-hand road 9.0.
 Right at 1.0 is Route 371 to Mobile at mileage 7.8.
 9.5 8.5 Reverse fork; turn sharp left. Cross long iron bridge 9.8.
 Straight ahead at 9.5 is Route 374 to Bogalusa and Hattiesburg.
 10.1 0.6 Covington, Boston & New Hampshire Sts.
 Keep ahead on Boston St.
 10.4 0.3 End of street; turn left onto Jefferson Ave.
 10.5 0.1 4-corners; turn right onto 19th St.
 11.2 0.7 Right-hand road; turn right. Cross long wooden and iron bridge 11.9.
 Cross RR 16.3.
 17.5 6.3 4-corners, bank on right; turn left.
 17.7 0.2 End of road; turn right.
 17.8 0.1 Madisonville, 4-corners at stores. Turn left along banks of river.
 17.9 0.1 Boat across Lake Pontchartrain and river.
 Rates \$10.50, \$15.50, \$20.50; \$1.75 each passenger. Boat leaves every day at 2 p. m., Saturday, 12:30 p. m.; Sunday, 3 p. m.
 Leaving boat landing at West End, keep ahead along canal to end of road where turn right across bridge.
 18.1 0.2 End of street; turn left.
 21.0 2.9 4-corners; meeting trolley, turn left across bridge.
 21.1 0.1 Right-hand street; turn right with branch trolley onto Canal St. (double drive).

Note—Traffic regulations in New Orleans are very strict, especially on Canal St. and the thoroughfares which cross it. All this cross-town traffic goes one way on one street and the other way on the next, thruout the business part of the city. On cross-streets, follow street car traffic so as to know in which direction a street may be traversed. Extreme caution should be used on all crossings.

- 24.1 3.0 **NEW ORLEANS**, Canal & Charles Sts.

Route 333—Pass Christian, Miss., to Bogalusa, La.—67.2 m.

Reverse Route 376.

Via De Lisle, Picayune and Cybur. 3.7 miles shell; 56.8 miles fair sandy dirt; 5.2 miles graded clay thru woods and swamp to Pearl river ferry. The last three miles of this clay is very bad when wet—some large mud holes. (This is to be graveled soon.) 1.2 fair sandy dirt to Bogalusa.

(MILEAGE— Distance Thru a wooded country, sparsely settled.
 Total Between This route connects with Route 422 to New Orleans and Route 335
 Mileage Points to Columbia.

- 0.0 0.0 **PASS CHRISTIAN**, P. O. on left. Go west along gulf.
 0.9 0.9 Right-hand road; turn right away from gulf. Cross RR 1.1.
 Thru De Lisle 5.4.
 6.1 5.2 Irregular 4-corners; turn left.
 Diagonally left is Route 335 to Columbia.

*Bogalusa, La. (pop. 16,000, alt. 100 ft.) derives its name from the Choctaw words, "Boga Lusa," meaning "black creek." It is interesting to know that this town twelve years ago was a pine forest and the lumber used in its construction was cut from the town site itself. In the construction of the Bogalusa saw mill, which is one of the largest in the world, 12,500,000 feet of lumber was used. Sixty acres of timberland are cut daily to operate this mill. A nine-hole golf

course is maintained adjacent to the Pine Tree Inn. Goodyear is the largest of the town parks. Concerts and other amusements are provided here.

*Pass Christian, Miss. (pop. 2,500, alt. 23 ft.), the chief winter and summer resort on the Gulf of Mexico. It is a favorite place with wealthy pleasure seekers from as far away as St. Louis. Offers fine bathing, fishing and golfing.

Route 344—Mobile, Ala., to Hattiesburg, Miss.—111.4 m.

Reverse Route 401.

Via Leakesville and Richton. 17.3 miles good gravel; 46.0 miles fair to good sand clay; 7.1 miles fair to poor sandy dirt (badly washed); 15.9 miles fair graded sandy dirt road to Richton; 2.5 miles good sand clay; 11.9 miles fair graded dirt and clay; 10.7 miles good gravel to Hattiesburg. Summary: 28 miles good gravel; 48 miles fair to good sand clay; 28 miles fair graded sandy dirt; 7 miles fair to poor sandy dirt.

The route traverses a rolling and hilly country, sparsely settled, principally thru pine woods, with some farms.

A good though longer option is had by combining Route 331 to Gulfport and Route 340 to Hattiesburg.

Note—Caution for traffic regulations in Mobile.

 GARAGES—Hooper Motor Co., 1317 Water St.
 The Selma Garage Co., Church & Alabama Sts.

Route 350—Thomasville to Selma, Ala.—67.3 m.

Reverse Route 326.

Via Lamison, Flatwood, Safford and Orrville. First 24 miles to Lamison sand-clay and dirt, with a few short sandy stretches; last 25 miles into Selma gravel. Road around Flatwood gets bad in wet weather.

When this route was draughted, numerous bridges and culverts were impassable, and a detour was necessary by way of Central Mills, but the new proposed Jackson highway from Lamison to Safford should be finished by this time. (Make inquiry at Lamison.) The mileage along the road between Lamison and Safford was scaled from surveyor's profiles and may not tally exactly with the actual odometer readings.

(MILEAGE—

- 1.5 0.7 Irregular 4-corners; jog left and right, keeping ahead. Fol-

*De Funiak Springs, Fla. (pop. 2,050, alt. 320 ft.), the county seat of Walton county, is 20 miles from the Gulf of Mexico and 16 miles from Freeport, on Choctawhatchee bay, thus affording easy access to unexcelled fishing. It is on the main line of the Louisville & Nashville railroad, has a magnificent hotel and has been a winter resort for many years. The spring itself is 1 mile in circumference and 84 feet deep. It is very attractive for bathing and boating and the park around it (208 acres) is very beautiful. The city now contemplates building in the park a Liberty building, including boat house facilities. The town is the seat of the Florida chautauqua, which holds its annual session in February and March. It is noted as an educational center, having Palmer college, Thomas indus-

trial institute and a most excellent high school. It is located on the "Spanish trail" with good roads thruout the county, soon to be improved by an estimated expenditure by the joint county, state and federal funds of three-quarters of a million dollars. Valparaiso and Camp Walton can be reached from De Funiak Springs by good hard road.

*Fairhope, Ala. (pop. 600, alt. 50 ft.), is a delightful home and resort town, which was established in 1895 by a unique organization, known as the "Fairhope Single Tax Colony." The land is not sold, but leased for 99 years. The rents collected are then used to pay all taxes on the improvements made by lessees, and upon their personal property, as well as on the land itself. The remainder is then used for the benefit of the settlers.

FAIRHOPE, ALA. On Mobile Bay

Not only a necessary point on the way, but one to which thousands come by choice. Home of famous "Single Tax Colony"—in existence a quarter century. Learn about it.

THE GABLES. The favorite hotel of tourists and traveling men.

HOTELS—San Carlos Hotel.

GARAGES—Abbott Auto Supply Co., Palafox & Gregory Sts.

COMM. ORGAN.—Chamber of Commerce, Brent Bldg.

CLUBS—Escambia Co. Auto Association.

SERVICE STA.—United States Tire Sales & Service Depots located here.

Left on Palafox St. is Route 364 to De Funiak Springs.

Route 357—Pensacola, Fla., to Andalusia, Ala.—105.5 m.

Reverse Route 320.

Via Flomaton, Pollard, Brewton and Dixie. First 10 miles gravel, stone and sand-clay; next 40 miles to Pollard alternating stretches of sand-clay and gravel. There are numerous long clay hills, good in dry weather, but very slippery when wet; also many wooden culverts in poor condition; balance sand-clay, with many deep sandy spots. Connects at Andalusia with Route 358, which is best way to Montgomery.

*De Funiak Springs, Fla. (pop. 2,050, alt. 320 ft.), the county seat of Walton county, is 20 miles from the Gulf of Mexico and 16 miles from Freeport, on Choctawhatchee bay, thus affording easy access to unexcelled fishing. It is on the main line of the Louisville & Nashville railroad, has a magnificent hotel and has been a winter resort for many years. The spring itself is 1 mile in circumference and 84 feet deep. It is very attractive for bathing and boating and the park around it (208 acres) is very beautiful. The city now contemplates building in the park a Liberty

building, including boat house facilities. The town is the seat of the Florida chautauqua, which holds its annual session in February and March. It is noted as an educational center, having Palmer college, Thomas industrial institute and a most excellent high school. It is located on the "Spanish trail" with good roads thruout the county, soon to be improved by an estimated expenditure by the joint county, state and federal funds of three-quarters of a million dollars. Valparaiso and Camp Walton can be reached from De Funiak Springs by good hard road.

 onto Bryan St.

*Bainbridge, Ga. (pop. 5,000, alt. 110 ft.), the county seat and largest city of Decatur county, lies on the eastern bank of the Flint river. It is a live industrial center, an important shipping point for tobacco, cotton and naval stores, and the site of the historic old

Fort Hughes. Elevated upon a rugged knoll overlooking a wide sweep of the river stands a monument inscribed to the memory, the honor and valor of the pioneer citizens who garrisoned this fort in defense of the settle-
 ment against the hostile Indians.

40.9 13.6 Left-hand diagonal road; bear left with travel.

Sharp left at 41.1 is Route 176 to Macon.

41.3 0.4 Irregular 4-corners; bear right. Cross RR 41.4. Pass court-house and P. O. on right 42.2.

*Tifton, Ga. (pop. 4,500, alt. 337 ft.), and Tift county are traversed by the National highway and lie on the short route from Macon to Valdosta. The chief feature of the county is its beauty, not so much of scenery as of production. It is one of the feature counties of south Georgia in this respect. The tourist along the National highway passes through a rolling country rich in cotton, corn, rice and peanuts. The county is noted in South Georgia as the home in this section of Shorthorn

cattle. Polled Angus is also a favorite breed, and some of the finest herds in the state are here. Its cattle and hog production have brought about the construction, now under way, of a packing house in Tifton. Besides this, Tifton has many up-to-date manufacturing enterprises. The second District agricultural school is located just west of the National highway which enters Tifton from the north.

35.2 12.2 Thomasville,* Jackson & Broad Sts. at stores.

GARAGES—Dixie Highway Garage, Madison St. just south of Jefferson.

Left on Broad St. is Route 176 to Macon.

Straight ahead on W. Jackson St. is Route 367 to Ocilla.

Turn right onto Broad St. and follow Route 235 (from mileage 169.5 to 215.0) balance of the way to

80.7 45.5 VALDOSTA, Hill Ave. & Patterson St., bank on left.

Route 369—De Funiak Springs, Fla., to Dothan, Ala.— 67.4 m.

Reverse Route 172.

Via Darlington, Geneva and Hartford. Sand-clay and gravel to Darlington, then 8 miles of winding, sandy, woods road; balance sand-clay. Summary: 59.4 miles sand-clay; 8 miles sandy road.

There are three fairly deep fords encountered between Darlington and Geneva. Tourists should make inquiry in regard to road as this route should be used in dry weather only.

New Orleans Section

POINTS OF INTEREST, NEW ORLEANS, LA.

New Orleans (pop. 385,000, alt. 5 ft.), the Crescent City, is the largest city in Louisiana, and with the exception of Natchitoches, the oldest. It is situated on the banks of the Mississippi, 110 miles from its mouth, and occupies an area of 196¼ square miles. With a harbor frontage on the river of 41 miles, 9 miles of which have been equipped with wharves, steel docks, warehouses and 200 miles of terminal belt, all under government control, New Orleans offers a port for world commerce. In normal times, 2,000 ships call annually at this port, with a gross tonnage of over 6,000,000 tons.

The city lies about 8 feet above the level of the Gulf of Mexico, and is protected from overflows of the Mississippi river by levees, which in some places are 20 feet high. The sobriquet "Crescent City" is derived from the fact that the original city lay along the river which flows in a crescent curve past the old Place d'Armes, now Jackson Square.

The gradual extension of the city limits, 13 miles up and down the river, back to Lake Pontchartrain, and across to the right bank, have made the shape of the present city more nearly that of the letter S.

Canal street, 200 feet wide, is the great business thoroughfare, shopping street, and the center of the street car system. It is also the dividing line between the Old French or Creole quarter and the newer American section.

The French quarter, or "Vieux Carré," lies below Canal street and is much more interesting and picturesque than the American section, which contains the great business houses, the banks and the handsomest private residences. Traces of the Spanish regime are found in many interesting houses of Hispano-Mooresque architecture, with red tiled roofs and balconies of exquisitely wrought iron.

GUIDE TO COLONIAL NEW ORLEANS.

"VIEUX CARRE."

(Recommended by the Louisiana State Museum.)

St. Charles street, from which the visitor enters the "Vieux Carré," was in colonial days a roadway leading out from the ancient gate of the palisaded capital towards the German Coast settlement.

As we cross Canal street, we enter the original city, the embryo New Orleans, the historical parallelogram laid out and named in honor of the Duke Regent of France in 1718 by Bienville, its founder.

John Law, the head of the Western Com-

pany in 1718, chartered to exploit the Mississippi country, had many schemes to promote the trade of that province with its mother country, France. Establishing a capital on the banks of the Mississippi was one of his first moves, the order was given, and thus the "Vieux Carré" came into existence.

As we ride down Royal street, a name suggestive of fealty to a crowned head, we remember it was once a residence district, until after the fire of 1788. The later Amer-

ican occupation changed it gradually into a business thoroughfare. This was the first street paved in the city, granite blocks brought as ballast in ships being used for the purpose by Mayor Roffignac in 1819. Today, merchants in antiques hold sway, and old buildings of the last two centuries give it an atmosphere quite different from the bustle above Canal street. Here in Royal street, houses stand well to the front, with closed courtyards, but if one might peep through the stone-arched entrances, one may find gardens of exquisite beauty and trees that were planted a hundred years back.

Turning into St. Peter street, a name reminiscent of old Louisiana's Catholicity, we come to the parade grounds of colonial New Orleans, "Place d'Armes," now called Jackson Square in honor of the victor in the battle of New Orleans.

This square was once the exact center of the river front of old New Orleans. It is considered one of the most beautiful and symmetrical places in the United States. In the early days it was the drill ground for French and Spanish soldiers. It is faced by the Cathedral, Cabildo and Presbytere of the Spanish domination, and is flanked on either side by the Pontalba buildings, erected about 1849 by Madame de Pontalba, daughter of Don Andres Almonester y Roxas, who built the Cabildo in 1795 and the Cathedral in 1794.

Baroness de Pontalba was active in having

the name of the square changed to that of New Orleans' hero, and largely contributed to the erection of that hero's statue, the unveiling of which she witnessed from the balcony of her splendid row of new buildings.

This square was also the scene of the drama which in 1803 culminated in the closing of French and Spanish rule in Louisiana and the inauguration of an ownership in which the United States acquired territory larger than itself, which purchase raised this republic to the position of first class among powers.

This square, surveyed in 1718, has been the scene of many public gatherings of historic note. Indignant citizens met here to protest against the Spanish occupation in 1764, Alejandro O'Reilly in 1769 reviewed here the 4,000 troops brought over by him from Spain to suppress the revolution, and a few days later the shot that gave Louisiana her first patriot martyrs echoed across this spot.

The cession back to France by Spain, and from France to the United States in 1803, on occasions with military élan, marked the end of monarchical ownership; and the next scene, the crowning of Jackson with laurels, began the epoch of American activity that has made New Orleans one of the great marts of the world.

General Lafayette was welcomed to the Crescent City in this square, and a beautiful triumphal arch was erected in its center to dignify the occasion; this was in 1826. The

Cabildo was fitted up for Lafayette's accommodation and temporarily bore the name of "Maison du Lafayette."

Zachary Taylor, returning from Mexico, was another conquering hero honored in the old square with much ceremony.

The statue to Jackson is by Clark Mills and marks the spot where the American flag of fifteen stars was unfurled in 1803. This statue was unveiled by Henry Clay.

The cathedral is one of the most widely known churches in the United States. It is the third building occupying its site, two parish churches previously having been there. Many distinguished Spaniards and Frenchmen rest in the crypt of this church and here Jackson attended services after his victory at Chalmette in 1815. In the rear of the cathedral is a small garden in which many duels were fought in colonial days.

The Cabildo was erected by the Spanish government. In the Sala Capitular, or main chamber, the formal transfer of the Province of Louisiana from Spain to France from France to the United States took place with elaborate ceremonies in 1803.

The Cabildo now contains the Louisiana state museum. Here is the famous Lami painting of the Battle of New Orleans; here also is the Napoleon death mask in bronze by Bonaparte's physician, Antonmehi, who himself pressed the matrix to the face of the dead emperor and later personally presented it to the city of New Orleans. In the same room are the famous elephant folio volumes of Audubon's "Birds of America" subscribed to by his native state, Louisiana, in 1827.

The museum is open daily, including Sunday, and the admission is free. Hours: 9 a. m. to 5 p. m.; Sundays, from 9 a. m. to 1 p. m.

The Presbyteré, or House of the Capuchin priests, later used as the civil courts of New Orleans, has been restored to its colonial condition and is used as the museum of

natural history, agriculture and industries of Louisiana.

Just off the northeast corner of the square is the entrance to the old French market, one of the sights of New Orleans. A visit to it should preferably be made between 6 and 7 in the morning.

Also in the French quarter is the Old Absinthe house. It dates from 1798, and is rich in tradition and mystery, having been at one time the headquarters of Jean Lafitte, the patriot pirate. Within a few minutes' walk of Old Absinthe house is the Haunted house, whose fascinating and weird traditions have been made famous through the writings of George W. Cable.

On Chartres street (Old Condé), and three blocks down, we come to the oldest original building in all the country west of the Alleghanies (half a century older than the Spanish Missions of California), viz.: The Ursuline convent of 1727, later the state capitol, and today the business office of the Archdiocese of New Orleans, the residence of the Chancellor under His Grace, Archbishop Jas. H. Blenk.

The building, remarkable for its construction, is built of brick imported by the Western Company; its woodwork done by ship carpenters; hardware made in a blacksmith shop; its timber hewn with an adze; all giving testimony today of the thoroughness of our early pioneers. It was built in six years. The Ursuline nuns during all of that time were provided for by Governor Périer, who gave them Bienville's house to live in.

It was in the rear of this convent that O'Reilly, Spanish Governor, ordered the execution of the first American revolutionists, in 1769. Many distinguished visitors have entered its historic portals during the two hundred years of its existence: Louis Phillippe, later king of the French; Lausset, General Jackson, Lafayette, and other notable

personages have left their names upon its records.

From Esplanade, another avenue which owes its fair dimensions to the space left by New Orleans' ancient fortifications, we pass into Burgundy street, and leave behind us the Vieux Carré of 1815.

We are now upon the site of the Marigny plantation, in whose country home the great naturalist, Audubon, was born.

The present convent of the Ursuline nuns attracts attention next. This sisterhood was the first to teach in America (1727). They entered this building in 1824, now being demolished to make way for the encroachments of the levee.

We now come to Jackson barracks, partly fortified and always occupied by several companies in the United States service.

On the opposite side of the river, in view of the barracks, is seen the large "dry dock" anchored alongside the government naval reservation. This dock is capacious, the largest in America, and will lift any ship that floats today. The industrial canal and ship basin was begun by the joint action of the board of port commissioners, the municipality and the Orleans parish levee board. It will pass ships drawing 30 feet, and will be 150 feet wide and $5\frac{1}{4}$ miles long from the locks at the Mississippi river to Lake Pontchartrain. Lateral canals will be constructed wherever needed, and four lift bridges will cross it at convenient points. Two ship-building plants have been established on its banks and many other industries will locate there. The sum of \$6,000,000 has been provided for immediate work planned and bonds have been authorized up to \$25,000,000 for the ultimate completion of this vast inland harbor.

Passing from the old world to the new, the tourist enters the beautiful and far-famed Garden district, the appropriately named residential portion of the American section. Here the palatial homes of New Orleans' wealthy aristocracy stand embowered in tropical plants on broad velvety lawns. The principal residence street of the Garden district is St. Charles avenue. Here are located the new buildings of Tulane university and of Loyola university, a Jesuit school. Prytania is also a fine residence street of the American section. Esplanade avenue is the best residence street of the French quarter.

New Orleans has 84 public parks or squares, its total park area being 906 acres. Audubon park, 249 acres, on the river front in the upper part of the city, was formerly the plantation of the French patriot, Masan, who was condemned to imprisonment in Morro Castle for resisting the cession of the colony to Spain. Here in 1796 Etienne de Boré made the first successful attempt at granulating sugar. It is therefore appropriate that this park should contain a model sugar plantation and the Louisiana state sugar experiment station. The park is much frequented on account of its superb live oaks nearly 200 years old, its miniature lakes, its aviary, and its golf course.

City park, 300 acres in extent, is situated on Metairie road and fronts on the picturesque Bayou St. John, in the very heart

of the city. It was the famous dueling ground in the ante-bellum days.

The cemeteries of New Orleans are among the most interesting sights of the city. Before the city was drained it was necessary to bury the dead in vaults, crypts, and walls, because the water level was but a few feet below the surface. Thousands of these family vaults are still in use, though the necessity for this old-world custom has passed away since the draining of the city within the last 20 years. The most beautiful cemetery is the Metairie, which contains many fine monuments. At Chalmette, the site of the battle of New Orleans, in 1815, is the National cemetery, where 12,000 Unionists are buried. The Roman Catholic cemeteries are the oldest and the most interesting. Of these, St. Louis No. 1 is the earliest, while the most curious is the Campo Santo, adjoining the Chapel of St. Roch, the most picturesque shrine in America. St. Roch's is in that section of the city formerly known as the German quarter.

The confederate memorial hall on Camp street contains a wealth of relics relating to the conflict between the north and south. The effects of Jefferson Davis, on exhibition here, have a romantic attraction for thousands of tourists.

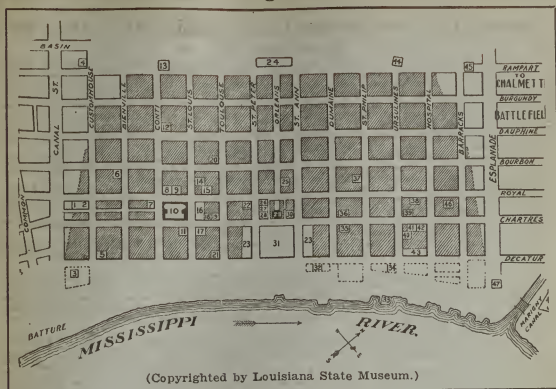

The Delgado museum of art, artistically nestled among the stately trees of City park, is one of the show places of the city, both inside and out. It contains a splendid collection of paintings, vases and bronzes and other works of art.

Besides the branch mint the United States government has in New Orleans a sub-treasury, a purchasing agency for the Panama canal, a large naval reservation, a repair yard and dry dock, and the military station of Jackson barracks; and with the entrance of America into the world-war there have been added a naval training station at West End; a large quartermaster's department; Camp Nicholls, and Camp Martin, the second largest auto-mechanical and radio army school in the country, conducted under the direction of Tulane university.

During the civil war New Orleans was an important base of Confederate operations, both military and commercial, until captured by Admiral Farragut with a Federal fleet in 1862, after which it served as an important strategic point for attacks on the Confederacy.

In 1884 occurred the Cotton Centennial Exposition—the first bale of cotton exported from the United States having been shipped from New Orleans in 1784. The publicly owned cotton warehouse, located here, is the largest agricultural warehouse in the world and the most modern and efficient in design.

No history of New Orleans would be complete which did not give space to the amusements of the people, of which the two most characteristic are French opera and masked balls. In normal times these attract many thousands of visitors to the city during the winter. War has for the second time in history suspended both these social functions, but no doubt, with the return of peace, the opera and the Mardi Gras celebrations will be resumed.

46. Spanish Barracks (site, entire square).
47. United States Mint, site of Fort St. Charles of 1796, point from which Jackson reviewed his troops on their way to battle, 1814.
48. Site of Marigny Plantation House, where Louis Philippe was entertained. John James Audubon was born 1780 at Marigny's country home in the Parish of St. Tammany, across Lake Pontchartrain from New Orleans.

Tablets have been erected at each point noted above by Louisiana State Museum.

Route 371—New Orleans, La., to Mobile, Ala.—167.4 m.

Reverse Route 331.

Via Milneburg, boat across Lake Pontchartrain, Mandeville, Slidell, Logtown, Pass Christian, Gulf Port, Biloxi, Ocean Springs and Pascagoula. Pavement and shell to Milneburg; boat to Mandeville; 51.4 miles fair sandy dirt, rough and bump; 1.7 miles shell, 14.7 miles fair sandy dirt, 3.7 miles shell to Pass Christian; shell road with some asphalt, Pass Christian thru Gulf Port and Biloxi to Ocean Springs; then 4.7 miles shell, 8.2 miles fair sandy dirt, 7.7 miles shell, 3.6 miles fair gravel to Orange Grove; 22.7 miles fair sandy dirt, 8.2 miles good gravel, 3 miles asphalt to Mobile. Summary: 13 miles asphalt; 38 miles shell; 12 miles gravel and 103 miles sandy dirt (rough) graded.

Ferry charge across lake is \$10.50 to \$20.50; \$1.75 each passenger. Log Town ferry charge is \$3.00, and Pascagoula ferry 50c. Tourist should telephone from Mandeville to Weston Lumber Co. at Log Town so that ferry will be waiting.

From Mandeville the road goes thru pine woods and cut over timberland to De Lisle, then thru low marshy land to Pass Christian. From Pass Christian it follows the shores of the Gulf of Mexico, past summer homes to Biloxi; thru swampy low land to Ocean Springs; pine woods and cut timberland to Pascagoula, and farming country to Mobile. The road is practically level all the way.

There is a connection to Bay St. Louis at mileage 57.4. A longer option to Pass Christian, avoiding Log Town ferry, is via Route 374 to Bogalusa and Route 376 to Pass Christian.

At time of publication the large steamer "Mandeville" had not been put in commission and so time of departure could not be learned. This boat may be put back in commission this fall or early in spring of 1920. Charges given above were those in force during summer of 1919 and may be modified for 1920. Inquiry should be made at New Orleans as to which boat is running. If Mandeville boat is not in commission, use Note (a) via Madisonville.

Boat does not run from Milneburg at present, as it was taken over by the government, but is to be turned back to owners this coming fall or by spring of 1920. Boat at present leaves West End at 7:30; arrives Madisonville 10:30. Charges \$10.50, \$15.50, \$20.50; \$1.75 each passenger. Carries one large car and one Ford. It is advisable to arrive at dock $\frac{1}{2}$ hour ahead of leaving time. Tourist is also advised to inquire at New Orleans as to which boat is running, as large boat may be put on at any time. Time might be saved by using boat to Madisonville, as Mandeville boat will probably leave in the afternoon.

Note—Traffic regulations in New Orleans are very strict, especially on Canal St. and the thoroughfares which cross it. All this cross-town traffic goes one way on one street and the other way on the next thorough the business part of the city. On cross-streets follow street car traffic so as to know in which direction a steet may be traversed. Extreme caution should be used on all crossings.

*Biloxi, Miss. (pop. 8,075, alt. 24 ft.), is on a peninsula formed by the Back bay of Biloxi and the Gulf of Mexico. It is connected with Gulfport by an electric traction line, and with Pass Christian by a fine shell road. The city has a six-mile beach, and this, with the excellent climate and the beautiful environment, have made it an all-year-around resort. The chief industries are the canning and shipping of oysters, crabs, shrimps, fruits and vegetables. There are also shipyards.

Biloxi was settled by the French. In 1699 Pierre Le Moyne d'Iberville, governor of the French province of Louisiana, established a settlement across the bay from the present city and named it Biloxi, from a small Indian tribe of the Sioux nation, which inhabited this region. For the defense of the town d'Iberville built Fort Maurepas, the first French post in this part of the country. In 1701 this original settlement, now known as Old Biloxi, was destroyed by fire, and about 1712 a permanent settlement, the first within the present limits of Mississippi, was made on the site of the present town of Biloxi. For several years Biloxi was the capital of the French Province of Louisiana. Six miles out of Biloxi stands "Beauvoir," the country home of Jefferson Davis, where he died in 1889. It is now a home for disabled confederate veterans.

"Pascagoula, Miss. (pop. 10,000), located at the junction of the Pascagoula river and the Gulf of Mexico, is listed among the most famous cities of the south. Shipbuilding is at present and has been for many years its most important industry, and owing to this the town has recently acquired the appellation of "The Clyde of America." In 1850 Longfellow published his poem, "The Building of the Ship," in which he refers to this city in the

following lines:

"Brought from regions far away,
From Pascagoula's sunny bay."

The poet visited Pascagoula in 1847 upon his return from Europe, where he had learned the legend of Evangeline. In this same year Samuel Lover, poet and novelist of Ireland, also was a visitor to this city.

The first settlement was made at Pascagoula about 1717 by Colonel duPont of the French army. The old fort which he built on Kreb's lake still stands and is now occupied as a residence by his descendants. The old Farragut homestead, once the home of Admiral Farragut, a native of the gulf coast, stood at what is now known as Martin's Bluff, on West Pascagoula river, only a few miles above the city. On the river front also stands a house, still occupied as a residence, where Admiral Farragut met his wife, a Miss Gurlie.

Much has been written concerning "The Mysterious Music of the Pascagoulas," having reference to the murmurings of the waters of the river and bay, generally heard about nightfall. There is no particular place at which it is heard, sometimes here and sometimes there, but it is truly mysterious, for though knowing it is near you, yet you are totally unable to locate from whence it comes. Many attempts have been made thru science to explain this phenomenon, but legend and tradition seem to be the only explanation, the most favorable of which has been preserved in the beautiful poem by William Baxter, written in 1848. It tells of the Pascagoula Indians, while in battle with the Biloxis, as marching into the river to avoid captivity, chanting their death song as they went, which since has echoed thru the years.

Turning right with road, 47.6.

47.9 6.1 End of road; turn left. Cross RR 48.9.

49.3 1.4 POPLARVILLE, at water tower.

Straight ahead is Route 374 to Hattiesburg.

Note (b) Route 371—New Orleans to Mandeville, La.—24.1 m.

Reverse Note (a) on Route 331.

Via West End, Madisonville and Covington. Pavement to West End, shell Madisonville to Covington and fair dirt to Mandeville. Summary: 10 miles dirt, 8 miles shell and 6 miles pavement.

Boat leaves West End 7:30. Be there one-half hour or more ahead of leaving time. Charges \$10.50, \$15.50, \$20.50; \$1.75 for each passenger.

Note—Traffic regulations in New Orleans are very strict, especially on Canal St. and thoroughfares which cross it. All this cross-town traffic goes one way on one street and the other way on the next thruout the business part of the city. On cross-streets follow street car traffic so as to know in which direction a street may be traversed. Extreme caution should be used on all crossings.

0.0 0.0 NEW ORLEANS, Canal & Charles Sts. Go northwest with trolley on Canal St. (double drive).

3.0 3.0 End of street; meeting cross-trolley, turn left, passing cemeteries on right.

3.1 0.1 4-corners, just beyond iron bridge turn right away from trolley.

6.0 2.9 Right-hand street; turn right across iron bridge and immediately left.

6.1 0.1 West End. Take boat across Lake Pontchartrain and river.

Boat leaves at 7:30. Rates: \$10.50, \$15.50, \$20.50; \$1.75 each passenger. Boat leaves every day 2 p. m., Saturday 12:30 p. m., Sunday 3:00 p. m.

Leaving boat landing, curve right along river bank.

6.3 0.2 Madisonville, 4-corners, stores on left. Turn right.

6.4 0.1 Left-hand diagonal road; bear left.

6.6 0.2 4-corners, bank on left; turn right.

7.3 0.7 Fork; bear right. Cross RR 7.8.

12.9 5.6 End of road; turn left onto Tyler St., turning right just beyond onto 19th St.

13.6 0.7 Jefferson Ave.; turn left.

13.7 0.1 Right-hand street; turn right onto Boonton St.

14.0 0.3 Covington, Boston & New Hampshire Sts. Straight thru.

14.6 0.6 Reverse Fork; turn sharp right.

Left at this turn is Route 374 to Bogalusa and Hattiesburg.

Avoid right-hand road 15.1. Cross RRs 21.9-22.7.

23.1 8.5 4-corners; turn right.

Straight ahead is Route 371 to Mobile at mileage 7.8.

23.9 0.8 End of road at river; turn right.

24.1 0.2 MANDEVILLE, at boat landing.

Route 374—New Orleans, La., to Hattiesburg, Miss.— 115.9 m.

Reverse Route 422.

Via Lake Pontchartrain, Mandeville, Bogalusa, Poplarville and Lumberton. Fair sand-clay, very rough, to Bogalusa; balance fair sand-clay with a short stretch of gravel thru Purvis and entering Hattiesburg.

Thru a rolling country, principally cut timber land.

See Note (a) for connection to regular route by boat to Madisonville, as boat does not run from Milneburg at present. This was taken over by the government, but is to be turned back to owners this coming fall or by spring of 1920 at latest.

Boat at present leaves West End at 7:30; arrives Madisonville 10:30. Charges \$10.50, \$15.50, \$20.50; \$1.75 each passenger. Carries one large car and one Ford. It is advisable to arrive at dock $\frac{1}{2}$ hour ahead of leaving time. Tourist is advised to inquire at New Orleans which boat is running as large boat may be put on at any time.

Time might be saved by using boat to Madisonville as Mandeville boat will probably leave in afternoon.

Note—Traffic regulations in New Orleans are very strict, especially on Canal St. and the thoroughfares which cross it. All this cross-town traffic goes one way on one street and the other way on the next thruout the business part of the city. On cross-streets follow street car traffic so as to know in which direction a street may be traversed. Extreme caution should be used on all crossings.

*Bogalusa, La. (pop. 16,000, alt. 100 ft.) derives its name from the Choctaw words, "Boga Lusa," meaning "black creek." It is interesting to know that this town twelve years ago was a pine forest and the lumber used in its construction was cut from the town site itself. In the construction of the Bogalusa saw mill, which is one of the largest

in the world, 12,500,000 feet of lumber was used. Sixty acres of timberland are cut daily to operate this mill. A nine-hole golf course is maintained adjacent to the Pine Tree Inn. Goodyear is the largest of the town parks. Concerts and other amusements are provided here.

*Laurel, Miss. (pop. 14,875, alt. 243 ft.), produces more yellow pine lumber than any other place in the world. Saw mills are the principal industrial establishments. The town has a fine civic center, where are grouped the court house, city hall, U. S. government building, Pinehurst hotel and high school

building. It claims to have had the first Y. M. C. A. in the state and that \$63,000 for a new one was raised in four days. A model farm, established by Eastman, Gardiner & Co., now under state supervision, is near the city.

Route 381—New Orleans to Baton Rouge, La.—139.0 m.

Reverse Route 413.

Via Thibodaux, Labadieville, Napoleonville, Donaldsonville, Plaquemine, and Port Allen. 5.3 miles pavement, 7.1 miles gravel to Waggaman; 3.8 miles graded dirt and clay, 24 miles good gravel, 3.1 miles shell, 4.3 miles good gravel to Raceland; 22.6 miles good graded dirt to Labadieville, balance good gravel. Summary: 5 miles asphalt and pavement; 3 miles shell; 104 miles gravel and 27 miles graded dirt, some of which will be graveled in near future.

The route runs along St. Charles St. thru one of the finest residential sections to Walnut St., and the ferry across Mississippi river, then under levee of river to Luling. At Luling it leaves the river and goes thru level farming country to Raceland, crossing numerous small bridges. From Raceland the road follows a bayou to Donaldsonville; there meeting the river, it runs under the levee to Port Allen and ferry to Baton Rouge. The river is not seen except from ferries. Many extensive sugar cane farms and large sugar mills are passed en route. The New Orleans ferry charges are 25c and 50c; Baton Rouge, 25c and 40c; 5c each passenger.

This is the best route between the two cities. It is 16 miles longer but has more gravel than Route 383; is not as dusty when dry or as muddy when wet.

Note—Traffic regulations in New Orleans are very strict, especially on Canal St. and thoroughfares which cross it. All this cross-town traffic goes one way on one street and the other way on the next thruout the business part of the city. On cross-streets follow street car traffic so as to know in which direction a street may be traversed. Extreme caution should be used on all crossings.

For this and other exits see City Map, page 417.

*Thibodaux, La. (pop. 5,000, alt. 13 ft.) is the home town of Chief Justice E. D. White of the U. S. supreme court; also was the home and is now the burial place of Governor F. T. Nicholls. Here also are buried a number of Union soldiers who fell in battle. A confederate monument and marble statue of a priest who labored here for fifty years are other interesting features. It is in the center

of the sugar cane belt and within short distances of several sugar factories where granulated sugar is made direct from the sugar cane. Factories operate from about October 20 to December 20, and are open to visitors. The harvesting of the sugar cane, the grinding of same, and the manufacture are very interesting.

POINTS OF INTEREST, BATON ROUGE, LA.

Baton Rouge (pop. 24,000, alt. 19 ft.), capital of the state, lies on the east bank of the Mississippi river, about 130 miles by river and 79 by rail above New Orleans. It is picturesquely situated on a bluff which rises about 25 feet above high water, and commands a fine view of the river and the surrounding plantations. Among its interesting features are the state capitol, Hill memorial library, the state university, organized in 1860, the state educational institution for the deaf, dumb and blind, founded 1852, the state agricultural and mechanical college, the state agricultural experiment station, the city hall, the post office, the state penitentiary and the Elks' home. The surrounding district produces large quantities of cotton, sugar and corn, for which the city is a trade and manufacturing center. Its manufactures are extensive and include the largest southern re-

finery of the Standard oil company. The Jefferson highway passes thru the heart of the city.

Baton Rouge was one of the earliest French settlements in America. At the beginning of the revolution it was strongly garrisoned by the English, but in 1779 was captured by Don Bernardo Galvez, the Spanish governor of Louisiana. It was the capital of the state from 1849 to 1864, when the capital was removed to New Orleans. It again became the capital in March, 1880. The "Louisiana ordinance of secession" was adopted here on January 26, 1861, during the civil war. And here on August 5, 1862, the federals, under General Thomas Williams, defeated the confederates under General John C. Breckenridge in a fierce encounter in which General Williams was killed.

Route 383—New Orleans to Baton Rouge, La.—123.2 m.

Reverse Route 410.

Via Donaldsonville, Plaquemine and Brusly. First 5.3 miles pavement; 7.1 miles gravel to Waggaman, then dirt to Donaldsonville; balance gravel. Summary: 5.3 miles pavement; 54.1 miles gravel; 63.8 miles dirt.

The road runs along St. Charles St., thru one of the finest residential sections to Walnut St. and the ferry across Mississippi river, then under levee of river and thru good farming country, principally devoted to the raising of sugar cane, passing several large sugar mills. The New Orleans ferry charges are 25c and 50c; Baton Rouge 25c and 40c; 5c each passenger.

This route is shorter, but not as good as Route 381 via Thibodeaux.
 Note—Traffic regulations in New Orleans are very strict, especially on Canal St. and thoroughfares which cross it. All this cross-town traffic goes one way on one street and the other way on the next thruout the business part of the city. On cross-streets follow street car traffic so as to know in which direction a street may be traversed. Extreme caution should be used on all crossings.

*Brookhaven, Miss. (pop. 7,000, alt. 490 ft.), seat of Lincoln county, has important cotton industries. Whitworth female college, Fair River church, 102 years old, the old Warren home and the old Whitworth home, the latter being one mile from town, are local points of

interest, as is also the \$100,000 federal building.

*Hazlehurst, Miss. (pop. 3,500, alt. 500 ft.), is famed as the home of the well-known health resort "Brown's Wells." Lake Hazel and the confederate monument are other points of interest.

Jackson Section

POINTS OF INTEREST, JACKSON, MISS.

Jackson (pop. 32,000, alt. 288 ft.) is the capital of the state and its largest city. It was named in honor of Andrew Jackson. During the civil war many encounters took place in and around this city. Generals Sherman, Grant and Joseph E. Johnston were active hereabouts. Among the points of interest is the old capitol building, dating back to 1839, in which three famous assemblies have been held—the secession, the black and tan and the constitutional convention. Here also Jefferson Davis, president of the Confederacy, made his last speech. Other features of

interest are the beautiful new state capitol, the library, Hinds county court house, the city hall, governor's mansion, confederate monument and statue of Jefferson Davis. The Pearl river valley is far from uninteresting, and the many nearby stock farms and the old breastworks surrounding the city are often pointed out to visitors. Foremost among Jackson's educational institutions are Millsaps college, Bellhaven collegiate and industrial institute, Jackson college for colored boys and Campbell college for colored girls.

Reverse Route 441.

Via Sumner, Clarksdale and Dundee. First 10 miles gravel; then 47 miles dirt, some clay, bad when wet; 8.6 miles gravel to Clarksdale. From Clarksdale there are alternating stretches of gravel and dirt for 79.7 miles, then 11.4 miles gravel; balance 2.9 miles, asphalt and brick. Summary: 110.2 miles dirt with some clay; 45.2 miles gravel; 2.9 miles asphalt.

—MILEAGE—
Distance
Total Between
Mileage Points

The dirt road is very bad when wet as it follows the line of the river thru flat, low country. There is a bad stretch of clay in swamp thru Banks. The route is practically impassable in wet weather.

*Greenwood, Miss. (pop. 5,850, alt. 120 ft.), the county seat of Leflore county, is situated at the head of navigation on the Yazoo river. The city and the county name together are the name of a wealthy and progressive Indian, Greenwood Leflore, who formerly resided a few miles from the present site of the city. His magnificent ancestral home is still in existence. On the Yazoo-Delta highway, known as Humphreys highway, in Leflore county, at a point 3 miles from Greenwood, is Fort Pemberton, on the Tallahatchie river. The highway passes over a part of the breastworks of the fort. In the civil war the federals cut the levee of the Mississippi river at Yazoo Pass and attempted to reach Vicksburg via the Tallahatchie and Yazoo rivers, but

were stopped by the confederates at Fort Pemberton. The confederates had obstructed the channel by sinking the steamer "Star of the West" across it, and their shell fire disabling the Union boats, the federals were forced to turn back at this point.

The scenic attractions of Leflore county consist principally in its immense plantations of long staple cotton, corn and other products. It is not unusual to find farms containing 3,000 to 4,000 acres under cultivation, controlled by the one owner. The commercial and industrial features of Greenwood revolve largely around the cotton crop, and innumerable cotton gins will be found all over the country.

*Grenada, Miss. (pop. 4,000, alt. 194 ft.), seat of Grenada county, is the site of Grenada college for women and of the Richmond Hill observatory. This little town was staged for a great battle between General Grant and the confederate forces under General Pemberton during the civil war. General Earl Van

Dorn's raid was organized here at this time, which cut off Grant's base of supplies at Holly Springs and compelled him to retreat to Memphis with his army, thus saving this section from invasion. To the east and west of Grenada may be seen many old fortifica-

Route 396—Grenada, Miss., to Memphis, Tenn.—134.2 m.

Reverse Route 444.

Via Bryant, Coffeeville, Water Valley, Oxford, Malone, Waterford, Holly Springs, Victoria, Byhalia and Olive Branch. Fair graded dirt to Torrance; fair to poor dirt and clay to Bryant; fair graded dirt to Coffeeville; 13 miles good sand-clay to Water Valley; 2.6 miles fair dirt; 17.8 miles fair to good sand-clay to Oxford. From Oxford, 15.3 miles good sand-clay; 1.5 miles very poor dirt trail thru river bottom (this will probably be improved by publication time); 2.4 miles fair dirt and clay graded, then 10 miles graded dirt; 6 miles fair to good sand-clay to Holly Springs. From Holly Springs, 4 miles good gravel; 6 miles fair graded dirt; 24.5 miles fair to good gravel; 14.5 miles macadam to Memphis. Summary: 15 miles macadam; 29.2 miles good gravel; 53.4 miles fair to good sand-clay; 15.9 miles good graded dirt; 16.7 miles fair graded dirt; 5.7 miles poor dirt.

A section of the Jefferson Davis highway, thru low level farming country to Coffeeville, then winding thru a hilly farming country, with some wooded sections, to Oxford; hilly farming country to Olive Branch and level and rolling farming country to Memphis.

61.4	1.4 Left-hand road; turn left—sign "Standard."
	Straight ahead before this turn leads to Bay St. Louis.
63.0	1.6 End of road; turn right. Pass Standard P. O. on right 64.6. Cross RR 67.8. Pass Vidalia P. O. on left 70.6. Avoid left-hand road 73.9 (which is option to Pass Christian).
78.7	15.7 4-corners; straight thru.
79.1	0.4 De Lisle. Straight thru. Cross long wooden bridge over Wolf River 80.2. Cross long wooden bridge 81.4. Cross RR 83.6.
83.9	4.8 End of road, sign on right; turn left, running along shore of Gulf of Mexico.

Don't neglect the points of interest—read them and make your trip more enjoyable.

84.8 0.9 Pass Christian,* P. O. on right. Straight thru.

HOTELS—Hotel Miramar, facing Gulf of Mexico.

Join trolley from left 87.9. Thru Long Beach 90.7. Avoid left-hand road where trolley leaves 92.7. Turn left with road 93.9, and join trolley from left beyond—now on 30th Ave.

94.1 9.3 The Circle; turn right with trolley onto 13th St. Cross RR 94.2.

94.4 0.3 4-corners, turn left with trolley onto 25th Ave.

94.5 0.1 GULFPORT,* 25th Ave. & 14th St., bank on left.

HOTELS—Great Southern Hotel.

Route 409—Jackson, Miss., to Baton Rouge, La.—177.0 m.

Reverse Route 385.

Via Hazlehurst, Wesson, Brookhaven, McComb, Magnolia, Osyka, Kentwood, Greensburg and Grangeville. First 75 miles good gravel, then 4.2 miles fair to poor dirt, 16 miles good gravel to Magnolia; 1.5 miles good gravel, 11 miles fair graded dirt to Osyka; 5.9 miles good gravel to Kentwood; 3.7 miles good graded dirt, 26.3 miles fair to poor dirt, 3.3 miles poor dirt, thru swamp, 26.1 miles fair graded dirt, some mud holes, and 6.9 miles good gravel to Baton Rouge. Summary: 108 miles gravel; 37 miles fair dirt; 34 miles fair to poor dirt, some mud holes.

The road goes thru a rolling farming country, some woods, to Kentwood; rolling, sparsely settled country to Grangeville and level farming and wooded section to Baton Rouge.

This dirt road is passable in wet weather, but liable to be quite bad, especially in woods and on the hills, none of which, however, are long or steep.

If going to New Orleans ask at Kentwood for road to Madisonville connecting with boat to New Orleans. Fair road in dry weather.

Route 413—Baton Rouge to New Orleans, La.—139.0 m.

Reverse Route 381.

Via Port Allen, Plaquemine, Donaldsonville, Napoleonville, Labadieville, Thibodeaux, Raceland and Luling. Seventy-three miles good gravel to Labadieville; 22.6 miles graded dirt to Raceland; 4.3 miles good gravel, 3.1 miles shell, 24.0 miles good gravel, 3.8 miles graded dirt and clay, 7.1 miles good gravel, 5.3 miles pavement to New Orleans. Summary: 5 miles asphalt and pavement; 3 miles shell; 104 miles gravel, and 27 miles good graded dirt, some of which is to be gravel soon.

The route crosses the Mississippi river by ferry and follows river under levee to Donaldsonville, then along the bayou to Raceland; thru level country to Luling, crossing numerous bridges; here it meets river and follows levee to ferry, crossing into New Orleans. The river is not seen except from ferries. Many extensive sugar cane farms and large sugar mills are passed en route. The Baton Rouge ferry charges are 25c and 40c; New Orleans, 25c and 50c; 5c each passenger.

This is the best route between the two cities. It is 16 miles longer but has more gravel than Route 410 and is not as dusty when dry nor as muddy when wet.

GARAGES—Motor Car Habitat, 418 Carondelet St.

SERVICE STA.—United States Tire Sales & Service Depots located here.

*Thibodeaux, La. (pop. 5,000, alt. 13 ft.), is the home town of Chief Justice E. D. White of the U. S. supreme court; also was the home and is now the burial place of Governor F. T. Nicholls. Here also are buried a number of Union soldiers who fell in battle. A confederate monument and marble statue of a priest who labored here for fifty years are other interesting features. It is in the center

of the sugar cane belt and within short distances of several sugar factories where granulated sugar is made direct from the sugar cane. Factories operate from about October 20 to December 20, and are open to visitors. The harvesting of the sugar cane, the grinding of same, and the manufacture are very interesting.

Cathedral of St. Louis and Jackson Monument, Jackson Sq., New Orleans.

Meridian Section

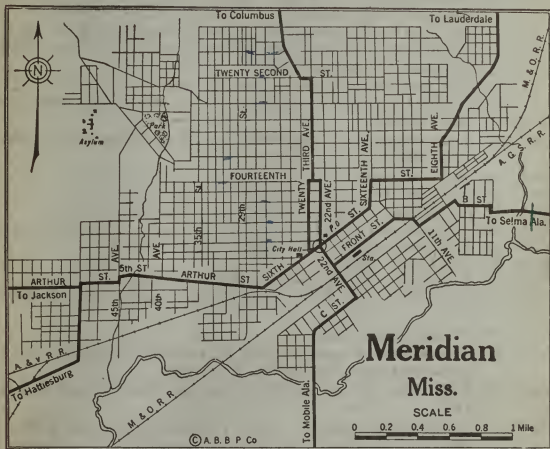

POINTS OF INTEREST, MERIDIAN, MISS.

Meridian (pop. 23,300, alt. 341 ft.), is the seat of Meridian female college, a Methodist institution opened in 1869; Meridian male college, and two institutions for colored students, namely the Meridian academy (Methodist Episcopal south) and the Lincoln school (Congregational). The East Mississippi insane asylum is also located here.

Meridian is the most important manufacturing center in the state, having over 200 industrial establishments, which include large railroad machine shops, cotton, cottonseed

oil, hosiery, stave and lumber mills. The city also has an extensive trade and is an important cotton shipping point.

During the civil war Meridian was an important confederate railway center, and in February, 1864, General Sherman was sent against it. He took the place without opposition, destroyed the railroads and public buildings, and seized the supplies. In March, 1906, a large portion of the business district was destroyed by a tornado.

- 26.5 5.8 Right-hand road; turn right. Cross RRs 32.8-33.6.

*Laurel, Miss. (pop. 14,875, alt. 243 ft.), produces more yellow pine lumber than any other place in the world. Saw mills are the principal industrial establishments. The town has a fine civic center, where are grouped the court house, city hall, U. S. government building, Pinehurst hotel and high school building, and boasts that it had the first Y. M. C. A. in the state and that \$63,000 for a new one was raised in four days. A model farm, established by Eastman, Gardiner & Co., now

under state supervision, is near the city.

*Hattiesburg, Miss. (pop. 2,500, alt. 143 ft.), is 116 miles northeast of New Orleans, on the Leaf river. It is one of the largest yellow pine centers in the south. It also has extensive manufacturing interests. It is the seat of the Mississippi normal college and the Baptist woman's college. It was settled in 1880. Camp Shelby, a national guard camp, very active during the late world war, is located here.

- Leaving ferry, keep ahead along RR.
 New Orleans City Map and Points of Interest, page 417.

*Bogalusa, La. (pop. 16,000, alt. 100 ft.) derives its name from the Choctaw words, "Boga Lusa," meaning "black creek." It is interesting to know that this town twelve years ago was a pine forest and the lumber used in its construction was cut from the town site itself. In the construction of the Bogalusa saw mill, which is one of the largest

in the world, 12,500,000 feet of lumber was used. Sixty acres of timberland are cut daily to operate this mill. A nine-hole golf course is maintained adjacent to the Pine Tree Inn. Goodyear is the largest of the town parks. Concerts and other amusements are provided here.

109.7 0.5 Milneburg, end of road. Turn right onto Columbia St. Turn square left with road 117.1 onto Frenchman Road. Thru diagonal 4-corners 119.6. Cross RRs 112.6.

Note—Traffic regulations in New Orleans are very strict, especially on Canal St. and the thoroughfares which cross it. All this cross-town traffic goes one way on one street and the other way on the next thruout the business part of the city. On cross-streets follow street car traffic so as to know in which direction a street may be traversed. Extreme caution should be used on all crossings.

113.5 3.8 Claiborne St.; meeting trolley, turn right along parkway.

114.0 0.5 5-corners, circle in center; bear left with trolley onto parkway. Cross iron bridge and RR 114.1.

115.2 1.2 Canal St.; turn left.

115.9 0.7 NEW ORLEANS, Canal & Charles Sts.

- 35.4 5.8 Fork; keep right.
- 36.4 1.0 Fork; bear right.
- 38.0 1.6 4-corners—sign "Logtown"; turn right on sand-clay road.
- 46.2 8.2 Fork; keep right.

Left leads to Bay St. Louis.

- 46.9 0.7 Right-hand road; turn right. Cross RRs 47.4-48.2-49.0. Cross wooden bridge 49.2.

- 49.3 2.4 **LOGTOWN, MISS.**, P. O. on right.

FERRIES—The H. Weston Lumber Co.

Straight ahead is Route 331 to New Orleans.

Note (b) Route 422—Mileage 99.7 to New Orleans, La.—14.1 m.

Reverse Note (a) on Route 374.

Via Covington, Madisonville and boat across Lake Ponchartrain to West End. Shell road to Madisonville; pavement to West End and New Orleans.

This note may be used if boat is not running from Mandeville (inquire at Covington).

Boat leaves every day at 2 p. m., Saturday at 12:30 p. m., Sunday at 3:00 p. m. Charges \$10.50, \$15.50, \$20.50; \$1.75 each passenger. It is advisable to be at dock one-half hour before boat leaves.

- 99.7 99.7 Fork, just beyond RR; bear right.
- Left fork is Route 422 to Mobile via Mandeville.
- Cross long iron bridge 99.9.
- 100.3 0.6 Covington, Boston & New Hampshire Sts., court house on right. Keep ahead on Boston St.
- 100.6 0.3 End of street; turn left onto Jefferson Ave., avoiding right-hand street immediately beyond.
- 100.7 0.1 4-corners; turn right onto 19th St. Curve left onto Tyler St. 101.0.
- 101.4 0.7 Right-hand road; turn right. Cross long bridge 102.2. Cross logging RR 106.0.
- 107.2 5.8 4-corners, bank on right; turn left.
- 107.4 0.2 End of road; turn right.
- 107.5 0.1 Madisonville, 4-corners at stores. Turn left, along bank of river.
- 107.6 0.1 Boat across Lake Ponchartrain and river.
- Rates \$10.50, \$15.50, \$20.50; \$1.75 each passenger. Boat leaves every day 2 p. m., Saturday 12:30 p. m., Sunday 3 p. m.
- Leaving boat landing at West End, keep ahead along canal to end of road, where turn right across bridge.
- 107.8 0.2 End of street; turn left. Cross RR 110.1.
- 110.7 2.9 4-corners; meeting trolley, turn left across bridge, passing cemeteries on left.
- 110.8 0.1 Right-hand street; turn right with branch trolley onto Canal St. (double drive).
- 113.8 3.0 **NEW ORLEANS**, Canal & Charles Sts.

Route 424—Hattiesburg, Miss., to New Orleans, La.—121.1 m.

Reverse Route 375.

Via Columbia and Bogalusa. Sand-clay with some gravel to Bogalusa; balance fair sand-clay, very rough. Thru rolling country.
 Route 422 via Poplarville offers an option, not preferable in wet weather.

MILEAGE— Distance Total Between Mileage Points		
0.0	0.0	HATTIESBURG, Pine & Main Sts. Go south on Pine St. with trolley.
0.2	0.2	Right-hand diagonal street; bear right onto Hardy St. with trolley. Pass Normal School on right 2.5, where trolley ends.
3.3	3.1	Right-hand road; turn right.
4.0	0.7	Left-hand road; turn left. Cross RR at Clyde 11.9. Avoid left-hand road 12.2.

*Tuscaloosa, Ala. (pop. 12,000, alt. 230 ft.), at one time the capital of the state, is located on the Warrior river, recently made navigable by the U. S. government. It has many splendid old mansions, gardens and notable buildings, including the old capitol building, courthouse and state insane asylum. It is also the seat of many institutions of learning, most prominent of which is the University of Alabama, situated about a mile north of the center of town. It was opened in 1831 and is considered one of the leading colleges of the south. Tuscaloosa is an important cotton

shipping center and also owes much of its commercial supremacy to its coal and iron industries developed thru the Black Warrior region.

*Bessemer, Ala. (pop. 25,000, alt. 600 ft.), is the site of some of the largest coal and iron properties in this district and an important manufacturing center. It is located in a broad valley, on either side of which mountain ranges tower above it, on the east red ore mountains and on the west vast mountains of coal.

 141.5 1.8 FLORENCE,* S. Court & Tennessee Sts., court house on left.
 GARAGES—Tennessee Valley Auto Co., opp. Jefferson Hotel.

*Tuscumbia, Ala. (pop. 4,000, alt. 490 ft.), on the Tennessee river, is pleasantly situated in an agricultural district encircled by hills. It is 2 miles south of Sheffield. As far back as 1870 the French colony on the Wabash river established a trading post at this place. Here was built the first railroad west of the Alleghany mountains. It consisted of a line two and one-eighth miles in length, extending from the city to the landing on the Tennessee. Tuscumbia was the home of many distinguished citizens and of some of the greatest lawyers of the state, among whom was Arthur H. Keller, father of the world-famed blind girl, Helen Keller. The home of Helen Keller in the northern part of the town has undergone few changes. The little office in the yard where she received her first training from her teacher and companion, Mrs. Annie Sullivan Macy, is still to be seen. The town library has been erected in her honor. The Deshler female institute, monument to the memory of Brigadier-General James Deshler of Tuscumbia, who was killed at the battle of Chickamauga, is another point of interest, as is also the Big Spring, from which flows 17,724 cubic feet per minute at a temperature of 58 degrees. Near this spring, in the center of town, on the banks of the stream, is located Spring park. Northeast of the city, a quarter of a mile from the birthplace of Helen Keller, is Nitrate Plant No. 1, constructed by the U. S. government in 1918, said to be the largest of its kind in America. Three miles northwest of the city is Nitrate Plant No. 2, also constructed by the government in 1918, and at which are employed 20,000 persons.

*Florence, Ala. (pop. 18,000, alt. 506 ft.), is one of the oldest and most picturesque cities in the south and has played a very large part in the history-making of Alabama, furnishing as it has many statesmen and leaders. Ferdinand Sannouer, a young Italian engi-

neer, laid out Florence over one hundred years ago, under the direction of General John Coffee, and tradition has it that he was granted the privilege of naming the new town after his beloved city in Italy. Florence has, since early days, been considered one of the leading educational centers of the state. The State normal college is located here and also the Coffee high school, in addition to a large number of up-to-date graded schools.

Situated on the Tennessee river, and lying just below the last of a series of rapids known as Mussel Shoals, it is ideally located. The scenery along the Tennessee at this point is particularly beautiful, and compares favorably with that of the Hudson. It is at this point that the big Wilson dam is in process of construction, which, when completed, will generate as much power as Niagara Falls, and which will require five years to complete. A visit to the dam will well repay the tourist. United States nitrate plant No. 2 is also located on the outskirts of Florence. This plant, the largest of its kind in the world, was rushed to completion during the war at a cost to the government of over seventy million dollars. This enormous plant, which was originally intended for the manufacture of explosives for war uses, will now, in peace times, be utilized for the manufacture of fertilizers. The famous Jackson military highway, extending from Chicago to New Orleans, passes through the city, and will be found a delight to the motorist.

Florence is a city of diversified industries. The Florence wagon works, with a capacity of a wagon every fifteen minutes, is located here. In addition to this well known concern, there are two large cotton mills, a stove foundry, several lumber mills, brick kilns and a furnace of the Sloss-Sheffield company, besides many other smaller manufacturing plants.

Route 434—Florence, Ala., to Nashville, Tenn.—117.4 m.

Reverse Route 492.

Via Lawrenceburg, Mt. Pleasant, Columbia and Franklin. Alternating stretches of stone and gravel and dirt to Mt. Pleasant, then 49.3 miles stone and gravel; balance 5.5 miles macadam. Summary: 16.3 miles dirt; 95.6 miles gravel and stone; 5.5 miles macadam.
Thru rolling farming country.

- 117.4 43.1 NASHVILLE, Woodland & 1st Sts., court house on left.

*Lawrenceburg, Tenn. (pop. 2,500, alt. 11,000). The monument standing here in the public square is said to be the only one in the United States erected to the memory of the Mexican soldiers who volunteered and fell at Monterey.

*Mt. Pleasant, Tenn. (pop. 5,000, alt. 616 ft.), has important and extensive phosphate industries. General Andrew Jackson and General Coffee rode thru the main street of this town (now the Jackson highway) at the head of their victorious troops after the battle of New Orleans—Jackson later returning to build the road from here to New Orleans, which he regarded a military necessity.

*Columbia, Tenn. (pop. 5,775, alt. 656 ft.), is situated on Duck river, 49 miles southwest of Nashville. It is the seat of a United States Arsenal, a military academy, and the Columbia institute for young ladies. The court-house, the Columbia Athenæum, public library and hospital are noteworthy buildings. The former home of President Jas. R. Polk, still standing, is of historic interest. The town is surrounded by a fertile agricultural region and is an important grain center and one of the largest individual mule markets in the world. It also possesses large phosphate interests.

Memphis Section

POINTS OF INTEREST, MEMPHIS, TENN.

Memphis (pop. 132,000, alt. 117 ft.), "Queen City of the Valley," is the metropolis of the state, and the most important city on the Mississippi river between New Orleans and St. Louis. It is imposingly located on the Chickasaw bluffs, with a broad levee overlooking the magnificent river. The site was first occupied by an Indian village named Chisca, which was visited by Fernando De Soto in 1541, when he first discovered the Mississippi river. On June 6, 1862, during the civil war, a Union fleet in command of Charles Henry Davis defeated a confederate fleet under J. E. Montgomery. The city remained in the hands of the Union forces from that time until the close of the war. The city suffered severely by an epidemic of yellow fever in 1873, losing 2,000 citizens, and again in 1878, with a loss of 5,000.

The Memphis of today is a thriving commercial center, handling over one million bales of cotton annually and over one million feet of hardwood daily; besides this, there is a large trade in mules and horses, thousands of which were sent to the armies of the Allies during the late European war. The city has been the home of such famous men as Jefferson Davis, Luke E. Wright, Walter Malone

and General Nathan Bedford Forrest.

The center of Memphis is Main street and Madison avenue. This is the hub of the city. Main street stretches to the north and south. It is wide, excellently graded, well policed, and seething with activity.

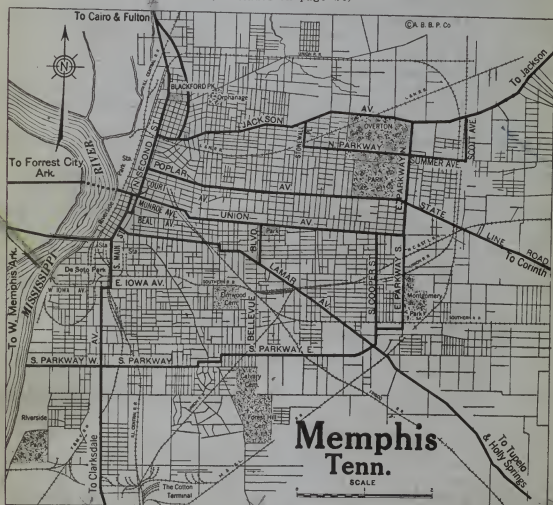

Just a block to the south, at the corner of Monroe, there is a three-story building. This building would hardly attract your attention. There is apparently nothing unusual about it except that only recently it broke all records for southern realty prices. The new owner paid \$6,400 per foot front for it.

Within a few feet of this structure is the Chamber of Commerce—a pretty, six-story edifice of red brick, fireproof, and said to be one of the most elaborate and complete club-houses in the country. Visit the club. You are welcome.

To the north of Main and Madison is Court square—the Piazza San Marco of Memphis. Here great flocks of pigeons make their homes and timid squirrels have been so petted and pampered that they no longer hesitate to pick one's pocket for any little delicacy you may have concealed.

One block west from Court square is Confederate park, with its battery of old guns

HOTEL CHISCA

Newest and largest hotel in Memphis. Absolutely fireproof. Four hundred rooms, beautifully furnished. Spacious lobby and 'balcony' render this hotel especially attractive. Splendid cafe and lunchroom service.

Convenient garage within one block.

PEABODY HOTEL...

Located in the heart of the retail shopping district. Its cafe, lunch rooms and soda room fill every requirement of the hotel patron, business man or shipper.

Convenient garage within one block.

HOTEL GAYOSO

For many years known as the leading hotel of Memphis. Headquarters for Commercial Travelers, Lumbermen, Merchants and Planters of this territory. Large, well lighted and well furnished sample rooms. The ideal home for ladies visiting Memphis for shopping or theatrical attractions. Convenient garage within one block. Splendid cafe, lunch room and tea room service.

Route 441—Memphis, Tenn., to Greenwood, Miss.—159.0 m.

Reverse Route 393.

Via Dundee, Clarksdale and Sumner. First 2.9 miles asphalt and brick; then 11.4 miles gravel, followed by 79.7 miles alternating gravel and dirt to Clarksdale; from Clarksdale the road is gravel 8.6 miles, then 47 miles dirt, with some clay, which is bad when wet; balance 10 miles gravel. Summary: 110.2 miles dirt; 45.2 miles gravel; 2.9 miles asphalt and macadam.

The dirt road is very bad when wet as it is in flat, low country and follows the line of the river. There is a bad stretch of clay in swamp thru Banks. The route is practically impassable in wet weather.

This route in conjunction with Route 442 offers best way to Jackson.

(Memphis Points of Interest, concluded from page 474)

as grim reminders of the great inland naval battle was that waged off this point half a century ago. Several of these cannon are said to have been among the largest used by the confederate army.

The view from this point is unexcelled. North is the great bend famous in Indian legends as one of the most magnificent on the river. Nowadays, however, the Indian legend has given way to commercial growth, for on the point that juts out into the swift current freight engines are busy handling their strings of cars.

To the south stretches the skeleton-like length of the great Memphis bridge—once acknowledged in every land as one of the most remarkable engineering feats of that day. Time was when this bridge was considered more than sufficient to handle all of the traffic between the two coasts, but Memphis and the inland empire of which she is the capital city, have grown so rapidly that another bridge has been added—a six-million-dollar structure that far overshadows any span along the entire length of the great "Father of Waters." This bridge has an interurban trolley service, double railroad tracks, pedestrians' walks and a free wagonway. One end of this great span rests upon the spot where De Soto stood when he led his band of discoverers to the banks of the mighty "Father of Waters." And so this six-million-dollar monument to J. H. Harahan, the man who headed the first company to finance it, is also a modern memorial to De Soto.

Now return to Main street. From the square you can go three blocks north to Adams, and then one east to Second street. Here you are given an insight into a real civic center. The first building, the two-story white stone structure, is the new fire headquarters, with its motor apparatus and the latest and best of everything for fighting what a big city fears most. Adjoining is a

building that looks like a library or bank. This is the finest police headquarters in the world—a model in perfection of arrangement, sanitation, usefulness, strength and beauty. Across the street, covering an entire city block, is the famous Shelby county court house, an architectural masterpiece that has won the plaudits of the lovers of the artistic the world over. The church down the avenue is St. Peter's. In reality, this building is a cathedral, massive and inspiring—one of the oldest of the Memphis churches, beautiful of interior with its gold-embellished figures and scenes—revered by Catholics and Protestants alike as hallowed ground upon which many stirring events of the city's life have transpired.

Perhaps the city's most attractive public reservation is Overton park. Here are the pretentious buildings of the zoological gardens. This is the largest free zoo in the world, with but one exception, the Bronx zoo, in New York. The Cincinnati zoo may be larger, but an admission fee is charged. To the north of the zoo you are given a glimpse of the great parkway, said by landscape gardeners to be one of the most artistic in the country. It encircles the city like a great belt, and it is over 15 miles in length.

Over to the east of Overton is Binghamton, the industrial suburb of Memphis. The American Car & Foundry and other big plants furnish employment to a host of skilled workmen.

Another point of interest in Memphis is the fair grounds. This is the renowned old Montgomery track, where many a famous runner has caused the grandstand to shake and creak under the thunderous applause as he shattered a new speed record. Now the day of the thoroughbred, except for the classy pacers, is past, and Memphis has the Tri-State fair instead. The city bought this park from its owners and turned it over for a municipal playground and fair site.

Right on Howard St. is Route 442 to Jackson.

*Greenwood, Miss. (pop. 5,850, alt. 120 ft.), the county seat of Leflore county, is situated at the head of navigation on the Yazoo river. The city and the county name together are the name of a wealthy and progressive Indian, Greenwood Leflore, who formerly resided a few miles from the present site of the city. His magnificent ancestral home is still in existence. On the Yazoo-Delta highway, known as Humphreys highway, in Leflore county, at a point 3 miles from Greenwood, is Fort Pemberton, on the Tallahatchie river. The highway passes over a part of the breastworks of the fort. In the civil war the federals cut the levee of the Mississippi river at Yazoo Pass and attempted to reach Vicksburg via the Tallahatchie and Yazoo rivers, but were

stopped by the confederates at Fort Pemberton. The confederates had obstructed the channel by sinking the steamer "Star of the West" across it, and, their shell fire disabling the Union boats, the federals were forced to turn back at this point.

The scenic attractions of Leflore county consist principally in its immense plantations of long staple cotton, corn and other products. It is not unusual to find farms containing 3,000 to 4,000 acres under cultivation, controlled by the one owner. The commercial and industrial features of Greenwood revolve largely around the cotton crop, and innumerable cotton gins will be found all over the country.

Route 442—Greenwood to Jackson, Miss.—105.2 m.

Reverse Route 391.

Via Lexington, Pickens, Canton and Madison. First 7 miles gravel, then 18 miles of dirt, followed by 21 miles of gravel and 11 miles of dirt to Pickens; from Pickens road is gravel for 3 miles thru swamp, then 11 miles dirt; balance 34.7 miles gravel. Summary: 65.9 miles gravel; 39.3 miles dirt.

Thru a rolling farming country devoted to cotton raising. From Pickens the road goes thru a swamp on levee, crossing eighteen wooden bridges. The bridges and culverts on the 11 miles of dirt, just beyond swamp, are all poor and have bad approaches.

HOTELS—The Edwards, Capital St., across from Depot.
Hotel Royal, Capital St. 2 blks. E. of Depot.

*Canton, Miss. (pop. 4,000, alt. 200 ft.), seat of Madison county, is a pretty little town made especially attractive by the native water

oak trees which shade the streets. The large spreading oak under which Gen. Sherman camped is still standing in Peace St.

Route 444—Memphis, Tenn., to Grenada, Miss.—134.2 m.

Reverse Route 396.

Via Olive Branch, Byhalia, Victoria, Holly Springs, Waterford, Malone, Oxford, Water Valley, Coffeeville and Bryant. From Memphis, 14.5 miles macadam; 24.5 miles gravel; 6 miles fair graded dirt; 4 miles gravel to Holly Springs. From Holly Springs, 6 miles fair to good sand-clay; 10 miles graded dirt; 2.4 miles fair dirt and clay; 15.3 miles good sand-clay to Oxford, with 1.5 miles very poor dirt thru river bottom—probably improved by fill; 17.8 miles fair to good sand-clay; 2.6 miles fair dirt to Water Valley; 13 miles good sand-clay to Coffeeville; fair graded dirt to Bryant; fair to poor dirt and clay to Torrance; fair graded dirt to Grenada. Summary: 15 miles macadam; 29.2 miles good gravel; 53.4 miles fair to good sand-clay; 15.9 miles good graded dirt; 16.7 miles fair graded dirt; 5.7 miles poor dirt.

A section of the Jefferson Davis highway, thru level and slightly rolling farming country to Olive Branch, then winding thru hilly farming country, with some wooded sections to Coffeeville and thru low level farming country to Grenada.

This route combined with Route 445 is one way to Jackson, Miss., but not as good as a combination of Routes 441 and 442.

Route 477 offers a shorter option to Oxford, but more winding and not as good; would make inquiries at Memphis as to which is in best condition.

*Grenada, Miss. (pop. 4,000, alt. 194 ft.), seat of Grenada county, is the site of Grenada college for women and of the Richmond Hill observatory. This little town was staged for a great battle between General Grant and the confederate forces under General Pemberton during the civil war. General Earl Van

Dorn's raid was organized here at this time, which cut off Grant's base of supplies at Holly Springs and compelled him to retreat to Memphis with his army, thus saving this section from invasion. To the east and west of Grenada may be seen many old fortifications.

- 122.2 48.7 JACKSON, State & Capitol Sts., old capitol bldg. on left.

Route 454—Memphis to Jackson, Tenn.—98.1 m.

Reverse Route 501.

Via Raleigh, Bartlett, Arlington and Brownsville. First 11.5 miles macadam and asphalt, next 19.2 miles good gravel, then 60.7 miles fair-to-good graded dirt except 2 miles of rough gravel across swamp near Brownsville; last 6.7 miles good gravel and macadam. Summary: 11 miles macadam; 26 miles gravel; 61 miles fair to good graded dirt.

Thru a rolling farming country devoted principally to cotton growing. Route crosses swampy lowlands on levees near Arlington, Mason, Stanton, Brownsville and near Jackson. Each of these levees has numerous bridges, all in fairly good condition.

This route connects at Jackson with Route 462 to Cairo and Route 470 to Corinth, also Route 469 to Nashville. This route used in conjunction with Route 469 forms best way to Memphis and Nashville.

 * Left is Route 462 to Cairo.

Route 455—Memphis, Tenn., to Cairo, Ill.—176.8 m.

Reverse Route 456.

Via Covington, Henning, Trimble, Union City, Clinton, Bardwell and Wickliffe. First 23.3 miles from Memphis good gravel, then 4.8 miles narrow gravel on old RR bed; 74 miles fair to good graded dirt, with some gravel and asphalt thru towns to the Obion river bottoms; 2 miles of very rough levee to long wooden bridge into Obion. There is to be a new levee built from Trimble to Obion which will shorten this distance considerable—ask at Trimble. From Obion to Union City 17.7 miles fair dirt, some clay with 1 mile gravel near Union City. From Union City 2 miles gravel; 17 miles fair graded dirt; 0.6 miles dirt thru lowland which is impassable during very wet weather (at such times use route to Fulton and Clinton; ask about condition of road at Union City); 3.3 miles fair graded dirt to Clinton. From Clinton 23 miles fair graded dirt to a river bottom, 0.8 miles impassable when wet, but can be avoided by using Note (a) Bardwell to Wickliffe; then 2 miles on old RR bed, narrow gravel thru a tunnel of trees; 2.7 miles graded dirt to ferry at Wickliffe. Summary: 41 miles gravel; 132 miles fair to good graded dirt; 3.1 miles poor rough, impassable in high water time.

There are two bad stretches on this road, one near Obion and one near Wickliffe. These are low river bottom lands and impassable when real wet or during spring of year. Stretch near Obion may be avoided by inquiry for better road at Dyersburg and stretch at Wickliffe by using Note (a) Bardwell to Wickliffe. In extremely high water this is also impassable and it will be necessary to go via Union City, Fulton, Paducah and Cairo. In early spring or at flood stage of Mississippi and Ohio rivers the latter route is likewise impassable and the only way thru is via Jackson and Fulton. Careful inquiries should be made at Dyersburg, Trimble and Union City as to condition of road during very wet weather. Bridges and culverts are nearly all in bad condition and approaches are bad. Considerable work is contemplated on this road and it may be passable at all seasons by fall of this year.

Road traverses a rolling and hilly farming section with some flat land at creek or river bottoms. Farms devoted to cotton, corn and wheat raising north to Obion, then considerable tobacco is grown from there to Wickliffe.

Ferry leaves Wickliffe at 9:00 and 11:00 a. m., 3:00 and 4:45 p. m., Sundays at 4:00 p. m. Charges \$1.05, car and driver; 25c each passenger.

This route connects at Union City with Route 457 to Hopkinsville and Route 458 to Paducah.

 169.0 1.1 End of road; turn left.
 169.8 0.3 3-corners; bear left with poles.
 170.4 0.6 Right-hand road; turn right. Go over RR bridge 171.3. Cross long iron bridge 171.4 thru river bottom (very poor). Curve right with road 172.1, coming onto old RR bed (narrow gravel thru tunnel of trees). Thru ford 175.3.
 175.4 5.0 End of road; turn left.
 175.8 0.4 Right-hand road; turn right, keeping ahead thru 4-corners just beyond.
 175.9 0.1 4-corners; turn left.
 Straight ahead before this turn is Route 460 to Paducah.
 176.0 0.1 Wickliffe, Ky., courthouse on right. Straight thru across RR. Cross switch 176.3.
 176.4 0.4 Ferry across Ohio river at Kentucky-Illinois state line.
 Charges, car and driver, \$1.05; passengers 25c each. Boat leaves 9:00 and 11:00 a. m., 3:00 and 4:45 p. m., Sundays, 4:00 p. m.
 Leaving ferry, keep ahead onto 6th St.
 Cairo City Map and Points of Interest, page 495.
 176.6 0.2 Commercial St.; meeting trolley, turn right.
 176.8 0.2 CAIRO, ILL., Commercial & 8th Sts.
 HOTELS—Halliday Hotel, Ohio St.
 GARAGES—Burke Motor Sales Co., 908-10 Commercial Ave.

Note (a) Route 455—Bardwell to Wickliffe, Ky.—16.0 m.

Reverse Note (a) on Route 456.

Via Blandville. From Bardwell 6.5 miles fair graded dirt; 2 miles fair dirt (some gravel) thru lowland to Blandville. All gravel from Blandville to Wickliffe.

Thru hilly farming country, with 2 miles lowland near Blandville.

During high water this route is sometimes passable while regular route is impassable. Inquire about regular route at Bardwell.

- 0.0 0.0 BARDWELL, 4-corners at stores. Go north.
 0.3 0.3 4-corners, brick church on right; turn right.
 1.1 0.8 End of road; turn right. Avoid left-hand road 1.6.
 3.0 1.9 4-corners, wooden church on right; turn left.
 8.5 6.5 Blandville, 4-corners at stores, P. O. on right. Turn left.
 Left at 15.4 is Route 456 to Memphis.
 15.8 7.3 Right-hand road; turn right two blocks.
 15.9 0.1 4-corners; turn left.
 Straight ahead before this turn is Route 460 to Paducah.
 16.0 0.1 WICKLIFFE, 4-corners, court house on right, bank on left.
 Straight ahead leads to ferry to Cairo.

STOP! LOOK! LISTEN!

You'll hear a lot of things about CINCINNATI. Page 584 tells you more! See CINCINNATI and learn STILL MORE!

Route 456—Cairo, Ill., to Memphis, Tenn.—176.8 m.

Reverse Route 455.

Via Wickliffe, Bardwell, Clinton, Union City, Trimble, Henning and Covington. From Wickliffe there is 2.7 miles fair graded dirt; 2 miles on old RR bed gravel (thru a tunnel of trees); 0.8 mile of very poor road thru river bottom. This is impassable when wet and can be avoided by using Note (a) Wickliffe to Bardwell. From here 23 miles fair graded dirt to Clinton; 3.3 miles fair graded dirt; 0.6 miles thru lowland, impassable during high water (at such times use route to Fulton and Union City); 17 miles fair to good graded dirt to Union City with 3 miles of gravel near city. From Union City 17.7 miles fair dirt and clay to Obion. From Obion route crosses Obion river bottom on long wooden bridge for 0.6 miles, then on a very rough levee for 2 miles, where it leaves the river bottom. New levee to be built to Obion, which will shorten this mileage considerable; ask at Obion. From river bottom there is 74 miles fair to good graded dirt road with some gravel and asphalt thru towns, then road runs on old RR bed (gravel and narrow) for 4.8 miles. Balance of way to Memphis (23.3) miles good gravel. Summary: 41 miles gravel road; 132 miles fair to good dirt (graded); 3.1 miles poor rough, impassable during high water.

Road runs thru a rolling and hilly farming section, with some flat land at creek or river bottoms. Considerable tobacco is grown south as far as Obion; from there farms are devoted principally to wheat, grains and cotton.

There are two bad stretches on this road, one near Wickliffe and one near Obion. These are low river bottom lands and are impassable when wet or during spring of year. Stretch near Wickliffe can be avoided by using Note (a). The one near Obion can be avoided by inquiry for better roads at Obion. Neither of these are passable at flood stage of the rivers. In very wet weather use Route 460 to Paducah and Route 461 to Fulton and Jackson, Tenn.; only way to get thru. This applies to flood stage of Ohio and Mississippi rivers. Careful inquiries should be made at Wickliffe and other points on route before trying to go thru in wet weather unless you want to be pulled thru these two bad places. Bridges and culverts are nearly all in bad condition and approaches are bad. Considerable work is contemplated along this route and it may be passable in all seasons by fall of this year.

Ferry from Cairo leaves at 7:00 and 10:00 a. m., 1:00 and 3:30 p. m., Sundays at 3:00 p. m. Charges \$1.05, car and driver; 25c each passenger.

What to Take on the Tour

WHEN it comes to the selection of touring equipment, an ounce of common sense is worth a pound of advice. Necessary equipment for one tour is unnecessary for another. The list given below contains equipment which will enable you to meet every emergency short of an absolute wreck. It is not expected that any tourist will have to carry all of these items, but the list will offer suggestions and call to your mind articles you have overlooked. First familiarize yourself as far as possible with the conditions you will meet on the tour, the distance between supply stations, the condition of the roads, etc. With this in mind, determine, not how much you can take, but how much you can eliminate and still be prepared for the unexpected. Travel as light as possible. Every unnecessary pound wastes space and power. How much of the following do you need and how much can you do without?

EDITOR'S LIST OF EQUIPMENT AND ACCESSORIES

- 1 **Tool kit:**
large and small monkey wrench.
two sizes of screw drivers.
set of socket wrenches.
set of open end wrenches.
pipe wrench.
machinist's hammer.
punches, cold and cape chisels.
files.
cutter pin extractor.
cutting pliers; thin nose and slip joint.
knife.
small vise to clamp on running board.
- 2 **Tire equipment:**
two demountable rims, with extra tires, and tubes.
extra rim bolts and nuts.
two additional tubes, in bags.
two blow out patches.
one blowout shoe (outside).
one brace to fit rim bolts.
good set of tire tools.
tire and tube repair material and kit.
air valves and caps.
air pressure gage.
talc for tubes.
- 3 **Fuel and oil equipment:**
oil squirt can.
gallon can of oil.
gallon of gasoline (reserve).
grease gun and small can of grease.
combination funnel and pint measure.
piece of chamois.
- 4 **Repair material:**
wire insertion asbestos packing.
Several sizes soft iron wire.
box assorted nuts, bolts, and lock washers.
assorted cotter-pins and terminals.
electric tape.
length high tension cable.
length low tension cable.
radiator repair bolt, nut and washers.
- 5 **Tire chains:**
extra cross chains.
- 6 **Jack:**
small block of wood to place under jack.
- 7 **Spark plugs and gaskets:**
gage for testing spark gap.
plug terminals.
- 8 **Valve and spring assembly.**
- 9 **Spot light.**
- 10 **Trouble lamp.**
- 11 **Hand pump or engine pump.**
- 12 **Pull-out device.**
- 13 **Collapsible shovel.**
- 14 **Roll of chicken wire, 12" — to pull out of sand.**
- 15 **Waste and cheese cloth.**
- 16 **Folding bucket.**
- 17 **Thermos bottle and lunch kit.**
- 18 **Touring trunk (dust proof).**
- 19 **Suitcase carrier brackets.**
- 20 **Waterproof cover for luggage.**
- 21 **Hand soap.**
- 22 **First aid kit.**
- 23 **Extra bulbs in protective case.**
- 24 **Hydrometer for battery.**
- 25 **Motometer for Radiator.**
- 26 **Radiator hose and hose clamps.**
- 27 **Extra spring clip and bolts.**
- 28 **Spring clamp for broken spring.**
- 29 **Set of crankcase pet cocks.**
- 30 **Head-light dimmer lenses.**
- 31 **Celluloid cover for Blue Book.**
- 32 **Foot rest for gas throttle.**

Brake Linings

ASBESTOS BRAKE LINING

Before starting on that trip have your brakes relined with S-M-C. Its use means

Safety Made Certain

Better made, of superior quality asbestos, with friction wire interwoven, and treated with the Special S-M-C compound which makes it slip-proof, heat-proof, oil-proof and water-proof. Your garage man can supply S-M-C—see those letters on the roll.

Staybestos Mfg. Co., 5537 Lena St., Phila.

What to Take on the Tour

A few comments on the various items in the accompanying list are now in order. Any stock car in good condition is capable of making even a trans-continental tour. If petcocks are used under the crankcase, carry an extra set, or substitute beveled plugs, which will not be scraped off or opened by the high crown of a road.

The one part of the equipment which will not tolerate much pruning is the tool kit. We would strongly advise the use of the entire list of tools given under section No. 1.

You can make your trip a record of tire trouble punctuated with punctures and blowouts, but there is no need of it. Start the tour with good tires and tubes on all four wheels, with two complete changes (demountable rims, tires and tubes and with two additional emergency tubes in the car). A great many punctures occur in the tool box; inner tubes should be correctly folded and carried in bags to prevent chafing. Be generous with

(Continued on next page)

Camp Stoves

The Mazura is a collapsible type of stove for out-of-door cooking and is made large enough to accommodate two utensils. It is very easily set-up and is practically indestructible.

Frame is bar-steel $\frac{3}{4}$ in. x $\frac{3}{16}$ in. with hand-steel $\frac{1}{2}$ " x $\frac{1}{4}$ ". Three sides are covered with sheet-steel to produce a natural upward draft.

If your true hook dealer cannot supply you, write direct to

MAZURA MFG. CO.,
412-14 S. 6th St., St. Louis, Mo.

Car Cost Records

Hundreds of motorists have found this system a great saving of money and wear and tear on their car—because it leads them to an investigation and thus helps them to locate any trouble which may exist.

Leather binder and pads complete \$2.00.

MOTOR LIFE

Jacks

Jack your car on ball bearings

A few easy turns on the long handle and your car is raised. To lower it, merely reverse the turns and pull the jack out by the handle. You perform every operation without once getting under the car. The diamond point hardened steel top with BULL-DOG grip bites the axle and holds it firm. There is no danger of slipping. You can avoid having the tire rim fall on a deflated tire.

What to Take on the Tour

insist on having it "chamoised." Unless your car is fitted with a tank containing a gasoline reserve, it will be a good idea to strap a gallon to the running board.

Material for roadside repairs earns the small space that it occupies. You can often repair a honeycomb radiator which has sprung a small leak, or been hit by a stone—by means of a bolt and nut with a leather and metal washer at each end. Pass the bolt through the opening where the leak occurs and tighten the nut. The washers at each end seal the opening between the cells. Carry a length of rubber tubing. If the feed line wears through file it in half at the point where the leak occurs, slip the ends into a piece of rubber tube and wire it tightly.

Some sort of emergency tire chains should always be carried, whether your tires are anti-skid or not. For heavy deep mud heavy single chains or mud hooks fastened over the tire and around one spoke of the wheel will insure a prompt getaway from the worst mud hole. It is possible to put on such chains without

getting off the running board. In using lighter chains for regular travel over slippery roads it is advisable to use springs to hold them fairly taut—though not too stiff to prevent creeping.

Buy the best, most durable jack on the market. The best is none too good to stand the heavy strain of the weight of your car. A long handle jack will enable you to place the tool under the rear axle without getting down on all fours. There are several excellent jacks on the market of this type. A small block of wood makes an excellent bed for the base of the jack when necessary to change a tire on uneven ground; it often saves valuable time in hunting for a stone and it takes up little space; some jacks have supplementary bases for this purpose. In case you break a spring a ball of heavy binder twine is invaluable; raise the body sufficiently to insert the ball between the axle and the frame; it will stay in place and has plenty of "give" to break the jar, enabling you to drive much faster to the nearest repair station.

Do not fail to carry extra plugs. Try them to be sure that they fit the thread, see that they have gaskets and that they will "spark" properly.

An approved type of headlight lens is necessary. A spotlight is a valuable addition to your equipment if you are following sign posts or a crooked, unfamiliar road after dark. Keep the

Champion Spark Plug Co., Toledo, Ohio

What to Take on the Tour

light down when you are approaching other users of the road. Abuse of the spotlight is resulting in unjust criticism of it. Ten or fifteen feet of electric cable fitted at each end with proper connectors will enable you to remove the headlamp or the spotlight and use it as a trouble light anywhere around the car.

A flat tire, a hot sun, and a poor pump will take all the joy out of life or touring. Some of the latest pumps are unusually easy to operate and are more efficient than the old "back breakers." Fortunately, too, the engine driven tire pump is gaining in popularity as part of standard equipment. Don't forget the pressure gauge, even though there is one connected in the air line of the engine pump. These gauges often read from five to fifteen pounds too high because of the additional pressure necessary to overcome the resistance of the valve itself.

It is better to *keep* out of trouble than it is to *get out* of trouble. When approaching mud or sand, or turning into a ditch, shift to a lower gear before you have to. It is seldom difficult to get out of a hole or sand if you handle the car properly. On bad sandy stretches, drive slowly, but as long as you can keep the car moving, *don't stop* and you will stay on top of the sand. The minute you stop, your rear wheels will immediately dig in. In such an event, try alternating reverse and first speed in quick

succession with passengers and extra weight removed. If you are still unsuccessful, your roll of 12-inch chicken wire—if you have included it in your equipment—will get you out. Simply work it under the drive wheel and corresponding front wheel; it will give you sufficient traction to pull out without trouble. You will run across few stretches of sand anywhere in this country that you cannot easily overcome. It is often advisable to deflate the rear tires to an inch and a half from the rim. This will give a broad traction about twice the ordinary width and by driving slowly you can go over the worst sand with comparative ease. Be sure to inflate immediately after passing the bad stretch.

Unless you buy a water-proof, dust-proof touring trunk you may find it necessary to send your "hotel clothes" on ahead. Suitcases with well designed suitcase carrier brackets are all right if you cover them carefully, not only on top, but also underneath, where water thrown onto the running board by the wheels can reach them.

Your battery is in danger of being overfed. Continuous day driving with no lighting and little demand for starting current may overcharge and overheat it. Feel of the top connectors, and if they are more than blood warm, burn all the lights and go slow for a while. A battery needs water when the level begins to get low, not when its ten days or two weeks are up. Every

Thermos

What to Take on the Tour

450 miles is a good average and that means every two or three days when you are touring. Carry your hydrometer and get distilled water from any reliable garage or from a druggist. To find the location of the nearest battery service station, refer to the General Index in the front of this book. Service stations of car and accessory manufacturers are also included. Their names, with street addresses, are listed under each town.

Lubricate according to mileage, not according to a certain number of days, weeks or months. Your engine is not at all interested in the calendar. Many tourists run their differentials dry, because in town they only filled them once in four or five months. Grease the speedometer swivel joint. If you never greased it before, hunt it up and give it a surprise.

Preparedness is worth the price. Select your equipment carefully. Then bear in mind that your car is traveling as far in a day as it sometimes travels in a week, and treat it accordingly.

(Continued on next page)

Throttle Foot Rests

Stanwood Adjustable Accelerator Foot Rest

Price each \$1.50 at your dealer
A safety device to guard against unintentional rapid acceleration when driving over rough roadways or street crossings, and to relieve the foot from constant tension. It permits delicate advancement or retarding of the accelerator. Adjustable to various heights and positions.

Tire Gauges

Tires that are kept inflated up to the requisite air pressure last twice as long—sometimes ten times longer—than tires that are run with not enough air in them. Measure your air daily with a

SCHRADER UNIVERSAL TIRE PRESSURE GAUGE

and get out of your tires all the miles they can give.

Price in U. S. \$1.50

If you have let your tires get soft because of a natural reluctance to do your own pumping, ask your dealer to show you the SCHRADER Pump-Connection. It greatly facilitates both tire-pumping and tire-testing.

Price in U. S. Fifty cents

Note (a) Route 456—Wickliffe to Bardwell, Ky.—16.0 m.

Reverse Note (a) on Route 455.

Via Blandville. Seven and five tenths miles gravel, 2 miles fair dirt thru lowland (some gravel), 6.5 miles fair graded dirt.

Thru hilly farming country with 2 miles lowland just outside Blandville.

During high water this route is sometimes passable while regular route to Bardwell is impassable. Inquire about regular route at Wickliffe.

0.0 0.0 WICKLIFFE, 4-corners, court house on left. Go east downgrade.

0.1 0.1 4-corners; turn right.

0.2 0.1 End of road; turn left.

Right at 0.6 is Route 456 to Memphis.

7.5 7.3 Blandville, 4-corners at stores. Turn right.

9.5 2.0 Fork; bear right. Avoid right-hand road 12.1.

13.0 3.5 4-corners, wooden church on left; turn right. Avoid right-hand road 14.4 and left-hand diagonal road just beyond.

14.9 1.9 Left-hand road; turn left.

15.7 0.8 4-corners just before RR, brick church on left; turn left.

16.0 0.3 BARDWELL, 4-corners at stores.

Straight ahead is Route 456 to Memphis.

Route 457—Union City, Tenn., to Russellville, Ky.—142.7 m.

Reverse Route 518.

Via Fulton, Murray, Eggner's Ferry, Cadiz, Hopkinsville and Elkton. From Union City to Fulton 13 miles fair-to-good graded dirt and 2 miles gravel. From Fulton 1 mile gravel, 19.6 miles fair graded dirt to Lynnville, then 21.3 miles worn bumpy gravel, 7.4 miles fair gravelly dirt, 4.3 miles poor dirt and clay, one stony hill to the ferry. (This clay is bad in wet weather, probably will be fixed this summer.) From Eggner's Ferry to Hopkinsville 39.5 miles stone, with some dirt stretches, and 34.8 miles sand-clay to Russellville. Summary: 25 miles gravel; 33 miles fair graded dirt; 4 miles poor road (probably fixed this year); 40 miles stone, with some stretches of dirt, and 35 miles sand-clay.

Thru a rolling farming country to Fulton and then thru a hilly farming country. Considerable tobacco is raised in this section and the country becomes more wooded near the river. Caution should be used on bridges and culverts as nearly all are bad and have bad approaches.

The ferry is gasoline propelled. Fare \$1.00 and \$1.25; truck according to weight. It runs on signal day or night.

—MILEAGE— This is the best way from western Kentucky and Tennessee to
Distance Louisville, Evansville and the north. It connects at Fulton with Route

POINTS OF INTEREST, PADUCAH, KY.

Paducah (pop. 25,000, alt. 341 ft.). The tourist will find much here of historical interest. In the days when the greater part of Kentucky was the favorite hunting grounds of the Indians, all that section west of the Tennessee river was the home of the Chickasaws, whose headquarters was Chickasaw Bluff, where Memphis now stands. It was from Paducah that Lewis and Clark started on their western expedition, and the "Clark Line Road" is one of the country's famous highways. At the foot of Kentucky avenue is a tablet marking where Clark and his party landed.

Paducah takes its name from "Paducah," a chief of the tribe of that name, who belonged to the warlike Comanches. Paducah was a great friend of Clark and accompanied him on his western expedition, and in his diary Clark frequently mentions the Indian Paducah, who died in the town which bears his name and was buried on the banks of the Tennessee river. William Clark, a brother of George Rogers Clark, plotted Paducah as a town in 1827, and the descendants of the Clarks are now living here. Fort Jefferson, where the town of Wickliffe now stands, a few miles west of Paducah, was established by Clark at Thomas Jefferson's request as

a buffer against the encroachment of Spain and France.

It was at Paducah, Broadway and the river, that Grant first read his proclamation to the south. A tablet marks the spot. On Fountain avenue a tablet marks the road off which Forrest's troops entered for the capture of the town March 25, 1864. On Broadway, between Fourth and Third, is a tablet marking the spot where the first Confederate flag was raised; on Fourth and Jefferson is a tablet marking the spot where stood the one-story house with a two-story porch mentioned by Charles Dickens. At Sixth and Ohio is a tablet marking the house where Capt. Ed. Murray lived, the builder of the "Merrimac," which fought the "Monitor" in Hampton Roads. At Seventh and Broadway is a tablet marking the house where lived Capt. Jack Lawson, who brought over from England the first locomotive ever operated in America. At Sixth and Clark, Gen. Lew Wallace had his headquarters during the civil war. "Back Home," by Irwin Shrewsbury, is based on incidents which took place here a generation or two ago.

Paducah is now the second largest manufacturing city in Kentucky and the largest dark type tobacco market in the world.

HOTELS—The Halliday Hotel, Ohio St.

POINTS OF INTEREST, CAIRO, ILL.

Cairo (pop. 15,000, alt. 279 ft.), located at the junction of the Mississippi and Ohio rivers, in the extreme southern part of Illinois, is served by five of the great railroad trunk lines and occupies an advantageous commercial position. Its principal industries are lumber and wood working and the manufacture of pearl buttons. The principal streets of the city are paved with vitrified brick and highways leading from the city to the extent of some fifty miles are constructed of rock macadam and elco gravel. The U. S. government highway leading to the national cemetery, seven miles distant, is one of the many delightful drives.

Among the principal points of interest to the tourist might be mentioned the I. C. R. R. bridge, 4 miles long, crossing the Ohio river; also Safford memorial library and the U. S. marine hospital. In its very early days,

about the year 1827, Cairo sold bonds in large amounts to English capitalists, among the purchasers of this paper being the well-known novelist, Charles Dickens, who had visited this new territory.

Cairo was an important military base during the civil war and it was from here that General Grant led his troops to his first victory at Belmont, Mo., which was then strongly fortified by the confederates. It was also from Cairo that the general started upon his successful campaign against Fort Henry and Fort Donelson, culminating in his greater victory at Shiloh.

Cairo is now protected from inundation by a system of the strongest levees in the world. One of these is along the Ohio river front. Ferries operate regularly across the Mississippi river into Missouri and across the Ohio river into Kentucky.

When your spring breaks buy a

Route 461—Cairo, Ill., to Jackson, Tenn.—117.7 m.

Reverse Route 462.

Via Wickliffe, Bardwell, Clinton, Fulton, Martin, Greenfield, Bradford and Milan. From Wickliffe the road is fairly good for 4.7 miles, then 8 miles very poor thru swamp or river bottom. This is impassable when wet, but can be avoided by using Note (a) on Route 456. From this point to Fulton road is fair-to-good graded dirt. From Fulton there is 12.7 miles good graded dirt, then 1.3 miles poor dirt thru swamp, 50 miles fair-to-good graded dirt to Medina. From Medina 7.6 miles fair graded dirt, then 6.0 miles gravel and pavement to Jackson. Summary: 6 miles gravel; 109.6 miles fair to good graded dirt; 2.1 miles poor road.

Road runs thru a hilly farming country to Fulton (no steep or long hills), then thru a rolling farming country to Jackson, except for a few low places across river or creek bottoms. Between Wickliffe and Martin considerable tobacco is raised. From Martin farms devoted principally to corn and cotton raising. Near Wickliffe the road runs on an old RR bed thru a tunnel of trees (quite remarkable), and is narrow. Caution should be used in driving this road as all bridges and culverts are bad with poor approaches. This route is a section of the Burlington way and is marked with white and yellow banded poles.

Ferry from Cairo leaves at 7:00 and 10:00 a. m., 1:00 and 3:30 p. m., Sundays at 3:00 p. m. Charges \$1.05, car and driver; 25c, passengers.

During early spring or at times when Ohio river is at flood, best way to Fulton is via Route 460 to Paducah and Route 464 to Fulton.

 89.3 1.7 JACKSON,* Market & Main Sts., courthouse on far left.

Route 462—Jackson, Tenn., to Cairo, Ill.—117.7 m.

Reverse Route 461.

Via Milan, Bradford, Greenfield, Martin, Fulton, Clinton, Bardwell and Wickliffe. First 6 miles from Jackson is pavement and good gravel, then 7.6 miles fair graded dirt to Medina. From Medina 50 miles fair to good graded dirt; 1.3 miles poor dirt thru a swamp; 12.7 miles good graded dirt to Fulton. From Fulton to Wickliffe the road is fair graded dirt, except 8 miles thru a river bottom. This is impassable in wet weather, but can be avoided by using Note (a) on Route 455 when Ohio river is at flood. Summary: 6 miles gravel and pavement; 109.6 miles fair-to-good graded dirt; 2.1 miles poor, impassable when wet.

Thru a rolling farming country to Fulton, then thru a hilly country (no steep or long hills) to Wickliffe—a few low places across river or creek bottoms; farm land devoted principally to corn and cotton to Martin; from there to Cairo considerable tobacco is raised. Caution should be used in driving this road as all bridges and culverts are in bad condition with bad approaches. Near Wickliffe the road runs for 2 miles on old RR bed thru a tunnel of trees, very narrow. This route is a section of the Burlington way and is marked with white and yellow banded poles.

Ferry from Wickliffe leaves at 9:00 and 11:00 a. m., 3:00 and 4:45 p. m., Sundays at 4:00 p. m. Charges \$1.05, car and driver; 25c, passengers.

Best way from Fulton is via Route 458 to Paducah and Route 459 to Cairo—40 miles longer but nearly all gravel. This is not necessary except in early spring or during floods.

*Mayfield, Ky. (pop. 8,000, alt. 300 ft.), is situated near Mayfield creek about 30 miles from the Mississippi river and 25 miles from the Ohio at the mouth of the Tennessee. It is a manufacturing and commercial center of

a fertile agricultural region, which produces tobacco, corn and wheat extensively. It is also an important tobacco market, having large warehouses and about 30 rehandling houses.

A brief description of the states covered by this volume will be found in the back of the book. Read it and get an idea of the country you are about to traverse.

Note (a) Route 464—Mayfield to Lynn Grove, Ky.—20.3 m.

Reverse Note (a) on Route 518.

Via Sedalia. All good gravel thru a hilly and rolling tobacco country. Connects at Lynn Grove with Route 457 to Hopkinsville and Russellville.

0.0 0.0 MAYFIELD, 7th St. & Broadway. Go south on 7th St. (straight ahead if coming from Paducah).

0.1 0.1 South St. at far side of court house; turn left and immediately right onto 6th St.

Straight ahead on 7th St. 0.1 is Route 464 to Fulton.

Thru irregular 4-corners at water trough 0.5. Avoid righthand diagonal road 0.8.

7.0 6.9 End of road; turn right.

7.4 0.4 Sedalia, 4-corners at stores. Turn left.

7.8 0.4 Right-hand road; turn right.

15.0 7.2 4-corners; turn left.

20.3 5.3 LYNN GROVE, 4-corners, just beyond P. O.

Straight ahead is Route 457 to Hopkinsville and Russellville.

Route 469—Jackson to Nashville, Tenn.—164.4 m.

Reverse Route 500.

Via Spring Creek, Huntington, Rosser, Camden, Trotter's Ferry across Tennessee river, Waverly, McEwen, Dickson, Charlotte, Pardue. Ferry across Cumberland river, Ashland City and Bordeaux. (Ferry charges, \$1.08; toll, 40c.) Six and six tenths miles good gravel to Rollins, 7.4 miles fair-to-good graded dirt to Spring Creek, 9.6 miles fair ungraded dirt, 5 miles fair and good graded dirt, 9.9 miles fair ungraded dirt to Huntington. From Huntington 1 mile gravel, 10.9 miles fair graded sandy dirt, some clay spots, 1.2 miles rough road, crossing several bridges in swamp, then 7.4 miles fair sandy dirt to Camden. From Camden 2 miles rough gravel, then 6.8 miles fair graded dirt to Tennessee river gasoline ferry. From ferry 1 mile dirt, then 19.6 miles fair gravel, 11.2 miles fair graded dirt, then 6.7 miles fair-to-poor ungraded gravel (stony), and 6.1 miles good gravel to Dickson. From Dickson 15.2 miles fair gravel and stone road, then 8.8 miles fair dirt to the Cumberland river. From river 5 miles narrow gravel, thru river bottom, 21.9 miles good gravel, 10 miles macadam to Nashville. Summary: 10 miles macadam; 77 miles gravel; 41 miles graded dirt; 7 miles ungraded gravel (stony and poor); 38 miles ungraded dirt.

The road winds thru a hilly farming country, some sections wooded but for only short distances. Goes thru a swamp on rough road at 50.3-51.5, crossing the Tennessee river at 67.8 (ferry runs on signal—gasoline launch and flat boat), then follows the Duck river for a short distance near Waverly. Leaving Dickson there are two toll gates, 25c and 15c. Crossing the Cumberland at Pardue the ferry is run by the county (no charge except nights and Sundays). The road then follows the general course of the Cumberland river all the way to Nashville.

An optional way to northern points avoiding Nashville is via Route 461 Jackson to Fulton, then Route 457 to Hopkinsville and north.

POINTS OF INTEREST, CORINTH, MISS.

Corinth, Miss. (pop. 7,000, alt. 450 ft.), seat of Akron county, is situated on the northeastern corner of the state, being 4 miles from the Tennessee boundary and 26 miles from the Alabama college (non-sectarian) for boys, opened in 1877. Other educational institutions are Western Kentucky normal school, Saint Columbia's academy, and Bowling Green business university, the third largest commercial school in the U. S.

During the civil war the confederates regarded Bowling Green as of considerable strategic importance and all the prominent heights of the town carry the remains of forts constructed by General Albert Sidney

Johnston, General Beauregard and General Simon B. Buckner of the confederate army. The town was shelled by the Federal forces prior to the battle of Shiloh. Nearby are Massey's springs, Chalybeate springs and the Chameleon springs, and 30 miles distant is the famed Mammoth cave.

Perhaps the most noted produce of Bowling Green and vicinity is a cream-colored building stone. This stone was used in the construction of St. Thomas' Protestant Episcopal church on Fifth Ave., New York. Unlike any other stone, it goes into the buildings dark and bleaches white as snow. This action is due to weather absorption of the oil in the stone.

- 45.2 0.1 End of road; turn left across RR.

 61.6 0.3 Tuscumbia,* 6th & Main Sts. Turn left (north) with trolley onto Main St.
 Straight ahead is Route 493 to Columbus.
 Cross RR 61.7—trolley leaves to left. Pass court house on left 61.8. Cross RR 63.6, going thru 4-corners just beyond and joining trolley from right.
 63.7 2.1 Sheffield, Main & 2nd Sts. Turn right (east) away from trolley onto 2nd St. Cross trolley 64.0.
 64.6 0.9 Left-hand diagonal road; bear left with poles.
 65.0 0.4 End of road; turn right with poles and travel. Under RR 65.9.

*Tuscumbia, Ala. (pop. 4,000, alt. 490 ft.), on the Tennessee river, is pleasantly situated in an agricultural district encircled by hills. As far back as 1870 the French colony on the Wabash river established a trading post at this place. Here was built the first railroad west of the Allegheny mountains. It consisted of a line two and one-eighth miles in length, extending from the city to the landing on the Tennessee. Tuscumbia was the home of many distinguished citizens and of some of the greatest lawyers of the state, among whom was Arthur H. Keller, father of the world-famed blind girl, Helen Keller. The home of Helen Keller in the northern part of the town has undergone few changes. The little office in the yard where she received her first training from her teacher and companion, Mrs.

Annie Sullivan Macy, is still to be seen. The town library has been erected in her honor. The Deshler female institute, monument to the memory of Brigadier-General James Deshler of Tuscumbia, who was killed at the battle of Chickamauga, is another point of interest, as is also the Big Spring, from which flows 17,724 cubic feet per minute at a temperature of 58 degrees. Near this spring, in the center of town, on the banks of the stream, is located Spring park. Northeast of the city, a quarter of a mile from the birthplace of Helen Keller, is Nitrate Plant No. 1, constructed by the U. S. government in 1918, said to be the largest of its kind in America. Three miles northwest of the city is Nitrate Plant No. 2, also constructed by the government in 1918, and at which are employed 20,000 persons.

COMM. ORGAN.—Huntsville & Madison Co., Chamber of Commerce, Elks Bldg.

*Florence, Ala. (pop. 18,000, alt. 506 ft.), is one of the oldest and most picturesque cities in the south and has played a very large part in the history-making of Alabama, furnishing as it has many statesmen and leaders. Ferdinand Sannoner, a young Italian engineer, laid out Florence over one hundred years ago, under the direction of General John Coffee, and tradition has it that he was granted the privilege of naming the new town after his beloved city in Italy. Florence has, since early days, been considered one of the leading educational centers of the state. The State normal college is located here and also the Coffee high school, in addition to a large number of up-to-date graded schools.

Situated on the Tennessee river and lying just below the last of a series of rapids known as Mussel Shoals, it is ideally located. The scenery along the Tennessee at this point is particularly beautiful, and compares favorably with that of the Hudson. It is at this point that the big Wilson dam is in process of construction, which, when completed, will generate as much power as Niagara Falls, and which will require five years to complete. A visit to the dam will well repay the tourist.

*Huntsville, Ala. (pop. 18,900, alt. 800 ft.), situated in the fertile Tennessee valley, is surrounded by a large cotton, fruit and stock-raising district. Madison county, of which it is the capital, produced nearly 13 million dollars in farm products last year. As a cotton manufacturing center the city is second only to Lowell, Mass., having ten mills with 203,000 spindles and 4,374 looms. In the vicinity are deposits of coal, iron and marble. Among the educational institutions are a state normal and industrial school and the Goodrich training school. Four miles north of the city is the Alabama agricultural and mechanical college for negroes. In the center of the city is the famous Big Spring, which furnishes the water supply of the city. Its capacity is 24 million gallons daily. At Mussel Shoals, not far distant, is the great government hydro-electric development plant where 640,000 electric power will be developed at a cost of about 4 mills per horse power.

The first constitutional convention of the state met in Huntsville in 1819, and framed the Alabama constitution, and here the first legislature assembled in August, 1820, Huntsville for a time being capital of the state.

Route 477—Memphis, Tenn., to Tupelo, Miss.—129.2 m.

Reverse Route 287.

Via Olive Branch, Independence, Oxford, Toccopola and Pontotoc. Fourteen and five tenths miles macadam; 5.8 miles gravel to Olive Branch; 53.5 miles fair winding sand-clay to Oxford; 10 miles fair to good sand-clay; 12.7 miles fair graded dirt to Toccopola; 10.5 miles fair to good sand-clay; 4 miles gravel to Pontotoc; 4 miles good gravel, 5 miles good sand-clay, 5.7 miles fair graded dirt and clay, and 4.6 miles good gravel to Tupelo. Summary: 14.5 miles macadam; 17.3 miles gravel; 70 sand-clay; 18.4 miles graded dirt.

The road winds thru a rolling and hilly farming country, some of which is wooded. It is very winding from Olive Branch. The land is badly washed out and road skirts edge of ravines. Caution should be used in driving as curves are hidden by brush. The farms are devoted principally to cotton and corn raising. Altho the road crosses two swamps it is good and bridges fair.

Route 444 offers a longer but better option to Oxford, except for a mile and a half stretch thru river bottom near Oxford. This is a much better dry weather route, but should not be attempted in wet weather without making careful inquiry at Memphis as to road conditions. The river bottom may have been put in good shape by fall of 1919.

A new road is being built from Holly Springs to Tupelo via New Albany which will not be finished before 1920.

Route 477 combined with Route 478 forms the best road from Memphis to Birmingham. It connects at Tupelo with route to Corinth, West Point and Meridian, and is the best way from Memphis.

Nashville Section

POINTS OF INTEREST, NASHVILLE, TENN.

Nashville, the capital of Tennessee and her largest city, is located on a bluff along the picturesque Cumberland river, which is here crossed by four foot and three railroad bridges. The river is navigable for 350 miles above and 200 miles below the city, at which latter point it empties into the Ohio river. The city was first settled in 1870 by James Robertson and Captain John Donelson. The latter's beautiful daughter, who accompanied him, later became the wife of President Andrew Jackson. When the city was first founded it was called "Nashborough." It was given its present name in 1784 when it was incorporated as a town by the legislature of North Carolina. In 1843 it became the capital of Tennessee.

During the early days of the city's existence the pioneers had considerable trouble with the Cherokee and Shawnee Indians. At the beginning of the civil war, the sectional feel-

ing was somewhat mixed, as the central and western divisions of the state were largely slave holders, while the eastern part had but comparatively few of these. The confederate army dominated until forced to surrender to the Union troops in 1862. Nashville was immediately turned into a large federal camp and was occupied by federal forces until the end of the war. Within the corporate limits of Nashville was fought the battle of Nashville, one of the major engagements of the civil war. The earthen ramparts of old Fort Negley still stand in splendid preservation. The Maxwell house, formerly the Zollicoffer barracks, which served as headquarters of Generals Grant and Thomas, and Forts Houston and Morton are additional points of historic interest.

Nashville has been the home of a number of distinguished men, among whom were Sam Houston and Presidents James K. Polk

and Andrew Jackson. The latter's mansion, "The Hermitage," is about ten miles east of the city and is of great interest, containing, as it does, many relics of exceptional character. In the grounds are the burial places of President Jackson and his wife.

The main industrial interests of the city lie in timber, flour and iron and there are many mills and factories which have an unusually large output. Nashville boasts of numerous fine public buildings and many handsome residences. Of the former the most important is the state house, situated on an eminence in the center of the city, with an imposing tower 205 feet in height. The capitol is of Greek architectural design and has been pronounced one of the finest examples of its kind in the country. On the grounds surrounding it is an equestrian statue of Andrew Jackson and also the tomb of President Polk. In the old city cemetery lies buried under a modest tombstone Captain William Driver, the man who first named our flag "Old Glory."

Nashville is the most important educational center in the south, having over ten thousand non-resident students attending her institutions for the higher education of men and women. These institutions are: Vanderbilt university, George Peabody college for teachers and the Knapp school of farm life—all co-educational. For the higher education of women, Ward-Belmont, Nashville college, Buford college, St. Cecilia academy and St.

Bernard academy are all prominent. In addition to these, Fisk university, Roger Williams university, Meharry college and the state normal school for the higher education of negroes are also located here. Vanderbilt university has an investment of about five million dollars and the George Peabody college, an investment of three and a half million dollars.

Nashville is dotted with numerous beautiful parks, and there are many pretty drives in and about the city. The most important of these public playgrounds are Shelby park, fronting on the river; Glendale park, in the southern part of the town; Watkins park, toward the north; Cumberland driving park and Centennial park, in which is located a reproduction of the Parthenon at Athens. Like so many other southern cities, Nashville has its confederate and federal cemeteries, containing the graves of thousands of unfortunate victims of the great struggle between the north and the south. Mount Olivet cemetery contains the graves of 2,000 confederate soldiers, surmounted by an imposing confederate monument, and in the northern part of the city is the national cemetery in which over 15,000 Union soldiers lie buried.

The United States government has recently located within ten miles of Nashville a large powder plant representing an investment of \$60,000,000.

WISCONSIN is famed for its picturesque lakes and woods. Make a tour of these this Summer. Good roads and splendid hotel accommodations. See Vol. 11 of the 1920 Automobile Blue Book.

Route 481—Nashville to Chattanooga, Tenn.—165.4 m.

Reverse Route 544.

Via Murfreesboro, Shelbyville, Lynchburg, Winchester, Cowan, Sewanee, Monteagle, Tracy City and Jasper. From Nashville to Lynchburg, 73 miles, stone and gravel pike. From Lynchburg 1 mile macadam; 7.2 miles narrow gravel (some stony and numerous fords); 24 miles stone road to Cowan. From Cowan 2 miles graded dirt to foot of mountains, then a winding graded road badly washed out and very stony to Sewanee. From Sewanee to Monteagle graded dirt road; Monteagle to Tracy City graded dirt and gravel. From Tracy City there is 14.4 miles of road which is merely a trail thru the woods, sandy and rocky, with some bad mud holes, especially in very wet weather. Here a 2 mile descent is made from top of Cumberland mountains on winding, steep, stony road, with some clay to Sequatchie. From Sequatchie 10 miles macadam and gravel to the Tennessee river, crossed by ferry (charges 50c). From river 3.7 miles worn stone road; 9.3 miles fair to poor dirt; 6.3 miles macadam and concrete to Chattanooga. Summary: 19 miles macadam and concrete; 95 miles stone and gravel pike; 11 miles good gravel; 5 miles good graded dirt; 11 miles fair dirt some rough; 32 miles poor dirt—stony and many mud holes. The toll on this route is 45c.

This is a section of the Dixie highway. Road conditions change so frequently on this route that careful inquiry should be made at Nashville Auto Club as to best way between the two cities. A new road was being built from Nashville to Jasper via Signal mountain, and also from Jasper to Mont Eagle, but were not open and data could not be obtained for directions over same. These roads should be completed by spring of 1920.

For option to Shelbyville, shorter and somewhat better, see Route 483. (Toll on this option \$0.80-\$1.20). A better option from Nashville to Chattanooga is via Route 525 to Rockwood and Route 551 to Nashville. This is longer, but has only 3 miles of poor road.

Shelbyville City Map and Points of Interest, page 558.

*Murfreesboro, Tenn. (pop. 9,000, alt. 574 ft.), is noted as a residential city and is also favorably known throughout the south as an educational center. It is the seat of Soule female college (Methodist Episcopal South), the Mooney school for boys, the Tennessee college for women (Baptist), Union university and the Middle Tennessee state normal school. The city is the greatest red cedar market in the world, and is also an important cotton, grain and livestock market. A large agricultural fair is held here annually. The geographical center of the state is just one mile from the public square of Murfreesboro.

Murfreesboro is the home of Will Allen Dringmole and of Charles Egbert Craddock (Mary Noailles Murfree), novelist, author of the Prophet and the Great Smoky Moun-

tains and other tales. President James K. Polk was married here, and Governor John P. Buchanan and the noted hero scout, Sam Davis, lived here. From 1819 to 1825 it was the state capital. During the civil war three battles were fought within the city limits. Three miles from Murfreesboro the three days' battle of Murfreesboro or Stone River, one of the most severe contests, was fought December 31, 1862, to January 2, 1863, between the army of the Cumberland, under Rosecrans, and the Army of Tennessee under Braxton Bragg. The battle, though not decisive, resulted in an advantage for the federals. Bragg retired to Tullahoma and Rosecrans entered Murfreesboro on the fourth of January but made no attempt to pursue Bragg. The federal loss was over 13,000; the confederate about 11,500.

POINTS OF INTEREST, SHELBYVILLE, TENN.

Shelbyville (pop. 4,000, alt. 760 ft.), situated in the center of a fertile agricultural section, has many blue grass farms and ships many carloads of cattle, sheep and hogs annually. It is the seat of Bedford county. Senator Webb, Edmund Cooper, secretary to President Andrew Jackson; General Nathan Bedford Forest and David Crockett, at one time or another made their home in this city or county.

Several minor skirmishes took place near here, as testified by the old forts and breastworks still dotting the hills. Of particular interest is an old brick hotel over 100 years old (now used as a hotel by negroes) in which Andrew Jackson was at one time presented with a bouquet of flowers. Colt's revolver was invented in Shelbyville.

*Huntsville, Ala. (pop. 18,900, alt. 800 ft.), situated in the fertile Tennessee valley, is surrounded by a large cotton, fruit and stock-raising district. Madison county, of which it is the capital, produced nearly 13 million dollars in farm products last year. As a cotton manufacturing center the city is second only to Lowell, Mass., having ten mills with 203,000 spindles and 4,374 looms. In the vicinity are deposits of coal, iron and marble. Among the educational institutions are a state normal and industrial school and the Goodrich training school. Four miles north of the city is the Alabama agricultural and mechanical col-

lege for negroes. In the center of the city is the famous Big Spring, which furnishes the water supply of the city. Its capacity is 24 million gallons daily. At Mussel Shoals, not far distant, is the great government hydro-electric development, where 640,000 electric power will be developed at a cost of about 4 mills per horsepower.

The first constitutional convention of the state met here in Huntsville, in July, 1819, and framed the Alabama constitution, and here the first legislature assembled in August, 1820, Huntsville for a time being capital of the state. It is the oldest city in Alabama.

GARAGES—The Bosworth Garage, 11th & Wilmer Ave.
straight ahead is Route 275 to Montgomery.

*Attalla, Ala. (pop. 3,500, alt. 540 ft.), is located at the south end of famous Lookout mountain. Near by is a beautiful waterfall known as the Noccochula falls.

*Anniston, Ala. (pop. 20,000, alt. 1,000 ft.), is finely situated in the foothills of the Blue Ridge mountains, 63 miles northeast of Birmingham. The surrounding territory produces coal, iron, corn, grain and cotton in very large and important quantities, and Anniston is said to manufacture more cast iron pipe than any other city of the south. The town contains several beautiful churches, including St. Michael's and All Angels, and is the seat of the Alabama Presbyterian college for young men, Noble institute for young ladies, Barber memorial seminary, Anniston female college and an industrial college for colored girls. In 1912 it was the scene of the field maneuvers of the national guard of eight

southern states mobilized by the U. S. war department. About 5 1/5 miles from Anniston on the Anniston-Jacksonville Alabama highway, is located Camp McClellan, one of the national guard cantonments, built to accommodate some 45,000 soldiers.

Oxford lake, about 3 3/4 miles south of town, is an attractive place, offering boating, swimming and a fine place for picnicking. Cold-water Springs, 9 miles to the southwest, is a marvel in the way of a spring. It flows 33 million gallons of water every 24 hours, clear and sparkling. Anniston uses about 3 million gallons daily and Camp McClellan has been using about 5 million gallons.

There are several splendid runs out of Anniston on good roads thru picturesque country. Ample garage facilities and hotel accommodations will be found in and adjacent to this town.

Route 485—Huntsville to Birmingham, Ala.—128.5 m.

Reverse Route 292.

Via New Hope, Albertville, Boaz and Oneonta. Gravel, stone, macadam and graded dirt roads.
 A preferable option to Birmingham is formed by combining Routes 537 to Athens, 488 to Albany and 490 to Birmingham.

Captain Hardy in MOTOR LIFE

The Monthly Magazine for Red-Blooded Motorists

"It doesn't do much good to true a wheel up if you don't apply the rim correctly. It may be necessary to put shims over the rim bolts in front or back so as to bring the rim into line and make it run true when you spin the wheel."

See Motor Life colored insert.

Route 488—Nashville, Tenn., to Albany-Decatur, Ala.— 126.7 m.

Reverse Route 290.

Via Franklin, Spring Hill, Columbia, Pulaski, Elkton, Ardmore and Athens. First 5.5 miles macadam; 44.5 miles stone and gravel pike; 11.3 miles gravelly dirt; 9.7 miles stone road; 19.3 miles fair-to-good gravel; 8.5 miles poor dirt and clay, with some mud holes; 2.5 miles fair to good gravel. Nearly all the stone and gravel pikes are worn. The poor dirt and clay is very bad in wet weather. Summary: 7 miles macadam and brick; 58 miles stone (worn); 42 miles good gravel; 5 miles fair gravel; 7 miles gravelly dirt, and 8 miles poor dirt and clay.

Thru a fine hilly farming country to Pulaski, then thru hilly, wooded farming country. Toll \$1.20 to \$2.00, according to the size of the car; ferry 50c. The toll roads may be abolished shortly as counties are trying to buy the toll roads.

Route connects at Athens with Route 537 to Florence and Route 475 to Huntsville. At Albany it connects with Route 490 to Birmingham.

A good option to this route is formed by combining No. 483 to Huntsville and No. 537 to Athens. This is a longer way, but there are no bad places in the road.

*Franklin, Tenn. (pop. 4,000, alt. 842 ft.), is on the Harpeth river, twenty miles southwest of Nashville. The Battle Grounds academy, opened 1902, is located here. The town was settled 1792. Its historical prominence begins with the civil war. Here, April 10, 1863, the confederates, under General Van Dorn, attacked the union forces under General Granger and were repulsed; and here, on November 30, 1864, occurred the sanguinary battle of Franklin between the union forces, 25,000

strong, under General Schofield, and the confederate army, numbering 40,000, under General Hood. The confederates attacked and were repulsed with a loss of over 6,000; the federal loss was 2,336. The battle is noted for the remarkable gallantry of the confederates and the stubborn resistance of the federals. There is a confederate monument and confederate cemetery at Franklin. Fort Granger is also located here.

93.8 0.6 End of road; turn left.

95.8 2.0 Right-hand diagonal road; bear right.

*Columbia, Tenn. (pop. 5,775, alt. 656 ft.), is situated on Duck river, 49 miles southwest of Nashville. It is the seat of a United States Arsenal, a military academy, and the Columbia institute for young ladies. The courthouse, the Columbia Athenæum, public library and hospital are noteworthy buildings. The former home of President Jas. R. Polk, still standing, is of historic interest. The town is surrounded by a fertile agricultural region and is an important grain center and one of the largest individual mule markets in the

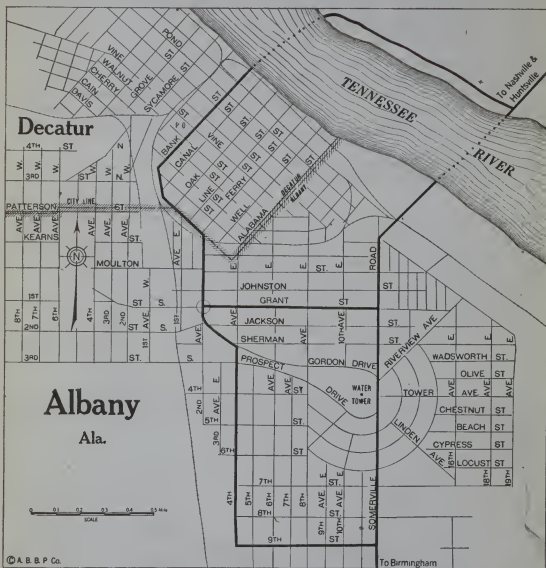

world. It also possesses large phosphate interests.

*Pulaski, Tenn. (pop. 5,000, alt. 643 ft.), the county seat of Giles county, is situated on Richland creek, 81 miles southwest of Nashville. The surrounding district is productive and devoted to agriculture and stock raising. The town is well built with a central square in which stands the handsome courthouse, and is the seat of Martin female college and the Massey school for boys.

SERVICE STA.—United States Tire Sales & Service Depots located here.
 Right on 2nd St. leads to Decatur.

POINTS OF INTEREST, DECATUR, ALA.

Decatur (pop. 4,250, alt. 578 ft.), the county seat of Morgan county, is situated on the south bank of the Tennessee about 18 miles above the Mussel Shoals. Two infirmaries, a hospital, and a federal building are located

here. The town is of historical interest owing to several skirmishes which took place in its vicinity during the civil war. It was injured at different times by gunboats on the Tennessee river.

POINTS OF INTEREST, ALBANY, ALA.

Albany (pop. 12,000, alt. 578 ft.) until the last few years was known as New Decatur. It is a comparatively new little city, supporting a number of factories, including the

L. & N. R. R. shops, employing 2,000 men, a large leather tannery, an immense cotton press and a silk mill. It also boasts of more than 12 miles of paved streets.

TOURISTS! Practically all towns of any size maintain a Commercial or Business Men's Club which will gladly and graciously dispense local information upon request.

Route 490—Albany-Decatur to Birmingham, Ala.—111.6 m.

Reverse Route 289.

Via Hartsells, Falkville, Cullman, Garden City, Blountsville and Oneonta. Four and four-tenths miles worn stone road and 7.6 miles poor clay to Hartsells (this is being stoned); 6.1 miles fair stone; 13.3 miles fair to poor clay and dirt; 4.2 miles good gravel to Cullman; 13.4 miles good gravel and stone to Garden City, then worn bumpy gravel and gravelly dirt to Pinsons; 12.6 good gravel and 2.5 miles asphalt to Birmingham. Summary: 17 miles macadam and stone road; 25 miles good gravel; 42 miles fair gravel (bumpy); 8 miles graded gravelly dirt; 20 miles fair-to-poor dirt and clay.

A section of the Bee Line highway. Thru hilly, wooded and farming country devoted principally to the raising of cotton and corn. (No steep hills.)

*Cullman, Ala. (pop. 4,500, alt. 802 ft.), the county seat of Cullman county, is situated on a plateau 1,000 feet above sea level, on the North and South Bee line highway. It was originally a German settlement, having been founded in 1873 by John G. Cullman; it still has about 600 German families. The town is remarkable for having no negroes. The Southern Cotton Oil company has one of its largest plants here. Among the noteworthy buildings are the new passenger station costing \$15,000; the high school, one of the handsomest buildings of its class in the state; St.

Bernard college, a noted institution for boys; Sacred Heart academy, a well known school for girls, and the Alabama Odd Fellows' home, which conducts a school for the children of the home. St. Bernard college has students from every state in the Union, and, with the Sacred Heart academy, represents an outlay of over half a million dollars. The first two units only are at present in operation. The completed institutions as planned will represent an investment of between four and five million dollars.

*Lawrenceburg, Tenn. (pop. 2,500, alt. 11,000).

The monument standing here in the public square is said to be the only one in the United States erected to the memory of the Mexican soldiers who volunteered and fell at Monterey.

*Florence, Ala. (pop. 18,000, alt. 506 ft.), is one of the oldest and most picturesque cities in the south and has played a very large part in the history-making of Alabama, furnishing as it has many statesmen and leaders. Ferdinand Sannoner, a young Italian engineer, laid out Florence over one hundred years ago, under the direction of General John Coffee, and tradition has it that he was granted the privilege of naming the new town after his beloved city in Italy. Florence has, since early days, been considered one of the leading educational centers of the state. The State normal college is located here and also the Coffee high school, in addition to a large number of up-to-date graded schools.

Situated on the Tennessee river, and lying just below the last of a series of rapids known as Mussel Shoals, it is ideally located. The scenery along the Tennessee at this point is particularly beautiful, and compares favorably with that of the Hudson. It is at this

point that the big Wilson dam is in process of construction, which, when completed, will generate as much power as Niagara Falls, and which will require five years to complete. A visit to the dam will well repay the tourist. United States nitrate plant No. 2 is also located on the outskirts of Florence. This plant, the largest of its kind in the world, was rushed to completion during the war at a cost to the government of over seventy million dollars. This enormous plant, which was originally intended for the manufacture of explosives for war uses, will now, in peace times, be utilized for the manufacture of fertilizers. The famous Jackson military highway, extending from Chicago to New Orleans, passes through the city, and will be found a delight to the motorist.

Florence is a city of diversified industries. The Florence wagon works, with a capacity of a wagon every fifteen minutes, is located here. In addition to this well known concern, there are two large cotton mills, a stove foundry, several lumber mills, brick kilns and a furnace of the Sloss-Sheffield company, besides many other smaller manufacturing plants.

- 85.1 7.3 End of road; turn left.
- 85.2 0.1 3-corners; bear right downgrade.

*Tuscumbia, Ala. (pop. 4,000, alt. 490 ft.), on the Tennessee river, is pleasantly situated in an agricultural district encircled by hills. As far back as 1870 the French colony on the Wabash river established a trading post at this place. Here was built the first railroad west of the Alleghany mountains. It consisted of a line two and one-eighth miles in length, extending from the city to the landing on the Tennessee. Tuscumbia was the home of many distinguished citizens and of some of the greatest lawyers of the state, among whom was Arthur H. Keller, father of the world-famed blind girl, Helen Keller. The home of Helen Keller in the northern part of the town has undergone few changes. The little office in the yard where she received her first training from her teacher and companion, Mrs.

Annie Sullivan Macy, is still to be seen. The town library has been erected in her honor. The Deshler female institute, monument to the memory of Brigadier-General James Deshler of Tuscumbia, who was killed at the battle of Chickamauga, is another point of interest, as is also the Big Spring, from which flows 17,724 cubic feet per minute at a temperature of 58 degrees. Near this spring, in the center of town, on the banks of the stream, is located Spring park. Northeast of the city, a quarter of a mile from the birthplace of Helen Keller, is Nitrate Plant No. 1, constructed by the U. S. government in 1918, said to be the largest of its kind in America. Three miles northwest of the city is Nitrate Plant No. 2, also constructed by the government in 1918, and at which are employed 20,000 persons.

- 87.5 2.3 Fork; bear right downgrade. Cross several small bridges 87.8.
 90.0 2.5 3-corners; bear left.
 97.5 7.5 End of road; turn right.

Left at end of road leads to Fayette, 4 miles.

 St. Louis, Mo. 1 Minneapolis, Minn. Atlanta, Ga.

Route 500—Nashville to Jackson, Tenn.—164.4 m.

Reverse Route 469.

Via Bordeaux, Ashland City, ferry across Cumberland river to Pardue, Charlotte, Dickson, McEwen, Waverly, Trotter's Ferry across Tennessee river, Camden, Rosser, Huntington and Spring Creek. Ferry charges \$1.08, toll 40c. First 10 miles good gravel, then 5 miles narrow gravel to the Cumberland river, ferry to Pardue, then 8.8 miles fair dirt, 15.2 miles fair gravel and stone road to Dickson. From Dickson 6.1 miles good gravel, then 6.7 miles fair to poor ungraded stony gravel, then 11.2 miles fair graded dirt, 19.6 miles fair gravel and 1 mile dirt to Tennessee river ferry. From river there is 6.8 miles fair graded dirt and 2 miles rough gravel to Camden. From Camden 7.4 miles fair sandy dirt (winding), then 1.2 miles rough dirt thru swamp, crossing several bridges, then 10.9 miles fair graded-sandy dirt, some clay spots and 1 mile gravel to Huntington. From Huntington 9.9 miles fair ungraded dirt, and 5 miles fair ungraded dirt to Spring Creek; 7.4 miles fair to good graded dirt to Rollins; 6.6 miles good gravel to Jackson. Summary: 10 miles macadam; 77 miles gravel; 41 miles graded dirt; 7 miles ungraded rough and stony gravel; 33 miles ungraded dirt.

The road winds thru a hilly farming country, some sections wooded, but only for a short distance. The road follows the general course of the Cumberland river to Pardue ferry (no charge as ferry is run by the county, excepting nights and Sundays). Between Pardue and Dickson there are two toll gates, 25c and 15c. The road follows the Duck river a short distance beyond Waverly, then crosses Tennessee river by ferry, which runs on signal—steam launch and flat boat. The road goes thru swamp on rough road at 112.9-114.1.

This route used in conjunction with Route 501 is the best way to Memphis from Nashville.

The Upper
Peninsula of Michigan

A country to stir a man's blood and brighten a woman's eyes. Unspoiled, yet in reach of real roads, hotels, and cities. Northern forests—copper and iron mines—lakes and mountain streams—and the climate of its inland seas.

— WRITE —
UPPER PENINSULA DEVELOPMENT BUREAU
MARQUETTE, MICH.

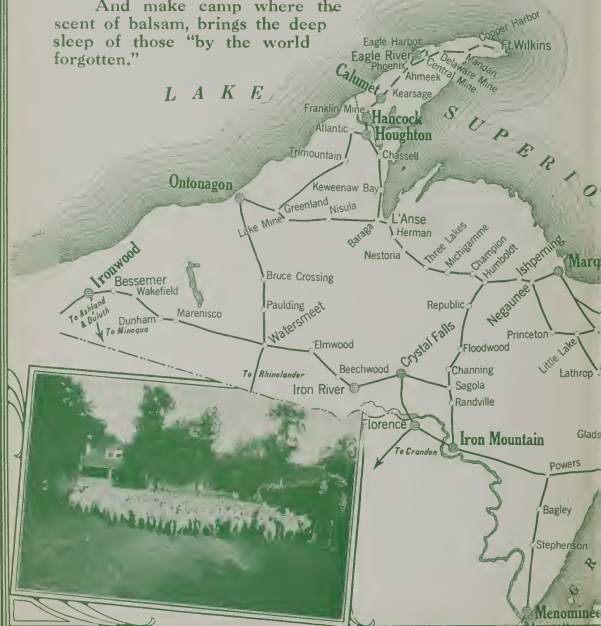

CLOVERLAND

The Last Frontier of America is what stock-grazers of the West call Cloverland. They are coming fast, from drought-stricken plains where ranges are crowded and their flocks starved out.

Cloverland is the Last Frontier, too, for the tourist with the automobile. Rich men have gone to Maine, and Quebec, for their pine forests, for camping, canoeing, fishing and real "trailing." Men of less wealth have hit the trail of pack-sack and canoe to Canada and Alaska to find their Man's Country.

The automobile roads of the Upper Peninsula bring the tourist, whether he carry his tent or stay at hotels, within reach of the great forests of pioneer days. He—and his family—may explore, climb young mountains in a country of rocks; fish and swim in forest-curtained lakes or rocky streams.

And make camp where the scent of balsam, brings the deep sleep of those "by the world forgotten."

CLOVERLAND

"HAVE you gazed on naked grandeur where there's nothing else to gaze on—set pieces and drop curtain scenes galore; have you swept the visioned valley, with the green stream streaking through it, searched the vastness for a something you have lost? Have you strung your soul to silence? Then for God's sake go and do it—hear the challenge—learn the lesson—pay the cost."

Service thus wrote of Alaska,—his lines have a wonderful application to some of the Upper Peninsula country.

"Cloverland" is the name given by the stock grazers of the west; they'll interest you, too.

The Upper Peninsula Development Bureau, at Marquette, Michigan, will answer your inquiries—gladly.

*Clarksville, Tenn. (pop. 8,600, alt. 419 ft.), is situated near the junction of the Red and Cumberland rivers, about 45 miles in a direct line northwest of Nashville. It is one of the largest shipping markets for tobacco in the U. S., the shipments of leaf tobacco alone amounting to upward of 30,000 hogsheads annually. In the vicinity are valuable iron ore deposits. Clarksville is the seat of the South-western Presbyterian university, founded 1875, and of a Methodist seminary for young ladies. Within a short distance of the city are located many points of historic or general interest, among them being Dunbar's cave, a

beautiful cavern of wonderful formation rivaling in some scenes the caverns of Mammoth Cave and Luray caverns. Idaho Springs, a health resort, is but a short distance from Dunbar's cave.

*Hopkinsville, Ky. (pop. 12,000, alt. 521 ft.), is on the Little river, 71 miles northwest of Nashville, Tenn. It is the seat of McLean college, Bethel female college (Baptist), founded in 1854, the South Kentucky college and the Western Kentucky asylum for the insane. The city is chiefly engaged in tobacco manufacture and trade, but also has a considerable trade in live stock, corn, hay, etc.

- 111.8 0.1 End of road; turn left.
- 111.9 0.1 End of road; turn right. Thru covered wooden bridge 112.1. Avoid left-hand diagonal road 112.8. Pass small pond on right 113.3. Thru 4-corners 120.9.
- 121.1 9.2 Eggrier's Ferry across Cumberland river, fork; bear left to ferry landing (toll 50c). Leaving ferry, turn left upgrade. Turn right with road 122.0.

Hotel Tulane, Cor. 8th Ave. & Church St.

GARAGES—Tennessee Auto Corporation, 1308 Broadway.

Route 510—Nashville, Tenn., to Mammoth Cave, Ky.— 112.1 m.

Reverse Route 513.

Via Gallatin, Scottsville, Glasgow and Goodnight. First 10 miles macadam, then 2.3 miles worn stone pike; 10 miles stone road (rough); 25 miles fair to good gravel pike, 14 miles rough gravel; 4 miles stone road (worn) to Glasgow. From Glasgow first 5 miles fair gravel, then 23 miles rough stony road to Mammoth Cave. Summary: Stone and gravel road all the way, some of it worn and rough. 10 miles macadam; 27 miles fair stone; 30 miles fair gravel; 23 miles rough stone; 24 miles rough gravel.

A section of the Jackson highway. Traverses a rolling country, passing many fine farms, to Gallatin, then thru a hilly farming country, going thru an oil field near Scottsville.

Part of this road around Glasgow may be under construction in 1920 and inquiry should be made at Nashville regarding best way to Mammoth Cave.

This route as far as Goodnight, combined with Note (a) on Route 510 to Horse Cave and Route 515 from Horse Cave to Louisville forms the best way between Nashville and Louisville for those not desiring to go into Mammoth Cave.

Route 514 offers a longer but poorer option via Dixie highway.

- 76.2 6.0 Fork, just beyond small wooden bridge; bear left upgrade. Thru covered wooden bridge at Bruce 78.2. Same thorofare becomes Maple St.
- 85.9 9.7 Glasgow, Maple & Main Sts., at far side of court house. Turn left onto Main St. and immediately right onto Race St. Thru Goodnight 93.6.
- 95.4 9.5 Left-hand road, school on left; turn left.
Straight ahead is Note (a) to Bear Wallow and Horse Cave.
- 97.4 2.0 End of road, barn ahead. Turn right.
- 98.3 0.9 4-corners, barn on far right; turn left.
Turn right with road 100.4. Turn square left with road, cemetery on left 100.7. Turn right 100.9 and left 101.2.
- 101.3 3.0 End of road; bear left.
Right is Route 515 to Louisville.
- 101.4 0.1 Right-hand road; turn right.
- 101.7 0.3 Cave City. Keep ahead across RR, sta. on right.
HOTELS—Hotel Dixie, Main St.
- 106.4 4.7 Fork; bear right. Cross RR 111.2.
- 112.0 5.6 Fork; bear right across RR.
- 112.1 0.1 MAMMOTH CAVE. Entrance to cave on left.
Points of Interest, page 546.
HOTELS—Mammoth Cave Estate, Mammoth Cave Cottages on the left and right.

Note (a) Route 510—Goodnight to Horse Cave, Ky.—8.8 m.

Reverse Note (a) on Route 516.

Via Bear Wallow. Fair stone road.

This note used in conjunction with Route 510 and Route 515 offers best way to Louisville from Nashville.

- 0.0 0.0 GOODNIGHT, store on right. Go north (straight ahead if coming from Nashville). Avoid left-hand road at school 1.8.
Left at 1.8 is Route 510 to Mammoth Cave.
- 4.3 4.3 Fork; bear right.
- 4.4 0.1 Bear Wallow, left-hand road, store on far left. Turn left.
- 6.9 2.5 End of road; turn left. Pass park on right 8.4. Cross RR 8.5.
- 8.8 1.9 HORSE CAVE, 3-corners at top of grade.
Left is Route 516 to Mammoth Cave.
Right is Route 515 to Louisville.

Tour the Rockies

Vol. 7

Everyone knows that mountain scenery is both beautiful and spectacular, but only a few motorists realize the awe-inspiring effect of a motor trip through The Rockies. The roads in most Rocky Mountain States are almost the equal of the best and far better than our dirt roads of the Central Sections.

Route 513—Mammoth Cave, Ky., to Nashville, Tenn.— 112.1 m.

Reverse Route 510.

Via Goodnight, Glasgow, Scottsville and Gallatin. First 23 miles rough stony road, then 5 miles fair gravel to Glasgow. From Glasgow 4 miles worn stone road, then 14 miles rough gravel; 25 miles fair to good gravel; 10 miles worn gravel; 23 miles fair stone road, last 10 miles macadam. Summary: 10 miles macadam; 30 miles fair gravel; 27 miles fair stone; 23 miles rough stone; 24 miles rough gravel.

This is a section of the Jackson highway. Traverses a hilly farming country to Gallatin, going thru an oil field near Scottsville. From Gallatin the country is rolling and has many fine farms.

HOTELS—Mammoth Cave Estates. Mammoth Cave cottages on the left and right.

*Bowling Green, Ky. (pop. 12,000, alt. 469 ft.), county seat of Warren county, is an important horse market and also has a large trade in mules, hogs and cattle. The tributary district is a fertile agricultural region and produces immense quantities of strawberries, wheat, corn and tobacco; in fact, Bowling Green is considered one of the greatest strawberry growing centers in the U. S. and as many as 15,000 pickers have been employed to gather the crop. Great fields of strawberries and tobacco can be viewed from the roads. Two large flour mills take care of the output of wheat. The city has two large parks; the larger, 42 acres in extent, contains Ogden the Alabama college (non-sectarian) for boys, opened in 1877. Other educational institutions are Western Kentucky normal school, Saint Columbia's academy, and Bowling Green business university, the third largest commercial school in the U. S.

During the civil war the confederates regarded Bowling Green as of considerable strategic importance and all the prominent heights of the town carry the remains of forts constructed by General Albert Sidney Johnston, General Beauregard and General Simon B. Buckner of the confederate army. The town was shelled by the Federal forces prior to the battle of Shiloh. Nearby are Massey's springs, Chalybeate springs and the Chameleon springs, and 30 miles distant is the famed Mammoth cave.

Perhaps the most noted product of Bowling Green and vicinity is a cream-colored building stone. This stone was used in the construction of St. Thomas' Protestant Episcopal church on Fifth Ave., New York. Unlike any other stone, it goes into the buildings dark and bleaches white as snow. This action is due to weather absorption of the oil in the stone.

*Mammoth Cave, Ky. (alt. 900 ft.) is one of the "Seven Wonders" of the world, and at least a two-day stop should be made to properly see this wonderful work of nature. Guides are furnished to show the tourist through the cave, and in this way about two trips a day can be made. To see thoroughly all the wonderful sights offered one should take at least four trips. To the tourist a stay at Mammoth Cave is rich in pleasure, relaxation, new experiences and impressions. More than this, a stay there means improved

health. Altitude, bracing air, fine woods and consequent exercise in the open, tone up one's system almost immediately. In fact, all the glowing terms that are used to describe and exploit health resorts may be used truthfully about this place. That the place is not advertised and exploited is due to the restrictions of a curious will on file in Louisville, which provides that the Mammoth Cave estate, including caves, hotels and 2,000 acres of land, be left practically unchanged until the death of the last of the original life tenants, whereupon the estate is to be sold at public auction. The trips through Mammoth Cave may be taken day or night at any time of the year. The temperature is practically the same the year around—54 degrees. The wonders and beauties of the Mammoth and adjacent caves are endless. Each route has its distinctive features, and a tour of one creates a desire to explore another and yet another. Curiously enough, this is not a very tiresome exercise. Mammoth Cave is truly named, and it is wonderful—marvelous beyond words. Even the use of superlatives gives only a fair idea of its grandeur and its beauty. Stalactites and stalagmites take on the form of fluted columns of festoons and draperies and of ceiling decorations that would be the despair of a stucco-worker. There are great auditoriums with lofty ceilings—one where the formations resemble a starlit sky—domes hundreds of feet high, the sides formed of tier after tier of fluted columns, balanced and hanging rocks—huge piles of rock that seemingly have been swirled round by underground waters until they have worn great caverns; mighty crevices or clefts as if made by earthquakes; barren underground streams, and a river, the Echo, fifteen to forty feet wide, on which a good-sized flat-boat transports tourists for a distance of half a mile, so that they may enjoy the wonderful echoes. Here the slightest noise is intensified a thousand times, and certain tones sounded by the guides resemble the deep, rich notes of a pipe organ. Owing partly to important new discoveries recently made and partly to the great extent of the Mammoth Cave, the designations "long route" and "short route" have been abolished, and trips in the cave are now subdivided into four different routes, as follows:

Route 515—Mammoth Cave to Louisville, Ky.—98.3 m.

Reverse Route 516.

Via Cave City, Horse Cave, Munfordville, Upton, Elizabethtown and West Point. Fair stone road (some rough), with short stretches of gravel to Elizabethtown; 53 miles fair stone, then 3 miles good gravel and 20 miles fair stone road to Howard Sta.; 1 mile rough stone thru West Point; balance 20.7 miles macadam and pavement. Summary: 75 miles stone, some of it rough; 20 miles macadam; 3 miles gravel. U. S. Government will probably repair roads around Camp Knox this year.

This is a section of the Dixie highway. Thru hilly farming country following a valley nearly all the way; follows the RR from Munfordville and along the Ohio river from Kosmosdale.

0.0 0.0 **MAMMOTH CAVE.** Go east along RR. Cross RR 0.8. Road is winding and rolling thru woods. Pass cemetery on right 3.3. Pass school on right 6.0, keeping right beyond. Down long winding grade 6.9.

10.3 10.3 **Cave City, sta.** on left. Keep ahead across RR.

HOTELS—Hotel Dixie, Main St.

10.4 0.1 End of road; turn left, passing school on right.

10.6 0.2 Fork; bear left. Cross RR 12.6.

14.4 3.8 **Horse Cave.** Straight thru.

Sharp right at 14.4 is Note (a) on Route 516 to Goodnight and leads to center of town.

Thru Rowletts 20.1 and Woodsonville 21.6. Caution for sharp curve along bluff 22.0, crossing long toll bridge over Green river just beyond. (Charges 50c.)

22.4 8.0 **Munfordville,*** Main & Union Sts., at far side of court house. Straight thru. Cross RRs 25.5-28.1. Thru Bonnieville 29.9. Under RR 31.4. Cross RRs 33.0-34.1-35.4-36.0. Thru Upton

Munfordville, Ky. (pop. 475), situated on the Green river 73 miles south of Louisville, is a historic spot. Just a short distance back from the main street is the ancient inn, of logs where Andrew Jackson stopped on his

ride from Nashville to Washington to be inaugurated president. In the hills surrounding the town may still be seen the trenches dug by the "blues" and "grays" about half a century ago.

(Mammoth Cave Points of Interest, concluded from opposite page.)

1. The Echo River, Pits and Dome Route (4 hours).

2. The Star Chamber, Gothic Avenue, etc., Route (3½ hours).

3. The Main Cave and New Discovery Route (5 hours).

4. The Echo River, Cleveland Avenue, etc., Route (8-10 hours).

The Cave rates are:

One route, \$2.00; two routes, \$3.00; three routes, \$4.00; four routes, \$5.00.

The principal features of these various trips are as follows:

Route No. 1—Rotunda, Corkscrew, Exit, Labyrinth, Gorin's Dome, "Bottomless Pit," Bridge of Sighs, Valley of Humility, Fat Man's Misery, River Hall, Grand Crossing, Dead Sea, River Styx, Echo River, and Mammoth Dome.

Route No. 2—Rotunda, Saltpeter Vats of 1812, Audubon Avenue, Banquet Hall, In Olive's Bower, Booth's Theatre Stage, Methodist Church, Gothic Avenue, Pillars of Hercules, Bridal Altar, Arm Chair, Elbow Crevice, Annetta's Dome, Giant's Coffin, Consumptive's Cabin, Martha Washington's Statue and Star Chamber.

Route No. 3—Proctor's Arcade Show Room, Indian Relics, Wright's Rotunda, Chief City, Cataracts, Waldach's Dome, Epsom Salts Deposits, Haines's Dome, Ultima Thule, Bishop's and Kaemper's Cut, Elizabeth's Dome, Grand Portal (60 feet wide, 50 feet high), Marble

Temple, The Chimes and Violet City. Violet City is 250 feet long and 125 feet wide. Stalactites and stalagmites abound everywhere, varying in color from white alabaster through every imaginable shade. The upper central part of the hall is crowned by three masses of Fluted White Onyx, glistening with exquisite crystals. The right wall is decorated with pure white formations, and the left wall is coated with rich Brown Onyx.

Route No. 4—Echo River, Valley of Flowers, Mary's Vineyard, Lunch Room, Snowball Room, Cleveland Avenue, Florists' Garden, Donna's Garden, Last Rose of Summer, Bridal Veil, Diamond Grotto, Rocky Mountains, Dismal Hollow, Maelstrom, Blarney Stone, Infernal Regions, Ganter Avenue and the Corkscrew. Of Cleveland Avenue, Hovey's Manual (the standard guide to Mammoth Cave) says on page 59: "This avenue is one of the great 'lions' of Mammoth Cave, and many think more of it than of all the other cave lions put together. It has indeed a marvelous beauty peculiarly its own. Walls and ceiling everywhere are decorated with mimic leaves and flowers, in an infinite variety of forms. There is hardly a plant known to botany that does not find its counterpart here; but roses, camellias, and chrysanthemums are the most common of varieties. In many parts of this treasure of crystals there is not a space as large as your hand that is not decorated by dazzling blossoms."

- 36.3. Thru 4-corners 44.2. Cross RRs 51.9-52.4-52.8-52.9.
- 53.1 30.7 Elizabethtown,* end of street at court house. Jog right and left one-half way around square and keep ahead. Avoid left-hand diagonal road 54.6.
- 66.0 12.9 3-corners; bear right. Avoid left-hand road 68.0.
Left at 68.0 leads to Camp Knox.
- Pass Camp Knox on left 69.2. Cross RR 69.9. Under RR trestle 74.7. Avoid right-hand diagonal road 75.9. Cross RR at Howard Sta. 76.3.
- 77.2 11.2 West Point. Straight thru. Cross RR 77.3. Cross long iron bridge over Salt river 77.5.
- 79.7 2.5 End of road; turn left across RR, curving right along Ohio river. Thru Kosmosdale 80.9 and Meadowlawn 82.8.
- 83.8 4.1 Orell, end of road at store. Turn left. Join trolley from left 84.1. Avoid left-hand road at large brick church 85.2. Thru Valley 86.1. Keep ahead with trolley. Avoid right-hand road 89.0.
- 92.7 8.9 Shively, fork, bank in center. Bear left onto 18th St.
- 95.4 2.7 Irregular 4-corners, store on left; turn right onto Hill St. Cross RRs 96.0-96.3.
- 96.9 1.5 S. Fourth St., store on left; meeting cross-trolley, turn left.
- 98.3 1.4 LOUISVILLE,* S. Fourth St. & Broadway. Large brick church on left.

HOTELS—The Seelbach, cor. 4th & Walnut Sts.
The Tyler, 3rd Ave. & Jefferson St.

Hotel Henry Watterson, Walnut & 4th Sts.

GARAGES—Glossbrenner Motors Co., 708-12 W. Broadway.

*Elizabethtown, Ky. (pop. 3,000, alt. 683 ft.), one of the first settlements in the state, originally consisted of three forts located about one mile apart. Mr. Hines was at the head of this settlement and the town was named for his wife, Elizabeth. Thomas Lincoln, father of Abe, was a cabinet maker here when Abe was about ten years old. Many marks and relics of the civil war are still to be seen. The Bush hotel, formerly Hill house, was the headquarters of John Morgan during this war and in the walls of the First Hardin National bank building may be seen a 6-in. cannon ball shot there by Morgan. General Custer made his headquarters at the Eagle house (now Smith hotel), leaving there only a short time previous to the battle of Little Big Horn.

*Louisville, Ky. (pop. 275,000, alt. 525 ft.), the largest city of the state, is situated on the Ohio river 110 miles southwest of Cincinnati. In the spring of 1778 Gen. George Rogers Clark, who was sailing down the Ohio with raw recruits and immigrant families, finding it necessary to make a landing and discipline his soldiers, disembarked on Corn Island near the falls. At the end of a month he moved forward with his soldiers, leaving the immigrants, who thus became the first settlers. Later Clark, victorious, returned to them and with their aid built Fort Nicholas on the Kentucky shore opposite the falls at the foot of what is now Twelfth street and christened the settlement around it Louisville, in honor of Louis XVI of France. In the original plans allowance was made at what is now Sixth and Jefferson streets for the civic buildings of a great city, and today the county court house, city hall, fire and police headquarters and Jefferson's monument are located on this ground. Corn Island, on which

the city was started, is no longer visible above the water.

Louisville is today the largest leaf tobacco market in the world and the third city in the production of tobacco. With one exception it is the largest exporter of agricultural implements in the world. Practically all the loose leaf records for bookkeeping of every kind are manufactured in Louisville, and, strange as it may seem, Louisville is the principal mahogany market and manufacturing center of the United States and one of the most important in the world.

Louisville is built on a plateau about 60 feet above the river. At low water the Ohio here falls 26 feet in two miles. A canal gives navigation around the falls, but during high water river boats pass directly over the falls. Three fine bridges connect Louisville with New Albany and Jeffersonville, on the right bank of the river, in the state of Indiana.

Two miles out of the city on the Bardstown road is the two-gabled house and oratory where once lived and worshipped Louis Philippe, afterward King of France. The canvases of Van Dyck, Murillo, Van Brees and Raphael, which Louis Philippe brought with him to this country, may still be seen in the cathedral of the Assumption, in the convent at Nazareth, and in the historic old church at Bardstown, which still uses the old bell that was his gift. Five miles out on the Brownsboro road, past Mocking Bird valley, is the home where President Zachary Taylor was reared. Hard by in the Taylor family burying ground he lies with his wife in a tomb under the shadow of the monument which the federal government erected to him as the hero of Okeechobee, Resaca de la Palma, and Monterey. The old Taylor homestead where Jefferson Davis, afterward presi-

dent of the Confederacy, courted and won the president's daughter, Knoxville, and in which they were married, is still standing a short distance from the burial ground. All the Taylor farm is now the property of the United States government. The Kentucky state fair grounds with the government fish hatchery are also very interesting, and the world-renowned Churchill Downs, where the classic Kentucky derby annually brings the pride of the Kentucky thoroughbreds, as well as Douglas park, where the famous Kentucky handicap vies with the derby for the honors of the turf.

Of the largest Louisville public park system the three parks, Cherokee on the extreme east, Iroquois on the south, and Shawnee on the extreme west, are connected by a boulevard about 18 miles in length and uniformly 100 feet wide and containing a speedway for dry weather and heavy metaled roadway and several paths, each set off by rows of trees. Cherokee park, which is wonderfully beautiful, is a mile square and contains

the Cherokee golf links and the Cochran museum, which includes the largest collection of moths and butterflies in America. Iroquois park contains 670 acres of picturesque woodland left absolutely in the original state in which the red man knew it, except for the driveways. Here on Beech road under a grape vine arch is the bronze statue of Daniel Boone in hunter's dress and scouting attitude, a splendid figure, the work of Miss Enid Yandell, the Kentucky sculptor. The River drive in Shawnee park is very beautiful. Central park, in the very heart of the city, contains the finest stuffed bird museum in America.

Cave Hill cemetery is known far and wide for the beauty of its landscape and the magnificence of its natural forest. Among the monuments of more than passing interest is a beautiful statue of George Keats, the brother of the poet. George Rogers Clark, who ended his life in penury in Clarksville, across the river from the great city he had laid out and established, is buried here.

WHAT TO SEE IN LOUISVILLE

Camp Zachary Taylor, located about six miles southeast of the business center of the city, is a U. S. artillery replacement depot and an infantry replacement depot. There are accommodations at Camp Zachary Taylor for 47,500 soldiers and an average of from 30,000 to 45,000 are usually in training here. At Stithton, Ky., twenty-five miles southwest of Louisville on the Dixie highway, there is an artillery firing center of the U. S. army, located in a beautiful and picturesque hill country. The War Department

announced in June, 1918, that improvements to be made at the Stithton camp during the year would provide accommodations for 53,000 soldiers. This will make it the largest artillery training center in the United States.

The massive walls of the city hall and Jefferson county court house date back to 1837. In front of the main entrance is a fine monument to Jefferson. Within the rotunda of the court house is the famous Joel T. Hart statue of Henry Clay, which is recognized as the most faithful likeness of the Great

The SEELBACH Louisville, Kentucky

The leading hotel of the city, absolutely fireproof and up-to-date, located in the heart of the shopping center, in the midst of all the theaters and close to the best garages.

Route 516—Louisville to Mammoth Cave, Ky.—98.3 m.

Reverse Route 515.

Via West Point, Elizabethtown, Upton, Munfordville, Horse Cave and Cave City. First 20.7 miles macadam and pavement, then 1 mile rough stone thru West Point, next 20 miles fair stone road and 3 miles gravel to Elizabethtown; then 53 miles fair stone with short stretches of gravel to Mammoth Cave. Summary: 75 miles stone, some of it rough; 20 miles macadam; 3 miles gravel. U. S. Government will probably repair roads around Camp Knox this year.

This is a section of the Dixie highway. The road follows Ohio river to Kosmosdale, then thru a hilly farming country, following RR to Munfordville; thru valley practically all the way to Mammoth Cave.

MILEAGE

| | | Pass Camp Knox on right 29.1. Avoid right-hand road, store on left 30.3. |
| 32.3 | 11.2 | 3-corners; bear left. |
| 45.1 | 12.8 | Elizabethtown,* end of road at court house square. Jog right and left one-half way around square and keep ahead. Cross |

(Louisville Points of Interest, concluded from page 549.)

Commoner that remains. Just to the right, facing the court house, is the celebrated Willard hotel, whose balcony has been the stage for many a stirring political harangue, and visible down Center street is the Jefferson county jail, a model in penal institutional architecture. At Chestnut street is the U. S. post office and custom house and diagonally opposite is the Atherton building, containing the Mary Anderson theater, named for the famous actress who was reared in Louisville and made her debut here.

The Louisville public library on Fourth and York streets is a beautiful example of combined Greek and Roman architecture. One of its rare treasures is the Bird Book by Audubon, who gathered his materials around Louisville, where he spent the early days of his life. The lithographic stones which were used for the printing were destroyed when only a few volumes were completed and consequently these are almost priceless. On the lawn fronting the main entrance of the library is a statue of heroic size in Carrara marble representing George D. Prentice, Louisville's distinguished editor, poet and statesman.

The College of Arts and Science of the university of Louisville is situated on Broadway; also on Broadway is the beautiful

quadrangle of the Presbyterian theological seminary of Kentucky and the Southern Baptist theological seminary. The "Hay Market" in the heart of the city is one of the largest open markets for poultry and produce in the U. S. Not far from this on Main street stands the historic Galt house, in its day the most celebrated hotel in America. Here have been entertained such noteworthy visitors as Charles Dickens and the Grand Duke Alexis, and here in September, 1862, Jefferson Davis shot and mortally wounded William Nelson.

Main street is the greatest wholesale market in the world for straight whiskey. At the corner of Seventh and Main streets is the granite shaft marking the site on which Fort Nelson was built (1782) by George Rogers Clark after the expedition which gave to the country the great northwest. From Eighth street to Twelfth street on Main are the tobacco breaks, the greatest tobacco market and warehouse section in the world. The tobacco is sold at auction mornings from 10 to 12. At the foot of Tenth street can be seen what the erosion of the river has left of Corn Island, where Clark landed his band of pioneers. In the Monument Circle at Grand boulevard and Third street is the confederate monument. There are two race tracks, and the Kentucky derby is held here in May.

RRs 45.4-45.5-45.9-46.4.

47.3 2.2 Fork; bear right. Thru 4-corners 54.1. Avoid right-hand diagonal road 56.7. Thru Upton 62.0.

62.3 15.0 Fork; bear right across RR. Cross RRs 62.9-64.2-65.3. Thru Bonnieville 68.4. Cross RRs 70.2-72.8.

76.0 0.1 Fork; bear right downgrade.

76.1 0.1 Toll-bridge over Green river. (Charges 50c.) Use caution for right curve along bluff just beyond bridge 76.3. Thru Woodsonville 76.7. Avoid left-hand diagonal road at Rowletts 78.2.

83.9 7.8 Horse Cave, 3-corners (business center to left).

Left is Note (a) on Route 516 to Goodnight.

Bear right along RR. Cross RR 85.7.

Sharp left at 85.7 is Route 513 to Nashville via Jackson Highway.

87.9 4.0 Right-hand road, beyond school on left; turn right.

Straight ahead is Route 517 to Nashville via Dixie Highway.

88.0 0.1 Cave City. Straight thru across RR at sta.

HOTELS—Hotel Dixie, Main St.

92.7 4.7 Fork; bear right. Road is winding and rolling. Cross RR 97.1.

98.3 5.6 MAMMOTH CAVE.*

HOTELS—Mammoth Cave Estate, Mammoth Cave Cottages on the left and right.

Note (a) Route 516—Horse Cave to Goodnight, Ky.—8.8 m.

Reverse Note (a) on Route 510.

Via Bear Wallow. Fair stone road.

This note used in conjunction with Route 516 and Route 513 offers best way from Louisville to Nashville.

0.0 0.0 HORSE CAVE, 3-corners. Go east downgrade (left if coming from Louisville). Cross RR 0.3. Pass park on left 0.4.

1.9 1.9 Right-hand road; turn right with poles.

4.4 2.5 Bear Wallow, end of road. Turn right.

4.5 0.1 Fork; bear left. Avoid right-hand road at school 7.0.

Right at 7.0 is Route 510 to Mammoth Cave.

8.8 4.3 GOODNIGHT, store on left.

Straight ahead is Route 517 to Nashville.

***Elizabethtown, Ky.** (pop. 3,000, alt. 683 ft.), one of the first settlements in the state, originally consisted of three forts located about one mile apart. Mr. Hines was at the head of this settlement and the town was named for his wife, Elizabeth. Thomas Lincoln, father of Abe, was a cabinet maker here when Abe was about ten years old. Many marks and relics of the civil war are still to be seen. The Bush hotel, formerly Hill house, was the headquarters of John Morgan during this war and in the walls of the First Hardin National bank building may be seen a 6-in. cannon ball shot there by Morgan. General Custer made his headquarters at the Eagle house (now Smith hotel), leaving there only a short time previous to the battle of Little Big Horn.

***Munfordville, Ky.** (pop. 475), situated on the Green river 73 miles south of Louisville, is a historic spot. Just a short distance back from the main street is the ancient inn of logs where Andrew Jackson stopped on his ride from Nashville to Washington to be inaugurated president. In the hills surrounding the town may still be seen the trenches dug by the "blues" and "grays" about half a century ago.

***Mammoth Cave, Ky.** (alt. 900 ft.) is one of the "Seven Wonders" of the world, and at least a two-day stop should be made to prop-

erly see this wonderful work of nature. Guides are furnished to show the tourist through the cave, and in this way about two trips a day can be made. To see thoroughly all the wonderful sights offered one should take at least four trips. To the tourist a stay at Mammoth Cave is rich in pleasure, relaxation, new experiences and impressions. More than this, a stay there means improved health. Altitude, bracing air, fine woods and consequent exercise in the open, tone up one's system almost immediately. In fact, all the glowing terms that are used to describe and exploit health resorts may be used truthfully about this place. That the place is not advertised and exploited is due to the restrictions of a curious will on file in Louisville, which provides that the Mammoth Cave estate, including caves, hotels and 2,000 acres of land, be left practically unchanged until the death of the last of the original life tenants, whereupon the estate is to be sold at public auction. The trips through Mammoth Cave may be taken day or night at any time of the year. The temperature is practically the same the year around—54 degrees. The wonders and beauties of the Mammoth and adjacent caves are endless. Each route has its distinctive features, and a tour of one creates a desire to explore another and yet

another. Curiously enough, this is not a very tiresome exercise. Mammoth Cave is truly named, and it is wonderful—marvelous beyond words. Even the use of superlatives gives only a fair idea of its grandeur and its beauty. Stalactites and stalagmites take on the form of fluted columns of festoons and draperies and of ceiling decorations that would be the despair of a stucco-worker. There are great auditoriums with lofty ceilings—one where the formations resemble a starlit sky—domes hundreds of feet high, the sides formed of tier after tier of fluted columns, balanced and hanging rocks—huge piles of rock that seemingly have been swirled round by underground waters until they have worn great caverns; mighty crevices or clefts as if made by earthquakes; barren underground streams, and a river, the Echo, fifteen to forty feet wide, on which a good-sized flat-boat transports tourists for a distance of half a mile, so that they may enjoy the wonderful echoes. Here the slightest noise is intensified a thousand times, and certain tones sounded by the guides resemble the deep, rich notes of a pipe organ. Owing partly to important new discoveries recently made and partly to the great extent of the Mammoth Cave, the designations "long route" and "short route" have been abolished, and trips in the Cave are now subdivided into four different routes, as follows:

1. The Echo River, Pits, and Dome Route (4 hours).
2. The Star Chamber, Gothic Avenue, etc., Route (3½ hours).
3. The Main Cave and New Discovery Route (5 hours).
4. The Echo River, Cleveland Avenue, etc., Route (8-10 hours).

The Cave rates are:

One route, \$2.00; two routes, \$3.00; three routes, \$4.00; four routes, \$5.00.

The principal features of these various trips are as follows:

Route No. 1—Rotunda, Corkscrew, Exit, Labyrinth, Gorin's Dome, "Bottomless Pit," Bridge of Sighs, Valley of Humility, Fat Man's Misery, River Hall, Grand Crossing,

Dead Sea, River Styx, Echo River, and Mammoth Dome.

Route No. 2—Rotunda, Saltpeter Vats of 1812, Audubon Avenue, Banquet Hall, In Olive's Bower, Booth's Theatre Stage, Methodist Church, Gothic Avenue, Pillars of Hercules, Bridal Altar, Arm Chair, Elbow Crevise, Annetta's Dome, Giant's Coffin, Consumptive's Cabin, Martha Washington's Statue and Star Chamber.

Route No. 3—Proctor's Arcade Show Room, Indian Relics, Wright's Rotunda, Chief City, Cataracts, Waldach's Dome, Epsom Salts Deposits, Haines's Dome, Ultima Thule, Bishop's and Kaemper's Cut, Elizabeth's Dome, Grand Portal (60 feet wide, 50 feet high), Marble Temple, The Chimes and Violet City. Violet City is 250 feet long and 125 feet wide. Stalactites and stalagmites abound everywhere, varying in color from white alabaster through every imaginable shade. The upper central part of the hall is crowned by three masses of Fluted White Onyx, glistening with exquisite crystals. The right wall is decorated with pure white formations, and the left wall is coated with rich Brown Onyx.

Route No. 4—Echo River, Valley of Flowers, Mary's Vineyard, Lunch Room, Snowball Room, Cleveland Avenue, Florists' Garden, Donna's Garden, Last Rose of Summer, Bridal Veil, Diamond Grotto, Rocky Mountains, Dismal Hollow, Maelstrom, Blarney Stone, Infernal Regions, Ganter Avenue and the Corkscrew. Of Cleveland Avenue, Hovey's Manual (the standard guide to Mammoth Cave) says on page 59: "This avenue is one of the great 'lions' of Mammoth Cave, and many think more of it than of all the other cave lions put together. It has indeed a marvelous beauty peculiarly its own. Walls and ceiling everywhere are decorated with mimic leaves and flowers, in an infinite variety of forms. There is hardly a plant known to botany that does not find its counterpart here; but roses, camellias, and chrysanthemums are the most common of varieties. In many parts of this treasure of crystals there is not a space as large as your hand that is not decorated by dazzling blossoms."

Route 517—Mammoth Cave, Ky., to Nashville, Tenn.— 124.6 m.

Reverse Route 514.

Via Glasgow Junction, Bowling Green, Russellville and Springfield. Practically all stone and macadam. Very rough and stony between Glasgow and Bowling Green. This is a section of the Dixie highway.
Route 513 offers a shorter and better option to Nashville.

MILEAGE	Distance	Total Between Mileage Points	
0.0	0.0		MAMMOTH CAVE, entrance to cave on right. Go east and south with road. Cross RR and curve left along same 0.1. Cross RR 0.9.

HOTELS—Hotel Hermitage, Union St. & 6th Ave.

Maxwell House, 4th Ave. & Church St.

Hotel Tulane, Cor. 8th Ave. & Church St.

GARAGES—Tennessee Auto Corporation, 1308 Broadway.

*Bowling Green, Ky. (pop. 12,000, alt. 469 ft.), county seat of Warren county, is an important horse market and also has a large trade in mules, hogs and cattle. The tributary district is a fertile agricultural region and produces immense quantities of strawberries, wheat, corn and tobacco; in fact, Bowling Green is considered one of the greatest strawberry growing centers in the U. S. and as many as 15,000 pickers have been employed to gather the crop. Great fields of strawberries and tobacco can be viewed from the roads. Two large flour mills take care of the output of wheat. The city has two large parks; the larger, 42 acres in extent, contains Ogden college (non-sectarian) for boys, opened in 1877. Other educational institutions are Western Kentucky normal school, Saint Columbia's academy, and Bowling Green business university, the third largest commercial school in the U. S.

During the civil war the confederates regarded Bowling Green as of considerable strategic importance and all the prominent

heights of the town carry the remains of forts constructed by General Albert Sidney Johnston, General Beauregard and General Simon B. Buckner of the confederate army. The town was shelled by the Federal forces prior to the battle of Shiloh. Nearby are Massey's springs, Chalybeate springs and the Chameleon springs, and 30 miles distant is the famed Mammoth cave.

Perhaps the most noted product of Bowling Green and vicinity is a cream-colored building stone. This stone was used in the construction of St. Thomas' Protestant Episcopal church on Fifth Ave., New York. Unlike any other stone, it goes into the building dark and bleaches white as snow. This action is due to weather absorption of the oil in the stone.

*Russellville, Ky. (pop. 5,000, alt. 534 ft.), lies in an agricultural region whose chief product is tobacco. It is the seat of Bethel college (Baptist), founded 1854, and Logan female college (Methodist Episcopal South), opened 1856.

Route 518—Russellville, Ky., to Union City, Tenn.—142.7 m.

Reverse Route 457.

Via Elkton, Hopkinsville, Cadiz, Eggnor's Ferry, Murray and Fulton. 34.8 miles sand clay to Hopkinsville and 39.5 miles stone with some stretches of dirt to Eggnor's Ferry. From ferry 4.3 miles poor dirt and clay, one stony hill, 7.4 miles fair gravelly dirt, 21.3 miles worn "bumpy" gravel to Lynnville; 19.6 miles fair graded dirt, 1 mile gravel to Fulton. From Fulton 2 miles gravel, 13 miles fair to good graded dirt. Summary: 25 miles gravel; 33 miles fair graded dirt; 4 miles poor road (probably fixed this year); 40 miles stone with some stretches of dirt and 35 miles sand clay.

Thru a hilly farming country—some woods near the river—to Fulton, then thru a rolling farming country to Union City. Considerable tobacco is raised in this section. Caution should be used on bridges and culverts as nearly all are bad and have poor approaches.

If going to Memphis use Route 462 to Jackson 510 Jackson to Memphis. This is the best way from Louisville to western Tennessee and Kentucky. Route connects at Eggnor's Ferry with Route 505 to Paducah and at Union City with Route

(MILEAGE—

- 142.7 0.2 UNION CITY, TENN., 1st & Washington Sts.
 Right is Route 456 to Memphis.

Note (a) Route 518—Lynn Grove to Mayfield, Ky.—20.3 m.

Reverse Note (a) on Route 464

Via Sedalia. All good gravel thru a hilly and rolling tobacco country. Connects at Mayfield with Route 464 to Fulton and Route 458 to Paducah.

- 0.0 0.0 LYNN GROVE, 4-corners. Go west, passing P. O. on right (straight ahead if coming from Russellville).
- 5.3 5.3 4-corners, sign "Mayfield"; turn right.
 Straight ahead before this turn is Route 518 to Union City.
- 12.5 7.2 End of road; turn left.
- 12.9 0.4 Sedalia, 4-corners, stores on right. Turn right
- 13.3 0.4 Left-hand diagonal road, bear left. Cross small wooden bridge 13.5. Thru irregular 4-corners at water trough 19.8—now on 6th St.
- 20.2 6.9 South St. at near side of court house; turn left and immediately right onto 7th St.
 Left on 7th St. is Route 464 to Fulton.
- 20.3 0.1 MAYFIELD, 7th St. & Broadway at far side of court house.
 Straight ahead on 7th St. is Route 458 to Paducah.

"What to Take on the Tour"

Consult pages in the *Orange* insert, center of Book, for some real common sense advice by the Editor on essential equipment for your motor trips. Read this list of complete equipment and decide what is essential to you for comfort and safety. The particular makes of products listed are recommended as reliable.

Route 525—Nashville to Knoxville, Tenn.—219.8 m.

Reverse Route 505.

Via Murfreesboro, McMinnville, Doyle, Sparta, Crossville, Crab Orchard, Rockwood and Lenoir City. First 52 miles stone pike; balance alternating stretches of stone and gravel, with 8 miles good to poor dirt between Sparata and Pleasant Hill. This route should not be attempted after very heavy rains.

This is the most direct connection between Nashville and Knoxville. Thru farming country to Sparta and thence thru sparsely settled wooded district.

- 86.0 8.0 Rock Island. Straight thru across RR at sta. Caution for sharp turn downgrade 86.6. Cross long iron bridge 86.7.

*Murfreesboro, Tenn. (pop. 9,000, alt. 574), is noted as a residential city and is also favorably known throughout the south as an educational center. It is the seat of Soule female college (Methodist Episcopal South), the Mooney school for boys, the Tennessee college for women (Baptist), Union university and the Middle Tennessee state normal school. The city is the greatest red cedar market in the world, and is also an important cotton, grain and livestock market. A large agricultural fair is held here annually. The geographical center of the state is just one mile from the public square of Murfreesboro.

Murfreesboro is the home of Will Allen Dromgoole and of Charles Egbert Craddock—(Mary Noailles Murfree), novelist, author of the Prophet and the Great Smoky Mountains and other tales. President James K. Polk was

married here, and Governor John P. Buchanan and the noted hero scout, Sam Davis, lived here. From 1819 to 1825 it was the state capital. During the civil war three battles were fought within the city limits. Three miles from Murfreesboro the three days' battle of Murfreesboro or Stone River, one of the most severe contests, was fought December 31, 1862, to January 2, 1863, between the army of the Cumberland, under Rosecrans, and the Army of Tennessee, under Braxton Bragg. The battle, though not decisive, resulted in an advantage for the federals. Bragg retired to Tullahoma and Rosecrans entered Murfreesboro on the fourth of January but made no attempt to pursue Bragg. The federal loss was over 13,000; the confederate about 11,500.

- 86.9 0.9 Right-hand road; turn right across long iron bridge over dam, ascending long winding grade. Avoid left-hand road beyond RR bridge 88.1, and another left-hand road at saw-mill 90.3.
- 90.4 3.5 Quebeck, sta. on left. Keep ahead across RR. Caution for RR at top of grade 90.6. Recross RR 92.6.
- 93.3 2.9 Irregular 4-corners; turn square left upgrade. Follow hilly road along RR.
- 95.1 1.8 Doyle, outskirts (center of town over to left). Straight thru.
- 96.7 1.6 End of road, at store; turn right, curving left downgrade.
- 101.3 4.6 4-corners; turn right. Cross RR 101.6.
- 101.9 0.6 Sparta, court house on right. Straight thru. Cross RR 102.3.
HOTELS—Keystone Hotel, S. side of Public Square.
- Ascend narrow, rough, winding road over mountain 104.6. Avoid right-hand road 106.5.
- 107.6 5.7 Diagonal 4-corners in middle of grade; bear left.
- 108.8 1.2 Bon Air, P. O. on right. Straight thru. Avoid right-hand road 109.9. Cross RR 110.0.
- 110.4 1.6 Left-hand road; turn left. Cross RR 111.0.
- 120.2 9.8 End of road; turn right across RR at Ravenscroft Sta. Avoid left-hand road 119.1.
- 121.1 0.9 Pleasant Hill, brick school on right. Straight thru.
- 126.6 5.5 4-corners, just beyond store, wooden church on left; turn right.
- 133.4 6.8 Left-hand road; turn left.
- 133.5 0.1 End of road, just beyond RR; turn right, recrossing RR and passing court house on left.
- 133.7 0.2 Crossville, 4-corners, bank on near left. Turn left. Cross RR 134.1. Pass Dorton on right 137.9. Cross switch 138.2. Avoid left-hand diagonal road 138.3, following direction of RR. Cross switch 144.2.
- 144.3 10.6 Crab Orchard, sta. on right. Keep ahead. Jog right and left under RR 144.5. Cross RR 144.9-145.9. Caution for RR 148.1.
- 149.1 4.8 Fork, just beyond RR bridge; bear right upgrade. Cross RR 151.7. Follow winding road over hilly country, descending mountain with many fine views. Use caution for hairpin turns. Cross RR at sta. 160.1—now on Spring St.
- 160.7 11.6 End of street; turn left onto Rockwood Ave. Cross RR 161.6.
- 161.7 1.0 Rockwood, Rockwood & Kingston Aves., brick store on near right.
GARAGES—City Garage.

Chattanooga Section

POINTS OF INTEREST, CHATTANOOGA, TENN.

Chattanooga (pop. 75,000, alt. 674 ft.), is situated on the left bank of the Tennessee river, which is navigable thus far eight months of the year. The city is an important railroad center. It is surrounded by picturesque scenery, the Cumberland and several other valleys and ridges converging to this point. Just south of the city is Lookout mountain, from which seven states can be seen, and on the east lies Missionary ridge.

Southeast of the city, but in the state of Georgia, is Chickamauga national military park, laid out by the federal government and embracing the site of the battle of Chickamauga. This park is about 5,500 acres in extent and is now the site of a medical corps training camp and several regimental

cantonments. Fort Oglethorpe, a permanent army post, lies just to the north of Chickamauga park, and is now a base hospital. The national park system at Chattanooga, about 7,000 acres in all, embraces other tracts, all beautified with monuments, roads, etc., on Lookout mountain, Orchard Knob and Missionary ridge. In the city also is National cemetery with over 13,000 graves of civil war victims.

Chattanooga, originally called Ross's Landing, was settled in 1836 and incorporated in 1839. In the civil war it was of great strategic importance as the gateway to three states, Tennessee, Alabama and Georgia, and consequently was the scene of the fiercest

CHATTANOOGA POINTS OF INTEREST

(Continued from page 558)

contests of the war, notably those of Chickamauga, Missionary ridge, Lookout mountain and Chattanooga. The battle of Chattanooga was fought Nov. 23-25, 1863, between the federals, numbering 60,000, under Grant, and the confederates, 40,000 strong, under General Bragg. The result was a federal victory which not only relieved Chattanooga, but forced the confederate general, Longstreet, who was then besieging Burnside at Knoxville, to retreat into Virginia. The federal losses were 5,815 and the confederate 6,687.

The battle of Missionary ridge, in which the federal troops without orders charged up the mountain, was one of the most spectacular feats of the war. Charles A. Dana, an eye witness, telegraphed to the New York Sun: "The storming of the ridge by our troops was one of the greatest miracles in military history. No man who climbs the ascent by

any of the roads that wind along its front can believe that 18,000 men were moved up its broken and crumbling face unless it was his fortune to witness the deed." Chattanooga was almost entirely destroyed during the war, but after the close of the struggle rapidly recovered.

Chattanooga is very favorably situated for commerce and manufacturing. In the vicinity are coal and iron mines, clay deposits and large forests. In November, 1913, at Hale's bar, near Chattanooga, a lock, dam and power plant was completed across the Tennessee river at a cost of \$9,000,000. The Mussel Shoals canal gives unbroken passage to the mouth of the river and north-eastward steamers run to Kingston and at high water to Knoxville, 200 miles distant. Chattanooga carried on a large trade in lumber, grain, iron and coal.

(Concluded on page 564)

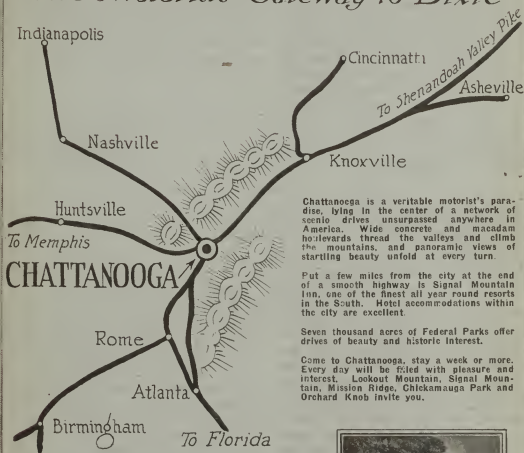

The Crest Road, Missionary Ridge.

CHATTANOOGA

Tenn.

The Motorists Gateway to Dixie

Chattanooga is a veritable motorist's paradise, lying in the center of a network of scenic drives unsurpassed anywhere in America. Wide concrete and macadam highways thread the valleys and climb the mountains, and panoramic views of startling beauty unfold at every turn.

Put a few miles from the city at the end of a smooth highway is Signal Mountain Inn, one of the finest all year round resorts in the South. Hotel accommodations within the city are excellent.

Seven thousand acres of Federal Parks offer drives of beauty and historic interest.

Come to Chattanooga, stay a week or more. Every day will be filled with pleasure and interest. Lookout Mountain, Signal Mountain, Mission Ridge, Chickamauga Park and Orchard Knob invite you.

CHATTANOOGA POINTS OF INTEREST

(Concluded from page 562)

QUICKEST AND BEST WAY TO SEE CHATTANOOGA.

4 Hour Trip—Leave Hotel Patten and proceed north on Market street, thru the retail district, turning left on Sixth street and to the right at the fire hall at top of hill, circling thru Boynton park, which at an elevation of about three hundred feet above average city elevation, gives splendid views in all directions. Returning via Sixth street, cross Market street to Fountain square, viewing firemen's fountain, \$500,000 court house, several churches and apartments. Turn to your left at Stone church and proceed along McCallie avenue to first left hand turn after crossing viaduct. Take second right hand turn, driving thru Ft. Wood residence section. Turn to right at car track and again into McCallie avenue at sanitarium. Beyond steep viaduct is Warner park, the largest municipal playground in America, at the left, and National cemetery, where 13,000 civil war victims are buried, two blocks to the right.

Returning to McCallie avenue, continue east to Orchard Knob avenue, turn to left two blocks to visit Orchard Knob, General Grant's headquarters in battle of Missionary ridge. Return to McCallie avenue and go east to base of ridge, there taking road up ridge to left, reaching top of ridge, turn to right and follow crest road. Take left hand road at little white school house, soon thereafter reaching the main road to Chickamauga park, turning to left. This road reaches Ft. Oglethorpe and Chickamauga park, with its training camps and cantonments. Drive at will thruout park, returning to city by LaFayette road through Rossville, where is located the home of John Ross, Cherokee Indian chief, for whom Ross' Landing, now Chattanooga, was named. Then Rossville boulevard, eighty feet wide and permanently paved, back to the city.

POINTS OF INTEREST, SIGNAL MOUNTAIN, TENN.

Signal Mountain (alt. 2,000 ft.) is connected with Chattanooga by modern auto road and by electric car. It is about a 40- or 45-minute run and the trip is a most scenic one, the Tennessee river being in view most of the way. Signal Mountain is the southern spur of the Cumberland range. It terminates in what is known as Signal Point, at the base of which is the Grand Canyon of the Tennessee, the gorge thru which this stream flows to join with the Ohio near Paducah, Ky. On the summit of Signal Mountain, not

far from Signal Point, is a splendid hotel for the comfort and convenience of resorters and visitors. A very fine golf course has recently been completed here. Rainbow lake, formed by building a concrete dam across one of the largest mountain streams, offers bathing and boating. Excellent views of the Georgia and Alabama hills, of the great Smoky mountains of North Carolina and of Lookout mountain may be had from the summit of Signal Mountain.

SIGNAL MOUNTAIN HOTEL

CHATTANOOGA TENNESSEE

On the summit of Signal Mountain. Only 40 minutes from Chattanooga. Fine automobile road or suburban trolley. Elevation 2000 feet. European plan. Open all the year.

Route 531—Chattanooga, Tenn., to Atlanta, Ga.—124.1 m.

Reverse Route 268.

Via Rossville, Dalton, Calhoun, Adairsville, Cartersville, and Marietta. First 8.6 miles macadam and concrete, balance all gravel and sand-clay roads, with exception of the last 7 miles which is macadam. Thru rolling farming country.

Route 532 offers longer option via Rome, with a greater mileage of hard surfaced road than on this route.

- 0.0 0.0 CHATTANOOGA, Market & 8th Sts., drug store on left. Go south with trolley on Market St. Cross RRs 0.4-0.6.
- 0.7 0.7 End of street; meeting cross-trolley, turn sharp right onto Montgomery Ave.

*Rome, Ga. (pop. 12,100, alt. 612 ft.), is picturesquely situated at the confluence of the Etowah and Oostanaula rivers, which here unite forming the Coosa. Both the Coosa and the Oostanaula rivers are navigable. Rome is the seat of Shorter college for women, a Baptist institution opened 1877. A boys' industrial school and three preparatory schools are also located here. It is the commercial center of the important agricultural district of its river valleys, and is a large peach and cotton market. It is also prominent as an industrial city. In 1863 General Forrest here defeated a federal force under General Streight. In May, 1864, when General Sherman was closing in on the confederates at Resaca, General Davis by his order attacked Rome. A severe contest en-

sued, resulting in the withdrawal of the confederates and the Union occupation of the city, together with the capture of 10 guns, valuable iron works and machine shops and a large amount of public stores.

At Mount Berry on the Dixie highway, 2 miles northwest of Rome, is the Berry school, a Christian industrial school for country boys and girls of limited means. The boys' school is situated directly on the highway, while the girls' school stands back a mile in the foothills. In addition to this school there is the farm school, 5 miles back at the foot of the mountains. It occupies 200 acres, which the boys cultivate together until they earn enough to pay their tuition for one term in school.

- 1.0 0.3 Whiteside St., RR ahead; turn left.
- 2.1 1.1 Right-hand diagonal road beyond iron bridge; bear right away from trolley. Cross RR 2.3.
- 2.8 0.7 Right-hand diagonal road at RR underpass; bear right under another RR.
- 2.9 0.1 1st right-hand diagonal road beyond RR underpass; bear right onto concrete—road is winding upgrade.

*Florence, Ala. (pop. 18,000, alt. 506 ft.), is one of the oldest and most picturesque cities in the south and has played a very large part in the history-making of Alabama, furnishing as it has many statesmen and leaders. Ferdinand Sannoner, a young Italian engineer, laid out Florence over one hundred years ago, under the direction of General John Coffee, and tradition has it that he was granted the privilege of naming the new town after his beloved city in Italy. Florence has, since early days, been considered one of the leading educational centers of the state. The State normal college is located here and also

the Coffee high school, in addition to a large number of up-to-date graded schools.

Situated on the Tennessee river, and lying just below the last of a series of rapids known as Mussel Shoals, it is ideally located. The scenery along the Tennessee at this point is particularly beautiful, and compares favorably with that of the Hudson. It is at this point that the big Wilson dam is in process of construction, which, when completed, will generate as much power as Niagara Falls, and which will require five years to complete. A visit to the dam will well repay the tourist.

- 4.5, crossing RR just beyond. Pass court house on right 6.3. Cross RR 6.4, joining trolley from right.

- 49.8 0.2 Fork; keep left, going thru 4-corners beyond.
- 51.5 1.7 4-corners, house on left; turn right. Turn left with road 51.8.

*Tuscumbia, Ala. (pop. 4,000, alt. 490 ft.), on the Tennessee river, is pleasantly situated in an agricultural district encircled by hills. As far back as 1870 the French colony on the Wabash river established a trading post at this place. Here was built the first railroad west of the Alleghany mountains. It consisted of a line two and one-eighth miles in length, extending from the city to the landing on the Tennessee. Tuscumbia was the home of many distinguished citizens and of some of the greatest lawyers of the state, among whom was Arthur H. Keller, father of the world-famed blind girl, Helen Keller. The home of Helen Keller in the northern part of the town has undergone few changes. The little office in the yard where she received her first training from her teacher and companion, Mrs. Annie Sullivan Macy, is still to

be seen. The town library has been erected in her honor. The Deshler female institute, monument to the memory of Brigadier-General James Deshler of Tuscumbia, who was killed at the battle of Chickamauga, is another point of interest, as is also the Big Spring, from which flows 17,724 cubic feet per minute at a temperature of 58 degrees. Near this spring, in the center of town, on the banks of the stream, is located Spring park. Northeast of the city, a quarter of a mile from the birthplace of Helen Keller, is Nitrate Plant No. 1, constructed by the U. S. government in 1918, said to be the largest of its kind in America. Three miles northwest of the city is Nitrate Plant No. 2, also constructed by the government in 1918, and at which are employed 20,000 persons.

- 51.9 0.4 Burnesville, right-hand road, stores on left. Turn right across RR at sta.
- 52.7 0.8 Fork, beyond wooden bridge, keep left upgrade.
- 53.8 1.1 Fork, sign "Corinth" in center; bear left. Avoid right-hand road 54.9.

Route 544—Chattanooga to Nashville, Tenn.—165.4 m.

Reverse Route 481.

Via Jasper, Tracy City, Monteagle, Sewanee, Cowan, Winchester, Lynchburg, Shelbyville and Murfreesboro. First 6.3 miles macadam and concrete, then 9.3 miles fair-to-poor dirt; 3.7 miles worn stone road to the Tennessee river, which is crossed by ferry (charges 50c). From the river there is 10 miles macadam and gravel to Sequatchie. From Sequatchie the road goes up a steep climb to the top of the Cumberland mountains; road is winding and very stony, with some clay. (Chains should be used in very wet weather.) From top of mountains the road is merely a trail thru the woods for 14.4 miles to Tracy City, sandy and rocky, with some bad mud holes, especially in very wet weather. From Tracy City to Monteagle the road is graded dirt and gravel. From Monteagle to Sewanee graded dirt. From Sewanee the road descends mountain on a graded road and is in very bad condition on account of heavy rains—washed out and very stony and rough. From foot of mountain to Cowan road is good graded dirt for 2 miles. From Cowan 24 miles of good stone road, then 7.2 miles narrow gravel, with numerous small stony fords; 1 mile stone road to Lynchburg. From Lynchburg to Nashville 73 miles stone and gravel pike. Summary: 10 miles macadam and concrete; 95 miles stone and gravel pike; 11 miles good gravel; 5 miles good graded dirt; 11 miles fair dirt, some rough; 32 miles poor dirt; stony and many mud holes.

From Chattanooga to Jasper the route goes thru a hilly farming country, then thru wooded section, very sparsely settled to Cowan over the Cumberland mountains. From Cowan most of the way thru a good farming section. The total toll on this route is 45c.

This is a section of the Dixie highway. Road conditions change so frequently on this road that careful inquiries should be made at Chattanooga Auto Club as to best way between the two cities. A new road was being built during 1919 from Monteagle to Jasper and Jasper to Chattanooga by Signal mountain, but was not open and data could not be obtained for directions over same. These roads should be completed by spring of 1920.

For option from Shelbyville to Nashville, shorter and somewhat better, see Route 274. (Toll on this option \$0.80-\$1.20.) A better option to Nashville is via Route 546 to Rockwood and Route 555 to Nashville. This is longer, but has only 3 miles of poor road.

Tourist should make inquiry at Chattanooga regarding new line of Dixie highway to Jasper.

GARAGES—Tennessee Auto Co., 1308-18 Broadway.

*Murfreesboro, Tenn. (pop. 9,000, alt. 574 ft.), is noted as a residential city and is also favorably known throughout the south as an educational center. It is the seat of Soule female college (Methodist Episcopal South), the Mooney school for boys, the Tennessee college for women (Baptist), Union university and the Middle Tennessee state normal school. The city is the greatest red cedar market in the world, and is also an important cotton, grain and livestock market. A large agricultural fair is held here annually. The geographical center of the state is just one mile from the public square of Murfreesboro.

Murfreesboro is the home of Will Allen Dromgoole and of Charles Egbert Craddock (Mary Noailles Murfree), novelist, author of the Prophet and the Great Smoky Moun-

tains and other tales. President James K. Polk was married here, and Governor John P. Buchanan and the noted hero scout, Sam Davis, lived here. From 1819 to 1825 it was the state capital. During the civil war three battles were fought within the city limits. Three miles from Murfreesboro the three days' battle of Murfreesboro or Stone River, one of the most severe contests, was fought December 31, 1862, to January 2, 1863, between the army of the Cumberland, under Rosecrans, and the Army of Tennessee, under Braxton Bragg. The battle, though not decisive, resulted in an advantage for the federals. Bragg retired to Tullahoma and Rosecrans entered Murfreesboro on the fourth of January but made no attempt to pursue Bragg. The federal loss was over 13,000; the confederate about 11,500.

Route 546—Chattanooga to Knoxville, Tenn.—137.0 m.

Reverse Route 551.

Via Sale Creek, Graysville, Rhea Springs, Spring City, Rockwood, Kingston and Lenoir City. Macadam with gravel to Lorraine, then 37 miles gravel, followed by 33 miles macadam (worn) to Chattanooga. Summary: 41.9 miles macadam; 67.4 miles gravel; 27.7 miles stone.

The road is very winding to Rockwood; balance thru a hilly farming country; no steep grades or long hills.

Route 547 offers a shorter but less desirable option to Knoxville.

Knoxville Section

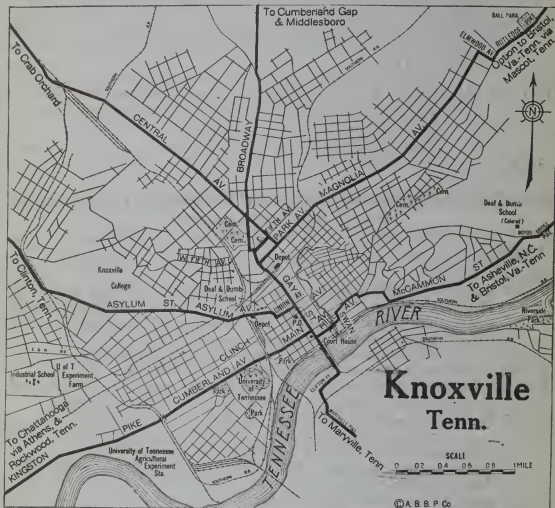

POINTS OF INTEREST, KNOXVILLE, TENN.

Knoxville (pop. 94,289, alt. 933 ft.), occupies a hilly site of great natural beauty on the Tennessee river at the head of steam navigation. The foothills of the Clinch mountains encircle it. The surrounding region produces coal and iron on an extensive scale. Copper and zinc are also found in considerable quantities and the beautiful Tennessee marble is quarried here. In commercial importance Knoxville ranks with the first cities of the south. It has extensive wholesale interests, particularly in dry goods, hats, etc., and ships a large amount of agricultural produce.

Knoxville is the seat of the University of Tennessee, which was reorganized 1869; the Agricultural college, affiliated with the uni-

versity, and Knoxville college for colored students. The state asylums for the insane and for the deaf and dumb are located here. Among the public buildings may be mentioned the fine government building, the court house, city hall, Lincoln memorial hospital, city hospital, city market and Lawson McGhee memorial library, the building which served as the first capitol of Tennessee. Other features of interest are the iron bridge across the river, Gray and Cemetery parks, and Chilhowee park, where exhibitions were held in 1910 and 1911; also the National cemetery, where rest 3,261 soldiers of the civil war.

Knoxville was founded 1787 by Gen. James White, a Revolutionary officer. It was laid

Route 551—Knoxville to Chattanooga, Tenn.—137.0 m.

Reverse Route 546.

Via Lenoir City, Kingston, Rockwood, Spring City, Rhea Springs, Graysville and Sale Creek. First 32 miles macadam (worn), then 37 miles gravel to Lorraine; balance stone and macadam. Summary: 41.9 miles macadam; 67.4 miles gravel; 27.7 miles stone.

—MILEAGE—
Distance
Total Between
Mileage Points

The road runs thru a hilly farming country to Rockwood; no steep grades or long hills; balance is very winding.

Route 552 offers a shorter but less desirable option to Chattanooga.

(Knoxville Points of Interest, concluded from opposite page)
out in 1791 and named after Brigadier General Henry Knox, distinguished artillerist of the revolution and secretary of war under Washington. It was the capital of the state of Tennessee from 1796-1811 and again in 1817. During the civil war it was held by the confederates until 1863, when General Burnside occupied it. In November of the same year the confederates under Longstreet vainly besieged it for 20 days, the siege ending in the desperate assault on Fort Sanders, in which the confederates lost 600 killed and wounded and 300 taken prisoners.

During the past few years the growth of Knoxville has been very rapid. The Appalachian exposition was held here in 1910.

*Lenoir City, Tenn. (pop. 5,500, alt. 900 ft.), is comparatively a new town, having been founded in 1890 by a group of Knoxville and New York capitalists who purchased the 2,000-acre estate of Dr. B. B. Lenoir and family,

from which the city takes its name. This estate was at one time a part of North Carolina. The Holston Manufacturing Co., second largest hosiery mill in the south, is located here.

CINCINNATI CHAMBER

The far-famed Blue Grass country of Kentucky lies not far away over the Dixie Highway, while farther along the same trail lies also the beautiful Lookout Mountain and Missionary Ridge country high above Chattanooga and the Tennessee River. Lovely are the roads that line the Kentucky and Licking River valleys in the land made famous by Foster in "My Old Kentucky Home," while Fort Thomas on the plateau above the Ohio River is but four miles away on good roads.

In every direction from Cincinnati lie many historic places—beacon lights in the story of our land. The remains of the Mound Builders, the birthplace

OF COMMERCE.

of Abraham Lincoln, General Grant, President Harrison, the site of old Fort Washington; all sights and scenes upon which Washington and the pioneers gazed and built on and fought over.

Along the Dixie Highway and other roads you can travel to the delights of French Lick Springs, and like resorts of Indiana. To the north and north-east ranges the Great Lake country, with their sports and pleasures. In all directions, radiating from the Queen City, lie sights and scenes of beauty and delight and historical interest, many of them within touring distance of the city.

What are You Looking for?

CINNINNATI OFFERS YOU —

SCENERY

The rambling hills about the city, rimming glorious rivers—Big Miami, Little Miami, Whitewater, Licking—all swelling the deep-running Ohio at Cincinnati, form a panorama worth miles to see. Across the Ohio lie the lovely Kentucky hills.

PLEASURE

We offer you beautiful drives through lovely suburbs; historic points of your Nation's past; best of hotel accommodations; magnificent country clubs with golf links; also municipal golf links; art museums, the finest of the Middle West; a Zoological Garden containing the largest animal collection in the United States.

GOOD ROADS

How lies the road, naturally interests you. The roads that run to Cincinnati were good roads before there was a car to travel them. We early prepared for your coming by seeing to it that Ohio and the vicinity of Cincinnati had *good roads*. The Dixie Highway is only one of the good road routes, on which *your tires will never tire*.

ART

Cincinnati was an art center from earliest days of the city. The first endowed art academy in America was started here nearly a century ago. The natural beauty of the city's location, and the fame of its art academy attracted the attention of artists who settled here shortly after its birth. The names of Duveneck, Kenyon, Cox, Borglum, Powers and Noble are familiar to all art lovers—all are Cincinnati taught. The Rookwood Potteries are known the world over for exquisite specimens of ceramic art; while the treasures of the art museum, with its wonderful collections, are noted among the finest and most complete in America.

MUSIC

As with art, music, its allied sister, early came to Cincinnati. In 1849, twelve years after founding the city, a singing society, the first in America, was started here. From this grew the world-famous May Festivals, held every two years in Cincinnati with chorus of one thousand voices. Soon after the visit of LaFayette to Cincinnati, the first Symphony Orchestra was formed, with Tosso at its head. Later Theodore Thomas headed it and it has ever been a leader among musical organizations. Today headed by Ysaye, it is gaining new laurels.

Turn right onto Crawford St. and follow Route 531 (from mileage 34.3 to 124.1) balance of the way to
- 119.3 89.8 ATLANTA, Marietta & Peachtree Sts.

*Dalton, Ga. (pop. 7,000, alt. 744 ft.), was a point of strategic interest during the civil war. The Confederate General Joseph E. Johnston, who commanded the army for the defense of Atlanta, made his headquarters here during the winter of 1863-64, and the house in which he lived is still standing. A large monument of Johnston has been erected on one of the public squares. Several skirmishes occurred in and around Dalton, and the surrounding hills are covered with earth works and fortifications.

In 1541 De Soto and his cavaliers passed through Dalton, and an old fort built by them, still well preserved, may be seen on a high mountain just east of the city. John Howard Payne, author of "Home, Sweet Home," was brought to Dalton while a prisoner for having sympathized with the Indians while they were being removed by the U. S. Government agents.

Dalton is at present the home of the Lesche club, one of the most distinguished clubs for women in Georgia.

*Cumberland Gap, Tenn. (pop. 350, alt. 960 ft.), is a pass through the Cumberland mountains on the state line between Kentucky and Tennessee at the southwestern point of Virginia, where the three states meet. In some places the cut is so narrow that it is barely wide enough for the roadway, above which the sides of the pass rise to a height of 500 feet. Through Cumberland Gap passed the road which Daniel Boone laid out between Virginia and Kentucky in 1779, and over it traveled most of the emigrants to Kentucky and Tennessee. During the civil war the gap was of great importance as the gateway between Kentucky and Tennessee and several times changed hands. It was first occupied by the Confederate General Zollicoffer on November 13, 1861, but he withdrew at the approach of a superior federal force under Morgan, who took possession of the gap and strengthened the fortifications. Various minor skirmishes took place until in

the following year, when the confederates in turn approached the gap with a superior force. Morgan was obliged to evacuate the place, which he did secretly, and after having destroyed the fortifications and the war supplies, General Bragg then took possession, but, in September of the next year, 1863, the federal forces under Generals Shekelford and De Courcy in co-operation approached the gap from both the north and south ends and summoned the Confederate General Frazer, then in possession, to surrender. Frazer, seeing the hopelessness of the situation, surrendered without resistance, giving up 2,000 men, 18 guns and a large supply of ammunition. The gap then remained in the possession of the Union forces until the close of the war. At Cumberland Gap on April 23, 1865, 900 confederates surrendered and were paroled. (For further details of the gap see Middlesboro, Ky.)

- 63.1 0.1 Left-hand diagonal road at small wooden church; bear left. Cross Tennessee-Virginia state line 63.5. Recross Virginia-Kentucky state line at summit of mountain and Daniel Boone monument 64.1, descending winding road.
- 65.5 2.4 Right-hand road; turn right. Same thorofare becomes Avondale Ave.
- 66.0 0.5 End of street; turn right onto N. 10th St.
- 66.2 0.2 Cumberland Ave.; turn left. Under RR 66.7.
Right just before RR underpass at 66.7 leads to Crab Orchard.
- 67.0 0.8 MIDDLESBORO,* KY., Cumberland Ave. & 20th St., bank on far left.

Route 555—Knoxville to Nashville, Tenn.—219.8 m.

Reverse Route 525.

Via Lenoir City, Rockwood, Crab Orchard, Crossville, Sparta, Doyle, McMinnville and Murfreesboro. First 166 miles alternating stretches of stone and gravel, with 19.2 miles poor-to-good dirt between Pleasant Hill and Sparta; balance 52 miles stone pike. This route should not be attempted after very heavy rains.

This is the most direct connection between Nashville and Knoxville, and used in conjunction with Route 551 makes best connection to Chattanooga. Thru sparsely settled wooded district to Sparta, balance farming country.

- 0.0 0.0 Rockwood, Kingston & Rockwood Aves. Turn right (west) onto Rockwood Ave. Cross RR 0.1, running thru business center.

*Middlesboro, Ky. (pop. 7,325, alt. 1,008 ft.), is located in the extreme southeastern corner of the state, 2½ miles west of the historic Cumberland Gap in the Cumberland range of the Appalachian mountains. The town is completely surrounded by mountains, and there are no points of outlet except at the northeastern limit of the town, where Yellow creek has eroded a narrow channel thru a mountain ridge, and another near the southeast corner, thru the Cumberland Gap. The bottom of the mountain base in which the town lies is a nearly level plain. An Indian trail leading thru the basin and Cumberland Gap, known as the Warrior's Path, was traversed by Daniel Boone the first time in 1769. This was one of the most important trails in the west both during peace and war. In 1775 Daniel Boone marked the first white man's highway thru the Cumberland mountains. From that time Cumberland Gap was known as Boone's path or Boone's road. This was only a bridle path at first, but after its widening in 1796 it became known as the Wilderness road, by which name and that of Boone's path it is known today. Its strategic importance was recognized by both sides during the civil war, and it was held alternately by the federals and confederates. There are still to be seen in a fair state of preservation the remains of long lines of rifle pits running across and down both sides of the mountains nearly to the base, approaching close to the city limits of Middlesboro on the north and within the town of Cumberland Gap on the south side of the Cumberland mountains, with earth forts located at advantageous points commanding the roadway through the gap.

After the civil war the Cumberland Gap was little used, owing to the development of railway lines, but with the increasing use of automobiles it again became a desirable route and in 1908 the government constructed the Government pike, a macadamized road connecting Middlesboro and the town of Cumber-

land Gap. Virginia, Kentucky and Tennessee have built macadamized roads connecting with this Government pike and in 1916 the route thru Middlesboro and the Cumberland Gap known as the "Boone way" or "Wilderness road" was made part of the Dixie highway leading from northern Michigan to Miami, Fla.

Much fruit is raised in this section. Pinnacle Peach orchard, on Pinnacle mountains, contains more than 7,000 peach trees, around which trees are trained vines producing the large Elberta grapes. A delightful drive follows a road diverging from the Government pike in Cumberland Gap and pursuing a circuitous but always ascending route thru the peach orchard, passing over and paralleling the trenches of the old rifle pits until the top, the outcropping of the Lee Conglomerate, is reached. As the tourist reaches the top of the mountain and approaches its edge opposite that of Middlesboro he is startled to find a sheer declivity of 1,230 ft., at the base of which is seen the town of Cumberland Gap. To the south may be caught a view of Lincoln's memorial institute, given over to the education of mountain boys and girls. The remains of two earth forts, Fort Edgar and Fort Lyon, are on the top of the Pinnacle, and from them mounted cannon commanded the approaches of the gap during the civil war. Half way down the Pinnacle on the town of Cumberland Gap side, and by the site of the Government pike, is the entrance to King Solomon's cave. A large stream of water flowing from this cave furnishes the water supply and power for the town of Cumberland Gap and the Lincoln memorial institute. A short distance from this cave is the Soldiers' cave, so called on account of occupation by the soldiers during the civil war and for the saltpetre which was obtained from it and used in the manufacture of gunpowder during that strife.

- 1.0 1.0 Spring St., mills just ahead; turn right. Cross RR at sta. 1.6, ascending long winding grade up mountain, with numerous fine views. Use caution for hairpin turns. Avoid right-hand diagonal road 5.4. Cross RR 10.0. Under RR 12.6. Caution for RR 13.6. Recross RR 15.8-16.8. Curve right and left under RR 17.2.

Hotel Tulane, Cor. 8th Ave. & Church St.

GARAGES—Tennessee Auto Corporation, 1308 Broadway.

*Murfreesboro, Tenn. (pop. 9,000, alt. 574 ft.), is noted as a residential city and is also favorably known throughout the south as an educational center. It is the seat of Soule female college (Methodist Episcopal South), the Mooney school for boys, the Tennessee college for women (Baptist), Union university and the Middle Tennessee state normal school. The city is the greatest red cedar market in the world, and is also an important cotton, grain and livestock market. A large agricultural fair is held here annually. The geographical center of the state is just one mile from the public square of Murfreesboro.

Murfreesboro is the home of Will Allen Dromgoole and of Charles Egbert Craddock (Mary Noailles Murfree), novelist, author of the Prophet and the Great Smoky Moun-

tains and other tales. President James K. Polk was married here, and Governor John P. Buchanan and the noted hero scout, Sam Davis, lived here. From 1819 to 1825 it was the state capital. During the civil war three battles were fought within the city limits. Three miles from Murfreesboro the three days' battle of Murfreesboro or Stone River, one of the most severe contests, was fought December 31, 1862, to January 2, 1863, between the army of the Cumberland, under Rosecrans, and the Army of Tennessee, under Braxton Bragg. The battle, though not decisive, resulted in an advantage for the federals. Bragg retired to Tullahoma and Rosecrans entered Murfreesboro on the fourth of January but made no attempt to pursue Bragg. The federal loss was over 13,000; the confederate about 11,500.

To Insure Satisfactory Accommodations

patronize those places listed under the respective towns in the route matter, or turn to the Index of Cities and Towns, front of book. Officially endorsed Blue Book Hotels and Garages are listed alphabetically under each town.

Route 556—Knoxville, Tenn., to Lexington, Ky.—224.4 m.

Reverse Route 560.

Via Clinton, Coal Creek, La. Follette, Jellico, Williamsburg, London, Livingston, Mt. Vernon, Crab Orchard, Stanford and Danville. First 47 miles to La Follette worn stone road, next 6 miles worn stone, then 13.4 miles graded dirt and 5 miles stone road to Jellico. From Jellico this route goes over 9 miles and is over poor mountain road (a new road was under construction and understand will be open by fall; inquire at Jellico). From Pleasant View 5 miles graded dirt, then 7.1 miles stone road, 5.8 miles graded rough dirt, and 6.5 miles stone pike to Coln. From Corbin to Pittsburgh road follows old railroad bed (stone) some of it rough and stony rough mountain road to Livingston. Next 23 miles to Crab Orchard graded dirt. From C. Orchard 35 miles stone road to Shakertown; balance to Lexington macadam. Summary 121 miles stone road; 24.3 miles macadam; 63.7 miles graded dirt; some of this is being stoned; 15 miles poor mountain road; 10 miles of this probably not used as new road will be open.

This is a section of the Dixie highway. From Knoxville to Coal Creek road runs thru a hilly farming country, then thru a valley to La Follette; from La Follette, follows a narrow valley ascending Pine mountain on easy grade, descending on winding grade, then thru a narrow gap in the mountains to Jellico. From Jellico to Rock Castle river road runs thru a hilly farming country, then goes over Ganley mountain on narrow stony road, descending to Livingston; thru a hilly farming country, balance traversing the blue grass region between Crab Orchard and Lexington.

This route should not be taken as a pleasure trip, but is the shortest route to Lexington and northern points. It is being improved nearly the entire length of the dirt and will undoubtedly be in fair condition by spring of 1920. During wet weather it is passable, but liable to have many mud holes.

- 160.8 16.6 Left-hand road; turn left downgrade. Thru **Ruskin** 161.3.
- 164.1 3.3 **Liberty**, small house on right. Straight thru.
- 170.4 6.3 Fork; bear left. Pass courthouse on right 173.0.
- 173.2 2.8 **Tazewell**, end of street. Turn right with trolley.
- 174.9 1.7 3-corners, house in center just beyond small ford; bear left.
House at 3-corners is where "Ben Bolt" was written, home of Thos. Dunn English, the composer.
Thru ford 175.3. Cross RR 175.4.
- 175.5 0.6 End of road; turn right. Avoid left-hand road 176.5. Avoid left-hand road just before ford 177.7.
- 188.2 12.7 Fork; bear left. Cross RR 188.7.
- 190.7 2.5 **W. Graham**. Straight thru.
- 191.1 0.4 Left-hand road; turn left.
- 191.8 0.7 Right-hand road; turn right.

- 191.9 0.1 Graham, Va., left-hand road, stores on left. Turn left. Cross Virginia-West Virginia state line 192.0. Now on Bluefield Ave.
- 194.6 2.7 End of street; turn left with trolley onto Mercer St. and at right-hand street just beyond, turn right with trolley onto Princeton Ave.
- 194.8 0.2 BLUEFIELD,* W. VA., Princeton Ave. & Bland St.
Straight ahead is Route 558 to White Sulphur.

Note (a) Route 557—Hansonville to Abingdon, Va.—14.2 m.

Reverse Note (a) Route 771.

Via Greendale. Very rough dirt to Greendale. This road is slightly sandy and would probably be no worse in wet weather than in dry weather. From Greendale to Abingdon all macadam except two very short stretches of graded clay.

This note may be used as a connection from Abingdon with Route 571 to Roanoke and Route 771 to Bristol.

- 0.0 0.0 HANSONVILLE, 3-corners, store on right. Go south (a left turn coming from Bluefield, a right turn in coming from Middlesboro).
- 5.9 5.9 End of road; turn left.
- 6.5 0.6 Right-hand road; turn right across iron bridge and left immediately beyond.
- 8.9 2.4 Greendale, P. O. on right. Straight thru.
- 10.3 1.4 End of road; turn left, following macadam.
- 14.2 3.9 ABINGDON, Main & Russell Sts.
GARAGES—McConnell Motor Co.
Left is Route 571 to Roanoke.
Right is Route 771 to Bristol.

Route 558—Bluefield to White Sulphur Springs, W. Va.—90.5 m.

Reverse Route 565.

Via Princeton, Glenlyn, Narrows, Peterstown, Union and Caldwell. First 15 miles macadam to Princeton, then 68 miles fair-to-good dirt road to Caldwell (6 miles poor); last 6 miles macadam.

Road runs thru a mountain farming country (no steep grades) to Narrows, then thru a hilly wooded country, with some farms to White Sulphur. No steep hills, but one deep ford at Willow Bend, which is bad in very wet weather. Very fine scenery all the way.

This route connects at Narrows with Route 559 to Christiansburg.

| 34.0 | 0.9 | Right-hand road; turn right onto macadam. Thru 4-corners 36.2. |

*White Sulphur Springs, W. Va. (pop. 1,000, alt. 2,000 ft.), has been a health and pleasure resort since the revolutionary period. It is the most popular resort of the southern states, and no holiday place is more famous by association with great names and high memories, or makes a more romantic appeal.

Nearly a century ago Henry Clay signed the hotel register, and Robert E. Lee passed here the last three summers of his life. There are two hotels, the Greenbrier and the White, both under the same management as the Plaza Hotel, New York.

- 38.5 4.5 Fork, at scales; bear left on macadam. Cross RR 39.3, keeping left just beyond.
- 39.9 1.4 End of road; turn right with travel and poles.
- 40.6 0.7 Cambria, 3-corners at large brick building. Turn right up grade.
- 41.2 0.6 Irregular 4-corners; turn left onto Franklin St.
- 41.7 0.5 CHRISTIANSBURG, open square, court house ahead.

Right on Main St. is Route 771 to Bristol; left on Main St. is Route 571 to Roanoke.

Route 560—Lexington, Ky., to Knoxville, Tenn.—224.4 m.

Reverse Route 556.

Via Danville, Stanford, Crab Orchard, Mt. Vernon, Livingston, London, Williamsburg, Jellico, La Follette, Coal Creek and Clinton. First 24.3 miles macadam to Shakertown; next 35 miles stone road to Crab Orchard; graded dirt to Livingston; next 5 miles to Rock Castle river rough; stony mountain road over Ganley Mountain (a new road is to be built around mountain); graded dirt to Pittsburg. From Pittsburg to Corbin, road follows old railroad bed (stone) some of it rough. From Corbin 5.6 miles stone pike, then 5.8 miles of graded (rough) dirt; next 7.1 miles stone road, then 5 miles graded dirt to Pleasant View; next 9 miles is over poor mountain road (new road was under construction and slated to be open by fall; inquire at Pleasant View) to Jellico. From Jellico 5 miles fair stone road; next 13.4 miles graded dirt; 6 miles worn stone road to La Follette; balance to Knoxville worn stone road. Summary: 121 miles stone road; 24.3 miles macadam; 63.7 miles graded dirt; some of this is being stoned; 15.1 miles poor mountain road; 10 miles of this probably not used as new road will be open.

This is a section of the Dixie highway; traverses a hilly farming country to Jellico, going thru the blue grass region between Lexington and Crab Orchard. The Rock Castle river is crossed by ferry, but this can be forded in dry weather. From Jellico road goes thru a narrow gap in the mountains and then ascends long winding grade over Pine Mountain, descending it again, thence thru a valley to Coal Creek (narrow as far as La Follette); balance hilly farming country.

This is the shortest route to Knoxville and southern points, but should not be taken as a pleasure trip. Practically all the dirt road is being improved and will undoubtedly be in fair condition by spring of 1920. During wet weather it is passable but apt to have many mud holes.

- | MILEAGE | | |
|----------|---------|---|

RESTAURANTS—Woman's Exchange Cafe, 106 N. Upper St., opp. C. H.

Route 563—Knoxville, Tenn., to Bristol, Tenn.-Va.—122.8 m.

Reverse Route 580.

Via Blaineville, Rutledge, Tate, Mooresburg, Rogersville, Kinsport and Blountville. Good stone road to Tate, then fair graded dirt and clay to New Canton, followed by 9.2 miles of fair-to-poor dirt road, stony and some mud holes; balance fair-to-good stone road. Summary: 73.3 miles stone road; 40.3 miles dirt and clay; 9.2 miles dirt road, stony and some mud holes. This route follows the valley of the Holston river most of the distance to Kinsport, but river is in view only a few times. From Kinsport the road goes thru a hilly farming country, devoted principally to cane and wheat raising.

This route is very bad in wet weather owing to the poor graded dirt and clay stretches, which, however, will probably be made into stone road. This will be in the near future, making this the best way between Knoxville and Bristol.

Route 568 offers a better option, tho 25 miles longer.

Connection can be made from Tate to Morristown by using Note (a).

Mileage Points

For this and other exits see City Map, page 582.

- 0.0 0.0 KNOXVILLE, Gay St. & Main Ave., at court house. Go north-west with trolley on Gay St.
- 0.7 0.7 Park Ave. (second street from viaduct); turn right with branch trolley. Over RR bridge 1.4, coming onto Magnolia Ave.

- 3.5 2.8 Elmwood Ave., end of pavement; turn right with branch trolley—same leaves to left just beyond.
- 3.6 0.1 End of street; turn left onto Rutledge pike. Cross switches 4.2.
- 4.3 0.7 Fork; keep left. Curve left and right under RR 6.0.
- 6.1 1.8 Fork; bear right across small concrete bridge. Avoid right-hand diagonal road at store 12.0.
Diagonally right at store leads to Mascot, $\frac{1}{2}$ mlie.
Thru narrow covered wooden bridge 16.3. Cross RR 19.8.
- 19.9 13.8 Blaineville, 3-corners, store on right. Bear right. Thru Joppa 27.8.
- 34.5 14.6 Rutledge, court house on left. Straight thru. Cross RRs 34.8-35.9.
- 43.4 8.9 Tate, P. O. on right. Straight thru.
Right at P. O. is Note (a) to Morristown.
- 44.7 1.3 Fork; keep right.
Left fork thru stone gate leads to Tate Springs Hotel.
- 52.3 7.6 Mooresburg. Keep ahead, passing P. O. on right. Avoid right-hand road 54.3.
- 67.0 14.7 Rogersville,* court house on right. Straight thru.
- 68.0 1.0 3-corners, poles divide; bear left.
- 68.8 0.8 Fork; bear right with branch line of poles. Thru small ford -68.9.
- 78.5 9.7 Surgoinsville. Straight thru along Holston river. Thru Stony Point 80.8, and New Canton 85.0.
- 87.8 9.3 Church Hill, store on left. Straight thru. Cross RR 90.2. Cross long iron bridge over Holston river 94.1, coming onto Sullivan Blvd.
- 96.9 9.1 Right-hand road; turn right onto Sullivan St. across small iron bridge. Curve right around circle 97.5, keeping ahead on Sullivan St.
- 97.7 0.8 Kingsport, Sullivan & Cherokee Sts. Keep ahead on Sullivan St.
- 98.0 0.3 Fork; bear left. Curve right and left across small wooden bridge 101.2, winding up and down hill beyond.
- 113.4 15.4 Blountville, court house on left. Straight thru.
Left just before court house is Route 581 to Middlesboro.
Thru ford 119.6. Bear right onto State St. 121.3. Cross switch 122.5, joining trolley.
Bristol City Map and Points of Interest, page 615.
- 122.8 9.4 BRISTOL, TENN.-VA., State, Moore & 6th Sts., bank on left.
GARAGES—A. J. Sheldon & Co., Inc., Lee St. opp. Court House.
Straight ahead on State St. is Route 571 to Roanoke.

Note (a) Route 563—Tate Springs to Morristown, Tenn.—12.0 m.

Reverse Note (a) on Route 568.

Via Tate and ferry across Holston river. First 1.7 miles pike, then 4 miles of dirt and clay; balance $6\frac{1}{2}$ miles macadam.

This note gives a connection from Tate Springs to Morristown, connecting there with Route 577 to Knoxville.

- 0.0 0.0 TATE SPRINGS, at hotel. Go south. Thru stone gate 0.3, curving right at end of road immediately beyond.
Sharp left at end of road is Route 563 to Bristol.
- 1.7 1.7 Tate, left-hand road, P. O. on left. Turn left across RR.
Straight ahead before this turn is Route 580 to Knoxville.
Inquiries should be made here as to optional road to Morristown. The optional road is about a mile longer than the following data, but crosses the river on a bridge instead of a ferry. A good dry weather road.
- 5.4 3.7 Jog left and right across RR in middle of upgrade 5.3. Cross RR 7.5.
Left-hand road; turn left downgrade and take Ferry across Holston river. Rates 25c; ferryman here at all times—sound horn.
- 10.2 4.8 Leaving ferry, curve right on winding road.
End of road; turn left. Cross RR 11.5. Curve right at water and light company building onto Cumberland St. 11.6.
- 12.0 1.8 MORRISTOWN.
Right on Main St. is Route 577 to Knoxville.
There is also a macadam road from Morristown to Newport direct.

*Rogersville, Tenn. (pop. 2,200, alt. 1,214 ft.), the seat of Hawkins county, is the site of the Swift memorial college for colored stu-

dents. In this town David Crockett was slain by the Indians and here he lies buried.

Route 565—White Sulphur Springs to Bluefield, W. Va.— 90.5 m.

Reverse Route 558.

Via Caldwell, Union, Peterstown, Narrows, Glenlyn and Princeton. First 6.6 miles macadam, then 16.5 miles fair to good graded dirt; 1 mile macadam; 6.8 miles fair to poor dirt, stony; 4.4 miles fair to good graded dirt, shale and clay; 14.7 miles macadam and brick. Summary: 22.3 miles macadam; 61 miles fair to good dirt; 6.7 miles fair to poor dirt.

Road is winding thru a hilly or mountainous country, considerably wooded with some farming to Narrows, then thru a mountainous farming country. There are no steep hills, but one deep ford at Willow Bend which is bad in very wet weather.

(MILEAGE) Very fine scenery all the way—Dirt road very slippery in wet weather.
Distance Connection can be made at Narrows with Route 559 to Christiansburg.

Turn left with trolley onto Avis and immediately jog right and left with trolley onto Walker St.
- 82.3 4.4 3-corners; bear left. Cross small concrete bridge and trolley 82.4.
Right at 82.3 leads to Bramwell, 15 miles.
Same thorofare becomes Princeton Ave.
- 90.5 8.2 **BLUEFIELD,*** Princeton Ave. & Bland St., banks on left.
Straight ahead is Route 566 to Middlesboro.

Route 566—Bluefield, W. Va., to Middlesboro, Ky.—194.8 m.

Reverse Route 557.

Via Tazewell, Lebanon, Hansonville, Castlewood, St. Paul, Norton, Big Stone Gap, Pennington Gap, Jonesville and Rose Hill. First 36 miles macadam, 6 miles rough stony gravel, 20 miles macadam, 5 miles good gravel to Hansonville; 27 miles macadam to St. Paul; 7 miles fair graded stony dirt, 8 miles macadam, 5 miles good gravel and dirt, 6 miles macadam to Norton; 28.7 miles macadam to Dryden; 4.3 miles poor stony dirt, 1.1 miles macadam to Pennington Gap; 9.5 miles macadam to Jonesville; 15 miles poor rough stony road to Rose Hill; 23.8 miles macadam to Middlesboro. Summary: 154 miles macadam; 5 miles good gravel; 12 miles good graded dirt; 25 miles rough stony dirt (some of this to be macadamized).

The road is very winding all the way, traversing a hilly farming country to Hansonville, then up and down mountains by easy grades with many sharp hairpin curves, thru a farming and coal mining country to Middlesboro. Near Middlesboro the boundary lines of Virginia, Kentucky and Tennessee join. A very scenic trip.

Cross Kentucky-Virginia state line 191.9, passing Daniel Boone monument on left just beyond. Intersection of three states on left.

Be Sure You're Fully Equipped

In the Orange insert, center of Book, is a careful analysis by the Editor of necessary—and unnecessary—equipment for touring. Glance down the list and check your equipment. Read his advice. We recommend the particular makes of accessories listed as reliable.

- 193.3 11.6 3-corners; turn right onto Avondale Ave.
 193.9 0.6 End of street; turn right onto 10th St.
 194.0 0.1 Left-hand street; turn left onto Cumberland Ave.
 Right at 194.6 leads to Crab Orchard.
 194.8 0.8 MIDDLESBORO,* KY., Cumberland Ave. & 20th St., bank on left.

Route 567—Middlesboro, Ky., to Bristol, Tenn.-Va.— 127.5 m.

Reverse Route 581.

Via Pennington Gap, Duffield, Gate City and Blountville. First 23.8 miles macadam, then 15 miles very rough stone road to Jonesville and 9.5 miles macadam to Pennington Gap. From Pennington Gap 12 miles macadam; balance dirt, with the exception of the last 9 miles which is macadam. Work is being done on this dirt road, making a new right of way. Inquiries should be made at Stickleyville as to new road. Summary: 54.3 miles macadam; 15 miles rough stone; 58.2 miles dirt.

MILEAGE—
 Distance
 Total Between
 Mileage Points

Connection can be made at Bristol with Route 571 to Roanoke.

0.0 0.0 MIDDLESBORO, KY., Cumberland Ave. & 20th St. at square. See Route 557 for directions to Pennington Gap, 48.3 miles, where reset odometer to 0.0.

0.0 0.0 Pennington Gap, Va., fork beyond RR. Bear right. Under RR 1.0. Avoid left-hand road 1.1.

Left at 1.1, across iron bridge, is Route 557 to Bluefield, W. Va. Road is very winding and hilly.

*Middlesboro, Ky. (pop. 7,325, alt. 1,008 ft.), is located in the extreme southeastern corner of the state, 2½ miles west of the historic Cumberland Gap in the Cumberland range of the Appalachian mountains. The town is completely surrounded by mountains, and there are no points of outlet except at the northeastern limit of the town, where Yellow creek has eroded a narrow channel thru a mountain ridge, and another near the southeast corner, thru the Cumberland Gap. The bottom of the mountain base in which the town lies is a nearly level plain. An Indian trail leading thru the basin and Cumberland Gap, known as the Warrior's Path, was traversed by Daniel Boone the first time in 1769. This was one of the most important trails in the west both during peace and war. In 1775 Daniel Boone marked the first white man's highway thru the Cumberland mountains. From that time Cumberland Gap was known as Boone's path or Boone's road. This was only a bridle path at first, but after its widening in 1796 it became known as the Wilderness road, by which name and that of Boone's path it is known today. Its strategic importance was recognized by both sides during the civil war, and it was held alternately by the federals and confederates. There are still to be seen in a fair state of preservation the remains of long lines of rifle pits running across and down both sides of the mountains nearly to the base, approaching close to the city limits of Middlesboro on the north and within the town of Cumberland Gap on the south side of the Cumberland mountains, with earth forts located at advantageous points commanding the roadway through the gap.

After the civil war the Cumberland Gap was little used, owing to the development of railway lines, but with the increasing use of automobiles it again became a desirable route and in 1908 the government constructed the Government pike, a macadamized road connecting Middlesboro and the town of Cumber-

land Gap. Virginia, Kentucky and Tennessee have built macadamized roads connecting with this Government pike and in 1916 the route thru Middlesboro and the Cumberland Gap known as the "Boone way" or "Wilderness road" was made part of the Dixie highway leading from northern Michigan to Miami, Fla.

Much fruit is raised in this section. Pinnacle Peach orchard, on Pinnacle mountains, contains more than 7,000 peach trees, around which trees are trained vines producing the large Elberta grapes. A delightful drive follows a road diverging from the Government pike in Cumberland Gap and pursuing a circuitous but always ascending route thru the peach orchard, passing over and paralleling the trenches of the old rifle pits until the top, the outcropping of the Lee Conglomerate, is reached. As the tourist reaches the top of the mountain and approaches its edge opposite that of Middlesboro he is startled to find a sheer declivity of 1,230 ft., at the base of which is seen the town of Cumberland Gap. To the south may be caught a view of Lincoln's memorial institute, given over to the education of mountain boys and girls. The remains of two earth forts, Fort Edgar and Fort Lyon, are on the top of the Pinnacle, and from them mounted cannon commanded the approaches of the gap during the civil war. Half way down the Pinnacle on the town of Cumberland Gap side, and by the site of the Government pike, is the entrance to King Solomon's cave. A large stream of water flowing from this cave furnishes the water supply and power for the town of Cumberland Gap and the Lincoln memorial institute. A short distance from this cave is the Soldier's cave, so called on account of occupation by the soldiers during the civil war and for the saltpetre which was obtained from it and used in the manufacture of gunpowder during that strife.

11.6 11.6 Stickleyville, fork. Bear left. Thru several small fords in next 3 miles.

The right of way over this stretch was not graded when covered by our scout car, and the mileage was computed by simply taking the shortest way across the field, which seemed to be the logical road.

Start long ascent over Powell's Mountain.

19.2 7.6 Summit of Powell's Mountain. Start winding descent, using caution for sharp turns. Cross small ford 22.2; cross RR, passing Boone Monument on left beyond.

22.5 3.3 Duffield, sta. on right. Straight thru along RR.

23.0 0.5 Fork, small buildings on right; keep left. Caution for RRs 24.8-25.2. Cross ford 26.1, using caution for a low spot beyond. Follow winding road, using caution for sharp right turn on up-grade 26.6. Thru 4-corners 28.0.

Right at these 4-corners leads to Natural Tunnel, through which run the RR and creek. At the other end of this tunnel is Lovers' Leap.

28.7 5.7 Cedar Cliff P. O. Straight thru.

30.7 2.0 Rye Cove, end of road. Turn right upgrade.

Left leads to center of small hamlet.

31.8 1.1 Left-hand road; turn left on rough road. Thru ford 32.9, following thru creek bed. Thru ford 33.2.

33.6 1.8 Right-hand road; turn right. Pass small wood school on right 33.8.

37.1 3.5 Left-hand road; turn left thru ford, and at end of road beyond, turn right.

37.2 0.1 Clinchport, end of road, sta. ahead on right. Turn left. Under RR 37.3, and following along the Clinch river on left.

38.9 1.7 Left-hand road; turn left downgrade.

39.0 0.1 Ferry across Clinch river.

Rate, 50c.; round trip, 75c.

Leaving ferry, keep ahead past mill on right. Road is very rough, rocky, and narrow thru creek bed.

40.2 1.2 Speer's Ferry. Curve left over RR, and right beyond. Cross RR spur 44.1.

45.6 5.4 Melvin. Straight thru.

49.3 3.7 Gate City, right-hand road, beyond court house on left.

SERVICE STA.—United States Tire Sales & Service Depots located here.

Bear right, downgrade. Cross RR 47.8. Thru covered bridge 50.6. Curve left under RR 50.9, at Moccasin Gap, Va., Sta., and right beyond.

51.4 2.1 Right-hand road; turn right using caution for sharp right and left turns beyond.

56.1 4.7 Right-hand road; turn right.

57.0 0.9 End of road; turn right with travel.

57.7 0.7 End of road beyond small wooden bridge; turn left.

57.9 0.2 Bloomingdale, Tenn. Straight thru, passing P. O. on left.

69.8 11.9 Blountville, end of road. Turn left past court house on left. Thru ford 76.0, coming onto State St. Join trolley 77.7.

Bristol City Map and Points of Interest, page 615.

79.2 9.4 BRISTOL, TENN.-VA., State, 6th & Moore Sts.

GARAGES—A. Jay Sheldon & Co., Inc., Lee St., Opp. Court House.

State St. marks the boundary line between Tennessee and Virginia, the right side being Tennessee and the left side Virginia.

Copyright Caution: The Supreme Court of the United States in a prominent test case—brought under the Copyright Law of July, 1909—has clearly established the rights of the owner of a copyright granted under that act. The route matter, maps, charts, etc., contained in the Official Automobile Blue Books are covered by copyright, and any infringement will be vigorously prosecuted.

Route 568—Knoxville, Tenn., to Bristol, Tenn.-Va.— 148.2 m.

Reverse Route 577.

Via Jefferson City, Morristown, Greenville, Johnson City, Elizabethton and Bluff City. First 5 miles macadam, then stone to Greenville, with a 3 mile stretch of asphalt thru Morristown. From Greenville the road is macadam for 14.8 miles, followed by 11.2 miles of dirt with some clay between Limestone and Jonesboro; balance macadam. Summary: 68 miles macadam and asphalt; 69 miles stone; 11.2 miles dirt—some clay. A very pretty trip, partly thru valley and partly thru rolling hilly country with many glimpses of the Blue Ridge Mountains to the right.

For connection to Tate Springs, see note (a).

*Morristown, Tenn. (pop. 7,000, alt. 1,233 ft.), as the heart of the richly fertile Holston valley, is the center of a system of highways running in all directions thru beautiful farming districts of the central south. It is the junction of the Memphis-Bristol highway, the Lee highway, and the Buffalo Trail highway from Cumberland Gap, Tenn., to Asheville, N. C. It is the largest poultry shipping center in the south, the annual value of poultry and eggs handled by the local packers and dealers being in excess of \$2,500,000. A special poultry train is run from Morristown to New York on a fast schedule every Saturday. Morristown is also one of the greatest livestock and dairy centers of the south, shipping products to the value of more than \$1,500,000 annually. In the vicinity are quarries of variegated marble and zinc, lead and iron mines. It is the seat of Morristown industrial college and experiment farm (Methodist Episcopal), one of the largest of the southern institutions for the vocational education of negroes.

Morristown was the home of Davy Crockett, noted hunter and member of congress, who joined the Texans in their revolt against Mexico, was taken prisoner at Alamo and massacred by Santa Ana in 1836. The site of

the old Crockett tavern, used during the civil war as a hospital, is in the eastern outskirts of the city on the Bristol-Memphis highway. Morristown was the scene of the most important fighting during the East Tennessee campaigns of the civil war. Here was fought one of the decisive engagements of Gilliam's Raid. The Jarnagin residence, used as headquarters at various times by the commanders of the Union and Confederate forces, stands in the southwestern outskirts of the city on the Morristown-Danbridge pike to Knoxville. Morristown is promoting the placing of markers along the main highways of east Tennessee, indicating the principal points of historic interest for the convenience and information of automobile tourists.

*Greeneville, Tenn. (pop. 5,000, alt. 1,581 ft.), is chiefly noted as having been the home of Andrew Johnson, seventeenth president of the United States, who lies buried here. A handsome monument has been erected to his memory. His residence and old tailor shop are still landmarks of the town. Over the door of the latter still hangs his old sign, "A. Johnson, Tailor." It was also in Greeneville that General John Morgan was killed. The house is still standing in which the last nights of his life were spent.

Note (a) Route 568—Morristown to Tate Springs, Tenn.—12.0 m.

Reverse Note (a) on Route 563.

Via ferry across Holston river and Tate.

First $6\frac{1}{2}$ miles macadam, then 4 miles of dirt and clay, balance stone pike.
This note gives a connection from Morristown to Tate Springs, connecting at Tate with Route 580 to Knoxville.

- 0.0 0.0 MORRISTOWN, Cumberland & Main Sts. Go north on Cumberland St. (a left turn if coming from Knoxville).
- 0.4 0.4 Fork, water and light company building in center; bear left. Cross RR 0.5. Right fork is optional road to Tate Springs which is about a mile longer than the following data, crosses the river on a bridge instead of the ferry. A good dry weather road.
- 1.8 1.4 Right-hand road, wooden building on right; turn right. Follow winding macadam road.
- 6.6 4.8 Ferry across Holston river.
Rates: 25c—ferryman here at all times—sound horn.
Leaving ferry, keep ahead upgrade, curving right just beyond. Thru covered bridge 7.4. Cross RRs 7.4-7.7-10.1.
- 10.3 3.7 Tate, end of road, P. O. on left. Turn right.
Left at this turn is Route 580 to Knoxville.
- 11.5 1.2 Fork; bear left thru stone gate.
- 12.0 0.5 TATE SPRINGS at hotel.
HOTELS—Tate Springs Hotel.

Route 569—Knoxville, Tenn., to Asheville, N. C.—136.0 m.

Reverse Route 591.

Via Straw Plains, Dandridge, Newport and Hot Springs. First 64 miles good stone; then a 28 mile stretch of stone and shale with exception of 5 miles of dirt, which unless repaired will be bad in wet weather; balance gravel, shale and asphalt. Summary: 74.4 miles stone and asphalt; 54.6 miles grade shale and gravel; 5.0 miles poor stony road and dirt (may be repaired).

A very scenic trip. Thru hilly country to Newport, thence thru the mountains on a winding road, with long easy grades and sharp curves. Some steep embankments on the side. Not dangerous, however, if driven with care. Some wild, wooded stretches are encountered below Hot Springs.

*Marshall, N. C. (pop. 1,000, alt. 1,746 ft.), located on the swiftly flowing French Broad river, is considered one of the most unique villages in the country. It is "one mile long,

one street wide and sky high," the mountain coming down close to the river, allowing only room for one street and the houses on each side.

View on Asheville-Charlotte Highway near Hickory Nut Gap, N. C.

Bristol Section

POINTS OF INTEREST, BRISTOL, VA.-TENN.

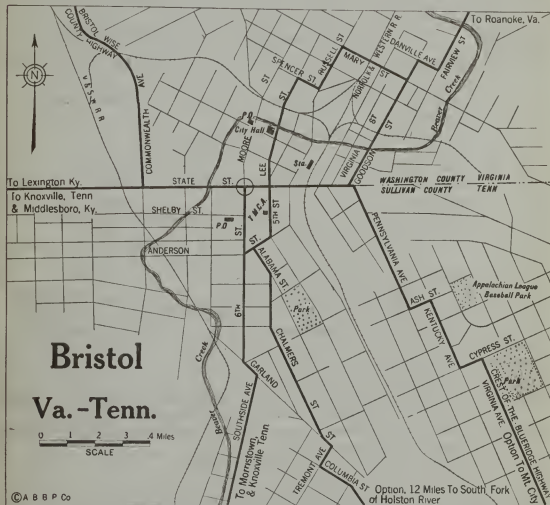

Bristol (pop. 16,000, alt. 1,850 ft.), is on the boundary between Virginia and Tennessee, the state line running through the principal street. Bristol is thus a town of Sullivan county, Tennessee, and a city of Washington county, Virginia. It is situated on the Indian river, 131 miles northeast of Knoxville, and is an important railroad center for the iron ore, timber and coal deposits of the south.

The educational institutions include King college (Presbyterian), for men, organized 1867; Sullins college (non-sectarian), established 1869; Southwest Virginia institute

(Baptist), for women, established 1884, and a high school for negroes.

In Bristol is the grave of General Evan Shelby, one of the heroes of Kings mountain and father of Isaac Shelby, the first governor of Kentucky.

Bristol lies in a beautiful valley surrounded by mountains. It was settled in 1851 and incorporated the following year, and was originally called Goodson. Its charter provides for two mayors and two councils, one for each state.

Route 571—Bristol, Tenn.-Va., to Roanoke, Va.—164.5 m.

Reverse Route 771.

Via Abingdon, Glade Spring, Marion, Wytheville, Pulaski, Radford, Christiansburg and Salem. Good macadam to Abingdon, then 5.9 miles fair worn stone road, followed by good macadam to Chilhowie; 28 miles of worn stone pike to Seven Mile Ford, 15.3 miles good macadam, 5.8 miles worn pike, 3 miles macadam, 9.2 miles worn pike, 11.8 miles good macadam, 14.6 miles worn old stone pike, 21.1 miles good macadam thru Pulaski and Dublin to Radford. From Radford there is 2.4 miles of graded clay, which is very bad when wet, then 7.2 miles worn pike, 2.3 miles macadam, 22.2 miles of rough stony pike; balance of way (11.5 miles) good macadam. There is no place where a car could get stuck in mud, even in very wet weather, except the 2.4 miles of clay near Radford. Summary: 94.2 miles macadam, 67.3 miles stone pike—rough; 2.4 miles graded clay, bad when wet.

This route winds thru a valley between the Blue Ridge and Cumberland mountains, following an old pike built before the war. There are no steep grades, but the road makes a long descent of 6 miles at an easy grade and is hilly in places. It runs thru a good farming country nearly all the way, some sections wooded. Frequent glimpses are had of the Blue Ridge and Cumberland mountains. Several fords are crossed,—all negotiable.

Connection can be made from Christiansburg to Narrows by using Route 772. Also from Abingdon to Hansonville by using Note (a) on Route 771.

*Abingdon, Va. (pop. 2,500, alt. 2,057 ft.), is situated four miles from the Holston river in the extreme southwestern corner of the state. It has long been noted for its large tobacco and livestock interest. During the civil war most of the salt used by the con-

federate states was produced at Saltville, 16 miles from Abingdon. It is the seat of Martha Washington college, established 1858, and of Stonewall Jackson institute (Presbyterian), opened 1869, both for girls.

 New river 117.3.
- 117.6 1.3 Radford,* 4-corners. Meeting trolley, turn left.

*Wytheville, Va. (pop. 4,000, alt. 2,300 ft.), located in a beautiful valley of southwest Virginia mountains, is the site of Villa Maria academy, Plumer female college and one of the best high schools in the south. It is the center of the noted blue grass and export stock raising section of this part of the state and the seat of Wythe county.

*Radford, Va. (pop. 5,000, alt. 1,773 ft.), is chiefly a manufacturing town. It lies in an

agricultural and grazing district which also produces iron and coal. The town carries on a large trade in cattle and turkeys. The bridge over the New river is noteworthy. The old bridge where Ingalls ferry now operates was burned during the war and never rebuilt. Mountain lake, near Radford, is a popular resort and the picturesque beauty of the scenery along New river attracts many tourists.

Don't neglect the points of interest—read them and make your trip more enjoyable.

***Blowing Rock**, N. C. (pop. 331, alt. 3,500 ft.), is a popular summer resort located in the famous Blue Ridge mountains. The scenery hereabouts is magnificent, including the Blowing Rock mountain, with its stupendous precipice.

***Lenoir**, N. C. (pop. 4,500, alt. 1,132 ft.) located at the foot of the Blue Ridge mountains, offers attractions as a quiet and restful summer resort. Five miles from the city is

Hibriten mountain (elevation 2,200 ft.), said to rival in beauty and grandeur anything this side of the Rockies. This is Lenoir's public park. At its crest, reached by splendid road, is a pavilion built by its public spirited citizens. Twenty miles away, in the mountains, is Blowing Rock, a popular and pretty summer resort. This is reached from Lenoir over first-class turnpike.

- 34.4 5.1 Fork, large church in center; bear right.

SERVICE STA.—United States Tire Sales and Service Depots located here.
Straight ahead on Cumberland St. is Note (a) to Tate Springs.
Keep ahead on Cumberland St.

*Greeneville, Tenn. (pop. 5,000, alt. 1,581 ft.) is chiefly noted as having been the home of Andrew Johnson, seventeenth president of the United States, who lies buried here. A handsome monument has been erected to his memory. His residence and old tailor shop are still landmarks of the town. Over the door of the latter still hangs his old sign, "A. Johnson, Tailor." It was also in Greeneville that General John Morgan was killed. The house is still standing in which the last nights of his life were spent.

*Morristown, Tenn. (pop. 7,000, alt. 1,283 ft.), as the heart of the richly fertile Holston valley, is the center of a system of highways running in all directions thru beautiful farming districts of the central south. It is the junction of the Memphis-Bristol highway, the Lee highway, and the Buffalo Trail highway from Cumberland Gap, Tenn., to Asheville, N. C. It is the largest poultry shipping center in the south, the annual value of poultry and eggs handled by the local packers and dealers being in excess of \$2,500,000. A special poultry train is run from Morristown to New York on a fast schedule every Saturday. Morristown is also one of the greatest livestock and dairy centers of the south, shipping products to the value of more than

\$1,500,000 annually. In the vicinity are quarries of variegated marble and zinc, lead and iron mines. It is the seat of Morristown industrial college and experiment farm (Methodist Episcopal), one of the largest of the southern institutions for the vocational education of negroes.

Morristown was the home of Davy Crockett, noted hunter and member of congress, who joined the Texans in their revolt against Mexico, was taken prisoner at Alamo and massacred by Santa Ana in 1836. The site of the old Crockett tavern, used during the civil war as a hospital, is in the eastern outskirts of the city on the Bristol-Memphis highway. Morristown was the scene of the most important fighting during the East Tennessee campaigns of the civil war. Here was fought one of the decisive engagements of Gilliam's Raid. The Jarnagin residence, used as headquarters at various times by the commanders of the Union and Confederate forces, stands in the southwestern outskirts of the city on the Morristown Danbridge pike to Knoxville. Morristown is promoting the placing of markers along the main highways of east Tennessee, indicating the principal points of historic interest for the convenience and information of automobile tourists.

- 13.2 2.7 End of road; turn right. Turn left with road 13.3.
- 15.7 2.5 Caney Branch, store on left. Turn slightly left downgrade.
- 23.4 7.7 Parrottsville, P. O. on left. Straight thru. Avoid right-hand road 23.6.
- 28.0 4.6 Left-hand road; turn left across bridge.
- 28.2 0.2 End of road; turn right, turning left with road just beyond. Cross long iron bridge over French Broad river 30.0, keeping left with fork just beyond and crossing RR at sta.
- 30.1 1.9 NEWPORT, Peck & Church Sts., bank on far right.
HOTELS—Mims Hotel, Main St. near So. Depot.
GARAGES—Masters Bros. Garage, McSwain Ave.
Left is Route 569 to Asheville.
Right is Route 591 to Knoxville.

How to Use the Route Chart and General Index

To lay out through trips between route centers you will find the Route Chart (page four) of great service.

For a comprehensive survey of all the territory and routes covered by this volume, see the large folded General Index Map in front of Book.

Route 580—Bristol, Va.-Tenn., to Knoxville, Tenn.—122.8 m.

Reverse Route 563.

Via Blountville, Kingsport, Rogersville, Mooresburg, Tate, Rutledge and Blaineville. First 28.6 miles fair to good stone road, followed by 9.2 miles fair to poor dirt road to New Canton, fair graded dirt and clay to Tate; balance good stone road. Summary: 73.3 miles stone road; 40.3 miles dirt and clay; 9.2 miles dirt road, stony and some mud holes.

This route goes thru a hilly farming country, devoted principally to the raising of cane and wheat, to Kingsport. From Kingsport, it follows the valley of the Holston river most of the way, but river is in view only a few times.

The following route is very bad in wet weather, owing to the poor condition of the road, as the graded dirt is mostly clay. This will be made a stone road in the near future and will then be the best way between Bristol and Knoxville.

Route 577 offers a better option, altho 25 miles longer.

Connection can be made from Tate to Morristown by using Note (a) on Route 563.

- 1.5 0.5 End of street; turn left upgrade. Pass Daniel Boone monument on right 2.9 and cross Kentucky-Virginia-Tennessee state line at summit of mountain.
- 3.5 2.0 Fork; bear right downgrade and recross Virginia-Tennessee state line just beyond.
- Left fork is Route 557 to Bluefield.
- 3.9 0.4 End of road; turn right.
- 4.0 0.1 Cumberland Gap,* 4-corners, bank on left. Turn left. Cross RR 5.7. Avoid left-hand road 5.8.

*Cumberland Gap, Tenn. (pop. 350, alt. 960 ft.), is a pass through the Cumberland mountains on the state line between Kentucky and Tennessee at the southwestern point of Virginia, where the three states meet. In some places the cut is so narrow that it is barely wide enough for the roadway, above which the sides of the pass rise to a height of 500 feet. Through Cumberland Gap passed the road which Daniel Boone laid out between Virginia and Kentucky in 1779, and over it traveled most of the emigrants to Kentucky and Tennessee. During the civil war the gap was of great importance as the gateway between Kentucky and Tennessee and several times changed hands. It was first occupied by the Confederate General Zollicoffer on November 13, 1861, but he withdrew at the approach of a superior federal force under Morgan, who took possession of the gap and strengthened the fortifications. Various minor skirmishes took place until the follow-

ing year, when the confederates in turn approached the gap with a superior force. Morgan was obliged to evacuate the place, which he did secretly, and after having destroyed the fortifications and the war supplies, General Bragg then took possession, but, in September of the next year, 1863, the federal forces under Generals Shekelford and De Courcy in co-operation approached the gap from both the north and south ends and summoned the Confederate General Frazer, then in possession, to surrender. Frazer, seeing the hopelessness of the situation, surrendered without resistance, giving up 2,000 men, 18 guns and a large supply of ammunition. The gap then remained in the possession of the Union forces until the close of the war. At Cumberland Gap on April 28, 1865, 900 confederates surrendered and were paroled. (For further details of the gap see Middlesboro, Ky.)

POINTS OF INTEREST, ASHEVILLE, N. C.

Asheville (pop. 35,000, alt. 2,250 ft.), the metropolis of western North Carolina, located in the "Heart of the Blue Ridge," is one of the most famous mountain resorts in America. The city is the social, commercial and distribution center of the "land of the sky,"

which comprises the entire mountain section of western North Carolina. It is beautifully situated at the confluence of the lovely Swannanoa and the historic French Broad rivers, in the very center of a vast plateau, 250 miles long and 50 miles wide. Its salubrity

Route 591—Asheville, N. C., to Knoxville, Tenn.—136.0 m.

Reverse Route 569.

Via Marshall, Hot Springs, Newport, Dandridge and Straw Plains. First 44 miles asphalt, gravel and shale. Then a 28 mile stretch of stone and shale with exception of 5 miles of dirt, which unless repaired, will be bad in wet weather; balance good stone. Summary: 74.4 miles stone and asphalt; 54.6 miles graded shale and gravel; 5.0 miles poor stony road and dirt (may be repaired).

A very scenic trip thru the mountains to Newport, with many long easy grades and sharp curves. Steep cliffs on the sides but not dangerous if driven with care. From Newport to Knoxville thru hilly country. Practically all farming country except the wild, wooded mountainous section adjacent to Hot Springs.

See Note (a) for connection between Newport and Greeneville, which is used by Asheville-Bristol travel. There is also a direct connection here with Morristown and Tate Springs.

(Asheville Points of Interest, Continued from page 628.)

of climate is unsurpassed and due to its being located in the heart of a magnificent mountain country, with the Blue Ridge on the east and the great Smoky Range on the west, it has become world renowned. It is an all-year-round resort, southerners congregating here during the summer months and northerners seeking the mild climate during the winter months. The city has many splendid hotels, which amply provide for the many visitors. Among its various sports are golf, tennis, fishing, hunting, horseback riding, motoring and mountain climbing. Asheville, however, is not only a resort, but is also a thriving business center with a large output of lumber, brick, cotton goods and furniture, and also a considerable trade in livestock, fruit and dairy products. The city itself presents a very attractive appearance, in its center being artistic Pack square. It also has a number of beautiful parks, the largest being Aston, Overlook and Montford. The former is an ideal recreation ground within half a dozen blocks of the business section of the city, and contains a large municipal swimming pool, in addition to the usual park paraphernalia and special apparatus for the children.

About two miles from Pack square is Biltmore, the property of the late George W. Vanderbilt. It is densely forested, and contains nearly every kind of tree to be found in the mountain regions of eastern United States. Biltmore is considered the finest residential property in the country,

and the mansion itself is a beautiful piece of French chateau architecture. The estate formerly consisted of 132,000 acres, which extends from a point near Asheville west beyond Mount Pisgah into the Pink Beds and valley. Of this entire area 86,000 acres were sold to the United States government by Mrs. Vanderbilt for a national park, and declared by President Wilson on October 17, 1916, as the Pisgah national forest and game preserve. There is a splendid motor road which crosses Pisgah at exactly one mile high, into the very heart of the Pisgah forest. The estate is surrounded by towering mountain peaks, many of them 6,000 feet and over, and commands wonderful views of the French Broad river and other charming mountain streams. One of the most interesting features is the Biltmore estate industries, which represent work done both by residents on the estate and those living in the mountains nearby. The industries are located in Grove park, and originated in small forms of handiwork, taught as a part of the educational system established upon the estate.

Among the surrounding mountains are sixty-four peaks, 6,000 feet and upward in altitude. Mount Mitchell, 6,711 feet, is the loftiest peak east of the Mississippi river, and is eighteen miles distant from the city in a straight line. Its summit is reached over a wonderful mountain railway, twenty-three miles in length, from Mount Mitchell station on the Southern railway, seventeen miles east of Asheville. Parties leave Asheville

(Concluded on bottom of opposite page.)

*Marshall, N. C. (pop. 1,000, alt. 1,746 ft.), located on the swiftly flowing French Broad river, is considered one of the most unique villages in the country. It is "one mile long, one street wide and sky high," the mountain coming down close to the river, allowing only room for one street and the houses on each side.

*Hot Springs, N. C. (pop. 450, alt. 1,326 ft.), is situated in a beautiful valley surrounded by mountains on all sides. It owes its name to the presence of the hot springs here, which are noted for their effective medicinal qualities. A German internment camp was located here during the late world war.

(Asheville Points of Interest, Concluded.)

over the Southern railway at 8 o'clock in the morning and return to the city about 8 o'clock in the evening, which gives the tourist about four hours on the top of the mountain. The summit of Mount Mitchell is also reached by well-defined trails, and may be negotiated either by foot or mule-back. From the top of this giant peak may be seen mountains in five different states—North Carolina, South Carolina, Virginia, Tennessee and Georgia. At the highest point on the mountain peak, marked by a pile of rocks with a rough stone at each end, where until 1915 was a galvanized iron monument, overthrown and destroyed by the wind, lies the body of Professor Mitchell, for whom the peak was named. Mitchell established the height of this mountain in 1835, whereupon some dispute arose as to the accuracy of his claim that it was the highest peak in the state. In 1856 he started on a trip to verify his measurements, and days later his body was found at the foot of a precipice in a pool of water. He was originally buried at Asheville, but at the request of the people of the state, was later laid to rest at the top of Mt. Mitchell, the highest mountain in

eastern America.

Asheville is an ideal motoring center, and in every direction are innumerable attractive drives through dense woods, along silvery streams and up to the mountain tops. A very popular drive is that to Pisgah mountain, which is 5,749 feet high and 26 miles distant, in the Pisgah national forest and game preserve, and to the northwest an exclusive automobile road winds about the face of Sunset mountain to its summit, 3,117 feet above sea level, and nearly a thousand feet above the city. From this point an automobile road has been built by Mr. E. W. Grove to the summit of the adjoining mountain peak, Patton mountain, and thence around the northern face of the mountain overlooking the beautiful Beaverdam valley and passing through primeval forests of giant trees skirting the mountain to the northwest, entering the Grove park inn road at a point immediately overlooking the terra cotta roof of the inn below. This famous mountain circle drive is ten miles in length, is of marvelous beauty, presenting extraordinary scenes of the French Broad valley and western Appalachian mountains.

Whittle Springs Hotel, $\frac{3}{4}$ mile from Dixie highway on Broadway Pike, 3 miles from center of city.
SERVICE STA.—United States Tire Sales and Service Depots located here.

Note (a) Route 591—Newport to Greeneville, Tenn.—30.1 m.

Reverse Note (a) on Route 577.

Via Parrottsville and Caney Branch. Stone road all the way thru hilly farming country over winding and rather narrow road with sharp curves. This note offers a very good connection from Newport to Greeneville, connecting there with Route 568 to Bristol for Asheville-Bristol travel.

- 0.0 0.0 NEWPORT, Church & Peck Sts., bank on left. Go north on Peck St. (Right turn if coming from Asheville, left turn if coming from Knoxville). Cross RR at sta. 0.1, curving right across long iron bridge.
- 0.2 0.2 Fork immediately beyond bridge; bear left, crossing small concrete bridge and keeping right at fork just beyond. Avoid left-hand diagonal road 0.4.
- 1.9 1.7 Left-hand road; turn left across bridge.
- 2.1 0.2 End of road just beyond bridge; turn right.
- 3.5 1.4 Fork; bear left with poles.
- 6.7 3.2 Parrottsville, P. O. on right. Straight thru.
- 10.1 3.4 Fork; bear left.
- 14.4 4.3 Caney Branch, 3-corners, store on right. Bear slightly right upgrade. Turn right with road 16.8.
- 16.9 2.5 Left-hand road; turn left.
- 19.6 2.7 Left-hand road, large farm house on right. Turn left. Cross long bridge 19.8, curving left with road just beyond.
- 29.9 10.3 3-corners; bear right onto Main St.
Left at these 3-corners is Route 577 to Knoxville.
- 30.1 0.2 GREENEVILLE, Main & Depot Sts., court house on right.
Straight ahead is Route 568 to Bristol.

Route 594—Asheville to Salisbury, N. C.—152.0 m.

Reverse Route 677.

Via Marlon, Morganton, Hickory and Statesville. First 6 miles brick, asphalt, concrete and macadam; next 12 miles gravel, concrete and macadam; balance alternating stretches of gravel, gravelly dirt and fair to good sand-clay, with some macadam. Summary: 15.8 miles concrete, asphalt and macadam; 63.1 miles graded gravel; 29.4 miles gravelly dirt; 34.5 miles fair to good sand-clay; 8.4 miles fair graded dirt. Some of the road becomes muddy when very wet.

The route traverses a fine country, mostly farming, with some wooded stretches. There is a long easy ascent and descent over Blue Ridge mountains, with wonderful scenery.

This route connects at Hickory for Blowing Rock, Bristol or Charlotte. An excellent option is Route 596 to Charlotte, combined with Route 652 to Salisbury.

- 75.6 1.5 Right-hand road just beyond RR bridge; turn right, shortly curving left.

*Black Mountain, N. C. (pop. 2,000, alt. 2,367 ft.), derives its name from the dark green balsam fir which covers its sides. This place, like Ridge Crest, is the seat of many religious conferences during the summer months.

*Ridge Crest, N. C. (pop. 200), is a most charming spot and affords beautiful views of the surrounding mountains and the valley of the Swannanoa river. It is also noted for being the seat of many gatherings of religious assemblies during the summer months.

*Marion, N. C. (pop. 1,525, alt. 1,425 ft.). From this point many splendid views may be obtained of the mountain peaks in this vicinity. Among these are Mt. Mitchell, the highest peak east of the Rockies. Other noted peaks are the Devil's Hole Knob, Table Rock, Yellow Mountain and the Roan.

*Morganton, N. C. (pop. 2,725, alt. 1,135 ft.), has a very picturesque location. From this point the South mountains and the Blue Ridge can be seen in all their glory.

Right across covered wooden bridge is Note (a) Route 644 to Hendersonville.

24.7 1.7 Esmeralda, P. O. on right.

Straight thru along Broad river—beautiful mountain scenery.

*Salisbury, N. C. (pop. 18,000, alt. 800 ft.), was the home of Daniel Boone and of Andrew Jackson. Here the latter studied and practiced law. During the confederacy it was headquarters for this territory and site of a federal military prison. The National cemetery here contains the graves of some twelve thousand soldiers who died in captivity. Pennsylvania and Maine have each erected handsome monuments in this cemetery. The town is located in an agricultural and mining region, being at one time renowned as a gold mining center, the old gold mine having produced \$20,000,000 in bullion. It is the seat of the Salisbury industrial and normal college

for women, of Livingston college and the state normal school for colored students.

*Biltmore, N. C. (pop. 200), the property of the late George W. Vanderbilt of New York, is considered the finest residential property in the country. It is densely forested and contains nearly every kind of a tree to be found in the mountainous region of the eastern U. S. The mansion itself is a beautiful piece of French chateau architecture. Biltmore is surrounded by mountain peaks, some of them 6,000 feet high, and commands wonderful views of the French Broad river and other sparkling streams.

Turn left onto Railroad Ave. and follow Route 617 (from mileage 79.1 to 116.3) balance of the way to

- 125.6 37.2 CHARLOTTE, Trade & Tryon Sts., bank on right.

*Chimney Rock, N. C., is in Hickory Nut gap, which resembles the western canyons, softened by the Appalachian verdure. The Broad river here tumbles in a waterfall 2,000 feet high. The Bottomless pool and two mysterious caverns, Esmeralda and Rumbling caves, are other natural attractions. There are also towering precipices, rendered accessible by roads, bridges, trails and even stairways.

Chimney Rock is 18 miles northeast of Hendersonville, 26 miles east of Asheville and 18 miles west of Rutherfordton, N. C. It is reached over the Charlotte-Asheville highway, via Hendersonville, and by the Chimney Rock highway, the latter a private double track motor road maintained at great expense. There are hotels, inns and garages at Chimney Rock and amusements and sports of all kinds, including mountain climbing, dancing, fishing and swimming.

*Rutherfordton, N. C. (pop. 2,500, alt. 1,096 ft.), is the seat of Rutherford military institute.

*Kings Mountain, N. C. (pop. 5,000, alt. 952 ft.), takes its name from a range of moun-

tainous hills extending from Gaston county, N. C., into York county, S. C., a length of about 12 miles. The rock-crowned Pinnacle, near the town, is 1,705 feet in elevation. Near the southwestern extremity of the range, marked by a lofty granite monument, lies the scene of the decisive revolutionary struggle, Oct. 7, 1780, generally regarded as "the turning point of the revolution." In the Battle of Kings Mountain 1,000 British and loyalist forces, under Col. Ferguson, were attacked by 950 colonial militia, backwoodsmen from Tennessee, Virginia and North and South Carolina, under William Campbell, Benjamin Cleaveland, Isaac Shelby, John Sevier and James Williams. Ferguson occupied a well-defended, rugged hill-top, but the patriots attacked with such gallantry that at the end of an hour, with their leader Ferguson killed, the British were forced to surrender. Almost the entire British and Tory force was killed or captured. Of the Americans, 28 were killed. Cornwallis retreated from the state of North Carolina, and henceforth no signal victory rested on the British arms in the revolutionary war.

Route 598—Asheville, N. C., to Spartanburg, S. C.—70.1 m.

Reverse Route 642.

Via Hendersonville, Saluda, Tryon and Campobello. First 11 miles concrete, balance gravel, sand-clay, dirt and macadam. A very fine trip thru Saluda Pass. Road thru the pass is narrow and winding and caution should be used on the curves. Mountains on both sides of the road, which follow a valley and numerous "runs" practically all the way from Hendersonville.

This trip is one of the most beautiful imaginable, replete with wonderful views of yawning gaps, towering mountains, silvery streams and long wooded stretches. Connection is given at mileage 16.4 to summit of Stoney Mountain.

*Hendersonville, N. C. (pop. 2,825, alt. 2,250 ft.), situated 22 miles southeast of Asheville, is a popular summer resort noted for the fishing, swimming, mountain sports and beautiful drives thru a region of unique scenic interest. One of these drives leads to Chimney Rock, 18 miles northeast of the town, over a superb motor road, the Charlotte-Asheville highway and Chimney Rock highway, the latter a private double track motor road maintained at great expense. Chimney Rock is in Hickory Nut Gap, which resembles the western canyons, but is softened by the Appalachian verdure. The Broad river here tumbles in a waterfall 2,000 ft. high. The Bottomless Pool and two mysterious caverns, Esmeralda and Rumbling caves, are other natural attractions. (For further details see

Chimney Rock.) The Fassifern school for young ladies and the Blue Ridge and Fleet school for boys are located in Hendersonville.

The Stoney Mountain scenic highway turns off from the Dixie highway three miles from Hendersonville, toward Asheville, and is three and a half miles of kaleidoscopic views of mountain, hill and valley, unsurpassed on the American continent. On top of this wonderful mountain, a thousand feet above the table land from which it rises sentinel-like, is spread a scene of marvelous grandeur stretching into five different states. At the foot of the mountain, and around its base and the tableland, is located an 18-hole golf course to be ready for the devotee of the little white ball during the spring of 1920.

 27.7 4.7 Union,* Pinckney & Main Sts. Straight thru. Curve right 28.2 onto Church St.

*Spartanburg, S. C. (pop. 35,000, alt. 875 ft.), the county seat of Spartanburg county, is the seat of Converse college, a non-sectarian institution for women; of Wofford college (Methodist Episcopal South), opened in 1854; of a textile school; and the state deaf, dumb and blind institute. It is the center of an extensive cotton manufacturing district and itself contains 38 mills with more than 806,000 spindles. It is located in a district containing iron and gold mines. About ten miles

from Spartanburg was fought the famous battle of Cowpens in 1781. A short distance out, reached by good roads, is Camp Wadsworth, one of our national cantonments.

*Union, S. C. (pop. 5,650, alt. 578 ft.), the county seat of Union county, is in a hilly region 70 miles northwest of Columbia. The surrounding country produces granite, gold and iron ore. Clifford seminary for young women is situated here.

- 28.3 0.6 Fork, small wooden church on left; bear left.
 30.4 2.1 Fork; bear right. Avoid road to left 30.8. Caution for sharp left turn 33.5. Curve right 35.5.
 36.7 6.3 End of road; turn right with travel, descending grade on winding road. Cross iron bridge over Tiger river 37.1, avoiding right-hand roads beyond.
 39.2 2.5 End of road; turn left, avoiding road to left 39.5. Cross wooden bridge 40.3 and avoid road to right 41.8. Cross RR 42.2 and long iron bridge 43.7.
 44.5 5.3 Whitmire, end of road, small wooden church on left. Turn very sharp left around church.
 44.8 0.3 End of road; turn right.

*Newberry, S. C. (pop. 5,050, alt. 502 ft.), the county seat of Newberry county, is 43 miles northwest of Columbia, and an im-

portant cotton market. It is the seat of Newberry college, open 1858, and has a fine courthouse.

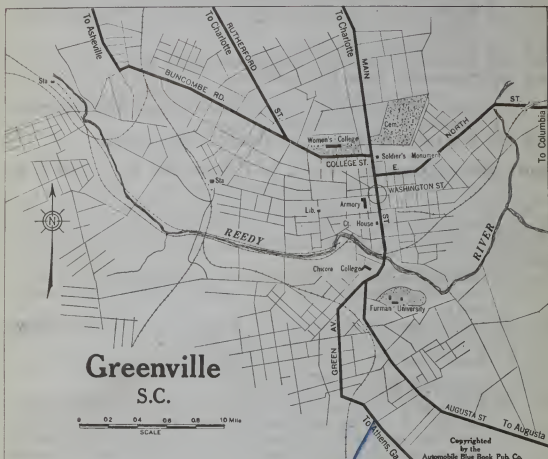

Greenville Section.

POINTS OF INTEREST, GREENVILLE, S. C.

Greenville (pop. 45,000, alt. 966 ft.) is pleasantly situated on the Reedy river near the Saluda mountains. It is noted as an educational center and is an important cotton market. It is also considered the textile center of the south and is the site of the southern textile exposition, held every two years. Among its educational institutions are Furman university (Baptist), opened 1851;

Greenville female college (Baptist), opened 1854; Chicora college (Presbyterian) for women, opened 1893; the Ursuline academy, founded in 1900, and Sterling industrial college for colored students.

The city has during the past few years invested \$10,000 or more in good roads work thruout the county.

*Anderson, S. C. (pop. 12,262, alt. 764 ft.), is the seat of Anderson college. It is the center of a cotton growing and agricultural district, and its industrial establishments include large cotton and cotton seed oil mills, employing thousands of persons. Anderson county, of which Anderson is the seat, ranks second in the U. S. in the production of cotton, and with the rapid development as a cotton market, Anderson has become one of the most rapidly growing cities in South Carolina.

James L. Orr, once governor of South Carolina, organizer of the Orr regiment of South Carolina and ambassador to Russia under

Grant, lived in Anderson. His old home still remains and his body lies buried in a local cemetery, tho he died in Russia.

A ladies' rest and writing room is maintained by the Anderson branch of the American Automobile Ass'n, in the Chamber of Commerce Bldg., 128 N. Main St., where tourists are welcome. J. J. Fretwell, owner of Sunset forest, a large country estate in the suburbs of Anderson, with a commodious lodge and one of the largest springs in the state also invites all tourists to visit his place.

- 2.2 0.1 Right-hand diagonal road; bear right.

- 2.4 0.2 Curve left with road and poles and at fork just beyond, bear left. Avoid left-hand road 4.1.

- 9.2 6.8 Edneyville, fork, store ahead on right. Bear left.

Right fork leads to Point Lookout and Sugar Loaf.

Thru diagonal 4-corners 9.4, descending long winding grade following general course of Reedy Patch creek. Curve right thru covered wooden bridge over French Broad river 14.9.

- 15.0 5.8 BAT CAVE, at far side of bridge, store on left.

CAMPS—Camp Minnehaha.

Left is Route 644 to Asheville.

Right is Route 596 to Esmeralda, Chimney Rock and Charlotte.

*Hendersonville, N. C. (pop. 2,825, alt. 2,250 ft.), situated 22 miles southeast of Asheville, is a popular summer resort noted for the fishing, swimming, mountain sports and beautiful drives thru a region of unique scenic interest. One of these drives leads to Chimney Rock, 18 miles northeast of the town, over a superb motor road, the Charlotte-Asheville highway and Chimney Rock highway, the latter a private double track motor road maintained at great expense. Chimney Rock is in Hickory Nut Gap, which resembles the western canyons, but is softened by the Appalachian verdure. The Broad river here tumbles in a waterfall 2,000 ft. high. The Bottomless Pool and two mysterious caverns, Esmeralda and Rumbling caves, are other natural attractions. (For further details see Chimney

Rock.) The Fassifern school for young ladies and the Blue Ridge and Fleet school for boys are located in Hendersonville.

The Stoney Mountain scenic highway turns off from the Dixie highway three miles from Hendersonville, toward Asheville, and is three and a half miles of kaleidoscopic views of mountain, hill and valley, unsurpassed on the American continent. On top of this wonderful mountain, a thousand feet above the table land from which it rises sentinel-like, is spread a scene of marvelous grandeur stretching into five different states. At the foot of the mountain, and around its base and the tableland, is located an 18-hole golf course to be ready for the devotee of the little white ball during the spring of 1920.

- 40.8 6.2 Converse,* fork. Bear left with travel across RR and immediately right.

*Spartanburg, S. C. (pop. 35,000, alt. 875 ft.), the county seat of Spartanburg county, is the seat of Converse college, a non-sectarian institution for women; of Wofford college (Methodist Episcopal South), opened in 1854; of a textile school; and the state deaf, dumb and blind institute. It is the center of an extensive cotton manufacturing district and itself contains 38 mills with more than 806,000 spindles. It is located in a district containing iron and gold mines. About ten miles from Spartanburg was fought the famous battle of Cowpens in 1781. A short distance out, reached by good roads, is Camp Wadsworth, one of our national cantonments.

*Converse, S. C. (pop. 1,000, alt. 800 ft.).

Located here on the banks of the Pacolet river was the large million-dollar cotton manufacturing plant which was totally destroyed by water from a cloudburst on the morning of June 6th, 1903. The foundation of the plant can be seen on the west side of the river 25 yards above where the National highway crosses bridge. All the machinery, including several immense boilers, was swept down the stream. About 100 men, women and children were drowned when cottages located near the river banks floated off down the current. The highest trestle on the Southern Ry. Co.'s road between Washington and Atlanta is in plain view of the highway.

*More months and miles
in the life of your car
and more health and
money for you*

*The most helpful
and most beautiful
motor magazine in
America
Established 1905*

No matter if you drive your own car

or keep a dozen chauffeurs, with as many cars, Motor Life will show you how to cut down your expense bills and at the same time add to your health and motoring enjoyment.

No dry, technical details

You associate the average motor magazine with mechanical drawings, with an atmosphere of oil and grease. Motor Life is different. You'll find the information you should have but you'll find it entertaining as well as helpful.

In interesting and human language

experts will tell you, in words and in pictures, how you can save dollar after dollar on the upkeep and operation of your car—how to get more mileage from your gasoline and tires, how to save needless hours in the repair shop, how to add to the selling value of your car and save money in many other ways—all at the simple expense of knowing how. They'll tell you how to get greater efficiency from your car for less money. They'll show you how you can get more enjoyment from your motoring by eliminating petty worries.

The new things in motordom

which you will find shown in every issue of Motor Life will help you keep up to date. You'll see the new cars, new motors, new bodies, new accessories, new refinements, new clothes. You'll find everything in Motor Life to interest you except trade gossip. Motor Life is published solely for the motorist, not for the trade.

The right thing at the right time

Motor Life, above all things, is timely. It tells you the things you want to know at the time you want them.

Features of the coming numbers:

JANUARY—*New Cars*—What the new automobiles will be like

FEBRUARY—*The Motor Shows*—The developments at the great national exhibitions

MARCH—*Private Garages*—Helpful suggestions on private garage matters

APRIL—*Spring Overhauling*—Preparing the car for the rigors of the summer burden

MAY—*Summer Accessories*—Latest ideas in equipment, accessories, clothes

JUNE—*Touring*—How to tour most efficiently and economically

JULY—*New Savings*—The newest ideas in motoring economy

AUGUST—*Aviation*—Devoted especially to automobiling's lofty relative

SEPTEMBER—*Camping Tours*—Dozens of suggestions for the self-propelled camping tour

OCTOBER—*Closed Cars*—A discussion of the new closed cars

NOVEMBER—*Winter Accessories*—New and timely adjuncts to comfortable zero motoring

DECEMBER—*Winter Motoring*—New ideas and developments in the scheme of winter automobiling

ly because you can afford a car is no reason why you should run it extravagantly

It's the waste and small leaks that make motoring expenses so high. Motor Life tells you how to avoid them, how to get 100 cents' value for every dollar you spend. You'll save whole days in the repair shop, gallons of gasoline and get hundreds of extra miles from your tires by following the simple suggestions of Motor Life's experts.

Motor Life is more than a magazine

because in addition to the magazine itself, you'll get individual, personal advice on any motoring problem that may bother you. Motor Life conducts four Service Departments—Technical Information, Touring Service, Shopping Bureau and Monogram Designing—that are absolutely free to its subscribers. No matter what your motoring problem is, tell us your troubles in a letter, and Motor Life's Service Departments will try to help you.

It will tell you how to save money

and have a good time doing it, besides telling you all about the interesting things you want to know in the realm of motoring, aeroplaning, motor boating, sports, etc., etc.

Special Offer \$1 will bring you six numbers— or \$3 will bring you Motor Life for a year— all 12 numbers regular price \$1.50

The price of Motor Life is \$3 a year or 35c a copy

Fill out the certificate and get six numbers (reg. price \$1.50) for just \$1

- 90.0 6.7 Franklin Ave.; meeting trolley, turn right. Cross RR 99.5.

*Cowpens, S. C. (pop. 1,200, alt. 580 ft.), is chiefly noted for a revolutionary battle which was fought here along the Broad river 2 miles south of the North Carolina boundary on January 17, 1781, in which the Americans, numbering about 1,100 and led by General Morgan, defeated an equal British force under Tarleton. The battle on the American side is known as one of the best planned of the revolution. The British loss, including 600 captives, was about 800, while that of the Americans was only 12 killed and 60 wounded.

*Gaffney, S. C. (pop. 8,000, alt. 773 ft.), the county seat of Cherokee county, is 50 miles southwest of Charlotte. The revolutionary battlefields of Cowpens and Kings mountain are in the vicinity. Tin and monezite are mined in this territory. The surrounding region is devoted to grain and cotton. The town is the seat of Limestone college, formerly Cooper institute, which was founded 1845.

*Kings Mountain, N. C. (pop. 5,000, alt. 952 ft.), takes its name from a range of mountainous hills extending from Gaston county,

N. C., into York county, S. C., a length of about 12 miles. The rock-crowned Pinnacle, near the town, is 1,705 feet in elevation. Near the southwestern extremity of the range, marked by a lofty granite monument, lies the scene of the decisive revolutionary struggle, Oct. 7, 1780, generally regarded as "the turning point of the revolution." In the Battle of Kings Mountain 1,000 British and loyalist forces under Col. Ferguson, were attacked by 950 colonial militia, backwoodsmen from Tennessee, Virginia and North and South Carolina, under William Campbell, Benjamin Cleavland, Isaac Shelby, John Sevier and James Williams. Ferguson occupied a well-defended, rugged hill-top, but the patriots attacked with such gallantry that at the end of an hour, with their leader Ferguson killed, the British were forced to surrender. Almost the entire British and Tory force was killed or captured. Of the Americans, 28 were killed. Cornwallis retreated from the state of North Carolina and henceforth no signal victory rested on the British arms in the revolutionary war.

For your convenience the General Index Map has been reproduced in sections on pages 16 to 25.

*Greenwood, S. C. (pop. 16,000, alt. 843 ft.), is the home of the Lander college, built by gift of \$35,000 by citizens, and of the Bailey Military institute, built by a gift of \$20,000 by

citizens. The latter is the largest military preparatory school for boys in the state. An officer of the U. S. army teaches military science here.

Columbia Section

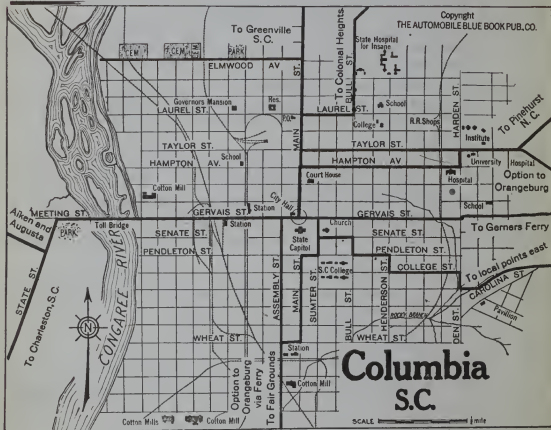

POINTS OF INTEREST, COLUMBIA, S. C.

Columbia (pop. 65,000, alt. 190 ft.), the capital of the state and the county seat of Richmond county, is situated on the east bank of the Congaree river at the head of navigation and just below the junction of the Broad and Saluda rivers.

The city is built on the sandy plateau of a bluff 100 feet high and which slopes away on all sides. The streets are 100 feet wide and cross at right angles with four avenues 150 feet wide radiating from the capitol. The principal streets have a row of fine shade trees on each side and another row down the center. The public buildings are imposing and handsome. There are large modern hotels, country club and golf links. The state house, built of granite and costing \$4,000,000, is modeled after the Capitol at Washington and is surrounded by spacious grounds. Of interest among the monuments on the ground is a palmetto tree in bronze. The executive mansion, city hall, court house, post office, state lunatic asylum and state penitentiary are among the noteworthy build-

ings. Of historical interest is the Baptist church in which the secession ordinance convention was held. The city is the seat of the University of South Carolina, opened 1890; Allen university, an African Methodist Episcopal institution, opened 1881, and Benedict college, a Baptist institution for colored students, opened 1871. The Presbyterian theological seminary and the Lutheran seminary are located here, as is also Camp Jackson, a permanent army cantonment with a capacity for 60,000 men.

The town was settled about 1700, but remained farm land until 1786, when the state legislature, in response to the popular demand for a capital more centrally located than Charleston, ordered the village of Columbia to be laid out. In January, 1790, the legislature convened here for the first time. In the civil war Columbia was occupied by General Sherman, Feb. 17, 1865. The next day it was almost completely destroyed by fire. After the war it rapidly recovered its prosperity.

Route 621—Columbia, S. C., to Augusta, Ga.—76.5 m. Reverse Route 216.

(Maj. Archibald Butt, U. S. A., was among those lost on the Titanic, April 15, 1912.)

POINTS OF INTEREST, AIKEN, S. C.

Aiken (pop. 4,000, alt. 565 ft.). The atmosphere here is bracing and invigorating, and the dryness of the air is remarkable, statistical reports of the humidity of different resorts proving the Aiken climate drier than that of any other place in the country east of the Rocky mountains. As a winter playground, Aiken stands pre-eminent, the average daily temperature between the middle of December and the middle of March being about 50 deg. Here scores of the most prominent families of America congregate each winter and form the so-called "Aiken colony." They maintain handsome homes, and in conjunction with the people of Aiken have greatly beautified the town. Golf, polo, pigeon-shooting, dove-drives and foxhunting are among the diversified sports indulged in. Among the chief points of interest are the Aiken club, founded in 1897, and the Palmetto golf club, the pretty home of which perches upon a green knoll on the Palmetto links, often declared to be the finest south of Washington. At the famous Whitney track a

splendid polo field attracts professional and amateur enthusiasts from far and near.

Aiken is surrounded by forests of yellow southern pine. The city itself is laid out with broad esplanades, and the many private gardens containing jessamine, magnolia and orange trees are most attractive. Other points of interest include the H. M. Dibble place, the "Vale of Montmorenci" and the Whitney drive. The latter is a beautiful highway threading its way up hill and down hill through pine forests and jessamine groves—leading past Sand river and the Devils' backbone, through Lovers' lane and down by the old mill and the pond—all of which Gouverneur Morris has so skillfully woven into his stories of Aiken winter life.

During the civil war Aiken was the scene of conflicts between Kilpatrick's forces and Wheeler's cavalry. There are still in existence a few relics of the artillery used by Kilpatrick and a number of graves of the federal forces may still be seen in the Baptist churchyard.

- 134.7 11.1 End of road; turn right.

*Cheraw, S. C. (pop. 3,000, alt. 144 ft.), is on the west bank of the Great Pee Dee river near the end of steam navigation, and is a shipping point for naval stores. During the civil war Cheraw was for a time a confederate supply depot. It was captured by General Sherman, March 3, 1865, and an immense amount of stores and 3,600 barrels of gunpowder were destroyed. St. David's Episcopal church, built in 1770, was used by Cornwallis as a British hospital in 1780. Here Nathaniel Greene took command of the American army in 1781. General Sherman's headquarters were located here in 1865. The first monument

erected to confederate soldiers in the south stands in Cheraw.

*Rockingham, N. C. (pop. 2,100, alt. 174 ft.), is a busy little cotton milling town. In 1872 it had but one mill with 2,000 spindles and in 1911 had ten mills with 114,000 spindles.

*Ellerbe Springs, N. C. (pop. 100), an old-time summer resort, was settled about a hundred years ago. Flora McDonald, who smuggled Charles Stuart out of Scotland after the battle of Culloden, disguised as her maid, came to America and settled about six miles north of the spring.

 GOLF CLUBS—Charlotte Country Club, follow Chatham Estates car line.

*Jackson Springs, N. C. (pop. 200), are noted for their medicinal properties. It is said that these springs were discovered by one Jackson, who followed a deer into the forest and killed him at this spring. Upon hearing the story of the wonderful properties of the springs, visitors came first camping and then

building. Many Indian relics have been found in the neighborhood, indicating their knowledge of the healing value.

*Lancaster, S. C. (pop. 2,100, alt. 500 ft.), is situated in a tobacco and cotton region, and is important because of its extensive cotton mills, cotton oil mills and fertilizer factory.

Route 629—Camden, S. C., to Wilmington, N. C.—178.4 m.

Reverse Route 709.

Via Bishopville, Darlington and Chadbourn. Dirt, sand and sand-clay roads. The swamp crossings at Mars Bluff and Pee Dee, then approaching Fair Bluff and again at Whiteville are bad in wet weather and rough at all times.

This route is 42 miles shorter than that via Cheraw and is preferable in dry weather.

*Southern Pines, N. C. (pop. 550, alt. 400 ft.), is one of the oldest and most popular resorts in this section, having been established in 1886 by John T. Patrick. It has several hotels and boarding houses and a fine golf course. It is located in the heart of the

famous pine woods region of North Carolina and is noted for its dry and health-giving climate. The chief industrial interest in this vicinity lies in small fruits, and Southern Pines is the principal point in the state for these shipments.

POINTS OF INTEREST, CHARLESTON, S. C.

Charleston (pop. 60,000, alt. 10 ft.) is the largest city in South Carolina and one of the most important seaports in the country. It lies on a low peninsula 10 to 12 miles long, between the Ashley and the Cooper rivers, only 7 miles from the Atlantic ocean. At the city the Wando river flows into the Cooper. The Ashley river is 2,100 yards wide and the Cooper 1,400 and by their union is formed a magnificent landlocked harbor 6 miles long and 3 wide, besides the splendid reaches of the broad rivers themselves, the whole offering one of the safest and most commodious harbors on the Atlantic coast. The harbor anchorages are 40 feet at the city, while the present channel from the Charleston navy yard to the open ocean has a mean low water depth of 30 feet and a high water depth of 35. This is only for the present, however,

as the government has commenced the work that will give Charleston 40 feet in the channel at low water and 45 at high, making it one of the deepest ports in the world and enabling the largest vessel afloat to enter the harbor with a full load without difficulties. This channel and other government work now going forward make Charleston pre-eminent among all American ports south of Hampton Roads and give it commercial and transportation facilities hardly excelled by those of New York. Among the things the United States government is doing in its plan of making this a world port and the nation's great gateway to South America is the construction of terminals several miles up the Cooper river at a cost of about \$25,000,000 to \$35,000,000. One unit of these concrete and steel terminals is a pier one mile wide.

VILLA MARGHERITA

Charleston - S. Carolina

A charming southern stopping place on the South Battery. Fine golf links at the disposal of guests. Also tennis, hunting, shooting and fishing. American plan, \$4.00 per day and up.

There are twelve warehouses of tremendous magnitude, all of the most powerful construction.

Charleston had always been considered a point of much strategic importance from a military and naval viewpoint, but with the coming of the war to America, its importance in this respect was greatly enhanced. It was made the headquarters for the great southeastern military department, largest of the departments; headquarters of the sixth naval district and of the South Atlantic coast artillery district, and of the coast guard regiment for this portion of the coast. At the Charleston navy yard was constructed an encampment for the training of 5,000 naval recruits and in the navy yard itself the force of civilian workers was increased from 1,300 to 4,500. Quarters at Fort Moultrie were increased so that the fort could accommodate some 3,000 coast artillerymen and give thoro training in field and coast artillery to recruits. A naval rifle range at Mount Pleasant, just across from the city, was a new feature. In the heart of town are the Market street barracks, containing a large force of quartermaster corps men, and the regiment of infantry from which detachments are sent to various places on the coast as waterfront guards, has its headquarters at North Charleston. Besides the great quartermaster depot and ordnance depot at North Charleston, there is a marine depot right in the city proper, on the Cooper river. In Charleston during the war men belonging to literally every branch of the army, navy and marine corps could be seen, besides large numbers of foreign sailors from ships of allied nations.

Charleston's harbor defenses include Fort Moultrie and Fort Sumter. The former is

situated on Sullivan's Island and is one of the most completely equipped military posts in the United States. It has recently been considerably enlarged. The fort is named for General Moultrie, who defended it against the British. Here may be seen the grave of the Seminole Indian chief, Osceola, who was treacherously captured in Florida under a flag of truce and sent a prisoner to Fort Moultrie, where he died of fever and, some say, a broken heart. At Fort Moultrie the first battle of the American Revolution was won by the American forces, when Col. William Moultrie with a handful of men defeated Gen. Sir Henry Clinton and Admiral Sir Peter Parker.

Probably the best known fort in America and one of the most famous in the world is Fort Sumter. It is on a small island in the center of the harbor and it is reinforced by Sergeant Jasper battery and Capron battery. The other once celebrated defenses, Forts Wagner and Ripley and Castle Pinckney have been abandoned as fortifications. Fort Sumter, built in 1825, was the starting-place of the civil war. It is known in history as having withstood more bombardment than any other fort in the world before Port Arthur.

On the Cooper river, 7 miles above the city is the United States navy yard, Charleston's special pride, which is rapidly becoming one of the country's leading naval bases since recognition was given by naval authorities to the importance and necessity of having a base of the first class to protect the Panama canal and otherwise to cover the Caribbean sea operations. Work was commenced the past year on the construction of a second great dry dock at the yard, to cost \$4,000,000, to be 1,000 feet long and to be

wide enough and deep enough to handle any vessel that can pass thru the Panama canal. The first dock built can repair vessels up to the Utah class. The yard employs nearly 5,000 civilians and turns out products worth about \$7,500,000 annually, including all the white goods used in the United States navy, which are made in a model clothing factory by women.

Charleston possesses great historic interest and is considered one of the most beautiful cities in the United States. It rivals Boston in colonial and revolutionary history and has innumerable historic landmarks and points of interest. It was founded in 1670 by an English colony under Governor William Sayle and more permanently established on its present site in 1680. In 1706 the guns of the town repelled the attack of a Spanish admiral and there were few years in those times when there was not fighting with either Indians or Spaniards. In 1776 Sir Peter Parker's fleet and Sir Henry Clinton's transports entered the harbor and were driven out again in one of the decisive battles of the war. Later in the revolution, however, Charleston was besieged from land by the British and captured.

In the early 19th century Charleston thrived wonderfully and soon became one of the chief centers of wealth and culture in the new nation. In the thirties her citizens built the longest railroad in the world (at that period), from Charleston to Hamburg, S. C. In Charleston the famous secession convention was held in 1860 and the first shot of the civil war was fired at the steamer "Star of the West," carrying supplies for the United States forces.

For forty years following the civil war, Charleston's progress was very slow. As fast as the wounds of the war healed came those of reconstruction, only to be followed in turn by the earthquake of 1886. Within the past fifteen years, however, great changes have been wrought in the city's social and industrial organization. It is a rapidly growing city with many large manufacturing plants, modern terminals, great distributing houses and good retail stores and its men are endeavoring to make it the premier seaport between Baltimore and New Orleans. At the same time the people have been careful to preserve the landmarks of by-gone days and all the charm of old America is to be found here.

On the Battery is the monument to Sergeant Jasper, revolutionary hero, who when the American flag was shot away at Fort Moultrie, June 28, 1776, leaped outside the ramparts, picked up the flag amidst a storm of cannon shot, put it again in place, and returned to his post. In honor of this service Gov. Rutledge presented him with his own sword.

On the Battery also is the bust of Gilmore Simms, the Charleston poet, novelist, and historian who died 1870. The drinking fountain is in honor of the heroes of the Hunley who lost their lives in Charleston harbor on board the first submarine built in America. Here, too, is the old gun from the Keokuk.

At the intersection of Meeting St. with Broad and Chalmers Sts. are grouped three

public buildings, the city hall, erected in 1800, the court house and the post office. In front of the city hall is Washington park or City Hall square, ornamented with a statue of William Pitt, English statesman, erected before the revolution. One of the arms was shot off by the British in their siege of Charleston in 1780. In Washington park also are many other notable monuments.

Among other interesting buildings are St. Michael's Protestant Episcopal church, Meeting and Broad Sts., whose corner stone was laid 1752. In its churchyard is found the "old cedar bed" headboard, a relic of 1770 and still in a remarkable state of preservation. In St. Phillips' churchyard, Church St. near Broad, are buried Calhoun, Gadsden, Rutledge, Pickens and others famed in history.

The Roman Catholic Cathedral of St. John, at Broad and Legare Sts., was built in 1796, but destroyed by fire 1861. The present cathedral is an exact duplicate of the first.

The Baptist church, on Church St., was organized 1683 and the church built in 1699. Greek in style, it is widely known for the beauty of its architecture. Next to the Independent church on Meeting St. (on the South side) stood the famous Secession hall in which was ratified the ordinance proclaiming South Carolina an Independent Commonwealth.

The residences of the city are picturesque, and of great interest to strangers are the many beautiful gateways, among which none is more beautiful than the Smythe gateway on Legare St., which is the most exclusive residence street of present-day Charleston. The Simonton gateway on the same street and not far away was imported from England, and is most artistic in design. Among the houses that have contributed to history are the Pringle house on King St. near the Battery, one of the oldest homes in Charleston, built in 1765 by Miles Brewton. The bricks for it were imported from England. It was here that Josiah Quincy, Governor of Massachusetts, stayed when on a visit in 1773 to see if this colony was ripe for rebellion. Brewton and his whole family were lost at sea, and the house passed into the hands of his three sisters.

Tradd St. was named after Robert Tradd, the first male child born in the colony. It was formerly the chief shopping street, and in its little shops were found goods from all over the world. The Old Heyward house, Tradd and Church Sts., is the house in which George Washington was entertained for a week in 1791.

The Huger residence, 34 Meeting St., was the residence of Lord William Campbell, the last colonial governor of South Carolina, and who escaped in a small boat, in the creek nearby, now Water St., to Sir Peter Parker's fleet.

The William Washington house on South Battery, corner of Church St., is of revolutionary fame. It was here in 1827 that Mrs. Washington, formerly Miss Jane Elliott of Charleston, presented her husband's battle flag, the famous Eutaw, to the Washington Light Infantry of Charleston. This is said to be the only flag of the American revolution in the custody of a military corps.

The Horry house, Meeting and Tradd Sts., also of revolutionary times, is most interesting in architecture, with its large piazzas over the street, and surrounded by its high brick walls.

Stoll's alley, east from Church St., is one of the quaintest little streets of long ago. In it once lived Peter Trezevant. Longitude lane, east from Church St., contains the garden of Landgrave Smith, where in 1694 the first rice was planted in South Carolina. St. Michael's alley, south side of St. Michael's church, was once a prominent street, where were the offices of Pettigrue and other legal luminaries.

The old powder magazine, on Cumberland St., is another interesting relic of colonial days. Its gables and tiled roof tell their own tale of the architecture of that time. It is now owned by the South Carolina society of colonial dames and used as their chapter room and museum.

The slave market, on Chalmers St., between Church and State Sts., is a relic of the days of slavery. Opposite is the little "Pink House," roof and style quaint relics of a bygone age.

The old Charleston market, on Meeting St., facing Market St., dates from 1841, and tho not the first market, is very interesting. Market hall is now used by the Daughters of the Confederacy as their chapter room and museum. There are many interesting relics and visitors are welcome.

The old post office or exchange, on East Bay, head of Broad St., is one of the oldest

post offices in the Union. On this site stood the place at arms or guard post of the colonists of South Carolina in 1680. In 1718 Stede Bonnett and other pirates were placed here for safekeeping. The present building was erected as an Exchange or Custom House in 1767. The hated taxed tea was stored in its cellars. Here also the provincial congress assembled, setting up the first independent government in America in 1774. The martyr, Isaac Hayne, was imprisoned here and led hence to his execution. Many brilliant assemblages have been held within its walls, the grandest being the entertainment given to George Washington by his grateful countrymen in 1791.

In Marion square or Citadel green, a large square bounded by King, Calhoun, Meeting and Hudson Sts., can be seen a small section of the old wall, built of tapis in 1780, as a defense for the city. Here also is the monument to Calhoun. The north end of the square is occupied by the citadel.

Liberty Tree tablet, on Alexander St., near Charlotte, on the Belt car line, marks the spot near which stood the famous "Liberty Tree" of history. Under it in 1766 Colonial Independence was first advocated by Christopher Gadsden, and ten years later the Declaration of Independence was first heard and applauded by Carolinians.

There are a large number of beauty spots within easy riding of Charleston, the most famous and beautiful of all probably being the world-renowned Magnolia gardens, which are about 16 miles up the Ashley river.

QUICKEST AND BEST WAY TO SEE CHARLESTON.

Starting from the hotels, one proceeds via Meeting St. to Broad, at which corner are the court house, post office, city hall and St. Michael's church; east on Broad two or three blocks to army headquarters, old post office building, Chamber of Commerce and other points; then back to Meeting and south to the Battery—famous park and beautiful residential district; westward from Battery along boulevard drive next to sea wall, thru fine residential section, to Rutledge Ave. Turning north on Rutledge Ave., go thru residential district, past Colonial lake, the Charleston museum, Ashley Hall, etc., to Hampton Park terrace and Hampton park. Then east on Huger to Meeting and north a short distance to the country club and Magnolia cemetery; then returning southward on Meeting, west thru Line to King, then south thru the retail district and back to the hotel.

Conserve the Forests!

Serious forest fires have been caused by passing acts of carelessness. The Forestry Department urges that motorists observe the greatest caution in handling lighted matches, cigars, cigarettes, etc., when touring through wooded sections.

Charlotte Section

POINTS OF INTEREST, CHARLOTTE, N. C.

Charlotte (pop. 34,025, alt. 773 ft.), the county seat of Mecklenburg county, lies on Sugar creek. It is in the North Carolina gold district and a branch mint was established here 1838. Closed by the breaking out of the civil war, it was re-opened as an assay office in 1869. In the vicinity gold is still mined in small quantities.

The city covers an area of 20 square miles and is an important commercial center for the fertile agricultural and extensive cotton growing region around it. It is also the heart of the southern cotton mill industry, itself having 23 cotton mills, while within a radius of 100 miles there are 500 other cotton mills. It is the seat of Queens college for women and Horner's military school for boys. Saint

Mary's seminary, conducted by the Sisters of Mercy, is also located in the city. Just outside the city is Biddle university, a Presbyterian institution for colored students, founded 1867.

Charlotte was settled about 1750 and incorporated 1768. On May 20, 1775, the famous convention of the Mecklenburg county militia met here and adopted certain resolutions since known as the Mecklenburg Declaration of Independence. The signers of this document are commemorated by a handsome shaft monument in front of the court house. During the revolution several sanguinary battles were fought in and around Charlotte. In September, 1780, Lord Cornwallis occupied the town for several days. The patriotic militia

(Charlotte Points of Interest, concluded from page 674.)

made it so uncomfortable for him that he referred to it as a "hornet's nest," and this has since been adopted as the city's emblem. The location of Cornwallis' headquarters is marked by a tablet. In the latter part of 1780 the city was the headquarters of the American General Gates. In the civil war Charlotte was the last meeting place of the full confederate cabinet.

In and around the city are many beautiful thoroughfares with a typical southern aspect. Tryon street is considered one of the most beautiful avenues in the south, and Salisbury road and Sugar creek road, beyond the tracks of the Seaboard air line, are fine stretches of macadam. The tourist should also drive over

Lawyer's road, Sharon road and Lovers' lane. Hopewell road is a speedway, reached via South Tryon street from Independence square. Here at the present site of the Commercial National bank building President Jefferson Davis was standing addressing the people when a telegram was handed him conveying the news of Lincoln's assassination.

Charlotte has been the home of a number of prominent men, among them Presidents Jackson and Polk. A short trip from the city takes the tourist to the birthplace of Polk and Tyler. Camp Greene, a national guard camp, is located about a mile and a half west of Charlotte on the Dowd and Tuckaseegee roads.

75.4 0.3 Fork, at top of grade; bear left.

*Kings Mountain, N. C. (pop. 5,000, alt. 952 ft.), takes its name from a range of mountainous hills extending from Gaston county, N. C., into York county, S. C., a length of about 12 miles. The rock-crowned Pinnacle, near the town, is 1,705 feet in elevation. Near the southwestern extremity of the range, marked by a lofty granite monument, lies the scene of the decisive revolutionary struggle, Oct. 7, 1780, generally regarded as "the turning point of the revolution." In the Battle of Kings Mountain 1,000 British and loyalist forces, under Col. Ferguson, were attacked by 950 colonial militia, backwoodsmen from Tennessee, Virginia and North and South Carolina, under William Campbell, Benjamin Cleaveland, Isaac Shelby, John Sevier and James Williams. Ferguson occupied a well-defended, rugged hill-top, but the patriots attacked with such gallantry that at the end of an hour, with their leader Ferguson killed, the British were forced to surrender. Almost the entire British and Tory force was killed or captured. Of the Americans, 28 were killed. Cornwallis retreated from the state of North

Carolina, and henceforth no signal victory rested on the British arms in the revolutionary war.

*Gaffney, S. C. (pop. 8,000, alt. 773 ft.), the county seat of Cherokee county, is 50 miles southwest of Charlotte. The revolutionary battlefields of Cowpens and Kings mountain are in the vicinity. Tin and monezite are mined in this territory. The surrounding region is devoted to grain and cotton. The town is the seat of Limestone college, formerly Cooper institute, which was founded 1845.

*Cowpens, S. C. (pop. 1,200, alt. 580 ft.), is chiefly noted for a revolutionary battle which was fought here along the Broad river 2 miles south of the North Carolina boundary on January 17, 1781, in which the Americans, numbering about 1,100 and led by General Morgan, defeated an equal British force under Tarleton. The battle on the American side is known as one of the best planned of the revolution. The British loss, including 600 captives, was about 800, while that of the Americans was only 12 killed and 60 wounded.

*Converse, S. C. (pop. 1,000, alt. 800 ft.). Located here on the banks of the Pacolet river was the large million-dollar cotton manufacturing plant which was totally destroyed by water from a cloudburst on the morning of June 6th, 1903. The foundation of the plant can be seen on the west side of the river 25 yards above where the National highway crosses bridge. All the machinery, including several immense boilers, was swept down the stream. About 100 men, women and children were drowned when cottages located near the river banks were floated off down the current. The highest trestle on the Southern Ry. Co.'s road between Washington and Atlanta is in plain view of the highway.

*Spartanburg, S. C. (pop. 35,000, alt. 875 ft.), the county seat of Spartanburg county, is the seat of Converse college, a non-sectarian institution for women; of Wofford college (Methodist Episcopal South), opened in 1854; of a textile school; and the state deaf, dumb and blind institute. It is the center of an extensive cotton manufacturing district and itself contains 38 mills with more than 806,000 spindles. It is located in a district containing iron and gold mines. About ten miles from Spartanburg was fought the famous battle of Cowpens in 1781. A short distance out, reached by good roads, is Camp Wadsworth, one of our national cantonments.

The Right Way to Use the Blue Book!

Study pages 12 and 13, and familiarize yourself with the Blue Book System for quickly locating routes, towns and running directions.

Route 642—Spartanburg, S. C., to Asheville, N. C.—70.1 m.

Reverse Route 598.

Via Campobello, Tryon, Saluda and Hendersonville. Sand-clay, dirt, gravel and macadam, with 11 miles of concrete entering Asheville.

Connection is given at mileage 52.6 to summit of Stoney mountain. A very fine trip thru Saluda Pass. Road thru the pass is narrow and winding and caution should be used on the curves. Mountains on both sides of road, which follow a valley and numerous "runs" practically all the way to Hendersonville.

This is one of the most popular connections from the National highway to Asheville. The trip is one of the most beautiful imaginable, and is replete with wonderful views of yawning gaps, towering mountains, silvery streams, and long wooded

(MILEAGE— Distance stretches. Connection is given at Hendersonville for Bat Cave in Note (a) on Route 615.
Total Between Mileage Points

0.0	0.0	SPARTANBURG, Church & Main Sts. Go north with trolley on Church St.
0.9	0.9	4-corners, large water tower on left; turn left away from trolley and at end of road just beyond, turn right.

29.7	0.3	Fork; bear left with travel. Cross wooden bridge, curving left with road just beyond. Avoid right-hand diagonal road 30.2. Caution for left and right curves up valley 32.4—mountains on both sides of the road. Keep ahead on winding road, crossing several small bridges. Curve left and right under RR 34.2 and under another RR 35.9.
37.4	7.7	Saluda. Straight thru along RR. Cross RRs at sta. 37.6-38.3. Caution for numerous turns on winding road up and down-grade.
45.2	7.8	Flat Rock, end of road, sta. on left. Turn left across RR and at 3-corners just beyond, turn right.
45.7	0.5	End of road, turn left and at end of road just beyond, bear right.
46.7	1.0	End of road; turn right.

*Tryon, N. C. (pop. 700, alt. 1,102 ft.), was named in honor of William Tryon, one of the signers of the Mecklenburg Declaration of Independence. It is a popular resort and contains many handsome homes owned by people from all parts of the country, who spend a part of each year here. The waterfalls and cascades of the Pacolet river are

very beautiful and no one should fail to see Horse Shoe falls on Spring mountain. Many grand views are to be obtained here; looking to the south and west one may see Chestnut ridge, Hocker ridge, Bailey ridge, Bird mountain, Hoghead mountain, Rocky spur and Melrose mountain. To the north may be seen Warrior, Foster, Chestnut and Little White Oak mountains.

47.9 1.2 End of road; bear right with travel. Cross RR 48.7.

Left-hand road 52.6 leads to summit of Stoney mountain, 3.5 miles.
RESTAURANTS—Stoney Mountain Pavilion and Tea Room.

Cross RR 54.8.

*Hendersonville, N. C. (pop. 2,825, alt. 2,250 ft.), situated 22 miles southeast of Asheville, is a popular summer resort noted for the fishing, swimming, mountain sports and beautiful drives thru a region of unique scenic interest. One of these drives leads to Chimney Rock, 18 miles northeast of the town, over a superb motor road, the Charlotte-Asheville highway and Chimney Rock highway, the latter a private double track motor road maintained at great expense. Chimney Rock is in Hickory Nut Gap, which resembles the western canyons, but is softened by the Appalachian verdure. The Broad river here tumbles in a waterfall 2,000 ft. high. The Bottomless Pool and two mysterious caverns, Esmeralda and Rumbling caves, are other natural attractions.

(For further details see Chimney Rock.) The Fassifern school for young ladies and the Blue Ridge and Fleet school for boys are located in Hendersonville.

The Stoney Mountain scenic highway turns off from the Dixie highway three miles from Hendersonville, toward Asheville, and is three and a half miles of kaleidoscopic views of mountain, hill and valley, unsurpassed on the American continent. On top of this wonderful mountain, a thousand feet above the table land from which it rises sentinel-like, is spread a scene of marvelous grandeur stretching into five different states. At the foot of the mountain, and around its base and the tableland, is located an 18-hole golf course to be ready for the devotee of the little white ball during the spring of 1920.

See Western North Carolina from the top of STONEY MOUNTAIN

Stoney Mountain Scenic Highway
on the Dixie Highway,
"LAND OF THE SKY,"
3 miles north of Hendersonville.

Three and a half miles of scenic grandeur unsurpassed in America. A thousand feet above the great western North Carolina plateau.

18-hole Golf Course at foot of "Stoney" ready for use Spring of 1920.

Via Lexington and Salisbury. Macadam and sand-clay.
 Thru a section rich in the production of cotton, tobacco and grain.
 Route 649 offers a longer option via Statesville.

0.0 0.0 CHARLOTTE, Tryon & Trade Sts.

See Route 652 for directions to Lexington 62.2 miles, where reset odometer to 0.0.

0.0 0.0 Lexington, 4-corners, at soldiers' monument. Keep ahead (west) on Main St.

*Statesville, N. C. (pop. 8,000, alt. 926 ft.), 44 miles north of Charlotte, is in a rich tobacco and agricultural region, and one of the state experiment farms is located just outside the city limits. The Statesville female college, Statesville male academy, and Long sanitarium are located here, and a large Presbyterian orphanage is maintained 6 miles out.

*Mocksville, N. C. (pop. 1,100, alt. 651 ft.), formerly known as “Mock’s Old Field,” is the seat of Davie county. The county is about 26 miles square and was named in honor of General William R. Davie. This section was originally known as “The Forks of the Yadin” and the county was cut off from Rowan

in 1837. Mocksville has a \$35,000 courthouse and several thriving manufacturing plants and modern cotton gins. About two miles out of Mocksville stands the farm on which Squire Boone, the father of Daniel Boone, once lived, in sight of the graveyard in which his remains and those of his wife now rest. A modest stone marks their burial place.

*Farmington, N. C. (pop. 200). Lane starting at east side of old tavern leads to left (about $\frac{1}{4}$ mile) to “Great Meadows,” site of Fort Necessity, where Washington surrendered his small Virginia forces to French and Indians (July 4, 1754). Tablet, marking site, records event.

- 0.2 0.2 End of street; turn left onto 4th St. Avoid right-hand street at National Highway Sign.

 Greensboro City Map and Points of Interest, page 708.

***Salisbury, N. C.** (pop. 18,000, alt. 800 ft.), was the home of Daniel Boone and of Andrew Jackson. Here the latter studied and practiced law. During the confederacy it was headquarters for this territory and site of a federal military prison. The National cemetery here contains the graves of some twelve thousand soldiers who died in captivity. Pennsylvania and Maine have each erected handsome monuments in this cemetery. The town is located in an agricultural and mining region, being at one time renowned as a gold mining center, the old gold mine having produced \$20,000,000 in bullion. It is the seat of the Salisbury industrial and normal college for women, of Livingston college and the state normal school for colored students.

***Lexington, N. C.** (pop. 6,725, alt. 758 ft.), is ten miles from the famous Yadkin river ford.

across which Gen. Greene made his memorable retreat from Camden, S. C., to Guilford Court House, N. C., where Gen. Davidson met his death. It is fifteen miles from the Daniel Boone cave, where the famous frontiersman lived for several years and which is now being kept up as a public park. Lexington's principal industries are wood working plants and cotton mills, of which it has a large number. Davidson county, of which Lexington is the seat, is the center of the state and the banner wheat county of North Carolina.

***High Point, N. C.** (pop. 10,000, alt. 940 ft.), is a manufacturing center specializing in furniture, and often referred to as the "Grand Rapids of the South." Fifteen years ago there were but very few factories here. Now there are about a hundred plants turning out everything in the furniture and house furnishing goods line and allied industries.

- 140.4 58.7 **WILMINGTON**, Market & Front Sts., bank on left.

*Lumberton, N. C. (pop. 5,000, alt. 210 ft.), seat of Robeson county, is 25 miles from the site of the battle of Elizabethtown (1781). Robeson county was named in honor of the American commander in that battle. Many other minor revolutionary skirmishes took place in this vicinity also. A monument has been erected to the memory of the confederate soldiers. Lumber river, a picturesque stream noted for its "red breast" perch, attracts

many tourists who are fond of canoeing and fishing, especially during the fall and winter months. The surrounding country is devoted exclusively to agriculture—cotton, corn and tobacco being raised in great abundance. Cotton mills and tobacco warehouses are among the town's industrial features. Hon. A. W. McLean, director in U. S. war finance corporation and president of North Carolina Bar Association, is a resident of Lumberton.

*Lancaster, S. C. (pop. 2,100, alt. 500 ft.), is situated in a tobacco and cotton region, and

is important because of its extensive cotton mills, cotton oil mills and fertilizer factory.

Motoring through our National Parks

is a glorious experience. Try it next summer! Volumes 7 and 10 of the Automobile Blue Book will take you thru Rocky Mountain, Mesa Verde, Estes, Glacier, Yellowstone and the Grand Canyon

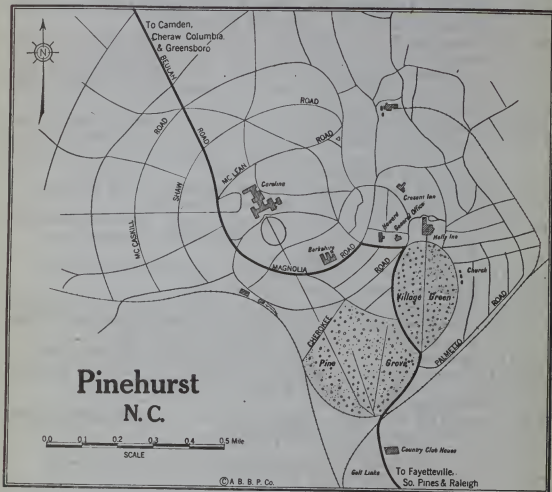

Pinehurst Section

POINTS OF INTEREST, PINEHURST, N. C.

Pinehurst (pop. 250, alt. 650 ft.), in the center of the "Sand Hill" section of North Carolina, overlooks the Long Leaf Pine Plateau of Flora MacDonald, between the headwaters of the Cape Fear and Lumber rivers. The village is a realization of the dream and execution of a plan of the late James W. Tufts of Boston. The Pinehurst season, as a winter resort, extends from November to May. The average temperature of the winter months is 51 degrees. Pine-

hurst is famous as a winter golfing center. Prominent enthusiasts from all over the country come to Pinehurst during this season to compete in the tournaments. A day's trip in a canoe down the primeval Lumber river is one of the unique enjoyments offered here. The stream is the same today as it was 500 years ago. No lumber has been cut and the wild turkeys, heron, deer and raccoons are still plentiful.

33.9	8.9	Right-hand road; curve right around brick store, avoiding road to left just beyond large wooden church 34.2.
34.8	0.9	End of road; turn left upgrade. Cross RR and iron bridge 34.9 and curve right upgrade.

*Jackson Springs, N. C. (pop. 200), are noted for their medicinal properties. It is said that these springs were discovered by one Jackson, who followed a deer into the forest and killed him at this spring. Upon hearing the story of the wonderful properties of the springs, visitors came first camping and then building. Many Indian relics have been found

in the neighborhood, indicating their knowledge of the healing value.

*Ellerbe Springs, N. C. (pop. 100), an old-time summer resort, was settled about a hundred years ago. Flora McDonald, who smuggled Charles Stuart out of Scotland after the battle of Culloden, disguised as her maid, came to America and settled about six miles north of the spring.

Pinehurst

NORTH CAROLINA

THE GOLFING CENTER OF AMERICA

From November to May

THE only resort in the South having three 18-hole golf courses and one of 9 holes. The Pinehurst Tournaments culminating each season with the United North and South Championship Event are world-famous and bring together representative players from every section.

Golf, Tennis, Horse Racing, Trap Shooting, Rifle Range, Fox Hunting, Motoring, Riding, and Driving.

Pinehurst cordially invites you to be among its many friends who sport with a zest in the equable, bracing climate of this region.

Splendid hotels, offering every comfort and a delightful cottage colony life.

*Cheraw, S. C. (pop. 3,000, alt. 144 ft.), is on the west bank of the Great Peedee river near the end of steam navigation, and is a shipping point for naval stores. During the civil war Cheraw was for a time a confederate supply depot. It was captured by General Sherman, March 3, 1865, and an immense amount of stores and 3,600 barrels of gunpowder were

destroyed. St. David's Episcopal church, built in 1770, was used by Cornwallis as a British hospital in 1780. Here Nathaniel Greene took command of the American army in 1781. General Sherman's headquarters were located here in 1865. The first monument erected to confederate soldiers in the south stands in Cheraw.

POINTS OF INTEREST, CAMDEN, S. C.

Camden (pop. 3,575, alt. 221 ft.), the county seat of Kershaw county, is known as a winter resort. For the entertainment of visitors there are two 18-hole golf links, and two splendid polo fields, besides a practice field and a half-mile gentlemen's driving track. The town is also a thriving commercial and manufacturing city.

Camden was settled in 1733 by Quakers from Ireland, and chartered by King George III in 1768. The original charter hung in the council chamber until 1883, when it mysteriously disappeared. On August 16, 1780, the battle of Camden was fought 8 miles north of the present town. The English numbering

2,000, under Lord Cornwallis, defeated the American force of 3,000 under General Gates. In this battle Baron de Kalb fell mortally wounded. His remains lie under a granite and marble monument in front of the Presbyterian church of Camden. A granite block on the field of battle marks the spot where he fell. In this battle most of the fighting was done by the right wing under Baron de Kalb. Early in the engagement a large part of the rest of the American force fled precipitately, which caused the conduct of General Gates to be investigated by a court of inquiry and resulted in his being superseded by General Greene. The British loss was 325,

the American loss in killed, wounded and captured was 2,000.

On April 25, 1781, was fought the battle of Hobkirk's Hill, often called the "Second Battle of Camden." The center of the battle was near the spot where the street now running from the Kirkwood hotel to the Hobkirk inn crosses the intersection of Main street. The Americans were defeated and their dead are said to be buried beneath the little clump of cedars that stands near the street crossing just mentioned. For a long time the town was held by the British and part of their old breastworks may still be seen in the western part of the city.

After the revolution Camden became the center of much wealth and social life. Many of the prominent citizens numbered their slaves by the hundred and their lordly plantations covered thousands of acres. These wealthy planters had town houses in Camden, some of which, still standing in their spacious old-fashioned grounds, are memorials of a by-gone style and splendor that add much to the beauty and interest of the city. An interesting feature is the city hall weather vane, a sheet iron effigy of Haigler, noble King of the Catawba Indians and friend of

the white men, who was a frequent visitor to Camden, then known as Pine Tree Hill. For nearly 100 years this image, loved of the citizens, has weathered every storm. It was made by a French artist named Mathieu, a resident of Camden between 1815 and 1834.

The town clock with its four dials is a contemporary of the Indian weather vane. In the days of slavery its bell tolled the curfew which rang at 9 p. m., and also served as a market bell and a fire alarm.

The public squares of Camden have always been one of its attractive features. In old Camden there was the central square south of the court house and cut into four squares by Broad and Bull streets. Only the northeast quarter of this square now remains. In upper or modern Camden are five squares. The large central one, like that of old Camden, is quartered by two intersecting streets.

The monument to Baron de Kalb was erected 1825, Lafayette laying the cornerstone. In the civil war General Sherman entered Camden on February 25, 1865, and destroyed all the stores and a number of buildings. It is a remarkable historical fact that the little town of Camden furnished six generals for the civil war.

- 34.4 0.7 **Sanford**,* end of road. Turn left across RR.
- 34.5 0.1 Right-hand road, large water tower on left; turn right.
- 38.8 4.3 Right-hand diagonal road; bear right with travel. Cross RR 39.6. Cross long bridge over Deep River 47.6.

***Southern Pines, N. C.** (pop. 550, alt. 400 ft.), is one of the oldest and most popular resorts in this section, having been established in 1886 by John T. Patrick. It has several hotels and boarding houses and a fine golf course. It is located in the heart of the famous pine woods region of North Carolina, and is noted for its dry and health-giving climate. The chief industrial interest in this vicinity lies in small fruits, and Southern Pines is the principal point in the state for these shipments.

***Jonesboro, N. C.** (pop. 800, alt. 419 ft.), was the terminus of the railroad during the civil war. Confederate soldiers were here mustered and embarked. For years this was

a great shipping point for tar, pitch and turpentine. Beyond Jonesboro lies the great sand belt of southern North Carolina with its several health resorts.

***Sanford, N. C.** (pop. 2,300, alt. 359 ft.), is a prominent railroad center and has large manufacturing interests. Just before the civil war United States experts were sent to examine the iron and coal in this section of the country and shortly thereafter the Cummock coal mine was established, but later abandoned. A railroad runs from the mines to Sanford. Down the river are ruins of large iron smelters, built by the Lobdell company of Wilmington, Del., some forty years ago.

For complete list of Hotels and Garages see listing under towns in General Index—front of book.

*Lockville, N. C. (pop. 100), is situated on the Deep river and derives its name from the fact that it was at the head of navigation via the lock system, devised early in the last century. The old canal may be seen after crossing the river, and also the old revolu-

tionary mill and iron works. In the old canal is the hull of the steamer "George Lobdell," now covered with mud. On a hill nearby Lord Cornwallis had his headquarters at one time.

Straight ahead is Note (a) to Warsaw.

Turn right onto Lisbon St. Cross RR 81.4. Avoid left-hand diagonal road 82.6.

*Fayetteville, N. C. (pop. 12,000, alt. 170 ft.), is located on the Cape Fear river at the head of navigation, 60 miles southwest of Raleigh, in a fertile agricultural district, and is a wholesale distributing point for fertilizers and trucking point for northern markets. Near the town is a large vineyard. It is the seat of the State colored normal school, and the Donaldson-Davidson academy. The town was settled by Scotchmen in 1736 and laid out 1762 under the name of Campbellton. This name

was changed to Fayetteville during the visit of Lafayette in 1784. In 1831 the town was almost completely destroyed by fire. During the civil war it contained a Union arsenal, which was seized in April, 1862, by Governor Ellis of North Carolina. In 1865 General Sherman occupied Fayetteville, destroyed the arsenal and laid waste the surrounding district. Camp Bragg is located 12 miles from Fayetteville.

"What to Take on the Tour"

Consult pages in the *Orange* insert, center of Book, for some real common sense advice by the Editor on essential equipment for your motor trips. Read this list of complete equipment and decide what is essential to you for comfort and safety. The particular makes of products listed are recommended as reliable.

 Right is Route 706 to Wilmington.

Is your motoring costing MORE or LESS?

Do you know if your motor is up to
 its former efficiency?

Are your tires giving you their guar-
 anteed mileage?

Is your motor using too much lubri-
 cating oil, thus forming carbon?

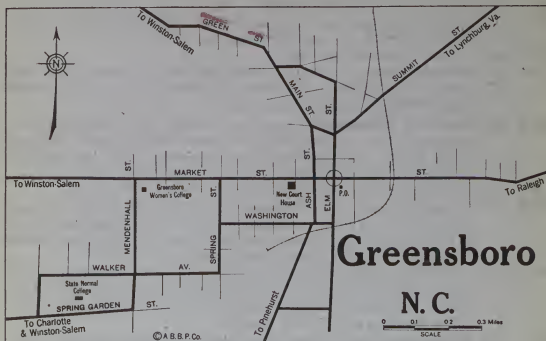

These and a dozen other vital ques-
 tions are readily answered by keeping
 a Motor Life Car Cost Record.

Hundreds of motorists have found
 this system a great saving of money
 and wear and tear on their car—be-
 cause it leads them to an investigation
 and thus helps them to locate where
 the trouble exists.

Write us today for full details about
 this system—it is to your interest.

MOTOR LIFE, 243 West 39th Street, New York City

Greensboro Section

POINTS OF INTEREST, GREENSBORO, N. C.

Greensboro (pop. 20,900, alt. 843 ft.) was named in honor of General Green, who commanded the continental army in the battle of Guilford Court House, fought 5 miles north of the town, March 15, 1781. It is the birthplace of "O. Henry," the popular author; a half-million dollar hotel named in his honor, with an "O. Henry" suite, containing appropriate souvenirs, has recently been constructed. It was headquarters of General Joseph E. Johnston at time of surrender to Sherman.

The town is the seat of the Greensboro female college (Methodist Episcopal), opened 1846, the state normal and industrial school for white women, the agricultural and technical college for negroes, and the Bennet and Lutheran colleges, also for negroes. The city is known as an insurance center, having four life and five fire insurance companies. It carries on a considerable trade in cotton and tobacco and has many thriving manufacturing factories.

*Lexington, N. C. (pop. 6,725, alt. 758 ft.), is ten miles from the famous Yadkin river ford, across which Gen. Greene made his memorable retreat from Camden, S. C., to Guilford Court House, N. C., where Gen. Davidson met his death. It is fifteen miles from the Daniel Boone cave, where the famous frontiersman

lived for several years and which is now being kept up as a public park. Lexington's principal industries are wood working plants and cotton mills, of which it has a large number. Davidson county, of which Lexington is the seat, is the center of the state and the banner wheat county of North Carolina.

Route 677—Salisbury to Asheville, N. C.—152.0 m.

Reverse Route 594.

Via Statesville, Hickory, Morganton and Marion. Alternating stretches of gravel, macadam, gravelly dirt and fair-to-good sand-clay, except last 18 miles, which is concrete, gravel and macadam. Summary: 15.8 miles concrete, asphalt and macadam; 63.1 miles graded gravel; 29.4 miles gravelly dirt; 34 miles fair-to-good sand-clay; 8.4 miles fair graded dirt. Some of the road becomes muddy when very wet.

This route traverses a fine farming and wooded country, with long easy ascents and descents across the Blue Ridge mountains, affording wonderful views. Connects at Hickory with routes for Blowing Rock, Bristol and Charlotte.

An excellent option to Asheville is Route 676 to Charlotte combined with Route 644 to Asheville.

*Salisbury, N. C. (pop. 18,000, alt. 800 ft.), was the home of Daniel Boone and of Andrew Jackson. Here the latter studied and practiced law. During the confederacy it was headquarters for this territory and site of a federal military prison. The National cemetery here contains the graves of some twelve thousand soldiers who died in captivity,

Pennsylvania and Maine have each erected handsome monuments in this cemetery. The town is located in an agricultural and mining region, being at one time renowned as a gold mining center, the old gold mine having produced \$20,000,000 in bullion. It is the seat of the Salisbury industrial and normal college for women, of Livingston college and the state normal school for colored students.

POINTS OF INTEREST, WINSTON-SALEM, N. C.

Winston-Salem (pop. 40,000, alt. 858 ft.), county seat of Forsyth county, often called the "Twin Cities of North Carolina," is a snug community of tobacco factories and cotton mills, situated in a prosperous agricultural county on the slopes of the Blue Ridge. While, until 1913, these were two distinct municipalities, they have by common consent consolidated and are now known to the world as one city under the present hyphenated name. Commercially Winston is by far the more important, but historically Salem is much more interesting. The industrial development of Winston began with the first tobacco factory, built in 1874.

It is now principally a manufacturing center, which has developed rapidly thru its trade in high grade tobacco. It is the home of the R. J. Reynolds Tobacco company.

Salem, the original settlement, was founded by the Moravians in 1766 and Winston developed nearly a century later at the court house square, one mile away. Salem is now chiefly a residential and educational center. At the Moravian burying ground here the plain marble slabs lie flat on the ground, the men, women and children each having their own section. Here every Easter morning the "Sunrise service" is held. John Henry Boner, poet and editor, is buried in old Salem cemetery. Beside the old brick buildings erected by the Moravians is the tavern occupied by Washington in 1781. The old woolen mill still in operation was built in 1758, and there is a most interesting museum replete with relics of Salem's past. Salem is the seat of Salem academy, the oldest female college in the south. The wife of "Stonewall" Jackson at one time attended this school.

 Straight thru and follow Route 676 (from mileage 34.8 to 97.0) balance of the way to
 86.1 62.2 CHARLOTTE, Tryon & Trade Sts.

*Lexington, N. C. (pop. 6,725, alt. 758 ft.), is ten miles from the famous Yadkin river ford, across which Gen. Greene made his memorable retreat from Camden, S. C., to Guilford Court House, N. C., where Gen. Davidson met his death. It is fifteen miles from the Daniel Boone cave, where the famous frontiersman

lived for several years and which is now being kept up as a public park. Lexington's principal industries are wood working plants and cotton mills, of which it has a large number. Davidson county, of which Lexington is the seat, is the center of the state and the banner wheat county of North Carolina.

| 54.2 | 0.2 | Statesville,* Broad & Center Sts. Straight thru on Broad St. |

*Farmington, N. C. (pop. 200). Lane starting at east side of old tavern leads to left (about $\frac{1}{4}$ mile) to "Great Meadows," site of Fort Necessity, where Washington surrendered his small Virginia forces to French and Indians (July 4, 1754). Tablet, marking site, records event.

*Mocksville, N. C. (pop. 1,100, alt. 651 ft.), formerly known as "Mock's Old Field," is the seat of Davie county. The county is about 20 miles square and was named in honor of General William R. Davie. This section was originally known as "The Forks of the Yadkin" and the county was cut off from Rowan in 1837. Mocksville has a \$35,000 courthouse

and several thriving manufacturing plants and modern cotton gins. About two miles out of Mocksville stands the farm on which Squire Boone, the father of Daniel Boone, once lived, in sight of the graveyard in which his remains and those of his wife now rest. A modest stone marks their burial place.

*Statesville, N. C. (pop. 8,000, alt. 926 ft.), 44 miles north of Charlotte, is in a rich tobacco and agricultural region, and one of the state experiment farms is located just outside the city limits. The Statesville female college, Statesville male academy, and Long's sanitarium are located here, and a large Presbyterian orphanage is maintained 6 miles out.

Route 685—Winston-Salem, N. C., to Roanoke, Va.— 122.2 m.

Reverse Route 790.

Via Kernersville, Madison, Mayodan, Stoneville, Martinsville and Rocky Mount. First 5 miles macadam, then graded and ungraded sand-clay to Martinsville; fine sand-clay to the county line. From there to Snyder'sville, 7.7 miles, the road is very poor ungraded clay; graded sand-clay to Rocky Mount, then alternating stretches of graded and ungraded clay, followed by a long ascent and descent over the mountain on stony road with sharp curves; last 3.7 miles pavement, cinders and dirt. Summary: 7.2 miles macadam and pavement; 37 miles good sand-clay; 46.5 miles fair sand-clay and graded dirt; 32 miles poor clay road, some stony and some bad mud holes. This is slated for improvement.

The road goes thru a good farming section, devoted principally to corn, tobacco and cotton raising to Martinsville, then thru a wooded farming section with a long ascent and descent over the mountain. This route should not be attempted during rainy or wet season as it crosses numerous fords.

Connection can be made at Martinsville for Danville, Va., over a good sand-clay road.

Hotel Roanoke, opp. station.

*Martinsville, Va. (pop. 5,000, alt. 934 ft.), county seat of Henry county, was founded in 1791. The renowned orator, Patrick Henry, also Gen. Joseph Martin, Gen. George Hairston and General J. E. B. Stuart lived here. Martin's home, which was erected in 1773, has just recently been torn down; the house occupied for eight years by Patrick Henry is no longer standing, but the fine old colonial

home of Col. Geo. Hairston still stands and is now in the possession of his great-great-grandson. While there were no great battles fought in this immediate vicinity, a skirmish took place here in April, 1865. Four miles north of Martinsville a new town is being built by Marshall Field & Co. of Chicago. This is known as Fieldale and will contain, when finished, large cotton mills and homes to cost upward of two million dollars.

Route 686—Greensboro, N. C., to Lynchburg, Va.—120.0 m.

Reverse Route 785.

Via Reidsville, Danville, Chatham, Greta and Altavista. First 9.2 miles macadam, then 15.6 miles sand-clay to Reidsville; 20 miles of fair graded clay, sand and dirt (bad when wet) to Danville; macadam and asphalt to Chatham; 11 miles fair sand-clay and 13.5 miles fair-to-poor clay and sandy dirt to Altavista; 7 miles gravel, 16.3 miles fair graded clay and dirt (bad when wet); balance (3.7 miles) asphalt and pavement. Fifty miles of this road is slippery and bad in wet weather. Most of it is slated for improvement this coming year and should be much better by 1920. Summary: 30 miles macadam and pavement; 28 miles good sand-clay and gravel; 11.4 miles fair sand-clay; 41.6 miles fair graded clay and dirt, some sand; 8.2 miles fair-to-poor clay and dirt, country road.

This is a section of the Central highway. Thru rolling and hilly country, farming and wooded. A good part of the road lies on top of a ridge, affording some good views of surrounding country and occasional glimpses of the Blue Ridge mountains in the distance. Farms are devoted principally to tobacco and grain. From Reidsville to Danville route follows the RR all the way.

At Chatham connection can be made with Route 687 to Roanoke.

*Reidsville, N. C. (pop. 7,000, alt. 822 ft.), in Rockingham county, 24 miles southwest of Danville, Va., lies in the center of the old tobacco belt and here may be seen many huge tobacco houses, among which is the "Lucky Strike" cigarette factory. A female seminary is located here and in the center of town is a confederate monument.

*Danville, Va. (pop. 30,000, alt. 413 ft.), is picturesquely located on the bluffs above the Dan river, and boasts of being the largest loose leaf and bright tobacco market in the world, as well as being the home of one of the largest cotton mills in the south. It also has much of historic interest. After the

evacuation of Richmond in 1865, President Jefferson Davis made Danville the last capital of the confederacy, and it was from this point that his last proclamation was issued. Many men of national repute have at one time or another lived here, among whom are Colonel T. S. Flournoy, Vincent A. Witcher, Major W. T. Sutherland and Andrew J. Montague, the latter being an ex-governor of Virginia. The childhood homes of Mrs. Charles Dana Gibson, Mrs. John Jacob Astor and Mrs. J. B. Cobb are also to be seen in Danville. Other attractive features are Ballou park, Tuscarora club and the golf and country clubs. A visit to either the cotton mills or tobacco plants will prove most interesting.

POINTS OF INTEREST, LYNCHBURG, VA.

Lynchburg (pop. 35,000, alt. 681 ft.), in Campbell county, is situated in a mountain pass formed by the James river, 100 miles in a direct line west of Richmond. The site is remarkably picturesque, rising steeply from the river and then breaking into numerous hills, whose terraced heights covered with trees form a beautiful setting for the handsome dwellings of the city. Prominent in the background are the Blue Ridge hills and the Peaks of Otter. The natural attractiveness of the town is enhanced by the beautifully kept grounds of the residences and by 90 acres of public land laid out in Miller park and Rivermont park.

The city is the seat of Randolph Macon woman's college (Methodist Episcopal South), of Virginia Christian college, a co-educational institution, and Sweetbrier college. Morgan college and Virginia seminary are both for the education of negroes. A movement has

recently been on foot to change the name of the Virginia Christian college. A feature of special interest is the Rivermont viaduct, 1,100 feet long and 140 ft. high. Appomattox court house is about 20 miles to the east, and the Natural Bridge is distance about an hour's ride.

Shoe manufacturing is the largest single industry of Lynchburg. Tobacco is shipped in large quantities, this city being the largest dark leaf tobacco market in the U. S. In the vicinity are vast fields of coal and iron ore and large quarries of granite.

The city was founded 1786 by John Lynch and incorporated 1823. Even at that early date it was a distributing center for towns farther up the river and for many towns and settlements south of the James. During the civil war it was a confederate base of supplies. On June 18, 1864, the federals under General Hunter made an attack on the city, but failed to capture it.

74.2 0.1 CLARKSVILLE, 4-corners at stores.

HOTELS—Hotel Grace.

Straight ahead is Route 697 to Richmond.

Right is Route 731 to Raleigh.

Raleigh Section

POINTS OF INTEREST, RALEIGH, N. C.

Raleigh (pop. 25,000, alt. 363 ft.), called the "City of Oaks," is the capital of the state. Its site, nearly the geographical center of the state and having an elevation of 363 feet, was selected by the state legislature in 1792 for the capital, and consisted of 1,000 acres of land purchased from Col. Joel Lane, whose house, built in 1760, is still standing on Boylan Ave. Previous to its purchase for the state capital the estate was known as "Wake Court." The town was named Raleigh in honor of Sir Walter Raleigh, the founder of the colony. During the spring of 1865 it was held by General Sherman.

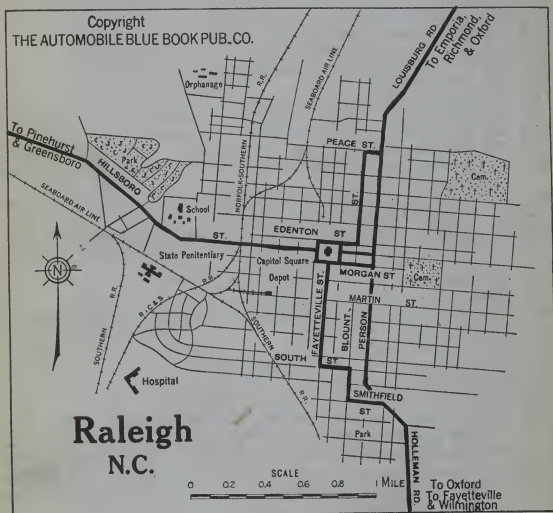

The center of the city is occupied by Union square, a beautiful park of 4 acres. In the center of Union square stands the capitol. The first capitol was burned in 1831, and the present structure, an imposing granite building in Greco-Roman style, was completed in 1840. Near by are the governor's mansion, the state library, supreme court building, the administration building, the museum and hall of history, the agricultural and engineering college, the department of agriculture building, and the Raney library.

As an educational center Raleigh is the seat

of Peace institute, a Presbyterian college for women; St. Mary's college, a Protestant Episcopal institution for women; Meredith college, a Baptist college for women; Shaw university, a Baptist institution for boys and girls, and St. Augustine's normal school, both co-educational institutions for Negroes. The State college of agriculture and engineering, opened 1889, has 33 beautiful buildings and accommodations for 800 students.

In parks the city has beside Union square, Bloomsbury park and Pullen park. In the latter, removed from its original location, has been placed the old cabin in which President Andrew Jackson was born. Among the handsome monuments in Union square is one to George Washington on the south side of the capitol. There are also statues of Z. B. Vance, twice governor of the state, and to Ensign Worth Bagley, a native of the city and the first United States officer killed in the Spanish-American war.

Raleigh is an important industrial center. Its manufactures include cotton goods, yarns, hosiery, underwear, boilers, structural iron, etc. It is also an important trade and shipping center.

- 53.6 5.8 Lemon Springs. Straight thru across RR. Cross RR 59.3.
- 59.5 5.9 Cameron, 4-corners. Turn right past P. O.

*Lockville, N. C. (pop. 100), is situated on the Deep river and derives its name from the fact that it was at the head of navigation via the lock system, devised early in the last century. The old canal may be seen after crossing the river, and also the old revolutionary mill and iron works. In the old canal is the hull of the steamer "George Lobbell," now covered with mud. On a hill nearby Lord Cornwallis had his headquarters at one time.

*Sanford, N. C. (pop. 2,300, alt. 359 ft.), is a prominent railroad center and has large manufacturing interests. Just before the civil war United States experts were sent to examine

the iron and coal in this section of the country and shortly thereafter the Cummock coal mine was established, but later abandoned. A railroad runs from the mines to Sanford. Down the river are ruins of large iron smelters, built by the Lobbell company of Wilmington, Del., some forty years ago.

*Jonesboro, N. C. (pop. 800, alt. 419 ft.), was the terminus of the railroad during the civil war. Confederate soldiers were here mustered and embarked. For years this was a great shipping point for tar, pitch and turpentine. Beyond Jonesboro lies the great sand belt of southern North Carolina with its several health resorts.

*Southern Pines, N. C. (pop. 550, alt. 400 ft.),
 is one of the oldest and most popular resorts
 in this section, having been established in 1886
 by John T. Patrick. It has several hotels and
 boarding houses and a fine golf course. It is
 located in the heart of the famous pine woods
 region of North Carolina and is noted for its

dry and health-giving climate. The chief in-
 dustrial interest in this vicinity lies in small
 fruits, and Southern Pines is the principal
 point in the state for these shipments.

*Rockingham, N. C. (pop. 2,100, alt. 174 ft.),
 is a busy little cotton milling town. In 1872
 it had but one mill with 2,000 spindles and in
 1911 had ten mills with 114,000 spindles.

Straight ahead is Route 691 to Pinehurst.

POINTS OF INTEREST, DURHAM, N. C.

Durham (pop. 33,000, alt. 406 ft.), the county seat of Durham county, is twenty-six miles northeast of Raleigh, capital of the state. It is in the heart of the Piedmont bright tobacco section and the largest granulated smoking tobacco factory in the world is located here, the famous "Bull Durham" branch of the American Tobacco company. Cigars and cigarettes are also manufactured, and the Golden Belt Manufacturing company, largest cotton bag mill in the world, makes here 2,000,000 assorted bags daily for tobacco and other purposes. The Durham hosiery mills—largest hosiery concern in the world—

has four of its nine mills in this town and there are two large cotton mills and bleacher-ies of the Erwin Cotton Mills company. The industrial weekly payroll is about \$75,000. The city is the seat of Trinity college (Methodist Episcopal South), and here also is the Southern conservatory of music and Watts hospital, one of the most liberally endowed and completely equipped institutions in the south. The largest negro life insurance company in the world, the North Carolina Mutual & Provident Association, is a Durham institution. It was near Durham that General Johnston with the confederate army surrendered to General Sherman, April 26, 1865.

POINTS OF INTEREST, PETERSBURG, VA.

Petersburg (pop. 37,000, alt. 74 ft.), is situated on the Appomattox river at the head of tidewater, 12 miles above the confluence of the Appomattox and James rivers. At Hopewell, with which it is connected, is located the gun cotton plant of the E. I. du Pont de Nemours & Co. From Petersburg is exported more manufactured tobacco than from all

other points in the United States. Petersburg is also the largest center for the manufacture of trunks and bags in the United States. It stands second as a peanut market.

During the revolution Petersburg was twice used as headquarters of British commanders. It was shelled by Lafayette while it was occupied by the British under Arnold, Phillips and

Cornwallis. It has been the scene of four famous banquets: the first to General Washington on his Southern tour in 1791; the second to General Lafayette on his American tour in 1824; the third to Aaron Burr on his way south in 1805; and the fourth to President Taft and his diplomatic corps in Washington in 1909.

The siege of Petersburg during the civil war is known as the longest and bloodiest in American history and is further distinguished by the explosion of the Burnside mine, the most spectacular event of this war. During this siege 12 battles were fought outside the breastworks, the most heroic being the battle of Carter, which resulted from the explosion of the Burnside mine under the confederate salient. The intrenchments of Petersburg, 35 miles in length, may still be seen practically intact. The crater itself, with its fortifications, has remained untouched since the transfer of the federal dead to the National cemetery, five miles away. The line of tunnel of Burnside men leading to the mine is clearly traceable; a bomb-proof that may still be entered remains intact, as does also the underground passage near Forts Mahone and Sedgwick.

Old Blandford, or Bristol Parish church, is an interesting spot to the tourist. In the revolution Baron Steuben here made his first stand in the defense of Petersburg against Phillips and Arnold. General Phillips is buried in the churchyard. In the church were held the Washington memorial service in 1799 and the Jefferson memorial service in 1826. Just outside the church is a cenotaph to John Daly Burke, author of the best known early history of Virginia, and in the distance is seen the hill where Burk fell in a duel. Nearby is the McRae monument in honor of the Petersburg volunteers of the war of 1812.

Opposite Petersburg lies historic Violet Heights, the home of the Shores and the first headquarters of General Lee during the siege of Petersburg. In the lowlands opposite the town is the suburb of Pocahontas, where stood for years "Pocahontas Basin," a great stone bowl, a relic of Indian occupation. It is now to be seen in Central park. Pocahontas bridge connects the suburb with the city. This bridge was torn up by Steuben

on his retreat before the British in 1781 and rebuilt by the English the next day and then burned after they had passed over it.

In Petersburg proper are many historic mansions. "Folly Castle," on Washington street, was built in 1763. "Stirling Castle," on High street, was also built by Peter Jones, the Second. The Benner-Shore mansion, corner of Adams and Marshall streets, was built more than a century ago and is an exact copy of the Shore home at Violet Bank. On Adams street stands the old Johnson-Wyatt mansion, where the body of Calhoun lay in state. Prison Hill mansion, on Tabb street, formerly stood in spacious grounds extending from the high school building on the north to the creek. The two stone pillars of the entrance gate may still be seen at the end of Marshall street. In the basement of the house are prison cells. It is supposed that the house was intended for a sheriff's residence over a prison. Beasley mansion, on High street, was the second headquarters of General Lee during the civil war. The Seward mansion, on Market street, was the scene of the last meeting of Lincoln and Grant before the surrender of General Lee. Centre Hill mansion still bears the marks of the civil war in a cannon hole in the north wall and bullet holes in the attic doors. This was General Hartsuff's headquarters.

Central park, formerly Poplar lawn, is the oldest of the Petersburg parks. Here, April 19, 1861, six companies were enlisted into the confederate army and left the next morning for Norfolk, where they captured the navy yard that night. West End park, formerly the fair grounds, was the encampment of the federal soldiers during the reconstruction period. Thirty thousand unknown confederate dead are buried in Memorial Hill.

Petersburg is the seat of the Southern college, the Virginia normal and collegiate institute, and the State central hospital for the insane. The Southern college is located on Sycamore street diagonally across from Central park. This school continued its sessions during the siege of the town. The bomb-proof shelter to which the students retired during the shelling is still shown, as are also the spot where the silver was buried in anticipation of the capture of the city, and the spot where the shell fell on the grounds.

*Goldsboro, N. C. (pop. 6,125, alt. 102 ft.), on the Neuse river, is the commercial center for an agricultural and cotton-growing region. The town is the seat of the Eastern insane asylum (colored) and a state normal school

for negroes. In the campaign of 1865 it was the junction point of the armies under Generals Sherman and Schofield, previous to the advance on Greensboro.

Wilmington (pop. 30,000, alt. 79 ft.), situated on the Cape Fear river, 10 miles from the Atlantic ocean. There is weekly steamboat connection with New York, Philadelphia and Baltimore, and with points on the Cape Fear and Black rivers. The federal government has deepened and improved the harbor and river channel until it accommodates vessels of the largest size. Wilmington is not only the chief port of the state, but it is an important commercial city. Cotton and lumber are the chief shipments. It exports one-fifth of the 2,500,000 bales of cotton produced in North and South Carolina. This section is also noted for its very large production of strawberries. Among the prominent buildings in Wilmington are the U. S. custom house, city hall, county court house, Murchison bank building, the Masonic Temple, the public library, the city and county hospital and the U. S. marine hospital. The general offices of the Atlantic Coast Line R. R. Co. are located

In the revolution Wilmington made the first open armed resistance to the stamp act, when in 1765 she refused to allow a British man-of-war to land a quantity of stamps. On July 18, 1775, Col. John Ashe, with the Colonial militia, captured Fort Johnson, at the mouth of the river, and forced the royal governor to leave. In 1780 Wilmington was captured by the British and Lord Cornwallis had his headquarters here during 1780, and 1781. During the civil war it was the most important port of the southern states, being the "gateway" of communication with European powers. The strongly fortified harbor was the chief resort of the blockade runners. The capture of Fort Fisher by the federals in January, 1865, was followed by the evacuation of the other forts and the surrender of Wilmington. Fort Caswell is located at the mouth of the Cape Fear river, 26 miles below Wilmington.

*Lumberton, N. C. (pop. 5,000, alt. 210 ft.), seat of Robeson county, is 25 miles from the site of the battle of Elizabethtown (1781). Robeson county was named in honor of the American commander in that battle. Many other minor revolutionary skirmishes took place in this vicinity also. A monument has been erected to the memory of the confederate soldiers. Lumber river, a picturesque stream noted for its "red breast" perch, attracts

many tourists who are fond of canoeing and fishing, especially during the fall and winter months. The surrounding country is devoted exclusively to agriculture—cotton, corn and tobacco being raised in great abundance. Cotton mills and tobacco warehouses are among the town's industrial features. Hon. A. W. McLean, director in U. S. war finance corporation and president of North Carolina Bar Association, is a resident of Lumberton.

*Rockingham, N. C. (pop. 2,100, alt. 174 ft.), is a busy little cotton milling town. In 1872 it had but one mill with 2,000 spindles and in 1911 had ten mills with 114,000 spindles.

*Fayetteville, N. C. (pop. 12,000, alt. 170 ft.), is located on the Cape Fear river at the head of navigation, 60 miles southwest of Raleigh, in a fertile agricultural district, and is a wholesale distributing point for fertilizers and trucking point for northern markets. Near the town is a large vineyard. It is the seat of the State colored normal school, and the

Donaldson-Davidson academy. The town was settled by Scotchmen in 1736 and laid out 1762 under the name of Campbellton. This name was changed to Fayetteville during the visit of Lafayette in 1784. In 1831 the town was almost completely destroyed by fire. During the civil war it contained a Union arsenal, which was seized in April, 1862, by Governor Ellis of North Carolina. In 1865 General Sherman occupied Fayetteville, destroyed the arsenal and laid waste the surrounding district. Camp Bragg is located 12 miles from Fayetteville.

 21.0 8.1 Fork; bear right. Avoid left-hand road 21.6. Thru small ford 22.6. Avoid left-hand diagonal road 22.7. Avoid right-hand diagonal road at wooden church on right 25.7. Thru irregular 4-corners 26.0. Thru 4-corners 28.2.

*Wilson, N. C. (pop. 12,000, alt. 138 ft.), the county seat of Wilson county, is located 49 miles from Raleigh. Railroads radiate in five different directions and it is the central distributing point for eastern North Carolina. It is in an agricultural district, cotton, corn and tobacco being its most important prod-

ucts; in fact, it is said to be the largest bright loose leaf tobacco market in the world. The Hackney Wagon Co., which is as large as any in the south, is located here, and other manufacturing establishments are cottonseed oil mills, cotton mills and tobacco factories. It is the seat of the Atlantic Christian college.

 77.2 38.9 RICHMOND, 9th & Broad Sts.

*Halifax, N. C. (pop. 325), is the county seat of Halifax county. The state capital was located here in the early days. Of particular interest to the visitor now is the old tumble-down home of John Paul Jones.

*Weldon, N. C. (pop. 3,000, alt. 81 ft.), is at the head of navigation on the Roanoke river.

This was the first northern terminus of the old Wilmington & Weldon railroad, which played such an important part in the civil war, having been the center of a territory which was the scene of several battles. This railroad was an important factor in the defense of Petersburg.

Richmond Section

POINTS OF INTEREST, RICHMOND, VA.

Richmond (pop. 163,000, alt. 164 ft.) is the capital and largest city of the state. Its industries are varied and important, iron and tobacco being among the leaders. The city possesses great natural beauty and is laid out on ground originally owned by the famous Indian chief Powhatan. It is often referred to as the "modern Rome," occupying, as it does, seven hills. The city was evacuated and partially destroyed by fire in 1865.

A summary of the points of interest is given below:

Bell Tower—Capitol square. Used during civil war to warn community of federal advances.

Capitol Building—(Capitol square). Modeled after Maison Carree at Nimes. Original building erected 1785, but remodeled 1905. Portraits and busts of many noted men.

City Hall—(Capitol square.) Built of Richmond granite, whose cost is estimated at \$1,500,000. Crowned by 180-ft. tower.

Clay, Henry, Memorial—Capitol square.

Confederate Memorial Institute, North Boulevard (street). Popularly known as the Battle Abbey of the confederacy, erected by contributions from all southern states, costing about \$150,000. Contains confederate relics and portraits of distinguished soldiers and statesmen. Its walls were frescoed by Mr. Hoffbauer, a distinguished French artist.

Confederate Museum—(Corner Twelfth and Clay Sts.) Old home of Jefferson Davis, and the so-called "White House of the Confeder-

acy."

Governor's Mansion—(Capitol square.) Erected 1815.

Hollywood Cemetery—(Albermarle and Cherry Sts.) Here lie buried some 15,000 confederate soldiers. Soldiers' and sailors' monument, together with tombs of Presidents Monroe, Tyler and Jefferson Davis, and Commodore Maury may be seen.

Jackson, "Stonewall," Monument—Capitol square.

Jefferson Park—Churchill Ave. and Marshall St.

Lee, Robert E., Monument—(Lee circle.) Finest equestrian statue in America.

Masonic Hall—(Nineteenth St.) Oldest building of its kind in the United States (1787).

National Cemetery—(Government Road.) Reserved for federal dead.

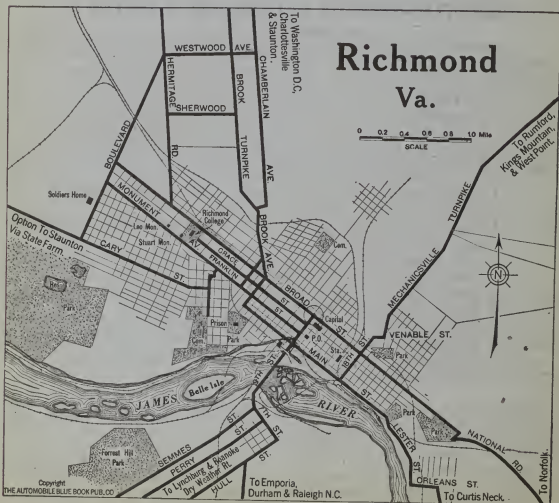

Oakwood Cemetery—(Oakwood Ave.) The resting place of 1,600 confederate soldiers.

Richmond College—(At Westhampton, suburb of Richmond.) Noted institution.

St. John's Church—(Corner of Twenty-fourth and Broad Sts.) Built 1740, is one of the most famous in America. Here was held the famous Virginia convention, the occasion of Patrick Henry's oration, in which he exclaimed "Give me Liberty or give me Death."

State Library—(Adjoining Capitol building.) Many historic documents on exhibition. Also picture gallery.

Tredeger Iron Works—(On Kanawha canal,

Route 731—Richmond, Va., to Raleigh, N. C.—184.6 m.

Reverse Route 697.

Via Petersburg, Dinwiddie, Clarksville, Franklinton, Oxford and Wake Forest. First 83 miles to South Hill gravel, except 10 miles of sand-clay south of Dinwiddie; sand-clay and dirt from there to Franklinton; gravel balance of the way to Raleigh. Thru rolling farming country devoted principally to cotton raising.

Tourists going south of Raleigh can save considerable distance by leaving this route at Oxford, going to Durham, then to Cary and on to Pinehurst. Route 732 offers a shorter option to Raleigh via Cannon's Ferry.

foot of South Second, Third and Fourth Sts.) It was the principal foundry of the confederacy, where cannon were cast for the southern forces.

Virginia Historical Museum—(707 East Franklin St.) Former home of Robert E. Lee.

Washington's Headquarters—(Corner of Twentieth and Main Sts.) Oldest building in the city (1737), and known as "Stone House."

Washington Monument—(Capitol square.) By Crawford, consisting of equestrian statue surrounded by figures of Patrick Henry, Thomas Jefferson, George Mason, Thomas

Nelson, Jr.; John Marshall and Andrew Lewis. Stands 60 feet high. Cost is estimated at \$260,000.

Washington's Statue—(Capitol rotunda.) By Jean Antoine Houdon. It is considered the most faithful reproduction of the "Father of Our Country."

Belle Isle—(Connected by bridge with Richmond.) The site of the Old Dominion Iron & Steel corporation, where a number of federal prisoners were confined during the civil war.

Where to Stop and What to See in

WASHINGTON

A special insert
devoted to points
of interest and
announcements of
first class hotels

*As the Mohammedan
yearns for that coveted
journey to Mecca, so
all true and patriotic
Americans possess an in-
herent desire to visit
their National Capital—
the beautiful Washing-
ton. Here in this noble
workhouse of democ-
racy, conceived by the
genius of L'Enfant, and
chiseled in marble and
granite by the world's
greatest architects, the
tourist will not only gain
a glimpse of the wheels
of government but will
behold a city resplendent
with magnificent build-
ings, networked with
broad boulevards and
parkways, and shaded by
majestic old trees—a fit-
ting monument, indeed,
to a mighty nation.*

THE NEW WILLARD

WASHINGTON'S LEADING HOTEL

The Capitol of the United States

Route Center—A point between the Executive Mansion and Lafayette Square has been chosen as the starting point for all routes in this section, although Washington was originally laid out by L'Enfant with the Capitol as the focal center.

The City in General—The present population of the city is in the neighborhood of 350,000; of this figure, about 250,000 are white, and the remaining 100,000 colored. Washington is divided into four sections called N. E., N. W., S. E. and S. W., respectively, but the principal residence and business section, with nine-tenths of the points of interest, occupies the **N. W. Quarter**. The width of the avenues is from 120 to 160 feet, and the width of the streets from 80 to 120 feet. The principal business streets are Pennsylvania Avenue, F, 7th, 9th and 14th Streets. Pennsylvania Avenue connects the Capitol with the White House, and is perhaps the most important street in the city; unfortunately, however, the lower part of it is still occupied to a certain extent by a cheaper class of hotels and stores. These, however, must eventually disappear, and then Pennsylvania Avenue will take its rank as one of the finest thoroughfares in the world. Chief among the many handsome residence streets are Massachusetts, Connecticut, New Hampshire and Vermont Avenues.

Points of Interest.—The main attractions of Washington are always its splendid public buildings, and the map on pages 772 and 773 should prove very valuable in making a sight-seeing trip around the city. A brief summary of the more important buildings, together with their location and visiting hours, is given on page 771. Competent guides can be found, who can give you the latest information. (See last page of this insert.)

For location of hotels see map, pages 768 and 769.

Arlington, the former home of Gen. Robert E. Lee, was built by George Washington Parke Custis, grandson of Martha Washington and father of Mrs. Robert E. Lee, in 1802.

On the Virginia side, across the Potomac, the imposing towers of the Arlington Naval Radio Station pierce the horizon. This is considered the most powerful wireless plant in the world.

Department of Agriculture (8)—The year 1862 marked the greatest event in American agriculture, when the Federal Department of Agriculture was organized. Since then this department has had a more rapid growth than any other governmental branch. It includes the Weather Bureau, Departments of Public Roads, Markets, Plant Industry, Soil Survey, Animal Industry, Forest Service and the Bureaus of Chemistry and Entomology.

SHOREHAM HOTEL

H STREET NORTHWEST AT FIFTEENTH

Washington

Washington's Most Exclusive
Hotel

European Plan Fireproof

Beautifully located in the center of the most fashionable part of the city, in the heart of the financial district, only one block from the Treasury and White House grounds and convenient to all points of interest.

Noted for its cuisine and perfection of individual service.

Alexandria, on the Virginia side of the Potomac, has much of historical interest for the tourist. **Georgetown**, now West Washington, is the site of **Georgetown University**.

Other points well worth a visit are **Rock Creek Park** and **Chevy Chase**. At **Chevy Chase** are located the famous **Chevy Chase Club** and the **Columbia Country Club**.

Memorial Continental Hall (55), erected by the National Society, Daughters of the American Revolution, is an exquisite example of Colonial architecture. The beautiful south portico is unique by reason of the thirteen solid marble columns, a gift from the States forming the Original Thirteen Colonies.

The famous **Corcoran Art Gallery** (57) was founded and endowed by the late William W. Corcoran in 1869, a gift to the people. Below the elaborately carved cornice runs a frieze bearing the names of eleven famous sculptors and painters.

Bureau of Engraving and Printing (10)—An important adjunct to and under the direction of, the Treasury, is the Bureau of Engraving and Printing. The new building, just completed, is the finest workshop in the world.

The old **Ford's Theater** (65) is the place where Lincoln was assassinated on April 14, 1865. Now owned by the Government.

The **Fort Myer Reservation** (15), contains much of interest.

Two landmarks seen upon the hills surrounding Washington are the **Lee Mansion**, at **Arlington, Va.**, on the west, and the **Soldiers' Home** (27) to the north.

Library of Congress (85)—The best example of exclusive American art in Washington is the Library of Congress, situated just east of the Capitol. Built primarily for Congressmen, this great storehouse of valuable books and works of art is used more freely by the people than almost any other library in the world. Its interior is the most inspiring and marvelous combination of gold, silver, rare marbles and mosaic on so gigantic a scale as is to be found in America.

The Lincoln Memorial (11) now under construction in Potomac Park, will probably be completed this year. Its construction is of Colorado white Yule marble and is to cost \$2,000,000. Its height will be 123 feet from the Park level, the length 204 feet and depth 134 feet. The Central Hall will be 60 feet high, 70 feet long, and 60 feet wide, and will contain a large statue of the martyred President.

The Patent Office (66) a very important branch under the Interior Department, is one of the oldest government buildings in **Washington**. Its Doric architecture gives it a strong yet simple appearance.

The Pan-American Building (56) is considered by many the most beautiful in America. Its wonderful glass-covered court, 60 feet square, the sunken gardens, beautiful statuary and artistic grounds are the admiration of every one. The building is conducted by the twenty-one Republics of North, South and Central America for the promotion of Pan-American commerce and friendship.

The Pension Office (75) is reputed to be the largest brick building under one roof. A distinctive feature is the terra-cotta frieze encircling the building above the first story window, portraying a spirited procession of soldiers, infantry, cavalry and artillery.

The new Washington City Post Office (78), adjoining Union Station, is the most recent addition to **Washington's** beautiful buildings.

Senate (82) and House (86) Office Buildings—To the southeast of the House of Congress, about one block distant, is the beautiful new office building for Representatives; and in a corresponding position, to the northeast of the Senate, and connected with it by a subway, is an office building of like design for Senators.

The origin of the **Smithsonian Institution** (7) was as strange as it has been beneficent. The donor, an Englishman, with the assumed name of Smithson, bequeathed his fortune of over \$500,000 "for the establishment of an institution in Washington for the diffusion of knowledge among men." The new and old National Museum and the Zoological Park come under its jurisdiction.

The National Capitol (1)—This beautiful structure, which covers nearly four acres, fronts east and stands on a plateau 88 feet above the level of the Potomac. The great cast-iron dome (from which a magnificent view may be obtained), weighing 4500 tons and costing \$1,000,000, required eight years in its construction. To the north, nearest the Union Station, is the Senate wing of the Capitol. The Senate Chamber is located in the center of the building. The President's Room, that of the Vice-President, and the Marble Room are opposite the corridor from the Senate Chamber. These sumptuously

For location of hotels see map, pages 768 and 769.

Key Map of Numbers showing their natural arrangement

furnished and magnificently finished rooms defy description. Connected with the new Senate wing by a corridor is the old Senate Chamber, now used by the Supreme Court. To the south is the great awe-inspiring Rotunda, 300 feet in circumference and over 180 feet in height, adorned with marvelous life-size paintings and beautiful statuary. Passing through another corridor, we come to the old House of Representatives, now the Hall of Statuary. In this Hall each State may contribute bronze or marble statues of two of her most illustrious soldiers or statesmen. The south wing of the Capitol, adjoining Statuary Hall, is entirely occupied by the House of Representatives, the luxurious Speaker's Room, and many committee rooms.

The Soldiers' Home (27), a beautiful stretch of rolling country, comprising 512 acres, consists of five dormitories with every modern convenience, a hospital, chapel, library and various other buildings.

The immense granite **State, War and Navy Building (52)** covers $4\frac{1}{2}$ acres and contains 500 rooms, with two miles of marble corridors. It was completed in 1893 at a cost of \$11,000,000. A beautiful new building on New York Avenue for the Navy and several others for the War Department are also occupied. The Department of State guards the original Declaration of Independence and the Constitution of the United States in its fireproof vaults. The sword of Washington, a staff belonging to Franklin, the original Great Seal of the United States, and many other relics, are on exhibit.

The Treasury Building (61)—This splendid structure, just east of the White House, is in every way the most substantially built of public buildings. It is 450 feet long, 250 feet wide, and was completed in 1867, at a cost of \$7,000,000.

THE TREASURY BUILDING, WASHINGTON, D. C. © Brown Bros.

For location of hotels see map, pages 768 and 769.

THE NEW GENERAL POSTOFFICE

Another distinctive Washington building is the new railway terminal, **Union Station** (80), in front of which is the splendid Columbus Memorial Fountain. The station affords a most fitting and dignified entrance to the National Capital.

The **U. S. Post Office Department** (64), however, is housed in an imposing building at Pennsylvania Avenue and 11th Street. Here is also located the Dead-Letter Museum, which is well worth a visit.

THE WHITE HOUSE, WASHINGTON, D. C.

© Brown Bros.

For location of hotels see map, pages 768 and 769.

The **Washington Monument** (9) is an imposing mass of white marble rising from an elevation on the Mall near the Potomac. It was begun in 1848, and dedicated on Washington's birthday, 1885. Its height from the entrance floor to its very tip is 555½ feet. No visitor to Washington should fail to make the ascent, for no finer view of the beautiful city, the surrounding hills and the winding Potomac can be had than from the observation point, at a height of 504 feet.

The **White House or Executive Mansion** (58)—The home of the President is a beautiful and dignified white building of Virginia free-stone, two stories high. George Washington was present at the laying of the cornerstone in 1792, and this was the first public building erected in the city. John Adams, our second president, was its first occupant (1800). In 1814 the British set fire to the building. Upon completion of repairs, it was painted white to cover up the ravages of the fire, and the building now receives an annual "whitewashing," as the papers have it.

The **Zoological Park** (22), located in Rock Creek Valley, comprises 167 acres of picturesque country. It contains about 1400 animals from all parts of the world.

Guides to Washington

Guides—The attractions of Washington are so manifold that lack of space forbids us to describe adequately the many points of interest in and around the city. For more detailed information and service the reader is referred to the "Ask Mr. Foster" Information Bureau, Washington Guide, to Rand McNally's Washington Guide and to the Washington Standard Guide. The handbooks referred to cost twenty-five cents each.

Additional literature on Washington and a city map may be procured gratis at the Washington Chamber of Commerce, 611 Twelfth St.

General Historic and Descriptive Outline.

(For location and detailed description of the various public buildings, monuments, etc., see pages 761-776.)

POINTS OF INTEREST. WASHINGTON, D. C.

Washington (pop. 400,000, alt. 8 ft.), the capital of the United States, is located in the District of Columbia, with which it is coterminous, and on left bank of the Potomac river at the head of the tidewater and of navigation. The site of the city is beautiful and picturesque. The Potomac is here a mile wide, and is joined at this point by two tributaries, the Anacostia or eastern branch, and Rock creek. The land along the river is low, but gradually rises to an elevation of 100 feet in the parts of the city more remote from the river. Here it is encircled by hills forming the edge of a plateau 300-420 feet high. The plan of the city was made in anticipation of a great metropolis and was drawn in 1791 by Pierre Charles L'Enfant, a French engineer who served in the revolutionary war. The design was made under the direction and in execution of the general idea of President Washington, and is universally conceded to be the most perfect and most artistic city scheme ever carried out.

The city is laid out with the Capitol for a center and with rectangularly disposed streets running east and west and north and south and intersected by 21 beautiful avenues radiating diagonally from the Capitol and of great width and named for the states of the Union. The streets running east and west are named from the letters of the alphabet and those running north and south are numbered. The avenues form at the intersection with the rectangular streets 302 open "circles" in which beautiful monuments have been erected to men famed in the annals of the nation. The streets are from 70-160 feet wide, paved with asphalt, and lined with trees and bordered by cement walks. The most famous of the avenues is Pennsylvania Ave., running from Anacostia river on the eastern boundary of the city to Rock creek on the western boundary. Its main portion connects the Capitol with the Treasury Building and this with the White House. Other prominent avenues are Massachusetts Ave., parallel to Pennsylvania Ave., and Connecticut Ave. crossing both. These with K and Sixteenth Sts. are the finest residential section. The most important business thoroughfare is F St. N. W. and F and G Sts. from Seventh to Fifteenth are the chief retail trade centers.

South of Pennsylvania Ave. is the Mall, a park extending from the Capitol grounds west to the river. Aside from the Mall the original plans for the city made no provision for parks other than the little circles or parks at street intersections. In pursuance of the original plan this system of little parks is to remain a feature of the city, but Potomac park, a domain of 739 acres reclaimed from the Potomac, has been added. It is practically a continuation of the Mall and will afford

fine river drives. Zoological and Rock Creek parks are also large public reservations.

The neoclassic style of the principal government buildings has influenced the architectural character of the city. At the time it was founded there was a revival of Roman architecture and this was later modified by a Greek revival. All the earlier and some of the later public buildings have been erected in one or the other of these two styles or in a blending of the two. As a result the whole city has an air of dignified splendor not found in any other of modern times.

Among the residences erected in Washington by wealthy Americans are those of the Leiter, Townsend, Walsh, Hay, Warder, Anderson, Boardman, Page and Patterson families. Noted clubs which have homes of their own are the Cosmos, the Metropolitan, the Army and Navy, the University, the Washington (for women), the Country, and the Chevy Chase. The Gridiron club is a dining club of newspaper men which has acquired national reputation.

The educational institutions are numerous and include George Washington university, Georgetown university, Carnegie Institution of Washington, Catholic University of America, Howard University for Negroes, and the Columbian Institution for the deaf and dumb. Among the more prominent charitable institutions are St. Elizabeth's hospital for the insane, the Providence, Garfield, Children's, Emergency, and Episcopal eye, ear and throat hospitals, and the Louise home for gentlewomen without means. The American Red Cross has its headquarters in Washington. The leading theaters are the Columbia, the National and the Belasco.

For a number of years after the revolution the United States had no permanent capital. At last a compromise was effected, largely in deference to Washington's judgment, and the Potomac country was selected, Virginia and Maryland each ceding a tract to the federal government. Congress authorized Washington to select the site and mark the boundaries. This he did in 1791 and L'Enfant was called upon to draw a plan, in accordance with which Andrew Ellicott laid out the city. In 1791 the name Columbia was adopted for the district and Washington for the city. The district was originally 10 miles square, but in 1846 the Virginia area was ceded back to that state, leaving the actual area of the district 70 square miles at the present time. According to agreement the land for streets and avenues was given to the United States by the proprietors, but the land laid out in lots was divided equally between the government and the proprietors, and certain other portions were purchased at a nominal price by the government. A part of the money for

the erection of public buildings was obtained by the sale of the lots thus acquired. Washington foresaw the need of a great national capital, and the plans were drawn on such a large scale that during the early years the contrast between the size of the actual and the proposed city was such that Washington was derisively called the "City of Magnificent Distances," the "City of Streets Without Houses," and the "Wilderness City," and the "Capital of Miserable Huts."

In 1800 the north or cornerstone section of the Capitol being finished, the archives were transferred from Philadelphia, and congress held its first session here in November, 1800. One who visited the city at this time wrote: "The Capitol is on an eminence near the center of the immense country called here the city. There is one good tavern and several other houses are finished or being built." To-day the city covers the entire 70 square miles of the district.

In 1814 an English force under General Ross and Admiral Cockburn defeated the Americans at Bladenburg and advanced upon Washington and burned the Capitol, the white house and other public buildings. At the beginning of the civil war Washington was fortified with a circle of 68 forts, 93 batteries, 401 emplacements, and 20 miles of infantry trenches. These works, with the exception of Fort Myer on Arlington Heights, have not been used since the civil war. During that struggle the city was repeatedly threatened by the confederate forces, who at one time were only 30 miles away. It was the largest supply depot of the federals, and the largest base hospital, the churches, public buildings and at times even the Capitol itself being given up to hospital use. On May 23 and 24, 1865, President Andrew H. Johnson reviewed the federal veterans of the civil war in Washington. This was the greatest military pageant ever witnessed in America.

In 1871 began what is known as the "Renaissance of Washington." Vast municipal improvements were carried out under the leadership of Alexander R. Shepherd, Governor of the District. This reconstruction of the city was accompanied by such extravagance and waste and the territorial debt was so increased that in 1874 congress changed the form of the government of the city. It is now administered by a board of three commissioners, two of whom are from civil life and the third from the engineer corps of the United States army. The citizens are without the right of suffrage in local or national affairs.

At the close of the Spanish-American war a review of the returned soldiers was held in Washington, and in 1900 the centennial of the location of the national capital here was observed with appropriate ceremonies.

Among the numerous side trips from Washington no tourist should omit Mount Vernon, the home of Washington, 15 miles below the city, or Arlington, the beautiful national cemetery on the Virginia shore overlooking the city, and Fort Myer, as well as the beautiful soldiers' home.

Fort Washington, Fort Hunt, the Marine training camp, at Quantico, Va., the officers reserve corps camp at Belvoir, Va., and Camp Meade at Admiral, Md., all very active during the late world war, offer interesting side trips, ranging in distance from fifteen to forty miles from Washington.

On account of the many war workers gathered in Washington from all parts of the country, to help Uncle Sam in the transaction of government business, accommodations were for a time difficult to obtain and Washington was much overcrowded. Since the signing of the armistice, however, these conditions have been materially relieved.

For detailed description of various public buildings, etc., see pages 761-776.

*Danville, Va. (pop. 30,000, alt. 413 ft.), is picturesquely located on the bluffs above the Dan river, and boasts of being the largest loose leaf and bright tobacco market in the world, as well as being the home of one of the largest cotton mills in the south. It also has much of historic interest. After the evacuation of Richmond in 1865, President Jefferson Davis made Danville the last capital of the confederacy, and it was from this point that his last proclamation was issued. Many men of national repute have at one time or

another lived here, among whom are Colonel T. S. Flournoy, Vincent A. Witcher, Major W. T. Sutherlin and Andrew J. Montague, the latter being an ex-governor of Virginia. The childhood homes of Mrs. Charles Dana Gibson, Mrs. John Jacob Astor and Mrs. J. B. Cobb are also to be seen in Danville. Other attractive features are Ballou park, Tuscarora club and the golf and country clubs. A visit to either the cotton mills or tobacco plants will prove most interesting.

- 19.0 0.6 4-corners, just beyond wooden school, turn left. Cross RR 27.7.
- 27.8 8.8 Bedford City,* 4-corners, bank on right. Turn right.

*Appomattox, or Appomattox Courthouse, Va. (pop. 400, alt. 825 ft.), is the point where General Lee surrendered his army to General Grant, April 9th, 1865, and virtually terminated the civil war. An agricultural school and a government experiment station are located here.

*Bedford City, Va. (pop. 2,325, alt. 900 ft.), formerly known as Liberty, is the seat of

Bedford county. While actually about ten miles from the Peaks of Otter, the town appears to nestle right at their feet. Bedford City is well known for its many beautiful homes and magnificent shade trees. It has become a popular summer resort for those who wish to enjoy an unsurpassed view of the mountains.

*Spotsylvania, Va. (pop. 150), is a village on Po river. Its importance lies in its historic interest. Here during the civil war was fought the series of engagements around Spotsylvania Court House from May 8 to May 21, 1864, between the army of the Potomac, commanded by General Meade but directed by General Grant, and the army of Northern Virginia under General Lee. The

total federal strength was 118,000, while that of the confederates was 61,000. The total federal loss in the series of battles was 8,499. The amount of the confederate loss is not known. The contest was one of the bloodiest of the whole war. Numerous monuments and markers have been erected designating various positions of both the confederate and federal armies.

*Fredericksburg, Va. (pop. 6,500, alt. 42 ft.), Spotsylvania county, is situated on south bank of the Rappahannock river at the head of tidewater. Several bridges cross the river, and just above the city a dam 900 ft. long and 18 ft. high affords valuable water power for the industries, which include manufactures of flour, silk, woolen goods, iron, paper and agricultural implements.

The city possesses two public libraries, and the famous Stonewall (confederate) and National cemeteries, the latter having 15,300 graves. Here also may be seen the homes of Washington and of Paul Jones, the revolutionary naval hero. A monument has been erected to George Washington's mother, who died in Fredericksburg in 1789. There is also a monument to General Hugh Mercer, distinguished colonial officer, who was severely wounded in Braddock's attack on Fort Duquesne, who afterward fought in the revolution and was mortally wounded at the battle of Princeton.

Fredericksburg first appears in history as the scene of Capt. John Smith's battle with the Rappahannock Indians in 1608. At what time the first settlement was made at Fredericksburg is unknown, but it must have been at a very early date. It was the home not only of Washington and General Mercer, but also of other revolutionary officers. During the civil war Fredericksburg changed hands several times and was the scene of several battles, the one fought Dec. 13, 1862, known as the battle of Fredericksburg, being one of the most sanguinary of the war. In this battle the federal troops under Burnside, assisted by Hooker, Franklin, Meade, Gibbon, Doubleday and Sumner, and numbering about 116,000, attacked the confederate army of Northern Virginia, numbering 78,000, and commanded by General Lee, assisted by Generals Longstreet and Jackson. The federals were defeated with a loss of 12,653. The confederate loss was 5,377.

- 106.7 0.1 **Occoquan,*** 4-corners. Turn right with travel. Caution for square left turn 106.8, and left and right turns beyond, across long iron bridge. Caution for narrow road with bad turns. Pass Penal Institute on right and left 107.4.
- 108.1 1.4 4-corners; turn right.
Straight ahead leads to Manassas.
Avoid right-hand road 108.2, using caution for curve on downgrade beyond.

- 124.2 0.1 Left-hand road; turn left onto Alfred St. Cross RR 124.3.
- 124.6 0.4 **Alexandria, Va.,*** Alfred & King Sts. Meeting trolley, turn left onto King St. Under RR 125.2.
- 125.3 0.7 4-corners, sta. on left; turn square right. Avoid left-hand diagonal road 126.3. Go under RR 127.6.
Washington City Map, page 768; Points of Interest, pages 761-778.
- 130.0 4.7 End of road beyond RR, turn right. Under RR 130.5. Join trolley from right 131.1. Cross long iron bridge 131.2 over Potomac River, following trolley direct, and coming onto

***Occoquan, Va.** (pop. 246). The District of Columbia house of correction and model farm are located here.

***Accotink, Va.** (pop. 250). Pohick church, where Washington worshipped, is located here.

***Alexandria, Va.** (pop. 15,350, alt. 38 ft.), is located on the right bank of the Potomac river 6 miles below Washington, with which it is connected by ferry and electric lines. The Alexandria is 100 miles from the mouth of the Potomac, the stream is here a mile wide and forms a harbor sufficiently deep for the largest vessels. The city has a pretty site on undulating ground and a fine view of the capitol at Washington. It was the headquarters of Braddock prior to his ill-fated expedition against the French in 1755. Here the governors of New York, Maryland, Pennsylvania and Virginia met to form plans for the expedition. Masonic Lodge, in which they held their meeting, is still one of the prominent buildings of the city. During the war of 1812 the inhabitants, terrified by the approach of the British fleet, secured immunity from attack by payment of \$100,000.

Among the features of special interest in the city is Old Christ church, of which Washington was one of the first vestrymen. His pew and also that of General Lee are always of interest to visitors. The Marshall house, where Ellsworth was killed, is still standing. Ellsworth, a young federal colonel, was ordered to Alexandria. There he saw a con-

federate flag floating over a hotel. He ascended up to the roof and removed the flag, whereupon Jackson, the proprietor of the hotel, shot him dead. Jackson in turn was instantly killed by one of Ellsworth's officers. Another point of interest is the confederate monument entitled "Appomattox." It was at Appomattox that General Lee surrendered his army to General Grant.

Fine views of Lee's old home, now the beautiful Arlington cemetery, where have been laid to rest so many thousands of our national heroes, can be had from the Virginia end of the bridge spanning the Potomac, where formerly stood the old historic Long Bridge, over which passed the brave "Army of the Potomac." Fort Wadsworth and Fort Runyan, both used in the civil war, and Forts Myer, Hunt and Washington, now used, are other interesting points. Upon entering the city from the south one may see to the east a national cemetery and to the west the earthworks standing in defense of our national capital.

At a large shipyard here President Wilson recently drove the first rivet in the keel of the first ship and Mrs. Wilson christened it "Gunston Hall" after the name of the home of George Mason, author of the "bill of rights." This shipyard is built on the location of the southern marker of the original lines of the District of Columbia, placed by George Mason.

*Spotsylvania, Va. (pop. 150), is a village on Po river. Its importance lies in its historic interest. Here during the civil war was fought the series of engagements around Spotsylvania Court House from May 8 to May 21, 1864, between the army of the Potomac, commanded by General Meade but directed by General Grant, and the army of Northern Virginia under General Lee. The total federal strength was 118,000, while that of the confederates was 61,000. The total federal loss in the series of battles was 8,499. The amount of the confederate loss is not known. The contest was one of the bloodiest of the whole war. Numerous monuments and markers

have been erected designating various positions of both the confederate and federal armies.

*Ashland, Va. (pop. 1,147, alt. 220 ft.), is a favorite resort with the inhabitants of Richmond. It is 17 miles northwest of that city by rail. It is the seat of Randolph Macon college, a Methodist Episcopal institution having the oldest charter of its kind in the U. S. Within seven miles of the town is the birthplace of Henry Clay and the Hanover courthouse, where Patrick Henry made his famous speech. Ashland was the scene of several battles during the civil war.

Route 747—Richmond to Norfolk, Va.—95.1 m.**Reverse Route 748.**

Via Williamsburg and Newport News. First 3 miles asphalt and macadam, then 11 miles gravel; balance practically all rough sandy dirt and clay. The road below Williamsburg is impassable in wet weather.

(MILEAGE—

*Virginia Beach, Va. (pop. 1,000, alt. sea level), located five miles south of the mouth of Chesapeake bay, is one of the most popular and delightful of the south Atlantic summer and health resorts. It is connected with Norfolk by electric train, about an hour's ride. The country about Virginia Beach is very beautiful. A little ways back are the pine forests and still further back are the picturesque Linkhorn and Broad bays, while a mile or so further west is Lynhaven bay, the home of the famous Lynhaven oyster. Much fishing is done at Virginia Beach and many carloads of the finest varieties are shipped from this point daily. An annual event which attracts many people from all parts of the south is the Virginia Baptist summer encampment, which is held here. The Casino building at the beach is

one of the largest amusement places in the south. It fronts directly on the ocean. The bath house run in connection with it accommodates upwards of 1,000 bathers.

Cape Henry is located five miles north of Virginia Beach. The famous old light house at this point was built in 1690 and used about 200 years, when it was superseded by a new structure. The old lighthouse is still in a state of good preservation and is of much historic interest. The federal government contemplates spending about nine million dollars on its fortifications at Cape Henry, making it the largest and strongest in America.

The state and federal rifle range and military encampment grounds lie about one mile south of Virginia Beach. Several thousand troops encamp and are trained here in target practice every year.

***Suffolk**, Va. (pop. 13,000, alt. 50 ft.), is an important railroad center and one of the largest peanut-cleaning markets in the state. It is located on the Nansemond river, 18 miles southwest of Norfolk, with which it is connected by steamer, and one mile from the Great Dismal Swamp. During the civil war it was the center of constant operations be-

cause it was not only the outpost of Portsmouth, but the key to the James river, to Petersburg and Richmond and to the region bordering on Nansemond and the Dismal Swamp. At a point about 16 miles north of Suffolk is St. Luke's Episcopal church, known as Old Benn's church—said to be the oldest house of worship standing in America today.

POINTS OF INTEREST, NORFOLK, VA.

Norfolk (pop. 107,642, alt. 12 ft.), is situated on the Elizabeth river, where it joins the Nansemond and James rivers, forming America's greatest harbor, Hampton Roads. The inland water communication is further increased by the government's inland waterway, the Albemarle and Chesapeake canal and the Dismal Swamp canal. The harbor is the most important and commodious on the Atlantic coast. The channel is 35 feet deep, with appropriations already made for the purpose of dredging the channel to a depth of 40 feet. Approximately 26 steamship lines enter this port regularly. The harbor is well fortified, the most conspicuous defense being Fort Wool and Fort Monroe, while Fort Storey, located at Cape Henry, is now under construction, and when completed will be the "Gibraltar" of the Atlantic coast.

The Lambert's Point terminal of the Norfolk & Western railway is one of the largest coal and general cargo stations in the world; it comprises three coal piers, one open pier and five merchandise piers. The coal-dumping piers have a maximum capacity of 120 tons of coal per minute. The Virginia railway ranks second as a coal-carrying line and has at Lambert's Point coal piers with a dumping capacity of 75 tons per minute.

"Norfolk Towne" was founded 1682 and

named for the old English town and county. In the revolution it was the scene of a battle between the British under Lord Dunmore, then governor of Virginia, and the Virginia sharpshooters, Dec. 9, 1775, resulting in the withdrawal of the Virginians after they had inflicted a loss of 67 men on the British. Some weeks later Lord Dunmore bombarded the place with red-hot shot, setting fire to it and burning nine-tenths of the buildings. It was rebuilt and in 1845 incorporated as a city. In 1855 it suffered severely from yellow fever, after which a modern system of sanitation and patrol was established which has made Norfolk one of the healthiest cities on the Atlantic coast. During the civil war General Taliaferro entered the city with a large body of Virginia troops, whereupon the federal authorities fired the navy yard, but not much damage was done. The confederates held the city and it was their naval headquarters until retaken by federal forces in May, 1862. In this same year the celebrated battle between the world's first two ironclads, the "Monitor" and the "Merrimac," took place in Hampton Roads, opposite Norfolk. It was from Hampton Roads, also, that the American fleet, after being reviewed by President Roosevelt, started on its famous trip around the world, in December, 1907.

The Hampton Roads naval operating base is located on Hampton Roads, at Sewalls Point, about 9 miles north of Norfolk. This base, of which the Training Station is a part, comprises 430 acres of land and about 300 more which has been filled in. It is on the site of the Jamestown exposition of 1907, and is located at the entrance to Hampton Roads, directly across from the world-famous Fortress Monroe. The site of the Monitor-Merrimac battle of the civil war—the first battle between ironclads—lies directly off the waterfront of the base.

The Operating Base comprises six different activities, viz.: The Training Station where recruits are received, and given their preliminary training for the navy; the Receiving Ship, or the reservoir to which trained men are sent, and from which they are drawn by the fleet; the Base Hospital, which takes care of men who have been wounded, or become sick while in the navy; the Air Station, the base for hydroplanes, dirigibles, etc.; the Submarine Base, which takes care of the submarines appointed to guard the central portion of the Atlantic coast; and the Supply Base, which will furnish anything a battleship, or a fleet needs, from a needle to an anchor, a bottle of watch oil to a hundred thousand tons of coal. At this point are located immense government piers which took care of overseas ordnance loading during the war and now used as a port of debarkation for troops.

The Training Station comprises most of the actual land on the Operating Base, and

has accommodations for fourteen thousand men. There is an addition to the Training Station, known as East Camp, which is able to accommodate another fourteen thousand men, although it is vacant at present. Dress parades are held at 10 o'clock every Saturday morning at the Training Station, and the Operating Base is open to visitors all day Saturday and Sunday.

The Naval Operating Base can be reached by a well paved road from Norfolk, the distance being about nine miles. A ferry connects with Newport News, and the ferry boat lands within a few blocks of the main entrance to the base. The Army Supply Base is about five miles north of Norfolk on the road to the Naval Operating Base. East Camp is reached by a concrete road leading off from the road between Norfolk and Ocean View.

Both Operating Base and the East Camp are well worth a visit and inspection by any one, as they show how carefully and thoroughly the Government provides for the training and comfort of men of the navy.

St. Paul's church is of historic interest. It was erected in 1737, was struck during the British bombardment of 1775, and still bears imbedded in its walls a shell fired from the British fleet. The city has many beautiful parks and is the seat of a Protestant Episcopal bishopric. Near by are the well-known summer resorts of Old Point Comfort, Pine Beach, Ocean View, Willoughby Beach and Virginia Beach.

POINTS OF INTEREST, PORTSMOUTH, VA.

Portsmouth (pop. 40,000, alt. 12 ft.) is situated on the Elizabeth river opposite Norfolk, with which it is connected by ferry and with which it forms practically one city. The two cities together possess a fine harbor whose channel to the sea has been deepened by the federal government to 35 feet. The river is here about two-thirds of a mile wide and vessels of the largest size can anchor at the city wharves. Direct steamer lines leave this port daily for Washington, Baltimore, Richmond, New York City, Boston and Providence. There are also lines of steamers running to Philadelphia, Charleston, Savannah and other Atlantic and gulf ports.

The chief feature of Portsmouth is the

POINTS OF INTEREST, NEWPORT NEWS, VA.

Newport News (pop. 40,000, alt. 22 ft.), situated on the north side of Hampton Roads, was founded by the late Collis P. Huntington, who also organized the Old Dominion Land company and the Newport News Shipbuilding & Dry Dock company, the largest shipbuilding plant in the world. The Chesapeake & Ohio railway has its deep water terminal at Newport News, and this is the largest single railway terminal in the world. The C. & O. has a number of large piers directly on deep water. On account of the wonderful harbor this is a great export town. This is the port designated by the British and French governments to ship horses and mules and supplies during the war.

The city has a municipal boat harbor on Hampton Roads. At this harbor there is an immense pier, where vessels may load and unload cargoes. The city owns land around

United States navy yard situated in the southern part of the city. It covers 213 acres, and in connection with it are three large dry docks, a plant for the construction of steel vessels, a naval magazine, and the United States naval training station. The United States naval hospital and park are also interesting. Before the revolutionary war the British operated a shipyard on the site of the present navy yard. Among the prominent buildings of the city are the King's Daughters' hospital, city hall, Union depot, court house, armory, public library, the Y. M. C. A. and the Kirn, Commercial and Law buildings. Of historical interest is Trinity church, erected in 1762.

this boat harbor, which it leases on attractive terms to industrial concerns. Newport News has direct steamship lines to the principal ports of Europe and South America.

The Atlantic coast aeronautical school, the largest aviation training station on the coast, is located here. There is always spectacular flying to be seen and very often passengers are taken up by instructors. Here Aviator Stinson broke a number of records in looping and daring flying.

Newport News is connected to Old Point Comfort and Hampton by electric trolley line. There are numerous points of interest along this line, among them being Old St. John's church, Hampton normal and agricultural institute, National soldiers' home and Fortress Monroe. The absence of extreme temperatures makes this a summer as well as winter resort.

POINTS OF INTEREST, HAMPTON, VA.

Hampton (pop. 5,505, alt. 3 ft.), is situated on the north side of Hampton Roads at the mouth of the James river. It is 16 miles north of Norfolk, with which it is connected by steam ferry. Fortress Monroe is $2\frac{1}{4}$ miles southeast. Hampton is a popular resort with good salt water bathing beach, but is perhaps most widely known as the seat of Hampton normal and agricultural institute, one of the pioneer institutions for the education of negroes and Indians. The Institute is situated on a plantation of 170 acres on the Hampton river. The property of the school includes 1,000 acres of land, 140 buildings, a library of 37,000 volumes, a green house and an agricultural experiment station. There are 135 instructors and about 1,300 students. The male students are under military discipline and are organized in battalions of six companies. The girls are instructed in domestic and farm occupations and the men in trades and handicrafts. The most noted graduate of the school was Booker T. Washington, leader of the colored race.

Among other features of interest at Hampton are the church of St. John (Protestant Episcopal), erected 1660; Old Point Comfort college, an artillery school; the Huntington library; the National soldiers' home, which has 3,500 inmates; the School for deaf and blind colored children, and the National cemetery, having 3,323 graves, of which 600 are of

unknown dead.

Hampton was settled some time before 1610 on the site of the old Indian village, Kecoughtan, and for many years was known by that name. It has been three times destroyed by fire, twice by the English, once during the revolution, once in the war of 1812, and in the civil war it was burned in August, 1861, by a confederate force under General Magruder.

Hampton Roads is the lower part of the estuary of the James river. The channel is deep and forms several fine harbors, especially that of Norfolk. The Roads are of great military importance and are defended by Fort Wool and Fort Monroe. During the civil war the Roads were the scene of two engagements, on successive days, in March, 1862. The federal vessels "Congress," "Cumberland," "Minnesota," "Roanoke" and "St. Lawrence" were in the roadstead when the confederate ironclad "Virginia" rammed the "Cumberland," which sank in three-quarters of an hour, and disabled, set on fire and blew up the "Congress." The other Union vessels escaped. The Union loss was 286 and the confederate 12. The following day occurred the famous battle between the "Virginia" and the federal ironclad "Monitor," which tho not a conclusive victory for the federals, resulted in the retirement of the "Virginia" in a disabled condition and protected the federal ships from further attack.

POINTS OF INTEREST, OLD POINT COMFORT, VA.

Old Point Comfort (pop. 350, alt. 6 ft.) is one of the most famous resorts on the Atlantic coast. One of the great advantages which this resort so uniquely enjoys lies in its wonderfully soothing and inviting name, whose very sound seems to draw one involuntarily toward it. Here is located the renowned Hotel Chamberlin, commanding a magnificent view of Hampton Roads. At Old Point Comfort is also Fortress Monroe, guarding the portals of the Chesapeake. It was first planned in the early part of the seventeenth century, and is now the largest and best known fortification in America, covering 80 acres of ground and costing upward of \$50,000,000, including buildings and equipment. It is garrisoned by the largest artillery force in the United States. There are daily drills, to which visitors are admitted. The interior of the fortress contains, among other things, a museum of war trophies, relics of the battle of Yorktown and the casement where Jefferson Davis was confined as a prisoner of war.

A mile or two from the line which marks the boundary of the government reservation is the National Home for disabled volunteer soldiers of the Union army. Some 5,000 or more of the old veterans are cared for here. The main building, a long rectangular structure surmounted by a dome, was in ante bellum days a fashionable school for young ladies, known as the "Chesapeake Female

School," and the daughters of many of the foremost families of that day attended it. During the civil war it was used as a hospital. At present the Soldiers' Home is being used by the war department as a hospital for mental cases from over seas—the result of the recent world war. Adjoining the grounds of the home is the National cemetery, while just beyond is the Hampton institute, devoted to the training and education of the Negro youth. This is not a government or state school. It is controlled by a private corporation. Tuskegee, Calhoun and other industrial schools for negroes are outgrowths of Hampton. Booker T. Washington received his education here, fitting him to become the great leader of his race. This is a most interesting place to visit and well worth while. The school authorities are glad to furnish visitors with competent guides, who may be obtained by applying at the library.

Other points of interest on the Point are the church of "St. Mary's of the Sea" and the army Y. M. C. A. building, the latter having been presented to the enlisted men of Fortress Monroe by Miss Helen Gould (now Mrs. Finley J. Shepard). Fort Wool may be seen from the docks at Old Point, being on an artificial island constructed in 1829 to supplement the defenses of the fortress. Another place of interest here is Old Point Comfort college, a noted institution of learning.

Route 752—Norfolk to Petersburg, Va.—99.2 m.

Reverse Route 751.

Via Suffolk, Franklin, Courtland and the Jerusalem Plank road. The first 10 miles is macadam and concrete; balance alternating stretches of graded and ungraded sand-clay and sandy dirt, with the exception of the last 1.6 which is cobble stone pavement. Summary: 10 miles macadam and concrete; 87.6 miles sand-clay and sandy-dirt; 1.6 miles cobble stone pavement.

Thru a practically level country, some wooded sections. Farms devoted principally to peanut and cotton raising. Crosses the Elizabeth river by ferry to Portsmouth.

This route used in conjunction with Route 697 from Petersburg forms best way from Norfolk to Richmond.

*Suffolk, Va. (pop. 13,000, alt. 50 ft.), is an important railroad center and one of the largest peanut-cleaning markets in the state. It is located on the Nansemond river, 18 miles southwest of Norfolk, with which it is connected by steamer, and one mile from the Great Dismal Swamp. During the civil war it was the center of constant operations because it was not only the outpost of Portsmouth, but the key to the James river, to Petersburg

and Richmond and to the region bordering on Nansemond and the Dismal Swamp. At a point about 16 miles north of Suffolk is St. Luke's Episcopal church, known as Old Benn's church—said to be the oldest house of worship standing in America today.

*Franklin, Va. (pop. 3,500, alt. 20 ft.), situated on the Blackwater river, 40 miles southwest of Norfolk, is the seat of Franklin male academy and Franklin female seminary.

*Seven Pines, Va., is a little hamlet of 3 or 4 buildings located 6 miles east of Richmond. It is the site of the battle of Seven Pines and the seven days' fight around Richmond during the civil war. The battlefields of Cold Harbor, Malvern Hill and Fair Oaks also surround it. A government bag filling powder plant was erected here during the late world war and a number of other temporary buildings which were used in connection with this work.

*Williamsburg, Va. (pop. 2,714, alt. 200 ft.), is situated on a peninsula between the James and York rivers. The chief feature of the city is William and Mary college, the second oldest college in the United States, opened in 1693. George Washington was chancellor of the institution, and it was the alma mater of four other Presidents, Jefferson, Monroe, Madison and Tyler. The Eastern state hospital for the insane dates from 1769, and the old court house was erected in the

same year. Bruton parish church dates from 1678, but was rebuilt in 1715. The Powder Horn was erected 1714. Williamsburg female institute is also very old. The headquarters of Washington, the headquarters of Lafayette, the home of Edmond Randolph, and the home of Chief Justice Marshall are also places of note connected with colonial history. The statue of Norborne Berkly, Baron of Botetourt and Governor of Virginia, is another relic of the pre-revolutionary period. The ruins of Jamestown, the first settlement in America, are only 7 miles distant. (See Jamestown.)

In the civil war Williamsburg was the scene of the first serious engagement of the Peninsular campaign. Here on May 5, 1862, Hooker's division of McClellan's army overtook the rear columns of the confederate army under Magruder. A battle of nine hours resulted in no decisive advantage for either side, but a loss of 288 for the federals and 1,560 for the confederates.

 7.6 1.3 JAMESTOWN,* tower of old church 2.1 beyond.

*Jamestown, Va. (pop. 25), is an island partly owned by the Association for the Preservation of Virginia Antiquities. It was originally a peninsula extending into the James river about 32 miles from its mouth and is the site of the first permanent English settlement within the limits of the United States. This settlement was made under Gosnold, Wingfield, Capt. John Smith and Capt. Newport, in May, 1607. The site was ill chosen and malarious, and the early history of the colony is a pathetic tale of disease and disasters. In 1608 the settlement was destroyed by fire. In 1609-10 the "starving time," it was almost depopulated, and in the spring of that year the settlers deserted it and started for England, but at the mouth of the river, meeting Lord Delaware arriving with supplies, they turned back and reoccupied the town.

It was the first capital of the colony of Virginia, and here in 1619 was held the first legislative assembly in America. Here also slavery was introduced in the same year. In September, 1676, Nathaniel Bacon, in his rebellion against the tyranny of Governor

Berkeley, whose capital it was, burned it to the ground. It was rebuilt, but kept dwindling. In 1698 it was again ravaged by fire and never rebuilt, and Williamsburg supplanted it as the capital of the colony. At the time of the settlement the neck of the peninsula was overflowed at high tide, and it has since been washed away, making the site an island. The front also was gradually eaten away by the river, so that the site of the original huts was submerged. Had it not been for the Association for the Preservation of Virginia Antiquities all the remaining ruins of Jamestown would have been covered by the encroaching river. The site was presented to the Association for the Preservation of Virginia Antiquities, who, with the help of the national government, has built a seawall and saved it and its historic relics. There are ruins of a church built probably between 1676 and 1684, some remains of the fort, the early state house and two or three houses.

In April, 1907, the Jamestown Tercentenary Exposition has held on the south shore of Hampton Roads, 40 miles below Jamestown Island, to commemorate the 300th anniversary of the settlement of Jamestown.

*Yorktown, Va. (pop. 150), is situated on the right bank of the York river, 10 miles from its mouth. It is on the old stage route, and is replete with revolutionary and civil war interests, having undergone two great sieges, 1781 and 1862. In the revolutionary siege of 1781 Cornwallis retreating from Carolina, established himself here in August and fortified the town with seven redoubts and six batteries on the land side and a line of batteries along the river. Gloucester Point on the opposite side of the river was also strongly fortified. Cornwallis' troops numbered 8,000 and were supported by several vessels anchored in the river. Washington and Rochambeau, with combined force of 16,000, began the investment of Yorktown on Sept. 28. Count De Grasse, with a French fleet blocked the York and James rivers and cut off the British communication with New York. By Oct. 16 the walls and fortifications of the British being broken down and almost every gun dismounted, Cornwallis endeavored to escape at night by way of Gloucester Point, but was prevented by a furious storm which scattered his boats. On Oct. 19 he surrendered to the allies, the land army with its munitions being surrendered to the Amer-

icans and the marines to the French. Among the spoils the Americans obtained 28 regimental colors. The total loss of the allies was 300. This victory virtually ended the revolution. In 1881 a centennial celebration was held at Yorktown and a monument commemorative of the surrender of Cornwallis was dedicated in the presence of many distinguished foreigners and Americans.

The second siege of Yorktown formed a part of Gen. McClellan's Peninsular Campaign. In April, 1862, the confederates under General J. B. Magruder had fortified Yorktown and drawn a line from the town across the peninsula to the mouth of the Warwick river. McClellan, overestimating the confederate forces, hardly more than 11,000 men in all, of which only 5,000 were at Yorktown, settled down to siege while waiting for reinforcements. At the end of the month McClellan had 115,000 men before Yorktown, while the confederates, reinforced by General Johnston, who took command, had barely 55,000. During the night of May 3-4 Johnson secretly evacuated Yorktown and retreated toward Richmond, but was pursued by part of the Union force and compelled to give battle near Williamsburg on May 5, with a part of his troops. The result was indecisive.

13.0 8.4 Left-hand road at several signs; turn left.

*Weldon, N. C. (pop. 3,000, alt. 81 ft.), is at the head of navigation on the Roanoke river. This was the first northern terminus of the old Wilmington & Weldon railroad, which played such an important part in the civil war, having been the center of a territory which was the scene of several battles. This

railroad was an important factor in the defense of Petersburg.

*Halifax, N. C. (pop. 325), is the county seat of Halifax county. The state capital was located here in the early days. Of particular interest to the visitor now is the old tumble-down home of John Paul Jones.

*Rocky Mount, N. C. (pop. 16,000, alt. 105 ft.), was the site of the first cotton factory in this state. It now has large tobacco warehouses and stemmeries. A university school is located here.

*Wilson, N. C. (pop. 12,000, alt. 138 ft.), the county seat of Wilson county, is located 49 miles from Raleigh. Railroads radiate in five different directions and it is the central dis-

tributing point for eastern North Carolina. It is in an agricultural district, cotton, corn and tobacco being its most important products; in fact, it is said to be the largest bright loose leaf tobacco market in the world. The Hackney Wagon Co., which is as large as any in the south, is located here, and other manufacturing establishments are cottonseed oil mills, cotton mills and tobacco factories. It is the seat of the Atlantic Christian college.

 Townsend Motor Company, 4th St.
 Straight ahead is Route 710 to Rockingham.

*Fayetteville, N. C. (pop. 12,000, alt. 170 ft.), is located on the Cape Fear river at the head of navigation, 60 miles southwest of Raleigh, in a fertile agricultural district, and is a wholesale distributing point for fertilizers and trucking point for northern markets. Near the town is a large vineyard. It is the seat of the State colored normal school, and the Donaldson-Davidson academy. The town was settled by Scotchmen in 1736 and laid out 1762 under the name of Campbellton. This name was changed to Fayetteville during the visit of Lafayette in 1784. In 1831 the town was almost completely destroyed by fire. During the civil war it contained a Union arsenal, which was seized in April, 1862, by Governor Ellis of North Carolina. In 1865 General Sherman occupied Fayetteville, destroyed the arsenal and laid waste the surrounding district. Camp Bragg is located 12 miles from Fayetteville.

*Lumberton, N. C. (pop. 5,000, alt. 210 ft.), seat of Robeson county, is 25 miles from the site of the battle of Elizabethtown (1781). Robeson county was named in honor of the American commander in that battle. Many other minor revolutionary skirmishes took place in this vicinity also. A monument has been erected to the memory of the confederate soldiers. Lumber river, a picturesque stream noted for its "red breast" perch, attracts many tourists who are fond of canoeing and fishing, especially during the fall and winter months. The surrounding country is devoted exclusively to agriculture—cotton, corn and tobacco being raised in great abundance. Cotton mills and tobacco warehouses are among the town's industrial features. Hon. A. W. McLean, director in U. S. war finance corporation and president of North Carolina Bar Association, is a resident of Lumberton.

*Henderson, N. C. (pop. 10,000, alt. 490 ft.), county seat of Vance county, is an industrial and agricultural city. The surrounding region produces cotton and tobacco, in which the town carries on an extensive trade. It has

several large tobacco warehouses and cotton and cottonseed oil mills, as well as an auto truck plant. Rest and reading rooms for tourists will be found in the Chamber of Commerce building.

It gives the answer

What would you think of an instrument that could locate trouble and tell you where it was—an instrument that would inform you that your motor was using too much oil—its valves needed grinding in—or the carburetor was not properly adjusted—that it was consuming too much gasoline and not enough air?

You would think such an instrument a perfect wonder—and yet there exists just such a trouble finder and it sells for only \$2.00.

It is known as Motor Life's Car Cost Record—a system of recording the exact conditions of your car from month to month.

Write us today for full details and let us explain how this system works.

POINTS OF INTEREST, ROANOKE, VA.

Roanoke (pop. 46,200, alt. 904 ft.), an independent city, the third city in size and the sixth industrially in Virginia, is beautifully situated in the Roanoke valley. On the east and north lie the Blue Ridge mountains, on the north and west the Alleghenies and along the edge of the city winds the Roanoke, its banks lined with huge trees. The city is the outgrowth of a stage station, which was popularly known as "Old Lick."

Virginia college, a school for young ladies, is located in the city. In the immediate vicinity are Roanoke college and Elizabeth

college (female), both Lutheran, and 7 miles distant is Hollins college, a large institution for women.

In the vicinity of Roanoke are many scenic features of rare beauty and interest. Mill mountain, 2,000 feet high, may be ascended by an inclined railroad. From the summit is a sweeping panoramic view of the Roanoke river and valley, the Blue Ridge and the Alleghenies. The Peaks of Otter, the Luray caverns and the Natural bridge are other scenic wonders worthy a visit. Also in the vicinity are several widely known mineral springs.

 FRED E. FOSTER

Route 771—Roanoke, Va., to Bristol, Va.-Tenn.—164.5 m.

Reverse Route 571.

Via Salem, Christiansburg, Radford, Pulaski, Wytheville, Marion, Glade Spring and Abingdon. First 11.5 miles good macadam, then 22.2 miles rough stony pike, 2.3 miles macadam, 7.2 miles worn pike, and 2.4 miles graded clay, bad when wet, to Radford. From Radford 21.1 miles good macadam thru Dublin and Pulaski, then 14.6 miles worn stone pike, 11.8 miles good macadam, 9.2 miles worn pike, 3 miles macadam, 5.8 miles worn pike and 15.3 miles good macadam to Seven Mile Ford; 28 miles worn stone pike to Chilhowie, then 5.9 miles fair worn stone road to Abingdon; balance good macadam. There is no place a car could get stuck in mud, even in very wet weather, except the 2.4 miles of clay near Radford. Summary: 94.2 miles macadam; 67.3 miles stone pike—rough; 2.4 miles graded clay, bad when wet.

This route winds thru a valley between the Blue Ridge and Cumberland mountains, following an old pike built before the war. There are no steep grades, but the road makes a long ascent of 6 miles at an easy grade and is hilly in places. It runs thru a good farming country nearly all the way, some sections wooded. The Blue Ridge and Cumberland mountains are seen frequently. Several fords are crossed, all negotiable.

Connection can be made from Christiansburg to Narrows by using Route 772. Also from Abingdon to Hansonville by using Note (a).

*Radford, Va. (pop. 8,000, alt. 1,773 ft.), is chiefly a manufacturing town. It lies in an agricultural and grazing district which also produces iron and coal. The town carries on a large trade in cattle and turkeys. The bridge over the New river is noteworthy. The old bridge where Ingalls ferry now operates was burned during the war and never rebuilt. Mountain lake, near Radford, is a popular resort and the picturesque beauty of the scenery along New river attracts many tourists.

*Pulaski, Tenn. (pop. 5,000, alt. 643 ft.), the county seat of Giles county, is situated on Richland creek, 81 miles southwest of Nash-

ville. The surrounding district is productive and devoted to agriculture and stock raising. The town is well built with a central square in which stands the handsome courthouse, and is the seat of Martin female college and the Massey school for boys.

*Wytheville, Va. (pop. 4,000, alt. 2,300 ft.), located in a beautiful valley of southwest Virginia mountains, is the site of Villa Maria academy, Plumer female college and one of the best high schools in the south. It is the center of the noted blue grass and export stock raising section of this part of the state and the seat of Wythe county.

- 148.7 2.8 Abingdon,* Main & Court Sts., court house on right. Straight

GARAGES—A. J. Sheldon & Co., Inc., Lee St. opp. Court House.

Note (a) Route 771—Abingdon to Hansonville, Va.—14.2 m.

Reverse Note (a) Route 557.

Via Greenville. All macadam to Greendale except two very short stretches of
graded clay; balance very rough dirt. This road is slightly sandy and probably would
be no worse in wet weather than in dry weather.

This note may be used as a connection from Hansonville with Route 566 to Middles-
boro and Route 557 to Bluefield.

- 0.0 0.0 ABINGDON, Russell and Main Sts. Go north (a left turn if coming from
Bristol) on Russell St., following macadam across several iron bridges.
- 3.9 3.9 Right-hand road; turn right.
- 5.3 1.4 Greendale. Straight thru on rough, stony, dirt road.
- 7.7 2.4 Right-hand road; turn right across long iron bridge, turning left imme-
diately beyond.
- 8.3 0.6 Right-hand road, store ahead on right; turn right.
- 14.2 5.9 HANSONVILLE, 3-corners at store.
Left is Route 566 to Middlesboro.
Right is Route 557 to Bluefield.

Route 772—Christiansburg to Narrows, Va.—41.7 m.

Reverse Route 559.

Via Blacksburg, Newport and Pearisburg. Macadam to Newport; balance
good graded dirt. Thru hilly farming country, following New river part of
way.

—MILEAGE— This route connects at Narrows with Route 558 to White Sulphur
Springs and Route 565 to Bluefield.

- Total Between
Mileage Points
- 0.0 0.0 CHRISTIANSBURG, Franklin & Main Sts. at open square,
court house on right. Go northwest on Franklin St.
- 0.2 0.2 Irregular 4-corners; turn right onto macadam.
- 1.1 0.9 Cambria, 3-corners. Bear left across RR.
- 1.4 0.3 Left-hand road just before RR; turn left with travel and
poles. Cross RR 2.4.
- 4.0 2.6 Right-hand diagonal road, small wooden store ahead on left.
Bear left. Thru 4-corners 5.5.

on macadam. Caution for sharp curves 12.5-12.8-13.2-13.4-
14.5 into
- 17.8 7.1 Newport, 4-corners, P. O. ahead on right. Straight thru.
- 20.3 2.5 Turn right across bridge. Avoid left and right-hand roads
25.3-25.7.

Right at 27.5 leads to Mountain Lake.

*Abingdon, Va. (pop. 2,500, alt. 2,057 ft.), is
situated four miles from the Holston river in
the extreme southwestern corner of the state.
It has long been noted for its large tobacco
and livestock interest. During the civil war

most of the salt used by the confederate
states was produced at Saltville, 16 miles from
Abingdon. It is the seat of Martha Washing-
ton college, established 1858, and of Stonewall
Jackson institute (Presbyterian), opened 1869,
both for girls.

Avoid right-hand road 27.8, curving left across RR and bridge over New river.

30.9 10.6 Ripplemead. Straight thru across RR. Curve right at foot of grade 33.4, ascending long winding grade.

36.3 5.4 Pearisburg, court house on right. Straight thru on hilly winding road. Pass Pearisburg Sta. on right 37.9. Road is winding along RR and banks of New river.

41.7 5.4 NARROWS, 4-corners, bank on right.

Right is Route 558 to White Sulphur Springs.
Right and immediately left is Route 565 to Bluemead.

Route 775—Roanoke, Va., to White Sulphur Springs, W. Va.—79.3 m.

Reverse Route 776.

Via Cloverdale, Fincastle, Eagle Rock, Clifton Forge and Covington. 18 miles macadam to Fincastle, 5 miles fair dirt and shale over mountain, 8 miles macadam to Eagle Rock, 16 miles fair dirt and shale to Clifton Forge; 12 miles good gravel to Covington; 19 miles fair to good gravel, shell and dirt, 1 mile macadam to White Sulphur Springs. Summary: 27 miles macadam; 12 miles good gravel; 40 miles fair to good gravel, shale and dirt.

The route runs thru a valley nearly all the way to Fincastle (toll 30c.), then makes a long easy ascent of mountain on stony gravel road, descending into Eagle Rock. From Eagle Rock it runs thru a valley to Iron Gate and then thru a gap in the mountains to Clifton Forge, following the Jackson river to Covington. From Covington the route goes thru a mountainous country, following a valley nearly all the way to White Sulphur, crossing the Allegheny Mts. in a narrow cut on an easy grade. Some fine views are had from the mountain near Fincastle. The route crosses several small stony fords with but very little water except in the rainy season.

This route connects at Covington with route 560 to Hot Springs, and at White Sulphur Springs with routes to Charleston and Bluefield, W. Va.

Straight ahead and right at 79.9 is Route 565 to Bluefield.

Route 776—White Sulphur Springs, W. Va., to Roanoke, Va.—79.3 m.

Reverse Route 775.

Via Covington, Clifton Forge, Eagle Rock, Fincastle and Cloverdale. 1 mile macadam, 19 miles fair to good gravel, shale and dirt to Covington; 12 miles good gravel to Clifton Forge; 16 miles fair dirt and shale to Eagle Rock; 8 miles macadam, 5 miles fair dirt and shale over mountain to Fincastle; and 18 miles macadam to Roanoke (30c. toll). Summary: 27 miles macadam; 12 miles good gravel; 40 miles fair to good gravel, shale and dirt.

The route follows a valley from White Sulphur, crossing Allegheny mountains in a narrow cut on a long easy grade descending into Covington. From Covington it follows the Jackson river to Clifton Forge, then thru a gap in the mountains to Iron Gate. The road then runs thru a valley to Eagle Rock, and climbs a mountain on easy grade, descending mountain to Fincastle (some fine views from mountain), running thru a good farming country to Roanoke.

*White Sulphur Springs, W. Va. (pop. 1,000, alt. 2,000 ft.), has been a health and pleasure resort since the revolutionary period. It is the most popular resort of the southern states, and no holiday place is more famous by association with great names and high memories, or makes a more romantic appeal. Nearly a century ago Henry Clay signed the hotel register, and Robert E. Lee passed here

the last three summers of his life. There are two hotels, the Greenbrier and the White, both under the same management as the Plaza Hotel, New York.

*Covington, Va. (pop. 6,000, alt. 1,245 ft.), is the county seat of Allegheny county. It is surrounded by beautiful mountain scenery, contains a home for homeless boys, and has extensive pulp and paper mills.

Macadam to Fincastle, then 5 miles of fair dirt and shale over mountain, 8 miles macadam to Eagle Rock; 16 miles fair dirt and shale to Clifton forge; gravel to Covington; then 3 miles macadam and balance gravel. Summary: 29.0 miles macadam; 21 miles shale and dirt; 29.0 miles gravel.

The route runs thru a valley nearly all the way to Fincastle, then makes a long easy ascent over mountain on stony gravel road, descending into Eagle Rock. From Eagle Rock it runs thru a valley to Irongate and then thru a gap in the mountains to Clifton Forge, following the Jackson river to Covington. From Covington, the route offers beautiful scenery thru the mountains.

Reverse Route 777.

Via Covington, Clifton Forge, Eagle Rock, Fincastle and Cloverdale. Gravel first 18 miles, then 3 miles macadam to Covington; 12 miles gravel to Clifton Forge; 16 miles fair dirt and shale to Eagle Rock; 8 miles macadam, 5 miles fair dirt and shale over mountain to Fincastle; 18 miles macadam to Roanoke. Summary: 29.0 miles macadam; 21 miles shale and dirt; 29.0 miles gravel.

The route is a very beautiful one thru the mountains to Covington; from there it follows the Jackson river to Clifton Forge, then thru a gap in the mountains to Iron Gate. From this point it runs thru a valley to Eagle Rock, then climbs a mountain on easy grade, going thru a hilly farming country and descending a mountain to Fincastle (some fine views of the mountain) running thru a farming country to Roanoke.

Via Altavista, Gretna, Chatham, Danville and Reidsville. First 3.7 miles asphalt and pavement; 16.3 miles graded clay and dirt—bad when wet; 7 miles gravel to Altavista; 13.5 miles fair to poor clay and sandy dirt; 11.0 miles fair sand-clay to Chatham; macadam and asphalt to Danville; fair graded clay, sand and dirt to Reidsville; 15.6 miles good sand-clay; balance (9.2 miles) macadam and asphalt. 50 miles of this road is slippery and bad in wet weather. Most of it is slated for improvement this coming year and should be better by 1920.

This is a section of the Central highway. Thru rolling and hilly country, farming and wooded. A good part of the road runs along the top of a ridge, affording some good views of the surrounding country and occasional glimpses of the Blue Ridge mountains in the distance. Farms are devoted principally to tobacco and grain. From Danville to Reidsville, the road follows the RR all the way.

At Danville, connection can be made with Route 688 to Clarksville.

*Danville, Va. (pop. 30,000, alt. 413 ft.), is picturesquely located on the bluffs above the Dan river, and boasts of being the largest loose leaf and bright tobacco market in the world, as well as being the home of one of the largest cotton mills in the south. It also has much of historic interest. After the evacuation of Richmond in 1865, President Jefferson Davis made Danville the last capital of the confederacy, and it was from this point that his last proclamation was issued. Many men of national repute have at one time or another lived here, among whom are Colonel T. S. Flournoy, Vincent A. Witcher, Major W. T. Sutherland and Andrew J. Montague, the latter being an ex-governor of Virginia. The

childhood homes of Mrs. Charles Dana Gibson, Mrs. John Jacob Astor and Mrs. J. B. Cobb are also to be seen in Danville. Other attractive features are Ballou park, Tuscarora club and the golf and country clubs. A visit to either the cotton mills or tobacco plants will prove most interesting.

*Reidsville, N. C. (pop. 7,000, alt. 822 ft.), in Rockingham county, 24 miles southwest of Danville, Va., lies in the center of the old tobacco belt and here may be seen many huge tobacco houses, among which is the "Lucky Strike" cigarette factory. A female seminary is located here and in the center of town is a confederate monument.

CALIFORNIA

is pleasure land for the tourist summer and winter, and especially so to the autoist who travels with an Automobile Blue Book—Vol. 3

Route 790—Roanoke, Va., to Winston-Salem, N. C.—
122.2 m.

Reverse Route 685.

Via Rocky Mount, Martinsville, Stoneville, Mayodan, Madison and Kernersville. First 3.7 miles pavement and graded clinders and dirt, then a long climb over the mountain and descent on stony clay road with sharp curves, followed by alternating stretches of graded and ungraded clay to Rocky Mount. From Rocky Mount, the road is graded sand-clay to Sydneysville and from there to the county line (7.7 miles), very poor ungraded clay road; fine sand-clay to Martinsville; balance graded and ungraded sand-clay to within 5 miles of Winston-Salem, which is macadam fair sand-clay and graded dirt; 32.0 miles poor clay road, some stony and some bad mud holes. This is slated for improvement.

The road goes thru a wooded farming section to Martinsville, hilly and with a long ascent and descent over the mountain outside of Roanoke. From Martinsville, it goes thru a good farming section, devoted principally to corn, tobacco and cotton raising.

This route should not be attempted during rainy or wet season as it crosses numerous fords.

Connection can be made at Kernersville for Greensboro; also at Martinsville for Danville, Va., over a good sand-clay road. At Winston-Salem, connections can be made to Lexington for Charlotte or to Statesville for Asheville and Charlotte.

| 37.8 | 1.8 | Sydneysville, fork. Bear left. |
| 38.3 | 0.5 | Fork; keep left. |
| 38.7 | 0.4 | Fork; bear right downgrade. |
| 43.3 | 4.6 | Fork, in woods; bear left. |
| 55.5 | 12.2 | Turn right across RR and take left-hand road at long iron bridge immediately beyond. |
| | | Road across iron bridge leads to Fieldale. |
| 59.7 | 4.2 | Martinsville,* end of street at court house square. Jog right and immediately left onto Main St. along square. |

*Martinsville, Va. (pop. 5,000, alt. 934 ft.), county seat of Henry county, was founded in 1791. The renowned orator, Patrick Henry, also Gen. Joseph Martin, Gen. George Hairston and General J. E. B. Stuart lived here. Martin's home, which was erected in 1773, has just recently been torn down; the house occupied for eight years by Patrick Henry is no longer standing, but the fine old colonial home

of Col. Geo. Hairston, still stands and is now in the possession of his great-great-grandson. While there were no great battles fought in this immediate vicinity, a skirmish took place here in April, 1865. Four miles north of Martinsville a new town is being built by Marshall Field & Co. of Chicago. This is known as Fieldale and will contain, when finished, large cotton mills and homes to cost upward of two million dollars.

- 59.9 0.2 Right-hand diagonal street; bear right.
 60.0 0.1 End of street at far side of brick wall; turn left onto Church St.
 60.3 0.3 Right-hand street; turn right onto Starling St.
 62.6 2.3 Fork, just beyond long covered wooden bridge; keep left.
 64.5 1.9 Fork; bear right.
 64.9 0.4 Fork; bear right. Pass wooden school on right 65.2. Cross RR 69.1.
 69.8 4.9 Ridgeway, Va., fork at P. O. Bear right. Cross Virginia-North Carolina state line 73.9.
 74.4 4.6 Price, N. C., at P. O., just beyond RR. Curve left along same. Cross RR 74.6.
 75.3 0.9 Fork; bear right, passing log cabin on left just beyond. Recross RR 78.6.
 79.9 4.6 Stoneville, end of road. Turn right across RR and at end of road just beyond, turn left. Avoid left-hand road, ignoring "National Highway" sign, 82.1.
 82.9 3.0 End of road, just beyond iron bridge; turn left.
 85.0 2.1 Mayodan, at stores. Straight thru.
 86.6 1.6 End of road; turn left. Turn right with road 86.8.
 86.9 0.3 End of road; turn left.
 87.0 0.1 Right-hand road; turn right and take left-hand road immediately beyond.
 87.1 0.1 Madison, at stores. Keep ahead. Cross RR 87.2.
 SERVICE STA.—United States Tire Sales & Service Depots located here.
 87.3 0.2 End of road, just beyond RR; turn right.
 If tourist is going to Greensboro, inquire here about new road to be built.
 87.9 0.6 Curve left with road across long wooden bridge and left immediately beyond.
 88.7 0.8 Fork; bear right.
 90.1 1.4 Fork; keep right. Cross RR 91.8, curving left along same just beyond. Pass Ellisboro Sta. on left 92.4. Cross RR 93.5-95.2-96.7-96.9-97.6.
 99.0 8.9 End of road; turn right across RR and take left-hand road immediately beyond. Recross RR 99.1.
 99.5 0.5 Curve right with road and at 4-corners immediately beyond, turn left, continuing along RR.
 99.7 0.2 Stokesdale, sta. on right. Keep ahead. Recross RR 100.0.
 100.1 0.4 Fork; bear right, passing large wooden school on left just beyond.
 101.8 1.7 4-corners, house on right; turn right.
 102.7 0.9 Fork; keep left.
 108.1 5.4 End of road; turn right. Cross RR at sta. 110.3.
 Left at 108.1 is good sand-clay road to Greensboro.
 110.6 2.5 Kernersville, irregular 4-corners at stores. Keep ahead.
 SERVICE STA.—United States Tire Sales & Service Depots located here.
 Left is Route 684 to Greensboro.
 Winston-Salem City Map and Points of Interest, page 719.
 110.9 0.3 Fork; keep right. Bear right onto Main St.
 Sharp left on Main St. 121.0 is Route 681 to Lexington and Charlotte.
 122.2 11.3 WINSTON-SALEM, Main & 4th Sts. at far side of court house.
 GARAGES—Auto Repair Co., 610 Liberty St.
 Carolina Cadillac Co., 202 N. Main St.
 Twin City Motor Co., 221-223 S. Liberty St.
 SERVICE STA.—United States Tire Sales & Service Depots located here.

To Help You Plan Your Trips

Write the Blue Book Touring Club at our nearest office. If you haven't joined the Club mail in the Application Post Card you will find in this book.

Route 791—Roanoke to Danville, Va.—83.4 m.

Reverse Route 687.

Via Redwood, Franklin, Union Hall, Pen Hook and Chatham. First 20 miles dirt with a short stretch of asphalt leaving Roanoke, then 45 miles of dirt and clay with some gravel; 9 miles macadam, 4 miles sand-clay; balance 8 miles macadam. Summary: 17.5 miles macadam; 43.3 miles graded dirt and sand-clay; 26.2 miles dirt, some clay; 6.5 miles poor stony clay—rough.

Thru hilly and mountainous farming country with long ascent and descent over mountains. Caution must be used for sharp curves.

This route is bad in wet weather. This is a much better connection from the Shenandoah valley south than via Lynchburg.

(MILEAGE—
Distance

Mileage Points)

For this and other exits see City Map, page 814.

- 0.0 0.0 **ROANOKE**, Jefferson St. & Shenandoah Ave., sta. on left. Go south across RR on Jefferson St., avoiding right-hand diagonal street.
- 0.8 0.8 Walnut St., brick store on left; turn left with branch trolley. Cross RR 1.0.
- 1.1 0.3 Prospect St., just beyond long iron bridge; turn left away from trolley.
- 1.2 0.1 Riverland Ave., turn right along river.
- 2.4 1.2 Fork; bear left across small bridge. Avoid left-hand road at pumping station 2.5. Avoid left-hand diagonal road, at church 3.7.
- 4.6 2.2 Left-hand road; turn left. Caution for sharp curves.
- 11.6 7.0 Fork, just beyond small school; bear left.
- 13.8 2.2 Left-hand road, store on left; turn left.
- 15.8 2.0 Fork; bear right with travel.
- 17.4 1.6 End of road, store on right; turn right, avoiding left-hand diagonal road just beyond.
- 18.6 1.2 Fork; bear left with poles and travel. Avoid left-hand diagonal road 20.7.
- 21.0 2.4 Fork; bear left. Cross iron bridge 21.3.
- 25.0 4.0 Left-hand road; turn left across RR, immediately curving left along same.
- Straight ahead before crossing RR is Route 790 at mileage 25.0 to Winston-Salem.
- Road follows RR for several miles, crossing and recrossing same numerous times. Avoid left-hand road 27.1.
- 27.2 2.2 **Redwood**. Keep ahead.
- 27.6 0.4 Fork, just beyond RR; bear right.
- 31.7 4.1 **Franklin**,* sta. on left. Keep ahead, continuing to cross and recross RR. GARAGES—Rawls Garage, 4th Ave.
- 32.7 1.0 Fork; bear left across RR. Avoid left-hand road 33.1.
- 36.6 3.9 Union Hall, fork. Bear right.
- 41.3 4.7 Pen Hook, sta. on left. Keep ahead along RR.
- 41.6 0.3 Fork, just after crossing RR; bear right.
- 41.8 0.2 Fork, just after recrossing RR; bear left.
- 43.4 1.6 End of road; turn right under RR, leaving same.
- 43.9 0.5 Fork; bear right. Avoid left-hand road in woods 44.6.
- 44.8 0.9 Fork; bear left with poles.
- 45.4 0.6 Fork; bear left with poles.
- 49.6 4.2 Fork, just beyond long covered bridge; bear left upgrade.
- 50.7 1.1 Fork; bear left.
- 53.2 2.5 Fork; bear right.
- 54.1 0.9 End of road; turn right.
- 55.5 1.4 5-corners, store on left; straight thru, avoiding right-hand diagonal road.
- 56.7 1.2 Fork; bear left with poles. Avoid right-hand road, where poles branch 57.8. Avoid left-hand diagonal road 59.9.

*Franklin, Va. (pop. 3,500, alt. 20 ft.), situated on the Blackwater river, 40 miles south-

west of Norfolk, is the seat of Franklin male academy and Franklin female seminary.

- 60.6 3.9 End of road, at small store; bear left, avoiding right-hand diagonal road just beyond. Cross RR 64.0.
- 64.4 3.8 Chatham, end of road, court house and business center over to left. Turn right.
Left thru business center is Route 686 to Lynchburg.
- 67.0 2.6 Fork; bear left with macadam.
- 70.7 3.7 Fork; bear right with macadam.
- 72.4 1.7 Fork; bear left with travel.
- 79.6 7.2 New Design, end of road, at store. Turn left. Same thoroughfare becomes Main St.
- 82.7 3.1 Fork, circular green in center; keep right with trolley and at fork just beyond bear left. Cross RR and long iron bridge 83.0. Avoid left-hand road 83.2.
- 83.4 0.7 **DANVILLE**,* Main & Union Sts., bank on right.

HOTELS—Hotel Burton, Main & Union Sts.
The Leeland.

*Danville, Va. (pop. 30,000, alt. 413 ft.), is picturesquely located on the bluffs above the Dan river, and boasts of being the largest loose leaf and bright tobacco market in the world, as well as being the home of one of the largest cotton mills in the south. It also has much of historic interest. After the evacuation of Richmond in 1865, President Jefferson Davis made Danville the last capital of the confederacy, and it was from this point that his last proclamation was issued. Many men of national repute have at one time or

another lived here, among whom are Colonel T. S. Flournoy, Vincent A. Witcher, Major W. T. Sutherlin and Andrew J. Montague, the latter being an ex-governor of Virginia. The childhood homes of Mrs. Charles Dana Gibson, Mrs. John Jacob Astor and Mrs. J. B. Cobb are also to be seen in Danville. Other attractive features are Ballou park, Tuscarora club and the golf and country clubs. A visit to either the cotton mills or tobacco plants will prove most interesting.

Monument to Gen. Robert E. Lee at Richmond, Va.

"My car cost me 14c per mile to run"

—First Owner

"My car cost me 12c per mile to run"

—Second Owner

"My car cost me 7c per mile to run"

—Third Owner

All three were guessing for not one of them knew exactly what it *did* cost them.

You should know what it costs you per mile to run your car and

Motor Life's Car Cost Record

will show you the easiest way to find this cost.

MOTOR LIFE - CAR COST RECORD											
DATE AND MILEAGE	TO WHOM PAID	GAS	OIL	GREASE	GARAGE	BATTERIES	ALL REPAIRS	CHAMBERS	TIRES	TUBES	
TOTALS FORWARD - FOR MONTH		11.80	1.60				3.30	60.00		4.50

CARRY FORWARD - FOR MONTH		18.90	2.10	1.60		3.30	4.60	70.00	27.00	9.00	

This little pad of loose leaf blanks just fits into your pocket; and when you pay your bills or when you buy gas you simply jot it down in the column under the proper heading. Also your mileage. And some rainy afternoon you add up the expense and divide the total by the number of miles run like this

Gasoline	\$14.00
Repairs	4.80
Garage	20.00
Misc.	5.20

Number of miles run, 400—\$44.00 11c per mile

ONE OWNER WRITES:—"My record the first six months showed 14c per mile; but by using the figures I discovered the leak and the following six months my cost was reduced to 11c; a saving of 3c per mile. I drove my car 2,500 miles which meant a total saving to me of \$75.00.

Mail us \$2.00 and we will send you this Car Cost Record System complete, with one pad of loose leaves and a ring binder to hold them.

MOTOR LIFE, 243 West 39th St., New York City

DETAILED ROAD MAPS

(Pilot Maps)

of Florida and Cuba

ON PAGES 835 and 866 will be found *key maps* showing the plan of dividing the detail maps into double page size. It will be noted these double page maps are arranged in *numerical* order and follow the key map on consecutive pages.

Owing to the smaller scale of the *General Index* map it is impossible to show all towns on it, but they are shown on the following *detail map* and alphabetically listed, with plate and key number, under *General Index* of cities and towns, pages 27-70.

The *heavy black lines* on the maps represent the *best* auto roads. Those having route numbers are Blue Book routes, while the balance are connections which may be used as options to our routes or to reach unimportant places not given in the Blue Book text matter.

Open (parallel) *lines* represent secondary roads suitable for auto travel and often used in case regular road is closed, or for detours, etc.

Single lines are unreported roads, not considered suitable for auto travel.

The figures at the extreme corners of the map give the numbers of adjoining sections and are very helpful in locating the succeeding plate without turning to the key map, but care should be exercised in noting the exact place where the line leaves one map and continues on the adjoining sheet. This is done by noting the proximity to the nearest white-faced index letter or number and will be found in the same relative position on the adjoining sheet.

These maps are compiled from government survey sheets and are brought up to date each year from data gathered by Blue Book scout cars.

Acknowledgment is also made of valuable assistance given by the various state and county engineers, highway commissioners and thousands of individual automobilists.

Florida—(Pages 835-865)

This territory is rapidly changing and road construction has been carried on on such a large scale that these maps will be rather hard to keep up to date. New roads which were contemplated at time of going to press may be open for travel by the time this volume reaches the motorist.

The publishers have done an immense amount of work in Florida this year and show practically every tourable road up to press time. Thanks are due the State Road Commissioner, Wm. F. Cocke, and H. E. Anschutz for the base maps from which our sheets were compiled.

Cuba—(Pages 866-873)

Owing to the numerous inquiries received for information on Cuban roads, we give detail maps, bases of which were furnished by the Automobile Club of Cuba at Havana, Cuba.

It will be noted that no parallel (open) lines are shown on these maps. The black lines show only stretches of improved roads except adjacent to Havana, where very good roads will be found.

In order to further assist and inform those who may contemplate or may actually tour the Cuban country, we quote below extract of letter received from the

Automobile Club of Cuba, Havana

"Our roads in general are very good and the tourist can drive from Havana to Pinar del Rio on a very good macadam road of 178 kms. and going further down to Luis Lazo, 220 kms., Guane 225 kms., Montesuelo 284 kms., and return to Pinar del Rio, a town of about 50,000 population—with two or three good hotels, especially two named Hotel Ricardo and Hotel El Globo, where can be found room with bath, local and long distance telephone, telegraph, cable, postoffice, gasoline, repair work, garage, etc.

From Pinar del Rio you may go to the city of Vinales and Esperanza, reputed as one of the most beautiful roads in the world—56 kms. from Pinar del Rio; also you may go to La Coloma, another seaport, 25 kms.

Returning from Pinar del Rio, on Km. No. 42, turning to left, there is another road to Cabanas and Bahia Honda, with very pretty views—distance 48 kms.

In other provinces of this island there are only short roads of 20 or 25 kms., but it is necessary to ship the car by train to the town. Among the most interesting cities of those provinces is the important seaport of Cienfuegos in the province of Santa Clara—the capital of this province, also named Santa Clara—Camaguey and Santiago de Cuba—which two last cities are capitals, respectively, of provinces equally named.

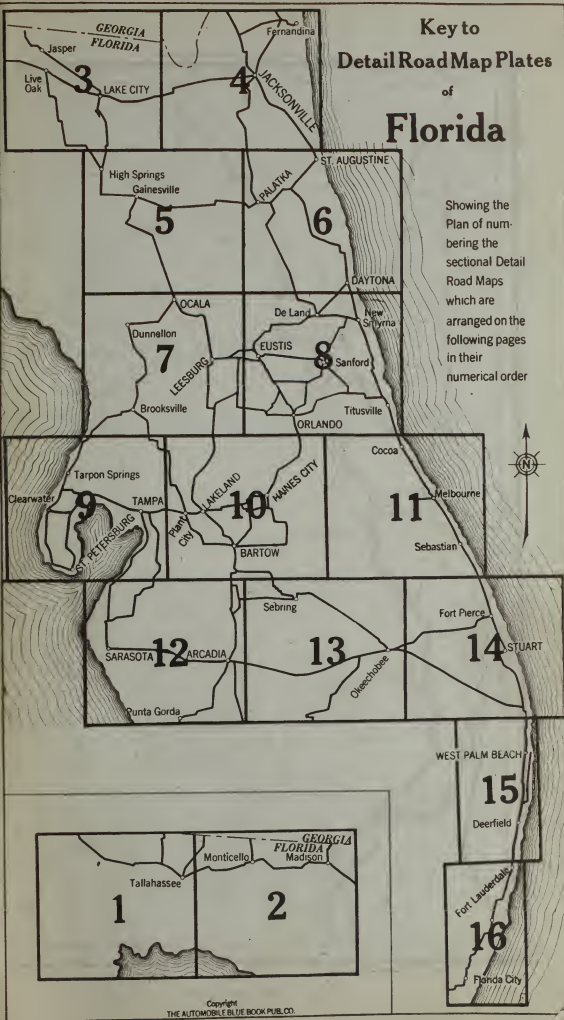

We have a number of large houses for automobile supplies, representing also the most important branches of automobiles in the United States, and they carry in stock supply parts and any other necessary repairs at very fair prices.

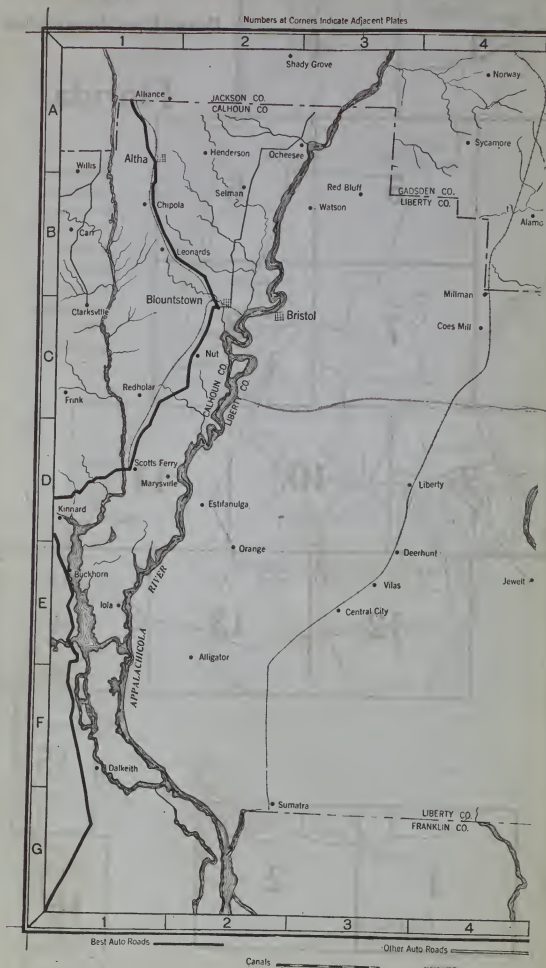

Any foreign car coming to Cuba for touring can remain three months, depositing a bond, for the value of duties, in the Custom House.

The Automobile Club of Cuba will be glad to give any information about hotels, etc.; also will be glad to attend to the shipping of cars, reservation of rooms, and in general assist anyone desiring to come to Cuba for touring."

of

CUBA

A map on larger scale of
PROVINCE OF HAVANA
will be found on page 867

Showing the plan of numbering
the sectional Detail Road Maps
which are arranged on the following
pages in their numerical order.

EXTRACT OF LETTER RECEIVED FROM THE AUTOMOBILE CLUB OF HAVANA

"From the city of Havana, as you can see on Map of the Province of Havana, there are a number of roads, as the one to the Country Club, where the most beautiful links of 18 holes can be used by any one presented by a member of the Club; also to Marianao Beach, where the Yacht Club is located—about 18 kms. from Havana City. There are also several other roads in this Province, with pretty scenery, with sugar mills, pineapple and tobacco plantations, etc. In many towns you can find gasoline, telephone, telegraph and cable connections.

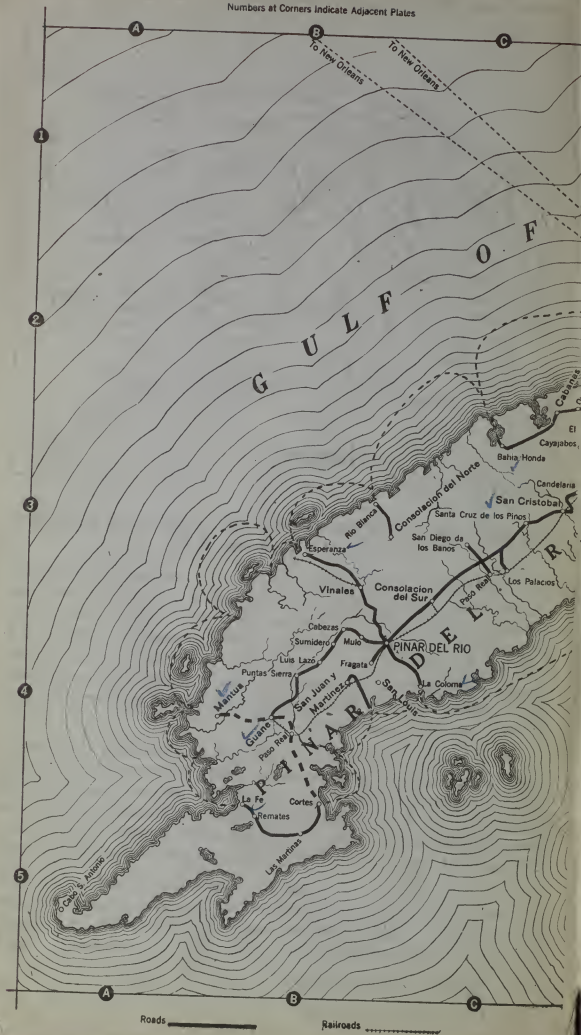

From Havana, you have a very good road to Matanzas—100 kms.—one of the oldest cities in Cuba, about 60,000 population, with very good hotels, garages and any other conveniences of a first class town. The best hotels are Hotel "Paris" and Hotel "Louvre." In Matanzas there are the beautiful Bellamar Caves—very interesting for the tourists—and the beautiful Valley of Yumuri, considered one of the most scenic spots in the world.

From Matanzas you may go to the seaport town of Cardenas, 58 kms., and from Cardenas to the splendid beach of Varadero—a wonderful place for sea bathing. All the conveniences of a first class town can be found in Cardenas. You may go also from Matanzas to Camariocas, 74 kms."

For more detailed information on Cuba see page 834.

A kilometer is 0.62 of a mile.

BRIEF GENERAL DESCRIPTION OF STATES COVERED BY THIS VOLUME

ALABAMA

Alabama, popularly known as the "Cotton State," is one of the gulf states. Topographically it may be divided into northeastern Alabama, the Tennessee valley, the Cumberland plateau, the Piedmont plain, and southwestern Alabama. Northeastern Alabama is rough and rugged, due to the termination in this section of the Appalachian mountain system which enters the state at the northeast in a series of parallel, flat-topped ridges known as the Raccoon mountains, the Look-out mountains and the Sand mountains. Beginning at the Georgia line with an elevation of 1,600 ft. they grow gradually lower till at the center of the state they break into foothills.

The Tennessee plateau is formed by the Tennessee river which enters the state at the northeast corner and serpentine in a great loop across the state, passing out just south of the northwest corner. The river valley, which is the most charming section of the state, has an average width of 20 miles and the entire 200 miles of the river loop is navigable. Just south of the Tennessee at the terminus of the mountain foothills is the low Cumberland plateau. Southeast of the mountain ridges lies the comparatively level Piedmont plain. Southwestern Alabama comprises the remaining three-fifths of the state and slopes gently to the gulf.

As regards its resources the state may be considered in four divisions: the cereal belt, the mineral belt, and the cotton and timber belts. The cereal belt extends from east to west across the northern part of the state and embraces the Tennessee valley.

The mineral belt fringes out into the cereal belt. It contains deposits of almost all the important minerals. The stores of coal and iron are practically inexhaustible. Along the south side of the Tennessee valley and within 25 miles of the river lies the famous Warrior

coal field, 7,810 square miles in extent. The Cahaba which lies south of the Warrior, is 400 square miles in extent and its measures are known to be 5,000 ft. thick. The Coosa, the least known of the Alabama coal fields, has an area of 400 square miles.

The cotton belt, also called the black belt and the canebrake, is directly south of the mineral belt. Cotton, which is the leading crop of Alabama, and in which the state ranks fourth in the Union, is grown throughout the state, but the greater part is produced in the cotton belt. In this section also all kinds of grasses flourish and general agriculture is pursued advantageously. Along the numerous streams the swamp cane grows in rank luxuriance and gives the section the name of the canebrake. Remaining perpetually green the cane makes excellent forage for animals and for many years it has been the custom of the planters to leave their stock to subsist on this during the winter. Though eaten down it puts forth fresh shoots in the spring and is again luxuriant for the next winter.

The timber belt extends from the cotton belt south to the gulf. It is 150 miles wide from north to south and uniform in character. The yellow leaf pine is the distinguishing tree. Most of the forests are virgin growths, many of the trees being 150 ft. high. Great spars are shipped from Mobile to all parts of the world. In the swamps are found fine oak and cypress timber and vast quantities of swamp moss. This moss, hanging from the trees, was for many years considered only as one of nature's curiosities, but it is now converted into mattresses.

The climate of Alabama is healthful and equable. Summer heat rarely exceeds 95 deg., but northerners find it oppressive owing to its uniformity. It is cooler in the hill regions and the islands of Mobile bay enjoy an invigorating sea breeze.

FLORIDA

Florida, the "Everglade State" and the most southernmost state in the Union, is generally spoken of as Peninsular Florida and West Florida. Though the whole state is apparently one monotonously level sandy tract, yet it may be divided physically into four sections, northern Florida, middle Florida, coastal or southern Florida, called also sub-tropical Florida, and the everglades.

In the uplands of northern Florida are forests of oak, hickory and pine; western Florida is also heavily wooded. Middle Florida is a semi-tropical region, with occasional frosts. It is characterized by the long leaf pine. This is the orange belt proper, the best oranges being grown here.

The pitch pine is the distinguishing tree growth of coastal, southern, or sub-tropical Florida. Here also are the "hammock lands," considered the best for all agricultural and horticultural purposes. "Hammock" is the local name for the extensive growths which characterize these lands; it

is the sole survival of the language of the Lucayans, the aboriginal inhabitants of the Bahama Islands, and means "a place where hard wood grows."

The Everglades are a vast tract occupying almost the entire southern portion of the peninsula. The name is derived from the English word "glade" with the prefix "ever" to denote extent. The Everglades are not, as popularly supposed, a stagnant, unhealthful swamp, but a vast grass grown tract penetrated in all directions by tortuous open channels of water a few feet deep. At short intervals over the whole tract are exceedingly fertile wooded islands densely covered with sub-tropical vegetation. It is supposed these islands were once surrounded by the sea and stood in the same relation to the mainland as do the present Florida Keys. In fact, the entire everglade tract has been shown to be a series of ancient coral dikes which surrounded what is now sub-tropical Florida. One of these ancient dikes forms the ridge

STATE HISTORY—(Continued)

of coralline rock which separates the Everglades from the coast land, only five miles wide, which lies between them and the ocean near Biscayne Bay. This dike is cut at frequent intervals by streams of clear sweet water with strong currents and navigable for small craft. The Everglades are today inhabited by the remnant of the once powerful Seminole Indians.

The "flat-lands" along the coasts of Florida are open grass grown meadows called "savannas," which are broken by occasional stretches of pine forest and by numerous swamps. These swamps are extensive, and many, on account of their impenetrable undergrowth and impassable holes and sinks, have never been explored. Among the most noteworthy are Big Cypress swamp near the southern extremity of the peninsula, Wakulla swamp and Fen Holloway. The largest of the inland swamps is Okefenokee, the greater part of which lies in Georgia.

Almost the entire Florida shore is fringed with sand-bars, which, with the growth of vegetation, gradually become islands or peninsulas. The inner, or sheltered sea beaches are of quicksand, difficult for pedestrians and impracticable for vehicles, but the outer beaches are often for miles as smooth and hard as a macadamized road.

In sub-tropical Florida the mangrove grows so profusely along the tidal rivers that passage along the bank is absolutely impossible. Elsewhere along the coast the underlying coralline or limestone crops up in a natural sea wall. Most noteworthy examples of such a wall are found along the Indian river, Biscayne Bay and Lake Worth, but the formation exists all along the Atlantic coast and along rivers flowing into the gulf. Rivers cutting through these dikes create natural bridges and other extraordinary formations of great beauty and interest.

Among other natural wonders of Florida are the springs or fountains with which it is

thickly dotted, some of which are most remarkable in the world. The most noteworthy are Wakulla spring, Silver spring, Wekiva spring in Orange county, Silver spring in Marion county, and most famous of all is Silver spring near Ocala, Marion county. At St. Augustine is a remarkable spring boiling up through the sea two miles from land. The lakes, of which Florida possesses hundreds of thousands, are but combinations of smaller springs.

The "sinks" which are frequent in west Florida and in the northern gulf counties are merely breaks in the ground exposing the currents of subterranean rivers. Sometimes they open down into still pools of extraordinarily limpid water, in which case they are called "wells."

The Florida Keys derive their name from the Spanish cayo, meaning islet. In appearance they are a chain of islands rising eight or ten feet above the sea and covered with luxuriant tropical vegetation. In reality they are a continuous coral reef 200 miles long extending from Dry Tortugas to Biscayne Bay. On this reef the little builder is still industriously at work. The keys mark the northern edge of the Gulf Stream as it passes around the peninsula and turns north into the Atlantic. They furnish a good example of the way the peninsula was formed, for the space within the reef is slowly filling up. On account of the depth of the water the present reef is the last that can be built at this point, for the coral builders cannot live at a greater depth than 60 ft. Within the reef are many habitable coral islands. The Straits of Florida which it forms, though well lighted and charted, are among the most dangerous known.

Florida extends thru 6 deg. of latitude, but has a very uniform climate, whose temperatures are 43 deg.-90 deg. F. The average summer temperature is 84 deg. F.

GEORGIA

Georgia, named in honor of George II of England, was one of the 13 original states and the last to be founded. There are many beautiful mountains throughout the state and a number of isolated peaks, which stand out strikingly from the surrounding level. The most remarkable of these is Stone mountain in DeKalb county, 14 miles east of Atlanta. Other remarkable detached peaks are Oak mountain, Lost mountain, Kennesaw mountain, with a double peak rising to a height of 1,809 ft., and Pine mountain, which extends from Barnesville to the Chattahoochee at Columbus, rising 800 ft. above the surrounding country and 1,300 ft. above sea level. The Flint river bisects it, creating some very picturesque scenery. The Appalachian region, crossing the northern part of the state offers magnificent scenery. There are many peaks 2,000-5,000 ft. high, from which radiate sharp ridges and narrow valleys. The Blue Ridge extends into northeastern Georgia to about one-third the distance across the state. Its altitude is 3,000-5,000 ft. above sea level. Twenty miles west of the Blue Ridge lies the Chattahoochee range, 3,000 ft. high. Northwestern Georgia is traversed by the Sand

and Lookout mountain ranges. The northeastern spur of the Lookout mountains is called Pigeon mountain. The loftiest peak of the range is High Point. Round mountain is a close second. Among the interesting features of northwest Georgia are numerous caves, of which Hardin's cave, near Kingston, is the most noted. Abundant relics of prehistoric times are also found, such as mounds, fortifications, etc. Natural medicinal springs are numerous throughout the country.

Georgia was originally completely covered with forest except for the bald mountain summits. At the last census approximately 67 per cent of the state was still forested, though not with virgin growth. The forests of pine are lovely, being open and sunny with an undergrowth of wire grass and other low plants. Along the coast are swamp lands heavily timbered with cypress, oaks, bays, and gum trees. Bordering the swamps are hammocks (extensive tree and undergrowth of tropical luxuriance) in which flourish the evergreen, magnolia, evergreen willow oak, red bay, dogwood, and hop hornbeam. In all the lower and damper regions

STATE HISTORY—(Continued)

of the plain the Spanish moss, *tillandsia usneoides*, trails from the trees in tropical luxuriance. The saw palmetto, *Serenoa*, raising its stiff fan like leaves two feet above its recumbent trunk, is the most conspicuous feature of the undergrowth in the pine wood along the coast. The cabbage palm is found in the Sea Islands and on the mainland adjoining them.

Of the nine climate belts in the United States Georgia includes eight, the mean annual temperature varying from 75 deg. F. in the southeastern part of the coastal plain to 40 deg. F. in the northwestern mountain region. On the sides of the mountains the climate is similar to that of New York and New England. Middle Georgia has a climate which corresponds with that of the upper

parts of Alabama and the other gulf states. Snow seldom falls in southern Georgia. In middle Georgia two inches is the usual maximum. In the mountainous region frequency and depth of snowfall increase. The six warmest months are May to October. These are also the rainy months. The amount of rainfall increases toward the coast. Rome, in northwestern Georgia, is literally the driest place in the state. The coast feels the effect of the West Indian hurricanes in late summer and fall, and in spring or early summer the interior experiences a tornado on an average of one in three years.

In 1908 statewide prohibition went into effect in Georgia. In 1916 the prohibition laws were amended by a bone dry enactment.

MISSISSIPPI

Mississippi takes its name from the river which forms its western boundary for about 300 miles and separates this state from Louisiana and Arkansas. In general the surface of the state is undulating. Through its center from north to south runs a broad low ridge which constitutes the main divide and ends in a high bluff near Vicksburg. To the east of the divide are the uplands, vast prairies of exceeding fertility, which rise gradually from an elevation of about 150 feet near the coast to an altitude of 600 feet in the northeastern part of the state. West of the watershed the country is broken into narrow ridges and valleys, which gradually sink to the level of the Yazoo Delta, an elliptical region stretching north from the junction of the Mississippi and Yazoo rivers to the Tennessee line, and diversified by swamps, lakes, bayous and cane brakes. The delta is bordered on the east with bluffs 100-300 ft. in height formed by the erosion of the rivers, and known as the bluff formation or the brown-loam table lands. Through the middle of the delta runs a flat ridge above flood level, the most fertile soil in the state and renowned as the finest cotton land in the world. Extending from Vicksburg across the state is a prairie belt 18-25 miles wide, south of which is the pine woods region. The forests of the state are noteworthy for their great variety of trees, more than 120 species being included. Yellow pine is the most cut and the lumber industry is the most important single industry in the state.

From the tourist standpoint the most striking feature of the state is its orange sand, whose presence on the surface is so general as to make its absence noticeable. This sand is colored by hydrated peroxide of iron. On the Pontococ ridge and in Itawamba county it is of a dull iron rust color; in the region of the long leaf pine it is of a delicate rose tint, and sometimes of a bright yellow, crimson or purple. In other parts of the state it is of a bluish color, and occasionally white. The average thickness of this sandy stratum is 40-50 ft., though sometimes it is found 100 ft. thick and in rare instances 200 ft. In some places this sand concretes into sandstone, which is used for building material. These indurations are generally found topping isolated hillocks which rise 150 ft. from the surrounding plain.

The summers of Mississippi are generally long and hot, but not unhealthful, except in the delta. The winters are short and damper and colder than those of the Atlantic states in the same latitude. In summer the temperature rarely reaches 98. The minimum winter temperature along the gulf is 28 F.

In 1908 the state legislature passed a prohibition measure whose strictures were increased by the measure of 1914 restricting intrastate shipment of liquors and prohibiting the keeping of liquor in any locker of any club or any other organization. Another statutory provision forbids the giving of tips in hotels.

NORTH CAROLINA

North Carolina, extending from the sea to the crest of the Great Smoky mountains, comprises three distinct physiographic divisions, the coastal plain, the Piedmont plateau and the Appalachian highland. A line drawn from Roanoke through Raleigh to Pinehurst marks the western limit of the coastal plain which everywhere level and sandy extends from the sea 80-150 miles inland. Numerous rivers cross it, and along the coast are lagoons and about 3,000,000 acres of swamps.

The Piedmont plateau, about 300 miles broad, begins at the coastal plain with a rise of 500 feet and extends to the foot of the Blue Ridge. It comprises half the area of the state. Undulating in the eastern part, it

grows more and more hilly westward until hills become small mountains.

The southeastern escarpment of the blue ridge rising 1,200-1,500 ft. above the Piedmont plateau, or 4,000 ft. above sea level, bounds the Piedmont plateau on the west and forms the beginning of the Appalachian highland. This highland consists of a mountain belt 225 miles wide running northeast to southwest with the Blue Ridge for its eastern edge, the Great Smoky mountains for its western, and between them their parallel chains, the Unaka, Bald and Iron mountains, and the transverse chains of the Black, Cowee, Nantahala and South mountains. The Black mountains include the loftiest peaks of the

STATE HISTORY—(Continued)

Appalachian system, the highest being Mt. Mitchell, or Black Dome, 6,711 ft. high. This is eastern America's highest mountain. There are more than 25 peaks over 6,000 ft. in height. The mountains are generally forested, but the high peaks have bare summits.

The Chimneys, Painted Rock, Blowing Rock, Roan Pilot, Grandfather's and Pilot mountain, Catawba Falls and the deep Swannana Gap are among particular objects of interest in this state. The moun-

tain country is beautiful and the ing the summer and fall delights is crisp and clear in the winter and not too severe. In the vicinity of Asheville, which region has been termed "Land of the Sky," the scenery is particularly striking. Along the coast the summers are somewhat warm and damp and near the swamps fevers are not uncommon. The middle section of the state is on the whole healthful.

SOUTH CAROLINA

South Carolina is popularly known as the "Palmetto State." Topographically it consists of two well marked and almost equal divisions, the Coastal Plain and the Piedmont plateau. Beginning at the Atlantic ocean the coastal plain extends inland 125 miles. Its western limit is defined by an old shore line which passes from Cheraw through Camden and Columbia to Augusta, Ga. This shore line runs parallel with the present coast. It is called the "fall line" and along it the abrupt rise from the Coastal Plain produces a number of waterfalls. From the North Carolina line south to Winyah bay the shore line is an unbroken sandy beach. South of this point it becomes more and more broken by inlets and estuaries, and is bordered by low sandy islands which in the region of Port Royal lie in ranks three or four deep, the islands being separated by irregular transverse channels bordered with salt marshes. The Coastal Plain is everywhere low and level. Its greatest elevation is 450 feet along its western limit, where it rises in a line of sand dunes covered with pines. Along the coast there are large areas of swamps.

The Piedmont plateau beginning at the "fall line" extends northwest to the eastern escarpment of the Blue Ridge mountains

which form the northwest boundary of the state. The surface of the Piedmont section is diversified and rises gradually from an elevation of 450 ft. along its eastern edge to 1,200 ft. in the extreme northwest, where the escarpment of the Blue Ridge rises abruptly 2,000 feet above the plateau. The far northwestern part of the plateau, where the elevation is over 1,000 ft., is called the Alpine region. Here the mountains rise precipitously to great heights. Historic King's mountain, 1,692 ft. high, rises perpendicularly for 500 ft. on its southeast face. Table Rock is 800 ft. vertically on its southeast side. Other high mountains are Paris mountain, 2,054; Caesar's Head, 3,118; Mount Picala, 2,426, and Rich mountain on the boundary, 3,569 ft. high, is the highest elevation in the state.

The climate is dry and equable and the mountain sections attract many tourists and health seekers. The coast region was at one time subject to epidemics of yellow fever and even now malarial tracts are found in the rice swamps. A disastrous earthquake struck the state in 1886, destroying a large part of the city of Charleston.

In the election of 1916 the state decided for prohibition.

TENNESSEE

Tennessee, the "Volunteer State," was the third admitted to the Union, and the first ever formed from a territory of the United States. Long and narrow, it stretches like a ribbon from the crest of the Appalachian mountains on the east to the low alluvial plain of the Mississippi on the west.

It consists of three political divisions, east Tennessee, middle Tennessee and western Tennessee, having distinct and widely differing topography, geology, soil and climate, with consequent differences in products and in the character and habits of the population.

East Tennessee lies between the Cumberland mountains and the eastern boundary of the state. From east to west this section may be divided into mountain, valley and plateau regions. In succession from northeast to southwest on its eastern border the Iron, Bald, Great Smoky and Unaka mountains, among the highest ridges of the Appalachian system, rise to an average altitude of over 5,000 feet. There are numerous lofty peaks with bald summits and ancient rocks, among them Clingman's Peak, 6,616 feet high; Mt. Guyot, 6,636 feet; Mt. LeComte, 6,612 feet, and Mt. Love, 6,443 feet high.

The valley of East Tennessee has a northeast and southwest trend, is furrowed with

minor valleys, and is geographically and geologically a continuation of the Kitatinny Valley of New Jersey, the Cumberland Valley of Pennsylvania, and the Shenandoah Valley of Virginia.

The western section of East Tennessee is occupied by the Cumberland Plateau, which is formed by the level tops of the Cumberland mountains, and terminates on the southeastern side in perpendicular or overhanging cliffs of great height, with numerous caves.

Middle Tennessee extends from the Cumberland Plateau on the east to the lower Tennessee river on the west. It consists of a series of fertile terraces traversed by ravines and streams, and has a general slope northward to a basin-like area known as "the garden of Tennessee."

Western Tennessee extends from the Tennessee river to the Mississippi river. Beginning with a plateau slope, it descends gently to the alluvial bottom lands of the Mississippi. It has orange-colored sand hills, cretaceous beds, cotton soils and lakes, numerous cypress swamps and is partially timbered.

The climate of Tennessee, especially in summer, is varied. The mountain rim of East Tennessee has cool Canadian summers ar

STATE HISTORY—(Continued)

to some extent Canadian flora. The valley and plateau region of East Tennessee has summers like those of Ohio and New Jersey, while the summers of Middle Tennessee are like those of Northern Georgia and South Carolina. In general the climate of the state

combines the milder features of the temperate and subtropical zones. The herbage is usually green all the year, and cattle can graze through all the season.

The resources of Tennessee are remarkable. In minerals it is one of the richest states.

VIRGINIA

Virginia, meriting the proud title of "Mother of Presidents," is one of the thirteen original states. Topographically Virginia from east to west consists of the Coastal Plain, the Piedmont Plateau and the Appalachian mountains. The Coastal Plain extends westward from the coast and Chesapeake bay for 50-150 miles. It also includes the peninsula. It constitutes about one-quarter the total area of the state, is low and level, and in some parts marshy. Great Dismal Swamp occupies the southeastern corner. In this swamp is Lake Drummond, 5 square miles in area.

The Piedmont Plateau begins with a small well-marked escarpment locally known as the "fall line" on the western boundary of the Coastal Plain, and extends westward to the southeastern base of the Appalachian mountains—that is, to the foot of the Blue Ridge. Its surface is diversified. Streams cross it in deep, narrow channels, and rocky areas often rise several hundred feet above the surface.

The Appalachian mountains embrace the western part of the state. Extending from northeast to southwest far beyond the limits of the state, within its borders they begin with the Blue Ridge on the east and then in order westward are the Great Valley and the parallel ridges of the Alleghenies, with narrow valleys between, and lastly the Cumberland mountains forming the boundary between Kentucky and Virginia. The Blue Ridge mountains begin at Harpers Ferry, on the northern boundary, and extend in a

southwesterly direction across the state. Their height at Harpers Ferry is 1,200 feet, and gradually increases toward the southwest to a height of 4,000 feet. Southwest of Roanoke they become plateau-like with a steep descent on the southeast and a gentle slope to the northwest.

The Great Valley is the Valley of the Shenandoah, which flows north into the Potomac. The rich limestone soil makes the valley the most important agricultural region in the state. The Plateau of the Blue Ridge cuts off the Great Valley at the southwest, and is traversed by the parallel ridges of the Alleghenies, the most important ridges being from east to west the Iron, the Clinch and the Sandy Ridge mountains. In this region the highest elevations are found, Rogers Mt., 5,719 feet, and White Top, 5,530 feet.

Each section of the state has its local peculiarities and offers much in the way of sublime scenery and rugged beauty. The Luray caves in Page county, Natural Bridge in Rockbridge county, Peaks of Otter in Bedford and Botetourt counties, the Natural Tunnel in Scott county, and Weyer's and Newmarket caves are some of its famed beauty spots.

Virginia's most important source of wealth is her deposit of iron and coal, the important mines being in Wise and Tazewell counties. In the value of her fishery products she ranks second in the United States.

The climate of Virginia is equable and warm. Sudden changes are rare.

Spanish Moss—A Pretty Sight Along the Gulf Coast.

ABSTRACTS OF STATE MOTOR LAWS

For States Covered by Route Matter in Volume 6
(Legislature in session when this went to press).

ALABAMA.

Registration. Annually, with Judges of Probate.
Fees. Less than 25 H. P., \$7.50; 25-30 H. P., \$12.50; 30-40 H. P., \$17.50; over 40 H. P., \$20.00. Electrics, \$12.50. Steam automobiles, \$15.00. Motorcycles, \$3.00; with side car, \$5.00.
Chauffeur's License. \$5. Renewal fee, \$2.50. Badge furnished. Application must be on blank furnished by Secretary of State.
Numbers. Rear: supplied.
Lights. Half hour after sunset to half hour before sunrise. Two white headlamps. Red in rear. Must illuminate number plate.
Speed. Reasonable and proper, not to exceed 30 miles an hour for $\frac{1}{4}$ mile.
Fines. Determined by magistrate before whom case is taken.
Non-residents. Exempt if home state grants reciprocity.

DISTRICT OF COLUMBIA.

Registration. With Automobile Board, Washington.
Fees. Vehicles of 24 H. P. and less, \$3.00; vehicles of from 24 H. P. to 30 H. P., \$5.00; vehicles of more than than 30 H. P., \$10.00.
Chauffeur's License. \$2, perpetual. Owners driving require license.
Number. Rear; cost, \$2, to collector of taxes. Good as long as the machine for which it is secured belongs to the owner securing the tag.
Lights. Unlawful to use acetylene or electric headlight or sidelight unless same is dimmed by some sufficient device.
Speed. 18 miles an hour within fire limits; 12 miles at street car intersections; 12 miles rounding corners; 22 miles where there are not more than 2 houses in a block.
Fines. First offense, \$5 to \$50; second offense, within 1 year, \$10 to \$100, or 5 to 30 days; third offense within 1 year and subsequent, \$50 to \$250, and 30 days to 6 months in jail.
Non-residents. Exempt for period granted by home state to residents of the District of Columbia.

FLORIDA.

Registration. Annual, with comptroller of state, Tallahassee.
Fees. Motorcycles \$2.00. Automobiles 22 H. P. or less \$5.00; 22-27 H. P. \$8.00; 27-35 H. P. \$12.00; over 35 H. P., \$15.00; carrying more than ten passengers, \$100.00.
Chauffeur's License. \$2. Annual. After July first, \$1.
Numbers. Front and rear; supplied by Comptroller.
Lights. From sunset to sunrise. Light rays must not rise more than 42 in. 75 ft. in front of car.
Speed. "Reasonable and proper"; 10 miles on curves, bridges, crossings; 25 miles on open highways; 3 miles passing street cars stopping or about to stop.
Fines. Not more than \$100 or 6 months in county jail or both.
Non-residents. Exempt, provided home state grants reciprocity and home state laws are complied with.

GEORGIA. (Legislature in session when this went to press.)

Registration. Annually (March 1), with Secretary of State, Atlanta.
Fees. \$3 to \$5, according to horsepower. Registration fee one-half on or after Aug. 1.
Chauffeur's License. Annually (March 1), \$2. On or after Aug. 1, \$1.
Numbers. Rear, non-swinging. Supplied by state.
Lights. One hour after sunset until one hour before sunrise. Lights throwing 100 feet.
Speed. "Reasonable and safe"; not over 30 miles. Not over 10 miles, curves, bridges, crossings.
Fines. Violation a misdemeanor.
Non-residents. Exempt for 30 days, provided home state laws are fully complied with.

ILLINOIS.

Registration. Annually, on January 1, with secretary of state, Springfield.
Fees. Motorcycles, \$4 per annum. Motor vehicles divided in two divisions.
First Division. Cars with capacity of seven passengers or less, 25 H. P. or less, \$8 per annum; between 25 and 35 H. P., \$12; between 35 and 50 H. P., \$20; over 50 H. P., \$25. All electric vehicles, \$12.

STATE MOTOR LAWS (Continued)

Chauffeur's License. Original fee, \$5. Annually thereafter, on January 1, \$3. Must pass examination and carry photograph on license card. Must also be over eighteen years of age.

Numbers. Front and rear, non-swinging, furnished by state.

Speed. Reasonable and proper, having regard for traffic conditions. The following rates of speed are declared unreasonable: Over 10 miles per hour in business portions of any incorporated city or town; over 15 miles per hour in residence sections; over 20 miles per hour outside closely built-up sections within corporate limits; and over 30 miles per hour when outside corporate limits.

Lights. From sunset to one hour before sunrise. Lights visible 200 ft. in front of car. Must dim lights when within 250 ft. of another vehicle.

Fines. First offense, \$1 to \$200. Second violation, double the penalty provided for first offense, and in addition, a possible revocation of license for three months; third and subsequent offense, double the first penalty, and in addition, a possible revocation of license for six months.

Non-residents. Exempt for 6 months, provided laws of home state grant residents of Illinois like privileges, and provided home state laws have been complied with.

KENTUCKY.

Registration. Annually, with commissioner of motor vehicles, Frankfort.

Fees. 1-24 H. P., \$6; 25-49 H. P., \$11; 50 H. P. and over, \$20.

Chauffeur's License. Annually; fee, \$2; renewal, \$1.

Numbers. Must be carried front and rear; not under 18 in. or over 4 ft. from ground.

Speed. "Reasonable and proper"; 10 miles built-up sections; 15 miles through residence portions; 20 miles elsewhere; 8 miles on curves, etc.

Lights. Two white headlamps. Visible 200 feet. One red in rear. Must illuminate plate number.

Fines. \$10 to \$50, speeding; \$10 to \$100 for using fictitious number.

Non-residents. Exempt if registered in home state.

LOUISIANA.

Registration. Annually, with the secretary of state, Baton Rouge. All certificates expire on December 31.

Fees. Twenty-five cents (25c) for each horsepower. Minimum fee of \$5. Whole license fee payable prior to August 1 of each year; after that date a half-license fee applies.

Lights. Two white headlamps. Visible 200 feet. One red in rear.

Numbers. Front and rear, furnished by state.

Non-residents. Exempt, if home state grants reciprocity, and all its regulations are complied with.

MISSISSIPPI.

Registration. Annually, with tax collector of county.

Fees. Electric vehicle, \$4.80. All others, 24c per horsepower. Minimum charge, \$5.00. Motorcycles, \$2.00.

Tags. Furnished by tax collector on application.

Lights. Two white headlamps. Visible 200 ft. One red in rear. Must illuminate number plate.

Speed. "Reasonable and proper." Not more than 15 miles per hour in built-up sections or more than 30 miles elsewhere.

Non-residents. Exempt for 60 days if properly licensed by home state.

NORTH CAROLINA.

Registration. Annually, July 1, with secretary of state, Raleigh.

Fees. Registration, 1-26 H. P., \$10; above 26 and up to 30 H. P., \$15; over 30 H. P., \$20.

Chauffeur's License. None required.

Numbers. Front and rear.

Speed. "Reasonable and proper"; 10 miles business sections; 18 miles other portions; 25 miles elsewhere.

Lights. Two headlamps. Direct rays must not rise more than 42 in. above roadway 75 ft. in front of car.

Fines. Not over \$50, or imprisonment for 1-30 days.

Non-residents. Exempt same number of days as home state grants to North Carolina motorists.

STATE MOTOR LAWS (Continued)

OHIO.

Registration. Annually, with secretary of state, Columbus.

Fees. \$5, gasoline or steam; \$3, electric. Motorcycles, \$2.

Chauffeur's License. \$3 annually.

Numbers. Front and rear, non-swinging, furnished.

Speed. 15 miles in built-up sections; 20 miles other sections, cities or towns; elsewhere, 30 miles.

Lights. Two headlamps. Visible 200 ft. Direct light must not rise more than 42 in. from the roadway 200 ft. in front of car.

Fines. First offense, \$1 to \$25; second, \$25 to \$50; third, \$50 to \$100, or 30 days.

Non-residents. Exempt if complying with home laws. May tour state in a fixed locality not more than one week.

SOUTH CAROLINA.

Registration. With State Highway Department at Columbia.

Fees. 25 cents per H. P., A. L. A. M. Dealers, \$15 for each make.

Numbers. Rear only.

Speed. "Reasonable and proper." Never more than 15 miles per hour.

Lights. Two white headlamps. One red in rear.

Fines. Violation a misdemeanor. \$25-\$100, or not more than 30 days at hard labor. \$25 for non-registration.

Non-residents. Exempt for 30 days.

TENNESSEE.

Registration. Annually, January 1, with county clerk.

Fees. Fifty cents per horsepower, S. A. E. rating, with additional charge of \$5 per ton on trucks for each ton-carrying capacity. After September 1, half rates.

Chauffeur's License. None required.

Numbers. Front and rear, furnished by state.

Lights. Two white headlamps. One red in rear.

Speed. Not to exceed 20 miles.

Fines. Violation a misdemeanor; \$5 to \$50 each offense.

Non-residents. Thirty days.

VIRGINIA. (Legislature in session when this went to press.)

Registration. Annually, with secretary of state, Richmond.

Fees. 40c per H. P., S. A. E. rating. On and after September 1 of each year, 20c.

Chauffeur's License. \$2.50 annually.

Numbers. Front and rear, supplied by state; illuminated.

Speed. Eight miles on curves, intersections, built-up portions, etc.; otherwise, 20 miles.

Lights. One white headlamp throwing light 100 ft. One red in rear. Must illuminate number plate.

Fines. Minimum, \$10, or 5 to 30 days, or both; maximum, unlimited.

Non-residents. Exempt 2 periods of 7 consecutive days each year.

WEST VIRGINIA.

Registration. Annually, with state auditor, Charleston.

Fees. Annually, \$10 and up, according to weight of car. Motorcycle, \$5.

Chauffeur's License. \$3.

Numbers. Front and rear, supplied.

Lights. White headlamps. Red in rear.

Fines. Punishable as a misdemeanor; first offense, not to exceed \$100.

Non-residents. Exempt, if home state initials and numbers are displayed and reciprocity is granted.

Regulations for Importation of Automobiles Into Cuba

Tourists must apply to consul for bond and certificate; same will be issued for a period of 60 days.

Certificates are renewable.

Then look at your front wheels!

The man who uses a Motor Life Car Cost Record System can check up any unusual wear of his tires. Suppose your front tires are not giving the proper mileage—according to your Car Cost Record? Then look at your front wheels—the chances are they are out of tone. Write us today and we will explain more about the Car Cost Record System. Every motorist should know about it.

Rates subject to change.

SHIPPING REQUIREMENTS

Batteries of electric vehicles must be removed and boxed. Vehicles operated by gasoline must have tanks emptied, the tank cover removed and packed separately, and the sparking wire detached.

As only a limited number of machines can be handled on one ship, automobiles, set up, will be received only on the morning of sailing of steamers.

Reservations of space must be made in advance and directly thru the Port Agents.

To Locate Any Town

Turn to alphabetical Index of Towns in front of this book. By the key on the page given opposite the town, you can locate the town on the map, page 7, and the Blue Book route that passes thru it.

STEAMSHIP SCHEDULES (Continued)

NEW YORK TO GALVESTON AND NEW ORLEANS

Southern Pacific Co.

(Morgan Line)

Pier 48, North River, New York

RATES

NEW YORK TO GALVESTON, TEXAS

Automobiles as described below:

- (1) When having two or more seats (not Runabouts), also Freight Vehicles and chassis, crated or boxed (see Note 1).....\$ 1.72½
- (2) When having two or more seats (not Runabouts), also Freight Vehicles and chassis, not crated or boxed (see Note 2)..... 2.30
- (3) Runabouts or one-seated, including cycle cars set-up, not crated or boxed (see Note 3)..... 2.30
- (4) Runabouts or one-seated, including cycle cars, crated or boxed, package not exceeding 110 inches in length and 30 inches in height (see Note 4)..... 1.72½
- (5) Runabouts or one-seated, including cycle cars, crated or boxed, package exceeding 110 inches in length and 30 inches in height (see Note 5).... 1.72½

Note 1.—Minimum charge \$80.50 for each machine.

Note 2.—Minimum charge 92.00 for each machine.

Note 3.—Minimum charge 52.50 for each machine.

Note 4.—Minimum charge 23.00 for each machine.

Note 5.—Minimum charge 34.50 for each machine.

NEW YORK TO NEW ORLEANS, LA.

Automobiles, carloads, minimum weight 10,000 pounds (see Note).....\$1.15

Note.—Where the Southern Classification No. 43, or reissues thereof, provides that Carloads are subject to Rule 24, that rule will govern, except that the combined length-over-all of vehicles comprising the shipment will be considered the length of car in determining the minimum weight applicable.

The Minimum Weight as shown in the Southern Classification proper will apply on all shipments of Vehicles the combined length of which does not exceed 36 feet 6 inches.

When the combined length-over-all is over 50 feet 6 inches the Vehicle or Vehicles making the excess shall be treated as a separate shipment.

Where any Vehicle is not over 8 feet 9 inches in length, the width-over-all shall be used in arriving at the combined length.

Vehicles, self-propelling, other than chassis on open-bodied trucks, not boxed or crated, minimum weight 2,500 pounds each L. C. L., \$2.30.

Vehicles, self-propelling, other than chassis on open-bodied trucks, in boxes or crates, actual weight L. C. L., \$2.30.

The charge for tollage at New Orleans will be 5 cents per ton of 2,000 lbs. (Minimum on any one shipment 1 cent), in addition to the rates named.

Between Philadelphia, Pa., and Boston, Mass. Minimum weight, 2000 lbs. for each machine, set up, not boxed or crated, \$1.32½. Minimum charge, \$26.50.

Between Norfolk, Boston and Providence. Minimum weight, 2000 lbs. for each machine set up, not boxed or crated, \$1.70 per 100 lbs. Minimum charge \$34.00.

RULES

First—The tanks must be emptied in the street before the automobile or motorcycle is placed on our piers, and in all cases where possible, these tanks should be allowed to drain for two (2) hours before shipment.

Second—After the tanks have been emptied and drained, and before the automobile or motorcycle is loaded in the ship, the cocks must be closed so that if there is any vapor remaining in the tanks it will not escape in the ship.

Third—Any automobile of any kind that cannot be run aboard the ship on its own wheels, unless boxed or properly crated, will not be accepted; in other words, an automobile too high or too large in any way to pass through the ports of the ship on its own wheels will not be accepted.

Note.—The ports of our ships are 6 feet high and 9 feet wide.

WEST INDIES, Etc.

NEW YORK TO PORTO RICO

The New York & Porto Rico Steamship Company
Pier 35, Brooklyn, N. Y.

SPECIAL RATES ON AUTOMOBILES

Accompanied by passengers:

Automobiles for bona fide pleasure and touring purposes (not for sale, hire, or other commercial purposes) when accompanied by owner or chauffeur will be carried at special reduced transportation charges as follows:

Cars weighing up to and including 3000 pounds, one way or round trip.....\$125.00

Cars weighing in excess of 3000 pounds, one way or round trip.....150.00

Return movement to point of origin to be made within 90 days from date of debarkation of automobile on going trip, and provided the automobile has not changed ownership during the meantime. If a substitution is made in the automobile and/or the owner thereof, freight for the return trip will be computed on the basis of the company's regular tariff rate for cargo.

Only one automobile per steamer will be carried under these conditions on account of any person or family. The owner will be required to execute at point of original shipment, before shipment, an agreement and carrier's limited liability release in consideration of the application of special reduced transportation charges.

When making application for space accommodations for an automobile the passenger must furnish the factory number of the car and indicate same upon bill of lading.

Cars must be shipped unpacked and uncrated. Space from New York must be reserved at least one week in advance of sailing, and a shipping permit secured from the Freight Department. Space from San Juan to New York should be reserved two or three weeks in advance of sailing. Owing to their space requirements, Limousines can be accommodated only on the S. S. "Brazos."

Cars that are duly licensed and registered in any state of the United States may be operated in Porto Rico for five days after date of arrival, after which special tourist licenses must be taken out for which the charge is \$2.00 per month. Such licenses can be obtained for a period of four months.

STEAMSHIP SCHEDULES (Continued)**NEW YORK TO HAVANA AND VERA CRUZ**

New York and Cuba Mail S. S. Co.

(Ward Line)

Steamers leave Pier 13, East River, Foot of Wall Street, New York

RATES ON AUTOMOBILES

New York to Havana, Cuba.....	{ Boxed or crated, per cu. ft.....	22½¢
	{ Uncrated, per cu. ft.....	27½¢

(Plus 15c per 100 lbs. for wharfage and handling charges or lighterage at Havana.)
New York to Vera Cruz, Mexico, crated, 30c per cu. ft. Freight must be prepaid.

Regulations Covering the Entry of Automobiles Into Cuba:

Between New York and Havana, automobiles for tourists will be carried as baggage at owner's risk, when accompanied by owner or chauffeur. The regular freight charge will apply on the outward transportation. For the homeward trip, provided cars return within sixty days, a discount will be made and charge will only be 20 per cent of the outward rate.

Passenger will be required to sign a release. Only one automobile will be carried under these conditions on account of any one first class passenger ticket.

"(c) Automobiles of American manufacturer (carrying no foreign parts or equipment) should be cleared at the New York Custom House in order that the record may be available for free return entry and such clearance will be arranged on application to baggage master on Pier 13, East River, New York.

"(d) Automobiles of foreign manufacture must be inspected and registered at Public Stores, New York, to enable free return entry, and such registry will be arranged by our Customs Department, free, on application.

"(e) On arrival in Cuba automobiles must be declared at the Custom House under Article No. 330 of the Cuban Customs Tariff, in accordance with Circular No. 10, of April 5, 1910, which provides for use of such machines for 30 days. An extension of time for 30 days will be granted if applied for at least ten days previous to expiration of the first 30 days' allowance. It is unusual to grant extension beyond the second period, or 60 days in all."

UNITED FRUIT COMPANY STEAMSHIP SERVICE

From New York: Havana and Santiago, Cuba; Kingston, Jamaica; Cristobal, C. Z.; Bocas del Toro, Panama; Cartagena, Pt. Colombia and Santa Marta, Colombia; Pt. Limon, Costa Rica; Barrios, Guatemala; Pto. Cortez, Honduras; Belize, British Honduras.

From New Orleans: Havana, Cuba; Cristobal, C. Z.; Bocas del Toro, Panama; Pt. Limon, Costa Rica; Barrios, Guatemala; Cortez and Tela, Honduras; Belize, British Honduras.

Connections can be made at Cristobal for all ports of Central and West coast of South America.

Frequent service is maintained from New York and New Orleans to the above ports, but owing to war conditions, definite schedules cannot be published. For information apply to the various offices of this company.

Cars of Foreign Manufacture must be cleared through the Custom House before leaving the United States, and a Consular Invoice secured from the American Consul at foreign port upon return to avoid payment of duty. Cars of American Manufacture need not be cleared through the Custom House when leaving the United States. Upon returning from abroad, cars may be declared as passenger's baggage, and it will be examined by Custom House officers on pier upon arrival and passed immediately if all is in order.

Passengers taking automobiles (whether of domestic or foreign manufacture) as baggage from any United States port, must secure a Shipper's Export declaration, sworn to before a Notary Public or Custom House officer, and forward to Passenger Traffic Department when making arrangements for shipment. Customs officer will furnish an additional copy of declaration, which must be retained by passenger in order that same may be presented to Customs Inspector when automobile is returned. Blanks will be furnished upon application.

Automobiles shipped to points in Cuba, must be accompanied by a Consular invoice, and upon arrival in Cuba they must be declared at Custom House. In accordance with Customs Circular, the use of automobile for 30 days will be granted. An extension of 30 days will be allowed if application is made ten days before expiration of first 30 days' allowance.

Automobiles not accompanied by owners or chauffeurs, or between ports other than those specified, will be handled only as cargo.

Automobiles will be carried to Havana and Santiago, Cuba, at a special rate; for information regarding all rates apply at office of Passenger Traffic Manager, 17 Battery Place, New York City.

FLORIDA PORTS TO THE WEST INDIES

Definite sailing days and hours to Key West, Havana and Port Tampa furnished upon application to The Peninsular & Occidental Steamship Company.

How to Use the Route Chart and General Index

To lay out through trips between route centers you will find the Route Chart (page four) of great service.

For a comprehensive survey of all the territory and routes covered by this volume, see the large folded General Index Map in front of Book.

LONG DISTANCE ITINERARIES

Showing best way between large Cities with Route Numbers and Mileages. ITINERARIES for long distance tours in any of the other Volumes of The Blue Book will be furnished upon receipt of the Blue Postal Card, properly filled out.

The most convenient way to use your Blue Book

The Blue Book Holder with a Transparent Face

- holds the Blue Book open, in the strongest wind;
- prevents fluttering or torn pages;
- keeps the Blue Book clean;
- makes it rain-proof in any ordinary storm;
- does away with that "death grip."

A staunchly built leather holder with a transparent face that protects your book at any speed or in any weather. May be hung on robe rail or carried in the driver's lap. Pages can be turned without removing the book from holder. The most convenient way to carry or pack the Blue Book.

Royal Blue Finish, to match the Blue Book

Genuine Leather \$3.00 each

Imitation Leather \$2.00 each

For sale by all Blue Book dealers
or sent postpaid on receipt of price

"Meet Captain Hardy"

"Now, as I was saying, or was about to say, electricity is a lot like some people I know. If it's got some work to do and sees an easy way to dodge it, it just dodges. It steers the easiest course it can find. It doesn't do you any good to clean the points of a spark plug and then leave all this soot up underneath on the porcelain. The current flows from the center electrode up over the soot to the shell without going near the points at all.

"And one more thing, use the manufacturers' gauge when you test the width of the spark plug gap. Your guess may be good but it isn't good enough."

MOTOR LIFE

THE MONTHLY MAGAZINE FOR
RED-BLOODED MOTORISTS

DISCOVERED CAPTAIN HARDY

Before Motor Life readers knew him he was a marine engineer and a designer of marine engines. Years ago when people turned to look at motor cars, Cap turned to repairing them. He has been at it ever since.

The old captain is human. He lives and talks to you from the pages of Motor Life every month, and from the wealth of his practical experience he is helping Motor Life readers to get 100 cents' worth of service for every dollar spent on their cars.

This is just one of the features of Motor Life—the most helpful and most beautiful motor magazine published.

See colored insert of Motor Life and note the special offer to Automobile Blue Book users.

*The most convenient way
to use your Blue Book*

The Blue Book Holder with a transparent face

- holds the Blue Book open, in the strongest wind;
- prevents fluttering or torn pages;

At absolutely Join the most complete tour

What It Is—

The Blue Book Touring Club is an organization devoted entirely to serving Blue Book owners. It plans your motor trips from start to finish, recommends the best and shortest roads to take, tells you which routes are the most attractive, and where you can find the best accommodations for yourself and car. It gives you last minute advice on present conditions of the roads you travel over and temporary detours—information that is impossible to be given in a yearly publication like the Book itself.

Whether you want to travel from Coast to Coast or on a short week-end run, you simply write to the club at any of the addresses below and you receive within a day or two a complete itinerary of the trip by Blue Book route numbers with full details. Everything you want to know will be answered. You save hours of worry and indecision.

The Club's Facilities—

There is no other organization in existence that can furnish you such accurate and up-to-date information. The vast records of the Blue Book are at the club's entire disposal, covering any tourable highway in the United States and Southern Canada. Blue Book field scouts are constantly sending in reports on latest road conditions from all parts of the country. If a road is closed for construction—or a new highway just opened up—the club can not only tell you so at once, but let you know all about whether you can get over it by the time you arrive there on your trip. With this Blue Book itinerary in your hands you will know as much about your whole trip as you do about the pavement in your own block—or how to get to your office from the house.

How to Become a Member—

Simply fill in the blue postcard which you will find in the center of this book and mail it. Upon receiving the card, the club will mail you an identification and membership card with full information. No dues—no fees for service—no cost to you whatever. This club with its efficient touring service merely represents a part of what you really buy with the Blue Book at the nominal sum of \$3.00 per volume.

If the card has accidentally dropped out, please send us a line and we will mail you another at once.
